(4) Add, if such handler had overage, an amount computed by multiplying the pounds of such overage (except overage prorated to other source milk) deducted from each class pursuant to § 1008.45 by the applicable class price: *Provided*, That if (i) overage results in a pool plant having receipts of other source milk, the total overage shall be prorated between other source milk and all other receipts, and (ii) overage results in a nonpool plant located on the same premises as a pool plant, such overage shall be prorated between the quantity transferred from the pool plant and other source milk in such nonpool plant, and the transferor handler shall be charged at the applicable class price for the amount of overage allocated to the transferred quantity.

(5) Add, with respect to other source milk (including overage allocated to other source milk but excluding other order milk) received at each pool plant of such handler in excess of the total volume of his Class II milk (except allowable shrinkage) at such plant, an amount computed by multiplying the hundredweight of such other source milk by the difference between the Class I milk and Class II milk (other than Class II A) prices adjusted, respectively, by the butterfat differentials provided in § 1008.52 (based on the butterfat test of such other source milk): *Provided*, That if the nonpool plant supplying such milk is located outside the marketing area and more than 50 miles from the City Hall, Spokane, Washington, the rate of payment per hundredweight of milk otherwise required by this subparagraph shall be reduced by the rate of location adjustment provided in § 1008.53 for the distance such plant is located from the City Hall, Spokane, Washington, but not to exceed $1.85 per hundredweight.

§ 1008.71 *Computation of uniform price.* For each month the market administrator shall compute the uniform prices per hundredweight for base milk and excess milk (uniform price for excess milk to be computed beginning with March 1956) received from producers as follows:

(a) Combine into one total the values computed pursuant to § 1008.70 for all handlers who made the reports prescribed in § 1008.30 and who made the payments pursuant to § 1008.84 for the preceding month;

(b) Add the aggregate of values of the location adjustments on base milk allowable pursuant to § 1008.81;

(c) Add an amount representing not less than one-half the unobligated cash balance in the producer-settlement fund;

(d) Subtract, if the average butterfat content of the milk represented by the values included under paragraph (a) of this section is greater than 4.0 percent, or add, if such average butterfat content is less than 4.0 percent, an amount computed by multiplying the amount by which the average butterfat content of such milk varies from 4.0 percent by the butterfat differential computed pursuant to § 1008.82 and multiplying the resulting figure by the total hundredweight of such milk;

(e) Multiply the hundredweight of excess milk by the Class II (other than Class II A) price for 4.0 percent milk;

(f) Compute the total value of base milk by subtracting the amount computed pursuant to paragraph (e) of this section from the net amount computed pursuant to paragraph (d) of this section: *Provided*, That if such result is greater than an amount computed by multiplying the hundredweight of base milk by the Class I milk price (for 4.0 percent milk) plus 4 cents, such amount in excess thereof shall be subtracted from the result obtained prior to this proviso;

(g) Divide the net amount obtained in paragraph (f) of this section by the total hundredweight of base milk and subtract not less than 4 cents but less than 5 cents. This result shall be known as the uniform price per hundredweight of base milk of 4.0 percent butterfat content; and

(h) Divide the sum of the amount obtained in paragraph (e) of this section and any amount subtracted pursuant to the proviso of paragraph (f) of this section by the hundredweight of excess milk. This result shall be known as the uniform price per hundredweight of excess milk of 4.0 percent butterfat content.

PAYMENTS

§ 1008.80 *Time and method of payment to producers and to cooperative associations.* (a) On or before the 17th day after the end of each month, each handler, including a cooperative association which is a handler, shall make payment to each producer, for milk received at his plant from such producer during such month pursuant to subparagraphs (1) and (2) of this paragraph: *Provided*, That such payment shall be made, upon request, to a cooperative association, or to its duly authorized agent, qualified under § 1008.5 with respect to milk received from each producer who has given such association authorization by contract or by other written instrument to collect the proceeds from the sale of his milk, and any payment made pursuant to this proviso shall be made on or before the 16th day after the end of such month: *And provided further*, That, if by such date such handler has not received full payment for such month pursuant to § 1008.85, he shall not be deemed to be in violation of this paragraph if he reduces uniformly for all producers his payments per hundredweight pursuant to this paragraph by a total amount not in excess of the reduction in payment from the market administrator; however, the handler shall make such balance of payment uniformly to those producers to whom it is due on or before the date for making payments pursuant to this paragraph next following that on which such balance of payment is received from the market administrator:

(1) At not less than the uniform price for base milk for the quantity of base milk received, adjusted by the location adjustment computed pursuant to § 1008.81 and by the butterfat differential computed pursuant to § 1008.82.

(2) At not less than the uniform price for excess milk for the quantity of excess milk received, adjusted by the butterfat differential computed pursuant to § 1008.82.

(b) On or before the 16th day after the end of each month each handler shall pay to each cooperative association which operates a pool plant for skim milk and butterfat received from such cooperative association during such month, an amount of money computed by multiplying the total pounds of such skim milk and butterfat in each class (pursuant to § 1008.41) by the class price.

(c) None of the provisions of this section shall be construed to restrict any cooperative association qualified under section 8c (5) (F) of the act from making payment for milk to its producers in accordance with such provision of the act.

§ 1008.81 *Location adjustments to producers.* In making payment to producers pursuant to § 1008.80 for milk received at a pool plant to which the provisions of § 1008.53 apply the uniform price per hundredweight for base milk shall be reduced at the same rate per hundredweight as is applicable to Class I milk at such plant pursuant to § 1008.53.

§ 1008.82 *Producer butterfat differential.* In making payments pursuant to § 1008.80 (a) for base milk and for excess milk, there shall be added to, or subtracted from, the uniform prices thereof for each one-tenth of 1 percent that the average butterfat content of the milk received from the producer is above or below 4.0 percent, butterfat differentials computed by the market administrator as follows:

(a) The butterfat differential for base milk shall be computed by multiplying the butterfat differential for Class I milk by the percentage of the butterfat contained in base milk that is allocated to Class I, and by multiplying the remaining percentage of butterfat within base milk by the butterfat differential for Class II milk, adding together the resulting amounts, and rounding to the nearest tenth of a cent.

(b) The butterfat differential for excess milk shall be the same as the butterfat differential for Class II milk.

§ 1008.83 *Producer-settlement fund.* The market administrator shall establish and maintain a separate fund known as the "producer-settlement fund," into which he shall deposit all payments made by handlers pursuant to § 1008.84 and out of which he shall make all payments to handlers pursuant to § 1008.85.

§ 1008.84 *Payments to the producer-settlement fund.* On or before the 14th day after the end of the month during which the milk was received, each handler, including a cooperative association which is a handler, shall pay to the market administrator the amount, if any, by which the total value of such handler's milk as determined pursuant to § 1008.70 is greater than the value of such handler's producer milk computed at the minimum uniform prices as specified in § 1008.80 (a).

§ 1008.85 *Payments out of the producer-settlement fund.* On or before the 15th day after the end of the month during which the milk was received, the

market administrator shall pay to each handler, including a cooperative association which is a handler, the amount, if any, by which the total value of such handler's milk as determined pursuant to § 1008.70 is less than the value of such handler's producer milk computed at the minimum uniform prices as specified in § 1008.80 (a), and less any unpaid obligations of such handler to the market administrator pursuant to §§ 1008.84, 1008.86, 1008.87, and 1008.88: *Provided*, That, if the balance in the producer-settlement fund is insufficient to make all payments pursuant to this paragraph, the market administrator shall reduce uniformly such payments and shall complete such payments as soon as the necessary funds are available.

§ 1008.86 *Adjustments of accounts.* Whenever verification by the market administrator of reports or payments of any handler discloses errors resulting in money due (a) the market administrator from such handler, (b) such handler from the market administrator, or (c) any producer or cooperative association from such handler, the market administrator shall promptly notify such handler of any amount so due and payment thereof shall be made on or before the next date for making payments set forth in the provisions under which such error occurred following the 5th day after such notice.

§ 1008.87 *Marketing services.* (a) Except as set forth in paragraph (b) of this section, each handler, in making payments to producers (other than with respect to milk of such handler's own production) pursuant to § 1008.80 (a), shall make a deduction of 5 cents per hundredweight of milk, or such amount not exceeding 5 cents per hundredweight as the Secretary may prescribe, with respect to the following:

(1) All milk received from producers at a plant not operated by a cooperative association;

(2) All milk received at a plant operated by a cooperative association from producers who are not members of such association; and

(3) All milk received at a plant operated by a cooperative association(s) from producers who are members thereof but for whom any of the services set forth below in this paragraph is not being performed by such association(s), as determined by the market administrator on or before the 14th day after the end of the month. Such moneys shall be expended by the market administrator for the verification of weights, sampling and testing of milk received from producers and in providing for market information to producers; such services to be performed in whole or in part by the market administrator or by an agent engaged by and responsible to him.

(b) In the case of each producer (1) who is a member of, or who has given written authorization for the rendering of marketing services and taking of deduction therefor to, a cooperative association, (2) whose milk is received at a plant not operated by such association, and (3) for whom the market administrator determines that such association is performing the services described in paragraph (a) of this section, each handler shall deduct, in lieu of the deduction specified under paragraph (a) of this section, from the payments made pursuant to § 1008.80 (a) the amount per hundredweight of milk authorized by such producer and shall pay over, on or before the 16th day after the end of the month, such deduction to the association entitled to receive it under this paragraph.

§ 1008.88 *Expense of administration.* As his pro rata share of the expense of administration of this part, each handler, including any cooperative association which is a handler but not including a producer-handler, shall pay to the market administrator on or before the 14th day after the end of each month 4 cents per hundredweight, or such amount not exceeding 4 cents per hundredweight as the Secretary may prescribe, with respect to all receipts within such month of (a) other source milk classified as Class I milk, and (b) milk received from producers, including such handler's own production.

§ 1008.89 *Termination of obligations.* The provisions of this section shall apply to any obligation under this part for the payment of money:

(a) The obligation of any handler to pay money required to be paid under the terms of this part shall, except as provided in paragraphs (b) and (c) of this section, terminate two years after the last day of the month during which the market administrator receives the handler's utilization report on the milk involved in such obligation, unless within such two-year period the market administrator notifies the handler in writing that such money is due and payable. Service of such notice shall be complete upon mailing to the handler's last-known address, and it shall contain, but need not be limited to, the following information:

(1) The amount of the obligation;

(2) The month(s) during which the milk, with respect to which the obligation exists, was received or handled; and

(3) If the obligation is payable to one or more producers or to an association of producers, the name of such producer(s) or association of producers, or if the obligation is payable to the market administrator, the account for which it is to be paid.

(b) If a handler fails or refuses, with respect to any obligation under this part, to make available to the market administrator or his representatives all books and records required by this order to be made available, the market administrator may, within the two-year period provided for in paragraph (a) of this section, notify the handler in writing of such failure or refusal. If the market administrator so notifies a handler, the said two-year period with respect to such obligation shall not begin to run until the first day of the month following the month during which all such books and records pertaining to such obligation are made available to the market administrator or his representatives.

(c) Notwithstanding the provisions of paragraphs (a) and (b) of this section, a handler's obligation under this part to pay money shall not be terminated with respect to any transaction involving fraud or willful concealment of a fact, material to the obligation, on the part of the handler against whom the obligation is sought to be imposed.

(d) Any obligation on the part of the market administrator to pay a handler any money which such handler claims to be due him under the terms of this part shall terminate two years after the end of the month during which the milk involved in the claims was received if an underpayment is claimed, or two years after the end of the month during which the payment (including deduction or set-off by the market administrator) was made by the handler if a refund on such payment is claimed, unless such handler, within the applicable period of time, files, pursuant to section 8c (15) (A) of the act, a petition claiming such money.

EFFECTIVE TIME, SUSPENSION OR TERMINATION

§ 1008.90 *Effective time.* The provisions of this part or any amendment to this part shall become effective at such time as the Secretary may declare and shall continue in force until suspended or terminated pursuant to § 1008.91.

§ 1008.91 *Suspension or termination.* The Seeretary may suspend or terminate this part or any provision of this order whenever he finds this part or any provision of this part obstructs or does not tend to effectuate the declared policy of the act. This part shall terminate in any event whenever the provisions of the act authorizing it cease to be in effect.

§ 1008.92 *Continuing obligations.* If, upon the suspension or termination of any or all provisions of this part there are any obligations thereunder the final accrual or ascertainment of which requires further acts by any person (including the market administrator), such further acts shall be performed notwithstanding such suspension or termination.

§ 1008.93 *Liquidation.* Upon the suspension or termination of the provisions of this part, except this section, the market administrator, or such other liquidating agent as the Secretary may designate, shall if so directed by the Secretary liquidate the business of the market administrator's office, dispose of all property in his possession or control, including accounts receivable and execute and deliver all assignments or other instruments necessary or apropriate to effectuate any such disposition. If a liquidating agent is so designated, all assets, books and records of the market administrator shall be transferred promptly to such liquidating agent. If, upon such liquidation, the funds on hand exceed the amounts required to pay outstanding obligations of the office of the market administrator and to pay necessary expense of liquidation and distribution, such excess shall be distributed to contributing handlers and producers in an equitable manner.

MISCELLANEOUS PROVISIONS

§ 1008.100 *Agents.* The Secretary may, by designation in writing, name any officer or employee of the United States to act as his agent or representative in connection with any of the provisions of this part.

§ 1008.101 *Separability of provisions.* If any provision of this part, or its application to any person or circumstances, is held invalid, the application of such provision and of the remaining provisions of this part, to other persons or circumstances shall not be affected thereby.

Filed at Washington, D. C., this 1st day of November 1955.

[SEAL] F. R. BURKE,
Acting Deputy Administrator.

DEPARTMENT OF HEALTH, EDUCATION, AND WELFARE

Food and Drug Administration

[21 CFR Part 120]

TOLERANCES AND EXEMPTIONS FROM TOLERANCES FOR PESTICIDE CHEMICALS IN OR ON RAW AGRICULTURAL COMMODITIES

NOTICE OF FILING OF PETITION FOR ESTABLISHMENT OF TOLERANCES FOR RESIDUES OF ENDRIN

Pursuant to the provisions of the Federal Food, Drug, and Cosmetic Act (sec. 408 (d) (1), 68 Stat. 512; 21 U. S. C. 346a (d) (1)), the following notice is issued:

A petition has been filed by Shell Chemical Corporation, 460 Park Avenue, New York 22, New York, proposing the establishment of a tolerance of 0.1 part per million for residues of endrin in or on the following raw agricultural commodities: Cabbage, cottonseed, cucumbers, eggplant, peppers, potatoes (Irish), sugar beets (including tops), summer squash, sweet corn (grain), and tomatoes.

Two analytical methods are proposed in the petition for determining residues of endrin. The first method is a microbioassay referred to as a dry film method. It is described in the following:

1. Sun, Y. P., and Pankaskie, J. E.: Drosophila, a Sensitive Insect, for the Microbioassay of Insecticide Residues; Journal of Economic Entomology, Volume 47, page 180 (1954).

2. Sun, Y. P., and Tung Sun, J. Y.: Microbioassay of Insecticides, with Special Reference to Aldrin and Dieldrin; Journal of Economic Entomology, Volume 45, page 26 (1952).

The second method is known as the dechlorination-phenylazide-photometric method. The essential features of this method consist of the following: Endrin, in a hydrocarbon solution, is taken to dryness and dechlorinated with metallic sodium in the presence of isopropyl and methyl alcohols to activate the double bond. The dechlorinated endrin is recovered by diluting the reaction mixture with petroleum ether and separated from alcohols and sodium salts by washing with water. The petroleum ether solution is concentrated to a few milliliters and heated with phenyl azide to form the phenyldihydrotriazole of dechlorinated endrin.

Evaluation of the endrin concentration of the sample can be accomplished by a color-formation procedure. This procedure consists of reacting the endrin phenyldihydrotriazole with diazotized sulfanilic acid which, when acidified with dilute sulfuric acid, gives an intense red color which has maximum absorption at 515 mμ.

Dated: October 31, 1955.

SECURITIES AND EXCHANGE COMMISSION

[File No. 70-3409]

COLUMBIA GAS SYSTEM, INC.

SUPPLEMENTAL ORDER RELEASING JURISDICTION HERETOFORE RESERVED WITH RESPECT TO CERTAIN FEES

OCTOBER 31, 1955.

The Commission having, by order dated September 13, 1955, permitted to become effective the declaration, as amended, of The Columbia Gas System, Inc. ("Columbia"), a registered holding company, regarding the issuance and sale of $40,000,000 principal amount of 3⅝ percent Debentures, Series E, due 1980; and

The Commission having in said order reserved jurisdiction with respect to all requested legal, engineering, and accounting fees and expenses as follows:

	Fees	Expenses
Cravath, Swaine & Moore, counsel for Columbia	$15,000	
Shearman & Sterling & Wright, independent counsel for the successful bidders	[1] 12,500	$1,700
Arthur Andersen & Co., accountants	17,950	2,050
Ralph E. Davis, consulting engineer	15,000	

[1] To be paid by the underwriters.

Columbia having filed further amendments to its declaration setting forth the nature and extent of the services covered by the aforesaid requests; and

The Commission having considered the record, and it appearing to the Commission that the requested fees and expenses are not unreasonable and that jurisdiction with respect thereto should be released:

It is ordered, That the jurisdiction heretofore reserved over the legal, engineering, and accounting fees and expenses incurred herein be, and the same hereby is, released.

By the Commission.

[SEAL] ORVAL L. DUBOIS,
Secretary.

PACIFIC ALASKAN LAND AND LIVESTOCK CO.

ORDER TEMPORARILY SUSPENDING EXEMPTION, STATEMENT OF REASONS THEREFOR, AND NOTICE OF OPPORTUNITY FOR HEARING

OCTOBER 31, 1955.

I. Pacific Alaskan Land and Livestock Company, an Alaska corporation, P. O. Box 2111, Fairbanks, Alaska, having filed with the Commission on April 14, 1955, a notification on Form 1-A, relating to a proposed public offering of 2,992 shares of common stock, par value 25 cents per share; 2,992 shares of 7 percent non-accumulative preferred stock, par value $100 per share; and 1,200 investment contracts (animal units) at $250 per unit, for the purpose of obtaining an exemption from the registration requirements of the Securities Act of 1933, as amended, pursuant to the provisions of section 3 (b) thereof and Regulation A promulgated thereunder; the Staff of the Commission having informed the issuer by letters dated April 21, and May 6,

[1] See Title 31, Part 226, in Rules and Regulations Section, *supra*.

1955, that said notification and offering circular filed as part thereof did not appear to comply with the terms and conditions of said Regulation A in the respects therein specified; and

II. The Commission having reasonable cause to believe:

A. That the terms and conditions of Regulation A have not been complied with in that the issuer failed to file, as required by Rule 221 of Regulation A, certain advertisements relating to the offering which were published on behalf of the issuer on August 9, 1955, in the Seattle Times and sales literature dated August 25, 1955, relating to such offering.

B. That such advertisements, sales literature and offering circular which were used in connection with the offering contained untrue statements of material facts and omitted to state material facts necessary in order to make the statements made, in the light of the circumstances under which they were made, not misleading, particularly with respect to:

(1) The problems and hazards of transporting cattle from the United States to certain islands in and near the Aleutian chain southwest of Alaska;

(2) The difficulty and cost of obtaining a vessel suitable for such transportation of livestock;

(3) The estimate of anticipated future profits and the projection of possible earnings from the proposed cattle raising venture on such islands;

(4) The background, experience and qualifications of Cline S. Koonz as the manager of the proposed cattle raising venture;

(5) Present and proposed slaughter, storage and marketing facilities necessary for the successful operation of the cattle raising venture;

(6) The difficulties of transportation between the several islands on which cattle are to be placed and to the mainland of Alaska and the costs of such transportation;

(7) The use of the proceeds to be secured from the sale of the issuer's securities;

(8) The interests of Cline S. Koonz and other persons in this promotional group and the consideration, if any, paid to the issuer for such interests;

(9) The financial statements of the company including statement of assets, liabilities, capital shares and cash receipts and disbursements;

(10) The terms and conditions of the grazing leases held by the issuer including the exact location of the leasehold and the number of acres covered thereby;

(11) The amount and quality of the grass on these leaseholds on which the issuer intends to graze its cattle and the requirements, if any, for supplemental winter feed and the cost thereof.

C. That oral representations made by Cline S. Koonz in connection with the offering contained untrue statements of material facts and omitted to state material facts necessary in order to make the statements made, in the light of the circumstances under which they were made, not misleading, particularly with respect to:

(1) The existence of a Texas financier willing to invest $150,000 in the venture;

(2) The existence of a leased surplus vessel immediately available for transporting livestock to Alaska;

(3) The names of various cattlemen and farmers who had already invested in the venture;

(4) The financial worth of Cline S. Koonz;

(5) The past successful experience of Cline S. Koonz in a hog raising venture;

(6) The existence of an Idaho rancher who had invested $10,000.

D. That the use of such advertisements, sales literature and offering circular as well as such oral representations would and did operate as a fraud and deceit upon the purchasers.

III. *It is ordered*, Pursuant to Rule 223 (a) of the general rules and regulations under the Securities Act of 1933 that the exemption under Regulation A be, and it hereby is, temporarily suspended.

Notice is hereby given that any person having any interest in the matter may file with the Secretary of the Commission a written request for a hearing; that, within 20 days after receipt of such request, the Commission will, or at any time upon its own motion may, set the matter down for hearing at a place to be designated by the Commission for the purpose of determining whether this order of suspension should be vacated or made permanent, without prejudice, however, to the consideration and presentation of additional matters at the hearing; and that notice of the time and place for said hearing will be promptly given by the Commission.

It is further ordered, That this order and notice shall be served upon Pacific Alaskan Land and Livestock Company, Paul M. Anderson, 700 American Building, Second and Madison, Seattle 4, Washington, and Herbert H. Freise, Jones Building, Walla Walla, Washington, personally or by registered mail or by conformed telegraphic notice, and shall be published in the FEDERAL REGISTER.

By the Commission.

[SEAL] ORVAL L. DUBOIS, *Secretary.*

[File No. 812-955]

MINNEAPOLIS ASSOCIATES, INC., AND E. W. AXE & CO. INC.

NOTICE OF FILING OF APPLICATION FOR EXEMPTION REGARDING AMENDMENT TO ADVISORY CONTRACT WITHOUT STOCKHOLDER APPROVAL

OCTOBER 31, 1955.

Notice is hereby given that Minneapolis Associates, Inc. ("Associates"), investment adviser and principal underwriter for Minnesota Fund, Inc. ("Minnesota"), a registered open-end investment company, has filed an amended application pursuant to section 6 (c) of the Investment Company Act of 1940 ("act") for an order of the Commission exempting from the provisions of section 15 (a) of the act until the next annual meeting of shareholders of Minnesota set for January 26, 1956, a proposed amendment to an investment advisory contract dated May 28, 1952, between Associates and E. W. Axe & Co. Inc.

Axe is also an investment adviser of Minnesota by virtue of the said contract between Axe and Associates. Under the terms of said contract Axe furnishes Associates with information, advice and recommendations concerning the investment of funds and the management of the portfolio of Minnesota. Axe's compensation under said contract for its advisory service amounts to 40 percent of the fee payable to Associates by Minnesota under its investment advisory contract. Under the latter contract, Minnesota pays a quarterly fee of ¼ of 1 percent of the value of the net assets of Minnesota.

On September 21, 1955, Associates and Axe executed an amendment to the present advisory contract which will result in an overall reduction in the amount of the fee to be paid by Associates to Axe. Under the amended contract Axe will receive for its advisory services to Associates each quarter an amount equal to:

0.075 of 1 percent of the first $2,500,000 of the net asset value of Minnesota plus
0.0375 of 1 percent of the second $2,500,000 of the net asset value of Minnesota plus
0.025 of 1 percent of the excess over $5,000,000 of net asset value of Minnesota.

The net asset value for the above purpose is to be computed on the last full business day of the second month of each quarter.

The amendment is to become effective when approved by a majority of the outstanding voting securities of Minnesota or when exempted from the requirements of section 15 (a) of the act by this Commission.

Section 15 (a) of the act provides, among other things, that no person shall serve as investment adviser of a registered investment company except pursuant to a written contract which has been approved by the vote of a majority of the outstanding voting securities of such registered investment company. Section 6 (c) of the act provides that the Commission, upon application, may exempt any person or transaction from any provisions of the act, if and to the extent such exemption is necessary or appropriate in the public interest and consistent with the protection of investors and the purposes fairly intended by the policy and provisions of the act.

Applicant requests that the proposed fee reduction agreement, and the advisory agreement dated May 28, 1952, between it and Axe as amended by the said fee reduction agreement be exempted from the requirements of section 15 (a) of the act until the annual meeting of shareholders of Minnesota to be held on January 26, 1956, or until any adjournment thereof held no later than February 23, 1956.

In support of the amended application, Associates declares that the proposed reduction in the fee to be paid to Axe can have no adverse effect on the shareholders of Minnesota and that the long-term effect of such reduction may be expected to be beneficial to such shareholders to the extent that it will help enable Associates eventually to reduce the fee payable to it by Minnesota under their contract. Associates points out that substantial deficits incurred by it in connection with the promotion and management of Minnesota have not yet been eliminated through earnings derived from its underwriting or management contracts with Minnesota. In addition, Associates states that the cost of calling a special meeting of the shareholders of Minnesota does not seem to be warranted, in view of the fact that the annual meeting of such shareholders is to be held within less than six months from the date of this amended application. It is also stated that the directors of Minnesota have indicated their approval of the proposed fee reduction and the instant amended application.

Notice is further given that any interested person may, not later than November 15, 1955, at 5:30 p. m., submit to the Commission in writing any facts bearing upon the desirability of a hearing on the matter and may request that a hearing be held, such request stating the nature of his interest, the reason for such request and the issues, if any, of fact or law proposed to be controverted, or he may request that he be notified if the Commission should order a hearing thereon. Any such communication or request should be addressed: Secretary, Securities and Exchange Commission, Washington 25, D. C. At any time after said date, the application may be granted as provided in Rule N-5 of the rules and regulations promulgated under the act.

By the Commission.

[SEAL] ORVAL L. DUBOIS, *Secretary.*

DEPARTMENT OF AGRICULTURE

Commodity Exchange Authority

BOARDS OF TRADE DESIGNATED AS CONTRACT MARKETS UNDER THE COMMODITY EXCHANGE ACT

Under the authorization and direction contained in the Commodity Exchange Act, as amended (42 Stat. 998, 49 Stat. 1491, 52 Stat. 205, 54 Stat. 1059, 61 Stat. 941, 62 Stat. 992, 63 Stat. 107, 68 Stat. 913, 69 Stat. 160, 375, 535; 7 U. S. C. 1952 ed. Supp. II, 1-17a), various boards of trade have, from time to time since October 24, 1922, been designated as contract markets under the provisions of the said act. The names of such boards of trade whose designations are presently in effect, the dates when the said designations were issued, the effective dates thereof, and the commodities in which trading is authorized under such designations are as follows:

Board of Trade	Date of designation	Effective date	Commodities
Board of Trade of the City of Chicago	May 3, 1923	May 3, 1923	Wheat, corn, oats, rye, barley, flaxseed, grain sorghums.
	Sept. 14, 1936	Sept. 13, 1936	Cotton.
	Nov. 26, 1940	Dec. 8, 1940	Soybeans, lard, cottonseed oil.
	June 30, 1950	June 30, 1950	Soybean oil.
	Aug. 22, 1951	Aug. 22, 1951	Soybean meal.
Chicago Mercantile Exchange	Sept. 11, 1936	Sept. 13, 1936	Butter, eggs, Irish potatoes.
Chicago Open Board of Trade	Aug. 22, 1955	Sept. 24, 1955	Onions.
	Oct. 24, 1922	Oct. 24, 1922	Wheat, corn, oats, rye, barley, flaxseed, grain sorghums.
	Dec. 7, 1940	Dec. 8, 1940	Soybeans.
Duluth Board of Trade	May 11, 1923	May 11, 1923	Wheat, corn, oats, rye, barley, flaxseed, grain sorghums.
Board of Trade of Kansas City	May 5, 1923	May 5, 1923	Wheat, corn, oats, rye, barley, flaxseed, grain sorghums.
	Sept. 14, 1936	Sept. 13, 1936	Mill feeds.
Memphis Board of Trade Clearing Association.[1]	Dec. 7, 1940	Dec. 8, 1940	Cottonseed meal, soybean meal.
Milwaukee Grain Exchange [2]	Aug. 20, 1953	Aug. 20, 1953	Soybeans.
	Oct. 24, 1922	Oct. 24, 1922	Wheat, corn, oats, rye, barley, flaxseed, grain sorghums.
Minneapolis Grain Exchange [3]	May 2, 1923	May 2, 1923	Wheat, corn, oats, rye, barley, flaxseed, grain sorghums.
	Sept. 11, 1950	Sept. 11, 1950	Soybeans.
New Orleans Cotton Exchange	Sept. 8, 1936	Sept. 13, 1936	Cotton.
	Nov. 26, 1940	Dec. 8, 1940	Cottonseed oil.
New York Cotton Exchange	Sept. 11, 1936	Sept. 13, 1936	Cotton.
New York Mercantile Exchange	Sept. 11, 1936	Sept. 13, 1936	Butter, eggs.
	Nov. 28, 1941	Dec. 1, 1941	Irish potatoes.
	May 5, 1949	May 5, 1949	Rice.
	Aug. 17, 1955	Sept. 24, 1955	Onions.
New York Produce Exchange	July 21, 1926	July 21, 1926	Wheat, corn, oats, barley, rye, flaxseed, grain sorghums.
	Nov. 26, 1940	Dec. 8, 1940	Cottonseed oil, soybean oil, tallow.
Portland Grain Exchange	Apr. 30, 1929	Apr. 30, 1929	Wheat.
Merchants' Exchange of St. Louis	May 12, 1923	May 12, 1923	Wheat, corn, oats, barley, rye, flaxseed, grain sorghums.
	Sept. 11, 1936	Sept. 13, 1936	Mill feeds.
San Francisco Grain Exchange [4]	Apr. 19, 1939	Apr. 19, 1939	Wheat, barley.
Seattle Grain Exchange [5]	Jan. 29, 1926	Jan. 29, 1926	Wheat.
Wool Associates of the New York Cotton Exchange, Inc.	June 1, 1938	June 1, 1938	Wool tops.
	Oct. 14, 1954	Oct. 27, 1954	Wool.

[1] Originally designated as Memphis Merchants Exchange Clearing Association, designation changed to present name effective April 19, 1954.
[2] Originally designated as the Chamber of Commerce of the City of Milwaukee, designation changed to Milwaukee Grain & Stock Exchange effective July 20, 1931, and to present name effective December 21, 1946.
[3] Originally designated as the Chamber of Commerce of Minneapolis, designation changed to present name effective January 1, 1947.
[4] Successor to the Grain Trade Association of the San Francisco Chamber of Commerce, designated as a contract market for barley, October 31, 1922, and for wheat, November 3, 1930.
[5] Originally designated as the Merchants Exchange Clearing House of Seattle, designation changed to present name effective October 1, 1927.

Done at Washington, D. C., this 27th day of October 1955.

Federal Maritime Board

GREAT LAKES-BORDEAUX/HAMBURG RANGE WESTBOUND CONFERENCE AND ATLANTIC (PASSENGER) CONFERENCE

NOTICE OF AGREEMENTS FILED FOR APPROVAL

Notice is hereby given that the following described agreements have been filed with the Board for approval pursuant to section 15 of the Shipping Act, 1916, as amended; 39 Stat. 733, 46 U. S. C. 814.

(1) Agreement No. 7830-2, between the member lines of the Great Lakes—Bordeaux/Hamburg Range Westbound Conference modifies the basic agreement of that conference (No. 7830) to include therein a specific provision for the establishment of contract/non-contract rates in the westbound trade from ports within the Bordeaux/Hamburg Range to ports of the Great Lakes of the United States served by the member lines of such conference.

(2) Agreement No. 7840-27, between the member lines of the Atlantic (Passenger) Conference modifies the basic conference agreement (No. 7840) to amplify the provision governing the nomination of arbitrators.

Interested parties may inspect these agreements and obtain copies thereof at the Regulation Office, Federal Maritime Board, Washington, D. C., and may submit, within 20 days after publication of this notice in the FEDERAL REGISTER, written statements with reference to either of the agreements and their position as to approval, disapproval, or modification, together with request for hearing should such hearing be desired.

Dated: November 1, 1955.

By order of the Federal Maritime Board.

FEDERAL POWER COMMISSION

[Docket No. G-9568]

HUNT OIL CO.

ORDER SUSPENDING PROPOSED CHANGES IN RATES

Hunt Oil Company (Applicant) on September 22, 1955, tendered for filing proposed changes in presently effective rate schedules for sales subject to the jurisdiction of the Commission. The proposed changes, which constitute increased rates and charges, are contained in the following designated filing which is proposed to become effective on the date shown:

Description	Purchaser	Rate schedule designation	Effective date[1]
Notice of change, dated Sept. 22, 1955.	United Gas Pipe Line Co.	Supplement No. 5 to Applicant's FPC Gas Rate Schedule No. 5.	Nov. 1, 1955

[1] The stated effective date is the first day after expiration of the required 30 days' notice, or the effective date proposed by Applicant if later.

The aforesaid filing would increase the rate for gas sold to United Gas Pipe Line Company in the Duck Lake Field, St. Mary and St. Martin Parishes, Louisiana, from the presently effective rate of 13.5 cents per Mcf to 21.2 cents per Mcf.

The increased rates and charges proposed in the aforesaid filing have not been shown to be justified, and may be unjust, unreasonable, unduly discriminatory, or preferential, or otherwise unlawful.

The Commission finds:

(1) The statement submitted by Applicant in support of the increase from 13.5 cents per Mcf to 21.2 cents per Mcf does not in any way justify the proposed rate.

(2) It is necessary and proper in the public interest and to aid in the enforcement of the provisions of the Natural Gas Act that the Commission enter upon a hearing concerning the lawfulness of the said proposed changes, and that the above-designated supplement be suspended and the use thereof deferred as hereinafter ordered.

The Commission orders:

(A) Pursuant to the authority contained in sections 4 and 15 of the Natural Gas Act and the Commission's general rules and regulations (18 CFR, Chapter I), a public hearing be held upon a date to be fixed by notice from the Secretary concerning the lawfulness of said proposed changes in rates and, pending such hearing and decision thereon, the above-designated supplement be and the same hereby is suspended and the use thereof deferred until April 1, 1956, and until such further time as it is made effective in the manner prescribed by the Natural Gas Act.

(B) Interested State commissions may participate as provided by sections 1.8 and 1.37 (f) (18 CFR 1.8 and 1.37 (f)) of the Commission's rules of practice and procedure.

Adopted: October 21, 1955.

Issued: October 28, 1955.

By the Commission.

[Docket No. G-9570]

W. H. COCKE

ORDER SUSPENDING PROPOSED CHANGES IN RATES

W. H. Cocke (Applicant), on September 29, 1955, tendered for filing proposed changes in presently effective rate schedules for sales subject to the jurisdiction of the Commission. The proposed changes, which constitute increased rates and charges, are contained in the following designated filing which is proposed to become effective on the date shown:

Description	Purchaser	Rate schedule designation	Effective date[1]
Notice of change, dated Sept. 29, 1955.	United Gas Pipe Line Co.	Supplement No. 2 to Applicant's FPC Gas Rate Schedule No. 1.	Nov. 1, 1955

[1] The stated effective date is the first day after expiration of the required 30 days' notice, or the effective date proposed by Applicant if later.

The aforesaid filing would increase the rate for gas sold to United Gas Pipe Line Company in the Duck Lake Field, St. Mary and St. Martin Parishes, Louisiana, from the presently effective rate of 13.5 cents per Mcf to 21.2 cents per Mcf.

The increased rates and charges proposed in the aforesaid filing have not been shown to be justified, and may be unjust, unreasonable, unduly discriminatory, or preferential, or otherwise unlawful.

The Commission finds:

(1) The statement submitted by Applicant in support of the increase from 13.5 cents per Mcf to 21.2 cents per Mcf does not in any way justify the proposed rate.

(2) It is necessary and proper in the public interest and to aid in the enforcement of the provisions of the Natural Gas Act that the Commission enter upon a hearing concerning the lawfulness of the said proposed changes, and that the above-designated supplement be suspended and the use thereof deferred as hereinafter ordered.

The Commission orders:

(A) Pursuant to the authority contained in sections 4 and 15 of the Natural Gas Act and the Commission's general rules and regulations (18 CFR, Chapter I), a public hearing be held upon a date to be fixed by notice from the Secretary concerning the lawfulness of said proposed changes in rates and, pending such hearing and decision thereon, the above-designated supplement be and the same hereby is suspended and the use thereof deferred until April 1, 1956, and until such further time as it is made effective in the manner prescribed by the Natural Gas Act.

(B) Interested State commissions may participate as provided by sections 1.8 and 1.37 (f) (18 CFR 1.8 and 1.37 (f)) of the Commission's rules of practice and procedure.

Adopted: October 21, 1955.

Issued: October 28, 1955.

By the Commission.

[SEAL] J. H. GUTRIDE, *Acting Secretary.*

[Docket No. G-9569]

C. N. JOHNSTON ET AL.

ORDER SUSPENDING PROPOSED CHANGES IN RATES

C. N. Johnston et al. (Applicant), on September 30, 1955, tendered for filing proposed changes in presently effective rate schedules for sales subject to the jurisdiction of the Commission. The proposed changes, which constitute increased rates and charges, are contained in the following designated filing which is proposed to become effective on the date shown:

Description	Purchaser	Rate schedule designation	Effective date[1]
Notice of change, dated Sept. 27, 1955.	United Gas Pipe Line Co.	Supplement No. 2 to Applicant's FPC Gas Rate Schedule No. 1.	Nov. 1, 1955

[1] The stated effective date is the first day after expiration of the required 30 days' notice, or the effective date proposed by Applicant if later.

The aforesaid filing would increase the rate for gas sold to United Gas Pipe Line Company in the Duck Lake Field, St. Mary and St. Martin Parishes, Louisiana, from the presently effective rate of 13.5 cents per Mcf to 21.2 cents per Mcf.

The increased rates and charges proposed in the aforesaid filing have not

pending such hearing and decision thereon, the above-designated supplement be and the same hereby is suspended and the use thereof deferred until April 1, 1956, and until such further time as it is made effective in the manner prescribed by the Natural Gas Act.

(B) Interested State commissions may participate as provided by sections 1.8 and 1.37 (f) (18 CFR 1.8 and 1.37 (f)) of the Commission's rules of practice and procedure.

Adopted: October 21, 1955.

Issued: October 28, 1955.

[Docket No. G-3861]

HOLLY NESTER

NOTICE OF APPLICATION AND DATE OF HEARING

OCTOBER 31, 1955.

Take notice that Holly Nester, Agent—Garretson Lease (Applicant), an individual whose address is Millstone, West Virginia, filed on September 30, 1954, an application for a certificate of public convenience and necessity pursuant to section 7 of the Natural Gas Act, authorizing Applicant to render service as hereinafter described, subject to the jurisdiction of the Commission, all as more fully represented in the application which is on file with the Commission and open for public inspection.

Applicant sells natural gas which is produced from Garretson Lease, Sherman District, Calhoun County, West Virginia, to Godfrey L. Cabot, Inc., for transportation in interstate commerce for resale.

This matter is one that should be disposed of as promptly as possible under the applicable rules and regulations and to that end:

Take further notice that, pursuant to the authority contained in and subject to the jurisdiction conferred upon the Federal Power Commission by sections 7 and 15 of the Natural Gas Act, and the Commission's rules of practice and procedure, a hearing will be held on December 2, 1955, at 9:50 a. m., e. s. t., in a hearing room of the Federal Power Commission, 441 G Street NW., Washington, D. C., concerning the matters involved in and the issues presented by such application: *Provided, however,* That the Commission may, after a non-contested hearing, dispose of the proceedings pursuant to the provisions of section 1.30 (c) (1) or (c) (2) of the Commission's rules of practice and procedure. Under the procedure herein provided for, unless otherwise advised, it will be unnecessary for Applicant to appear or be represented at the hearing.

Protests or petitions to intervene may be filed with the Federal Power Commission, Washington 25, D. C., in accordance with the rules of practice and procedure (18 CFR 1.8 or 1.10) on or before November 18, 1955. Failure of any party to appear at and participate in the hearing shall be construed as waiver of and concurrence in omission herein of the intermediate decision procedure in cases where a request therefor is made.

[SEAL] J. H. GUTRIDE, *Acting Secretary.*

[Docket No. G-9571]

ARKANSAS FUEL OIL CORP.

ORDER SUSPENDING PROPOSED CHANGES IN RATES

Arkansas Fuel Oil Corporation (Applicant), on September 30, 1955, tendered for filing proposed changes in presently effective rate schedules for sales subject to the jurisdiction of the Commission. The proposed changes, which constitute increased rates and charges, are contained in the following designated filing which is proposed to become effective on the date shown:

Description	Purchaser	Rate schedule designation	Effective date [1]
Notice of change (undated)..	United Gas Pipe Line Co...	Supplement No. 3 to Applicant's FPC Gas Rate Schedule No. 13.	Nov. 1, 1955

[1] The stated effective date is the first day after expiration of the required 30 days' notice, or the effective date proposed by Applicant if later.

The aforesaid filing would increase the rate for gas sold to United Gas Pipe Line Company in the Duck Lake Field, St. Mary and St. Martin Parishes, Louisiana, from the presently effective rate of 13.5 cents per Mcf to 21.2 cents per Mcf.

The increased rates and charges proposed in the aforesaid filing have not been shown to be justified, and may be unjust, unreasonable, unduly discriminatory, or preferential, or otherwise unlawful.

The Commission finds:

(1) The statement submitted by Applicant in support of the increase from 13.5 cents per Mcf to 21.2 cents per Mcf does not in any way justify the proposed rate.

(2) It is necessary and proper in the public interest and to aid in the enforcement of the provisions of the Natural Gas Act that the Commission enter upon a hearing concerning the lawfulness of the said proposed changes, and that the above-designated supplement be suspended and the use thereof deferred as hereinafter ordered.

The Commission orders:

(A) Pursuant to the authority contained in sections 4 and 15 of the Natural Gas Act and the Commission's general rules and regulations (18 CFR, Chapter I), a public hearing be held upon a date to be fixed by notice from the Secretary concerning the lawfulness of said proposed changes in rates and charges; and, pending such hearing and decision thereon, the above-designated supplement be and the same hereby is suspended and the use thereof deferred until April 1, 1956, and until such further time as it is made effective in the manner prescribed by the Natural Gas Act.

(B) Interested State commissions may participate as provided by sections 1.8 and 1.37 (f) (18 CFR 1.8 and 1.37 (f)) of the Commission's rules of practice and procedure.

Adopted: October 21, 1955.

Issued: October 28, 1955.

By the Commission.

[SEAL] J. H. GUTRIDE, *Acting Secretary.*

[Docket No. G-9572]

UNITED CARBON CO.

ORDER SUSPENDING PROPOSED CHANGES IN RATES AND DENYING PETITION FOR SHORTENED SUSPENSION PERIOD

United Carbon Company (Applicant), on September 30, 1955, tendered for filing proposed changes in presently effective rate schedules for sales subject to the jurisdiction of the Commission. The proposed changes, which constitute increased rates and charges, are contained in the following designated filings, which are proposed to become effective on the date shown:

Description	Purchaser	Rate schedule designation	Effective date [1]
Supplement agreement, dated Sept 29, 1955.	United Fuel Gas Co.....	Supplement No. 16 to Applicant's FPC Gas Rate Schedule No. 12.	Nov. 1, 1955
Notice of change, dated Sept. 29, 1955.	....do.....	Supplement No. 17 to Applicant's FPC Gas Rate Schedule No. 12.	Do.

[1] The stated effective date is the first day after expiration of the required 30 days' notice, or the effective date proposed by Applicant if later.

On October 14, 1955, Applicant filed a petition requesting a shortened suspension period of one week.

The increased rates and charges proposed in the aforesaid filings have not been shown to be justified, and may be unjust, unreasonable, unduly discriminatory, or preferential, or otherwise unlawful.

The Commission finds:

(1) Applicant's petition requesting a shortened suspension period does not present sufficient facts to warrant shortening the suspension period to one week.

(2) It is necessary and proper in the public interest and to aid in the enforcement of the provisions of the Natural Gas Act that the Commission enter upon a hearing concerning the lawfulness of the said proposed changes, and that the above-designated supplements be suspended and the use thereof deferred as hereinafter ordered.

The Commission orders:

(A) Pursuant to the authority contained in sections 4 and 15 of the Natural Gas Act and the Commission's general rules and regulations (18 CFR, Chapter I), a public hearing be held upon a date to be fixed by notice from the Secretary concerning the lawfulness of said proposed changes in rates and charges, and, pending such hearing and decision thereon, the above-designated supplements be and the same hereby are suspended and the use thereof deferred until April 1, 1956, for lack of sufficient grounds to warrant shortening the suspension period, and until such further time as they are made effective in the manner prescribed by the Natural Gas Act.

(B) Interested State commissions may participate as provided by sections 1.8 and 1.37 (f) of the Commission's rules of practice and procedure (18 CFR 1.8 and 1.37 (f)).

Adopted: October 21, 1955.

Issued: October 28, 1955.

By the Commission.

PROGRESS PETROLEUM COMPANY OF TEXAS ET AL.

NOTICE OF APPLICATION AND DATE OF HEARING

OCTOBER 31, 1955.

In the matter of Progress Petroleum Company of Texas, E. Weber Ogden and Dan J. White, Jr.; Docket No. G-4223.

Take notice that Progress Petroleum Company of Texas (a Texas corporation, whose address is Commerce Building, Houston, Texas, and E. Weber Ogden and Dan J. White, Jr. (individuals) whose address is Esperson Building, Houston, Texas (Applicants), filed on October 7, 1954, an application for a certificate of public convenience and necessity pursuant to section 7 of the Natural Gas Act, authorizing Applicant to render service as hereinafter described subject to the jurisdiction of the Commission, all as more fully represented in the application which is on file with the Commission and open for public inspection.

Applicants sell natural gas which is produced from Hutchins South Field, Wharton County, Texas, to Tennessee Gas Transmission Company for transportation in interstate commerce for resale.

This matter is one that should be disposed of as promptly as possible under the applicable rules and regulations and to that end:

Take further notice that, pursuant to the authority contained in and subject to the jurisdiction conferred upon the Federal Power Commission by sections 7 and 15 of the Natural Gas Act, and the Commission's rules of practice and procedure, a hearing will be held on December 1, 1955, at 9:30 a. m., e. s. t., in a hearing room of the Federal Power Commission, 441 G. Street NW., Washington, D. C., concerning the matters involved in and the issues presented by such application: *Provided, however,* That the Commission may, after a non-contested hearing, dispose of the proceedings pursuant to the provisions of section 1.30 (c) (1) or (c) (2) of the Commission's rules of practice and procedure. Under the procedure herein provided for, unless otherwise advised, it will be unnecessary for Applicant to appear or be represented at the hearing.

Protests or petitions to intervene may be filed with the Federal Power Commission, Washington 25, D. C., in accordance with the rules of practice and procedure (18 CFR 1.8 or 1.10) on or before November 17, 1955. Failure of any party to appear at and participate in the hearing shall be construed as waiver of and concurrence in omission herein of the intermediate decision procedure in cases where a request therefor is made.

[SEAL] J. H. GUTRIDE, *Acting Secretary.*

[Docket No. G-9573]

COLUMBIAN FUEL CORP.

ORDER SUSPENDING PROPOSED CHANGES IN RATES AND DENYING PETITION FOR SHORTENED SUSPENSION PERIOD

Columbian Fuel Corporation (Applicant), on September 30, 1955, tendered for filing proposed changes in presently effective rate schedules for sales subject to the jurisdiction of the Commission. The proposed changes, which constitute increased rates and charges, are contained in the following designated filings, which are proposed to become effective on the date shown:

Description	Purchaser	Rate schedule designation	Effective date [1]
Supplemental agreement, dated Sept. 27, 1955.	United Fuel Gas Co.....	Supplement No. 11 to Applicant's FPC Gas Rate Schedule No. 10.	Nov. 1, 1955
Notice of change, dated Sept. 29, 1955.	....do.....	Supplement No. 12 to Applicant's FPC Gas Rate Schedule No. 10.	Do.

[1] The stated effective date is the first day after expiration of the required 30 days' notice, or the effective date proposed by Applicant if later.

On October 14, 1955, Applicant filed a petition requesting a shortened suspension period of one week.

The increased rates and charges proposed in the aforesaid filings have not been shown to be justified, and may be unjust, unreasonable, unduly discriminatory, or preferential, or otherwise unlawful.

The Commission finds:

(1) Applicant's petition requesting a shortened suspension period does not present sufficient facts to warrant shortening the suspension period to one week.

(2) It is necessary and proper in the public interest and to aid in the enforcement of the provisions of the Natural Gas Act that the Commission enter upon a hearing concerning the lawfulness of the said proposed changes, and that the above-designated supplements be suspended and the use thereof deferred as hereinafter ordered.

The Commission orders:

(A) Pursuant to the authority contained in sections 4 and 15 of the Natural Gas Act and the Commission's general rules and regulations (18 CFR, Chapter I), a public hearing be held upon a date to be fixed by notice from the Secretary concerning the lawfulness of said proposed changes in rates and charges; and, pending such hearing and decision thereon, the above-designated supplements be and the same hereby are suspended and the use thereof deferred until April 1, 1956, for lack of sufficient grounds to warrant shortening the suspension period, and until such further time as they are made effective in the manner prescribed by the Natural Gas Act.

(B) Interested State commissions may participate as provided by sections 1.8 and 1.37 (f) of the Commission's rules of practice and procedure (18 CFR 1.8 and 1.37 (f)).

Adopted: October 21, 1955.

Issued: October 28, 1955.

By the Commission.

[SEAL] J. H. GUTRIDE, *Acting Secretary.*

[F. R. Doc. 55-8900; Filed, Nov. 3, 1955; 8:46 a. m.]

[Docket No. G-9574]

HUMBLE OIL AND REFINING CO.

ORDER SUSPENDING PROPOSED CHANGES IN RATES

Humble Oil and Refining Company (Applicant), on September 28, 1955, tendered for filing proposed changes in presently effective rate schedules for sales subject to the jurisdiction of the Commission. The proposed changes, which constitute increased rates and charges, are contained in the following designated filing which is proposed to become effective on the date shown:

Description	Purchaser	Rate schedule designation	Effective date [1]
Notice of change, dated Sept. 26, 1955.	United Gas Pipe Line Co...	Supplement No. 3 to Applicant's FPC Gas Rate Schedule No. 35.	Nov. 1, 1955

[1] The stated effective date is the first day after expiration of the required 30 days' notice, or the effective date proposed by Applicant if later.

The aforesaid filing would increase the rate for gas sold to United Gas Pipe Line Company in the Duck Lake Field, St. Mary and St. Martin Parishes, Louisiana, from the presently effective rate of 13.5 cents per Mcf to 21.2 cents per Mcf.

The increased rates and charges proposed in the aforesaid filing have not been shown to be justified, and may be unjust, unreasonable, unduly discriminatory, or preferential, or otherwise unlawful.

The Commission finds:

(1) The statement submitted by Applicant in support of the increase from 13.5 cents per Mcf to 21.2 cents per Mcf does not in any way justify the proposed rate.

(2) It is necessary and proper in the public interest and to aid in the enforcement of the provisions of the Natural Gas Act that the Commission enter upon a hearing concerning the lawfulness of the said proposed changes, and that the above-designated supplement be suspended and the use thereof deferred as hereinafter orders.

The Commission orders:

(A) Pursuant to the authority contained in section 4 and 15 of the Natural Gas Act and the Commission's general rules and regulations (18 CFR, Chapter I), a public hearing be held upon a date to be fixed by notice from the Secretary concerning the lawfulness of said proposed change in rates and charges; and, pending such hearing and decision thereon, the above-designated supplement be and the same hereby is suspended and the use thereof deferred until April 1, 1956, and until such further time as it is made effective in the manner prescribed by the Natural Gas Act.

(B) Interested State commissions may participate as provided by sections 1.8 and 1.37 (f) (18 CFR 1.8 and 1.37 (f)) of the Commission's rules of practice and procedure.

Adopted: October 21, 1955.

Issued: October 28, 1955.

By the Commission.

[SEAL] J. H. GUTRIDE, *Acting Secretary.*

[Docket No. G-9575]

R. H. GOODRICH

ORDER SUSPENDING PROPOSED CHANGES IN RATES

R. H. Goodrich (Applicant), on September 29, 1955, tendered for filing proposed changes in presently effective rate schedules for sales subject to the jurisdiction of the Commission. The proposed changes, which constitute increased rates and charges, are contained in the following designated filing which is proposed to become effective on the date shown:

Description	Purchaser	Rate schedule designation	Effective date [1]
Notice of change, dated Sept. 27, 1955.	United Gas Pipe Line Co...	Supplement No. 2 to Applicant's FPC Gas Rate Schedule No. 1.	Nov. 1, 1955

[1] The stated effective date is the first day after expiration of the required 30 days' notice, or the effective date proposed by Applicant if later.

The aforesaid filing would increase the rate for gas sold to United Gas Pipe Line Company in the Duck Lake Field, St. Mary and St. Martin Parishes, Louisiana, from the presently effective rate of 13.5 cents per Mcf to 21.2 cents per Mcf.

The increased rates and charges proposed in the aforesaid filing have not been shown to be justified, and may be unjust, unreasonable, unduly discriminatory, or preferential, or otherwise unlawful.

The Commission finds:

(1) The statement submitted by Applicant in support of the increase from 13.5 cents per Mcf to 21.2 cents per Mcf does not in any way justify the proposed rate.

(2) It is necessary and proper in the public interest and to aid in the enforcement of the provisions of the Natural Gas Act that the Commission enter upon a hearing concerning the lawfulness of the said proposed changes, and that the above-designated supplement be suspended and the use thereof deferred as hereinafter ordered.

The Commission orders:

(A) Pursuant to the authority contained in sections 4 and 15 of the Natural Gas Act and the Commission's general rules and regulations (18 CFR, Chapter I), a public hearing be held upon a date to be fixed by notice from the Secretary concerning the lawfulness of said proposed changes in rates and charges; and, pending such hearing and decision thereon, the above-designated supplement be and the same hereby is suspended and the use thereof deferred until April 1, 1956, and until such further time as it is made effective in the manner prescribed by the Natural Gas Act.

(B) Interested State commissions may participate as provided by sections 1.8 and 1.37 (f) (18 CFR 1.8 and 1.37 (f)) of the Commission's rules of practice and procedure.

Adopted: October 21, 1955.

Issued: October 28, 1955.

By the Commission.

[SEAL] J. H. GUTRIDE, *Acting Secretary.*

[F. R. Doc. 55-8902; Filed, Nov. 3, 1955; 8:46 a. m.]

[Docket No. G-6921]

NOLLEM OIL AND GAS CORP.

NOTICE OF APPLICATION AND DATE OF HEARING

OCTOBER 31, 1955.

Take notice that Nollem Oil and Gas Corporation (Applicant), a Pennsylvania corporation whose address is Pittsburgh, Pennsylvania, filed on November 30, 1954, an application for a certificate of public convenience and necessity pursuant to section 7 of the Natural Gas Act, authorizing Applicant to render service as hereinafter described, subject to the jurisdiction of the Commission, all as more fully represented in the application which is on file with the Commission and open for public inspection.

Applicant sells natural gas which is produced from Middle Fork and Roaring Creek Districts, Randolph County, West Virginia, to Cumberland and Allegheny Gas Company for transportation in interstate commerce for resale.

This matter is one that should be disposed of as promptly as possible under the applicable rules and regulations and to that end:

Take further notice that, pursuant to the authority contained in and subject to the jurisdiction conferred upon the Federal Power Commission by sections 7 and 15 of the Natural Gas Act, and the Commission's rules of practice and procedure, a hearing will be held on December 1, 1955, at 9:50 a. m., e. s. t., in a hearing room of the Federal Power Commission, 441 G. Street NW., Washington, D. C., concerning the matters involved in and the issues presented by such application: *Provided, however,* That the Commission may, after a noncontested hearing, dispose of the proceedings pursuant to the provisions of section 1.30 (c) (1) or (c) (2) of the Commission's rules of practice and procedure. Under the procedure herein provided for, unless otherwise advised, it will be unnecessary for Applicant to appear or be represented at the hearing.

Protests or petitions to intervene may be filed with the Federal Power Commission, Washington 25, D. C., in accordance with the rules of practice and procedure (18 CFR 1.8 or 1.10) on or before November 17, 1955. Failure of any party to appear at and participate in the hearing shall be construed as waiver of and concurrence in omission herein of the intermediate decision procedure in cases where a request therefor is made.

[SEAL] J. H. GUTRIDE, *Acting Secretary.*

[F. R. Doc. 55-8921; Filed, Nov. 3, 1955; 8:50 a. m.]

[Docket No. G-2306, etc.]

AMERICAN LOUISIANA PIPE LINE CO. ET AL.

NOTICE OF APPLICATIONS, CONSOLIDATION OF PROCEEDINGS, AND DATE OF RESUMED HEARING

OCTOBER 31, 1955.

In the matters of American Louisiana Pipe Line Company, Docket No. G-2306; Texas Gas Transmission Corporation, Docket No. G-2311; Michigan Wisconsin Pipe Line Company, Docket No. G-2327; Michigan Consolidated Gas Company, Docket No. G-2328; Lincoln Natural Gas Company, Inc., Docket No. G-9270; Illinois Power Company, Docket No. G-9293.

Take notice that applications pursuant to section 7 (a) of the Natural Gas Act have been filed by the following applicants on the dates indicated:

Docket No.	Applicant	Date filed
G-9270	Lincoln Natural Gas Co., Inc.	Aug. 29, 1955
G-9293	Illinois Power Co.	Aug. 31, 1955

Illinois Power Company seeks an order directing Michigan-Wisconsin Pipe Line Company to establish physical connection of its transportation facilities with the facilities proposed to be constructed by Applicant, and to sell and deliver to Applicant its natural gas requirements for the Village of Cambridge, Illinois. Illinois Power Company will construct the facilities necessary to connect the Village of Cambridge with Michigan-Wisconsin Pipe Line Company at an estimated cost of $130,000, and estimates its third year peak-day requirements at 610 Mcf.

Lincoln Natural Gas Company, Inc., of Rockport, Indiana, seeks an order directing American Louisiana Pipe Line Company to establish physical connection of its transportation facilities with the facilities to be installed by Applicant, at an estimated cost of $200,000, to connect the Town of Rockport, Indiana, to the transmission line of American Louisiana. Lincoln Natural Gas Company, Inc., estimates its third year peak-day requirements at 1,600 Mcf.

The applications are on file with the Commission and open for public inspection.

Take further notice that, on September 16, 1955, American Louisiana Pipe Line Company, Michigan-Wisconsin Pipe Line Company, and Michigan Consolidated Gas Company, filed a Joint Motion for Resumption of Hearings in the above proceedings with respect to the matters which were reserved for further hearings by the Commission's Opinion No. 276 and accompanying Order, issued October 1, 1954.

In paragraph (B) (ii) of said order, the Commission provided:

(ii) The deliveries and sales of gas to be made by American Louisiana, together with the question of the authorization of the 117 miles of 22-inch line hereinbefore referred to, are hereby made subject to further order of the Commission in this proceeding.

In paragraph (D) of said order, the Commission further provided:

(D) Hearings on the applications of Michigan Wisconsin Pipe Line Company, Docket No. G-2327, and Michigan Consolidated Gas Company, Docket No. G-2328, together with all petitions seeking gas service from American Louisiana and Michigan Wisconsin in these proceedings and the matters specifically reserved for further disposition in American Louisiana Pipe Line Company, Docket No. G-2306, shall be subject to further order of the Commission.

These related matters should be heard on a consolidated record and disposed of as promptly as possible under the applicable rules and regulations, and to that end:

Take further notice that pursuant to the authority contained in and subject to the jurisdiction conferred upon the Federal Power Commission by sections 7 and 15 of the Natural Gas Act, and the Commission's rules of practice and procedure, hearings in the above proceedings with respect to the matters which were reserved for further hearings by paragraph (B) (ii) and paragraph (D) of the Commission's Opinion No. 276 and accompanying Order, issued October 1, 1954, will be resumed on December 7, 1955, at 10:00 a. m., e. s. t., in a hearing room of the Federal Power Commission, 441 G Street NW., Washington, D. C.; hearing will also be held concerning the matters involved in and the issues presented by the applications in Docket Nos. G-9270 and G-9293.

Protests or petitions to intervene in Docket Nos. G-9270 and G-9293 may be filed with the Federal Power Commission, Washington 25, D. C., in accordance with the rules of practice and procedure (18 CFR 1.8 or 1.10) on or before November 15, 1955.

[SEAL] J. H. GUTRIDE, *Acting Secretary.*

[F. R. Doc. 55-8918; Filed, Nov. 3, 1955; 8:50 a. m.]

[Docket No. G-9576]

TEXAS CO.

ORDER SUSPENDING PROPOSED CHANGES IN RATES

The Texas Company (Applicant), on September 30, 1955, tendered for filing proposed changes in presently effective rate schedules for sales subject to the jurisdiction of the Commission. The proposed changes, which constitute increased rates and charges, are contained in the following designated filing is proposed to become effective on the date shown:

Description	Purchaser	Rate schedule designation	Effective date [1]
Notice of change, dated Sept. 29, 1955.	United Gas Pipe Line Co...	Supplement No. 3 to Applicant's FPC Gas Rate Schedule No. 102.	Nov. 1, 1955

[1] The stated effective date is the first day after expiration of the required 30 days' notice, or the effective date proposed by Applicant if later.

The aforesaid filing would increase the rate for gas sold to United Gas Pipe Line Company in the Duck Lake Field, St. Mary and St. Martin Parishes Louisiana, from the presently effective rate of 13.5 cents per Mcf to 21.2 cents per Mcf.

The increased rates and charges proposed in the aforesaid filing have not been shown to be justified, and may be unjust, unreasonable, unduly discriminatory, or preferential, or otherwise unlawful.

The Commission finds:

(1) The statement submitted by Applicant in support of the increase from 13.5 cents per Mcf to 21.2 cents per Mcf does not in any way justify the proposed rate.

(2) It is necessary and proper in the public interest and to aid in the enforcement of the provisions of the Natural Gas Act that the Commission enter upon a hearing concerning the lawfulness of the said proposed changes, and that the above-designated supplement be suspended and the use thereof deferred as hereinafter ordered.

The Commission orders:

(A) Pursuant to the authority contained in sections 4 and 15 of the Natural Gas Act and the Commission's general rules and regulations (18 CFR, Chapter I), a public hearing be held upon a date to be fixed by notice from the Secretary concerning the lawfulness of said proposed changes in rates and charges; and, pending such hearing and decision thereon, the above-designated supplement be and the same hereby is suspended and the use thereof deferred until April 1, 1956, and until such further time as it is made effective in the manner prescribed by the Natural Gas Act.

(B) Interested State commissions may participate as provided by sections 1.8 and 1.37 (f) (18 CFR 1.8 and 1.37 (f)) of the Commission's rules of practice and procedure.

Adopted: October 21, 1955.

Issued: October 28, 1955.

By the Commission.

[SEAL] J. H. GUTRIDE, *Acting Secretary.*

[Docket No. G-7343]

REEF FIELDS GASOLINE CORP.

NOTICE OF APPLICATION AND DATE OF HEARING

OCTOBER 31, 1955.

Take notice that Reef Fields Gasoline Corporation (Applicant), a Texas corpo-

ration whose address is Houston, Texas, filed on December 1, 1954, an application for a certificate of public convenience and necessity pursuant to section 7 of the Natural Gas Act, authorizing Applicant to render service as hereinafter described, subject to the jurisdiction of the Commission, all as more fully represented in the application which is on file with the Commission and open for public inspection.

Applicant sells natural gas which is produced from Good, Vealmoor, Oceanic, Von Raeder, East Vealmoor, Hobo, Reinecke, North Luther, and Good Northeast fields in Borden and Howard Counties, Texas, to El Paso Natural Gas Company for transportation in interstate commerce for resale.

This matter is one that should be disposed of as promptly as possible under the applicable rules and regulations and to that end:

Take further notice that, pursuant to the authority contained in and subject to the jurisdiction conferred upon the Federal Power Commission by sections 7 and 15 of the Natural Gas Act, and the Commission's rules of practice and procedure, a hearing will be held on December 1, 1955, at 9:40 a. m., e. s. t., in a hearing room of the Federal Power Commission, 441 G Street NW., Washington, D. C., concerning the matters involved in and the issues presented by such application: *Provided, however,* That the Commission may, after a non-contested hearing, dispose of the proceedings pursuant to the provisions of section 1.30 (c) (1) or (c) (2) of the Commission's rules of practice and procedure. Under the procedure herein provided for, unless otherwise advised, it will be unnecessary for Applicant to appear or be represented at the hearing.

Protests or petitions to intervene may be filed with the Federal Power Commission, Washington 25, D. C., in accordance with the rules of practice and procedure (18 CFR 1.8 or 1.10) on or before November 17, 1955. Failure of any party to appear at and participate in the hearing shall be construed as waiver of and concurrence in omission herein of the intermediate decision procedure in cases where a request therefor is made.

[SEAL] J. H. GUTRIDE,
Acting Secretary.

[Docket No. G-6963]

RANDOLPH GAS CO.

NOTICE OF APPLICATION AND DATE OF HEARING

OCTOBER 31, 1955.

Take notice that Randolph Gas Company (Applicant), a Virginia corporation whose address is Alexandria, Virginia, filed on November 30, 1954, an application for a certificate of public convenience and necessity pursuant to section 7 of the Natural Gas Act, authorizing Applicant to render service as hereinafter described, subject to the jurisdiction of the Commission, all as more fully represented in the application which is on file with the Commission and open for public inspection.

Applicant sells natural gas which is produced from Hiram Anticline, Randolph County, West Virginia, to Cumberland and Allegheny Gas Corporation for transportation in interstate commerce for resale.

This matter is one that should be disposed of as promptly as possible under the applicable rules and regulations and to that end:

Take further notice that, pursuant to the authority contained in and subject to the jurisdiction conferred upon the Federal Power Commission by sections 7 and 15 of the Natural Gas Act, and the Commission's rules of practice and procedure, a hearing will be held on December 2, 1955, at 9:30 a. m., e. s. t., in a hearing room of the Federal Power Commission, 441 G Street NW., Washington, D. C., concerning the matters involved in and the issues presented by such application: *Provided, however,* That the Commission may, after a non-contested hearing, dispose of the proceedings pursuant to the provisions of section 1.30 (c) (1) or (c) (2) of the Commission's rules of practice and procedure. Under the procedure herein provided for, unless otherwise advised, it will be unnecessary for Applicant to appear or be represented at the hearing.

Protests or petitions to intervene may be filed with the Federal Power Commission, Washington 25, D. C., in accordance with the rules of practice and procedure (18 CFR 1.8 or 1.10) on or before November 18, 1955. Failure of any party to appear at and participate in the hearing shall be construed as waiver of and concurrence in omission herein of the intermediate decision procedure in cases where a request therefor is made.

[SEAL] J. H. GUTRIDE,
Acting Secretary.

[Docket No. G-8340]

PAUL M. RAIGORODSKY

NOTICE OF APPLICATION AND DATE OF HEARING

OCTOBER 31, 1955.

Take notice that Paul M. Raigorodsky (Applicant), an individual whose address is Dallas, Texas, filed on January 12, 1955, an application for a certificate of public convenience and necessity pursuant to Section 7 of the Natural Gas Act, authorizing Applicant to render service as hereinafter described, subject to the jurisdiction of the Commission, all as more fully represented in the application which is on file with the Commission and open for public inspection.

Applicant sells natural gas which is produced from Unionville and North Rushton fields, Lincoln Parish, Louisiana, to Mississippi River Fuel Corporation for transportation in interstate commerce for resale.

This matter is one that should be disposed of as promptly as possible under the applicable rules and regulations and to that end:

Take further notice that, pursuant to the authority contained in and subject to the jurisdiction conferred upon the Federal Power Commission by sections 7 and 15 of the Natural Gas Act, and the Commission's rules of practice and procedure, a hearing will be held on December 2, 1955, at 9:40 a. m., e. s. t., in a hearing room of the Federal Power Commission, 441 G Street NW., Washington, D. C., concerning the matters involved in and the issues presented by such application: *Provided, however,* That the Commission may, after a non-contested hearing, dispose of the proceedings pursuant to the provisions of section 1.30 (c) (1) or (c) (2) of the Commission's rules of practice and procedure. Under the procedure herein provided for, unless otherwise advised, it will be unnecessary for Applicant to appear or be represented at the hearing.

Protests or petitions to intervene may be filed with the Federal Power Commission, Washington 25, D. C., in accordance with the rules of practice and procedure (18 CFR 1.8 or 1.10) on or before November 18, 1955. Failure of any party to appear at and participate in the hearing shall be construed as waiver of and concurrence in omission herein of the intermediate decision procedure in cases where a request therefor is made.

[SEAL] J. H. GUTRIDE,
Acting Secretary.

FEDERAL REGISTER

VOLUME 20 NUMBER 217

Washington, Saturday, November 5, 1955

TITLE 7—AGRICULTURE

Chapter IX—Agricultural Marketing Service (Marketing Agreements and Orders), Department of Agriculture

[Grapefruit Reg. 230]

PART 933—ORANGES, GRAPEFRUIT, AND TANGERINES GROWN IN FLORIDA

LIMITATION OF SHIPMENTS

§ 933.750 *Grapefruit Regulation 230*—(a) *Findings.* (1) Pursuant to the marketing agreement, as amended, and Order No. 33, as amended (7 CFR Part 933), regulating the handling of oranges, grapefruit, and tangerines grown in the State of Florida, effective under the applicable provisions of the Agricultural Marketing Agreement Act of 1937, as amended (7 U. S. C. 601 et seq.), and upon the basis of the recommendations of the committees established under the aforesaid amended marketing agreement and order, and upon other available information, it is hereby found that the limitation of shipments of grapefruit, as hereinafter provided, will tend to effectuate the declared policy of the act.

(2) It is hereby further found that it is impracticable and contrary to the public interest to give preliminary notice, engage in public rule-making procedure, and postpone the effective date of this section until 30 days after publication thereof in the FEDERAL REGISTER (60 Stat. 237; 5 U. S. C. 1001 et seq.) because the time intervening between the date when information upon which this section is based became available and the time when this section must become effective in order to effectuate the declared policy of the act is insufficient; a reasonable time is permitted, under the circumstances, for preparation for such effective time; and good cause exists for making the provisions hereof effective not later than November 7, 1955. Shipments of grapefruit, grown in the State of Florida, are presently subject to regulation by grades and sizes, pursuant to the amended marketing agreement and order, and will so continue until November 7, 1955; the recommendation and supporting information for continued regulation subsequent to November 6, 1955, was promptly submitted to the Department after an open meeting of the Growers Administrative Committee on November 1; such meeting was held to consider recommendations for regulation, after giving due notice of such meeting, and interested persons were afforded an opportunity to submit their views at this meeting; the provisions of this section, including the effective time hereof, are identical with the aforesaid recommendation of the committee, and information concerning such provisions and effective time has been disseminated among handlers of such grapefruit; it is necessary, in order to effectuate the declared policy of the act, to make this section effective during the period hereinafter set forth so as to provide for the continued regulation of the handling of grapefruit; and compliance with this section will not require any special preparation on the part of persons subject thereto which cannot be completed by the effective time hereof.

(b) *Order.* (1) During the period beginning at 12:01 a. m., e. s. t., November 7, 1955, and ending at 12:01 a. m., e. s. t., November 21, 1955, no handler shall ship:

(i) Any grapefruit, grown in the State of Florida, which are not mature and do not grade at least U. S. No. 1 Russet;

(ii) Any seeded grapefruit, grown in the State of Florida, which are of a size smaller than a size that will pack 70 grapefruit, packed in accordance with the requirements of a standard pack, in a standard nailed box; or

(iii) Any seedless grapefruit, grown in the State of Florida, which are of a size smaller than a size that will pack 96 grapefruit, packed in accordance with the requirements of a standard pack, in a standard nailed box.

(2) As used in this section, "handler," "ship," and "Growers Administrative Committee" shall have the same meaning as when used in said amended marketing agreement and order; the terms "U. S. No. 1 Russet," "standard pack," and "standard nailed box" shall have the same meaning as when used in

FEDERAL REGISTER

Published daily, except Sundays, Mondays, and days following official Federal holidays, by the Federal Register Division, National Archives and Records Service, General Services Administration, pursuant to the authority contained in the Federal Register Act, approved July 26, 1935 (49 Stat. 500, as amended; 44 U. S. C., ch. 8B), under regulations prescribed by the Administrative Committee of the Federal Register, approved by the President. Distribution is made only by the Superintendent of Documents, Government Printing Office, Washington 25, D. C.

The FEDERAL REGISTER will be furnished by mail to subscribers, free of postage, for $1.50 per month or $15.00 per year, payable in advance. The charge for individual copies (minimum 15 cents) varies in proportion to the size of the issue. Remit check or money order, made payable to the Superintendent of Documents, directly to the Government Printing Office, Washington 25, D. C.

The regulatory material appearing herein is keyed to the CODE OF FEDERAL REGULATIONS, which is published, under 50 titles, pursuant to section 11 of the Federal Register Act, as amended August 5, 1953. The CODE OF FEDERAL REGULATIONS is sold by the Superintendent of Documents. Prices of books and pocket supplements vary.

There are no restrictions on the republication of material appearing in the FEDERAL REGISTER, or the CODE OF FEDERAL REGULATIONS.

[Orange Reg. 284]

PART 933—ORANGES, GRAPEFRUIT, AND TANGERINES GROWN IN FLORIDA

LIMITATION OF SHIPMENTS

§ 933.751 *Orange Regulation 284*—(a) *Findings.* (1) Pursuant to the marketing agreement, as amended, and Order No. 33, as amended (7 CFR Part 933), regulating the handling of oranges, grapefruit, and tangerines grown in the State of Florida, effective under the applicable provisions of the Agricultural Marketing Agreement Act of 1937, as amended (7 U. S. C. 601 et seq.), and upon the basis of the recommendations of the committees established under the aforesaid amended marketing agreement and order, and upon other available information, it is hereby found that the limitation of shipments of all Florida oranges, except Temple oranges, as hereinafter provided, will tend to effectuate the declared policy of the act.

(2) It is hereby further found that it is impracticable and contrary to the public interest to give preliminary notice, engage in public rule-making procedure, and postpone the effective date of this section until 30 days after publication thereof in the FEDERAL REGISTER (60 Stat. 237; 5 U. S. C. 1001 et seq.) because the time intervening between the date when information upon which this section is based became available and the time when this section must become effective in order to effectuate the declared policy of the act is insufficient; a reasonable time is permitted, under the circumstances, for preparation for such effective time; and good cause exists for making the provisions hereof effective not later than November 7, 1955. Shipments of all oranges, except Temple oranges, grown in the State of Florida, are presently subject to regulation by grades and sizes, pursuant to the amended marketing agreement and order, and will so continue until November 7, 1955; the recommendation and supporting information for continued regulation subsequent to November 6, 1955, was promptly submitted to the Department after an open meeting of the Growers Administrative Committee on November 1; such meeting was held to consider recommendations for regulation, after giving due notice of such meeting, and interested persons were afforded an opportunity to submit their views at this meeting; the provisions of this section, including the effective time hereof, are identical with the aforesaid recommendation of the committee, and information concerning such provisions and effective time has been disseminated among handlers of such oranges; it is necessary, in order to effectuate the declared policy of the act, to make this section effective during the period hereinafter set forth so as to provide for the continued regulation of the handling of all oranges, except Temple oranges, and compliance with this section will not require any special preparation on the part of the persons subject thereto which cannot be completed by the effective time hereof.

(b) *Order.* (1) During the period beginning at 12:01 a. m., e. s. t., November 7, 1955, and ending at 12:01 a. m., e. s. t., November 21, 1955, no handler shall ship:

(i) Any oranges, except Temple oranges, grown in the State of Florida, which do not grade at least U. S. No. 1 Russet; or

(ii) Any oranges, except Temple oranges, grown in the State of Florida, which are of a size smaller than $2^{10}/_{16}$ inches in diameter, which shall be the largest measurement at a right angle to a straight line running from the stem to the blossom end of the fruit, except that a tolerance of 10 percent, by count, of oranges smaller than such minimum diameter shall be permitted, which tolerance shall be applied in accordance with the provisions for the application of tolerances, specified in the United States Standards for Florida Oranges and Tangelos (§§ 51.1140-51.1186, 20 F. R. 7205): *Provided*, That in determining the percentage of oranges in any lot which are smaller than $2^{10}/_{16}$ inches in diameter, such percentage shall be based only on those oranges in such lot which are of a size $2^{14}/_{16}$ inches in diameter and smaller.

(2) As used in this section, the terms "handler," "ship," and "Growers Administrative Committee" shall each have the same meaning as when used in said amended marketing agreement and order; and the terms "U. S. No. 1 Russet," and "standard pack," shall have the same meaning as when used in the United States Standards for Florida Oranges and Tangelos (§§ 51.1140–51.1186, 20 F. R. 7205).

(Sec. 5, 49 Stat. 753, as amended; 7 U. S. C. 608c)

Dated: November 2, 1955.

[Tangerine Reg. 161]

PART 933—ORANGES, GRAPEFRUIT, AND TANGERINES GROWN IN FLORIDA

LIMITATION OF SHIPMENTS

§ 933.752 *Tangerine Regulation 161*—(a) *Findings.* (1) Pursuant to the marketing agreement, as amended, and Order No. 33, as amended (7 CFR Part 933), regulating the handling of oranges, grapefruit, and tangerines grown in the State of Florida, effective under the applicable provisions of the Agricultural Marketing Agreement Act of 1937, as amended (7 U. S. C. 601 et seq.), and upon the basis of the recommendations of the committees established under the aforesaid amended marketing agreement and order, and upon other available information, it is hereby found that the limitation of shipments of tangerines, as hereinafter provided, will tend to effectuate the declared policy of the act.

(2) It is hereby further found that it is impracticable and contrary to the public interest to give preliminary notice, engage in public rule-making procedure, and postpone the effective date of this section until 30 days after publication thereof in the FEDERAL REGISTER (60 Stat. 237; 5 U. S. C. 1001 et seq.) because the time intervening between the date when information upon which this section is based became available and the time when this section must become effective in order to effectuate the declared policy of the act is insufficient; a reasonable time is permitted, under the circumstances, for preparation for such effective time; and good cause exists for making the provisions hereof effective not later than November 7, 1955, and ending at 12:01 a. m., e. s. t., November 21, 1955, no handler shall ship:

(i) Any tangerines, grown in the State of Florida, that do not grade at least U. S. No. 1 Russet; or

(ii) Any tangerines, grown in the State of Florida, that are of a size smaller than the size that will pack 176 tangerines, packed in accordance with the re-

quirements of a standard pack, in a half-standard box (inside dimensions 9½ x 9½ x 19⅛ inches; capacity 1,726 cubic inches).

(2) As used in this section, "handler," "ship," and "Growers Administrative Committee" shall have the same meaning as when used in said amended marketing agreement and order; and the terms "U. S. No. 1 Russet" and "standard pack" shall have the same meaning as when used in the revised United States Standards for Florida Tangerines (7 CFR 51.1810–51.1836).

(Sec. 5, 49 Stat. 753, as amended; 7 U. S. C. 608c)

Dated: November 2, 1955.

[SEAL] S. R. SMITH,
Director, Fruit and Vegetable Division, Agricultural Marketing Service.

[Lemon Reg. 614]

PART 953—LEMONS GROWN IN CALIFORNIA AND ARIZONA

LIMITATIONS OF SHIPMENTS

§ 953.721 *Lemon Regulation 614*—(a) *Findings.* (1) Pursuant to the marketing agreement, as amended, and Order No. 53, as amended (7 CFR Part 953; 19 F. R. 7175; 20 F. R. 2913), regulating the handling of lemons grown in the State of California or in the State of Arizona, effective under the applicable provisions of the Agricultural Marketing Agreement Act of 1937, as amended (7 U. S. C. 601 et seq.), and upon the basis of the recommendation and information submitted by the Lemon Administrative Committee, established under the said amended marketing agreement and order, and upon other available information, it is hereby found that the limitation of the quantity of such lemons which may be handled, as hereinafter provided, will tend to effectuate the declared policy of the act.

(2) It is hereby further found that it is impracticable and contrary to the public interest to give preliminary notice, engage in public rule-making procedure, and postpone the effective date of this section until 30 days after publication thereof in the FEDERAL REGISTER (60 Stat. 237; 5 U. S. C. 1001 et seq.) because the time intervening between the date when information upon which this section is based became available and the time when this section must become effective in order to effectuate the declared policy of the act is insufficient, and a reasonable time is permitted, under the circumstances, for preparation for such effective time; and good cause exists for making the provisions hereof effective as hereinafter set forth. Shipments of lemons, grown in the State of California or in the State of Arizona, are currently subject to regulation pursuant to said amended marketing agreement and order; the recommendation and supporting information for regulation during the period specified herein was promptly submitted to the Department after an open meeting of the Lemon Administrative Committee on November 2, 1955, such meeting was held, after giving due notice thereof to consider recommendations for regulation, and interested persons were afforded an opportunity to submit their views at this meeting; the provisions of this section, including its effective time, are identical with the aforesaid recommendation of the committee, and information concerning such provisions and effective time has been disseminated among handlers of such lemons; it is necessary, in order to effectuate the declared policy of the act, to make this section effective during the period hereinafter specified; and compliance with this section will not require any special preparation on the part of persons subject thereto which cannot be completed by the effective time thereof.

(b) *Order.* (1) The quantity of lemons grown in the State of California or in the State of Arizona which may be handled during the period beginning at 12:01 a. m., P. s. t., November 6, 1955, and ending at 12:01 a. m., P. s. t., November 13, 1955, is hereby fixed as follows:

(i) District 1: Unlimited movement;

(ii) District 2: 153,450 cartons;

(iii) District 3: Unlimited movement.

(2) As used in this section, "handled," "District 1," "District 2," and "District 3" shall have the same meaning as when used in the said amended marketing agreement and order; and "carton" shall mean a container having a capacity equal to one-half the standard lemon box described in said amended marketing agreement and order as having inside dimensions 10 inches in depth, 13 inches in width, and 25⅝ inches in length.

(Sec. 5, 49 Stat. 753, as amended; 7 U. S. C. 608c)

Dated: November 3, 1955.

[SEAL] S. R. SMITH,
Director, Fruit and Vegetable Division, Agricultural Marketing Service.

[F. R. Doc. 55-8985; Filed, Nov. 4, 1955; 8:52 a. m.]

[Avocado Order 11]

PART 969—AVOCADOS GROWN IN SOUTH FLORIDA

MATURITY REGULATION

§ 969.311 *Avocado Order 11*—(a) *Findings.* (1) Pursuant to the marketing agreement, as amended, and Order No. 69, as amended (7 CFR Part 969; 20 F. R. 4177), regulating the handling of avocados grown in South Florida, effective under the applicable provisions of the Agricultural Marketing Agreement Act of 1937, as amended (7 U. S. C. 601 et seq.), and upon the basis of the recommendations of the Avocado Administrative Committee, established under the aforesaid marketing agreement and order, and upon other available information, it is hereby found that the limitation of handling of avocados, as hereinafter provided, will tend to effectuate the declared policy of the act.

(2) It is hereby further found that it is impracticable and contrary to the public interest to give preliminary notice, engage in public rule-making procedure, and postpone the effective date of this section until 30 days after publication thereof in the FEDERAL REGISTER (60 Stat. 237; 5 U. S. C. 1001 et seq.) in that, as hereinafter set forth, the time intervening between the date when information upon which this section is based became available and the time when this section must become effective in order to effectuate the declared policy of the act is insufficient; a reasonable time is permitted, under the circumstances, for preparation for such effective time; and good cause exists for making the provisions hereof effective not later than November 7, 1955. A reasonable determination as to the time of maturity of avocados must await the development of the crop thereof, and adequate information thereon was not available to the Avocado Administrative Committee until November 1, 1955; determinations as to the time of maturity of the varieties of avocados covered by this section were made at the meeting of said committee on November 1, 1955, after consideration of all available information relative to such maturity and growing conditions prevailing during the current season for such avocados, at which time the recommendations and supporting information for such maturity regulations was submitted to the Department; such meeting was held to consider recommendation for such regulation after giving due notice thereof, and interested parties were afforded an opportunity to submit their views at this meeting; the provisions of this section are identical with the aforesaid recommendations of the committee and information concerning such provisions has been disseminated among the handlers of avocados; and compliance with the provisions of this section will not require of handlers any preparation therefor which cannot be completed by the effective time hereof.

(b) *Order.* (1) After the effective time of this section, no handler shall handle any variety of avocados listed in Column 1 of the following table prior to 12:01 a. m., e. s. t., of the date listed for the respective variety in Column 2 of such table;

(2) During the period from 12:01 a. m., e. s. t., of the date listed for the respective variety in Column 2 of such table and 12:01 a. m., e. s. t., of the date listed for the respective variety in Column 4 of such table, no handler shall handle any avocados unless the individual fruit weighs at least the ounces specified for the respective variety in Column 3 or is of at least the diameter, if any, specified for such variety in said Column 3;

(3) During the period from 12:01 a. m., e. s. t., of the date listed for the respective variety in Column 4 of such table and 12:01 a. m., e. s. t., of the date, if any,[1] listed for the respective variety in Column 6 of such table, no handler shall handle any avocados unless the individual fruit weighs at least the ounces specified, if any,[1] for the respective variety in Column 5 or is of at least the diameter, if any, specified for such variety in said Column 5;

(4) During the period from 12:01 a. m., e. s. t., of the date, if any,[1] listed for the respective variety in Column 6 of such table and 12:01 a. m., e. s. t., of the date, if any,[1] listed for the respective variety in Column 8 of such table, no handler shall handle any avocados unless the individual fruit weighs at least the ounces specified, if any,[1] for the respective variety in Column 7 or is of at least the diameter, if any, specified for such variety in said Column 7;

[1] If no date or weight, as the case may be, is specified in the particular column, the variety may be handled free of such date or weight restrictions.

(5) Notwithstanding the provisions of subparagraphs (1) through (4) of this paragraph regarding the minimum weight or diameter for individual fruit, up to 10 percent, by count, of the individual fruit contained in each lot may weigh less than the minimum specified weight and be less than the minimum specified diameter: *Provided,* That such avocados weigh not more than two ounces less than the applicable specified weight, if any, for the particular variety in Column 3, 5, or 7 of such table. Such tolerances shall be on a lot basis, but not to exceed double such tolerances shall be permitted for an individual container in a lot;

Izamna	Feb. 27, 1956						

(6) The provisions of paragraph (b) (2) and (3) of Avocado Order 6 (§ 969.306; 20 F. R. 3427) shall not apply to the varieties of avocados named in the foregoing table, nor to the Trapp, Waldin, Tonnage, Booth 8, Nesbitt, Calusa, Petersen, Edmunds, Pinelli, Fairchild, Nirody, and Simpson varieties; and

(7) As used in this section, the term "diameter" means the largest measurement at a right angle to a straight line running from the stem to the blossom end of the fruit.

(c) *Termination of Avocado Order 10, as amended.* The provisions of Avocado Order 10, as amended (20 F. R. 6699, 20 F. R. 7876), are hereby terminated effective as of the effective time of this order.

(d) *Effective time.* The provisions of this section shall become effective at 12:01 a. m., e. s. t., November 7, 1955.

(Sec. 5, 49 Stat. 753, as amended; 7 U. S. C. 608c)

Dated: November 2, 1955.

[SEAL] S. R. SMITH,
Director, Fruit and Vegetable Division, Agricultural Marketing Service.

[F. R. Doc. 55-8966; Filed, Nov. 4, 1955; 8:50 a. m.]

TITLE 21—FOOD AND DRUGS

Chapter I—Food and Drug Administration, Department of Health, Education, and Welfare

PART 3—STATEMENTS OF GENERAL POLICY OR INTERPRETATION

PESTICIDE CHEMICALS; FURTHER EXTENDED DATES ON WHICH STATUTE SHALL BECOME FULLY EFFECTIVE

A request has been received for additional extension of the date when the statutes (68 Stat. 511 et seq.; 21 U. S. C. 342, 346a) shall become fully effective for captan for post-harvest treatment of potatoes.

In exercise of the authority vested in the Secretary of Health, Education, and Welfare by the Federal Food, Drug, and Cosmetic Act (secs. 402 (a) (2), 408, 68 Stat. 511, 517 (Ch. 559, Secs. 2, 5); 21 U. S. C. 342 (a) and note 1 under section 342; 346a) and designated to the Commissioner of Food and Drugs by the Secretary (20 F. R. 1996), I find that additional extension is necessary for this use of captan, and the following order is promulgated:

Section 3.44 *Pesticide chemicals; further extended dates on which statute shall become fully effective,* published in the FEDERAL REGISTER of October 29, 1955 (20 F. R. 8156), is amended by inserting in paragraph (a) (2), in proper alphabetical order, the following item:

Captan: Post-harvest use on potatoes.

(Sec. 701, 52 Stat. 1055; 21 U. S. C. 371. Interprets or applies secs. 402, 408, 68 Stat. 511; 21 U. S. C. 342, 346a)

Dated: October 28, 1955.

[SEAL] JOHN L. HARVEY,
Acting Commissioner of Food and Drugs.

[F. R. Doc. 55-8942; Filed, Nov. 4, 1955; 8:46 a. m.]

TITLE 19—CUSTOMS DUTIES

Chapter I—Bureau of Customs, Department of the Treasury

[T. D. 53935]

PART 10—ARTICLES CONDITIONALLY FREE, SUBJECT TO A REDUCED RATE, ETC.

PART 30—FOREIGN-TRADE ZONES

WITHDRAWAL OF SUPPLIES FOR FISHING VESSELS

It has been found necessary to amend §§ 10.59 and 10.60 of the Customs Regulations to describe those vessels employed in the fisheries which are entitled to withdraw articles free of duty and internal-revenue tax under section 309 (a) of the Tariff Act of 1930, as amended, and to require a withdrawal of distilled spirits (including alcohol), wines, or beer under section 309 (a) for lading as supplies on any such vessels to be supported by a special application and bond wherein the applicant shall agree to have certain steps taken upon the vessel's return to port to help prevent the landing of any of the articles in violation of the law or, in default of such action, to pay an amount equal to the duties and any

taxes on the total quantity of withdrawn articles.

It is also necessary to amend § 30.16 of the Customs Regulations to provide that the pertinent provisions of §§ 10.59 to 10.65, inclusive, of the Customs Regulations shall be applicable to any article laden in a foreign-trade zone on a vessel or aircraft for which exemption from duty and internal-revenue tax is claimed under section 309 or 317 of the Tariff Act of 1930, as amended.

Accordingly, the Customs Regulations are hereby amended as follows:

1. Section 10.59 is amended by deleting the parenthetical matter at the end of paragraph (c) and by the insertion of a new paragraph (d) reading as follows:

(d) Vessels of the United States documented to engage in the fisheries and foreign fishing vessels of 5 net tons or over may be allowed to withdraw distilled spirits (including alcohol), wines, and beer conditionally free under section 309 of the Tariff Act of 1930, as amended, if the collector is satisfied from the quantity requested, in the light of (1) whether the vessel is employed in substantially continuous fishing activities, and (2) the vessel's complement, that none of the withdrawn articles is intended to be removed from the vessel in, or otherwise returned to, the United States without the payment of duty or tax. Such withdrawal shall be permitted only after the approval by the collector of a special written application, in duplicate, on customs Form 5125, of the withdrawer, supported by a bond on customs Form 7603 executed by the withdrawer. Such application shall be filed with customs Form 7506 or 7512,[57] as the case may be. The original application, after approval, shall be stamped with the withdrawal number and date thereof and shall be returned to the withdrawer for use as prescribed below. Approval of each such application shall be subject to the condition that the original shall be presented thereafter by the withdrawer or the vessel's master to the collector within 24 hours (excluding any period during which the customhouse is not open for general customs business) after each subsequent arrival of the vessel at a customs port or station and that an accounting shall be made at the time of such presentation of the disposition of the articles until the collector is satisfied that all of them have been consumed on board, or landed under customs supervision, and takes up the authorization. The approval shall be subject to the further conditions that any such withdrawn article remaining on board while the vessel is in port shall be safeguarded in the manner and to such extent as the collector for the port or place of arrival shall deem necessary and that failure to comply with the conditions upon which a conditionally free withdrawal is approved shall subject the total quantity of withdrawn articles to the assessment and collection of an amount equal to the duties and taxes that would have been assessed on the entire quantity of supplies withdrawn had such supplies been regularly entered, or withdrawn, for consumption.

(R. S. 161, 251, sec. 624, 46 Stat. 759; 5 U. S. C. 22, 19 U. S. C. 16, 1624. Interprets or applies sec. 309, 46 Stat. 690, as amended; 19 U. S. C. 1309)

2. Section 10.60 is amended by redesignating paragraph (g) as paragraph (h); by substituting "(h)" for "(g)" in the last sentence of paragraph (a) and in the first and second sentences of paragraph (f); and by inserting a new paragraph (g) to read as follows:

(g) A withdrawal under section 10.59 (d) shall be supported by a bond on customs Form 7603 in lieu of any other bond.

(Sec. 309, 46 Stat. 690, as amended; 19 U. S. C. 1309)

3. Section 30.16 (b) of the Customs Regulations is amended by deleting the period at the end of the first sentence and adding "and, in addition, the pertinent provisions of §§ 10.59 to 10.65, inclusive, of this chapter shall also apply as though the article were being withdrawn in customs territory from continuous customs custody elsewhere than in a bonded warehouse for such lading."

(R. S. 161, 251, secs. 1–21, 48 Stat. 998, 999, as amended, 1000–1003, sec. 624, 46 Stat. 759; 5 U. S. C. 22, 19 U. S. C. 66, 81a–81n 1624. Interprets or applies sec. 309, 46 Stat. 690, as amended; 19 U. S. C. 1309)

Notice of the proposed issuance of the foregoing amendments of the Customs Regulations was published in the FEDERAL REGISTER on July 28, 1955 (20 F. R. 5392), pursuant to section 4 of the Administrative Procedure Act (5 U. S. C. 1003). After full consideration of data and views submitted, it has been decided to adopt the amendments as set forth above.

In view of the fact that the adoption of these amendments will result in a liberalization of the conditions under which free withdrawals of distilled spirits (including alcohol), wines, and beer may be permitted under section 309 (a) of the Tariff Act of 1930, as amended, for lading on fishing vessels, the delayed effective date provision of section 4 (c) of the Administrative Procedure Act (5 U. S. C. 1003 (c)) is being dispensed with. Accordingly, the amendments shall become effective upon publication in the FEDERAL REGISTER.

It is expected that new customs Form 5125, entitled "Application for Conditionally-Free Withdrawal of Distilled Spirits (Including Alcohol), Wines, or Beer for Supplies of Fishing Vessel," and new customs Form 7603 entitled "Bond for Conditionally-Free Withdrawal of Distilled Spirits (Including Alcohol), Wines, or Beer, For Supplies of Fishing Vessel," prescribed for use herein, will be printed and available for use within 90 days. Pending the printing thereof, collectors of customs are authorized to reproduce the forms or specimen copies may be obtained from collectors and reproduced by interested parties.

[SEAL] RALPH KELLY,
Commissioner of Customs.

Approved: October 31, 1955.

DAVID W. KENDALL,
Acting Secretary of the Treasury.

[F. R. Doc. 55–8956; Filed, Nov. 4, 1955; 8:49 a. m.]

[57] Exemption from internal-revenue tax on distilled spirits, alcohol, wines, and beer removed from any internal-revenue bonded warehouse, industrial alcohol premises, bonded wine cellar, or brewery; and drawback on taxpaid distilled spirits or wines removed from an export storage room, or on taxpaid beer removed from a brewery (or place of storage elsewhere), for use as supplies on vessels under section 309, Tariff Act of 1930, as amended, are governed by regulations of the Internal Revenue Service.

TITLE 24—HOUSING AND HOUSING CREDIT

Chapter II — Federal Housing Administration, Housing and Home Finance Agency

Subchapter C—Mutual Mortgage Insurance and Servicemen's Mortgage Insurance

PART 225—SERVICEMEN'S MORTGAGE INSURANCE; ELIGIBILITY REQUIREMENTS OF MORTGAGE

MAXIMUM MORTGAGE AMOUNT; RATIO OF LOAN-TO-VALUE LIMITATION

Section 225.4 is amended to read as follows:

§ 225.4 *Maximum mortgage amount; ratio of loan-to-value limitation.* The mortgage shall be in an amount not to exceed 95 percent of the appraised value of the property as of the date the mortgage is accepted for insurance.

(Sec. 211, 52 Stat. 23; 12 U. S. C. 1715b)

Issued at Washington, D. C., November 3, 1955.

[SEAL] NORMAN P. MASON,
Federal Housing Commissioner.

[F. R. Doc. 55-8983; Filed, Nov. 3, 1955; 2:44 p. m.]

TITLE 32—NATIONAL DEFENSE

Chapter V—Department of the Army

Subchapter B—Claims and Accounts

PART 533—GRATUITY UPON DEATH

MISCELLANEOUS AMENDMENTS

Sections 533.6 and 533.7 are redesignated §§ 533.15 and 533.16, respectively, and §§ 533.1, 533.2, 533.3, 533.5 and 533.8 are revoked and the following substituted therefor:

§ 533.1 *General—(a) Scope.* Sections 533.1 to 533.12 set forth the authority and prescribe the procedure for making payment of the 6 months' death gratuity to beneficiaries of deceased military personnel.

(b) *Statutory authority.* The statutory authority upon which the regulations in §§ 533.1 to 533.12 are based are:

(1) Section 1, act December 17, 1919 (41 Stat. 367), as amended by section 1, act December 17, 1943, (57 Stat. 599).

(2) Act May 27, 1940 (54 Stat. 223), as amended by the act of March 29, 1944 (58 Stat. 130).

(3) Section 4 (b), act August 9, 1946 (60 Stat. 964), as amended by the act of August 4, 1947 (61 Stat. 748).

(4) Section 3, act June 20, 1949 (63 Stat. 202).

(5) Section 514, act October 12, 1949 (63 Stat. 831).

(c) *Policy.* The Secretary of the Army will establish regulations requiring each officer and enlisted member having no wife or child to designate the proper dependent relative to whom the amount herein provided will be paid in case of his death. This amount will be paid from funds appropriated for the pay of the Army.

§ 533.2 *Entitlement.* When a member dies as a result of wounds or disease, not the result of his own misconduct, while on the active list of the Regular Army or on the retired list when on active duty, his beneficiary will receive payment of an amount equal to 6 months' pay at the rate received by such member at the date of his death. The Chief of Finance, Department of the Army, will cause the amount described in this section to be paid to the eligible beneficiary immediately upon receipt of official notification that death was not the result of the service member's own misconduct.

§ 533.3 *Beneficiaries.* Payment of the 6 months' gratuity may be made to beneficiaries of Regular Army members in the order indicated below:

(a) If there be a widow (widower), payment will be made to such person only.

(b) Child or children, if there be no widow (widower). (An adopted child is considered to be a child within the meaning of the term as used in the regulations in §§ 533.1 to 533.12).

(1) An illegitimate child (if acknowledged in writing by the service member) is considered to be a child within the meaning of the term as used in the regulations in §§ 533.1 to 533.12. See MS Comp. Gen. B–117183, March 4, 1955, and 30 Comp. Gen. 277.

(2) A stepchild is considered to be a child within the meaning of the term as used in the regulations in §§ 533.1 to 533.12, provided the conditions set forth in subdivisions (i) and (ii) of this subparagraph are met.

(i) Where the relationship between a service member and a stepchild was created by marriage which was terminated by death, the relationship, in the absence of any evidence to the contrary, may be considered as continuing, so far as payment of the gratuity is concerned.

(ii) Where the relationship between a service member and a stepchild was created by a marriage which was terminated by divorce, the relationship may be considered as ended, so far as payment of the gratuity is concerned. See 24 Comp. Gen. 320; and 26 id. 723.

(c) Any other dependent relative previously designated by him, if there be no widow (widower) or child.

(d) Grandchild, parent, brother and sister, or grandparent; if there be no widow (widower), child or any other dependent relative previously designated; the eligible members of each group having an insurable interest in the life of the deceased sharing equally. In these cases, the Secretary of the Army will cause the amount herein provided to be paid only when these beneficiaries are shown to have been dependent upon such officer or enlisted member prior to his death, and the determination of such fact by the Secretary of the Army will be final and conclusive upon the accounting officers of the Government.

(e) In the event of the death of any beneficiary before payment to and collection by such beneficiary of the amount authorized herein, such gratuity will be paid to the next living beneficiary in the order of succession stated in paragraphs (a) through (d) of this section.

§ 533.4 *Six months' gratuity payable to beneficiaries of other than Regular Army members.* The regulations in §§ 533.1 to 533.12 have equal application to the following members, and their dependents will not be deprived of the benefits provided in the act of December 17, 1919, as amended:

(a) All officers, warrant officers, and enlisted members of the Army of the United States (other than officers or enlisted members of the Regular Army) if called or ordered into the active military service in excess of 30 days, or if called or ordered to active military service or to perform active duty for training or inactive duty training for any period of time, who suffer death in line of duty from injury while so engaged.

(b) All officer, warrant officer, and enlisted members of the National Guard of the United States, both ground and air, the federally recognized National Guard of the several States, Territories, and the District of Columbia:

(1) If engaged for periods in excess of 30 days in any type of training or active duty under section 5, 81, 92, 94, 97, or 99 of the National Defense Act, as amended, who suffer death in line of duty from injury while so engaged.

(2) If engaged for any period of time in any type of training or active duty under such sections of the National Defense Act, as amended, who suffer death in line of duty from injury while so engaged.

(c) Retired members who die while on active duty, or while on leave of absence.

(d) The teacher of music, the leader of Military Academy Band, will be entitled to the same death gratuity as is now or may hereafter be provided for an officer of the Regular Army in the grade of captain with the corresponding length of service.

(e) Cadets at the United States Military Academy properly are to be regarded as officers on the active list within the meaning of the statutory provisions cited in § 533.1 for payment of the the 6 months' death gratuity. They will be entitled to 50 percent of the amount of death gratuity as is now or may hereafter be provided for a second lieutenant of the Regular Army with under 2 years' service. See 26 Comp. Gen. 373.

(f) Missing personnel determined to be dead.

§ 533.5 *Computation of amount of death gratuity.* The amount of the death gratuity due the beneficiary of a service member includes the compensation of every kind received by such member at the date of his death but does not include allowances. See 14 Comp. Dec. 857; 24 id. 287.

§ 533.6 *Six months' gratuity exempt from indebtedness.* The amount of the 6 months' pay cannot be used for the debt of the officer or enlisted member, not even for overpayment. See MS Comp. Dec. 14 May 1913.

§ 533.7 *Designation of two beneficiaries.* (a) If the deceased person had designated two beneficiaries to receive the 6 months' death gratuity payment and the claim of the first designated beneficiary has been disapproved because the evidence submitted did not clearly establish dependency upon him for support, or otherwise an insurable interest in him, the claim of the second designated beneficiary may not be considered unless the first beneficiary, who may desire to submit additional evidence tending to show dependency, has relinquished the right to claim the gratuity payment. If the first designated beneficiary submits additional evidence tending to show dependency or insurable interest and such evidence is not sufficient to establish entitlement to the gratuity or he relinquishes his claim for payment, the claim of the second designated beneficiary may then be considered for payment of the gratuity.

(b) When it is determined that a relative of the deceased service member (whether or not designated) is the proper beneficiary within the meaning of the gratuity law to receive payment of the gratuity, any waiver of that right by such person in favor of another is without force or effect and payment will not be made to the person in whose favor the waiver was executed. See 24 Comp. Gen. 46.

§ 533.8 *No beneficiary designated or beneficiary ineligible.* (a) If there be no widow (widower), child, or previously designated beneficiary, the Commanding General, Finance Center, U. S. Army, will determine dependency in accordance with approved policies and regulations of the Department of the Army.

(b) When a beneficiary designated by a serviceman fails to qualify as a dependent relative by reason of being only remotely related to the deceased, where no evidence of insurable interest can be furnished, and when there are more closely related dependent relatives, it will be construed as though no designation had been made, in which case the Commanding General, Finance Center, U. S. Army, may direct payment of the gratuity to a relative determined by him to have been dependent on the deceased. See 34 Comp. Gen. 105.

(c) The disbursing officer will forward any case of the type described in paragraphs (a) or (b) of this section to the Commanding General, Finance Center, U. S. Army, accompanied by all available information or evidence that will assist in making a determination as to the proper beneficiary or beneficiaries.

§ 533.9 *Evidence.* (a) The evidence required to establish the right under the law, of any person to receive payment of the 6 months' gratuity is set forth for the different classes of beneficiaries in figure 1.

(b) No affirmative showing of dependency is required in making payments of

6 months' death gratuity authorized by the act of December 17, 1919, as amended, to fathers, mothers, brothers, or sisters designated as beneficiaries of deceased military personnel, since relationship alone establishes the insurable interest; but as to more distant relatives, evidence of insurable interest other than mere relationship is required. See 4 Comp. Gen. 554, modified; 22 id. 85.

FIGURE 1

Class of beneficiary	Nonexistence of widow (widower)	Relationship	Age	Marital status	Dependency	Insurable interest	Designation as beneficiary
Widow (widower):							
Designated	No	No	No	No	No	No	Yes.[1 4 7 10]
Not designated	No	Yes	No	No	No	No	No.[2 4 7 10]
Unmarried child (children) under 21 years of age:							
Designated	Yes	No	Yes	Yes	No	No	Yes.[1 3 10]
Not designated	Yes	Yes	Yes	Yes	No	No	No.[2 3 10]
Unmarried child (children) over 21 years of age:							
Designated	Yes	No	Yes	Yes	Yes	No	Yes.[3 10]
Not designated	Yes	Yes	Yes	Yes	Yes	No	No.[2 3 10]
	Nonexistence of widow (widower), child (children)						
Parents:							
Designated	Yes	No	No	No	No	No	Yes.[6 9 10]
Not designated	Yes	Yes	No	No	Yes	No	No.[6 9 9 10]
Brothers-sisters:

Grandchild (grandchildren):							
Designated	Yes	Yes	Yes	No	Yes	Yes	Yes.[6 10]
Not designated	Yes	Yes	Yes	No	Yes	Yes	No.[6 10]
Grandparent (grandparents):							
Designated	Yes	Yes	No	No	Yes	Yes	Yes.[6 10]
Not designated	Yes	Yes	No	No	Yes	Yes	No.[6 10]
Distant relatives (aunts, uncles, nieces, nephews): Designated	Yes	Yes	No	No	Yes	Yes	Yes.[6 10]

[1] The fact, if it be a fact, that the widow (widower) of child (children), as the case may be, was designated as beneficiary, will in itself be regarded ordinarily as sufficient to establish the identity of the payee.

[2] Where a payment is to be made to a widow (widower) not previously designated as beneficiary, affidavits from two disinterested persons, not related by blood, attesting to the following facts will be obtained and filed with the voucher: The length of time they have known the widow (widower); that they have known her (him) to be the lawful wife (husband) of the decedent at the time of his (her) death, and that to the best of their knowledge and belief no divorce has been granted.

[3] Where payment is to be made to a child (children) not previously designated, affidavits from two disinterested persons, not related by blood, attesting to the following facts will be obtained and filed with the voucher. That they knew the decedent, knew the mother (father), know that the child (children) is (are) the child (children) of the decedent, and know that the decedent was not survived by a lawful widow (widower) at the time of his (her) death and that the child (children) is (are) the only living child (children) of the decedent.

[4] In an instance where available information shows that the decedent had been at one time married to other than widow (widower) claiming the right to payment, she (he) must furnish evidence of dissolution of former marriage or marriages, i. e., divorce decree, annulment decree, or death certificate, whichever is appropriate. This evidence must also be furnished in the event claimant had been married previously.

[5] In an instance where a child (children) of decedent is (are) being considered for payment, evidence of dissolution of all prior marriages of decedent's spouse is necessary. (See 4 above.)

[6] In an instance where a relative other than a widow (widower), child (children) is being considered, the person must furnish evidence of dissolution of any marriage the decedent may have entered into as well as non-existence of child (children). (See 4 and 5 above.)

[7] In an instance where widow (widower) claims common-law marriage relationship to decedent, evidence to substantiate that marriage should be of the same quality and quantity which would be required to establish the validity of the marriage before the courts of the jurisdiction where contracted.

[8] In an instance where a parent is being considered for payment and the last name of the parent is not the same as the last name of the decedent, evidence must be furnished to substantiate the relationship of the parent to the deceased member.

[9] Where payment is to be made to a parent, brother, or sister not previously designated as beneficiary, affidavits from two disinterested persons, not related by blood, attesting the following facts will be obtained and filed with the voucher: The length of time they have known the parent, brother, or sister, and the decedent; and that they know the deceased person was not survived by a lawful widow (widower), child (children), or grandchild (grandchildren) at the time of his (her) death.

[10] Where payment is to be made to a legal guardian, trustee, or representative on behalf of a minor or incompetent child or other incompetent beneficiary, an affidavit, certificate, or court order of authority (whichever is applicable) to handle the affairs of such person, must be furnished as evidence to substantiate the claim for payment.

§ 533.10 *To whom not payable.* Payment of the 6 months' gratuity may not be made to:

(a) Any unmarried child over 21 years of age who is not actually a dependent of a deceased officer or enlisted member, or any married child, notwithstanding the allegation of dependency on the deceased officer or enlisted member. See 4 Comp. Gen. 730; 18 id. 567; and 22 id. 797.

(b) A person who takes the life of the deceased, on whose account death gratuity would otherwise be payable to such beneficiary. The only exception to this policy is a case where a person takes the life of the deceased but the records clearly establish the absence of any felonious intent on the part of the person who would be entitled to receive payment of death gratuity. See MS Comp. Gen. A–60953, June 12, 1935, and MS Comp. Gen. B–115170, July 16, 1953.

(c) Stepparents not designated and persons, other than dependent relatives, standing in loco parentis to decedent whether or not designated. See 26 Comp. Gen. 723.

(d) The natural parent of a service member who had been legally adopted. The fact that the service member returned to reside with the natural parent before induction into the service and designated the natural parent as beneficiary to receive the payment does not change the foregoing statement. See 24 Comp. Gen. 479.

§ 533.11 *Will-not designation.* A will is not a designation within the meaning of the act providing the 6 months' gratuity pay, as that gratuity is not a debt or money due the officer or enlisted person and cannot become a part of his estate.

§ 533.12 *Special determinations*—(a) *Absent without leave.* (1) Section 4 (b), act August 9, 1946 (60 Stat. 964), as amended by the act of August 4, 1947 (61 Stat. 748; 37 U. S. C. 33), provides that during periods of absence without leave, service members will continue in a pay status, but will forfeit all pay and allowances during such absence unless such absence is excused as unavoidable. The 6 months' death gratuity is not a part of a member's pay and allowances, therefore, if a member dies during an absence without leave, whether or not such absence is excused as unavoidable, payment of the 6 months' death gratuity is authorized if otherwise payable. This determination applies to all cases where absence without leave and death occurred subsequent to August 31, 1946.

(2) In each case where an individual dies after having been dropped from the rolls as a deserter, and administrative determination as to whether the service member was in a desertion or absent without leave status at date of death will be obtained from The Adjutant General by the Commanding General, Finance Center, U. S. Army. Payment of the 6 months' death gratuity will be dependent upon the determination as to the status of such service member. See MS Comp. Gen. B–109305, June 4, 1952.

(3) Payment of the 6 months' death gratuity is not authorized if death occurred when the deceased was in an absent without leave status and the date of death was subsequent to date of the expiration of the deceased's normal period of enlistment.

(b) *Flying requirements not met when on flying status.* If a person dies while assigned to flying duty and has not made any flights during any one of the 3 months immediately succeeding the quarter in which he last met the flight requirements, his rate of pay for the payment of the 6 months' gratuity includes the increased pay for flying although no flying pay had accrued to him on the date of his death. See 7 Comp. Gen. 476.

(c) *Flight status suspended.* If a member dies while under suspension from flying duty, pay for flying will not be included in the rate of pay at date of death for the payment of the 6 months' death gratuity. See MS. Comp. Gen. B–122105, April 12, 1955.

(d) *Advanced in grade after date of death.* Section 2 of the act of March 7, 1942, as amended, which entitles any person in active service officially reported as missing, missing in action, interned in a foreign country, captured by a hostile force, beleaguered or besieged, to continue to receive, or have credited to his account, the pay and allowances to which he was then or thereafter became entitled, does not authorize computation of the 6 months' death gratuity payment on the basis of pay for a grade to which a person was advanced after being officially reported missing where it was later determined that the person had died prior to such advancement in grade. See 22 Comp. Gen. 395.

(e) *Declared dead after missing.* In the case of a person who was officially carried in a missing status and subsequently declared dead as of a certain date, the death gratuity should be computed on the pay rate to which the person was entitled on the date as of which he was declared dead, rather than on the rate he was receiving at the beginning of the missing status. See 22 Comp. Gen. 1053.

§ 533.15 *Settlement of arrears of pay upon death.* • • •

§ 533.16 *Letters testamentary or letters of administration.* • • •

Subchapter C—Military Education

PART 543—PROMOTION OF RIFLE PRACTICE

NATIONAL BOARD FOR PROMOTION OF RIFLE PRACTICE AND OFFICE OF DIRECTOR OF CIVILIAN MARKSMANSHIP

Section 543.4 is revised to read as follows:

§ 543.4 *National Board for the Promotion of Rifle Practice and Office of the Director of Civilian Marksmanship*—(a) *General.* Section 113 of the National Defense Act of 1916, as amended (32 U. S. C. 186), and certain related statutes, especially the act of 7 June 1924 (43 Stat. 510), as amended (32 U. S. C. 181), impose an obligation upon the Secretary of the Army to promote marksmanship training with military-type individual small arms among able-bodied citizens of the United States and within the limits of available funds to provide citizens outside the active services of the Armed Forces of the United States with means whereby they may become proficient in the use of such arms. This obligation is fulfilled on behalf of the Secretary of the Army by the National Board for the Promotion of Rifle Practice and its implementing agency, the Office of the Director of Civilian Marksmanship. The Assistant Secretary of the Army (Manpower and Reserve Forces) is presently required by the Secretary of the Army to be president of the board and in that capacity acts for the Secretary of the Army concerning activities relating to the program of the board, including approval of expenditures by the board.

(b) *Mission.* Under the statutory authority set forth in paragraph (a) of this section the principal mission of the National Board for the Promotion of Rifle Practice is to promote among able-bodied citizens not reached through training programs of the active components of the Armed Forces of the United States, practice in the use of military-type individual small arms; to promote matches and competitions in the use of such arms; and to issue in connection therewith necessary arms, ammunition, targets, and other necessary supplies and appliances; and to procure and award to winning competitors trophies, medals, badges, and other insignia. In the execution of this mission the board is charged with encouraging and supporting small arms target practice throughout the United States and its Territories, for the purpose of training the citizenry in the use of military-type individual small arms, particularly to the end that those individuals who may be called upon to serve in time of war will be qualified as finished marksmen, and to create a public sentiment which emphasizes the necessity of marksmanship training with military-type individual small arms as a means of National Defense.

(c) *Composition.* The National Board for the Promotion of Rifle Practice will consist of not less than 21 members or more than 25 members, to be appointed by the Secretary of the Army from time to time from the Army, the Navy, the Air Force, the Marine Corps, the Coast Guard, the reserve components of the Armed Forces of the United States, the National Rifle Association of America, the Selective Service System, and the country at large.

(d) *Members to serve without compensation.* Members will serve without compensation as such, other than reimbursement of necessary authorized expenses.

(e) *Executive committee.* (1) An executive committee consisting of not less than three members of the board will be appointed by the president at the first meeting of the board each year. This committee will serve for 1 year. The representative of the Assistant Chief of Staff, G–3, Department of the Army, on the board normally will be chairman of the committee.

(2) The committee will, during such times as the board is not in session, act for the board on all matters referred to it, and its action when approved by the president will become binding on the board.

(f) *Budget committee.* (1) A budget committee consisting of not less than three members of the board will be appointed by the president at the first meeting each year. The Deputy Assistant Secretary of the Army (FM) will normally be chairman of the committee.

(2) The committee will act for the board in the preparation and defense of budget requests for "Promotion of Rifle Practice," and as otherwise required concerning budgetary matters pertaining to activities of the National Board for the Promotion of Rifle Practice.

(g) *Expenditure projects.* Expenditures of funds will be made only in accordance with expenditure projects prepared by the budget committee in accordance with law and regulations and approved by the president.

(h) *Executive officer.* (1) The executive officer will be an officer of the Army selected by the president from among members of the board.

(2) He will be recorder of the board and, under the direction of the president will:

(i) Conduct its detailed business;

(ii) Make all contracts and agreements covering the expenditure of public funds, in accordance with law and regulations;

(iii) In collaboration with the budget committee of the board, prepare and assist in defending annual requests of the board for appropriations which are necessary to accomplish the duties charged to the board; and

(iv) Be responsible for the preparation of that portion of the annual report of the president to the Secretary of the Army pertaining to the activities of the board to be included in the semiannual report of the Secretary of the Army.

(i) *Logistical support.* The active Army will provide, within the limits of available funds, logistical support for this program through supply and service activities and Department of the Army stocks in accordance with availability and the established supply and pricing policy. This program is funded for through separate appropriations, the budget estimates for which are prepared by the National Board for the Promotion of Rifle Practice.

(j) *Meetings.* The board will hold two meetings annually for the transaction of such business as may properly come before it. One such meeting will be held not later than April 15th of each calendar year at such time and place as may be designated by the president. The second meeting will be held at the site of the annual National Matches.

(k) *Government of the board.* (1) Robert's Rules of Order will be authority for the governing and regulating of all meetings of the National Board for the Promotion of Rifle Practice.

(2) Proxies will not be allowed in either meetings of the board or meetings of regularly appointed committees of the board.

(3) The president of the board and the executive officer will be ex officio members of all committees of the board, except that the executive officer will not be a member of the executive committee.

(l) *Director of Civilian Marksmanship.* (1) The act of 29 August 1916 (39 Stat. 648), as amended (32 U. S. C. 182), authorized the Secretary of the Army to appoint an officer of the Army or Marine Corps as Director of Civilian Marksmanship. The office of the Director is the implementing agency for the National Board for the Promotion of Rifle Practice. The Director of Civilian Marksmanship is responsible for implementing the policies established by the board as approved by the president for the Secretary of the Army.

(2) Under the direction of the National Board for the Promotion of Rifle Practice, and as provided in pertinent Department of the Army regulations, the

Director of Civilian Marksmanship is responsible for:

(i) Initiating, developing, coordinating and recommending appropriate actions on matters pertaining to:

(*a*) Organization of civilian rifle clubs;

(*b*) Procedure and policy governing the enrollment of civilian clubs and schools in the civilian marksmanship program fostered by the National Board for the Promotion of Rifle Practice and implemented by the Director of Civilian Marksmanship;

(*c*) Policies and procedures governing the issue made to civilians, of rifles, ammunition, targets, and other supplies and materials required in the conduct of small arms marksmanship training;

(*d*) Bonding of clubs and schools to which government property is issued on a loan basis;

(*e*) Proper accountability of property issued to civilian rifle clubs and schools;

(*f*) Policies and procedures governing awards of marksmanship qualification badges, medals, and trophies provided by the National Board for the Promotion of Rifle Practice in execution of the programs of marksmanship training and competitions fostered by the board; and

(*g*) Requests of schools and authorized civilian organizations to use government-owned rifle ranges at military installations throughout the United States.

(ii) Conducting a continuing review of major policies of the National Board for the Promotion of Rifle Practice as related to those of the National Rifle Association of America, to insure proper correlation between the two organizations on matters pertaining to the nation-wide civilian marksmanship training program fostered by the National Board for the Promotion of Rifle Practice and executed in collaboration with the National Rifle Association.

[NR 920–15, 23 Dec. 1954, and C1, 20 Oct. 1955] (R. S. 161; 5 U. S. C. 22. Interprets or applies 39 Stat. 211, as amended, 43 Stat. 510, as amended; 32 U. S. C. 181, 186)

[SEAL] JOHN A. KLEIN,
Major General, U. S. Army,
The Adjutant General.

TITLE 41—PUBLIC CONTRACTS

Chapter II—Division of Public Contracts, Department of Labor

PART 202—MINIMUM WAGE DETERMINATIONS

ENVELOPE INDUSTRY

On December 14, 1954, a public hearing to determine the prevailing minimum wages in the envelope industry was held pursuant to notice published in the November 18, 1954, issue of the FEDERAL REGISTER (19 F. R. 7437–7438). Notice of a proposed amendment to the determination of the prevailing minimum wage for the envelope industry was published in the FEDERAL REGISTER (20 F. R. 1380) on March 8, 1955. The notice provided a period of thirty days within which interested parties might submit exceptions to the proposed amendments. The time for filing such exceptions expired on April 7, 1955.

One exception has been received. The Tension Envelope Corporation objects to the subminimum wages authorized in the proposed determination. It suggests that a seventy-five cent minimum wage rate should be established for beginners and that such wage rate should be increased five cents per hour at the end of the first month, and an additional five cents per hour at the end of three months. No evidence other than the rates paid to beginners in their plants has been offered in support of this proposal. The suggestion has been considered, but in view of the substantial evidence contained in the record supporting the $1.02 per hour minimum wage for beginners in the envelope industry, I find insufficient basis for changing my decision as proposed.

Upon consideration of the entire record the proposed amendment is hereby adopted.

Accordingly, pursuant to the authority vested in me by the Walsh-Healey Public Contracts Act, § 202.13 of Title 41, Code of Federal Regulations, Part 202 is hereby amended to read as follows:

§ 202.13 *Envelope industry*—(a) *Definition.* The envelope industry is defined as that industry which manufactures or furnishes envelopes, with the exception of boxed and personal stationery (papeteries).

(b) *Minimum wage.* The minimum wage for persons employed in the manufacture or furnishing of products of the envelope industry under contracts subject to the Walsh-Healey Public Contracts Act shall be not less than $1.08 an hour arrived at either on a time or piece rate basis.

(c) *Subminimum wages authorized.* (1) Beginners may be employed at subminimum rates subject to the following terms and conditions:

(i) In the performance of contracts for products of the envelope industry, beginners may be paid a subminimum rate of $1.02 an hour. If experienced workers in the same plant are paid on a piece rate basis, beginners must be paid the same piece rates, but may not be paid less than $1.02 an hour.

(ii) A beginner for the purposes of this determination is a person who has had less than 480 hours experience in the industry.

(iii) If the beginner has had previous experience in the industry, the number of hours of such experience must be deducted from the 480 hour learning period during which the subminimum rate may be paid.

(2) (i) Handicapped workers may be employed at wages below the applicable minimum wages specified herein upon the same terms and conditions as are prescribed for the employment of handicapped workers by the Regulations of the Administrator of the Wage and Hour Division of the United States Department of Labor (29 CFR Parts 524, 525), under section 14 of the Fair Labor Standards Act.

(ii) The Administrator of the Public Contracts Division is authorized to issue certificates under the Public Contracts Act for the employment of handicapped workers not subject to the Fair Labor Standards Act or subject to two different minimum rates of pay under the two acts, at appropriate rates of compensation and in accordance with the standards and procedures prescribed by the applicable regulations issued under the Fair Labor Standards Act.

(d) *Effect on other obligations.* Nothing in this section shall affect any obligations for the payment of minimum wages that an employer may have under any law or agreement more favorable to employees than the requirements of this section.

(e) *Effective date.* This determination shall be effective and the minimum wages hereby established shall apply to all contracts subject to the Public Contracts Act, bids for which are solicited or negotiations otherwise commenced on or after December 5, 1955.

(Sec. 4, 49 Stat. 2038; 41 U. S. C. 38)

Signed at Washington, D. C., this 2d day of November 1955.

ARTHUR LARSON,
Acting Secretary of Labor.

[F. R. Doc. 55–8949; Filed, Nov. 4, 1955; 8:47 a. m.]

PART 202—MINIMUM WAGE DETERMINATIONS

PAPER AND PULP INDUSTRY

On January 27, 1953, notice was published in the FEDERAL REGISTER (18 F. R. 572) of a proposed amendment to the determination of the prevailing minimum wages for the paper and pulp industry. On June 22, 1954, after publication of due notice in the May 28, 1954 issue of the FEDERAL REGISTER (19 F. R. 3100), a supplemental hearing was held in Washington, D. C. Subsequently on February 22, 1955, notice was published again in the FEDERAL REGISTER (20 F. R. 1100) of the proposed amendment to the determination of the prevailing minimum wages for the paper and pulp industry. The notice provided a period of 30 days within which interested parties might submit exceptions or objections to said proposed decision, together with the supporting reasons therefor. This period expired on March 24, 1955.

Exceptions and objections have been received from two sources. Mr. J. F. Hogan, President of Oswego River Tissues, Inc. objects to the finding of a separate minimum for the paper bag branch of the industry and suggests that a higher minimum, specifically $1.25 per hour, be found for the entire industry. No analysis of conditions in the industry or of wage rates as reflected by the record herein is submitted in support of his contentions. As the record clearly justifies regarding the manufacture of paper bags as a separate branch of the industry and the finding of a separate minimum wage for the branch, the objection must be overruled.

Attorneys for the bag companies, who intervened following the proposed decision of January 27, 1953, and who are hereinafter referred as intervenors, filed exceptions challenging (1) the adequacy under section 4 (a) of the Administrative Procedure Act of the notice of hearing published on May 28, 1954; (2) the propriety of minima applicable to the country as a whole as distinguished from separate minima for each separate "locality" as that term of the statute is interpreted by intervenors; and (3) the evidentiary foundation upon which the proposed rates are based. Intervenors also object to inclusion in the record of unsworn testimony by Harry Sayre and Henry Segal. Finally they object to certain language contained in the proposed amendment from which they incorrectly infer that I may fail to give serious consideration to their exceptions.

In support of exceptions 1, 2 and 3 the Intervenors have referred to the reasons stated in their brief filed on July 24, 1954. All of the matters raised in that brief and repeated in these exceptions have been fully considered and were ruled upon in my proposed decision. Nevertheless, I have carefully reconsidered each point raised in the exceptions, and find no basis for changing my decision as proposed.

The intervenors also except to the admission in evidence of Government Exhibits N, O, P, Q–1, Q–2, Q–3, R, S and T. These exhibits are relevant and material to my consideration of the economic factors involved in the question of whether it would be appropriate to make separate determinations for different geographic areas in this industry.

Intervenors object to the inclusion in the record of the "unsworn testimony" of Harry Sayre and Henry Segal. The Administrative Procedure Act does not require that testimony taken in proceedings of this kind be taken under oath and the published rules of practice applicable here (41 CFR 203.18) leave the matter to the discretion of the presiding officer. Furthermore, the testimony in question was no more than a statement of position or, at most, argument. No factual evidence was included. Both witnesses expressly disclaimed any intention of offering additional evidence and neither statement contained any evidence which has been relied upon in reaching my decision.

I have carefully considered all of the exceptions and objections filed by the intervenors and find them to be unsupported by the record, irrelevant to this proceeding, or previously considered in the proposed decision.

Upon consideration of the entire record the proposed amendment is hereby adopted.

Accordingly, pursuant to the authority vested in me by the Walsh-Healey Public Contracts Act (41 U. S. C. Secs. 34–45), § 202.33 of Title 41, Part 202, of the Code of Federal Regulations is hereby amended to read as follows:

§ 202.33 *Paper and pulp industry*—(a) *Definition.* The paper and pulp industry is that industry which manufactures or furnishes any of the following products: pulp from wood or from other materials such as rags, linters, waste paper and straw; paper from wood pulp and other fibers; paperboard from wood pulp and other fibers; building paper and building board, except gypsum products; coated bookpaper; paper bags, including paper shipping sacks; and sanitary paper such as facial tissues, toilet paper, paper napkins and paper towels.

(b) *Minimum wages.* (1) The minimum wage for persons employed in the manufacture or furnishing of products of the paper and pulp industry (other than bags) under contracts subject to the Walsh-Healey Public Contracts Act shall be $1.115 an hour arrived at either on a time or piece-rate basis.

(2) The minimum wage for persons employed in the manufacture of products of the paper bag branch of the paper and pulp industry under contracts subject to the Walsh-Healey Public Contracts Act shall be 99 cents an hour arrived at either on a time or piece-rate basis.

(c) *Subminimum wages authorized.* (1) Beginners (probationary workers) as defined in this paragraph may be employed at hourly wage rates not lower than the following: $1.065 per hour in the paper and pulp industry (other than bags) and 94 cents per hour in the paper bag branch, arrived at either on a time or piece-rate basis. A beginner or probationary worker for the purpose of this determination is an employee who has less than 160 hours experience in the plant in which he is employed.

(2) Handicapped workers may be employed at wages below the minimum rates upon the same terms and conditions as are prescribed for the employment of handicapped workers by the regulations of the Administrator of the Wage and Hour Division of the Department of Labor (29 CFR Parts 524, 525), under section 14 of the Fair Labor Standards Act, as amended.

The Administrator of the Public Contracts Division is authorized to issue certificates under the Public Contracts Act for the employment of handicapped workers not subject to the Fair Labor Standards Act or subject to different minimum rates of pay under the two acts, at appropriate rates of compensation and in accordance with the standards and procedures prescribed by the applicable regulations issued under the Fair Labor Standards Act.

(d) *Effect on other obligations.* Nothing in this section shall effect any obligations under any other law or agreement for the payment of minimum wages higher than those specified herein.

(e) *Effective date.* This determination shall be effective and the minimum wages hereby established shall apply to all contracts subject to the Walsh-Healey Public Contracts Act, bids for which are solicited or negotiations otherwise commenced on or after December 5, 1955.

(Sec. 4, 49 Stat. 2038; 41 U. S. C. 38)

Signed at Washington, D. C., this 2d day of November 1955.

ARTHUR LARSON,
Acting Secretary of Labor.

TITLE 49—TRANSPORTATION

Chapter I—Interstate Commerce Commission

[Docket 3666; Order 20]

PARTS 71–78—EXPLOSIVES AND OTHER DANGEROUS ARTICLES

MISCELLANEOUS AMENDMENTS

Correction

The following changes should be made in Federal Register Document 55–8723, appearing at page 8087 of the issue for Friday, October 28, 1955:

1. The amendment concerning § 73.334 (page 8103, third column) is deleted in its entirety.

2. In § 78.209–13 (a) (page 8110, middle column) the symbol should read as follows:

ICC–12H••

3. In § 78.325–2 (a) (page 8112, column 2) the final proviso should read: "and provided further that such tanks can and do, within six months of December 31, 1955, successfully pass the tests prescribed in § 78.325–5."

4. In § 78.325–3 the first sentence of paragraph (a) should read: "Except as provided elsewhere in the regulations in this part, every new cargo tank manufactured on or after December 31, 1955, for the transportation of any flammable liquid or poisonous liquid class B, having a Reid (ASTM D–323) vapor pressure of 18 psia or higher at 100° F. shall comply with the requirements of this specification."

5. In § 78.325–5 (b), subparagraphs (1) and (2) should read as follows:

(1) Whenever any tank, new or old, is acquired by a motor carrier; except that suitable testing of new tanks when completed by the manufacturer and before such tanks are placed in service will be considered as complying with this requirement.

(2) On each existing tank continuing in service in accordance with § 78.325–2, which tank has not been so tested within 21 months of December 31, 1955. The test required by § 78.325–2 shall be made within six months of December 31, 1955;

TITLE 46—SHIPPING

Chapter I—Coast Guard, Department of the Treasury

Subchapter N—Explosives or Other Dangerous Articles or Substances and Combustible Liquids on Board Vessels

[CGFR 55–47]

PART 146—TRANSPORTATION OR STORAGE OF EXPLOSIVES OR OTHER DANGEROUS ARTICLES OR SUBSTANCES AND COMBUSTIBLE LIQUIDS ON BOARD VESSELS

INTERIM STOWAGE REQUIREMENTS FOR CHEMICAL AMMUNITION, CLASS II–D, WP AND PWP FILLED (SOLID)

The Chief of Ordnance, Department of the Army, stated that the stowage requirements in 46 CFR 146.29–100 for chemical ammunition, Class II–D, WP and PWP filled (solid), created unsatis-

factory ballistics characteristics and unsafe munitions. Therefore, interim instructions to correct these defects are contained in this document and shall remain in effect until the regulations in 46 CFR 146.29–100 can be reviewed and amended as provided by law.

By virtue of the authority vested in me as Commandant, United States Coast Guard, by Treasury Department Order No. 120, dated July 31, 1950 (15 F. R. 6521), and Treasury Department Order 167–14, dated November 26, 1954 (19 F. R. 8026), to promulgate interim requirements in accordance with R. S. 4405, as amended, 4462, as amended, 4472, as amended, and sec. 3, 68 Stat. 675 (46 U. S. C. 375, 416, 170) and Executive Order 10402 (3 CFR, 1952 Supp.): *It is ordered*, That:

(a) The regulations in 46 CFR 146.29–100, regarding stowage of chemical ammunition, Class II–D, WP and PWP filled (solid), shall be modified by the following interim stowage requirements pending formal amendment in accordance with procedures in R. S. 4472, as amended (46 U. S. C. 170):

(1) It is important to stow chemical ammunition, Class II–D, WP and PWP filled (solid), in locations not subject to temperatures above 100° F.

(2) When shipments of Army ammunition of this class cannot be so stowed, the following shall be complied with:

WP and PWP filled items of ammunition shall be stowed in a nose up position unless other requirements are specified by the Army. The position of the nose end of the item of ammunition is marked on the outside of the package or container.

(R. S. 4405, as amended, 4462, as amended; 46 U. S. C. 375, 416, 170)

Dated: October 31, 1955.

[SEAL] A. C. RICHMOND,
Vice Admiral, U. S. Coast Guard, Commandant.

PROPOSED RULE MAKING

DEPARTMENT OF AGRICULTURE

Agricultural Marketing Service

[7 CFR Part 966]

[Docket No. AO–257–A1]

MILK IN SHREVEPORT, LOUISIANA, MARKETING AREA

NOTICE OF HEARING ON PROPOSED AMENDMENTS TO TENTATIVE MARKETING AGREEMENT AND TO ORDER

Pursuant to the Agricultural Marketing Agreement Act of 1937, as amended, (7 U. S. C. 601 et seq.), and in accordance with the applicable rules of practice and procedure, as amended, (7 CFR Part 900), notice is hereby given of a public hearing to be held in the State Exhibit Museum, 3015 Greenwood Road, Shreveport, Louisiana, beginning at 10:00 a. m., November 21, 1955.

Subjects and issues involved in the hearing. The public hearing is for the purpose of receiving evidence with respect to economic conditions which relate to the provisions specified in the proposals listed below or appropriate modifications thereof.

The proposals to amend the order (No. 66) are as follows:

By the Northwest Louisiana Pure Milk Producers Association:

1. Delete § 966.6 and substitute therefor the following:

§ 966.6 *Shreveport, Louisiana Marketing Area.* Shreveport, Louisiana Marketing Area, hereinafter called the marketing area, means all the territory and boundaries including all municipal corporations and Federal military reservations, facilities and installations and state institutes within the Parishes of Caddo, De Soto, Red River, Webster, Bossier, the Cities of Homer and Haynesville in Claiborne Parish, the City of Leesville and all military installations in Vernon Parish, all in the State of Louisiana.

2. Delete § 966.8 and substitute therefor the following:

§ 966.8 *Supply plant.* "Supply plant" means (a) any plant from which Grade A milk, skim milk or cream is shipped during the month to a distributing plant in any of the months of January through July, or (b) any plant from which not less than 50 percent of the Grade A milk received from dairy farmers during the month is shipped in such month as milk, skim milk or cream to distributing plants during the months of August through December.

3. Amend § 966.27 (i), (j) (2), and (k) by deleting in each of these paragraphs the words "12th day" and substitute the words "10th day". Amend § 966.90 (d) by deleting the words "13th and 26th days of each month" and substitute therefor the following: "11th and 25th days of each month".

4. Delete paragraph (a) in § 966.51 and substitute therefor the following:

(a) *Class I Milk Price.* The Class I milk price shall be the basic formula price as determined pursuant to § 966.50 plus $2.20 for each of the months of March, April, May and June and $2.60 for all other months.

5. Delete § 966.53.

6. In § 966.41 redesignate present paragraph (b) as paragraph (c) and add a new paragraph (b) as follows:

(b) The supply-demand adjustment for each month shall be determined as follows: Divide the total hundredweight of producer milk of all fluid milk plants for the 12-month period ended with the beginning of the preceding month, by the net hundredweight of Class I milk disposed of from all fluid milk plants during the same period and multiplied by 100. The resulting figure, rounded to the nearest whole percentage shall be known as the "utilization ratio". For each percentage by which the utilization ratio calculated for the month exceeds 125, subtract from, or for each percentage by which it is less than 120, add to, the Class I price, one cent.

By The Dairy Division, Agricultural Marketing Service:

7. Consider an increase in the maximum rate of administrative assessment provided by § 966.94.

Copies of this notice of hearing and the order now in effect may be procured from the market administrator, 3822 Linwood Avenue, Shreveport, Louisiana or the Hearing Clerk, Room 112, Administration Building, United States Department of Agriculture, Washington 25, D. C. or may be inspected there.

Dated: November 2, 1955.

[SEAL] ROY W. LENNARTSON,
Deputy Administrator.

[F. R. Doc. 55–8968; Filed, Nov. 4, 1955; 8:51 a. m.]

[7 CFR Part 978]

[Docket No. AO–184–A12]

MILK IN NASHVILLE, TENNESSEE, MARKETING AREA

NOTICE OF RECOMMENDED DECISION AND OPPORTUNITY TO FILE WRITTEN EXCEPTIONS WITH RESPECT TO PROPOSED AMENDMENTS TO TENTATIVE MARKETING AGREEMENT AND TO ORDER, AS AMENDED

Pursuant to the provisions of the Agricultural Marketing Agreement Act of 1937, as amended (7 U. S. C. 601 et seq.), and the applicable rules of practice and procedure, as amended, governing the formulation of marketing agreements and marketing orders (7 CFR Part 900), notice is hereby given of the filing with the Hearing Clerk of the recommended decision of the Deputy Administrator, Agricultural Marketing Service, United States Department of Agriculture, with respect to proposals to amend the tentative marketing agreement and the order, as amended, regulating the handling of milk in the Nashville, Tennessee, marketing area. Interested parties may file written exceptions to this decision with the Hearing Clerk, United States Department of Agriculture, Washington, D. C., not later than the close of business the third day after publication of this decision in the FEDERAL REGISTER. Exceptions should be filed in quadruplicate.

Preliminary statement. The hearing, on the record of which the proposed amendments to the tentative marketing agreement and to the order, as amended, were formulated, was conducted at Nashville, Tennesse, on September 22–23, 1955 (20 F. R. 7007). The material issues of record related to:

1. An emergency increase in the Class I differential.
2. An increase in the annual level of the Class I price.
3. A revision of the order to provide that the uniform price for "excess" milk should not exceed the uniform price for "base" milk.
4. A revision of the definition of "Fluid Milk Plant".
5. A revision of the base-forming period.
6. The level of the Class II price.
7. A revision of the method by which producers receive payment for milk.
8. Administrative and conforming changes in the order.

Findings and conclusions. The following findings and conclusions on Issue No. 1 are based upon the evidence introduced at the hearing and the record thereof. Expedited action is recommended on Issue No. 1. Findings and conclusions relating to Issues No. 2 through No. 8 will be recommended in a separate decision to be issued at a later date.

1. The order should be amended to provide that the Class I milk differential be $1.50 from the effective date of this order through February 1956, and $1.20 during March 1956.

At the hearing, producers' representatives proposed an emergency increase in the Class I milk differential of 30 cents during the months October 1955 through February 1956, in conjunction with their proposal to increase the average level of Class I prices 25 cents on an annual basis. The change recommended herein will provide an increase of 10 cents per hundredweight through March 1956, in lieu of an operative supply-demand adjustment factor.

The order regulating the handling of milk in the Nashville marketing area was amended effective April 1, 1955. Although the annual average Class I price level was not changed at that time, the seasonal variation in the Class I differential was altered. At the same time, the pooling provisions were changed to replace the market-wide pool with an individual handler pool. Because changes of that type in an order can have important effects on the organization and structure of a market, the effective date of the new supply-demand adjustment provision was delayed until January 1956. For these reasons the present Nashville order does not have an operative provision that adjusts automatically the Class I milk price in response to current supply-demand relationships in the area.

At the hearing, producers' representatives based their request for Class I price revision on the criteria that: (1) the Nashville order price for Class I milk is too low when compared with prices in surrounding markets, including nearby Federal order markets, and with the Class I price level which prevailed in prior years in the Nashville market, (2) this disparity in minimum producer prices, in previous years, was at least partially offset by premiums or "over-order" prices negotiated between the cooperative associations and handlers, (3) negotiations with handlers for "over-order" prices or premiums for the current fall and winter production season have not been and cannot be successful (because of litigation by the association to recover previous defaults in payments of premium money by a handler), and (4) production conditions in the Nashville marketing area are being affected by adverse weather at the same time that the market is experiencing a strong demand for Class I milk products.

Premiums which supplemented minimum order prices have been negotiated between the cooperative association and handlers and have been in effect during some months each year since the Federal order became effective in the Nashville market. Proponents testified that such premiums added enough to the minimum Class I milk price specified in the order to induce dairy farmers to produce the needed supplies of milk. Record evidence also indicates that the association has been, and undoubtedly will continue to be, unsuccessful in negotiating such premiums this fall and winter.

The evidence with respect to adequacy of producer milk supplies on a long-run and a short-run basis shows mixed trends. Evidence regarding long-run relationships indicates that during the period January 1953 through September 1955, the prevailing Class I differential averaged approximately $1.27 over the basic formula price. The present Class I differentials result in an annual average differential of $1.25. During this period, milk supplies have generally increased, providing an adequate supply of pure and wholesome milk for the market. On the other hand, however, milk is now being imported into the Nashville market from Indiana and Wisconsin to supplement local supplies. Handler testimony indicates these imports were necessitated because: (a) The handler erred in estimating his producer milk requirements this fall, and (b) pool plants having adequate supplies of producer milk for their in-area sales already had committed remaining supplies to out-of-area markets.

Testimony by proponents indicates that at the time of the hearing the State of Tennessee was experiencing an acute lack of rainfall. As a result, late corn and pastures have been damaged. Germination and growth of seedings have been hindered by the lack of moisture. Some pastures had been sown, and all were in need of rain. Other evidence indicates that the growing season and pasture conditions just passed have been the best in several years. During the last several years, however, the Nashville production area has suffered drought conditions.

Evidence in the record indicates that production in the Nashville market has increased since 1948. It also indicates that producers receipts in August 1955 were 11 percent greater than in August 1954. At the same time, Class I sales are increasing. For example, Class I sales in August 1955 were 18 percent greater than in August 1954.

Official notice is taken of "Milk Market Information, Nashville Marketing Area, September 1955, Volume 8, No. 10". This report is regularly issued by the Nashville market administrator. Information contained in this report indicates that in September 1955, producer receipts were 9.9 percent greater than in September 1954. Other information contained therein shows that at the same time, Class I sales increased by 14.2 percent. Daily average receipts of producer milk remained about the same between August and September 1955 (up less than 1 percent), whereas during this same period, daily average gross Class I sales increased 11.3 percent. These trends indicate a changing supply-demand relationship in that, at least in the short-run, Class I sales are increasing at a faster rate than producer receipts.

Ordinarily, changes in local supply-demand relationships similar to those detailed above would be reflected in the Federal order price through an appropriate supply-demand adjustment. However, as pointed out earlier in this decision, the present supply-demand provision in the Nashville order will not become operative until 1956. Moreover, were the provision operative it would not reflect the conditions now evident in the market since any adjustment would be based on the relationship between production and sales for a previous twelve-month period. Consequently, such changes cannot be reflected automatically in the Class I price until after March 31, 1956, without some amendatory action.

The statistics and procedures used in developing an appropriate supply-demand provision for the Nashville market for a limited period require too great a time for study and analysis for inclusion in this decision. Accordingly, it is concluded that the provision of the order which delays the operation of the present supply-demand adjustment until January 1956, be extended to cover the period through March 31, 1956. It also is concluded that the most appropriate means of reflecting current price adjustments justified by the changing supply-demand relationships is to amend the order to provide a fixed increase of 10 cents per hundredweight in the Class I milk differential through the month of March 1956. The Class I prices provided for herein are not significantly out of alignment with the Class I prices provided under other Federal orders in the general area, although they are actually less than such other prices plus the cost of transporting milk from such markets.

Rulings on proposed findings and conclusions. A number of briefs were filed which contained statements of fact, proposed findings and conclusions, and arguments with respect to the provisions of the proposed amendments. Every point covered in the briefs was carefully considered along with the evidence in the record in making the findings and reaching the conclusions hereinbefore set forth. To the extent that the findings and conclusions proposed in the briefs are inconsistent with the findings and conclusions contained herein, the request to make such findings or to reach such

conclusions is denied on the basis of the facts found and stated in connection with the conclusions in the recommended decision.

General findings. (a) The proposed marketing agreement and the order, as amended, and as hereby proposed to be further amended, and all of the terms and conditions thereof will tend to effectuate the declared policy of the act;

(b) The parity prices of milk as determined pursuant to section 2 of the act are not reasonable in view of the price of feeds, available supplies of feeds and other economic conditions which affect market supply of and demand for milk, in the marketing area and the minimum prices specified in the proposed marketing agreement and the order, as amended, and as hereby proposed to be further amended, are such prices as will reflect the aforesaid factors, insure a sufficient quantity of pure and wholesome milk, and be in the public interest; and

(c) The proposed order, as amended, and as hereby proposed to be further amended, will regulate the handling of milk in the same manner as, and will be applicable only to persons in the respective classes of industrial and commercial activity specified in a marketing agreement upon which a hearing has been held.

Recommended marketing agreement and order. The following amendment to the order is recommended as the detailed and appropriate means by which the foregoing conclusions may be carried out. The recommended marketing agreement is not included in this decision because the regulatory provisions thereof would be identical with those contained in the order as proposed to be further amended:

1. Delete § 978.51 (a) and substitute therefor the following:

(a) *Class I milk price.* The Class I milk price shall be the basic formula price for the preceding month, plus $1.40 during the months of September through February, and plus $1.10 during all other months, plus an additional 10 cents during the months through March 1956, plus or minus a supply-demand adjustment calculated for each month after March 1956 as follows:

(1) Divide the total hundredweight of producer milk of all fluid milk plants for the twelve-month period ending with the beginning of the preceding month, by the net hundredweight of Class I milk disposed of from all fluid milk plants during the same period and multiply by 100. The resulting figure rounded to the nearest whole percentage shall be known as the utilization ratio.

(2) For each percentage by which the utilization ratio calculated for the month pursuant to subparagraph (1) of this paragraph exceeds 130 subtract from, or for each percentage by which it is less than 125 add to, the Class I price, 1 cent.

Issued at Washington, D. C., this 2d day of November 1955.

[SEAL] ROY W. LENNARTSON,
Deputy Administrator.

[F. R. Doc. 55-8967; Filed, Nov. 4, 1955; 8:51 a. m.]

DEPARTMENT OF LABOR

Division of Public Contracts

[41 CFR Part 202]

PHOTOGRAPHIC AND BLUEPRINTING EQUIPMENT AND SUPPLIES INDUSTRY

AMENDMENT TO DETERMINATION OF PREVAILING MINIMUM WAGE

This matter is before the Department of Labor pursuant to the Walsh-Healey Public Contracts Act, as amended (49 Stat. 2036; 41 U. S. C. sec. 35 et seq.).

In a minimum wage determination issued on January 24, 1950 (15 F. R. 382), the Secretary of Labor determined the minimum wage prevailing for persons employed in the photographic supplies industry, in the performance of contracts subject to the act, to be not less than 75 cents an hour. This determination also authorized the employment of learners and handicapped workers at wages below 75 cents an hour upon the same terms and conditions as are prescribed for the employment of learners and handicapped workers by the regulations of the Administrator of the Wage and Hour Division of the United States Department of Labor under section 14 of the Fair Labor Standards Act. This determination is currently in effect as editorially revised and published in the FEDERAL REGISTER on July 20, 1950 (15 F. R. 4641).

The present proceedings were initiated by the Secretary of Labor on his own motion. Notice of a public hearing in this matter to be held on March 8, 1955, was duly published in the February 4, 1955, issue of the FEDERAL REGISTER (20 F. R. 769). Copies of the notice and of a press release announcing the hearing were mailed to trade associations, unions, and to other interested parties in the photographic and blueprinting equipment and supplies industry. In addition, the press release was distributed to newspapers and to trade publications.

This notice informed interested persons of the time and place at which they could appear and offer testimony as to (1) the prevailing minimum wages in the photographic and blueprinting equipment and supplies industry; (2) whether there should be included in any amended determination for this industry provision for the employment of learners, beginners or apprentices at subminimum rates and on what terms or limitations, if any, such employment should be permitted; (3) the propriety of the proposed redefinition and redesignation of this industry; and (4) whether a single determination applicable for all the area in which the industry operates, or a separate determination for each of several different smaller geographical areas (including the appropriate limits of such areas), should be determined for this industry. The notice particularly invited information with respect to the subject matter of the testimony or statements of each witness as to (1) the identity of any products which are not now expressly included in the definition of the industry which should be included and of any products now included which should not be included; (2) the number of workers covered in the presentation; (3) the number and location of establishments; (4) minimum wages paid at the end of a probationary or learner period, the number of workers receiving such wages, and the occupations in which these employees are found; (5) whether learners, beginners or apprentices are employed at subminimum rates, and if so, in what occupations, at what subminimum rates, and for what periods, and the number or proportion of such employees; and (6) the extent to which there is competition in this industry between different plants in different geographical areas. The notice also stated that "To the extent possible, data should be submitted in such a manner as to permit evaluation thereof on a plant by plant basis."

Pursuant to the notice a hearing was held on March 8, 1955, at 10:00 a. m. in room 2203, Department of Labor Building, Washington, D. C. The National Association of Photographic Manufacturers (NAPM), National Association of Blueprint and Diazotype Coaters, unions affiliated with the American Federation of Labor and the Congress of Industrial Organizations, various individual firms, and an independent labor union were represented at the hearing. The record was kept open for fifteen days following the receipt of the transcript for any party who wished to present proposed findings, conclusions, and briefs or arguments in support thereof. The record was closed on May 5, 1955.

Definition. The notice of hearing, dated January 28, 1955, was published in the February 4, 1955, issue of the FEDERAL REGISTER (20 F. R. 769), redesignated the industry as the photographic and blueprinting equipment and supplies industry and redefined the industry as follows:

(1) The photographic equipment and supplies branch of the photographic and blueprinting equipment and supplies industry is defined as that industry which manufactures or furnishes such products as: still and motion picture cameras; projection apparatus; photographic lenses; shutters; photocopy and microfilm machines; developing tanks and machines; enlargers; plate and film holders; tripods; film reels; picture projection screens; sensitized film, paper and plates; prepared photographic developers, and toners and fixers. Excluded are photographs, or photographic reproductions, or photographic finishing of any kind; photographic exposure meters; and photographic bulbs, tubes and related light sources.

(2) The blueprinting equipment and supplies branch of the photographic and blueprinting equipment and supplies industry is defined as that industry which manufactures or furnishes any of the following products: Blueprint machines and other apparatus and equipment used in blueprinting, whiteprinting, and other related processes; sensitized blueprint paper and cloth and other similarly sensitized papers and cloths; and specially prepared developing solutions intended for use with such sensitized papers and cloths, but not including the manufacture of blueprints.

The proposed definition as contained in the notice of hearing was used as the basis of a wage survey conducted by the Bureau of Labor Statistics. The principal differences between the present definition and the proposed definition consist of (1) the addition of 35 millimeter motion picture equipment, prepared photographic developers, toners and fixers, and (2) the reclassification of blueprint machines with other blueprinting equipment and supplies. It was generally accepted at both the Industry Panel Conference and at the public hearing, held during the 1951 proceedings for this industry, that the revised definition was appropriate in view of the fact that 35 millimeter motion picture equipment is now produced by firms in this industry. Similarly, even though bulk chemicals are produced by plants in the chemical industry, prepared photographic developers, toners and fixers were added to the definition since they are presently processed and packaged in photographic manufacturing plants.

At the hearing on March 8, 1955, no opposition to the proposed revision of the definition was expressed by union representatives. Both associations suggested minor changes, primarily for clarification.

The National Association of Photographic Manufacturers (NAPM) recommended that the proposed exclusionary language be changed to read, "Excluded are the making, processing, or finishing of photographs or photographic reproductions of any kind, including still or motion pictures." No opposition to the recommendation was expressed, and since such activity is not carried on in plants in the industry, the last sentence in the proposed definition of the photographic equipment and supplies branch of this industry will be revised to read: "Excluded are the making, processing, or finishing of photographs or photographic reproductions of any kind, including still or motion pictures; photographic exposure meters; and photographic bulbs, tubes and related light sources".

The National Association of Blueprint and Diazotype Coaters (NABDC) recommended that "diazotype sensitized papers and cloths" be specifically identified as one of the types of sensitized papers and cloths included in the definition. There appears to be considerable difference between diazotype paper and blueprint paper. The former is a positive type of sensitized paper whereas the latter is a negative paper. This difference indicates that diazotype sensitized papers and cloths are not necessarily included in "sensitized blueprint paper and cloth and other similarly sensitized papers and cloths". No opposition was expressed at the hearing to this recommended change in the definition. Therefore, the proposed definition of the blueprinting equipment and supplies branch of this industry will be revised to include the phrase "diazotype sensitized papers and cloths" immediately after the phrase "sensitized blueprint paper and cloth".

Marketing and competitive factors. Substantially the only information supplied on marketing and competitive factors was that offered by the Wage and Hour and Public Contracts Divisions in the form of tabulations based on an analysis of shipping instructions for photographic equipment and supplies procured by the Air Force in fiscal year 1954.

Government Exhibit N indicates the destinations of shipments and places of manufacture for 169 contracts valued at more than 28 million dollars. The manufacturing plants were located primarily in New York, Illinois, and California, although 11 other states were also represented. A total of 713 shipments were distributed among 45 states and the District of Columbia. Of 502 shipments originating in the Middle Atlantic Region only about one-sixth (88) went to destinations within this region while 97 went to the Pacific Region, 84 to the Border Region, 18 to the New England Region, 63 to the Southeast Region, 38 to the Great Lakes Region, 16 to the Middlewest Region, 47 to the Southwest Region, and 51 to the Mountain Region. In no instance did as many as one-fourth of the shipments originating within any region go to destinations within that same region.

The National Association of Photographic Manufacturers' representative stated that insofar as he knew, "all plants, regardless of size, are in interstate commerce and customarily sell, at least to some significant extent, outside of the region in which the plant is located." The National Association of Blueprint and Diazotype Coaters' representative also indicated "that there is considerable national competition," but stated that in their "cursory analysis" the regional factor would tend to outweigh the one overall wage determination. None of the union representatives proposed determinations on a regional basis, and the American Federation of Labor representative specified that the determination should be on a national and not a regional basis.

Because of the evidence of substantial interregional shipments throughout the country and of national competition in this industry, I find that the determination of the prevailing minimum wage for this industry should be made on an industry-wide basis.

Product differentials. The National Association of Blueprint and Diazotype Coaters suggested that different minimum wage determinations be made for the two branches of the industry because of wage differences. The National Association of Photographic Manufacturers did not specifically suggest consideration of two branches separately but did indicate that their comments pertained primarily to the photographic equipment and supplies branch of the industry. The union did not specifically comment on the propriety of two branches, but proposed a single rate for the industry and relied primarily on the data for the photographic equipment and supplies branch.

The dissimilarity of plants as to process and composition of labor force probably is little, if any, greater between the two branches of the industry than among plants within the photographic equipment and supplies branch. Some photographic equipment plants, for example, may be primarily engaged in such operations as plastic moulding, light metal stamping, or simple assembling while others have a variety of highly skilled operations such as those required in making precision shutters, lenses and other precision parts. Also, there is overlapping of the photographic equipment and supplies branch with the blueprinting equipment and supplies branch, as well as with other industries.

The products of both branches of the industry are almost exclusively in the same Standard Industrial Classification Code group (S. I. C. 3861). According to Bureau of Labor Statistics data only 1,255 (3 percent) of the 39,481 production workers in the industry were in the blueprinting and supplies branch.

The wage data for the two branches of the industry vary somewhat, with some data indicating a higher and others a lower wage structure for the photographic equipment and supplies branch, but, overall, the wage data do not support different rates for the two branches. While the data on lowest rates paid in plants in the blueprinting equipment and supplies branch indicate a somewhat higher wage level than that of the photographic equipment and supplies branch of the industry, the median average hourly earnings of production workers in this branch is well below the median in the photographic equipment and supplies branch, and the lowest established hiring rates in both are fairly comparable.

The above considerations indicate that a single prevailing minimum rate should be determined for the two branches of the industry.

Analysis of wage data. The wage survey by the Bureau of Labor Statistics covered all establishments primarily engaged in the manufacture of photographic and blueprinting equipment and supplies. The estimated total industry group was found to include 196 establishments, employing 59,480 workers of whom 39,481 were production workers. Of this number the Bureau of Labor Statistics obtained wage data from 183 establishments, employing 58,498 workers of whom 38,926 were production workers, or almost 99 percent of the estimated production workers in the industry.

The National Association of Photographic Manufacturers stated that the integrity or competence of the Bureau of Labor Statistics was not being questioned, but they did raise some questions regarding the suitability of the data. Among the points questioned were the difference between the Census total of 366 establishments and the Bureau's estimated total of 196 establishments for the industry, and the adequacy of coverage of small plants. In consideration of these points it should be noted that the Census data relate to the year of 1947, some seven years prior to the period studied by the Bureau of Labor Statistics; also the Bureau's estimate of production-worker employment (39,481) was more than 3,000 greater than the Census total of 36,273.

The Census report shows 307 small establishments (less than 100 workers) with total employment of 5,219. The Bureau's employment estimate for this plant-size group was 3,394 in the photographic equipment and supplies branch alone.

The Bureau of Labor Statistics found in its survey that the detailed questions of respondents revealed that a substan-

tial number of the 522 establishments on the original source lists were incorrectly classified, many of the smaller establishments being engaged in nonmanufacturing activities and some larger ones being primarily engaged in other manufacturing industries.

The omission from the Bureau's wage survey of some establishments which appeared on the Government award lists was also questioned. This resulted at least partially from the exclusion of all establishments which did not have photographic or blueprinting equipment and supplies as their major product. It also appears that some of the names on the award lists were dealers, and not manufacturers.

It appears therefore, that the Bureau of Labor Statistics survey is representative of the industry as defined and that it adequately reflects the wages of all workers employed in the production of products covered by the definition.

Table 5 of the Bureau of Labor Statistics survey indicates that 64.8 percent of the plants employing 89.6 percent of the production workers paid no workers less than $1.15 an hour. Only 31 percent of the workers, however, were employed in establishments with a minimum rate of $1.20 an hour or more, although a majority of the plants were in this category. From Table 4 it may be determined that a total of 120 (61 percent) of the 196 establishments, employing 88 percent of the production workers, paid such workers (excluding apprentices) not less than $1.18 an hour. Furthermore, nearly three-fifths (57 percent) of the 39,481 workers were employed in the 6 establishments which have a minimum rate of $1.18 an hour.

In view of the National Association of Photographic Manufacturers' position that the prevailing minimum wage should be representative of small establishments, consideration has also been given to the information shown in Table 4A for the 133 establishments each employing 100 or fewer workers in the photographic equipment and supplies branch of the industry. From the tabulation it will be noted that a majority (53 percent) of the production workers in these establishments were employed in 78 plants with lowest rates actually paid $1.18 an hour or more. Furthermore, it will be noted in Table 5B that the percentage of production workers in plants paying all workers $1.20 an hour or more was considerably greater in small plants than it was in plants employing 500 or more workers (51 percent as compared with 24 percent).

Although only 113 of the 196 establishments reported established hiring rates, consideration has also been given to these data as shown in Table 6. Some reported rates may not have been paid during recent periods, due either to the possibility that no new workers have been hired or that workers may have been hired at a rate different from the reported lowest hiring rates. Two-fifths of the establishments which reported lowest established hiring rates, reported rates at $1.18 an hour or more. The production worker employment in these plants represented 85 percent of the total with 65 percent in 7 establishments having a lowest hiring rate of $1.18 an hour.

From Table 2 it will be noted that less than 3 percent of the production workers in the industry had straight-time average hourly earnings below $1.18 during the pay period studied.

The various labor groups suggested minimums ranging from $1.28 to $1.45 per hour. None of these rates appears to be in accord with the Bureau of Labor Statistics survey data for June 1954, which in Table 4 shows that only 81 (41 percent) of the 196 establishments in the industry paid no production workers less than $1.28 an hour, and that production-worker employment in these plants represented only slightly more than one-fourth (26 percent) of the total in the industry. Only 28 percent of the establishments with 9 percent of the production workers paid all such workers $1.45 an hour or more. Of the 113 establishments which reported lowest established hiring rates (Table 6) only 19 (17 percent) reported minimum rates of $1.28 an hour or more and only 9 establishments (8 percent) showed the lowest hiring rates of $1.45 an hour or more. Consideration of the numbers of production workers employed in these plants shows smaller percentages of 11 and 7 percent, respectively.

On the basis of the evidence contained in the record, I find, therefore, that the prevailing minimum wage in the photographic and blueprinting equipment and supplies industry is $1.18 an hour.

SUBMINIMUM RATES

Learners. Separate wage data for learners were not obtained in the Bureau of Labor Statistics survey, as it appears that the industry does not employ learners as this term is usually applied. Most of the discussion at the hearing was due to the effect that no special provision for learners is required, although the NABDC representative stated that a preliminary analysis indicated the need for a differential for apprentices, learners and beginners. The recommended $1.18 an hour wage rate is based in part on the lowest established hiring rate, i. e., the lowest rate for new workers, and thus a lower rate for learners or beginners seems inappropriate. Also, the other wage tables referred to above include the earnings of all production workers (excluding apprentices), including new workers. Therefore, since there appears to be no basis for a learner tolerance, I find that it is unnecessary to include a provision for the employment of learners at subminimum rates.

Apprentices. As indicated in Table 7 twenty of the 196 establishments studied by the Bureau of Labor Statistics, with about 70 percent of the production-worker employment, reported established hiring rates for apprentices ranging from 75 cents to $1.86 an hour. It was stated, however, that relatively few apprentices are hired in this industry. Nevertheless, in view of the Department's interest in encouraging apprenticeship programs which meet certain defined standards, I intend to include in the determination a provision for the employment of apprentices.

Handicapped workers. The general regulations presently permit employment of handicapped workers at subminimum rates on contract work under the act. This authorization was not an issue in the proceedings. However, for purposes of clarity, it appears advisable to include in the determination a specific authorization for such employment.

Proposed amendment of determination. Accordingly, upon the findings and conclusions stated herein, notice is hereby given that I propose to amend the minimum wage determination for the photographic supplies industry, as contained in § 202.30 (41 CFR Part 202) to read as follows:

§ 202.30 *Photographic and blueprinting equipment and supplies industry*—(a) *Definition.* (1) The photographic equipment and supplies branch of the photographic and blueprinting equipment and supplies industry is defined as that industry which manufactures or furnishes such products as: still and motion-picture cameras; projection apparatus; photographic lenses; shutters; photocopy and microfilm machines; developing tanks and machines; enlargers; plate and film holders; tripods; film reels; picture projection screens; sensitized film, paper and plates; prepared photographic developers, and toners and fixers. Excluded are the making, processing or finishing of photographs or photographic reproductions of any kind, including still or motion pictures; photographic exposure meters; and photographic bulbs, tubes and related light sources.

(2) The blueprinting equipment and supplies branch of the photographic and blueprinting equipment and supplies industry is defined as that industry which manufactures or furnishes any of the following products: blueprint machines and other appartatus and equipment used in blueprinting, whiteprinting, and other related processes; sensitized blueprint paper and cloth, diazotype sensitized papers and cloths and other similarly sensitized papers and cloths; and specially prepared developing solutions intended for use with such sensitized papers and cloths, but not including the manufacture of blueprints.

(b) *Minimum wage.* The minimum wage for persons employed in the manufacture or furnishing of products of the photographic and blueprinting equipment and supplies industry under contracts subject to the Walsh-Healey Public Contracts Act shall be not less than $1.18 an hour arrived at either on a time or piece rate basis.

(c) *Subminimum wage authorized.* (1) Apprentices may be employed at wage rates equal to or in excess of the statutory minimum of the Fair Labor Standards Act but less than $1.18 an hour where the apprentice is employed under a written apprenticeship agreement or program: *Provided,* (i) That such agreement or program is registered with a state apprenticeship agency recognized by the Bureau of Apprenticeship, United States Department of Labor, or, if no such apprenticeship agency exists in the state, the Bureau of Apprenticeship, United States Department of Labor (Note 29 CFR Part 521); *Or provided,* (ii) In exceptional circumstances, that a special certificate authorizing the employment of the apprentice or apprentices has been obtained from the Administrator of the Wage and Hour and Public Contracts Divisions, or his authorized representative, upon a showing of substantial conformity with the standards prescribed for the employment of apprentices by the regulations of the Wage and Hour Division of the United States Department of Labor (29 CFR Part 521).

(2) (i) Handicapped workers may be employed in the Industry at wages below the applicable minimum wage specified in this section upon the same terms and conditions as are prescribed for the employment of handicapped workers by the regulations of the Administrator of the Wage and Hour Division of the Department of Labor (29 CFR Parts 524, 525) under section 14 of the Fair Labor Standards Act.

(ii) The Administrator of the Public Contracts Division is authorized to issue certificates under the Public Contracts Act for the employment of handicapped workers not subject to the Fair Labor Standards Act or subject to different minimum rates of pay under the two Acts, at appropriate rates of compensation and in accordance with the standards and procedures prescribed by the applicable regulations issued under the Fair Labor Standards Act.

(d) *Effect on other obligations.* Nothing in this section shall affect any obligations for the payment of minimum wages that an employer may have under any law or agreement more favorable to employees than the requirements of this section.

Within thirty days from the date of the publication of this notice in the FEDERAL REGISTER, interested parties may submit written exceptions to the proposed actions above described. Exceptions should be addressed to the Secretary of Labor, United States Department of Labor, Washington 25, D. C.

Signed at Washington, D. C., this 2d day of November 1955.

ARTHUR LARSON,
Acting Secretary of Labor.

[F. R. Doc. 55-8951; Filed, Nov. 4, 1955; 8:47 a. m.]

FEDERAL COMMUNICATIONS COMMISSION

[47 CFR Part 3]

[Docket No. 11514]

TELEVISION BROADCAST STATIONS

TABLE OF ASSIGNMENTS; EXTENSION OF TIME FOR FILING COMMENTS

In the matter of amendment of § 3.606 table of assignments, rules governing television broadcast stations (Weston, West Virginia).

1. The Commission adopted a notice of proposed rule making on October 5, 1955 (FCC 55-992), instituting a rule making proceeding in the above-entitled matter. The notice specified that comments should be filed by November 7, 1955, with replies due 10 days thereafter.

2. On October 26, 1955, the Joint Committee on Educational Television (JCET) filed a request for an extension of time to file comments to December 3, 1955. The JCET states that the attorney who has been representing it before the Commission is engaged in the preparation and trial of an anti-trust action in New York City and must therefore be in New York for most of the time between October 27 and the end of November, and that the preparation and participation in this trial will occupy most of this attorney's time during this period. The JCET states that it will be necessary for another attorney to undertake the preparation of its comments and that since this other attorney has not devoted very much time to the affairs of the JCET, a considerable amount of time will be necessary for him to study the papers and records in this proceeding. Accordingly, JCET requests that the time for filing comments in the proceeding be extended to December 3, 1955.

3. The Commission believes that a sufficient showing has been made to warrant an extension of time for filing comments in this proceeding and that such an extension would be in the public interest.

4. In view of the foregoing: *It is ordered,* That the time for filing comments in the above-entitled proceeding is extended to December 3, 1955; and that the time for filing replies to such comments is extended to 10 days thereafter.

Adopted: October 31, 1955.

Released: November 1, 1955.

FEDERAL COMMUNICATIONS COMMISSION,
[SEAL] MARY JANE MORRIS,
Secretary.

[F. R. Doc. 55-8958; Filed, Nov. 4, 1955; 8:49 a. m.]

[47 CFR Part 3]

[Docket No. 11515]

TELEVISION BROADCAST STATIONS

TABLE OF ASSIGNMENTS; EXTENSION OF TIME FOR FILING COMMENTS

In the matter of amendment of § 3.606 table of assignments, rules governing television broadcast stations (College Station, Texas).

1. The Commission adopted a notice of proposed rule making on October 5, 1955 (FCC 55-993), instituting a rule-making proceeding in the above-entitled matter. The notice specified that comments should be filed by November 7, 1955, with replies due 10 days thereafter.

2. On October 17, 1955, the Texas Agricultural and Mechanical College System filed a request for an extension of time to file comments in the proceeding to December 3, 1955. The College notes that the most recent meeting of its board of directors was held on October 1 and that the next meeting of the board is set for November 23, 1955; and states that since any action that may be taken in this matter involves policy requiring approval of the governing board, an extension of time should be granted in order that the board may be consulted prior to the filing of any comments.

3. On October 26, 1955, the Joint Committee on Educational Television (JCET) filed a request for an extension of time to file comments to December 3, 1955. The JCET states that the attorney who has been representing it before the Commission is engaged in the preparation and trial of an anti-trust action in New York City and must therefore be in New York for most of the time between October 27 and the end of November, and that the preparation and participation in this trial will occupy most of this attorney's time during this period. JCET states that it will be necessary for another attorney to undertake the preparation of its comments and that since this other attorney has not devoted very much time to the affairs of the JCET, a considerable amount of time will be necessary for him to study the papers and records in this proceeding. Accordingly, JCET requests that the time for filing comments in the proceeding be extended to December 3, 1955.

4. The Commission believes that a sufficient showing has been made to warrant an extension of time for filing comments in this proceeding and that such an extension would be in the public interest.

5. In view of the foregoing: *It is ordered,* That the time for filing comments in the above-entitled proceeding is extended to December 3, 1955; and that the time for filing replies to such comments is extended to 10 days thereafter.

Adopted: October 31, 1955.

Released: November 1, 1955.

FEDERAL COMMUNICATIONS COMMISSION,
[SEAL] MARY JANE MORRIS,
Secretary.

[Order No. 9]

REGIONAL COMMISSIONERS

DELEGATION OF AUTHORITY WITH RESPECT TO USE AND STORAGE OF GOVERNMENT-OWNED AUTOMOBILES

OCTOBER 14, 1955.

Pursuant to the authority vested in me by Treasury Department Order No. 151 (Revision No. 1), dated September 9, 1955, each Regional Commissioner is hereby delegated authority to authorize employees within his region to store official automobiles at or near their places of residence and to use such automobiles for home-to-work transportation, in accordance with the provisions of 5 U. S. C. 78.

Each Regional Commissioner may redelegate this authority to any one or several of his Assistant Regional Commissioners.

Any internal management document or delegation of authority which is inconsistent or in conflict with the provisions of this Order is hereby amended or superseded accordingly.

Effective date: October 14, 1955.

[SEAL] O. GORDON DELK,
Acting Commissioner.

DEPARTMENT OF COMMERCE

Federal Maritime Board

GREAT LAKES-BORDEAUX/HAMBURG RANGE WEST BOUND CONFERENCE

ESTABLISHMENT OF CONTRACT/NON-CONTRACT RATES

Notice is hereby given that on October 21, 1955, the Great Lakes-Bordeaux/Hamburg Range Westbound Conference filed with the Federal Maritime Board, pursuant to General Order 76 (46 CFR 236.3), a statement containing a proposal to establish contract/non-contract rates effective 30 days after the date of such filing, or on the date the Board shall have approved Agreement No. 7830-2 if the date of such approval shall be later than the expiration of said 30 day period. Agreement No. 7830-2 is a modification providing for the inclusion in the conference agreement of a specific provision for the establishment of a contract/non-contract rate system. The proposed contract/non-contract rates will apply to the transportation by the conference lines of all commodities except those specifically excluded in the form of shippers' contract, in the westbound trade from Continental ports of Europe within the Bordeaux/Hamburg Range to ports of the Great Lakes of the United States. The statement sets forth a spread or differential of 10 percent calculated to the highest 50 cents per 1000 kilos or cbm between such contract/non-contract rates, and information that such spread or differential is the correct one generally for the benefit of both carriers and shippers in this trade.

Interested parties may inspect the information contained in such statement, and may submit, within 20 days after publication of this notice in the FEDERAL REGISTER, written statements with reference to the information filed and any objections or other comments thereon, together with request for hearing should such hearing be desired.

By order of the Federal Maritime Board.

Dated: November 2, 1955.

[Docket No. 11523; File No. P-C-3642]

SOUTHWESTERN BELL TELEPHONE CO.

ORDER ASSIGNING MATTER FOR PUBLIC HEARING

In the matter of the application of Southwestern Bell Telephone Company for a certificate under section 221 (a) of the Communications Act of 1934, as amended, to acquire certain telephone plant and properties being operated by E. A. Dunlap, as Receiver for The Berryton Telephone Company, Berryton, Kansas.

The Commission having under consideration an application filed by Southwestern Bell Telephone Company for a certificate under section 221 (a) of the Communications Act of 1934, as amended, that the proposed acquisition by Southwestern Bell Telephone Company of certain telephone plant and properties being operated by E. A. Dunlap, as Receiver for The Berryton Telephone Company, a corporation furnishing telephone service in and around Berryton, Kansas, will be of advantage to the persons to whom service is to be rendered and in the public interest;

It is ordered, This 1st day of November 1955, that pursuant to the provisions of section 221 (a) of the Communications Act of 1934, as amended, the above application is assigned for public hearing for the purpose of determining whether the proposed acquisition will be of advantage to the persons to whom service is to be rendered and in the public interest;

It is further ordered, That the hearing upon said application be held at the offices of the Commission in Washington, D. C., beginning at 2:00 p. m. on the 2d day of December 1955, and that a copy of this order shall be served upon the Governor of the State of Kansas, Southwestern Bell Telephone Company, E. A. Dunlap, as Receiver for The Berryton Telephone Company, and the Postmaster of Berryton, Kansas; and

It is further ordered, That within ten days after the receipt from the Commission of a copy of this order, the applicant herein shall cause a copy hereof to be published in a newspaper or newspapers having general circulation in Berryton, Kansas, and shall furnish proof of such publication at the hearing herein.

Released: November 2, 1955.

[Docket Nos. 11524, 11525]

WISCONSIN TELEPHONE CO.

ORDER ASSIGNING MATTER FOR PUBLIC HEARING

In the matter of the applications of Wisconsin Telephone Company, Docket No. 11524, File No. P-C-3654; for a certificate under section 221 (a) of the Communications Act of 1934, as amended, to acquire certain telephone plant and properties of the Richmond Telephone Company, Richmond, Wisconsin. Wisconsin Telephone Company, Docket No. 11525, File No. P-C-3650; for a certificate under section 221 (a) of the Communications Act of 1934, as amended, to acquire certain telephone plant and properties of the Franksville Telephone Company, Raymond Center, Wisconsin.

The Commission having under consideration applications filed by Wisconsin Telephone Company for certificates under section 221 (a) of the Communications Act of 1934, as amended, that the proposed acquisition by Wisconsin Telephone Company of certain telephone plant and properties of the Richmond Telephone Company, at Richmond, Wisconsin furnishing telephone service in and around Whitewater, La Grange, Richmond, and Sugar Creek, in Walworth County and Johnston in Rock County, Wisconsin, and of certain telephone plant and properties of the Franksville Telephone Company furnishing service in and around Raymond, Caledonia, Yorkville, Mount Pleasant, and Norway in Racine County and Franklin and Oak Creek in Milwaukee County, Wisconsin will be of advantage to the persons to whom service is to be rendered and in the public interest;

It is ordered, This 1st day of November 1955, that pursuant to the provisions of section 221 (a) of the Communications Act of 1934, as amended, the above applications are assigned for public hearing in a consolidated proceeding for the purpose of determining whether the proposed acquisition will be of advantage to the persons to whom service is to be rendered and in the public interest;

It is further ordered, That the hearing upon said applications be held at the offices of the Commission in Washington, D. C. beginning at 10:00 a. m. on the 2d day of December 1955, and that a copy of this order shall be served upon the Governor of Wisconsin, the Public Service Commission of Wisconsin, each of the above-named telephone companies, and the Postmasters of Janesville, Darien, Delavan, Milton, Whitewater, Elkhorn, Caledonia, Franksville, Union Grove, Sturtevant, Racine, South Milwaukee and Hales Corners, Wisconsin, respectively; and

It is further ordered, That within ten days after the receipt from the Commission of a copy of this Order, the applicant herein shall cause a copy hereof to be published in a newspaper or newspapers having general circulation in the above-mentioned communities and the counties in which the properties are located and shall furnish proof of such publication at the hearing herein.

Released: November 2, 1955.

SECURITIES AND EXCHANGE COMMISSION

[File Nos. 24SF–1862, 24SF–1929]

CONSTANT MINERALS SEPARATION PROCESS, INC., ET AL.

ORDER TEMPORARILY SUSPENDING EXEMPTIONS, STATEMENT OF REASONS THEREFOR, AND NOTICE OF OPPORTUNITY FOR HEARING

NOVEMBER 1, 1955.

In the matter of Constant Minerals Separation Process, Inc. File No. 24SF–1862 and Constant Minerals Separation Process, Inc., for Maurice Constant and Harry C. Howell, Selling Stockholders, File No. 24SF–1929.

I. Constant Minerals Separation Process, Inc. ("issuer"), 530 California Avenue, Reno, Nevada, having filed with the Commission on January 4, 1954, a Notification on Form 1–A and an offering circular, and having subsequently filed amendments thereto, relating to a proposed public offering of 1,000,000 shares of its Class A common stock, 10 cents par value, to be sold at 20 cents per share for an aggregate of $200,000; and Constant Minerals Separation Process, Inc., for Maurice Constant, 530 California Avenue, Reno, Nevada, and Harry C. Howell, 901 First National Bank Building, Davenport, Iowa, as selling stockholders, having filed with the Commission on July 1, 1954 a Notification on Form 1–A, including a statement as an exhibit pursuant to Rule 219 (b) of Regulation A, and having subsequently filed an amendment thereto, relating to a proposed public offering of 200,000 shares of the issuer's Class A common stock, 10 cents par value, to be sold by and on behalf of the selling stockholders at 20 cents per share for an aggregate of $40,000, for the purpose of obtaining an exemption from the registration requirements of the Securities Act of 1933, as amended, pursuant to section 3 (b) of the act and Regulation A thereunder; and

II. The Commission having reasonable cause to believe:

A. That the terms and conditions of Regulation A have not been complied with in that the offering circular filed by and on behalf of the issuer and the Notification filed by and on behalf of the selling stockholders contain untrue statements of material facts and omit to state material facts necessary in order to make the statements made, in the light of the circumstances under which they were made, not misleading, particularly with respect to the following:

1. The statement on page 3 of the offering circular that the issuer has increased its water supply from 500 gallons per minute to 4,500 gallons per minute and drilled a 350-foot water well and the failure to disclose that the water supply developed by the issuer is inadequate to conduct mining and washing operations planned by the issuer;

2. The statement on page 1 of the offering circular and of the exhibit that the issuer is the owner of in excess of 16,000 acres of unpatented placer mining claims and the failure to disclose that the issuer's title thereto is subject to serious flaws;

3. The statement in the exhibit that the offering by the selling stockholders will not interfere with necessary financing by the issuer; and

4. The failure to disclose after the filing of said Notifications that a suit was commenced against the issuer and its directors alleging that the issuer is insolvent and that the directors have mismanaged its affairs, and demanding the appointment of a receiver and an injunction.

B. That the offerings of securities by the issuer and on behalf of the selling stockholders would and did operate as a fraud and deceit upon the purchasers.

C. That neither the issuer nor the selling stockholders have complied with the terms and conditions of Regulation A in that there has been a failure to file reports of sales with the Commission on Form 2–A as required by Rule 224 of Regulation A;

III. It is ordered, Pursuant to Rule 223 (a) of the General Rules and Regulations under the Securities Act of 1933, as amended, that the exemptions under Regulation A be, and they hereby are, temporarily suspended.

Notice is hereby given that any person having any interest in these matters may file with the Secretary of the Commission a written request for a hearing; that within 20 days after receipt of such request, the Commission will, or at any time upon its own motion may, set the matters down for hearing at a place to be designated by the Commission for the purpose of determining whether this order of suspension should be vacated or made permanent, without prejudice, however, to the consideration and presentation of additional matters at the hearing; and that notice of the time and place of said hearing will be given promptly by the Commission.

It is further ordered, That this Order and Notice shall be served upon Constant Minerals Separation Process, Inc., 530 California Avenue, Reno, Nevada, Maurice Constant, 530 California Avenue, Reno, Nevada, and Dr. Harry C. Howell, 901 First National Bank Building, Davenport, Iowa, personally or by registered mail or by confirmed telegraphic notice, and shall be published in the FEDERAL REGISTER.

By the Commission.

[SEAL] ORVAL L. DUBOIS,
Secretary.

[File No. 24FW–948]

ALLIED INDUSTRIAL DEVELOPMENT CORP.

ORDER TEMPORARILY DENYING EXEMPTION, STATEMENT OF REASONS THEREFOR, AND NOTICE OF OPPORTUNITY FOR HEARING

NOVEMBER 1, 1955.

I. Allied Industrial Development Corporation (hereinafter referred to as the "issuer"), 1508 Capitol Avenue, Houston, Texas, having filed with the Commission on June 20, 1955, a Notification on Form 1–A relating to a proposed offering of 300,000 shares of its $1.00 par value Class A Non-Voting Common Stock at the price of $1.00 per share, through Paul C. Ferguson & Company, 1508 Capitol Avenue, Houston, Texas, as underwriter (hereinafter referred to as the "underwriter"), for the purpose of obtaining an exemption from the registration requirements of the Securities Act of 1933, as amended, pursuant to the provisions of Section 3 (b) thereof and Regulation A promulgated thereunder; the Staff of the Commission having informed the issuer by letters dated June 21 and July 31, 1955 that said Notification and offering circular filed as part thereof did not appear to comply with the terms and conditions of said Regulation A in the respects therein specified; and

II. The Commission having reasonable cause to believe:

A. That the terms and conditions of Regulation A have not been complied with in that:

(1) The aggregate offering price of the securities to be offered, including bonus shares to be issued to the underwriter, exceeds the limitation of $300,000 as prescribed by Rule 217 (a);

(2) The issuer failed to file a Statement of Cash Receipts and Disbursements as required by note (iv) to Rule 219 (c) (6);

B. The Notification and offering circular contain untrue statements of material facts, and omit to state material facts necessary in order to make the statements made, in the light of the circumstances under which they are made, not misleading, particularly with respect to:

(1) The failure to disclose fully the background and experience of H. E. Woodson, president, director and promoter of the issuer; and

(2) Information concerning the company's properties, including production history, the number of productive wells and dry holes in the particular field, the distance from the company's properties to the nearest dry hole completed in the Ellenburger formation, and the cost to the promoters of the lease in Shackelford County, Texas; and

C. The use of the offering circular in connection with the offering of the shares to which the Notification relates will operate as a fraud and deceit upon the purchasers thereof.

III. *It is ordered,* Pursuant to Rule 223 (a) of the General Rules and Regulations under the Securities Act of 1933 that the exemption under Regulation A be, and it hereby is, temporarily denied.

Notice is hereby given, that any person having any interest in the matter may file with the Secretary of the Commission a written request for a hearing; that, within 20 days after receipt of such request, the Commission will, or at any time upon its own motion may, set the matter down for hearing at a place to be designated by the Commission for the purpose of determining whether this order of denial should be vacated or made permanent, without prejudice, however, to the consideration and presentation of additional matters at the hearing; and that notice of the time and place of said hearing will be promptly given by the Commission.

It is further ordered, That this Order and Notice shall be served upon Allied Industrial Development Corporation and Paul C. Ferguson & Company, and United States Corporation Company, 15 Exchange Place, Jersey City 2, New Jersey, personally or by registered mail or confirmed telegraphic notice, and shall be published in the FEDERAL REGISTER.

By the Commission.

[SEAL] ORVAL L. DUBOIS,
Secretary.

CONTINENTAL U308 CORP.

ORDER TEMPORARILY SUSPENDING EXEMPTION, STATEMENT OF REASONS THEREFOR, AND NOTICE OF OPPORTUNITY FOR HEARING

NOVEMBER 1, 1955.

I. Continental U308 Corporation ("issuer"), 206 North Virginia Street, Reno, Nevada, having filed with the Commission on June 29, 1955, a notification on Form 1–A and a statement specified by Rule 219 (b) of the General Rules and Regulations under the Securities Act of 1933, as amended, relating to a proposed public offering of 490,000 shares of its common stock, 10 cents par value, at 10 cents per share for the purpose of obtaining an exemption from the registration requirements of the act pursuant to the provisions of section 3 (b) thereof and Regulation A promulgated thereunder; the Staff of the Commission having informed the issuer by letter dated July 14, 1955 that said notification and statement did not appear to comply with the terms and conditions of said Regulation A in the respects therein specified; and

II. The Commission having reasonable cause to believe:

A. That the terms and conditions of Regulation A have not been complied with in that the notification fails to disclose the jurisdictions in which it is proposed to offer said securities and the facts relied upon for a claimed exemption by Hugh D. Connell for stock of the issuer sold on his behalf as required by Items 1 and 3 of Form 1–A.

B. That the terms and conditions of Regulation A have not been complied with in that the notification and statement contain untrue statements of material facts and omit to state material facts necessary in order to make the statements made in the light of the circumstances under which they are made, not misleading, particularly with respect to the following:

1. The nature, extent and validity of the issuer's mining claims;

2. The statements in the Engineer's Report with respect to assay data and operations in the adjoining property.

C. That the offering would operate as a fraud and deceit upon the purchasers in view of the failure to disclose the background and experience of Hugh D. Connell, president, director and promoter of the issuer.

III. *It is ordered,* Pursuant to Rule 223 (a) of the General Rules and Regulations under the Securities Act of 1933, as amended, that the exemption under Regulation A be, and it hereby is, temporarily suspended.

Notice is hereby given, that any person having any interest in the matter may file with the Secretary of the Commission a written request for a hearing; that, within 20 days after receipt of such request, the Commission will, or at any time upon its own motion may, set the matter down for hearing at a place to be designated by the Commission for the purpose of determining whether this order of suspension should be vacated or made permanent, without prejudice, however, to the consideration and presentation of additional matters at the hearing; and that notice of the time and place for said hearing will be promptly given by the Commission.

It is further ordered, That this order and notice shall be served upon Continental U308 Corporation and Ralph M. Tucker, Suite 204 Professional Building, Reno, Nevada, personally or by registered mail or confirmed telegraphic no-

tice, and shall be published in the FEDERAL REGISTER.

By the Commission.

[SEAL] ORVAL L. DUBOIS,
Secretary.

[File No. 70-3415]

NEW ENGLAND ELECTRIC SYSTEM AND WEYMOUTH LIGHT AND POWER CO.

NOTICE OF PROPOSED RIGHTS OFFERING BY SUBSIDIARY AND ACQUISITION OF SUBSIDIARY'S STOCK BY PARENT COMPANY

NOVEMBER 1, 1955.

Notice is hereby given that New England Electric System ("NEES"), a registered holding company, and its public-utility subsidiary Weymouth Light and Power Company ("Weymouth") have filed a joint application and an amendment thereto pursuant to the Public Utility Holding Company Act of 1935 ("act"), designating sections 6 (b), 9 (a), and 10 of the act as applicable to the proposed transactions, which are summarized as follows:

Weymouth, which presently has outstanding 65,191 shares of capital stock (par value $25 per share) and $2,850,000 of notes payable to NEES, proposes to issue and sell for cash 32,595 additional shares at the price of $42 per share, on the basis of one new share for each two shares presently outstanding, and to apply the proceeds thereof (amounting to $1,368,990) to the payment of a like amount of said notes. Rights to subscribe will be evidenced by full and half-share warrants, exercisable during a subscription period of 21 days. Full shares only will be issued.

NEES, which now owns 64,990 shares (99.691 percent) of Weymouth's capital stock, proposes: (1) To exercise its rights to subscribe for 32,495 additional shares to which it will be entitled, and (2) to purchase from Weymouth any unsubscribed shares at the subscription price of $42 per share. NEES states that during the subscription period it will offer to purchase from minority stockholders (5 in number, holding 201 shares) their present holdings, together with their rights to subscribe for additional shares, on the basis of $60 per share. NEES will use treasury funds for its proposed acquisitions.

It is stated that the subscription price of $42 and the purchase price of $60 were determined by the applicants after consideration of the earnings and book value of the Weymouth stock and other comparable utility company stocks.

Weymouth and NEES desire to consummate the proposed issue and sale of additional capital stock in order to finance permanently a portion of the capitalizable additions to Weymouth's plant through the issuance of equity securities. NEES also desires to invest funds not otherwise required in its business in acquiring the minority interest in Weymouth.

The Massachusetts Department of Public Utilities, the regulatory commission of the State in which Weymouth is organized and doing business, has approved the issuance and sale of the additional shares by Weymouth, and the sale of any unsubscribed shares to NEES, at a price of $42 per share.

Total expenses of Weymouth herein are estimated at $3,800 and of NEES at $300.

It is requested that the Commission's order be made effective upon issuance.

Notice is further given that any interested person may, not later than November 17, 1955, at 5:30 p. m., request the Commission in writing that a hearing be held on such matter, stating the nature of his interest, the reasons for such request, and the issues of fact or law, if any, raised by said application which he desires to controvert; or he may request that he be notified if the Commission should order a hearing thereon. Any such request should be addressed: Secretary, Securities and Exchange Commission, Washington 25, D. C. At any time after said date, said application, as now amended or as further amended, may be granted as provided in Rule U-23 of the Rules and Regulations promulgated under the Act, or the Commission may grant exemption from its rules as provided in Rules U-20 (a) and U-100, or take such other action as it may deem appropriate.

By the Commission.

[SEAL] ORVAL L. DUBOIS,
Secretary.

Subchapter B—Transportation

PART 38—TRANSPORTATION OF UNCRATED HOUSEHOLD GOODS BY FREIGHT FORWARDERS

Sec.
38.1 Purpose.
38.2 Statutory authority and basic regulations.
38.3 Selection of carrier.
38.4 Distribution of traffic.
38.5 Rate adjustments.
38.6 Engagement of services.
38.7 Execution and distribution of service tender.
38.8 Execution of accessorial services certificate.
38.9 Processing of Government bills of lading and supporting papers.

AUTHORITY: §§ 38.1 to 38.9 issued under sec. 202, 61 Stat 500, as amended; 5 U. S. C. 171a.

38.1 *Purpose.* The purpose of this part is to establish uniform procedures to be followed by the military departments in the shipment at Government expense of uncrated household goods of their uniformed personnel by freight forwarders to, from, or between points in the continental United States.

§ 38.2 *Statutory authority and basic regulations.* The statutory authority for the transportation of household goods of uniformed personnel at Government expense is contained in section 303 (c) of the Career Compensation Act of 1949 (63 Stat. 802) and the Missing Persons Act (56 Stat. 143, as amended). Basic regulations are set forth in Joint Travel Regulations promulgated jointly

by the Secretaries of the following Departments: Army; Navy; Air Force; Treasury; Commerce; and Health, Education, and Welfare. Chapter 8, Joint Travel Regulations, provides that shipments of household goods of uniformed personnel may be made at Government expense without regard to comparative costs; that is, by ordinary rail and/or water freight, ordinary motor freight, air or railway express, freight forwarder, or commercial van carrier, whichever, in the judgment of the shipping officer, will serve the best foreseeable interests of the Government and the owner of the property.

§ 38.3 *Selection of carrier.* The rule stated in § 38.2 with respect to comparative costs applies only to the mode or method of transportation, and does not apply to the selection of an individual carrier within a given mode. When in the judgment of the _____ officer, freight forwarder service is to be used, selection of a forwarder will be based primarily on the requirements of the individual shipment, the forwarder's ability to perform the required services satisfactorily and the cost of such services to the Government. In determining costs, consideration will be given to rates and charges in all applicable rate tenders and tariffs. It is not intended that relatively inconsequential differences in overall costs must be considered in the selection of forwarders since the administrative costs involved could well offset any gains the Government might receive from such differentials. Shipments will be tendered only to forwarders who are qualified, willing, and able to provide the services which will, in the judgment of the _____ officer, serve the best foreseeable interests of the Government and property owners. However, no forwarder shall be eligible to accept shipments unless it has executed and filed with the _____ officer at origin a Freight Forwarder Service Tender which conforms with DD Form 872.[1]

§ 38.4 *Distribution of traffic.* Subject to the conditions previously set forth, traffic will be equitably distributed among those qualified forwarders affording the lowest over-all cost to the Government. Each _____ officer will maintain a list of qualified forwarders as well as records indicating the distribution of traffic.

§ 38.5 *Rate adjustments.* (a) Tenders by freight forwarders of rates or charges below those in tariffs or other publications will be in writing and will contain a provision that they may be cancelled or modified only by written notice of not less than thirty days, except that a shorter notice may be given by mutual agreement of the parties concerned. Such tenders will be filed in the local shipping office. An original, signed tender and five copies thereof will be forwarded upon receipt by the _____ officer to the Transportation Division, General Accounting Office, Washington 25, D. C.

(b) When required, negotiations for rates or charges on volume transportation of household goods will be conducted by the headquarters of the Military Department concerned or as delegated and controlled by such headquarters.

§ 38.6 *Engagement of services.* (a) Subject to the exceptions noted in paragraph (b) of this section, Government bills of lading will be used to obtain the transportation of household goods by freight forwarder and authorized accessorial services performed in connection therewith, such as packing, drayage (at origin and destination), storage in transit, unpacking at destination, etc. Such Government bills of lading will be prepared and executed in accordance with the regulations of the respective Military Departments. In addition thereto, the following information will be shown under "Description of Articles" on the Government bill of lading:

(1) Gross, tare, and net weights, if such information is available at the time the bill of lading is prepared;

(2) Number and date of the applicable Freight Forwarder Service Tender (Uncrated Household Goods), DD Form 872; [1]

(3) Rate(s) and charge(s) per hundredweight, or other definable measures applying on the shipment, if ascertainable at the time the bill of lading is prepared. If such rate(s) or charge(s) are not normally applicable tariff rate(s) or charge(s), the word "Special" will be added in parentheses.

[1] Filed as part of original document.

(4) Tariff identification or other reference for rate(s) and charge(s).

(b) Purchase orders may be issued in lieu of Government bills of lading for obtaining drayage or other types of local service.

(c) When storage in transit is desired, the bill of lading will be annotated accordingly. If the _____ officer desires such storage at origin or destination, the annotation will be "storage in transit not to exceed _____ days is authorized and will be at origin" or "storage in transit not to exceed _____ days is authorized and will be at destination," as appropriate. The name of the storage warehouse will not be specified by the _____ officer.

§ 38.7 *Execution and distribution of service tender.* The _____ officer, upon request of a freight forwarder, will provide the forwarder two copies of DD Form 872,[1] Freight Forwarder Service Tender (Uncrated Household Goods), for execution, and one copy each of DD Forms 619[1] and 873.[1] The original Freight Forwarder Service Tender (Uncrated Household Goods), after execution by the freight forwarder, will be assigned an identifying serial number and retained in the files of the _____ officer. The duplicate copy of the Freight Forwarder Service Tender (Uncrated Household Goods) will be retained by the freight forwarder. Regulated freight forwarders will file Service Tenders with each of the installations from which they seek traffic. Freight forwarders which are exempt under section 402b of the Interstate Commerce Act will submit Service Tenders to the headquarters of the military department concerned for approval prior to filing them with local installations.

§ 38.8 *Execution of accessorial services certificate.* A certificate (DD Form 619)[1] verifying the accessorial services rendered by a freight forwarder in connection with the transportation must be executed in triplicate by the freight forwarder and the property owner, when applicable. Sufficient copies of this form will be provided the carrier by the _____ officer.

§ 38.9 *Processing of Government bills of lading and supporting papers.* (a) As soon as possible after pick-up of the household goods, the freight forwarder will furnish the ordering activity:

(1) Two memorandum copies, numbers 6 and 8, of the applicable bill of lading showing gross, tare and net weights, signature of the freight forwarder's agent, dates of pick-up and dispatch of shipment by the freight forwarder, the transportation rate, and total charges accrued.

(2) One copy of the inventory list.

(3) One copy of the completed Accessorial Services Certificate, DD Form 619,[1] with the words "at origin" added after the name of the shipping activity or installation. (This is required only when charges are assessed for accessorial services performed and are noted on the Government bill of lading.)

(b) The freight forwarder will furnish the property owner or his agent at time of pick-up:

(1) Memorandum Copy No. 9 of the Government bill of lading.

(2) A copy of the inventory list.

(c) The freight forwarder will submit to the origin _____ officer for the purpose of receiving payment:

(1) Original and memorandum copy No. 5 of the accomplished bill of lading.

(2) Original and copy of Public Voucher (Standard Forms 1113 and 1113A).

(3) Original or certified copies of certificates showing gross and tare weights furnished by a certified weighmaster or obtained from a certified scale.

(4) Original of Accessorial Services Certificate (DD Form 619).[1] (This is required only when charges are assessed for accessorial services performed and are noted on the Government bill of lading.)

(5) Two copies of the freight forwarder's bill of lading, freight bill, or combination form.

(d) Freight forwarders will not be required to furnish a greater number of copies of a Government bill of lading and/or supporting papers than is established in this part. In the event any copies of these documents (except the original Government bill of lading) are lost or destroyed, legible photostatic copies of the same size as the document reproduced are acceptable. If the original Government bill of lading should become lost or destroyed it will be replaced by a Certificate in Lieu of Lost U. S. Government Bill of Lading (Standard Form 1108).

(e) To facilitate timely payment to the freight forwarder, the origin _____ officer will:

(1) Promptly assemble and review the voucher and supporting papers required by the disbursing procedures of the military department concerned; and

(2) Promptly dispatch such papers to the appropriate disbursing office.

T. P. PIKE,
Assistant Secretary of Defense (Supply and Logistics).

Subchapter F—Personnel

PART 573—APPOINTMENT OF COMMISSIONED OFFICERS AND WARRANT OFFICERS

GENERAL ELIGIBILITY REQUIREMENTS

Paragraph (h) of § 573.10 is revised to read as follows:

§ 573.10 *General eligibility requirements.* * * *

(h) *Age.* Applicants must have reached their 21st birthday but not their 27th birthday on date of appointment. This maximum age may be increased by the number of years, months, and days of active Federal commissioned service performed in the Army of the United States after attaining the age of 21 years and subsequent to December 31, 1947, but not to exceed a total of 5 years; the maximum, therefore, precludes appointment after attainment of the 32d birthday. Applications will not be accepted from male applicants who will become ineligible by virtue of excess age within 9 months subsequent to the date the completed application file would be received in the Department of the Army (or from the end of the application period). Applications from Women's Army Corps applicants will not be forwarded if applicant will be ineligible by virtue of excess age within 3 months after the date the completed file will be received in the Department of the Army.

[C2, AR 601-100, October 12, 1955] (R. S. 161; 5 U. S. C. 22. Interprets or applies sec. 205, 61 Stat. 501, as amended; 10 U. S. C. 506c)

[SEAL] JOHN A. KLEIN,
Major General, U. S. Army, The Adjutant General.

[Amdt. 63]

PART 600—DESIGNATION OF CIVIL AIRWAYS

ALTERATIONS

Correction

In F. R. Document 55-8477, appearing in the issue for Thursday, October 20, 1955, at page 7899, paragraph 8 should read as set forth below:

8. Section 600.6012 *VOR civil airway No. 12 (Santa Barbara, Calif., to Philadelphia, Pa.)* is amended by changing all between the Winslow, Ariz., omnirange station and the Albuquerque, N. Mex., omnirange station to read: "Winslow, Ariz., omnirange station; Zuni, N. Mex., omnirange station, including a north alternate via the intersection of the Winslow omnirange 076° True and the Zuni omnirange 287° True radials; Grants, N. Mex., omnirange station; Albuquerque, N. Mex., omnirange station;" by changing all between the Emporia, Kans., omnirange station and the Columbia, Mo., omnirange station to read: "Emporia, Kans., omnirange station, including a north alternate via the intersection of the Wichita omnirange 046° True and the Emporia omnirange 259° True radials; Kansas City, Mo., omnirange station; Columbia, Mo., omnirange station, including a north alternate via the intersection of the Kansas City omnirange 077° True and the Columbia omnirange 292° True radials;".

TITLE 38—PENSIONS, BONUSES, AND VETERANS' RELIEF

Chapter I—Veterans Administration

PART 1—GENERAL PROVISIONS

ELIGIBILITY FOR AND DISPOSITION OF U. S. FLAG FOR BURIAL PURPOSES

In § 1.10, paragraphs (a) (1) (iv) and (b) (1) and (3) are amended to read as follows:

§ 1.10 *Eligibility for and disposition of the United States Flag for burial purposes*—(a) *Eligibility for burial flags*—(1) *Persons eligible.*

(iv) Any person who has served in the active service of the Armed Forces of the United States on or after June 27, 1950, and prior to February 1, 1955 (Presidential Proclamation 3080), and who was discharged or released from active duty under conditions other than dishonorable.

• • • • • •

(b) *Disposition of burial flags.* (1) When a flag is actually used to drape the casket of a deceased veteran, it must be delivered to the next of kin following interment. Where the flag is not claimed by next of kin it may be given upon request to a close friend or associate of the deceased veteran. Such action will constitute final and conclusive determination of rights under this section.

• • • • • •

(3) The phrase "close friend or associate" for the purpose of disposing of the burial flag means any person who because of his relationship with the deceased veteran arranged for the burial or assisted in the burial arrangements. In the absence of a person falling in either of these categories, any person who establishes by evidence that he was a close friend or associate of the veteran may be furnished the burial flag. Where more than one request for the burial flag is received and each is accompanied by satisfactory evidence of relationship or association, the Manager of the Veterans Administration station having jurisdiction of the burial flag quota will determine which applicant is the one most equitably entitled to the burial flag.

(Sec. 5, 43 Stat. 608, as amended, secs. 1, 2, 46 Stat. 1016, sec. 7, 48 Stat. 9; 38 U. S. C. 428, 11a, 707. Interprets or applies sec. 2, 57 Stat. 591, 65 Stat. 40, 69 Stat. 440; 36 U. S. C. 184, 38 U. S. C. 745, 38 U. S. C. ch. 12A)

This regulation is effective November 8, 1955.

[SEAL] J. C. PALMER,
Assistant Deputy Administrator.

[F. R. Doc. 55-8986; Filed, Nov. 7, 1955; 8:49 a m.]

PART 4—DEPENDENTS AND BENEFICIARIES CLAIMS

BASIC REQUIREMENTS OF SERVICE AND DEATH

In § 4.300, paragraph (b) (2) is amended to read as follows:

§ 4.300 *Basic requirements of service and death.* • • •

(b) • • •

(2) (i) Persons (volunteers) who have been or are provisionally accepted on or after June 27, 1950, and directed to report to a place for final acceptance or for entry upon active duty in the military or naval service, and who died or shall die as the result of disability incurred while en route to such place and within 120 days after the incurrence of such disability. Coverage is limited to those who died or shall die as a result of disability incurred while en route from the place of assembly to the induction station and does not extend to travel to the place of assembly or to the period after rejection including the return trip.

(ii) Reservists of the Army, Air Force, Navy, Marine Corps, or Coast Guard who on or after June 27, 1950, have been or are called to active duty (including active duty for training) for a period of 30 days or less and who die or shall die as the result of disability incurred while in authorized travel status and within 120 days after the incurrence of such disability. Coverage under the term "Authorized Travel Status" includes injuries received while en route to or returning from a designated destination, in compliance with competent orders, during the period specified in the orders as constituting active duty status.

• • • • • •

(Sec. 5, 43 Stat. 608, as amended, sec. 2, 46 Stat. 1016, sec. 7, 48 Stat. 9; 38 U. S. C. 11a, 426, 707)

This regulation is effective November 8, 1955.

[SEAL] J. C. PALMER,
Assistant Deputy Administrator.

PART 13—DEPARTMENT OF VETERANS BENEFITS, CHIEF ATTORNEYS

MISCELLANEOUS AMENDMENTS

1. In § 13.321, that portion of paragraph (b) (5) preceding subdivision (i) is amended to read as follows:

§ 13.321 *Investments; inspection of assets.* • • •

(b) • • •

(5) Where investments are made in bonds, the fiduciary will be required to furnish information as to serial numbers, kind of bonds, rate of interest, the date of maturity and security, if any. In the case of United States Government bonds, it is highly desirable that such investments be in the form of registered bonds and the bonds should be registered, unless for good cause shown such registration would be undesirable or unnecessary. The Chief Attorney will advise each fiduciary to keep such bonds in a safe depository under the control of the fiduciary, in order to avoid loss through theft or otherwise. At the time the annual accounting is furnished the Veterans Administration or filed with the court, the Chief Attorney will require that the fiduciary furnish definite evidence to the Veterans Administration or the court that the bonds or other securities in which the funds have been invested are so deposited under the control of the fiduciary. VA Form 2-4709, Certificate as to Securities, may be used for this purpose. In the event of the failure of the fiduciary to furnish such evidence, the Chief Attorney will make appropriate investigations and take such formal court action as may be required to protect the interests of the beneficiary. This provision contemplates that an annual inspection of the securities in each estate under guardianship will be made by the Chief Attorney's office: *Provided*, That the requirements of this provision as to inspection of the assets shall be considered to have been met:

• • • • • •

2. In § 13.363, paragraph (a) is amended to read as follows:

§ 13.363 *Grounds for removal.* • • •

(a) *Authority of Chief Attorney to suspend payments.* The Chief Attorney is empowered to authorize suspension of payments in such cases, pending adjustment. The Chief Attorney will submit separate requests for suspension of compensation or pension and for suspension of insurance.

(Sec. 5, 43 Stat. 608, as amended, sec. 2, 46 Stat. 1016, sec. 7, 48 Stat. 9; 38 U. S. C. 11a, 426, 707. Interpret or apply 43 Stat. 613, as amended; 38 U. S. C. 450)

This regulation is effective November 8, 1955.

[SEAL] J. C. PALMER,
Assistant Deputy Administrator.

[F. R. Doc. 55-8987; Filed, Nov. 7, 1955; 8:49 a. m.]

PROPOSED RULE MAKING

CIVIL AERONAUTICS BOARD

[14 CFR Parts 3, 4b]

1955 ANNUAL REVIEW AND AMENDMENTS OF AIRWORTHINESS REGULATIONS

NOTICE OF PROPOSED RULE MAKING

Pursuant to authority delegated by the Civil Aeronautics Board to the Bureau of Safety Regulation, notice is hereby given that the Bureau will propose to the Board amendments to the airworthiness provisions of the Civil Air Regulations in substance as hereinafter set forth.

Interested persons may participate in the making of the proposed rules by submitting such written data, views, or arguments as they may desire. Communications should be submitted in duplicate to the Civil Aeronautics Board, attention Bureau of Safety Regulation, Washington 25, D. C. In order to insure their consideration by the Board before taking further action on the proposed rules, communications must be received by December 9, 1955. Copies of such communications will be available after December 14, 1955, for examination by interested persons at the Docket Section of the Board, Room 5412, Department of Commerce Building, Washington, D. C.

The proposed amendments to the airworthiness regulations attached hereto stem from the studies conducted during the Board's 1955 Annual Airworthiness Review and particularly from the discussions which took place at the meetings held in Washington September 12 through September 15. Those issues which are sufficiently resolved are being published herein in the form of proposed amendments to the regulations.

The amendments being proposed herein pertain to Parts 3 and 4b of the Civil Air Regulations. The explanatory statements accompanying the proposed amendments present the basis for the amendments and also the reasons why certain other proposals are not considered sufficiently resolved to justify specific recommendations for amendment of the regulations at the present time.

These amendments are proposed under the authority of Title VI of the Civil Aeronautics Act of 1938, as amended. The proposals may be changed in the light of comments received in response to this notice of proposed rule making.

(Sec. 205, 52 Stat. 984; 49 U. S. C. 425. Interpret or apply secs. 601-610, 52 Stat. 1007-1012, as amended; 49 U. S. C. 551-560)

Dated at Washington, D. C., October 21, 1955.

By the Bureau of Safety Regulation.

[SEAL] JOHN M. CHAMBERLAIN,
Director.

Part 3: There are contained herein proposed rules with respect to various miscellaneous issues which were possible of resolution within the framework of this year's Annual Airworthiness Review.

Structural failures experienced in the past with small airplanes in the high speed range strongly indicate the inappropriateness of relating a reduction in maneuvering load factor with any feature of an airplane intended to improve safety only in the low speed range. Therefore, it is proposed to delete the provision of § 3.186, which permits a reduction of the maximum maneuvering load factor limitation of 3.8 to 3.5 for airplanes incapable of spinning.

The presently effective provisions of § 3.242 permit the design landing weight to be less than the maximum certificated weight only for multiengine airplanes, which meet the one-engine-inoperative climb, provided that such airplanes comply with the fuel jettisoning and certain ground loads and landing gear requirements of Part 4b. All other airplanes are required to comply with all of the ground load requirements at the maximum weight, and experience has shown that these requirements were critical in most instances in respect to the establishment of the maximum weight. It is believed that this requirement has restricted unduly the utility of small airplanes. Accordingly, there is included a proposal which, under certain conditions, would permit the design landing weight to be as low as 95 percent of the maximum weight.

There is being proposed in § 3.330 a new requirement with respect to the structural design of supporting structure and the attachment of concentrated mass balance weights incorporated on control surfaces.

The presently effective requirements of § 3.390 in respect to restraining occupants of berths by safety belts are considered unrealistic. A change to these provisions is proposed which would exclude safety belts in berths from compliance with the forward accelerations prescribed for an emergency landing, and would require restraint of occupants in berths by means of a padded end board, a canvas diaphragm, or other equivalent method.

With respect to § 3.344, there is proposed a change which would require incorporation of design features or marking of control system elements to minimize the possibility of incorrect assembly. For this same purpose, a proposed change is included with respect to the fuel valve provisions of § 3.551.

There is proposed a change to § 3.431 which would require independence of the fuel system for each engine on all multiengine airplanes and would relax the existing standards for independence of fuel systems by permitting the use of one tank for supplying more than one engine if certain design criteria are met.

The presently effective provisions of § 3.624 (a) permit use of fire resistant rather than fireproof materials for sealing fire wall openings on unsupercharged engines. On the basis of present engine design, it is believed that the degree of fire hazard is more closely related to the total engine displacement rather than on whether or not the engine is supercharged. In view of this, there is proposed a change which would permit use of fire-resistant sealing of fire walls in installations equipped with engines having a maximum displacement up to 1,000 cubic inches.

It is proposed to change § 3.702 so that the intensity requirements for the forward red and green position lights, and the rear white position light would be consistent with the requirements prescribed for these lights in Part 4b.

Section 3.771 is proposed to be changed to require placarding of the maneuvering air speed.

There are also included a few minor changes, which are editorial or clarifying in nature.

There were certain issues discussed at the recent Annual Airworthiness Meeting, which indicated a need for further study. These included the matter of the 6,000 pound limitation, also proposals with respect to the fuel tank sump drain and the carburetor air temperature indicator.

It is proposed to amend Part 3 as follows:

1. By amending § 3.186 (a) by deleting the following sentence: "For airplanes certificated as characteristically incapable of spinning, need not exceed 3.5."

2. By deleting Figure 3-2.

3. By amending § 3.242 to read as follows:

§ 3.242 *Design weight.* The design landing weight shall not be less than the maximum weight for which the airplane is to be certificated, except as provided in paragraphs (a) and (b) of this section.

(a) A design landing weight equal to not less than 95 percent of the maximum weight shall be acceptable if it is demonstrated that the structural limit load values at the maximum weight are not exceeded when the airplane is operated over terrain having the degree of roughness to be expected in service at all speeds up to the takeoff speed. In addition, the following shall apply:

(1) The minimum fuel capacity shall not be less than the total of the capacity prescribed in § 3.74 (a) (1) and of the capacity equivalent to the weight of fuel equal in amount to that by which the maximum weight exceeds the design landing weight.

(2) The operating limitations shall limit the takeoff weight in such a manner as to assure that landings in normal operation would not exceed the design landing weight.

(b) A design landing weight equal to less than 95 percent of the maximum weight shall be acceptable for multiengine airplanes, meeting the one-engine-inoperative climb requirement of § 3.85 (b) if compliance is shown with the following sections of Part 4b of this subchapter in lieu of the corresponding requirement of this part: The ground load requirements of § 4b.230, the landing gear requirements of §§ 4b.331 through 4b.336 of this subchapter, and the fuel jettisoning system requirements of § 4b.437 of this subchapter.

4. By amending Figure 3-12 (a) by deleting the term "n" from all columns in the two lines titled "Main wheel loads (both wheels) {V_r" and "Tail (nose) wheel loads {V_l" and inserting in lieu thereof in each instance the term "$(n-L)$".

5. By amending Figure 3-12 (a) by deleting the term "KV_r" from the first and fourth columns of the line titled "Main wheel loads (both wheels) {D_r" and inserting in lieu thereof in each instance the term "KnW".

6. By amending Figure 3-12 (a) by deleting the term "KV_r" from the third column of the line titled "Main wheel loads (both wheels) {D_r" and inserting in lieu thereof the term "$KnW\ a'/d'$".

7. By amending Figure 3-12 (a) by deleting the term "KV_l" from the third column of the line titled "Tail (nose) wheel loads {D_l" and inserting in lieu thereof the term "$KnW\ b'/d'$".

8. By amending Figure 3-12 (a) by adding a new note to read as follows:

NOTE (4): L is defined in § 3.353.

9. By adding a new § 3.330 to read as follows:

§ 3.330 *Mass balance weights.* The supporting structure and the attachment of concentrated mass balance weights incorporated on control surfaces shall be designed for limit accelerations in the following conditions: 24g normal to the plane of the control surface; 12g fore and aft; and 12g parallel to the hinge line.

10. By amending § 3.344 by adding a new sentence at the end thereof to read as follows: "The elements of the flight control system shall incorporate design features or shall be distinctively and permanently marked so as to minimize the possibility of incorrect assembly, which could result in malfunctioning of the control system."

11. By amending § 3.390 to read as follows:

§ 3.390 *Seats and berths.* All seats and berths shall be of an approved type. They and their supporting structures shall be designed for an occupant weighing at least 170 pounds (190 pounds with parachute for seats intended for the acrobatic and utility categories) and for the maximum load factors corresponding with all specified flight and ground load conditions including the emergency landing conditions prescribed in § 3.386. The provisions of paragraphs (a) through (d) of this section shall also apply:

(a) Pilot seats shall be designed for the reactions resulting from the application of pilot forces to the primary flight controls as prescribed in § 3.231.

(b) All seats in the U and A categories shall be designed to accommodate passengers wearing parachutes, unless placarded in accordance with § 3.74 (b).

(c) Berths shall be so designed that the forward portion is provided with a padded end board, a canvas diaphragm, or some equivalent means, capable of restraining the occupant within the berth when subjected to the forward accelerations prescribed in § 3.386. Berths shall be provided with an approved safety belt and shall be free from corners or protuberances likely to cause serious injury to a person occupying the berth during emergency conditions. Berth safety belt attachments shall withstand the critical loads resulting from all relevant flight and ground load conditions and from the emergency landing conditions of § 3.386 with the exception of the forward load.

(d) In determining the strength of the attachment of the seat and berth to the structure, the accelerations prescribed in § 3.386 shall be multiplied by a factor of 1.33.

12. By deleting § 3.391.

13. By amending § 3.431 by deleting from the first sentence the following clause: "• • • which are required to comply with the provisions of § 3.85 (b) or § 3.85a (b)".

14. By amending § 3.431 by deleting the last sentence and inserting in lieu thereof the following: "An arrangement employing one fuel tank to supply more than one engine shall be acceptable if the individual systems from the tank outlets to the engines incorporate features to assure continued supply of fuel to the other engines in the event of failure of any one component of an individual system."

15. By amending § 3.551 by adding a new paragraph (d) to read as follows:

§ 3.551 *Fuel valves.* • • •

(d) Fuel valve handles and their connections to the valve mechanism shall incorporate design features so as to minimize the possibility of incorrect installation.

16. By amending § 3.624 (a) to read as follows:

§ 3.624 *Fire wall construction.* (a) Fire walls and shrouds shall be constructed in such a manner that no hazardous quantity of liquids, gases, or flame could pass from the engine compartment to other portions of the airplane. All openings in the fire wall or shroud shall be sealed tight with fireproof grommets, bushings, or fire-wall fittings, except that, such seals of fire-resistant materials shall be acceptable for use on single-engine airplanes and multiengine airplanes not required to comply with § 3.85 (b) or § 3.85a (b), if such airplanes are equipped with engine(s) having a volumetric displacement of 1,000 cubic inches or less; and if the openings in the fire walls or shrouds are such that, without seals, the passage of a hazardous quantity of flame could not result.

17. By amending § 3.702 so that the intensity distribution requirements for the forward red and green position lights and the rear white position light conform with the presently effective requirements prescribed for these lights in Part 4b of this subchapter.

18. By amending § 3.715 by adding a new sentence at the end thereof to read as follows: "In the case of safety belts for berths, the forward load factor need not be applied."

19. By amending § 3.771 by adding a new paragraph (c) to read as follows:

§ 3.771 *Airspeed placards.* • • •

(c) Rough air or maneuvering speed determined in accordance with §3.741.

Part 4b: There are contained herein proposed rules with respect to various miscellaneous issues which were possible of resolution within the framework of this year's Annual Airworthiness Review.

With respect to the flight provisions, there is proposed a change to § 4b.112, which would permit the use of the minimum speed attained during the stall demonstration in determining the required climb, and a change to § 4b.160, which would permit determination of the demonstration stall speed in terms of the stall warning speed.

The presently effective gust load requirements are based on wing loading. Research in past years indicates that gust loads are more closely a function of mass parameter than of wing loading. For this reason, there is included a proposal incorporating the more up-to-date concept of "mass parameter" in the gust load requirements.

In § 4b.270, there is proposed a new rule which establishes more specific criteria for fatigue evaluation of flight structure, including pressurized cabins. Among other proposed changes relative to the structural provisions there is a change to § 4b.210 (c), which establishes more realistic criteria for evaluating the strength of the airplane at weights in the vicinity of the zero fuel weight. These new criteria are predicated on the simultaneous application of the new gust load and fatigue evaluation criteria. There are proposed changes which would require accounting for compressibility effects at all speeds; establish detail conditions for the evaluation of gyroscopic loads imposed on engine mounts; and would require consideration of thermal effects on the structure.

There is also proposed a change to § 4b.230 (b), which would permit in showing compliance with the ground load requirements the use of wing lift equal to the weight of the airplane instead of only two-thirds of the weight as prescribed by the currently effective regulations. To compensate for the relaxatory effect of this proposal, other complementary changes are also proposed.

Three proposals are included with respect to control surfaces and their control systems. Two of these would entail changes to § 4b.320, which would require incorporation of design features, or marking of control system elements to minimize the possibility of incorrect assembly, and which would require tab control system designs to be such that a failure of any element would not jeopardize the flight. The third change is to § 4b.324, which would require application of the fail safe philosophy to flap actuating systems incorporating a mechanical interconnection to assure against hazardous unsymmetrical flap extension.

There is proposed a change to § 4b.336, which would establish a more up-to-date criteria for the selection of landing gear tires.

The presently effective requirements of § 4b.358, in respect to restraining occupants of berths by safety belts are considered unrealistic. A change to these provisions is proposed, which would exclude safety belts in berths from compliance with the forward inertia loads prescribed for emergency landings and instead would require restraint of berth occupants by means of a padded end board, a canvas diaphragm, or other equivalent method.

In addition, there are included other changes which are either relatively minor, clarifying, or of an editorial nature.

There were several proposals discussed at this year's Annual Airworthiness meeting, which could not be resolved because they require further study. These include proposals with respect to combustion heater design, decelerating devices, floatable passenger seat design, fuel storage, fire extinguisher systems, flight instrument panel arrangement, and propeller reverse thrust indication. Issues pertaining to the carriage of flares and to the operational icing requirements in the operating parts were also discussed at the meeting; however, no proposals on these issues are being included herein. Instead, these two issues will be considered in conjunction with other issues relevant to the operating parts of the Civil Air Regulations.

It is proposed to amend Part 4b as follows:

1. By amending § 4b.104 (a) by deleting the words "total quantity of engine coolant".

2. By amending § 4b.104 (b) by deleting the words "fuel, oil, and coolant tanks" and inserting in lieu thereof the words "fuel and oil tanks".

3. By amending § 4b.112 (c) to read as follows:

§ 4b.112 *Stalling speeds.* • • •

(c) The stall speeds defined in this section shall be the minimum speeds obtained in flight tests conducted in accordance with the procedure of subparagraphs (1) and (2) of this paragraph.

(1) With the airplane trimmed for straight flight at a speed of 1.4 V_{s_1} and from a speed sufficiently above the stalling speed to assure steady conditions, the elevator control shall be applied at a rate such that the airplane speed reduction does not exceed one mile per hour per second.

(2) During the test prescribed in subparagraph (1) of this paragraph, the flight characteristics provisions of § 4b.160 shall be complied with.

4. By amending the introductory paragraph of § 4b.160 (c) (2) and by inserting an additional note to read as follows:

§ 4b.160 *Stalling; symmetrical power.* • • •

(c) • • •

(2) The airplane shall be considered stalled when, at an angle of attack measurably greater than that of maximum lift, the inherent flight characteristics give a clear indication to the pilot that the airplane is stalled, except that for airplanes demonstrating unmistakable inherent aerodynamic warning associated with the stall in all required configurations, the speed need not be reduced below a value which provides an adequate stall warning margin as defined in § 4b.162.

NOTE: Types of inherent aerodynamic warning considered acceptable include characteristics such as buffeting, small amplitude pitch or roll oscillations, distinctive shaking of the pilot's controls, etc.

5. By amending § 4b.202 by adding a new paragraph (d) to read as follows:

§ 4b.202 *Proof of structure.* • • •

(d) Proof of compliance of the structure with the fatigue evaluation requirements of § 4b. 270 shall be made.

6. By amending Figure 4b–1 by deleting the speed "1.3 V_{s_1}" from the abscissa scale and the straight line it identifies, and by deleting the term "0.8 V_d" associated with the Vc_{min} curve and inserting in lieu thereof the following: "Mach Number Selected by Applicant."

7. By amending § 4b.210 by deleting the last sentence in the introductory paragraph and inserting in lieu thereof the following: "Compressibility effects shall be taken into account at all speeds."

8. By amending § 4b.210 (b) (3) to read as follows:

§ 4b.210 *General.* • • •

(b) *Design air speeds.* • • •

(3) *Design speed for maximum gust intensity, V_B.* V_B shall be either the speed determined by the intersection of the line representing the maximum positive lift $C_{N_{max}}$ and the line representing the rough air gust velocity on the gust V–n diagram or $(\sqrt{n_g})\ V_{s_1}$, whichever is the lesser; where n_g is the positive airplane gust load factor due to gust at speed V_C in accordance with § 4b.211 (b) (2) at the particular weight under consideration and V_{s_1} is the stalling speed with flaps retracted at the particular weight under consideration. V_B need not be greater than V_C.

9. By amending § 4b.210 by adding a new paragraph (c) to read as follows:

§ 4b.210 *General.* • • •

(c) *Design fuel loads.* The disposable load combinations shall include all fuel loads in the range from zero fuel to the maximum fuel load selected by the applicant. It shall be permissible for the applicant to select a structural reserve fuel condition not exceeding 45 minutes of fuel as defined in § 4b.437 (c). If a structural reserve fuel condition is selected, it shall be used as the minimum fuel weight condition for showing of compliance with the flight load requirements as prescribed in this subpart, in which case, the provisions of subparagraphs (1) through (3) of this paragraph shall also apply.

(1) The structure shall be designed for a condition of zero fuel at limit loads corresponding with:

(i) A maneuver load factor of +2.25.

(ii) Gust intensities equal to 85 percent of the values prescribed in § 4b.211 (b).

(2) Fatigue evaluation of the structure shall take into account any increase in operating stresses resulting from the design condition of subparagraph (1) of this paragraph (see § 4b.270).

(3) The flutter, deformation, and vibration requirements shall also be met with zero fuel (see § 4b.308).

10. By amending Figure 4b–3 by deleting the references "+40K FPS Gust", "+30K", "+15K", "−15K", "−30K", and "−40K", and inserting in lieu thereof, respectively, the following: "Gust Line For V_B", "Gust Line For V_C Speed", "Gust Line for V_D Speed", "Gust Line For V_D Speed", "Gust Line For V_C Speed", and "Gust Line For V_B Speed".

11. By amending § 4b.211 (b) to read as follows:

§ 4b.211 *Flight envelopes.* • • •

(b) *Gust load factors.* The airplane shall be assumed to be subjected to symmetrical vertical gusts while in level flight. The resulting limit load factors shall correspond with the conditions prescribed in subparagraphs (1) through (5) of this paragraph. The shape of the guest shall be assumed to be:

$$U=\frac{U_{de}}{2}\left(1-\cos\frac{2\pi s}{25\bar{C}}\right)$$

where:

s = distance penetrated into gust, ft.
$\bar{C}$ = mean geometric chord of wing, ft.
U_{de} = derived gust velocity referred to in subparagraphs (1), (2), and (3) of this paragraph, (fps).

(1) Positive (up) and negative (down) rough air gusts of 66 fps at the speed V_B shall be considered at altitudes between sea level and 20,000 feet. At altitudes above 20,000 feet, it shall be acceptable to reduce the gust velocity linearly from 66 fps at 20,000 feet to 38 fps at 50,000 feet.

(2) Positive and negative gusts of 50 fps at the speed V_C shall be considered at altitudes between sea level and 20,000 feet. At altitudes above 20,000 feet, it shall be acceptable to reduce the gust velocity linearly from 50 fps at 20,000 feet to 25 fps at 50,000 feet.

(3) Positive and negative gusts of 25 fps at the speed V_D shall be considered at altitudes between sea level and 20,000 feet. At altitudes above 20,000 feet, it shall be acceptable to reduce the gust velocity linearly from 25 fps at 20,000 feet to 12.5 fps at 50,000 feet.

(4) Gust load factors shall be assumed to vary linearly between the specified conditions B′ through G′, as shown on the gust envelope of Figure 4b–3.

(5) In the absence of a more rational analysis, the gust load factors shall be computed in accordance with the following formula:

$$n=1+\frac{K_g U_{de} Va}{499(W/S)}$$

where:

$K_g=\frac{0.88\mu_g}{5.3+\mu_g}$ = gust alleviation factor;

$\mu_g=\frac{2(W/S)}{\rho\bar{C}ag}$ = airplane mass ratio;

U_{de} = derived gust velocities referred to in subparagraphs (1), (2), and (3) of this paragraph, (fps);
ρ = density of air (slugs/cu. ft.);
W/S = wing loading (psf);
$\bar{C}$ = mean geometric chord (ft.);
g = acceleration due to gravity (ft./sec.²);
V = airplane equivalent speed (knots);
a = slope of the airplane normal force coefficient curve C_{N_A} per radian, if the gust loads are applied to the wings and horizontal tail surfaces simultaneously by a rational method. It shall be acceptable to use the wing lift curve slope C_L per radian when the gust load is applied to the wings only and the horizontal tail gust loads are treated as a separate condition.

12. By amending § 4b.212 (a) (2) by deleting "15 fps nominal intensity" and inserting in lieu thereof the following: "25 fps derived".

13. By amending § 4b.212 (b) (2) to read as follows:

§ 4b.212 *Effect of high lift devices.* • • •

(b) • • •

(2) Positive and negative derived gusts as prescribed in § 4b.211 (b) acting normal to the flight path in level flight.

14. By amending § 4b.212 (c) by deleting the last sentence and inserting in lieu thereof the following: "For other than tractor type airplanes, a head-on gust equivalent to the intensity prescribed in § 4b.211 (b) (3) with no alleviations acting along the flight path shall be considered.

15. By amending § 4b.213 (d) (3) by deleting the term "K" and inserting in lieu thereof "K_g".

16. By amending § 4b.215 (b) to read as follows:

§ 4b.215 *Yawing conditions.* • • •

(b) *Lateral gusts.* The airplane shall be assumed to encounter derived gusts normal to the plane of symmetry while in unaccelerated flight. The derived gusts and airplane speeds corresponding with points B′ through J′ on Figure 4b–3 as determined by §§ 4b.211 (b) and 4b.212 (a) (2) or (b) (2) shall be investigated. The shape of the gust shall be as specified in § 4b.211 (b). In the absence of a rational investigation of the airplane's response to a gust, it shall be acceptable to compute the gust loading on the vertical tail surfaces by the following formula:

$$L_t=\frac{K_{gt}U_{de}Va_tS_t}{499}$$

where:

L_t = vertical tail load, (lbs.);

$K_{gt}=\frac{0.88\mu_{gt}}{5.3+\mu_{gt}}$ = gust alleviation factor;

$\mu_{gt}=\frac{2W}{\rho\bar{C}_tga_tS_t}\left(\frac{K}{l_t}\right)^2$ = lateral mass ratio;

U_{de} = derived gust velocity (fps);

ρ = air density (slugs/cu. ft.);

W = airplane weight (lbs.);

S_t = area of vertical tail (ft.²);

$\bar{C}_t$ = mean geometric chord of vertical surface (ft.);

a_t = lift curve slope of vertical tail, per radian;

K = radius of gyration in yaw (ft.);

l_t = distance from airplane C. G. to lift center of vertical surface (ft.);

g = acceleration due to gravity (ft./sec.²);

V = airplane equivalent speed (knots).

17. By amending § 4b.216 (c) (1) by adding a new sentence at the end thereof to read as follows: "Stress concentration and fatigue effects shall be accounted for in the design of pressure cabins (see § 4b.270)."

18. By amending § 4b.216 (c) (3) by deleting from the first sentence the following words: "to provide for such effects as fatigue and stress concentrations."

19. By amending § 4b.216 by adding a new paragraph (e) to read as follows:

§ 4b.216 *Supplementary flight conditions.* • • •

(e) *Gyroscopic loads.* The structure supporting the engines shall be designed for gyroscopic loads associated with the conditions specified in §§ 4b.213 through 4b.215 with the engines operating at maximum continuous rpm.

20. By amending § 4b.230 (b) (1) by deleting the words "when landing the airplane" and inserting in lieu thereof the words "in the attitude and subject to the drag loads associated with the particular landing condition, and".

21. By amending § 4b.230 (b) (1) by adding a new subdivision (iii) to read as follows:

§ 4b.230 *General.* • • •

(b) *Load factors, descent velocities, and design weights for landing conditions.*

(1) • • •

(iii) 10 fps at the design minimum weight.

22. By amending § 4b.230 (b) (2) by deleting the words "two-thirds of".

23. By amending § 4b.231 (a) by deleting the first sentence and inserting in lieu thereof the following: "In the level attitude the airplane shall be assumed to contact the ground at forward velocity components parallel to the ground ranging from V_{L_1} to 1.25 V_{L_2} and shall be assumed to be subjected to the load factors prescribed in § 4b.230 (b) (1) where V_{L_1} is equal to V_{s_0} (TAS) at the appropriate landing weight and in standard sea level conditions and where V_{L_2} is equal to V_{s_0} (TAS) at the appropriate landing weight and altitudes in a hot day temperature of 41° F. above standard.

24. By amending § 4b.231 (a) by deleting from the second sentence the clause "or landings at elevations higher than 5,000 feet".

25. By amending § 4b.231 (a) by deleting the last sentence from subparagraphs (1) and (3) and inserting in lieu thereof in each instance the following: "It shall be acceptable to apply this condition only to the landing gear, directly affected attaching structure, and large mass items (i. e. external fuel tanks, nacelles, etc.)".

26. By amending the introductory paragraph of § 4b.232 to read as follows:

§ 4b.232 *Tail-down landing conditions.* In the conditions of paragraphs (a) and (b) of this section the airplane shall be assumed to contact the ground at forward velocity components parallel to the ground, ranging from V_{L_1} to V_{L_2}, where V_{L_1} and V_{L_2} are as indicated in § 4b.231 (a). The load factors prescribed in § 4b.230 (b) (1) shall apply. The combination of vertical and drag components specified in § 4b.231 (a) (1) and (3) shall be considered acting at the main wheel axle centerline.

27. By amending § 4b.235 (a) to read as follows:

§ 4b.235 *Ground handling conditions.* • • •

(a) *Taxiing and take-off run.* The airplane shall be assumed to be in the attitude of all wheels contacting the ground. The limit vertical load factor shall be 2.0 unless a lower value is substantiated by tests. Drag and side loads shall be assumed equal to zero.

28. By amending § 4b.235 by adding new paragraphs (g) and (h) to read as follows:

§ 4b.235 *Ground handling conditions.* • • •

(g) *Reversed braking.* The airplane shall be in a three point static ground attitude. Horizontal reactions parallel to the ground and directed forward shall be applied at the ground contact point of each wheel equipped with brakes. The limit loads shall be equal either to 0.55 times the vertical load at each wheel or to the load developed by 1.2 times the nominal maximum static brake torque, whichever is the lesser. For nosewheel types, the pitching moment, shall be balanced by rotational inertia. For tailwheel types, the resultant of the ground reactions shall pass through the center of gravity of the airplane.

(h) *Towing loads.* Towing loads shall be those specified in Figure 4b–26, considering each condition separately. These loads shall be applied at the towing fittings and shall act parallel to the ground. A vertical load factor equal to 1.0 shall be considered acting at the center of gravity. The shock struts and tires shall be in their static positions. The towing load, F_{TOW}, shall be defined as equal to $0.3W_T$ for W_T less than 30,000 pounds, equal to $\frac{6W_T+450{,}000}{70}$ for W_T between 30,000 and 100,000 pounds and equal to $0.15W_T$ for W_T over 100,000 pounds, where W_T is the design maximum take-off weight. For towing points not on the landing gear but located near the plane of symmetry of the airplane, the drag and side tow load components specified for the auxiliary gear shall apply. For tow points located outboard of the main gear the drag and side tow load component specified for the main gear shall apply. In cases where the specified angle of swivel cannot be obtained, the maximum obtainable angle shall be used.

29. By adding a new Figure 4b–26.

30. By adding a new heading and a new § 4b.270 to read as follows:

FATIGUE EVALUATION

§ 4b.270 *General.* The strength, detail design, and fabrication of those portions of the airplane's flight structure in which fatigue may be critical shall be evaluated in accordance with the provisions of either paragraph (a) or (b) of this section.

(a) *Fatigue strength.* The structure shall be shown by analysis and/or tests to be capable of withstanding the repeated loads of variable magnitude expected in service. The provisions of subparagraphs (1) through (3) of this paragraph shall apply.

(1) Evaluation of fatigue shall involve the following:

(i) Typical loading spectrum expected in service;

(ii) Identification of principal structural elements and detail design points, the fatigue failure of which could cause catastrophic failure of the aircraft; and

(iii) An analysis and/or repeated load tests of principal structural elements and detail design points, identified in subdivision (ii) of this subparagraph.

Tow point	Position	Load		
		Magnitude	No.	Direction
Main gear		0.75 F_{TOW} per main gear unit.	1	Forward, parallel to drag axis.
			2	Forward, at 30° to drag axis.
			3	Aft, parallel to drag axis.
			4	Aft, at 30° to drag axis.
Auxiliary gear	Swiveled forward	1.0 F_{TOW}	5	Forward.
			6	Aft.
	Swiveled aft	do	7	Forward.
			8	Aft.
	Swiveled 45° from forward	0.5 F_{TOW}	9	Forward, in plane of wheel.
			10	Aft, in plane of wheel.
	Swiveled 45° from aft	do	11	Forward, in plane of wheel.
			12	Aft, in plane of wheel.

BALANCING FORCES

The side component of the towing load at the main gear is reacted by a side force at the static ground line at the wheel to which load is applied.

The towing loads at the auxiliary gear and the drag components of the towing loads at the main gear are reacted in each of the following ways:

a. Reaction applied at the axle of the wheel to which load is applied, this reaction having a maximum value equal to the vertical reaction. Airplane inertia is applied as required for equilibrium.

b. The loads reacted by airplane inertia.

FIGURE 4b–26—Towing loads.

NOTE: Usually tests of principal structural elements include major fittings, samples of joints, spar cap strips, skin units, and other representative sections of the flight structure.

(2) It shall be acceptable to utilize the service history of airplanes of similar structural design, taking due account of differences in operating conditions and procedures.

(3) When circumstances require substantiation of the pressure cabin by fatigue tests, the cabin or representative portions of it shall be cycle-pressure tested, utilizing the normal-operating pressure together with the effects of external aerodynamic pressure combined with the flight loads. It shall be acceptable to represent the effects of flight loads by an increased cabin pressure, or to omit the flight loads if they are shown to have no significant effect upon fatigue.

(b) *Fail safe strength.* It shall be shown by analysis and/or tests that catastrophic failure or excessive structural deformation, which could adversely affect the flight characteristics of the airplane, are not probable after fatigue failure or obvious partial failure of a single principal structural element. After such failure, the remaining structure shall be capable of withstanding static loads corresponding with the flight loading condition specified in subparagraphs (1) and (2) of this paragraph. These loads shall be multiplied by a factor of 1.15 unless the dynamic effects of failure under static load are otherwise taken into consideration. In the case of a pressure cabin, the normal operating pressures combined with the expected external aerodynamic pressures shall be applied simultaneously with the flight loading conditions specified in this paragraph.

(1) An ultimate load factor of 2.0 at V_C.

(2) Gust loads as specified in § 4b.211 (b), except that these gust loads shall be considered to be ultimate and the gust velocities shall be as follows:

(i) At speed V_B, 49 fps from sea level to 20,000 feet altitude, thereafter decreasing linearly to 28 fps at 50,000 feet altitude.

(ii) At speed V_C, 33 fps from sea level to 20,000 feet altitude, thereafter decreasing linearly to 16.5 fps at 50,000 feet altitude.

(iii) At speed V_D, 15 fps from sea level to 20,000 feet altitude, thereafter decreasing linearly to 6 fps at 50,000 feet altitude.

31. By amending § 4b.306 (b) by adding a new sentence at the end thereof to read as follows: "The effects of temperature on allowable stresses used for design in an essential component or structure shall be considered where thermal effects are significant under normal operating conditions."

32. By amending § 4b.306 (d) by adding to the end of the sentence the reference "(also see § 4b.270)".

33. By amending § 4b.320 to read as follows:

§ 4b.320 *General.* All controls and control systems shall operate with ease, smoothness, and positiveness appropriate to their function. The elements of the flight control system shall incorporate design features or shall be distinctively and permanently marked so as to minimize the possibility of incorrect assembly which could result in malfunctioning of the control system. Tab control systems shall be such that disconnection or failure of any element at speeds up to V_C cannot jeopardize the safety of flight (also see §§ 4b.308, 4b.350, and 4b.353).

34. By amending § 4b.324 (a) by adding a new sentence at the end thereof to read as follows: "When a mechanical interconnection is employed, means shall be provided to insure against hazardous unsymmetrical operation of the wing flaps after any reasonably possible single failure of the flap actuating system."

35. By amending § 4b.332 (b) (2) by deleting from the definition of "L" the numerals "0.667" and inserting in lieu thereof the numeral "1.0".

36. By amending § 4b.333 by adding a new paragraph (c) to read as follows:

§ 4b.333 *Limit load factor determination.* • • •

(c) *Landing gear rebound condition.* The landing gear and its supporting structure shall be designed for the loads occurring during rebound of the airplane from the landing surface. With the landing gear fully extended and not in contact with the ground, a load factor of 20.0 shall act on the unsprung weights of the landing gear. This load factor shall act in the direction of motion of the unsprung weights as they reach their limiting positions in extending with relation to the sprung portions of the landing gear."

37. By amending § 4b.336 to read as follows:

§ 4b.336 *Tires.* Landing gear tires shall be of a proper fit on the rim of the wheel, and of load ratings which are not exceeded under the following conditions:

(a) Main wheel tires: Equal static loads on all main wheel tires corresponding with the most critical combination of maximum take-off weight and center of gravity position.

(b) Nose wheel tires: Equal static loads on all nose wheel tires corresponding with the following conditions:

(1) The static ground reaction per tire corresponding with the most critical combination of takeoff weight and center of gravity position. This load shall correspond with the static rating of the tire.

(2) The dynamic ground reaction per tire at maximum landing weight, assuming the mass of the airplane concentrated at the most critical location of the center of gravity for this weight and exerting a force of 1.0g downward and 0.31g forward, the reactions being distributed to the nose and main wheels by the principles of statistics with a 0.31g drag reaction at the ground applied at those wheels which have brakes. This load shall correspond with the dynamic rating of the tire.

(3) The dynamic ground reaction per tire at design takeoff weight, assuming the mass of the airplane concentrated at the most critical location of the center of gravity for this weight, and exerting a force of 1.0g downward and 0.20g forward, the reactions being distributed to the nose and main wheels by the principles of statistics with a 0.20g drag reaction at the ground applied at those wheels which have brakes. This load shall correspond with the dynamic rating of the tire.

38. By amending § 4b.337 (a) (2) by deleting the word "connection" and inserting in lieu thereof the word "connecting".

39. By amending § 4b.358 (b) by adding a new subparagraph (4) to read as follows:

§ 4b.358 *Seats, berths, and safety belts.* • • •

(b) *Arrangement.* • • •

(4) Berths shall be so designed that the forward portion is provided with a padded end board, a canvas diaphragm, or equivalent means capable of restraining the occupant within the berth when subjected to the forward inertia force specified in § 4b.260. Berths shall be free from corners and protuberances likely to cause serious injury to a person occupying the berth during emergency conditions.

40. By amending § 4b.358 (c) by adding a new sentence between the first and second sentences to read as follows: In the case of berths, a forward inertia force shall be considered in accordance with paragraph (b) (4) of this section in lieu of the forward reaction between the occupant and the safety belt.

41. By amending § 4b.386 (g) by deleting subparagraphs (1) and (2) and inserting in lieu thereof a new subparagraph (1) to read as follows:

§ 4b.386. *Combustion heater fire protection.* • • •

(g) *Heater exhaust.* • • •

(1) Provisions shall be made in the design of the heater exhaust system so that the products of combustion will be safely conveyed overboard to prevent the occurrence of the following:

(i) Fuel leakage from the exhaust to surrounding compartments;

(ii) Exhaust gas impingement on surrounding equipment or structure;

(iii) Ignition of flammable fluids by the exhaust, when the exhaust is located in a compartment containing flammable fluid lines.

(iv) Restriction by the exhaust of the prompt relief of backfires which can cause heater failure due to pressure generated within the heater.

42. By amending § 4b.413 (b) by adding a new subparagraph (4) to read as follows:

§ 4b.413 *Fuel flow rate.* • • •

(b) • • •

(4) In systems where § 4b.435 (d) requires a fuel filter bypass arrangement, the fuel flow rate corresponding with 100 percent of the engines' maximum fuel demand at standard atmospheric conditions shall be demonstrated with the fuel filter blocked.

43. By amending § 4b.414 (a) by beginning the sentence with the words: "For reciprocating engines • • •".

44. By amending § 4b.414 by deleting from the first sentence of paragraph (b) the words "paragraph (a) of", by redesignating paragraph (b) as paragraph (c), and by adding a new paragraph (b) to read as follows:

§ 4b.414 *Pump systems.* • • •

(b) For turbine engines, the fuel flow rate for pump systems shall be 125 percent of the fuel flow required to develop the standard sea level atmospheric condition takeoff power, selected by the applicant and included as an operating limitation in the airplane Flight Manual.

45. By amending § 4b.420 by deleting paragraph (c) and by redesignating paragraphs (d), (e), and (f) as (c), (d), and (e), respectively.

46. By amending §4b.421 (a) to read as follows:

§ 4b.421 *Fuel tank tests.* (a) Fuel tanks shall be demonstrated capable of withstanding the most critical of the following pressures without failure or leakage as mounted in the airplane.

(1) Internal pressure of 3.5 p. s. i.;

(2) 125 percent of the maximum air pressure developed in the tank from ram effect;

(3) The fluid pressures developed during maximum limit accelerations of the airplane with a full tank. If any of these pressures exceed the greater of the pressures prescribed in subparagraphs (1) and (2) of this paragraph, the test shall be conducted so as to simulate the pressure distribution insofar as practicable. The minimum pressure at any point in the tank shall not be less than the greater of the pressures prescribed in subaparagraphs (1) and (2) of this paragraph.

47. By amending the introductory statement of § 4b.421 (b) to read as follows:

§ 4b.421 *Fuel tank tests.* • • •

(b) Tanks with large unsupported or unstiffened flat surfaces, the failure or deformation of which could cause fuel leakage, shall be capable of withstanding a vibration test in accordance with the conditions of subparagraphs (1) through (4) of this paragraph, or other equivalent test, without leakage, or excessive deformation of the tank walls.

48. By amending § 4b.421 (b) (2) to read as follows:

§ 4b.421 *Fuel tank tests.* • • •

(b) • • •

(2) The tank assembly shall be vibrated for 25 hours while filled two-thirds full of water or any suitable test fluid. The amplitude of vibration shall not be less than one thirty-second of an inch, unless otherwise substantiated.

49. By amending § 4b.421 (b) (4) to read as follows:

§ 4b.421 *Fuel tank tests.* • • •

(b) • • •

(4) During the test, the tank assembly shall be rocked at the rate of 16 to 20 complete cycles per minute through an angle of 15° on either side of the horizontal (30° total) about the most critical axis for 25 hours. If motion about more than one axis is likely to be critical, the tank shall be rocked about each axis for 12½ hours.

50. By amending § 4b.421 (b) by deleting subparagraph (5).

51. By amending § 4b.421 (a) by deleting the numerals "0.25" and inserting in lieu thereof the numerals "0.10".

52. By amending § 4b.430 (a) (3) by beginning the second sentence with the words: "Reciprocating engine • • •" in lieu of the word "Engine • • •".

53. By amending § 4b.430 (b) (1) by inserting the words "Reciprocating engine" between the words "of" and "installations".

54. By amending § 4b.431 (a) by adding a new sentence at the end thereof to read as follows: "In turbine engine fuel systems, provisions shall be made to maintain the fuel pressure at the inlet to the engine fuel system within the limits established for engine operation."

55. By amending § 4b.435 by adding a new paragraph (d) to read as follows:

§ 4b.435 *Fuel strainer.* • • •

(d) When filter or strainers susceptible to icing are incorporated in the fuel system, a means shall be provided to maintain automatically the fuel flow in the event ice particles accumulate and restrict flow by clogging the filter or screen.

56. By amending § 4b.437 (c) by adding a new sentence at the end thereof to read as follows: "For turbine-powered airplanes, the design of the jettisoning system shall be such that it would not be possible to jettison fuel in the tanks used for take-off and landing below the level providing climb from sea level to 10,000 feet and thereafter providing 45 minutes cruise at a speed for maximum range.

57. By amending § 4b.604 by deleting paragraph (b).

58. By amending § 4b.637 by adding a new sentence at the end thereof to read as follows: "If an additional anti-collision light is installed on the bottom of the fuselage, the prescribed limits of effective flash frequency in the overlap region of the two light beams need not be met."

59. By amending § 4b.643 by adding a new sentence at the end thereof to read as follows: "In the case of safety belts for berths, the forward load factor need not be applied."

60. By amending § 4b.711 (b) by adding a note at the end thereof to read as follows:

NOTE: Where speeds are limited by compressibility effects, this section is intended to provide an adequate margin between M_{NE} and the lowest of the following Mach values: M_D, M_{DF}, or the Mach number where adverse flight characteristics, such as the following, occur: Undue reduction in ability to recover; rapid or large changes in stability during level flight or recovery which would cause the airplane to exceed structural limits; buffeting so severe as to endanger the structural integrity of the airplane. The speed margin required usually depends upon the effectiveness of the warning provided to the pilots whenever M_{NE} is reached or exceeded, and upon the recovery or speed control characteristics of the airplane. In any case the margin should be sufficient: to enable recovery from mild upsets due to gusts or inadvertent control movements or trim changes; to allow for inadvertent increases in Mach number due to horizontal gusts or temperature inversions; and, for instrument inaccuracies or airplane production differences. The probability of the simultaneous occurrence of the aforementioned speed margin conditions are usually considered, but the effects of all such conditions are not necessarily additive.

61. By amending §§ 4b.718 (a) (4), (5) and (b) (3) by deleting in each instance the words "or coolant outlet".

62. By amending § 4b.738 (b) by deleting the title and inserting in lieu thereof the following "Fuel and oil filler openings."

63. By amending § 4b.738 (b) by deleting subparagraph (3).

64. By amending § 4b.738 by deleting paragraph (d) and by redesignating paragraph (e) as paragraph (d).

[F. R. Doc. 55-8929; Filed, Nov. 7, 1955; 8:45 a. m.]

NOTICES

DEPARTMENT OF STATE

[Public Notice 144]

[Delegation Authority 78-B]

DEPUTY UNDER SECRETARY OF STATE FOR ADMINISTRATION ET AL.

FUNCTIONS AND AUTHORITIES

Pursuant to the authority vested in the Secretary of State by sections 3 and 4 of Public Law 73, 81st Congress, approved May 26, 1949 (63 Stat. 111), and in accordance with the requirements of section 3 (a) (1) of Public Law 404, 79th Congress, approved June 11, 1946 (60 Stat. 238), functions and authorities are hereby prescribed for the positions enumerated below. All prior delegations of authority and public notices which are inconsistent or in conflict with the functions and authorities herein prescribed are, to the extent of such inconsistencies or conflicts, hereby superseded. Nothing contained herein shall authorize the exercise of authority which by law is required to be exercised solely by the Secretary of State.

The Deputy Under Secretary of State for Administration. a. Exercises the authority vested in the Secretary of State by section 3 of Public Law 73, 81st Congress, to "administer, coordinate, and direct the Foreign Service of the United States and the personnel of the State Department."

b. Exercises the authority now or hereafter vested in the Secretary of State or the Department of State with respect to the administration of the Department of State and the Foreign Service.

c. Provides general direction and control of the organizational structure and assignment of functions in the Department of State and the Foreign Service.

d. Provides general direction for the use of appropriated funds, for the establishment of program priorities for budgetary purposes, and the administrative implementation of approved substantive policies and programs.

e. Directs the administration of the Department's inspection programs.

f. Directs the activities of the Foreign Service Institute.

g. Directs and supervises the activities of the Assistant Secretary-Controller, the Administrator of the Bureau of Security and Consular Affairs, and the Director General of the Foreign Service.

h. Prescribes and promulgates such rules and regulations, and makes such delegations of authority as may be necessary to carry out his assigned responsibilities.

Assistant Secretary-Controller. a. Develops, establishes, revises and promulgates the organizational structure and assignment of functions in the Department and the Foreign Service.

b. Directs the administration of the personnel program of the Department and the Foreign Service.

c. Directs preparation of budget estimates and the allocation of funds made available to the Secretary or the Department.

d. Establishes relative program priorities for budgetary purposes and supervises the use of appropriated funds in accordance with congressional limitations, program objectives, and policies of the President and the Secretary.

e. Directs the development and operation of administrative management controls including fiscal controls, reporting systems, manuals of regulations and procedures, etc., designed to promote efficient, economical and effective operation in all areas of the Department and the Foreign Service, and to enforce compliance with established policies and instructions.

f. Directs and provides for the acquisition, maintenance and operation of buildings, grounds, and other facilities required for use in connection with the Department's operations abroad.

g. Directs and provides procurement, communication, transportation, fiscal and other administrative services.

h. Prescribes and promulgates such rules and regulations, and makes such delegations of authority as may be necessary to carry out his assigned responsibilities.

i. Acts for the Deputy Under Secretary for Administration in his absence.

Administrator, Bureau of Security and Consular Affairs. a. Provides technical direction for the consular program of the Foreign Service and directs related work of the Department, including such activities as passport services, protection and welfare of American citizens and interests, issuance of visas, representation of interests of foreign governments, control of international traffic in arms, and policies concerning disclosure of classified military information.

b. Directs the security program of the Department and the Foreign Service.

c. Directs the administration of the Refugee Relief Program established by the Refugee Relief Act of 1953, Public Law 203, 83d Congress (67 Stat. 400).

d. Prescribes and promulgates such rules and regulations as may be necessary to carry out his assigned responsibilities.

Dated: October 29, 1955.

[SEAL] HERBERT HOOVER, JR.,
Acting Secretary of State.

[F. R. Doc. 55-8975; Filed, Nov. 7, 1955; 8:46 a. m.]

DEPARTMENT OF THE INTERIOR

Bureau of Land Management

[Wisc. 1858603]

WISCONSIN

NOTICE OF FILING OF PLAT OF SURVEY AND ORDER PROVIDING FOR OPENING OF PUBLIC LANDS

1. A plat of dependent survey and extension survey to include certain lands which were erroneously omitted from the original survey will be officially filed in the Eastern States Land Office, Washington, D. C., effective at 10:00 a. m. on December 6, 1955, as described below.

FOURTH PRINCIPAL MERIDIAN, WISCONSIN

T. 40 N., R. 14 E.,
Sec. 22, Lots 9, 10, 11, 12, 13;
Sec. 23, Lots 6, 7;
Sec. 26, Lots 9, 10, 11, 12, 13;
Sec. 35, Lot 4.

The area described aggregates 313.27 acres.

2. According to the field notes and as shown by the plat, lot 11 sec. 22 and lots 9, 10, 11, 12 and 13 sec. 26 are principally swamp in character and appear to be swamp and overflowed within the meaning of the Act of September 28, 1950 (9 Stat. 519). Should the lands be finally determined to be swamp and overflowed in character, it must be held that the lands inured to the State and any application adverse to the State's conflict with swamp land claim will be governed by sec. 271.2 of Title 43 of the Code of Federal Regulations.

3. The lands first described above are within the exterior boundaries of the Nicolet National Forest by proclamation No. 2219 of December 31, 1936.

4. Available information as to the remaining lands indicates that the soil is sandy and gravel loam with some stone and of gently rolling to rolling upland; that the timber consists of hemlock, norway and white pine, birch, maple, etc., with an undergrowth of young timber, hazel and high-bush cranberry.

5. Anyone having a valid existing right to any of the remaining lands, initiated prior to the date of the forest withdrawal of the lands, should assert the same within one year from the date hereof of filing an application under the Act of February 27, 1925 (43 Stat. 1013, 43 U. S. C. 994), and the Act of August 24, 1954 (68 Stat. 789).

6. Claimants under the 1925 act, supra, have a preferred right of application for a period of 90 days from December 6, 1955. Applications under the 1954 act, supra, must be filed within one year from December 6, 1955. No patent will be issued for the lands not swamp in character prior to December 7, 1956.

7. Inquiries concerning the lands shall be addressed to the Acting Manager, Eastern States Land Office, Bureau of Land Management, Department of the Interior, Washingon 25, D. C.

WILLIAM E. THOMAS,
Acting Manager.

[F. R. Doc. 55-8974; Filed, Nov. 7, 1955; 8:46 a. m.]

FEDERAL POWER COMMISSION

[Docket No. G-9298]

DELTA GULF DRILLING CO.

NOTICE OF APPLICATION AND DATE OF HEARING

NOVEMBER 1, 1955.

Take notice that Delta Gulf Drilling Company (Applicant), a Delaware corporation, with principal office in Tyler, Texas, filed on September 2, 1955, an application for a certificate of public convenience and necessity pursuant to section 7 of the Natural Gas Act, authorizing Applicant to render service as hereinafter described, subject to the jurisdiction of the Commission, all as more fully represented in the application which is on file with the Commission and open for public inspection.

Applicant proposes to sell natural gas to Trunkline Gas Company which it will produce from acreage controlled by Applicant from the Charles G. Hooks Lease, located in Batson Dome Field, Hardin County, Texas, at the average daily delivery rate of 1000 Mcf for the term of the life of the wells on said acreage, at the price of 8.6102 cents per Mcf.

This matter is one that should be disposed of as promptly as possible under the applicable rules and regulations and to that end:

Take further notice that, pursuant to the authority contained in and subject to the jurisdiction conferred upon the Federal Power Commission by sections 7 and 15 of the Natural Gas Act, and the Commission's rules of practice and procedure, a hearing will be held on December 12, 1955, at 9:30 a. m., e. s. t., in a Hearing Room of the Federal Power Commission, 441 G Street NW., Washington, D. C., concerning the matters involved in and the issues presented by such application: *Provided, however,* That the Commission may, after a noncontested hearing, dispose of the proceedings pursuant to the provisions of section 1.30 (c) (1) or (c) (2) of the Commission's rules of practice and procedure. Under the procedure herein provided for, unless otherwise advised, it will be unnecessary for the Applicant to appear or be represented at the hearing.

Protests or petitions to intervene may be filed with the Federal Power Commis-

sion, Washington 25, D. C., in accordance with the rules of practice and procedure (18 CFR 1.8 and 1.10) on or before November 28, 1955. Failure of any party to appear at and participate in the hearing shall be construed as waiver of and concurrence in omission herein of the intermediate decision procedure in cases where a request therefor is made.

[SEAL] J. H. GUTRIDE,
Acting Secretary.

FOURTH SECTION APPLICATIONS FOR RELIEF

NOVEMBER 3, 1955.

Protests to the granting of an application must be prepared in accordance with Rule 40 of the General Rules of Practice (49 CFR 1.40) and filed within 15 days from the date of publication of this notice in the FEDERAL REGISTER.

LONG-AND-SHORT HAUL

FSA No. 31277: *Blackstrap molasses—Louisiana to New Mexico.* Filed by The Atchison, Topeka and Santa Fe Railway Company for itself and interested rail carriers. Rates on blackstrap molasses, tankcar loads from New Orleans, La., and points in Louisiana grouped therewith and taking same rates to specified points in New Mexico.

Grounds for relief: Maintenance of prescribed rates and circuity.

Tariff: Supplement 27 to A. T. & S. F. Ry. tariff I. C. C. 14261.

FSA No. 31278: *Zinc oxide—Ohio and Pennsylvania points to Havelock, Nebr.* Filed by H. R. Hinsch, Agent, for interested rail carriers. Rates on zinc oxide, dry, carloads from Columbus, Ohio, and Josephtown and Kobuta, Pa., to Havelock, Nebr.

Grounds for relief: Carrier competition and circuity.

FSA No. 31279: *Plasterboard joint system in Official Territory.* Filed by H. R. Hinsch, Agent, for interested rail carriers. Rates on plasterboard joint system, straight or mixed carloads, as described in the application, between specified points in official territory and subdivision thereof.

Grounds for relief: Short-line distance formula and circuity.

Tariff: Supplement 16 to Agent Hinsch's I. C. C. 4662.

By the Commission.

[SEAL] HAROLD D. MCCOY,
Secretary.

VOLUME 20 NUMBER 219

Washington, Wednesday, November 9, 1955

TITLE 3—THE PRESIDENT

EXECUTIVE ORDER 10643

CREATING AN EMERGENCY BOARD TO INVESTIGATE DISPUTES BETWEEN THE ALBANY PORT DISTRICT RAILROAD AND OTHER CARRIERS AND CERTAIN OF THEIR EMPLOYEES

WHEREAS disputes exist between the Albany Port District Railroad and other carriers represented by the Eastern, Western and Southeastern Carriers' Conference Committees, designated in list A attached hereto and made a part hereof, and certain of their employees represented by the cooperating (non-operating) railway labor organizations, designated in list B attached hereto and made a part hereof, on the subject of certain wage demands made by the employees; and

WHEREAS disputes exist between the Albany Port District Railroad and other carriers represented by the Eastern, Western and Southeastern Carriers' Conference Committees, designated in list C attached hereto and made a part hereof, and certain of their employees represented by the cooperating (non-operating) railway labor organizations designated in list D attached hereto and made a part hereof, on the subject of demands of the employees for changes in agreements covering health and welfare benefits; and

WHEREAS these disputes have not heretofore been adjusted under the provisions of the Railway Labor Act, as amended; and

WHEREAS these disputes, in the judgment of the National Mediation Board, threaten substantially to interrupt interstate commerce to a degree such as to deprive the country of essential transportation service:

NOW, THEREFORE, by virtue of the authority vested in me by section 10 of the Railway Labor Act, as amended (45 U. S. C. 160), I hereby create a board of three members, to be appointed by me, to investigate the said disputes. No member of the said board shall be pecuniarily or otherwise interested in any organization of employees or any carrier.

The board shall report its findings to the President with respect to the said dispute within thirty days from the date of this order.

As provided by section 10 of the Railway Labor Act, as amended, from this date and for thirty days after the board has made its report to the President, no change, except by agreement, shall be made by the Albany Port District Railroad and other carriers represented by the Eastern, Western and Southeastern Carriers' Conference Committees or their employees in the conditions out of which the said dispute arose.

FEDERAL REGISTER

Published daily, except Sundays, Mondays, and days following official Federal holidays, by the Federal Register Division, National Archives and Records Service, General Services Administration, pursuant to the authority contained in the Federal Register Act, approved July 26, 1935 (49 Stat. 500, as amended; 44 U. S. C., ch. 8B), under regulations prescribed by the Administrative Committee of the Federal Register, approved by the President. Distribution is made only by the Superintendent of Documents, Government Printing Office, Washington 25, D. C.

The FEDERAL REGISTER will be furnished by mail to subscribers, free of postage, for $1.50 per month or $15.00 per year, payable in advance. The charge for individual copies (minimum 15 cents) varies in proportion to the size of the issue. Remit check or money order, made payable to the Superintendent of Documents, directly to the Government Printing Office, Washington 25, D. C.

The regulatory material appearing herein is keyed to the CODE OF FEDERAL REGULATIONS, which is published, under 50 titles, pursuant to section 11 of the Federal Register Act, as amended August 5, 1953. The CODE OF FEDERAL REGULATIONS is sold by the Superintendent of Documents. Prices of books and pocket supplements vary.

There are no restrictions on the republication of material appearing in the FEDERAL REGISTER, or the CODE OF FEDERAL REGULATIONS.

EXECUTIVE ORDER 10644

ADMINISTRATION OF TITLE II OF THE INTERNATIONAL CLAIMS SETTLEMENT ACT OF 1949, AS AMENDED, RELATING TO THE VESTING AND LIQUIDATION OF BULGARIAN, HUNGARIAN, AND RUMANIAN PROPERTY

By virtue of the authority vested in me by Title II of the International Claims Settlement Act of 1949, as added by Public Law 285, 84th Congress, approved August 9, 1955 (69 Stat. 562), and by section 301 of title 3 of the United States Code, and as President of the United States, it is ordered as follows:

SECTION 1. The Attorney General, and, as designated by the Attorney General for this purpose, any Assistant Attorney General are hereby designated and empowered to perform the functions conferred by the said Title II of the International Claims Settlement Act of 1949 upon the President, and the functions conferred by that title upon any designee of the President.

SEC. 2. The Attorney General is hereby designated as the officer in whom property shall vest under the said Title II.

SEC. 3. As used in this order, the term "functions" includes duties, powers, responsibilities, authority, and discretion, and the term "perform" may be construed to include "exercise".

DWIGHT D. EISENHOWER

THE WHITE HOUSE,
November 7, 1955.

RULES AND REGULATIONS

TITLE 5—ADMINISTRATIVE PERSONNEL

Chapter I—Civil Service Commission

PART 6—EXCEPTIONS FROM THE COMPETITIVE SERVICE

TREASURY DEPARTMENT

Effective upon publication in the FEDERAL REGISTER, paragraph (h) of § 6.101 is amended as set out below.

§ 6.101 *Entire executive civil service*

• • •

(h) Any position in a foreign country, or beyond the continental limits of the United States, when in the opinion of the Commission, appointment through competitive examination is impracticable, except as provided in paragraph (i) of this section and except: Positions in Alaska, Hawaii, Puerto Rico, and the Virgin Islands; in the Immigration and Naturalization Service, all positions in Canada and Mexico, and continuing positions at GS–7 and above in Cuba; positions in the Bureau of Customs, Treasury Department, in foreign countries; General Accounting Office positions in foreign countries; positions in the International Field Offices of the Civil Aeronautics Administration, Department of Commerce; technical positions in foreign countries in the Internal Revenue Service, Treasury Department.

(R. S. 1753, sec. 2, 22 Stat. 403; 5 U. S. C. 631, 633; E. O. 10440, March 31, 1953, 18 F. R. 1823, 3 CFR 1953 Supp.)

UNITED STATES CIVIL SERVICE COMMISSION,
[SEAL] WM. C. HULL,
Executive Assistant.

[F. R. Doc. 55-9029; Filed, Nov. 8, 1955; 8:52 a. m.]

TITLE 9—ANIMALS AND ANIMAL PRODUCTS

Chapter I—Agricultural Research Service, Department of Agriculture

Subchapter C—Interstate Transportation of Animals and Poultry

[B. A. I. Order 383, Revised, Amdt. 64]

PART 76—HOG CHOLEREA, SWINE PLAGUE, AND OTHER COMMUNICABLE SWINE DISEASES

SUBPART B—VESICULAR EXANTHEMA

CHANGES IN AREAS QUARANTINED

Pursuant to the provisions of sections 1 and 3 of the act of March 3, 1905, as amended (21 U. S. C. 123, 125), sections 1 and 2 of the act of February 2, 1903, as amended (21 U. S. C. 111–113, 120), and section 7 of the act of May 29, 1884, as amended (21 U. S. C. 117), § 76.27, as amended, Subpart B, Part 76, Title 9, Code of Federal Regulations (20 F. R. 2881, 2973, 3499, 3931, 4397, 4841, 5256, 5709, 6076, 6575, 7134, 7897), which contains a notice with respect to the States in which swine are affected with vesicular exanthema, a contagious, infectious, and communicable disease, and which quarantines certain areas in such States because of said disease, is hereby further amended in the following respects:

1. Subparagraph (7) of paragraph (a), relating to Sacramento County in California, is deleted.

2. A new subdivision (v) is added to subparagraph (13) of paragraph (d), relating to Hunterdon County in New Jersey, to read:

(v) Clinton Township.

Effective date. The foregoing amendment shall become effective upon issuance.

The amendment excludes certain areas in California and New Jersey from the areas heretofore quarantined because of vescular exanthema. Hereafter, the restrictions pertaining to the interstate movement of swine, and carcasses, parts and offal of swine, from or through quarantined areas, contained in 9 CFR, 1954 Supp., Part 76, Subpart B, as amended, will not apply to such areas. However, the restrictions pertaining to such movement from non-quarantined areas, contained in said Subpart B, as amended, will apply thereto.

The amendment relieves certain restrictions presently imposed, and must be made effective immediately to be of maximum benefit to persons subject to the restrictions which are relieved. Accordingly, under section 4 of the Administrative Procedure Act (5 U. S. C. 1003), it is found upon good cause that notice and other public procedure with respect to the amendment are impracticable and contrary to the public interest, and the amendment may be made effective less than 30 days after publication in the FEDERAL REGISTER.

(Sec. 2, 32 Stat. 792, as amended; 21 U. S. C. 111. Interprets or applies secs. 4, 5, 23 Stat. 32, sec. 1, 32 Stat. 791; 21 U. S. C. 120)

Done at Washington, D. C., this 3d day of November 1955.

[SEAL] B. T. SHAW,
Administrator,
Agricultural Research Service.

[F. R. Doc. 55-8993; Filed, Nov. 8, 1955; 8:46 a. m.]

TITLE 20—EMPLOYEES' BENEFITS

Chapter II—Railroad Retirement Board

PART 345—EMPLOYERS' CONTRIBUTIONS AND CONTRIBUTION REPORTS

PLACE AND TIME FOR FILING EMPLOYERS' CONTRIBUTION REPORTS

Pursuant to the general authority contained in section 12 of the act of June 25, 1938 (52 Stat. 1094, 1107; 45 U. S. C. 362) § 345.9 is amended by the addition of subsection (c) to the regulations of the Railroad Retirement Board under such act (4 F. R. 4370; 8 F. R. 11894; 9 F. R. 3192; 17 F. R. 2303; 19 F. R. 7264) by Board Order 55–297, dated October 19, 1955, to read as follows:

§ 345.9 *Place and time for filing employers' contribution reports.* • • •

(c) If there is a delay in the filing of a contribution report, the director of fiscal accounts may set a later date for filing, if, in his judgment, (1) the delay is due to reasonable cause, (2) the amount of interest payable for the delinquency represents a charge totally disproportionate to the period of delay and (3) the employer's previous record for submission of reports warrants such action.

(Section 12, 52 Stat. 1107, as amended; 45 U. S. C. 362)

Dated: November 3, 1955.

By authority of the Board.

[SEAL] LAWRENCE GARLAND,
Acting Secretary of the Board.

[F. R. Doc. 55-8991; Filed, Nov. 8, 1955; 8:45 a. m.]

TITLE 7—AGRICULTURE

Chapter IX—Agricultural Marketing Service (Marketing Agreements and Orders), Department of Agriculture

[Docket No. AO-243]

PART 908—MILK IN CENTRAL ARKANSAS MARKETING AREA

SUBPART—ORDER REGULATING HANDLING

Sec.
908.0 Findings and determinations.

DEFINITIONS

908.1 Act.
908.2 Secretary.
908.3 Department of Agriculture.
908.4 Central Arkansas Marketing Area.
908.5 Person.
908.6 Producer.
908.7 Approved plant.
908.8 Distributing plant.
908.9 Supply plant.
908.10 Pool plant.
908.11 Nonpool plant.
908.12 Handler.
908.13 Cooperative association.
908.14 Producer-handler.
908.15 Producer milk.
908.16 Fluid milk product.
908.17 Other source milk.
908.18 Base milk.
908.19 Excess milk.
908.20 Chicago butter price.

MARKET ADMINISTRATOR

908.25 Designation.
908.26 Powers.
908.27 Duties.

REPORTS, RECORDS AND FACILITIES

908.30 Reports of sources and utilization.
908.31 Other reports.
908.32 Records and facilities.
908.33 Retention of records.

CLASSIFICATION OF MILK

908.40 Skim milk and butterfat to be classified.
908.41 Classes of utilization.
908.42 Responsibility of handlers.
908.43 Transfers.
908.44 Computation of skim milk and butterfat in each class.
908.45 Allocation of skim milk and butterfat classified.

MINIMUM PRICES

908.50 Basic formula price.
908.51 Class prices.
908.52 Butterfat differentials to handlers.
908.53 Location differential to handlers.
908.54 Rate of compensatory payments on unpriced milk.

APPLICATION OF PROVISIONS

908.60 Producer-handlers.
908.61 Plants subject to other Federal orders.
908.62 Handlers operating nonpool plants.

DETERMINATION OF PRICES TO PRODUCERS

908.70 Computation of the value of producer milk for each handler.
908.71 Computation of the uniform price.
908.72 Computation of uniform prices for base milk and excess milk.
908.73 Butterfat differential to producers.
908.74 Location differential to producers.
908.75 Notification of handlers.

PAYMENTS

908.80 Time and method of payment for producer milk.
908.81 Producer-settlement fund.
908.82 Payments to the producer-settlement fund.
908.83 Payments out of the producer-settlement fund.
908.84 Adjustment of accounts.
908.85 Marketing services.
908.86 Expense of administration.

DETERMINATION OF BASE

908.90 Computation of daily average base for each producer.
908.91 Base rules.
908.92 Announcement of established bases.

EFFECTIVE TIME, SUSPENSION, OR TERMINATION

908.100 Effective time.
908.101 Suspension or termination.
908.102 Continuing obligations.
908.103 Liquidation.

MISCELLANEOUS PROVISIONS

908.110 Agents.
908.111 Separability of provisions.

AUTHORITY: §§ 908.0 to 908.111 issued under sec. 5, 49 Stat. 753, as amended; 7 U. S. C. 608c.

§ 908.0 *Findings and determinations* The findings and determinations hereinafter set forth are supplementary and in addition to the findings and determinations previously made in connection with the issuance of the aforesaid order and all of said previous findings and determinations are hereby ratified and affirmed, except insofar as such findings and determinations may be in conflict with findings and determinations set forth herein.

(a) *Findings upon the basis of the hearing record.* Pursuant to the provisions of the Agricultural Marketing Agreement Act of 1937, as amended (7 U. S. C. 601 et seq.), and the applicable rules of practice and procedure, as amended, governing the formulation of marketing agreements and marketing orders (7 CFR Part 900), a public hearing was held upon a proposed marketing agreement and order, regulating the handling of milk in the Central Arkansas marketing area. Upon the basis of the evidence introduced at such hearing and the record thereof, it is found that:

(1) The said order and all of the terms and conditions thereof will tend to effectuate the declared policy of the Act;

(2) The parity prices of milk as determined pursuant to section 2 of the Act are not reasonable in view of the price of feeds, available supplies of feeds, and other economic conditions which affect market supply of and demand for milk in the marketing area, and the minimum prices specified in the order are such prices as will reflect the aforesaid factors, insure a sufficient quantity of pure and wholesome milk, and be in the public interest; and

(3) The said order regulates the handling of milk in the same manner as, and is applicable only to persons in the respective classes of industrial and commercial activity, specified in a marketing agreement upon which a hearing has been held.

(4) All milk and milk products handled by handlers, as defined in this order, are in the current of interstate commerce or directly burden, obstruct or affect interstate commerce in milk or its products; and

(5) It is hereby found that the necessary expenses of the market administrator for the maintenance and functioning of such agency will require the payment by each handler as his pro rata share of such expenses, 4 cents per hundredweight, or such amount not exceeding 4 cents per hundredweight, as the Secretary may prescribe with respect to all butterfat and skim milk contained in (i) producer milk, (ii) other source milk allocated to Class I milk pursuant to § 908.41 (a), or (iii) Class I milk disposed of in the marketing area (except to a pool plant) from a nonpool plant as determined pursuant to § 908.62.

(b) *Additional findings.* (1) In view of the fact that this order constitutes the original imposition of a regulatory program of this nature for the market, the provisions other than those relating to prices and payments to producers should be put into effect prior to the effective date of the entire order to afford handlers an opportunity to make any necessary changes in their accounting procedure or other adjustments as required to conform with all provisions of the order. Reasonable time will have been afforded interested parties to prepare to comply with the aforesaid provisions.

(2) The public hearing on which this order is based was conducted January 4–12, 1955. The recommended decision of the Deputy Administrator, Agricultural Marketing Service, was published in the FEDERAL REGISTER on July 20, 1955 (20 F. R. 5166). The final decision was issued by the Assistant Secretary of Agriculture on October 7, 1955 and published in the FEDERAL REGISTER on October 13, 1955. Handlers have known of the impending requirements of the order and have had adequate time to prepare to comply with such requirements.

(3) Furthermore, marketing conditions continue to remain unstabilized each day the effective date of the order is delayed. The order provides that payments to producers during the months February through July be based on their average daily deliveries of milk to handlers during the months October 1955 through January 1956.

(4) It is hereby found and determined in view of the aforesaid facts and circumstances that good cause exists for making §§ 908.1 through 908.20; 908.25 through 908.27; 908.30 through 908.33; 908.40 through 908.45; 908.60, 908.61; 908.87; 908.90 through 908.92; 908.100 through 908.103; 908.110 and 908.111 effective on November 15, 1955, and that it would be contrary to the public interest to delay such effective date beyond that specified. (See Sec. 4 (c), Administrative Procedure Act, 5 U. S. C. 1001 et seq.).

(c) *Determinations.* It is hereby determined that handlers (excluding cooperative associations of producers who are not engaged in processing, distributing, or shipping milk covered by this order) of more than 50 percent of the milk covered by this order, which is marketed within the Central Arkansas marketing area refused or failed to sign the proposed marketing agreement regulating the handling of milk in the said marketing area and it is hereby further determined that:

(1) The refusal or failure of such handlers to sign said proposed marketing agreement tends to prevent the effectuation of the declared policy of the act;

(2) The issuance of this order, is the only practical means pursuant to the declared policy of the act of advancing the interests of producers of milk which produced for sale in the marketing area; and

(3) The issuance of this order is approved or favored by at least two-thirds of the producers who participated in a referendum thereon, and who during the determined representative period August, 1955, were engaged in the production of milk for sale in the said marketing area.

(4) It is hereby ordered that the full text of the order, be published in the FEDERAL REGISTER.

(5) Sections 908.1 through 908.20; 908.25 through 908.27; 908.30 through 908.33; 908.40 through 908.45; 908.60, 908.61; 908.87; 908.90 through 908.92; 908.100 through 908.103; 908.110 and 908.111 shall be effective on and after the 15th day of November, 1955, and the entire order (§§ 908.1 through 908.111) shall be effective on and after the first day of December, 1955.

DEFINITIONS

§ 908.1 *Act.* "Act" means Public Act No. 10, 73d Congress, as amended and as re-enacted and amended by the Agricultural Marketing Agreement Act of 1937, as amended (7 U. S. C. 601 et seq.).

§ 908.2 *Secretary.* "Secretary" means the Secretary of Agriculture or any officer or employee of the United States who is authorized to exercise the powers or to perform the duties of the Secretary of Agriculture.

§ 908.3 *Department of Agriculture.* "Department of Agriculture" means the United States Department of Agriculture, or such other Federal agency as may be authorized to perform the price reporting functions specified in this part.

§ 908.4 *Central Arkansas Marketing Area.* "Central Arkansas Marketing Area" hereinafter called the "Marketing Area" means all territory included within the boundaries of the counties of Pulaski, Jefferson, Faulkner, White,

Clark and Garland, all in the State of Arkansas.

§ 908.5 *Person.* "Person" means any individual, partnership, corporation, association or other business unit.

§ 908.6 *Producer.* "Producer" means any person other than a producer-handler, who produces milk in compliance with Grade A inspection requirements of a duly constituted health authority which milk is received during the month at a pool plant: *Provided,* That if such milk is diverted from a pool plant by a handler to a nonpool plant for his account any day during the months of February through August, or on not more than 10 days during any other month, the milk so diverted shall be deemed to have been received at a pool plant at the location of the plant from which diverted.

§ 908.7 *Approved plant.* "Approved plant" means all of the buildings, premises and facilities of a plant (a) in which milk or skim milk is processed or packaged and from which any fluid milk product is disposed of during the month on routes (including routes operated by vendors and sales through plant stores) to wholesale or retail outlets (except pool plants) located in the marketing area, or (b) from which milk or skim milk eligible for distribution in the marketing area under a Grade A label is shipped during the month to a distributing plant.

§ 908.8 *Distributing plant.* "Distributing plant" means an approved plant from which Class I milk equal to not less than 50 percent of its receipts of producer milk and fluid milk products from other pool plants is disposed of during the month, on routes or through plant stores, to wholesale or retail outlets (except pool plants) and from which Class I milk equal to not less than 10 percent of such receipts is disposed of during the month on routes or through plant stores, to wholesale or retail outlets (except pool plants) located in the marketing area.

§ 908.9 *Supply plant.* "Supply plant" means an approved plant from which fluid milk products equal to not less than 50 percent of its receipts of producer milk during the month are shipped during such month to distributing plants: *Provided,* That any plant which qualifies as a supply plant for each of the months during the period August through January shall, upon written application to the market administrator, on or before the end of such period, be designated as a supply plant for the following months of February through July.

§ 908.10 *Pool plant.* "Pool plant" means a distributing plant, or a supply plant, except a plant of a producer-handler.

§ 908.11 *Nonpool plant.* "Nonpool plant" means any milk, manufacturing or processing plant other than a pool plant.

§ 908.12 *Handler.* "Handler" means: (a) A cooperative association with respect to milk of producers diverted for the account of such association from a pool plant to a nonpool plant in accordance with the provisions of § 908.6; or

(b) Any person in his capacity as the operator of one or more approved plants: *Provided,* That if a person operates more than one pool plant he may, upon written application to the market administrator, be considered as a separate handler for the month with respect to one or more of his pool plants if no fluid milk products or producers are transferred during the month between such plant(s) and other pool plant(s) of such handler.

§ 908.13 *Cooperative association.* "Cooperative association" means any cooperative association of producers which the Secretary determines:

(a) To be qualified under the provisions of the Act of Congress of February 18, 1922, as amended, known as the "Capper-Volstead Act"; and

(b) To have and to be exercising full authority in the sale of milk of its members.

§ 908.14 *Producer-handler.* "Producer-handler" means any person who operates a dairy farm and a distributing plant which during the month has no other source milk or producer milk.

§ 908.15 *Producer milk.* "Producer milk" means only that skim milk or butterfat contained in milk (a) received at the plant directly from producers, or (b) diverted from a pool plant to a nonpool plant (except a nonpool plant which is fully subject to the pricing provisions of another order issued pursuant to the act) in accordance with the provisions of § 908.6.

§ 908.16 *Fluid milk product.* "Fluid milk product" means milk, skim milk, buttermilk, flavored milk, flavored milk drinks, yogurt, cream, or any mixture in fluid form of milk, skim milk and cream (except sterilized products packaged in hermetically sealed containers, eggnog, ice cream mix and aerated cream).

§ 908.17 *Other source milk.* "Other source milk" means all skim milk and butterfat contained in: (a) Receipts during the month of fluid milk products except (1) fluid milk products received from pool plants, or (2) producer milk; and (b) products, other than fluid milk products, from any source (including those produced at the plant) which are reprocessed or converted to another product in the plant during the month.

§ 908.18 *Base milk.* "Base milk" means milk received at pool plants from a producer during any of the months of February through July which is not in excess of such producer's daily average base computed pursuant to § 908.90 multiplied by the number of days in such month.

§ 908.19 *Excess milk.* "Excess milk" means milk received at pool plants from a producer during any of the months of February through July which is in excess of the base milk of such producer for such month, and shall include all milk received during such months from a producer for whom no daily average base can be computed pursuant to § 908.90.

§ 908.20 *Chicago butter price.* "Chicago butter price" means the simple average as computed by the market administrator of the daily wholesale selling prices (using the midpoint of any range as one price) per pound of 92-score bulk creamery butter at Chicago as reported during the month by the Department of Agriculture.

MARKET ADMINISTRATOR

§ 908.25 *Designation.* The agency for the administration of this part shall be a market administrator, selected by the Secretary, who shall be entitled to such compensation as may be determined by, and shall be subject to removal at the discretion of, the Secretary.

§ 908.26 *Powers.* The market administrator shall have the following powers with respect to this part:

(a) To Administer its terms and provisions;

(b) To make rules and regulations to effectuate its terms and provisions;

(c) To receive, investigate, and report to the Secretary complaints of violations; and

(d) To recommend amendments to the Secretary.

§ 908.27 *Duties.* The market administrator shall perform all duties necessary to administer the terms and provisions of this part, including, but not limited to the following:

(a) Within 30 days following the date on which he enters upon his duties, or such lesser period as may be prescribed by the Secretary, execute and deliver to the Secretary a bond, effective as of the date on which he enters upon his duties, and conditioned upon the faithful performance of such duties, in an amount and with surety thereon satisfactory to the Secretary;

(b) Employ and fix the compensation of such persons as may be necessary to enable him to administer its terms and provisions;

(c) Obtain a bond in a reasonable amount and with reasonable surety thereon covering each employee who handles funds entrusted to the market administrator;

(d) Pay out of the funds received pursuant to § 908.86: (1) The cost of his bond and of the bonds of his employees, (2) his own compensation, and (3) all other expenses (except those incurred under § 908.85) necessarily incurred by him in the maintenance and functioning of his office and in the performance of his duties;

(e) Keep such books and records as will clearly reflect the transactions provided for in this section, and, upon request by the Secretary, surrender the same to such other person as the Secretary may designate;

(f) Publicly disclose to handlers and producers, at his discretion, unless otherwise directed by the Secretary, the name of any handler who, after the date on which he is required to perform such acts, has not made reports pursuant to §§ 908.30 and 908.31 or payments pursuant to §§ 908.80 through 908.86.

(g) Submit his books and records to examination by the Secretary and furnish such information and reports as may be requested by the Secretary;

(h) On or before the 12th day after the end of each month, report to each cooperative association which so requests, the percentage of producer milk delivered by members of such association which was used in each class by each handler receiving such milk. For the purpose of this report the milk so received shall be prorated to each class in accordance with the total utilization of producer milk by such handler;

(i) Verify all reports and payments of each handler by audit of the records of such handler or any other handler or person to whom skim milk and butterfat are transferred, or by such other means as are necessary.

(j) Prepare and make available for the benefit of producers, consumers, and handlers, general statistics and information concerning the operation of this order which do not reveal confidential information; and

(k) On or before the date specified publicly announce, and mail to each handler at his last known address a notice of the following:

(1) The 5th day of each month, the Class I milk price and the Class I butterfat differential, both for the current month; and the Class II milk price, and the Class II butterfat differential; both for the preceding month;

(2) The 11th day of each month, the uniform price, and the producer butterfat differential, both for the preceding month.

REPORTS, RECORDS AND FACILITIES

§ 908.30 *Reports of sources and utilization.* On or before the 7th day after the end of each month each handler, except a producer-handler, shall report for each of his approved plants for such month to the market administrator in the detail and on forms prescribed by the market administrator as follows:

(a) The quantities of skim milk and butterfat contained in:

(1) Producer milk;

(2) Fluid milk products received from other pool plants;

(3) Other source milk;

(4) Inventories of fluid milk products on hand at the beginning of the month; and

(b) The utilization of all skim milk and butterfat required to be reported pursuant to paragraph (a) of this section, including separate statements as to the disposition of Class I milk outside the marketing area, and inventories of fluid milk products on hand at the end of the month.

§ 908.31 *Other reports.* (a) Each producer-handler shall make reports to the market administrator at such time and in such manner as the market administrator may prescribe.

(b) Each handler, except a producer-handler, shall report to the market administrator in the detail and on forms prescribed by the market administrator:

(1) On or before the 7th day of each of the months of March through August the aggregate quantity of base milk received at his pool plant(s) for the preceding month;

(2) On or before the 20th day after the end of the month, for each of his pool plants, his producer payroll for such month which shall show for each producer: (i) His name and address, (ii) the total pounds of milk received from such producer, including, for the months of February through July, the pounds of base milk, (iii) the days for which milk was received from such producer, if less than the entire month, (iv) the average butterfat content of such milk, and (v) the net amount of such handler's payment to the producer, together with the price paid and the amount and nature of any deductions;

(3) On or before the first day other source milk is received in the form of a fluid milk product at his pool plant(s), his intention to receive such product, and on or before the last day such product is received, his intention to discontinue receipt of such product;

(4) On or before the day prior to diverting producer milk pursuant to § 908.6 his intention to divert such milk, the date or dates of such diversion and the nonpool plant to which such milk is to be diverted; and

(5) Such other information with respect to his sources and utilization of butterfat and skim milk as the market administrator may prescribe.

§ 908.32 *Records and facilities.* Each handler shall maintain and make available to the market administrator during the usual hours of business such accounts and records of his operations and such facilities as are necessary for the market administrator to verify or establish the correct data for each month with respect to:

(a) The receipt and utilization of all skim milk and butterfat handled in any form;

(b) The weights and tests for butterfat and other content of all products handled;

(c) The pounds of skim milk and butterfat contained in or represented by all items of products on hand at the beginning and end of each month; and

(d) Payments to producers, including any deductions authorized by producers, and disbursement of money so deducted.

§ 908.33 *Retention of records.* All books and records required under this part to be made available to the market administrator shall be retained by the handler for a period of three years to begin at the end of the calendar month to which such books and records pertain: *Provided,* That if, within such three-year period, the market administrator notifies the handler in writing that the retention of such books and records, or of specified books and records, is necessary in connection with a proceeding under section 8c (15) (A) of the act or a court action specified in such notice, the handler shall retain such books and records, or specified books and records, until further written notification from the market administrator. In either case, the market administrator shall give further written notification to the handler promptly upon the termination of the litigation or when the records are no longer necessary in connection therewith.

CLASSIFICATION OF MILK

§ 908.40 *Skim milk and butterfat to be classified.* The skim milk and butterfat to be reported for pool plants pursuant to § 908.30 (a) shall be classified each month by the market administrator, pursuant to the provisions of §§ 908.41 through 908.45.

§ 908.41 *Classes of utilization.* Subject to the conditions set forth in §§ 908.42 through 908.45, the classes of utilization shall be as follows:

(a) *Class I milk.* Class I milk shall be all skim milk and butterfat; (1) disposed of from the plant in the form of fluid milk products, except those classified pursuant to paragraph (b) (3) of this section, and (2) not specifically accounted for as Class II milk.

(b) *Class II milk.* Class II milk shall be all skim milk and butterfat: (1) Used to produce any product other than a fluid milk product; (2) contained in inventories of fluid milk products on hand at the end of the month; (3) disposed of as skim milk and used for livestock feed; and (4) in shrinkage not to exceed 2 percent respectively of the skim milk and butterfat contained in producer milk (except that diverted pursuant to § 908.6) and other source milk: *Provided,* That if shrinkage of skim milk or butterfat is less than such 2 percent, it shall be assigned pro rata to the skim milk or butterfat contained in producer milk (except that diverted pursuant to § 908.6) and other source milk respectively.

§ 908.42 *Responsibility of handlers.* All skim milk and butterfat to be classified pursuant to this part shall be classified Class I milk, unless the handler who first receives such skim milk and butterfat establishes to the satisfaction of the market administrator that it should be classified Class II milk.

§ 908.43 *Transfers.* (a) Skim milk and butterfat transferred to a pool plant of another handler (except a producer-handler) in the form of fluid milk products shall, to the extent required, be classified so as to result in the maximum assignment of the producer milk of both handlers to Class I milk. Any additional amounts of skim milk and butterfat shall be classified Class I milk, unless the operators of both plants claim utilization thereof in Class II milk in their reports submitted pursuant to § 908.30: *Provided,* That the skim milk or butterfat so assigned to Class II milk for any month shall be limited to the respective amounts thereof remaining in Class II milk for such month at the pool plant(s) of the receiving handler after the subtraction of other source milk pursuant to § 908.45.

(b) Skim milk and butterfat transferred to the plant of a producer-handler in the form of fluid milk products, shall be classified Class I milk.

(c) Skim milk and butterfat transferred or diverted in bulk form as milk or skim milk to a nonpool plant from which no fluid milk products are distributed on routes and which is located less than 250 miles by the shortest hard surfaced highway distance, as determined by the market administrator, from

the plant from which transferred or diverted shall be classified Class I milk unless, (1) the transferring or diverting handler claims classification in Class II milk in his report submitted to the market administrator pursuant to § 908.30 for the month within which such transaction occurred, (2) the operator of the nonpool plant maintains books and records showing the utilization of all skim milk and butterfat at such plant which are made available if requested by the market administrator for the purpose of verification, and (3) not less than an equivalent amount of skim milk and butterfat was actually utilized in the nonpool plant in the use indicated in such report: *Provided*, That if it is found that an equivalent amount of skim milk and butterfat was not actually used in such plant during the month in such indicated use, the pounds transferred in excess of such actual use shall be classified Class I milk.

(d) Skim milk and butterfat transferred in bulk form as cream to a nonpool plant shall be classified Class I milk unless, (1) the transferring handler claims classification in Class II milk in his report submitted to the market administrator pursuant to § 908.30, (2) the handler attaches tags or labels to each container of such cream bearing the words "for manufacturing uses only," (3) the handler gives the market administrator sufficient notice to allow him to verify such Class II disposition in advance, (4) the operator of the nonpool plant maintains books and records showing the utilization of all skim milk and butterfat at such plant which are made available if requested by the market administrator for the purpose of verification, and (5) such cream is not disposed of by the transferee under Grade A label.

§ 908.44 *Computation of skim milk and butterfat in each class.* For each month, the market administrator shall correct for mathematical and other obvious errors, the reports submitted by each handler pursuant to § 908.30 and compute the total pounds of skim milk and butterfat respectively, in Class I milk and Class II milk at all of the pool plants of such handler: *Provided*, That the skim milk contained in any product utilized, produced or disposed of by the handler during the month shall be considered to be an amount equivalent to the nonfat milk solids contained in such product, plus all of the water originally associated with such solids.

§ 908.45 *Allocation of skim milk and butterfat classified.* (a) The pounds of skim milk remaining in each class after making the following computations each month with respect to the pool plant(s) of each handler, shall be the pounds of skim milk in such class allocated to the producer milk of such handler for such month.

(1) Subtract from the total pounds of skim milk in Class II milk the shrinkage of skim milk in producer milk classified as Class II milk pursuant to § 908.41 (b);

(2) Subtract from the pounds of skim milk remaining in Class II milk the pounds of skim milk in other source milk except that to be subtracted pursuant to subparagraph (3) of this paragraph: *Provided*, That if the pounds of skim milk to be subtracted exceed the remaining pounds of skim milk in Class II milk, the balance shall be subtracted from the pounds of skim milk in Class I milk;

(3) Subtract from the pounds of skim milk remaining in Class II milk the pounds of skim milk in fluid milk products received in bulk from plants regulated pursuant to other orders issued pursuant to the act, less any equivalent amounts of skim milk in other source milk allocated to Class I milk at each of such plants respectively: *Provided*, That, if the pounds of skim milk to be subtracted exceed the remaining pounds of skim milk in Class II milk, the balance shall be subtracted from the pounds of skim milk in Class I milk.

(4) Subtract from the pounds of skim milk remaining in Class II milk the pounds of skim milk contained in inventory of fluid milk products on hand at the beginning of the month: *Provided*, That if the pounds of skim milk in such inventory exceed the remaining pounds of skim milk in Class II milk, the balance shall be subtracted from the pounds of skim milk remaining in Class I milk;

(5) Subtract the pounds of skim milk in fluid milk products received from pool plants of other handlers from the pounds of skim milk remaining in the class to which assigned, pursuant to § 908.43 (a);

(6) Add to the pounds of skim milk remaining in Class II milk the pounds of skim milk subtracted pursuant to subparagraph (1) of this paragraph;

(7) If the pounds of skim milk remaining in all classes exceed the pounds of skim milk in milk received from producers, subtract such excess from the pounds of skim milk remaining in the various classes in series beginning with Class II milk.

(b) Determine the pounds of butterfat in each class to be allocated to producer milk in the manner prescribed in paragraph (a) of this section for determining the allocation of skim milk to producer milk.

(c) Add the pounds of skim milk and the pounds of butterfat in each class calculated pursuant to paragraphs (a) and (b) of this section and determine the percentage of butterfat in the producer milk allocated to each class.

MINIMUM PRICES

§ 908.50 *Basic formula price.* The highest of the prices computed pursuant to paragraphs (a), (b) and (c) of this section, rounded to the nearest whole cent, shall be known as the basic formula price.

(a) To the average of the basic (or field) prices per hundredweight reported to have been paid or to be paid for milk of 3.5 percent butterfat content received from farmers during the month at the following plants or places for which prices have been reported to the market administrator or to the Department of Agriculture:

Present Operator and Location

Borden Company, Mount Pleasant, Mich.
Borden Company, New London, Wis.
Borden Company, Orfordville, Wis.
Carnation Company, Oconomowoc, Wis.
Carnation Company, Richland Center, Wis.
Carnation Company, Sparta, Mich.
Pet Milk Company, Belleville, Wis.
Pet Milk Company, Coopersville, Mich.
Pet Milk Company, Hudson, Mich.
Pet Milk Company, New Glarus, Wis.
Pet Milk Company, Wayland, Mich.
White House Milk Company, Manitowoc, Wis.
White House Milk Company, West Bend, Wis.

Add an amount computed by multiplying the Chicago butter price for the month by 0.6.

(b) The price computed by adding together any plus values computed pursuant to subparagraphs (1) and (2) of this paragraph:

(1) Multiply the Chicago butter price by 4.8;

(2) Deduct five cents from the simple average as computed by the market administrator of the weighted averages of carlot prices per pound of nonfat dry milk solids, spray and roller process, respectively, for human consumption, f. o. b. manufacturing plants in the Chicago area, as published for the period from the 26th day of the preceding month through the 25th day of the current month by the Department of Agriculture, and multiply by 7.5.

(c) The price resulting from the following calculations:

(1) Multiply by 8.53 the average of the daily prices per pound of cheese at Wisconsin primary markets ("cheddars," f. o. b. Wisconsin assembly points, cars or truckloads) as reported by the Department of Agriculture during the month;

(2) Add 0.902 times the Chicago butter price for the month;

(3) Subtract 34.3 cents; and

(4) Add an amount computed by multiplying the Chicago butter price for the month by 0.6.

§ 908.51 *Class prices.* Subject to the provisions of §§ 908.52 and 908.53, the class prices per hundredweight of milk containing 4.0 percent butterfat shall be determined for each month as follows:

(a) *Class I milk price.* The Class I milk price shall be the basic formula price for the preceding month, plus $1.28 from the effective date hereof through August 1955, and for the months of March through August 1956; and plus $1.68 for the months of September 1955 through February 1956.

(b) *Class II milk price.* For the months of February through July the Class II milk price shall be the price determined pursuant to subparagraph (1) of this paragraph rounded to the nearest cent. For all other months it shall be the basic formula price, or the price determined pursuant to subparagraph (1) of this paragraph, plus 25 cents, whichever is less.

(1) The average of the basic (or field) prices reported to have been paid or to be paid per hundredweight for milk of 4.0 percent butterfat content received from farmers during the month at the following plants or places for which prices have been reported to the market administrator or to the Department of Agriculture on or before the 5th day after the end of the month.

Present Operator and Location

Sugar Creek Creamery, Russellville, Ark.
Ozark Creamery Co., Ozark, Ark.
Pet Milk Co., Siloam Springs, Ark.

§ 908.52 *Butterfat differential to handlers.* For milk containing more or less than 4.0 percent butterfat, the class prices calculated pursuant to §908.51 shall be increased or decreased, respectively, for each one-tenth percent butterfat at the appropriate rate determined as follows:

(a) *Class I price.* Multiply the Chicago butter price for the previous month by 0.12;

(b) *Class II price.* Multiply the Chicago butter price for the month by 0.11 for the months of February through July, and by 0.115 for all other months.

§ 908.53 *Location differentials to handlers.* For that milk which is received from producers at a pool plant located 60 miles or more from the city limits of Benton, Arkansas, by shortest highway distance, as determined by the market administrator, and which is transferred to another pool plant in the form of fluid milk products and assigned to Class I milk pursuant to the proviso of this section, or otherwise classified as Class I milk, the price specified in § 908.51 (a) shall be reduced at the rate of 1.5 cents for each 10 miles or residual fraction thereof that such plant is from such city limits where such milk is received from producers: *Provided*, That for the purpose of calculating such location differential, fluid milk products which are transferred betwen pool plants shall be assigned to any remainder of Class II milk in the plant to which transferred after making the calculation prescribed in § 908.45 (a) (1) through (4), and the comparable steps in paragraph (b) thereof for such plant, such assignment to the transferring plants to be made in sequence according to the location differential applicable at each plant, beginning with the plant having the largest differential.

§ 908.54 *Rate of compensatory payments on unpriced milk.* The rate of compensatory payment per hundredweight shall be calculated as follows:

(a) For the months of February through July, subtract the Class II milk price, adjusted by the Class II butterfat differential, from the Class I milk price, adjusted by the Class I butterfat differential and in the case of fluid milk products by the Class I location differential.

(b) For the months of August through January, subtract the uniform or the weighted average of the base and excess prices to producers from the Class I milk price.

APPLICATION OF PROVISIONS

§ 908.60 *Producer-handlers.* Sections 908.40 through 908.45; 908.50 through 908.53; 908.61, 908.62 and 908.70 through 908.75; and 908.80 through 908.87 shall not apply to a producer-handler.

§ 908.61 *Plants subject to other Federal orders.* A plant specified in paragraphs (a) or (b) of this section shall be a nonpool plant for purposes of this part except that the operator of such plant shall, with respect to the total receipts and utilization or disposition of skim milk and butterfat at the plant, make reports to the market administrator at such time and in such manner as the market administrator may require (in lieu of the reports required pursuant to § 908.30), and allow verification of such reports by the market administrator.

(a) Any distributing plant which would otherwise be subject to the classification and pricing provisions of another order issued pursuant to the act, unless a greater volume of Class I milk was disposed of from such plant during the six months period immediately preceding to retail or wholesale outlets (except pool plants or nonpool plants) in the Central Arkansas marketing area than in the marketing area regulated pursuant to such other order.

(b) Any supply plant which would otherwise be subject to the classification and pricing provisions of another order issued pursuant to the act, unless such plant qualified as a pool plant for each of the preceding months of August through January.

(c) In case skim milk or butterfat, which is priced under Federal Order No. 18 for the Memphis, Tennessee, marketing area, is disposed of as Class I milk in the marketing area on a route operated by or for a person subject to regulation as a handler defined in such order, and the price which such handler is required to pay under Federal Order No. 18 for milk which would be classified as Class I milk under this part, is less than the Class I price provided by this part, such handler shall pay to the market administrator for deposit into the producer-settlement fund (with respect to all milk disposed of as Class I milk on routes in the marketing area) an amount equal to the difference between the value as determined pursuant to this part and its value as determined pursuant to Federal Order No. 18.

§ 908.62 *Handlers operating nonpool plants.* Each handler who is the operator of a nonpool plant which is not subject to the classification and pricing provisions of another order issued pursuant to the act, shall, on or before the 15th day after the end of each month, pay to the market administrator for deposit into the producer-settlement fund an amount calculated by multiplying the total hundredweight of butterfat and skim milk disposed of in the form of fluid milk products from such nonpool plant to retail or wholesale outlets (including deliveries by vendors and sales through plant stores) in the marketing area during the month, by the rate of compensatory payment calculated pursuant to § 908.54.

DETERMINATION OF PRICES TO PRODUCERS

§ 908.70 *Computation of the value of producer milk for each handler.* For each month, the market administrator shall compute the value of producer milk for each handler as follows:

(a) Multiply the quantity of producer milk in each class computed pursuant to § 908.45 by the applicable class price, and total the resulting amounts (and add any amount necessary to reflect adjustments in location differential allowance required pursuant to the proviso of § 908.53);

(b) Add an amount computed by multiplying the hundredweight of skim milk and butterfat subtracted from Class I milk pursuant to § 908.45 (a) (2) and (b) by the rate of compensatory payment as determined pursuant to § 908.54 for the nearest plant(s) from which an equivalent amount of other source milk was received in the form of fluid milk products;

(c) Add the amounts computed by multiplying the pounds of overage deducted from each class pursuant to § 908.45 (a) (7) and (b) by the applicable class price;

(d) Add the amount computed by multiplying the difference between the appropriate Class II price for the preceding month and the appropriate Class I milk price for the current month by the hundredweight of skim milk and butterfat remaining in Class II milk after the calculations pursuant to § 908.45 (a) (5) and (b) for the preceding months or the hundredweight of skim milk and butterfat subtracted from Class I milk pursuant to § 908.45 (a) (4) and (b) for the current month, whichever is less, respectively.

§ 908.71 *Computation of the uniform price.* For each of the months of August through January, the market administrator shall compute the uniform price per hundredweight of producer milk of 4.0 percent butterfat content, f. o. b. market, as follows:

(a) Combine into one total the values computed pursuant to § 908.70 for the producer milk of all handlers who submit reports prescribed in § 908.30 and who have made payments for the previous month pursuant to § 908.80 or § 908.82;

(b) Subtract, if the average butterfat content of the producer milk included under paragraph (a) of this section is greater than 4.0 percent, or add, if such average butterfat content is less than 4.0 percent, an amount computed as follows: Multiply the variation in the average butterfat content of such milk from 4.0 percent by the butterfat differential computed pursuant to § 908.73 and multiply the result by the total hundredweight of such milk;

(c) Add an amount equal to the sum of the deductions to be made from producer payments for location differentials pursuant to § 908.80 (a) (2);

(d) Add an amount equal to one-half of the unobligated balance on hand in the producer-settlement fund;

(e) Divide the resulting amount by the total hundredweight of producer milk included under paragraph (a) of this section; and

(f) Subtract not less than 4 cents nor more than 5 cents.

§ 908.72 *Computation of uniform prices for base milk and excess milk.* For each of the months of February through July, the market administrator shall compute the uniform prices per hundredweight for base milk and for excess milk, each of 4.0 percent butterfat content, f. o. b. market, as follows:

(a) Compute the aggregate value of excess milk for all handlers who submit

reports pursuant to § 908.30, and who have made payments for the previous month pursuant to §§ 908.80 or 908.82 as follows: (1) Multiply the hundredweight of such milk not in excess of the total quantity of producer milk assigned to Class II milk in the pool plants of such handlers by the Class II milk price; (2) multiply any additional hundredweight of such milk by the Class I milk price, and (3) add together the resulting amounts;

(b) Divide the aggregate value of excess milk obtained in paragraph (a) of this section by the total hundredweight of such milk, adjust to the nearest cent and subtract 4 cents. The resulting figure shall be the uniform price for excess milk of 4.0 percent butterfat content received from producers;

(c) Subtract an amount determined by multiplying the uniform price obtained in paragraph (b) of this section, plus 4 cents, times the hundredweight of excess milk from the total value of producer milk for the month as determined according to the calculations set forth in § 908.71 (a) through (d).

(d) Divide the result obtained pursuant to paragraph (c) of this section by the total hundredweight of base milk of handlers included in these computations.

(e) Subtract not less than 4 cents nor more than 5 cents from the price computed pursuant to paragraph (d) of this section. The resulting figure shall be the uniform price for base milk of 4.0 percent butterfat content f. o. b. market.

§ 908.73 *Butterfat differential to producers.* The applicable uniform prices to be paid each producer shall be increased or decreased for each one-tenth of one percent which the average butterfat content of his milk is above or below 4.0 percent, respectively, at the rate determined by multiplying the pounds of butterfat in producer milk allocated to each class by the appropriate butterfat differential for such class as determined pursuant to § 908.52, dividing by the total butterfat in producer milk and rounding to the nearest even tenth of a cent.

§ 908.74 *Location differential to producers.* The applicable uniform prices to be paid for producer milk received at a pool plant located 60 miles or more from the city limits of Benton, Arkansas, by the shortest highway distance, as determined by the market administrator, shall be reduced according to the distance of the plant from such city limits at the rate of 1.5 cents for each 10 miles or residual fraction thereof.

§ 908.75 *Notification of handlers.* On or before the 11th day after the end of each month, the market administrator shall mail to each handler, who submitted the report(s) prescribed in § 908.30, at his last known address, a statement showing:

(a) The amount and value of his producer milk in each class and the totals thereof;

(b) For the months of February through July the amounts and value of his base and excess milk respectively;

(c) The uniform price(s) computed pursuant to §§ 908.71 and 908.72 and the butterfat differential computed pursuant to § 908.73; and

(d) The amounts to be paid by such handler pursuant to §§ 908.82, 908.85, 908.86, or 908.62; and the amount due such handler pursuant to § 908.83.

PAYMENTS

§ 908.80 *Time and method of payment for producer milk.* (a) Except as provided in paragraph (b) in this section, each handler shall make payment to each producer from whom milk is received during the month as follows:

(1) On or before the last day of each month to each producer who did not discontinue shipping milk to such handler before the 25th day of the month, an amount equal to not less than the Class II price for the preceding month multiplied by the hundredweight of milk received from such producer during the first 15 days of the month, less proper deductions authorized by such producer to be made from payments due pursuant to this paragraph;

(2) On or before the 15th day of the following month, an amount equal to not less than the appropriate uniform price(s) adjusted by the butterfat and location differentials to producers multiplied by the hundredweight of milk or base milk and excess milk received from such producer during the month, subject to the following adjustments: (i) Less payments made to such producer pursuant to subparagraph (1) of this paragraph, (ii) less marketing service deductions made pursuant to § 908.85, (iii) plus or minus adjustments for errors made in previous payments made to such producer, and (iv) less proper deductions authorized in writing by such producer: *Provided,* That if by such date such handler has not received full payment from the market administrator pursuant to § 908.83 for such month, he may reduce pro rata his payments to producers by not more than the amount of such underpayment. Payments to producers shall be completed thereafter not later than the date for making payments pursuant to this paragraph next following after the receipt of the balance due from the market administrator.

(b) In the case of a cooperative association which the market administrator determines is authorized by its members to collect payment for their milk and which has so requested any handler in writing, such handler shall on or before the 2d day prior to the date on which payments are due individual producers pay the cooperative association for milk received during the month from the producer members of such association as determined by the market administrator an amount equal to not less than the amount due such producer members as determined pursuant to paragraph (a) of this section.

(c) Each handler shall furnish the person to whom payment is to be made pursuant to this section with the following information:

(1) On or before the 25th day of the month, the pounds of milk received from the producer or from each member of the cooperative association during the first 15 days of such month;

(2) On or before the 7th day of the following month to a cooperative association for its individual members, or on or before the 15th day of the following month to producers (i) the pounds of milk received each day and the total for the month, together with the butterfat content of such milk, (ii) for the months of February through July the pounds of base milk received, (iii) the amount or rate and nature of deductions made from payments and (iv) the amount and nature of payments due pursuant to § 908.84.

§ 908.81 *Producer-settlement fund.* The market administrator shall establish and maintain a separate fund known as the "producer-settlement fund" into which he shall deposit all payments made by handlers pursuant to §§ 908.62, 908.82 and 908.84, and out of which he shall make all payments pursuant to §§ 908.83 and 908.84: *Provided,* That any payments due to any handler shall be offset by any payments due from such handler.

§ 908.82 *Payments to the producer-settlement fund.* On or before the 12th day after the end of each month, each handler shall pay to the market administrator any amount by which the value of his producer milk as computed pursuant to § 908.70 for such month, is greater than the amount owed by him for such milk at the appropriate uniform price(s) adjusted by the producer butterfat and location differentials.

§ 908.83 *Payments out of the producer-settlement fund.* On or before the 13th day after the end of each month, the market administrator shall pay to each handler any amount by which the total value of his producer milk, computed pursuant to § 908.70, for such month is less than the amount owed by him for such milk at the appropriate uniform price(s) adjusted by the producer butterfat and location differentials. If at such time the balance in the producer-settlement fund is insufficient to make all payments pursuant to this section, the market administrator shall reduce uniformly such payments and shall complete such payments as soon as the appropriate funds are available.

§ 908.84 *Adjustment of accounts.* Whenever audit by the market administrator of any reports, books, records, or accounts or other verification discloses errors resulting in moneys due (a) the market administrator from a handler, (b) a handler from the market administrator, or (c) any producer or cooperative association from a handler, the market administrator shall promptly notify such handler of any amount so due and payment thereof shall be made on or before the next date for making payments set forth in the provisions under which such error occurred.

§ 908.85 *Marketing services.* (a) Except as set forth in paragraph (b) of this section, each handler, in making payments to producers for milk (other than milk of his own production) pursuant to § 908.80, shall deduct 5 cents per hundredweight, or such amount not exceeding 5 cents per hundredweight, as may be prescribed by the Secretary, and shall pay such deductions to the market administrator on or before the 15th day after the end of the month. Such money shall be used by the market administrator to provide market information and to check the accuracy of the testing and weighing of their milk for producers who are not receiving such service from a cooperative association;

(b) In the case of producers who are members of a cooperative association which the Secretary has determined is actually performing the services set forth in paragraph (a) of this section, each handler shall (in lieu of the deduction specified in paragraph (a) of this section), make such deductions from the payments to be made to such producers as may be authorized by the membership agreement or marketing contract between such cooperative association and such producers, and on or before the 13th day after the end of each month, pay such deductions to the cooperative association of which such producers are members, furnishing a statement showing the amount of any such deductions and the amount of milk for which such deduction was computed for each producer.

§ 908.86 *Expense of administration.* On or before the 15th day after the end of each month, each handler shall pay to the market administrator, for each of his approved plants, 4 cents or such lesser amount as the Secretary may prescribe, for each hundredweight of butterfat and skim milk contained in (a) producer milk, (b) other source milk allocated to Class I milk pursuant to § 908.45 (a) (2) and (b), or (c) Class I milk disposed of in the marketing area (except to a pool plant) from a nonpool plant not subject to the classification and pricing provisions of another order issued pursuant to the act.

§ 908.87 *Termination of obligations.* The provisions of this section shall apply to any obligations under this part for the payment of money.

(a) The obligation of any handler to pay money required to be paid under the terms of this part shall, except as provided in paragraphs (b) and (c) of this section, terminate 2 years after the last day of the calendar month during which the market administrator receives the handler's utilization report on the milk involved in such obligation, unless within such 2-year period the market administrator notifies the handler in writing that such money is due and payable. Service of such notice shall be complete upon mailing to the handler's last known address, and it shall contain, but need not be limited to, the following information:

(1) The amount of the obligation;

(2) The month(s) during which the milk, with respect to which the obligation exists was received or handled; and

(3) If the obligation is payable to one or more producers or to an association of producers, the name of such producer(s) or association of producers, or if the obligation is payable to the market administrator, the account for which it is to be paid.

(b) If a handler fails or refuses, with respect to any obligation under this part, to make available to the market administrator or his representatives all books and records required by this part to be made available, the market administrator may, within the two-year period provided for in paragraph (a) of this section, notify the handler in writing of such failure or refusal. If the market administrator so notifies a handler, the said two-year period with respect to such obligation shall not begin to run until the first day of the calendar month following the month during which all such books and records pertaining to such obligation are made available to the market administrator or his representative.

(c) Notwithstanding the provisions of paragraphs (a) and (b) of this section, a handler's obligation under this part to pay money shall not be terminated with respect to any transaction involving fraud or willful concealment of a fact, material to the obligation, on the part of the handler against whom the obligation is sought to be imposed.

(d) Any obligation on the part of the market administrator to pay a handler any money which such handler claims to be due him under the terms of this part shall terminate two years after the end of the calendar month during which the payment (including deduction or setoff by the market administrator) was made by the handler, if a refund on such payment is claimed, unless such handler, within the applicable period of time, files, pursuant to section 8c (15) (A) of the act, a petition claiming such money.

DETERMINATION OF BASE

§ 908.90 *Computation of daily average base for each producer.* Subject to the rules set forth in § 908.91, the daily average base for each producer shall be an amount calculated by dividing the total pounds of milk received from such producer at all pool plants during the months of October 1955 through January 1956 by the number of days from the first day of delivery by such producer during such months to the last day of January 1956, inclusive, or by 90, whichever is more. The daily average base for each producer thereafter shall be an amount calculated by dividing the total pounds of milk received from such producer at all pool plants during the months of September through December immediately preceding, by the number of days from the first day of delivery by such producer during such months to the last day of December inclusive or by 90, whichever is more.

§ 908.91 *Base rules.* The following rules shall apply in connection with the establishment and assignment of bases:

(a) Subject to the provisions of paragraph (b) of this section, the market administrator shall assign a base as calculated pursuant to § 908.90 to each person for whose account producer milk was delivered to pool plants during the months of October 1955 through January 1956, and during the months of September through December thereafter.

(b) An entire base shall be transferred from a person holding such base to any other person effective as of the end of any month during which an application for such transfer is received by the market administrator, such application to be on forms approved by the market administrator and signed by the baseholder, or his heirs, and by the person to whom such base is to be transferred: *Provided,* That if a base is held jointly, the entire base shall be transferrable only upon the receipt of such application signed by all joint holders or their heirs, and by the person to whom such base is to be transferred.

§ 908.92 *Announcement of established bases.* On or before February 25, 1956 and January 25 of each year thereafter, the market administrator shall notify each producer, and the handler receiving milk from such producer, of the daily average base established by such producer.

EFFECTIVE TIME, SUSPENSION, OR TERMINATION

§ 908.100 *Effective time.* The provisions of this part, or any amendment thereto, shall become effective at such time as the Secretary may declare and shall continue in force until suspended or terminated.

§ 908.101 *Suspension or termination.* The Secretary shall, whenever he finds that any or all provisions of this part, or any amendment thereto, obstruct or do not tend to effectuate the declared policy of the act, terminate or suspend the operation of any or all provisions of this part or any amendment thereto.

§ 908.102 *Continuing obligations.* If, upon the suspension or termination of any or all provisions of this part, or any amendment thereto, there are any obligations thereunder the final accrual or ascertainment of which requires further acts by any person (including the market administrator), such further acts shall be performed notwithstanding such suspension or termination.

§ 908.103 *Liquidation.* Upon the suspension or termination of the provisions of this part, except §§ 908.34, 908.89, and 908.91 through 908.93, the market administrator, or such other liquidating agent as the Secretary may designate, shall, if so directed by the Secretary liquidate the business of the market administrator's office, dispose of all property in his possession or control, including accounts receivable, and execute and deliver all assignments or other instruments necessary or appropriate to effectuate any such disposition. If a liquidating agent is so designated, all assets, books, and records of the market administrator shall be transferred promptly to such liquidating agent. If, upon such liquidation, the funds on hand exceed the amounts required to pay outstanding obligations of the office of the market administrator and to pay necessary expenses of liquidating and distribution, such excess shall be distributed to contributing handlers and producers in an equitable manner.

MISCELLANEOUS PROVISIONS

§ 908.110 *Agents.* The Secretary may, by designation in writing, name any officer or employee of the United States to act as his agent and representative in connection with any of the provisions of this part.

§ 908.111 *Separability of provisions.* If any provisions of this part, or its application to any person or circumstances, is held invalid, the application of such provision, and of the remaining provisions of this part, to other persons or circumstances shall not be affected thereby.

Sections 908.1 through 908.20; 908.25 through 908.27; 908.30 through 908.33; 908.40 through 908.45; 908.60, 908.61; 908.87; 908.90 through 908.92; 908.100 through 908.103; 908.110 and 908.111 shall be effective on and after the 15th day of November, 1955, and the entire order (§§ 908.1 through 908.111) shall be effective on and after the first day of December, 1955.

Issued at Washington, D. C., this 4th day of November 1955.

[SEAL] EARL L. BUTZ,
Assistant Secretary.

[F. R. Doc. 55-9048; Filed, Nov. 8, 1955; 8:56 a. m.]

TITLE 29—LABOR

Chapter V—Wage and Hour Division, Department of Labor

PART 545—HOMEWORKERS IN THE NEEDLEWORK AND FABRICATED TEXTILE PRODUCTS INDUSTRY IN PUERTO RICO

On June 11, 1955, notice was published in the FEDERAL REGISTER (20 F. R. 4132-4140) that the Administrator of the Wage and Hour Division, United States Department of Labor, proposed to amend the regulations contained in this part. Interested persons were given 30 days to submit for consideration, data, views or arguments pertaining to the proposed changes. The time for filing was subsequently extended to August 13, 1955. No objections have been received.

Accordingly, pursuant to authority under sections 6 (a) and 11 (c) of the Fair Labor Standards Act of 1938, as amended (52 Stat. 1060, as amended, 29 U. S. C. 201 et seq.), Part 545, of Title 29 of the Code of Federal Regulations is amended, as set forth in the notice, except that the piece rates contained in § 545.13 applicable to the silk, rayon, and nylon (except infants') underwear division, and the general division have been deleted. This deletion was necessitated by the new minimum hourly wage rates fixed for those divisions of the needlework and fabricated textile products industry in Puerto Rico by the wage order which was published in the FEDERAL REGISTER on September 20, 1955 (20 F. R. 7037), and became effective October 6, 1955. The piece rates for the divisions which have been deleted will be published in a new proposal.

This amendment shall become effective on December 9, 1955.

Signed at Washington, D. C., this 3d day of November 1955.

NEWELL BROWN,
Administrator,
Wage and Hour Division.

Sec.
545.1 Applicability.
545.2 Definitions.
545.3 Filing and notification requirements.
545.4 Preparation of goods for delivery.
545.5 Delivery and collection of goods.
545.6 Payment for work.
545.7 Records to be kept.
545.8 Reporting names of subcontractors, agents, or other homework distributors.
545.9 Minimum piece rates prescribed by the Administrator.
545.10 Piece rates adopted by employers.
545.11 Penalties.
545.12 Petition for amendment of regulations.
545.13 Piece rates established in accordance with § 545.9.

AUTHORITY: §§ 545.1 to 545.13 issued under secs. 6, 11, 52 Stat. 1062, 1066; 29 U. S. C. 206, 211.

§ 545.1 *Applicability.* The provisions of this part shall apply to persons engaged in commerce or in the production of goods for commerce in activities relating to homeworkers in the needlework and fabricated textile products industry in Puerto Rico as defined in Part 655 of this chapter.[1]

§ 545.2 *Definitions.* (a) The meaning of the terms "person", "employer", "employee", "goods", and "production", as used in this part, is the same as in the Fair Labor Standards Act of 1938, as amended.

(b) "Homeworker", as used in this part, means any employee employed or suffered or permitted to perform homework for an employer.

(c) "Homework", as used in this part, means the production by any person in or about a home, apartment, tenement, or room in a residential establishment, of goods for an employer who suffers or permits such production, regardless of the source (whether obtained from an employer or elsewhere) of the materials used by the homeworker in such production; *Provided,* That such work is not performed under the constant and direct supervision of an employer or of a responsible supervisor and under such conditions that accurate records of hours worked are maintained or can readily be maintained.

(d) "Contractor" means any employer in Puerto Rico who contracts for the performance of work on goods to which a person other than the contractor holds title.

(e) "Prime contractor" means any contractor in Puerto Rico who contracts directly with the person holding title to the goods.

(f) "Subcontractor" means any contractor in Puerto Rico other than a prime contractor.

(g) "Manufacturer" means any employer in Puerto Rico other than a contractor, who is engaged in processing goods.

(h) "Operation" means any work or any process performed on or with goods other than the distribution of goods to or collection of goods from homeworkers.

§ 545.3 *Filing and notification requirements.* (a) Every prime contractor or manufacturer, prior to the distribution of work, directly or through a subcontractor or agent, to any homeworker, or prior to the commencement of work by a homeworker in cases where the homeworker purchases the raw materials, shall file with the Wage and Hour Division in Puerto Rico the following: A clear and legible stamped copy of each design, if any, and in the absence of such design, a finished sample, of the goods to be distributed, or to be produced by the homeworker; a description in writing of each operation to be performed by the homeworker, whether or not part of a design; the full piece rate schedule designation, if any,[2] and the corresponding piece rate to be paid for each such operation; the total piece rate for the finished unit or part of unit; and the style number or name, if any, of the goods upon which such operations are to be performed. In the absence of a style number or name, the prime contractor or manufacturer shall file any other identification number or name by which the goods are known.

(b) No change shall be made by a prime contractor or manufacturer in any style or identification number or name filed as required by this section, or in the operations to be performed thereunder, unless prior written notification of such change is given to the Wage and Hour Division in Puerto Rico.

(c) Any design, sample, piece rate, style or other identification number or name, or description of operation, filed under this section shall be valid, for the purposes of the regulations in this part, for a period of three years, commencing on the date it is received by the Wage and Hour Division in Puerto Rico. After the expiration of this period, no goods covered thereby shall be distributed to homeworkers unless a new notification and filing, as required by the first paragraph of this section, has been previously made by the prime contractor or manufacturer.

(d) No prime contractor or manufacturer shall distribute work to homeworkers under a firm name other than the one under which such work has been filed with the Wage and Hour Division in Puerto Rico pursuant to the requirements of this section.

(e) Any design or sample filed under the provisions of this section may be retained by the Wage and Hour Division for the period deemed necessary for enforcement of the provisions of the Fair Labor Standards Act.

[1] Persons engaged in activities relating to homeworkers in other industries in Puerto Rico are subject to Part 681 of this chapter.

[2] See § 545.13 for the schedule of piece rates prescribed in accordance with § 545.9. As an example of how to state the piece rate schedule designation, if "plain scallops" are to be made on articles in the "Infants' Wear Division", the full piece rate schedule designation would be "Operation 74, Col. 3".

§ 545.4 *Preparation of goods for delivery.* Where homework is distributed through a subcontractor, each prime contractor or manufacturer for whom such distribution is made shall make up into lots any goods to be so distributed, each lot to comprise goods on which the same operations are to be performed.

§ 545.5 *Delivery and collection of goods.* Homework shall in each instance be distributed to and collected from the individual homeworker who is to perform or has performed the work on it, and no other person may act for or on behalf of any homeworker in this connection.

§ 545.6 *Payment for work.* When a prime contractor or manufacturer receives completed homework directly from an individual homeworker, payment shall be made to such homeworker immediately. When, however, such completed homework is received through a subcontractor, payment shall be made to the subcontractor immediately upon receipt, and the subcontractor shall pay the homeworker who performed the work within seven days from the date on which the subcontractor was paid. Payment shall be made to each homeworker at rates not less than those required under §§ 545.9 and 545.10, and in accordance with the requirements of sections 6 and 7 of the act. In addition, where costs are incurred by a homeworker for equipment, material, or other items, such as fuel and electricity, as a result of homework, the prime contractor or manufacturer for whom such homework was performed shall, either directly or through a subcontractor, reimburse the homeworker for such costs, to the extent necessary to provide compensation for the labor performed at least commensurate with the piece rates required by §§ 545.9 and 545.10.

§ 545.7 *Records to be kept.* (a) Every prime contractor or manufacturer shall make and have available at his principal Puerto Rican office for a period of not less than three years a record of the following information: [3]

(1) The name and address of each firm situated outside the Island of Puerto Rico, if any, from whom the goods upon which homework is to be performed were received.

(2) The name and address of each subcontractor, if any, to whom each lot of goods was delivered for delivery to homeworkers, together with the number of the permit issued to such subcontractor by the Department of Labor of Puerto Rico.

(3) The date or dates upon which each lot of goods was delivered to and returned by a subcontractor, if any, together with a description of such goods, the net amount paid as commission and the rate of commission on such goods.

(4) The name and address of each homeworker, and the date of birth of each homeworker under 19, to whom the goods in each lot were delivered or from whom goods were purchased.

(5) The date or dates upon which the goods in each lot were delivered to and collected from each homeworker or upon which goods were purchased from each homeworker.

(6) The style number or name or, if none, the identification number or name used in lieu thereof, the description of, and amount of goods in each lot or the amount of goods purchased from each homeworker, the operations to be performed or performed thereon, the piece rates to be paid or paid, the gross amount due each homeworker for the operations performed upon the goods, social security deductions from that amount, the costs, if any, incurred by the homeworker for equipment, material or other items such as electricity or fuel, as a result of the homework, the amount actually paid the homeworker and the date of payment.

(b) At the time work is given out to or received or purchased from a homeworker, as the case may be, every prime contractor or manufacturer shall enter the following information in the handbook (to be obtained by the prime contractor or manufacturer from the Wage and Hour Division and supplied by him to each homeworker) which shall be kept by the homeworker until the handbook is completed (that is, no space remains for additional entries) or the homeworker's services are terminated, at which time it shall be returned to the prime contractor or manufacturer who shall retain it for a period of two years subsequent to the last entry therein: [4]

(1) The date or dates upon which the goods in each lot were delivered to and collected from the homeworker or upon which goods were purchased from the homeworker.

(2) The style number or name, or, if none, the identification number or name used in lieu thereof, the description of, and amount of goods in each lot or the amount of goods purchased from each homeworker, the operations to be performed or performed thereon, the piece rates to be paid or paid, the gross amount due each homeworker for the operations performed upon the goods, social security deductions from that amount, the costs, if any, incurred by the homeworker for equipment, material, or other items such as electricity or fuel as a result of homework, the amount actually paid the homeworker, and the date of payment.

(3) The signature of the person acting in behalf of the prime contractor or manufacturer.

(c) No prime contractor or manufacturer shall employ any homeworker for more than 40 hours in any workweek unless, in addition to the records which he is required to keep pursuant to paragraphs (a) and (b) of this section, such prime contractor or manufacturer makes and keeps available at his principal Puerto Rican office and enters in the handbook of each such homeworker a record of the following information: [4]

(1) The hours worked by the homeworker on the goods in each lot.

(2) The total hours worked each week.

(3) The wages paid the homeworker each week at regular piece rates.

(4) The extra amount paid to the homeworker for hours worked in excess of 40 in each week.

(d) Every employer who makes retroactive payment of wages or compensation under the supervision of the Administrator pursuant to section 16 (c) of the act, shall:

(1) Record and preserve, as an entry on his payroll or other pay records, the amount of such payment to each employee, the period covered by such payment, and the date of payment.

(2) Prepare a report of each such payment on the receipt form provided or authorized by the Wage and Hour Division, and (i) preserve a copy as part of his records, (ii) deliver a copy to the employee, and (iii) file the original, which shall evidence payment by the employer and receipt by the employee, with the Administrator or his authorized representative within 10 days after payment is made.

§ 545.8 *Reporting names of subcontractors, agents, or other homework distributors.* Every prime contractor or manufacturer shall report to the office of the Wage and Hour Division, United States Department of Labor, Mayaguez, Puerto Rico, (a) the names and addresses of all persons engaged or used as subcontractors, as that term is defined in this part, or as agents or supervisors in charge of any branch office, and (b) the permit numbers issued to such persons by the Department of Labor of Puerto Rico.

§ 545.9 *Minimum piece rates prescribed by the Administrator.* Pursuant to the provisions of section 6 (a) (2) of the act, each homeworker shall be paid in lieu of the applicable hourly rate established by the wage order for the needlework and fabricated textile products industry, not less than the piece rates prescribed in § 545.13 for the operations described therein.

[3] Although responsibility for making the record is placed upon the prime contractor or manufacturer, the actual work of doing so may be performed by supervisory or clerical employees, agents, subcontractors, or other persons acting in his behalf.

No particular order or form of records is prescribed by the regulations contained in this part. The prime contractor or manufacturer may keep his own record system, so long as he keeps all the required information available in understandable form.

The records must be kept in the principal Puerto Rican office of the prime contractor or manufacturer. Where it is not possible for a record of one or more of the items to be made in the first instance at the principal office of the prime contractor or manufacturer, at his direction the record of such items may be made away from that office by a subcontractor, agent, employee, or other person acting in his behalf. In such event, however, the records shall be delivered to the principal Puerto Rican office of the prime contractor or manufacturer as soon as practicable after the making of such entries, and shall there be preserved and be available for inspection.

[4] Although responsibility for supplying the handbook to the homeworker and recording information therein is placed upon the prime contractor or manufacturer, the actual work of doing so may be performed by supervisory or clerical employees, agents, subcontractors, or other persons acting in his behalf.

§ 545.10 *Piece rates adopted by employers.* (a) Pursuant to the provisions of section 6 (a) (2) of the act, in the event that a homeworker performs an operation for which no minimum piece rate has been prescribed by regulation or order of the Administrator or his authorized representative, he shall be paid a piece rate adopted by the prime contractor or manufacturer which shall yield to homeworkers of ordinary skill, under prevalent operating conditions and with equipment ordinarily found in homes, an amount not less than the applicable minimum hourly wage rate established by wage order.[5] This piece rate must be the result of production time studies conducted in Puerto Rico with a representative group of homeworkers. Such piece rate shall be lawful only if it actually satisfies the requirements of this section, and such a rate shall remain in effect only until such time as the Administrator or his authorized representative, by regulation or order, establishes a minimum piece rate for the operations.

(b) Piece rates adopted under this section shall be filed with the Wage and Hour Division in Puerto Rico, accompanied by a record of the time tests showing a full description of the operation tested, the date of the test, measures taken to insure a representative sample of homeworkers, the starting and stopping time of each worker tested together with the number of units produced in that time, the total number of workers tested, the total number of hours worked, and the total number of units produced.

§ 545.11 *Penalties.* Section 15 of the act makes it unlawful for any person to violate the provisions of this part and subjects any such person to the penalties provided in section 16 and section 17 of the act.

§ 545.12 *Petition for amendment of regulations.* Any person wishing a revision of any of the terms of this part may submit in writing to the Administrator or his authorized representative a petition setting forth the changes desired and the reasons for proposing them. If, upon inspection of the petition, the Administrator or his authorized representative believes that reasonable cause for amendment of this part is set forth, the Administrator or his authorized representative will, unless it is impracticable, unnecessary or contrary to the public interest to do so, either schedule a hearing with due notice to interested parties, or will make other provision for affording interested parties an opportunity to present their views, either in support of or in opposition to the proposed changes.

[5] See Part 655 of this chapter for the minimum hourly wage rates currently applicable for the various divisions and classifications of the needlework and fabricated textile products industry in Puerto Rico. The minimum hourly rates applicable to the manufacture of hooked rugs are provided in the wage order for the hooked rug industry in Puerto Rico (Part 684 of this chapter). Homeworkers in the hooked rug industry are governed by Part 681 of this chapter.

§ 545.13 *Piece rates established in accordance with § 545.9.*

SCHEDULE A—PIECE RATE SCHEDULE FOR THE COTTON UNDERWEAR AND INFANTS' UNDERWEAR; INFANTS' WEAR SILK, RAYON AND NYLON (EXCEPT INFANTS') UNDERWEAR; BLOUSE, DRESS, AND NECKWEAR; AND THE CHILDREN'S AND DOLLS' WEAR DIVISIONS OF THE NEEDLEWORK AND FABRICATED TEXTILE PRODUCTS INDUSTRY IN PUERTO RICO

127	Flat hems without pasada	------	2.34	Do.

[1] For description of operations included under "hand-sewing," see definitions in applicable section of wage order.
[2] These piece rates have been set on the basis of O. N. T. thread No. 5, corded, which averages 28 stitches per inch of solid cord. If corded threads are used, which are not so thick, the rate should be increased in proportion to the increase in the number of stitches per inch. If corded thread No. 11 is used, 15 percent must be added to the piece rates established for thread No. 5.

[1] For description of operations included under "hand-sewing", see definitions in applicable section of wage order.
[2] The hourly minimum rates applicable to leather gloves are also applicable to combination leather and fabric gloves. However, piece rates for combination leather and fabric gloves must be set by employers in accordance with § 545.10.
[3] When facing has been sewn on by machine.

SCHEDULE D—PIECE RATE SCHEDULE FOR THE NEEDLEPOINT DIVISION OF THE NEEDLEWORK AND FABRICATED TEXTILE PRODUCTS INDUSTRY IN PUERTO RICO [1]

GROSPOINT

No.	Operation	Piece rate (cents) based on hourly rate of 22½ cents	Unit of payment
200	Compact florals, figures and landscapes	23.40	Per 1,000 stitches.
201	Scattered florals	25.20	Do.
202	Scattered florals consisting of borders or garlands only	27.00	Do.
203	Combinations of compact center and scattered borders in which the compact portion totals 45 percent or more of the total design.	25.20	Do.
204	Combinations of compact center and scattered borders in which the compact portion totals less than 45 percent of the entire design.	27.00	Do.
205	One and two-tenths cents must be added to the above piece rates to cover thumb-tack mounting on frame, for each piece of canvas. Employers using other methods must set individual rates for mounting and removing canvas in accordance with section 545.10.		

[1] The piece rates apply only to "hand-sewing" operations. For description of operations included under "hand-sewing", see definition in applicable section of wage order.

EXCEPTIONS

These piece rates do not apply to the following types of needlepoint. For these, and all other varieties of needlepoint not covered by the schedule and definitions, piece rates must be set by employers in accordance with Regulations 545.10.
1. Florals having more than 10,000 stitches.
2. Florals having more than 36 color tones.
3. Figures and landscapes having more than 3,000 stitches.
4. Figures and landscapes having more than 25 color tones.
5. Petit point.
6. Stamped grospoint.

DEFINITIONS

1. A scattered design is one in which 50 percent or more of the component parts, when finished, are separated by spaces of unsewn canvas.
2. A compact design is one in which 50 percent or more of the finished piece contains no spaces of unsewn canvas.

Chapter IV—Commodity Stabilization Service and Commodity Credit Corporation, Department of Agriculture

Subchapter B—Loans, Purchases and Other Operations

PART 472—WOOL

SUBPART—TERMS OF SALE OF WOOL OWNED BY COMMODITY CREDIT CORPORATION (INCLUDING SALES BY COMPETITIVE BIDS)

Correction

In F. R. Document 55-8925, appearing in the issue for Thursday, November 3, 1955, at page 8245, make the following change: In the fifth sentence of § 472.538, the word "as" preceding "omission" should read "an".

TITLE 16—COMMERCIAL PRACTICES

Chapter I—Federal Trade Commission

[Docket 6351]

PART 13—DIGEST OF CEASE AND DESIST ORDERS

MISS YOUTH FORM CREATIONS CORP. ET AL.

Subpart—*Advertising falsely or misleadingly:* § 13.155 *Prices:* Comparative; Usual as reduced, special, etc.; § 13.175 *Quality of product or service;* § 13.285 *Value.* Subpart—*Misrepresenting oneself and goods—Goods:* § 13.1715 *Quality;* § 13.1775 *Value;* [*Misrepresenting oneself and goods*]—Prices: § 13.1785 *Comparative;* § 13.1825 *Usual as reduced or to be increased.*

(Sec. 6, 38 Stat. 721; 15 U. S. C. 46. Interpret or apply sec. 5, 38 Stat. 719, as amended; 15 U. S. C. 45) [Cease and desist order, Miss Youth Form Creations Corporation et al., New York, N. Y., Docket 6351, October 25, 1955.]

In the Matter of Miss Youth Form Creations Corporation, a Corporation, and Sid Kay and Irving L. Brown, Individually and as Officers of Said Corporation.

This proceeding was heard by J. Earl Cox, hearing examiner, upon the complaint of the Commission — which charged respondents with misrepresenting the retail selling price, or savings in the purchase, the quality or value, of women's slips and underclothes, on advertising mats, reprints, and other promotional material supplied to retailers and dealers, and on the tickets affixed to the garments—and an agreement between respondents and counsel for the parties providing for the entry of a consent order in accordance with § 3.25 of the Commission's rules of practice.

On this basis, the hearing examiner made his initial decision and order to cease and desist, which by the Commission's order of October 25, 1955, pursuant to § 3.21 of the rules of practice, became, on that date, the "Decision of the Commission".

The order to cease and desist is as follows:

It is ordered, That respondents, Miss Youth Form Creations Corporation, a corporation, and its officers, and Sid Kay and Irving L. Brown, individually and as officers of said corporate respondent, and said respondents' agents, representatives and employees, directly or through any corporate or other device, in connection with the offering for sale, sale or distribution of women's wearing apparel, including underclothes and slips, in commerce, as "commerce" is defined in the Federal Trade Commission act, do forthwith cease and desist from: Representing, directly, indirectly, or by implication, or providing retailers, dealers, or others with advertising mats, reprints, and pre-ticketed merchandise or other material, device, or plans which represent, directly, indirectly, or by implication:

1. That the regular retail selling price of respondents' said wearing apparel is any amount greater than the prices at which such wearing apparel is usually and customarily sold at retail by retailers regularly selling such wearing apparel;

2. That any retail price of said wearing apparel is a reduced price unless such price represents a reduction from the price at which respondents' said wearing apparel is or was usually and customarily sold at retail in the regular course of business or that any savings from regular retail prices for respondents' said wearing apparel are afforded to purchasers thereof when the price designated constitutes the regular retail selling price of respondents' said wearing apparel;

3. That the retail value of respondents' said wearing apparel is equal to the retail selling price of higher-priced merchandise made by other manufacturers and regularly selling or having been sold contemporaneously in the same general trade area supplied by respondents and such other manufacturers, unless respondents' said wearing apparel is in fact of a grade and quality comparable to said higher-priced merchandise, in which case respondents may so represent.

By said "Decision of the Commission", report of compliance was required as follows:

It is ordered, That respondents Miss Youth Form Creations Corporation, a corporation and Sid Kay and Irving L. Brown, individually and as officers of said corporation, shall, within sixty (60) days after service upon them of this order, file with the Commission a report in writing setting forth in detail the manner and form in which they have complied with the order to cease and desist.

Issued: October 25, 1955.

By the Commission.

[SEAL] ROBERT M. PARRISH,
Secretary.

[F. R. Doc. 55-9046; Filed, Nov. 8, 1955; 8:56 a. m.]

[Docket 6374]

PART 13—DIGEST OF CEASE AND DESIST ORDERS

CHESTER-KENT, INC.

Subpart—*Advertising falsely or misleadingly:* § 13.170 *Qualities or properties of product or service.*

(Sec. 6, 38 Stat. 721; 15 U. S. C. 46. Interpret or apply sec. 5, 38 Stat. 719, as amended; 15 U. S. C. 45) [Cease and desist order, Chester-Kent, Inc., St. Paul, Minn., Docket 6374, October 26, 1955]

This proceeding was heard by Abner E. Lipscomb, hearing examiner, upon the complaint of the Commission—which charged respondent corporation with falsely advertising the health-giving properties of its products "Yo-Zyme" and "Vinol Tonic"—and an agreement between respondent and counsel supporting the complaint providing for the entry of a consent order in accordance with § 3.25 of the Commission's rules of practice.

Upon this basis, the hearing examiner made his initial decision and order to cease and desist, which by the Commission's order of October 26, 1955, pursuant to § 3.21 of the rules of practice, became, on that date, the "Decision of the Commission".

The order to cease and desist is as follows:

It is ordered, That the Respondent, Chester-Kent, Inc., a corporation, and its officers, agents, representatives and employees, directly or through any corporate or other device, in connection with the offering for sale, sale or distribution of Yo-Zyme and Vinol Tonic, or any other products of substantially the same composition or possessing substantially similar properties, whether sold under the same name or under any other name, do forthwith cease and desist from, directly or indirectly:

1. Disseminating, or causing to be disseminated, by means of the United States mails, or by any means in commerce, as "commerce" is defined in the Federal Trade Commission Act, any advertisement which represents, directly or by implication:

(a) That the use of Yo-Zyme as directed:

(1) Will be effective in supplanting noxious bacteria in the intestines;

(2) Will be effective in checking the growth of putrefying bacteria in the intestines;

(3) Will be effective in promoting healthy intestinal flora;

(4) Will be effective in maintaining lactic-acid-producing organisms in the intestines;

(5) Will be effective in adding the absorption of alkaline minerals;

(6) Will be effective in protecting vitamins;

(7) Will be effective in the treatment of constipation or headaches;

(b) That the use of Yo-Zyme, without regard to the amount taken:

(1) Will be effective in aiding the digestion of other food, by supplying protein-splitting enzymes or otherwise;

(2) Will improve digestion or intestinal health;

(3) Will establish body resistance to disease;

(4) Will be effective in the treatment of weak kidneys, gall-bladder troubles, nervousness, lack of pep, ulcers, gas stomach upsets, diarrhea, nausea, eczema and hemorrhoids;

(c) That the use of Vinol Tonic will give young children or older people pep and energy unless those persons lack such pep and energy due solely to iron deficiency;

(d) That all pregnant women will develop an iron deficiency anemia unless they receive vigorous iron therapy;

2. Disseminating, or causing to be disseminated, any advertisements, by any means, for the purpose of inducing, or which is likely to induce, directly or indirectly, the purchase in commerce, as "commerce" is defined in the Federal Trade Commission Act, of the food and drug preparations "Yo-Zyme" and "Vinol Tonic," which advertisement contains any of the representations prohibited in paragraph 1 of this order.

By said "Decision of the Commission", report of compliance was required as follows:

It is ordered, That respondent Chester-Kent, Inc., a corporation, shall, within sixty (60) days after service upon it of this order, file with the Commission a report in writing setting forth in detail the manner and form in which it has complied with the order to cease and desist.

Issued: October 26, 1955.

By the Commission.

[SEAL] ROBERT M. PARRISH,
Secretary.

[F. R. Doc. 55-9047; Filed, Nov. 8, 1955; 8:56 a. m.]

TITLE 14—CIVIL AVIATION

Chapter II—Civil Aeronautics Administration, Department of Commerce

[Amdt. 169]

PART 609—STANDARD INSTRUMENT APPROACH PROCEDURES

PROCEDURE ALTERATIONS

The standard instrument approach procedure alterations appearing hereinafter are adopted to become effective when indicated in order to promote safety. Compliance with the notice, procedures, and effective date provisions of section 4 of the Administrative Procedure Act would be impracticable and contrary to the public interest, and therefore is not required.

Part 609 is amended as follows:

NOTE: Where the general classification (LFR, VAR, ADF, ILS, GCA, or VOR), location, and procedure number (if any) of any procedure in the amendments which follow, are identical with an existing procedure, that procedure is to be substituted for the existing one, as of the effective date given, to the extent that it differs from the existing procedure; where a procedure is canceled, the existing procedure is revoked; new procedures are to be placed in appropriate alphabetical sequence within the section amended.

1. The low frequency range procedures prescribed in § 609.6 are amended to read in part:

LFR STANDARD INSTRUMENT APPROACH PROCEDURE

Bearings, headings, and courses are magnetic. Distances are in statute miles unless otherwise indicated. Elevations and altitudes are in feet, MSL. Ceilings are in feet above airport elevation.
If an LFR instrument approach is conducted at the below named airport, it shall be in accordance with the following instrument approach procedure, unless an approach is conducted in accordance with a different procedure authorized by the Administrator for Civil Aeronautics for such airport. Initial approaches shall be made over specified routes. Minimum altitude(s) shall correspond with those established for en route operation in the particular area or as set forth below.

City and State; airport name, elevation; facility; class and identification; procedure No.; effective date	Initial approach to facility from—	Course and distance	Minimum altitude (ft.)	Procedure turn (–) side of final approach course (outbound and inbound); altitudes; limiting distances	If visual contact not established at authorized landing minimums after passing facility within distance specified, or if landing not accomplished
1	2	3	4	5	11
HILO, HAWAII. General Lyman Airport, 30'. SBRAZ-ITO. Procedure No. 1 Effective date: December 10, 1953 Amendment No. 0-9. Supersedes Amendment No. 0-8, dated November 1, 1953. Major changes: New format; change in minima.	N side of E course: 075° outbound. 259° inbound. 1,500' within 10 miles.				Within 1 mile, climb to 3,000' on N course (342°) within 25 miles. #Westerly takeoffs 800-2 day or night.

City and State; airport name, elevation; facility; class and identification; procedure No.; effective date	Initial approach to facility from—	Course and distance, facility to airport	Ceiling and visibility minimums			If visual contact not established at authorized landing minimums after passing facility within distance specified, or if landing not accomplished
			Condition	Type aircraft

PART 609—STANDARD INSTRUMENT APPROACH PROCEDURES

PROCEDURE ALTERATIONS

Correction

In Federal Register Document 55-8255, published at page 7775, October 15, 1955, issue, the following change should be made in the table for § 609.13 (page 7784): The text in column 2 should read as follows:

Sector azimuths progress clockwise, with bearings to the station.
Within 5 nautical miles:
181°-290°—8,000' *
291°-100°—6,000'
101°-180°—5,400'
Within 10 nautical miles:
181°-300°—11,500' *
301°-360°—6,000'
001°-070°—10,500' *
071°-120°—6,000'
121°-180°—5,400'
Within 15 nautical miles:
161°-330°—13,500' *
331°-354°—7,500'
355°-070°—12,500' *
071°-096°—7,000'
097°-136°—8,500' *
137°-160°—5,400'
Within 20 nautical miles:
155°-330°—13,500' *
331°-070°—12,500' *
071°-096°—8,000'
097°-136°—8,500'
137°-154°—6,500'
Within 25 nautical miles:
155°-330°—13,500' *
331°-070°—12,500' *
071°-136°—9,000'
137°-154°—6,500'

PART 56—SPECIAL DELIVERY

PART 110—RATES AND SHIPPING REQUIREMENTS

MISCELLANEOUS AMENDMENTS

a. In the amendment to § 56.2 *Payment for special delivery* published at 20 F. R. 7837 under date of October 19, 1955, change the designation of the paragraph amended from paragraph "(c) (1)" to paragraph "(d) (1)".

(R. S. 161, 396, sec. 2, 24 Stat. 221, secs. 304, 309, 42 Stat. 24, 25, sec. 12, 65 Stat. 676; 5 U. S. C. 22, 369, 39 U. S. C. 171, 246f)

b. In § 110.1 *Rates and shipping requirements* make the following changes:

1. In the table amend the country item "U. S. S. R." by changing the surface parcel post rates applicable thereto from 90 cents for the first pound and 23 cents for each additional pound to 92 cents for the first pound and 25 cents for each additional pound.

2. Strike out footnote 40.

(R. S. 161, 396, 398; secs. 304, 309, 42 Stat. 24, 25, 48 Stat. 943; 5 U. S. C. 22, 369, 372)

TITLE 47—TELECOMMUNICATION

Chapter I—Federal Communications Commission

[Docket No. 11094; FCC 55-1096]

[Rules Amdt. 3-60]

PART 3—RADIO BROADCAST SERVICES

MISCELLANEOUS AMENDMENTS

In the matter of amendment of Part 3 of the Commission's rules governing television broadcast stations.

1. The Commission has under consideration its Notice of Proposed Rule Making issued in this proceeding on June 24, 1954 (FCC 54-797), and published in the FEDERAL REGISTER on June 29, 1954 (19 F. R. 3941), proposing rules governing the operation of frequency and modulation monitors and monitoring equipment for visual and aural transmitters of television broadcast stations and type approval for such monitors.

2. Comments suggesting certain changes in the proposed rules have been filed by the General Radio Company, Cambridge, Massachusetts, and General Electric Company, Schenectady, New York. These comments are discussed below.

3. Section 3.693, as proposed, relates to requirements for type approval of frequency monitors. One of the provisions of this section requires monitors to have a certain accuracy when the electrical power supply varies between 85 percent and 115 percent of the normal voltage supply for which the monitor is designed. Both General Electric Company and General Radio Company urge that this provision be altered to require a power supply voltage from 105 volts to 125 volts (or from 210 to 250 volts) since most of the monitors in current use are designed for power supply voltages from 105 to 125 volts. It is further urged that the accuracy and stability requirements of television monitors are very severe and that it is both unnecessary and uneconomical to burden the equipment with the wide voltage variation proposed in this proceeding. The parties assert that experience indicates that a specific line voltage range of 105 to 125 volts has been more than adequate to meet the varying needs of the broadcast industry. They note that if the supply voltage varies from 85 to 115 percent, much of the equipment normally employed in television transmitter operation would cease to function. It may be noted that if the normal supply voltage for which a monitor is designed is 115 volts, a variation from 105 to 125 volts would be equivalent to approximately 90 to 110 percent of the design voltage. Since monitors may be designed for other than a normal supply voltage of 115 volts, we believe that a percentage value should be specified in the rules. Accordingly, and in light of the comments filed by the parties, we have changed § 3.693 (a) (1) to specify a variation of 90 percent to 110 percent, which is approximately equivalent to the value recommended by the parties.

4. Section 3.692, as proposed, relates to the general requirements for type approval of monitors. Paragraph (c) of this proposed rule provided that once a type approval number has been assigned by the Commission, no changes whatsoever would be permitted without specific Commission authorization. General Electric Company urges that this proviso be modified to permit the licensee or manufacturer to effect minor changes without prior Commission approval where such changes do not affect the performance of the monitor in accordance with the specifications. In the proceedings in Docket No. 10798 (Subpart F of Part 2 of the rules—Equipment Type Approval), the matter of minor changes in type approved and type accepted equipment was considered. The Commission determined in that proceeding that no changes would be permitted in type approved equipment without prior Commission authorization, and we see no necessity for adopting the suggestion with respect to minor changes advanced in the instant proceeding. However, in view of our action in Docket No. 10798, we are changing the language of § 3.692 (c) to conform to § 2.540 (b) in order that all related parts of the rules will be consistent.

5. Section 3.692 (b), as proposed, which relates to general requirements for type approval of frequency and modulation monitors, provides that "these monitors may have limited range over which the visual indicator will determine deviations." General Electric Company notes that the reference in the rule to "these monitors" is ambiguous since it might refer to frequency monitors, modulation monitors, or both. It is our intention that the provision for adjunct equipment be applicable to the frequency monitor only and we have revised the wording of this section to remove the ambiguity.

6. The General Radio Company suggests that § 3.693, which deals with visual and aural frequency monitors, be divided into two parts, one for visual monitors and one for aural monitors, in order to avoid a confusion between the specifications of the two separate functions. We see no necessity, however, for bifurcating the rule since most of the requirements for the visual and aural monitors are identical. Two separate sections would cause unnecessary duplication of language. We are therefore rejecting this suggestion.

7. Section 3.696 (a) (1), as proposed, sets forth the accuracy with which a monitor is required to operate. General Radio submits that the accuracy and stability of an oscillator must be considered together, and suggests that a statement of accuracy should include a time period. General Radio suggests that 10 to 90 days would be representative of the length of time that a reasonably stable crystal oscillator will remain within the proposed tolerance. The Commission agrees that the stability of a monitor should be taken into account as one of the requirements for type approval. We have therefore revised § 3.693 (a) (1) to require that a monitor under test remain within the specified tolerance over a period of 30 days.

8. In our notice of proposed rule making we provided for type approval of frequency monitors which indicate directly the frequency of the carrier wave of a transmitter. General Radio urges that provision should also be made for the alternative use of a frequency monitor which would indicate the difference between the visual and aural carrier frequencies since the frequency tolerance is specified in terms of absolute visual carrier frequency, and in terms of difference-frequency (aural frequency 4.5 Mc above visual frequency). General Radio notes that such a monitor is under development. The Commission has revised § 3.693 to provide for direct-reading and difference-frequency monitors.

9. Paragraph (a) (2) of § 3.693, as proposed, sets forth the range of the scale on the indicating instrument of the frequency monitor. General Radio urges that the visual carrier frequency indicating device have a scale length of ±1500 cycles instead of the ±3000 proposed since the scale ranges have as a matter of precedent been selected to give a scale length of plus or minus 1.5 times the tolerance. Since the tolerance is ±1000 cycles, the indicating device would have a scale length of ±1500 cycles. General Radio states that a great majority of monitors in use are provided with a ±1500 cycle scale. Upon careful consideration of General Radio's contentions, we are of the opinion that a minimum ±1500 cycle scale for the visual monitor should be adopted. A minimum ±3000 cycle scale is being adopted for aural frequency monitors.

10. Section 3.694, as proposed, relates to the requirements for type approval of aural modulation monitors. One of the requirements is that the modulation-peak indicating device be capable of reading either positive or negative swings. General Radio notes that its existing aural modulation monitors operate on positive peaks only and urges that the Commission's proposed requirement would create a serious field service problem since it would be necessary to change all existing monitors now in use so that the modulation peak indicator could be switched from positive to negative response. It is also contended that it is not generally considered significant, with frequency modulation, to be able to reverse the polarity. The rules specify a maximum frequency swing of ±25 kc. In general, the positive and negative peak swings during modulation with a complex wave, as is encountered in practice, are not identical. Therefore, if the monitor is capable of indicating only one polarity of modulation, it is quite possible that the station may unknowingly operate with overmodulation on the peaks of the other polarity. Furthermore, section 8 B (2) of the FM Standards contains the same requirements as those set out in the proposed rule. Accordingly, we are adopting the requirement as proposed, except that, until June 1, 1957, monitors having meters which read either positive or negative swings will be eligible for type approval.

11. General Radio suggests that a paragraph be added to § 3.694 (b), as proposed, which would provide for the inclusion of an auxiliary output circuit in the aural modulation monitor to provide a means of making proof-of-performance tests. While we have no objection to such circuit being built into the aural modulation monitor, we do not believe that such a circuit should be provided for specifically in the rules.

12. Section 3.687 (c) (6) prescribes the procedure to be followed when a monitor becomes defective. We have removed the text of this paragraph and have transferred the pertinent portions to the new rules dealing with frequency and modulation monitors.

13. Section 3.687 (c) (1), as proposed, requires the transmitter to have automatic means to maintain the carrier frequency within specified limits. The television rules, however, do not specify a frequency tolerance as do the rules relating to AM and FM broadcast stations. In order to be consistent, we are adopting a frequency tolerance rule (§ 3.668) for television which will require that the carrier frequency of the visual transmitter be maintained within ±1000 cycles of the authorized carrier frequency and that the carrier frequency of the aural transmitter be maintained 4.5 mc above the visual carrier frequency within ±1000 cycles. Since the tolerance requirements that we are establishing are the same as those required of transmitters under § 3.687 (c) (1) as adopted in this proceeding, we are of the view that we may adopt the new frequency tolerance requirements without further rule making proceedings.

14. Upon our careful consideration of our Notice of Proposed Rule Making, and the comments filed in the proceeding, we are of the view that the public interest, convenience and necessity would be served by the adoption of the Rules as amended herein.

15. Authority for the adoption of the amendments herein is contained in sections 4 (i), 301, and 303 (b), (f) and (r) of the Communications Act of 1934, as amended.

16. In view of the foregoing: *It is ordered*, That effective December 12, 1955, Part 3 of the Commission's rules and regulations is amended as set forth below.

(Sec. 4, 48 Stat. 1066, as amended; 47 U. S. C. 154. Interpret or apply sec. 303, 48 Stat. 1082, as amended; 47 U. S. C. 303)

Adopted: November 3, 1955.

Released: November 4, 1955.

FEDERAL COMMUNICATIONS COMMISSION,
[SEAL] MARY JANE MORRIS,
Secretary.

1. A new section is added to read as follows:

§ 3.668 *Frequency tolerance.* (a) The carrier frequency of the visual transmitter shall be maintained within ±1000 cycles of the authorized carrier frequency.

(b) The center frequency of the aural transmitter shall be maintained 4.5 megacycles, ±1000 cycles, above the visual carrier frequency.

2. Delete the text of § 3.687 (a) (9) and insert the expression (Reserved).

3. Delete the first sentence of § 3.687 (b) (7).

4. Section 3.687 (c) is amended as follows:

A. Delete subparagraph (1) and substitute the following:

(1) Automatic means shall be provided in the visual transmitter to maintain the carrier frequency within ± one kilocycle of the authorized frequency; automatic means shall be provided in the aural transmitter to maintain the carrier frequency 4.5 megacycles above the visual carrier frequency within ± one kilocycle.

B. Delete subparagraphs (5) and (6).

5. Add the following sections under a new undesignated center heading, Monitoring Equipment.

§ 3.690 *Frequency monitors.* (a) The licensee of each television broadcast station shall have in operation at the transmitter approved frequency monitors independent of the frequency control of the transmitters.

NOTE: Approved frequency monitors are included on the Commission's "Radio Equipment List, Part A, Television Broadcast Equipment." Copies of this list are available for inspection at the Commission's office in Washington, D. C., and at each of its field offices.

(b) In the event the visual or aural frequency monitor becomes defective, the station may be operated without such equipment pending its repair or replacement for a period not in excess of 60 days without further authority of the Commission: *Provided*, That:

(1) Appropriate entries shall be made in the operating log of the station to show the date and time the equipment was removed from and restored to service.

(2) The Engineer in Charge of the Radio district in which the station is located shall be notified both immediately after the equipment is found to be defective and immediately after the repaired or replacement equipment has been installed and is functioning properly.

(3) During the period when the station is operated without the visual or aural frequency monitor, the respective carrier frequency shall be compared with an external frequency source of known accuracy at sufficiently frequent intervals to insure that the frequency is maintained within the tolerance prescribed in § 3.687 (c) (1). An entry shall be made in the station log as to the method used and the results thereof.

(4) If conditions beyond the control of the licensee or permittee prevent the restoration of the monitor or monitoring equipment to service within the period specified above, an informal request in accordance with § 1.332 (d) of this chapter may be filed with the Engineer in Charge of the radio district in which the station is located for such additional time as may be required to complete repairs of the defective instrument or equipment.

§ 3.691 *Modulation monitors.* (a) The licensee of each television broadcast station shall have in operation at the transmitter an approved modulation monitor for the aural transmitter. There shall also be employed sufficient monitoring equipment for the visual signal to determine that the signal complies with this part.

NOTE: Approved aural modulation monitors are included on the Commission's "Radio Equipment List, Part A, Television Broadcast Equipment." Copies of this list are available for inspection at the Commission's office in Washington, D. C. and at each of its field offices.

(b) In the event the visual monitoring equipment or the aural modulation monitor becomes defective, the station may be operated without such equipment pending its repair or replacement for a period not in excess of 60 days without further authority of the Commission: *Provided*, That:

(1) Appropriate entries shall be made in the operating log of the station to show the date and time the equipment was removed from and restored to service.

(2) The Engineer in Charge of the radio district in which the station is located shall be notified both immediately after the equipment is found to be defective and immediately after the repaired or replacement equipment has been installed and is functioning properly.

(3) During the period when the station is operated without the aural modulation monitor or the visual monitoring equipment, the licensee shall provide other suitable means for insuring that the aural modulation is maintained

within the tolerance prescribed in § 3.687 (b) (7) and that the visual signal is maintained in accordance with the requirements of this subpart.

(4) If conditions beyond the control of the licensee or permittee prevent the restoration of the monitor or monitoring equipment to service within the period specified above, an informal request in accordance with § 1.332 (d) of this chapter may be filed with the Engineer in Charge of the radio district in which the station is located for such additional time as may be required to complete repairs of the defective instrument or equipment.

§ 3.692 *General requirements for type approval of frequency and modulation monitors.* (a) Any manufacturer desiring to submit a monitor for type approval shall supply the Commission with full specification details (two sworn copies) as well as the test data specified in §§ 3.693 and 3.694. If this information appears to meet the requirements of the rules, shipping instructions will be issued to the manufacturer. The shipping charges to and from the Laboratory at Laurel, Maryland, shall be paid for by the manufacturer. Approval of a monitor will only be given on the basis of the data obtained from the sample monitor submitted to the Commission for test.

(b) In approving a monitor upon the basis of the tests conducted by the Laboratory, the Commission merely recognizes that the type of monitor has the inherent capability of functioning in compliance with the rules, if properly constructed, maintained, and operated. The Commission realizes, that the frequency monitor may have limited range over which the visual indicator will determine deviations. Accordingly, it is necessary that adjunct equipment be used to determine major deviations.

(c) Additional rules with respect to withdrawal of type approval, modification of type approval equipment and limitations on the findings upon which type approval is based are set forth in Part 2, Subpart F, of this chapter.

(d) A monitor which is not included on the Commission's Radio Equipment List, Part A, Television Broadcast Equipment, but is in use at a television station prior to _____ may continue to be used by the licensee, his successors or assignees in business until June 1, 1957.

§ 3.693 *Requirements for type approval of frequency monitors.* (a) The specifications that frequency monitors shall meet before they will be approved by the Commission are as follows:

(1) The monitors shall have an accuracy of better than 500 cycles for 30 days under ordinary conditions (ambient, temperature from 10° centrigrade to 40° centigrade above zero, humidity from 10 percent to 95 percent relative humidity, power supply variations from 90 percent to 110 percent, and other conditions which may affect its accuracy) encountered in television broadcast stations throughout the United States.

(2) The range of the indicating device for the aural monitor shall be at least 3000 cycles below to 3000 cycles above the assigned center frequency. Alternatively, the aural monitor may use an indicating device with a similar scale to indicate the difference-frequency between the aural and visual carriers. The range of the indicating device for the visual monitor shall be at least 1500 cycles below to 1500 cycles above the assigned carrier frequency.

(3) The scale of the indicating device shall be calibrated in divisions of not more than 100 cycles.

(4) Means shall be provided for adjustment of the monitor indication to agree with an external standard.

(5) The monitors shall be capable of continuous operation and the circuits shall be such as to permit continuous monitoring of the transmitter carrier frequencies, and the difference-frequency between the visual and aural carriers if this method of measurement is used.

(6) Operation of the monitors shall have no adverse effect on the operation of either the aural or visual transmitters or the signals emitted therefrom and shall be independent of the frequency control of the transmitters.

(7) Means shall be provided for insuring power input level.

(8) General design, construction and operation shall be in accordance with good engineering practice.

(b) Tests to be made for approval of television broadcast frequency monitors. The manufacturer of a monitor shall submit data on the following at the time of requesting approval:

(1) Constancy of oscillator frequency, as measured daily for one month, or more.

(2) Constancy of oscillator frequency when subject to vibration tests which would correspond to the treatment received in shipping, handling and installing the instrument.

(3) Accuracy of reading of the frequency deviation instrument.

(4) Functioning of frequency adjustment device.

(5) Effects on frequency readings, of the changing of tubes, of voltage variations, and of variations of room temperature through a range from 10° to 40° C.

(6) Response of indicating instrument to small changes of frequency.

(7) General information on the effect of tilting or tipping or other tests to determine ability of equipment to withstand shipment.

(c) Various other tests may be made or required, such as effects of variation of input from the transmitter depending upon the character of the apparatus.

(d) Tests shall be conducted in such a manner as to approximate actual operating conditions as nearly as possible. The equipment shall be tested on the highest channel for which it is designed.

§ 3.694 *Requirements for type approval of aural modulation monitors.* (a) The required aural modulation monitor may or may not be a part of the frequency monitor.

(b) The specifications that the aural modulation monitor shall meet before it will be approved by the Commission are as follows:

(1) Means shall be provided for indicating that the signal input to the modulation monitor is in the range required for proper operations.

(2) A modulation peak indicating device shall be provided that can be set at any pre-determined value from 50 to 120 percent modulation (±25 kc swing is defined as 100 percent modulation) and for either positive or negative swings (i. e. either above or below transmitter center frequency).

(3) A quasi-peak indicator with a meter having the characteristics given below shall be used with a circuit such that peaks of modulation of duration between 40 and 90 milliseconds are indicated to 90 percent of full value and the discharge rate adjusted so that the pointer returns from full reading to within 10 percent of zero within 500 to 800 milliseconds. A switch shall be provided so that this meter will read either positive or negative swings. Until June 1, 1957, however, monitors having meters which read either positive or negative swings will be eligible for type approval.

(4) When modulation of a magnitude necessary to produce a deflection equivalent to 100 percent modulation is suddenly applied and left on, the indicating instrument shall not deflect beyond 110 percent on the first passage of the 100 percent mark and shall have excursion from the final value of less than 1 percent after one second or more.

(5) The meter scale shall be similar in appearance to that of a standard VU meter. The scale length between 0 and 100 percent modulation markings shall be at least 2.3 inches. In addition to other markings a small marker for 133 percent modulation, designated as such, should be included for the purpose of testing the transmitter with 33.3 kc swing.

(6) The indicated reading in percentage shall be accurate within ±5 (based on 100 percent modulation) at any percentage of modulation up to 100.

(7) The frequency characteristic curve as measured at 50 percent modulation shall not depart from a straight line more than ±½ db from 50 to 15,000 cycles. Distortion shall be kept to a minimum.

(8) The monitor shall not absorb appreciable power from the transmitter.

(9) Operation of the monitor shall have no adverse effect on the operation of the transmitter.

(10) General design, construction, and operation shall be in accordance with good engineering practice.

(c) Tests to be made for approval of television broadcast aural modulation monitors. The manufacturer of a monitor shall submit data on the following at the time of requesting approval:

(1) Audio frequency response of the monitor from 50 to 15,000 cycles in db from the response at 400 cycles.

(2) Distortion in the response.

(3) Input signal power required.

(4) Permissible tolerance on input signal power to keep the meter reading correct within 5 percent units.

(5) Ballistic characteristics of the monitor indicator.

(d) Various other tests may be made or required depending on the character of the apparatus.

(e) Tests shall be conducted in such a manner as to approximate actual operating conditions as nearly as possible. The equipment shall be tested on the highest channel for which it is designed.

[Docket No. 11486; FCC 55-1067]

[Rules Amdt. 8-5]

PART 8—STATIONS ON SHIPBOARD IN THE MARITIME SERVICES

CERTAIN ALASKAN MARITIME FREQUENCIES AVAILABLE FOR ASSIGNMENT UNDER INTERIM SHIP STATION AUTHORIZATION

In the matter of amendment of Part 8 of the Commission's rules with respect to specifying certain Alaskan maritime frequencies available for assignment under an interim ship station authorization.

At a session of the Federal Communications Commission held at its offices in Washington, D. C., on the 2d day of November 1955.

The Commission having under consideration the matter of amending its rules so as to specify in Part 8 thereof certain maritime frequencies which are available for use for telephony in all zones in Alaska but which are not included in Part 8 as available for assignment under an interim ship station authorization;

It appearing that in accordance with the requirements of section 4 (a) of the Administrative Procedure Act, Notice of Proposed Rule Making in this matter which made provision for the submission of written comments by interested parties, was duly published in the FEDERAL REGISTER on September 7, 1955 (20 F. R. 6564) and the period for filing comments has now expired; and

It further appearing that no comments were received with respect to the proposal; and

It further appearing that the public interest, convenience and necessity will be served by the amendments herein ordered, the authority for which is contained in section 303 (c) and (r) of the Communications Act of 1934, as amended;

It is ordered, That, effective December 7, 1955, Part 8 of the Commission's rules is amended as set forth below.

(Sec. 4, 48 Stat. 1066, as amended; 47 U. S. C. 154. Interprets or applies sec. 303, 48 Stat. 1082, as amended; 47 U. S. C. 303)

Released: November 3, 1955.

FEDERAL COMMUNICATIONS COMMISSION,
[SEAL] MARY JANE MORRIS,
Secretary.

Part 8 is amended as follows:

Section 8.369 (a) (2) is amended by adding a new subdivision (iv) to read as follows:

(iv) In addition in the Alaska area:

1622 For communication between ship stations aboard vessels of less than 500 gross tons and for communication between public ship stations on board vessels of any size and public coast stations;

2134 For communication between ship stations and coast stations of the Alaska Communications System open to public correspondence;

2382 For communication between ship stations aboard vessels of 500 gross tons or more and for communication between public ship stations on board vessels of any size and public coast stations.

[Rules Amdt. 13-3]

PART 13—COMMERCIAL RADIO OPERATORS

NEW CLASS, ADDITIONAL REQUIREMENTS

In the matter of amendment of § 13.25 of the Commission's Commercial Radio Operator Rules to exempt from the Second-Class Radiotelegraph code test certain applicants who have already passed the code test and to bring the section up to date.

At a session of the Federal Communications Commission held at its offices in Washington, D. C., on the 2d day of November 1955;

The Commission having under consideration the requirements of §§ 13.22 and 13.25 of its rules for the various classes of radio operator licenses; and

It appearing that, under § 13.22 the code test prescribed for the radiotelegraph second-class operator license is the same as for the radiotelegraph third-class operator permit; and

It further appearing that, under the Commission's rules applicants for a radiotelegraph second-class operator license who hold a radiotelegraph third-class operator permit are not given credit for previously qualifying in the code, and that they must repeat the code test in all cases; and

It further appearing that, where an applicant takes an examination for a radiotelegraph second-class operator license not more than one year after qualifying for a radiotelegraph third-class operator permit, experience has shown that it is unnecessary to redetermine his proficiency in the use of the Morse code; and

It further appearing that § 13.25 should also be brought up to date to reflect the Commission's policy of not giving examination credit for aircraft radiotelephone operator authorizations; and

It further appearing that authority for the amendment herein ordered is contained in sections 4 (i) and 303 (1) and (r) of the Communications Act of 1934, as amended; and

It further appearing that Notice of Proposed Rule Making in this matter is unnecessary because the action herein cannot adversely affect any person:

It is ordered, That, effective December 12, 1955, Section 13.25 of the Commission's rules is amended as set forth below.

(Sec. 4, 48 Stat. 1066, as amended; 47 U. S. C. 154. Interprets or applies sec. 303, 48 Stat. 1082, as amended; 47 U. S. C. 303)

Released: November 4, 1955.

FEDERAL COMMUNICATIONS COMMISSION,
[SEAL] MARY JANE MORRIS,
Secretary.

Section 13.25 is amended to read as follows:

§ 13.25 *New class, additional requirements.* The holder of a license who applies for another class of license will be required to pass only the added examination requirements for the new class of license: *Provided*, That the holder of a radiotelegraph third-class operator permit who takes an examination for a radiotelegraph second-class operator license more than one year after the issuance date of the third-class permit will also be required to pass the code test prescribed therefor: *Provided further*, That no person holding a new, duplicate, or replacement Restricted Radiotelephone Operator Permit issued upon the basis of a declaration, or a renewed restricted radiotelephone operator permit which renews a permit issued upon the basis of a declaration, or holding an aircraft radiotelephone operator authorization, or a temporary limited radiotelegraph second-class operator license shall, by reason of the declaration or the holding of such permit, authorization, or license, be relieved in any respect of qualifying by examination when applying for any other class of license.

[F. R. Doc. 55-9035; Filed, Nov. 8, 1955; 8:53 a. m.]

[Docket No. 11466; FCC 55-1071]

[Rules Amdt. 16-1]

PART 16—LAND TRANSPORTATION RADIO SERVICES

MOBILE RELAY STATION

In the matter of amendment of § 16.355 (b) (2) of Part 16 of the Commission's rules governing land transportation radio services.

At a session of the Federal Communications Commission held at its offices in Washington, D. C., on the 2d day of November 1955;

The Commission having under consideration the above-captioned matter of amending its rules to provide for the assignment of additional frequencies to mobile relay stations in railroad point-to-train mainline operations, for which type of operation only the two mobile service frequencies available to a particular railroad for its mainline operations may now be assigned on a developmental basis;

It appearing that, in accordance with the requirements of section 4 (a) of the Administrative Procedure Act, Notice of Proposed Rule Making in this matter, which made provision for submission of written comments by interested parties, was duly published in the FEDERAL REGISTER on August 4, 1955 (20 F. R. 5593)

and that the period provided for the filing of comments has now expired; and

It further appearing that the Association of American Railroads and the Southern Pacific Company submitted comments supporting the proposed amendment and requesting that certain clarifying changes be made which would distinguish between the provisions for the assignment of frequencies to mobile relay stations used in yards and terminals and those applicable to mobile relay stations used in railroad mainline operations and that the developmental status be removed from authorizations for the latter type of station; and

It further appearing that no comments have been received in opposition to the proposed amendment or in reply to the comments of the American Association of Railroads and the Southern Pacific Company; and

It further appearing that the proposed amendment was intended to provide only for mobile relay stations used in point-to-train mainline operations without changing the provisions presently in effect governing the operation of such stations when used in yard and terminal operations; and

It further appearing that the adoption of this amendment necessitates revising the definition of Mobile Relay Station (§ 16.6 (q)) and requires editorial changes in § 16.355 (b) (1); and

It further appearing that it is desirable to continue authorizing mobile relay point-to-train operations in the Railroad Radio Service on a developmental basis in order to gain more information and experience relative to this type of operation, especially since additional frequencies are being made available therefor; and

It further appearing that the authority for the amendments herein ordered is contained in sections 4 (i), 303 (b), (c) and (r) of the Communications Act of 1934, as amended, and that these amendments will relieve an existing restriction and may, therefore, be made effective immediately:

It is ordered, That, effective immediately, Part 16 of the Commission's rules is amended as set forth below; and

It is further ordered, That the petitions of the Southern Pacific Company and the Association of American Railroads filed February 15, 1955, and March 2, 1955, respectively, requesting modification of the policy governing the assignment of frequencies to Mobile Relay stations in the Railroad Radio Service, are granted insofar as they requested that the Commission's rules be amended to permit the assignment of an additional mobile service frequency to mobile relay stations used in point-to-train mainline operations and denied, for the reasons set forth herein, insofar as they requested that point-to-train mobile relay operations be authorized on a regular basis.

(Sec. 4, 48 Stat. 1066, as amended; 47 U. S. C. 154. Interpret or apply sec. 303, 48 Stat. 1082, as amended; 47 U. S. C. 303)

Released: November 4, 1955.

FEDERAL COMMUNICATIONS COMMISSION,
[SEAL] MARY JANE MORRIS,
Secretary.

Part 16 is amended as follows:

1. Delete the present text of § 16.6 (q) and substitute the following:

(q) *Mobile relay station.* A base station in the Mobile Service, authorized primarily to retransmit automatically on a mobile service frequency communications originated either by mobile units or by an associated operational fixed (control) station operated on either a fixed service frequency or the mobile service frequency assigned to the associated mobile station. (Authorized in the Railroad Radio Service only.)

2. Delete the present text of § 16.355 (b) (1) and (2) and substitute the following:

(1) Each application for a new mobile relay station authorization shall be accompanied by a satisfactory showing that the applicant has a substantial requirement for prompt mobile-to-mobile or extended range point-to-train communications over ranges greater than can be realized consistently by direct communication on the frequency presently assigned, or in the case of a proposed new radio system, on any available frequency. Except for radio systems in railroad yard and terminal areas, range measurements obtained by use of low-power transmitters of the hand-carried or pack-carried type will not be accepted in satisfaction of the applicable requirements of this subparagraph. Authorizations for mobile relay stations to be used in railroad mainline operations to extend the range of point-to-train communications shall be granted only on a developmental basis.

(2) A mobile relay station may be authorized to operate on any mobile service frequency available for assignment to base stations except that mobile relay stations used for the purpose of extending the range of point-to-train communications in mainline operations will be authorized to operate only on the frequencies assigned to a particular railroad for its mainline (point-to-train and end-to-end) operations; *Provided, however*, That where a mobile relay station is to be used to extend the range of point-to-train communications, the Commission may authorize the use of an additional mobile service frequency allocated to the Railroad Radio Service when it is shown that: (i) Mobile relay operations cannot be satisfactorily conducted on the frequencies assigned to mainline operations, (ii) the additional mobile service frequency will be used only in areas where, due to terrain or weather, hazardous railroad operating conditions prevail and no other satisfactory communication facilities exist or are practical to construct or maintain to the point where mobile relay stations are proposed to be established and (iii) no harmful interference will result to other stations in the Railroad Radio Service.

[F. R. Doc. 55-9036; Filed, Nov. 8, 1955; 8:54 a. m.]

PROPOSED RULE MAKING

DEPARTMENT OF LABOR

Wage and Hour Division

[29 CFR Part 541]

DEFINING AND DELIMITING TERMS "ANY EMPLOYEE EMPLOYED IN A BONA FIDE EXECUTIVE, ADMINISTRATIVE, PROFESSIONAL, OR LOCAL RETAILING CAPACITY, OR IN THE CAPACITY OF OUTSIDE SALESMAN"

NOTICE OF HEARING

Section 13 (a) (1) of the Fair Labor Standards Act, as amended, provides an exemption from the minimum wage and overtime requirements for any employee employed in a bona fide executive, administrative, or professional capacity, as such terms are defined and delimited by regulations of the Administrator. Pursuant to this authority, regulations, Part 541 were last amended effective January 25, 1950. Among other requirements, these regulations require that executive employees must be paid not less than $55 a week on a salary basis, and that administrative and professional employees must be paid not less than $75 a week on a salary or fee basis. The regulations also contain special provisions for such employees who are paid $100 a week or more.

Experience in administering these regulations, in light of changes in economic conditions which have taken place since the effective date of the amended regulations, particularly the widespread increases in wage and salary levels, indicate that consideration should be given to further amendment of the regulations.

Accordingly, notice is hereby given of a public hearing to be held beginning on Monday, December 12, 1955, at 10 a. m. in Conference Room B, Departmental Auditorium, Constitution Avenue, between Twelfth and Fourteenth Streets NW., Washington, D. C., before a representative of the Administrator, at which interested persons may submit data, views, or arguments on the following question:

What, if any, changes should be made in the provisions contained in §§ 541.1 (f), 541.2 (e) and 541.3 (e) of the regulations with respect to the level of the salaries required for exemption as executive, administrative, and professional employees (except for Puerto Rico and the Virgin Islands)?

All persons wishing to be heard on this question shall file with the Administrator of the Wage and Hour Division, United States Department of Labor, Fourteenth and Constitution Avenue NW., Washington 25, D. C., not later than December 1, 1955, notice of intention to appear which shall contain the following information:

1. Name and address of the person appearing.

2. If such person is appearing in a representative capacity, the name and address of the persons or organizations he is representing.

3. Whether he is appearing in support of a change in the salary levels and if so, the nature of the change suggested.

4. The approximate length of time requested for his presentation.

Written data, views, or arguments may be filed in lieu of personal appearances at any time prior to or at the hearing.

In connection with the question presented above interested parties are requested to submit, prior to or at the hearing, the following kinds of data:

1. Salaries currently paid to executive, administrative, and professional employees, including the entrance salaries, prevailing minimum salaries and the range.

2. Entrance salaries paid to trainees and junior executive, administrative, and professional employees.

3. Wages or salaries of white collar employees, particularly clerical:

(a) Typists, stenographers, secretaries.

(b) Clerks, accounting clerks, payroll clerks, bookkeepers.

(c) Accountants of various grades.

4. Salary increases to employees in 1, 2 and 3 above since 1949, in dollars or in percentage increase.

5. For the purpose of properly evaluating the information given above, information should be submitted identifying the locality, type of community and the industry involved in the data presented.

6. Any other information relating to the appropriate level of the salary requirements in the Regulations, Part 541, under current conditions.

A report entitled "Earnings Data Pertinent to a Review of the Salary Tests for Executive, Administrative and Professional Employees, as Defined in Regulations Part 541" is being prepared by the Division. This report may be examined at the office of the Wage and Hour and Public Contracts Divisions, Room 5133, United States Department of Labor, Fourteenth and Constitution Avenue NW., Washington, D. C., after November 15, 1955. Copies will be distributed upon request after that date as long as the available supply lasts.

Signed at Washington, D. C., this 3d day of November 1955.

NEWELL BROWN,
Administrator,
Wage and Hour Division.

[F. R. Doc. 55-9028; Filed, Nov. 8, 1955; 8:51 a. m.]

[29 CFR Part 545]

HOMEWORKERS IN THE NEEDLEWORK AND FABRICATED TEXTILE PRODUCTS INDUSTRY IN PUERTO RICO

NOTICE OF PROPOSED AMENDMENT

Notice is hereby given, pursuant to the Administrative Procedure Act (60 Stat. 237), that the Administrator of the Wage and Hour Division, United States Department of Labor, proposes to amend 29 CFR 545.13, providing piece rates for the needlework and fabricated textile products industry in Puerto Rico (1) by the addition to Schedule–A of piece rates applicable to the silk, rayon and nylon (except infants') underwear division, and (2) by the addition of Schedule–E, containing the piece rates applicable to the general division. Both of these sets of additions are set out in the attachment hereto. Prior to the final adoption of these amendments, consideration will be given to any data, views, or arguments, pertaining thereto, which are submitted in writing to the Office of the Administrator, Wage and Hour Division, United States Department of Labor, Washington, D. C., within 15 days from publication hereof in the FEDERAL REGISTER.

A wage order which fixed the minimum hourly wage rates to which these piece rates are related became effective October 6, 1955, and an order making final other proposed piece rates related to the same industry is being published today to become effective December 9, 1955. It is in the public interest for all piece rates for this industry to become effective at the same time and as soon after the revised wage order hourly rates as practicable. For these reasons I find it contrary to the public interest to provide more than 15 days notice of this proposed amendment, and I intend to find good cause to shorten the period prior to the effective date of any final order on this proposal to make the piece rates effective December 9, 1955.

These amendments are to be issued pursuant to authority under the Fair Labor Standards Act of 1938, as amended (52 Stat. 1060, as amended 29 U. S. C. 201 et seq.).

Signed at Washington, D. C., this 3d day of November 1955.

NEWELL BROWN,
Administrator,
Wage and Hour Division.

§ 545.13 *Piece rates established in accordance with § 545.9.*

SCHEDULE A—PIECE RATE SCHEDULE FOR THE SILK, RAYON AND NYLON (EXCEPT INFANTS') DIVISION OF THE NEEDLEWORK AND FABRICATED TEXTILE PRODUCTS INDUSTRY IN PUERTO RICO

No.	Operation	Piece rates based on hourly rate of 26 cents	Unit of Payment
	HAND-SEWING OPERATIONS [1]	*Cents*	
1	Arenilla (seed stitch), close, ½" squares	31.20	Per dozen squares.
2	Arenilla (seed stitch), scattered, ½" squares	15.60	Do.
3	Arrows, filled in, ¼"	7.80	Per dozen.
4	Back stitch on yokes, armholes, etc.	17.33	Per yard.
5	Basting bias with cord	8.58	Do.
6	Basting darts before sewing	9.04	Do.
7	Basting for fagoting	2.35	Do.
8	Basting hems, 1" to 6" wide	5.20	Do.
9	Basting lace	4.49	Do.
10	Basting waist lines, plackets and facings, 2 to 3 stitches per inch	3.26	Do.
11	Bias piping, joined, double, over 10 stitches per inch	10.40	Do.
12	Bias piping, joined, single, over 10 stitches per inch	13.00	Do.
13	Bias piping, second seam, joined, double, set flat on garment with running stitch.	15.66	Do.
14	Blanket stitch, folding included, 18 stitches per inch	29.46	Do.
15	Buttons sewed on with double thread, 2 to 3 stitches	3.39	Per dozen.
16	Buttonholes, stamped, ¾" long	11.20	Do.
17	Buttonholes, stamped, ½" long	14.91	Do.
18	Buttonhole stitch, close	23.40	Per yard.
19	Buttonhole stitch for joining seams	23.40	Do.
20	Cord, twisted, over basting	2.60	Per dozen inches.
21	Cutting material applied over lace with solid cord stitch	3.55	Per yard.
22	Cutting material under lace or at seams, straight outline, following hand-sewing operation.	1.46	Do.
23	Dots, Baby, not finished off, 2 to 3 stitches	2.17	Per dozen.
24	Dots, medium, not filled in, finished off, 8 to 9 stitches	3.44	Do.
25	Eyelets, up to 3/16" diameter	5.79	Do.
26	Eyelets, 3/16" diameter	10.40	Do.
27	Fagoting, straight lines	36.21	Per yard.
28	Fagoting, twisted lines	17.33	Do.
29	Feather stitch, 12 stitches per inch	17.33	Do.
30	Feather stitch cord	9.12	Do.
31	Flat fell seams, first seam by machine	10.15	Do.
32	Flat roll	7.89	Do.
33	French knots, not finished off	1.09	Per dozen.
34	French seams, over 12 stitches per inch	6.50	Per yard.
35	French seams, first seam by machine, 9 to 12 stitches per inch	4.27	Do.
36	Furunecos, with tape	43.33	Do.
37	Furunecos, without tape	31.20	Do.
38	Guariquenas	2.60	Per dozen.
39	Half roll	8.52	Per yard.
40	Hemming stitch for felling, 2 to 3 stitches per inch	4.56	Do.
41	Hemming stitch for felling cuffs, collars, plackets and waist bands, 8 to 10 stitches per inch.	11.62	Do.
42	Hemstitching, double, (tru-tru), 4 threads in a bundle, thread drawing not included.	32.24	Do.
43	Hemstitching, single, 4 threads in a bundle, thread drawing not included.	16.92	Do.
44	Lace, joined with whipping stitch	27.09	Do.
45	Lace, sewed on with hemming stitch or round roll	13.00	Do.
46	Leaves, open ¼" long	10.40	Per dozen.
47	Leaves, open ⅜" to ½" long	15.60	Do.
48	Leaves, simple	.98	Do.

See footnote at end of table.

60	Pin stitch, thread drawing not included, 1" squares	62.40	Per dozen squares.
61	Point de turc, double, with embroidery thread	25.89	Per yard.
62	Point de turc, plain, with embroidery thread	15.17	Do.
63	Randa, bundles twisted but not tied, thread drawing not included	6.50	Do.
64	Randa, Don Gonzales, thread drawing not included	27.29	Do.
65	Randa, Mexican, tied at center only, thread drawing not included	7.80	Do.
66	Ribbons, setting ends of	3.55	Per dozen.
67	Rolling armholes and roboques	13.28	Per yard.
68	Rose buds, worm stitch, 4 worms, 1 or 2 colors or tones	7.71	Per dozen.
69	Running stitch on darts, 8 to 20 stitches per inch	6.50	Per yard.
70	Running stitch for felling, very close stitch	6.50	Do.
71	Running stitch on hems up to 1" wide, 12 stitches per inch	7.00	Do.
72	Running stitch on lace	6.91	Do.
73	Running stitch for plain sewing	4.69	Do.
74	Scallops, plain, cutting included	26.17	Do.
75	Shadow stitch, up to ⅜" wide	50.26	Do.
76	Shell stitch, 4 to 5 stitches per inch	8.92	Do.
77	Shirring, material to be measured before shirring	5.22	Do.
78	Shirring and basting lace edging, material to be measured after shirring.	6.30	Do.
79	Shirring and setting lace edging with hemming stitch on straight outline, material to be measured after shirring.	11.32	Do.
80	Shoulder straps, set with buttonhole stitch 14½" x ¼", measured after turning, sewing up to ¾" at each end of strap.	30.73	Per dozen straps.
81	Size tickets set with hemming stitch, cutting tickets included	5.20	Per dozen inches.
82	Smocking	.22	Per dozen stitches.
83	Snaps, sewing on, both sides	5.20	Per dozen.
84	Solid cord stitch on gores and embroidery	24.44	Per yard.
85	Solid cord stitch to sew on lace	22.10	Do.
86	Spiders, 4 legs	5.20	Per dozen.
87	Spiders, 8 legs	10.16	Do.
88	Tacks, set for fagoting	2.60	Do.
89	Tucks, stamped, 1/16" to ⅛" wide, up to 6" long	8.13	Do.
90	Tucks, pin, stamped, up to 7" long	8.57	Do.
91	Tucks, pin, unstamped, up to 6" long	10.40	Do.
	NON-HAND-SEWING OPERATIONS		
93	Cutting material under lace, or at seams, straight outline, following machine operations.	2.68	Per yard.
94	Turning bolts, machine sewn, 29" x ½", measured after turning	11.17	Per dozen bolts.
95	Turning bolts, machine sewn, 60" x ½", measured after turning	14.19	Do.
96	Turning shoulder pads, 5¾" long, with an unsewn slit, of 1" for turning.	7.27	Per dozen pads.
97	Turning shoulder straps, 14½" x ¼", measured after turning	22.24	Per dozen straps.

[1] For description of operations included under "hand-sewing", see definitions in applicable section of wage order.

SCHEDULE E—PIECE RATE SCHEDULE FOR THE GENERAL DIVISION OF THE NEEDLEWORK AND FABRICATED TEXTILE PRODUCTS INDUSTRY IN PUERTO RICO[1]

No.	Operation	Piece rates based on hourly rate of 45 cents	Unit of Payment
	CROCHETING SHADE PULLS, NOT OVER 30 STITCHES PER RING		
207	Cotton thread	$1.44	Per gross.
208	Nylon thread	1.47	Do.

[1] The piece rates apply only to "hand-sewing" operations. For description of operations included under "hand-sewing", see definition in applicable section of wage orders.

CIVIL AERONAUTICS BOARD

[14 CFR Part 27]

AIRCRAFT DISPATCHER CERTIFICATES

NOTICE OF INSTITUTION OF RULE-MAKING PROCEEDINGS

Notice is hereby given that the Bureau of Safety Regulation is instituting rule-making proceedings by circulating Draft Release No. 55-22 to persons on the Bureau's current distribution list. Other interested persons may secure a copy of this draft release upon request made to the Civil Aeronautics Board, attention Bureau of Safety Regulation, Washington 25, D. C. This draft release contains a proposed general revision of Part 27 of the Civil Air Regulations containing, among other things, modifications of certain of the experience requirements for the issuance of an aircraft dispatcher certificate. This proposal is being circulated as the first step in the rule-making process in the hope that it will serve to narrow or eliminate the areas of substantive difference between interested persons as to the adequacy or the desirability of the proposed rule.

The Bureau desires that all persons who will be affected by the requirements of this proposal be given an opportunity to participate in the consideration of these rules and to submit such comment as they may desire not only in the final rule-making stage, but throughout the entire rule-making process. Draft Release No. 55-22 requires that comment be submitted on or before February 10, 1956. If the nature of the comment is such that a discussion between the Board's staff and interested members of the public would be of constructive assistance in the further development of the proposed rules, all interested parties will be invited to participate in such a discussion to be held in Washington, D. C. Notice of the time and place of such a meeting, together with advance documentation, will be circulated to persons who have signified their interest prior to February 10, 1956.

Since it is intended that the rule as finally evolved as a result of the foregoing procedure will be published in its entirety as a notice of proposed rule making, interested persons who do not care to participate in the rule-making proceedings at this stage will have a further opportunity for commenting thereon.

The foregoing procedure is proposed under the authority of Sec. 4 of the Administrative Procedure Act, and Title VI of the Civil Aeronautics Act of 1938, as amended.

(Sec. 205 (a), 52 Stat. 984; 49 U. S. C. 425 (a). Interpret or apply secs. 601-610, 52 Stat. 1007-1012, as amended; 49 U. S. C. 551-560)

Dated at Washington, D. C., October 31, 1955.

By the Bureau of Safety Regulation.

[SEAL] JOHN M. CHAMBERLAIN, *Director.*

[14 CFR Part 226]

[Economic Regulations Draft Release 78]

FREE AND REDUCED-RATE TRANSPORTATION TO BOARD EMPLOYEES TRAVELING ON OFFICIAL BUSINESS

NOTICE OF PROPOSED RULE-MAKING

NOVEMBER 7, 1955.

Notice is hereby given that the Civil Aeronautics Board has under consideration the adoption of new Part 226 of its Economic Regulations designed to clarify the legal status of a voluntary offer, made by any air carrier engaged in interstate air transportation, to furnish free or reduced-rate transportation to Board personnel traveling on official business for the Board. Proposed Part 226 also adds such personnel to the category of persons who may be furnished preferential rate transportation, pursuant to the provisions of section 403 (b) of the act applying to overseas or foreign air transportation.

The principal features of the proposed regulation are explained in the attached Explanatory Statement and the proposed new Part 226 is set forth in the attached proposed rule.

Interested persons may participate in the proposed rule-making through submission of written data, views or arguments pertaining thereto, in triplicate, addressed to the Secretary, Civil Aeronautics Board, Washington 25, D. C. All relevant matter in communications received on or before December 9, 1955, will be considered by the Board before taking final action on the proposed rule.

(Sec. 205, 52 Stat. 984; 49 U. S. C. 425. Interpret or apply secs. 403, 404, 405, 52 Stat. 992, 993, 994; 49 U. S. C. 483, 484, 485)

By the Civil Aeronautics Board.[1]

[SEAL] M. C. MULLIGAN, *Secretary.*

Explanatory statement. While the Board has, in Part 224 of the Economic Regulations, required air carriers to provide free transportation to any duly authorized official or employee of either the Board or the Administrator of Civil Aeronautics who has been assigned to the duty of inflight safety inspection, it has never promulgated any regulations dealing with the matter of free or reduced-rate transportation offered voluntarily by air carriers to Board personnel while on other official duties. Thus, the proposed rule presents a question of first impression concerning the Board's powers in this sphere.

There is a vital difference between the assertion of a legal power in the Board to compel air carriers to furnish free or reduced-rate air transportation and the question of whether an air carrier, voluntarily furnishing such transportation, is in violation of the law.

The Act does not contain any express prohibition against the offering of free transportation to Board personnel. Therefore, it is necessary to consider the dual-headed question of whether any general term of the Act operates to preclude the voluntary furnishing of such transportation or whether such result is prohibited by necessary implication in any provision of the Act.

The sections of the Act which bear upon the problem are sections 403 and 404. Section 403, which requires the filing, posting and observance of tariffs by air carriers and prohibits rebating of any kind, contains the following provision:

Section 403 (b) "• • • Nothing in this Act shall prohibit such air carriers or foreign air carriers, under such terms and conditions as the Authority (Board) may prescribe, from issuing or interchanging tickets or passes for free or reduced-rate transportation to their directors, officers, and employees and their immediate families; witnesses and attorneys attending any legal investigation in which any such air carrier is interested; persons injured in aircraft accidents and physicians and nurses attending such persons; and any person or property with the object of providing relief in cases of general epidemic, pestilence, or other calamitous visitation; and, in the case of overseas or foreign air transportation, to such other persons and under such other circumstances as the Authority (Board) may by regulation prescribe."

It is clear from this provision that preferential rates may be granted, subject to such terms and conditions as the Board may prescribe, to the persons enumerated in the foregoing quotation and, in the case of overseas or foreign air transportation only, to such additional classes of traffic as may be specified by the Board.

It is also apparent that if authority for free and reduced rates for Board personnel in interstate air transportation is to be found, it must be found elsewhere, since the authority of the Board to add to the class of persons covered by this provision is limited to overseas and foreign air transportation.

The absence of this specific power is not, however, determinative of the question. So far as section 403 is concerned, it is primarily mechanical in its operation. Tariffs must be filed and observed and no privilege may be extended to any person except those specified in the tariff. Once such provision is made, section 403 is satisfied. Accordingly, the Board is of the opinion that so long as provision is made in the duly filed tariffs of an air carrier for free or reduced rates to Board personnel, no violation of the provisions of section 403 would be involved.

The question of whether the voluntary furnishing of free or reduced-rate transportation to Board personnel is an undue or unreasonable preference within the meaning of section 404 (b) is a far more difficult question. Certainly a privilege in fact is being extended to the Board itself, if not to its personnel; and the Board like other Government agencies is a "person" within the meaning of section 404.

However, even though a privilege is extended, it is not unlawful unless it is undue or unreasonable.

If this provision of the Act is interpreted as a strict "rule of equality" a difference in treatment between one class of traffic and another can only be justified by varying intrinsic conditions of carriage. Obviously, there are no such differences in the travel facilities and accommodations accorded Board personnel and other airline passengers. However, this circumstance is by no means determinative, and the Board has twice rejected such a literal view of section 404 (b) (Free and Reduced-Rate Transportation Case, 14 CAB 481 (1951) Tour Basing Fares Case, 14 CAB 257 (1951)).

These holdings find support in the fact that the U. S. Supreme Court has held that competition between carriers may, under some circumstances, constitute a justification for the charging of different rates for like and contemporaneous service between the same points despite the absence of any intrinsic differences in the conditions of carriage. (Eastern-Central Motor Carriers Assn. v. United States, 321 U. S. 194 (1944); Barringer & Co. v. United States, 319 U. S. 1 (1942); Texas and Pacific R. R. v. I. C. C., 162 U. S. 197 (1895)).

The Board is of the opinion that if a difference in treatment promotes the public interest, when tested by the general policy considerations of the act, to an extent sufficient to outweigh the objectionable inequality the resulting preference will be neither undue nor unreasonable. In making any such determination of public interest, the Board would necessarily have to take into account many factors, including the effect of the practice upon the financial condition of the carriers, the directness of the benefits accorded air transportation generally, and the adequacy of controls to the end that such privilege is not abused.

The Board is unable to find that the furnishing of free or reduced-rate transportation to the Government as a whole would be in the public interest. The Federal Government is by far the largest user of air transportation in the country, and any substantial curtailment of the revenues accruing from such transportation would soon jeopardize the financial integrity of many air carriers. Moreover, with the exception of the Civil Aeronautics Administration and the Post Office Department, the governmental functions of other agencies of the Government, even though they may relate to aviation in its broader aspects, are not directly and intimately concerned with the carrying out of the declaration of policy in section 2 of the Civil Aeronautics Act. Lastly, the Board has no effective means of requiring reports to be made to it by other governmental agencies as to the extent and nature of the use of any such free or reduced-rate transportation privileges, and thus cannot assure that these statistics will be made a matter of public record.

The Board, however, stands on a different footing. All functions which it performs are directly related to and are governed by the declaration of policy in the Civil Aeronautics Act. There is no doubt that the performance of these functions and the activities necessarily connected therewith are directly related to the specific public interest delineated in the Act.

Moreover, there is a strong interest on the part of air carriers generally in having the personnel of the regulatory body governing their industry familiar with the practical details of their day-to-day operations.

Free or reduced-rate transportation to Board personnel traveling on official business would not constitute a drain on any carrier's treasury, jeopardize the financial condition of any carrier, or otherwise adversely affect air transportation in general. Because of the relatively small number of its personnel (618), only a minor percentage of whom will be traveling on official business, little or no adverse effect will be felt by any carrier voluntarily offering to furnish free or reduced-rate transportation.

It must also be borne in mind that the decision as to whether to file tariffs providing for such transportation will remain with the management of the carriers themselves. (However, once such tariffs are on file, the carrier must furnish in accordance therewith free or

[1] Statement of Dissent of Member Chan Gurney filed as part of the original document.

reduced-rate transportation to such persons as may be designated by the Board for the travel which has been requested.) Management, acting in the best interests of the company it represents, will decide whether the grant of free or reduced-rate transportation to Board personnel on official business is in the best interest of its airline.

Lastly, the Board itself will have full control over the use of any such privilege by its personnel, and reports of its personnel using such transportation can and will be made open for public inspection.

One further consideration requires mention. Under section 405 (m) of the Act, Congress specifically required air carriers to furnish free transportation to duly accredited agents and officers of the Post Office Department while traveling on official business relating to the transportation of mail by aircraft, as the Board might by regulation prescribe. The obligation imposed by this section is of a different nature than the privilege of offering free or reduced-rate transportation to Board personnel. Because of its limitation to Post Office officials, it cannot be construed as extending to other Government personnel, including Board personnel, in its mandatory form even though to some degree the Board under Reorganization Plan 10 now fulfills certain former functions of the Post Office Department (those relating to the subsidy element of mail pay). However, the Board believes that section 405 (m) is an express recognition by the Congress that the voluntary furnishing of free or reduced-rate transportation to an agency directly concerned with air transportation matters is not an undue or unreasonable preference.

In the case of overseas and foreign air transportation there is, as noted above, express authority on the part of the Board in Section 403 (b) of the Act to authorize the offering of free or reduced-rate transportation. In view of this specific authority the Board intends to act pursuant to that section in connection with the overseas and foreign transportation aspects of this regulation, although the reasons for such action are the same as in the case of interstate air transportation, and the exercise of the privilege in each case will be subject to the same requirements. The Board proposes, in section 226.4 of the attached regulation, to exercise this power so as to add Board personnel traveling in the course of their official duties to the eligible class of persons specified in section 403 (b).

§ 226.1 *Definitions.* (a) "Official duties" shall encompass all duties a member, officer or employee of the Board is officially directed to perform in the discharge of any function vested in the Board under the provisions of the Civil Aeronautics Act of 1938, as amended.

(b) "Free transportation" means the carriage by a carrier subject to the provisions of this part of any member, officer or employee of the Board without compensation therefor, in accordance with the applicable filed tariff rules of such carrier governing transportation of such personnel while traveling in the course of their official duties.

(c) "Reduced-rate transportation" means the carriage by a carrier subject to the provisions of this part of any member, officer or employee of the Board for a compensation specified in the applicable file tariff rules of such carrier governing transportation of such personnel while traveling in the course of their official duties, which compensation is less than that specified in the otherwise applicable tariff rate of the carrier.

§ 226.2 *Applicability.* This part applies to any air carrier engaged in air transportation in respect of such transportation, and to any foreign air carrier engaged in foreign air transportation in respect of such transportation.

§ 226.3 *Determination of public interest regarding air transportation.* The Board, upon a review of all the considerations set forth in the preamble (for this draft release, entitled Explanatory Statement) to this regulation determines that the furnishing of free or reduced-rate transportation subject to the provisions of this part to duly accredited members, officers and employees of the Board is in the public interest, and concludes that the furnishing of such transportation would not under its interpretation of the Act constitute an undue or unreasonable preference or advantage within the purview of section 404 (b) thereof.

§ 226.4 *Permissive authorization to furnish overseas and foreign air transportation.* Subject to compliance with the other provisions of this part, any air carrier which is authorized to engage in overseas air transportation and any air carrier or foreign air carrier authorized to engage in foreign air transportation, may provide transportation (in accordance with such authorization) free or at a reduced rate to duly accredited members, officers or employees of the Board.

§ 226.5 *Tariffs to be filed.* No carrier shall furnish any free or reduced-rate transportation pursuant to this part unless its governing tariffs, on file with the Board, expressly provide therefor.

§ 226.6 *Provisions required to be included in all tariffs filed.* Each and every tariff filed in order to permit an air carrier or foreign air carrier to furnish free or reduced-rate transportation pursuant to this part shall include the requirements that the person seeking such transportation present to the appropriate agent of the carrier: (a) A certificate identifying such person as being entitled to such carriage, which certificate shall be signed by the Executive Director of the Civil Aeronautics Board and (b) two executed copies of CAB Form No. __, "Request for free or Reduced-Rate Transportation for Board Personnel Traveling in the Course of Official Duties."

§ 226.7 *Reports of use of free transportation by Board personnel to be public documents.* Copies of all CAB Form No. ____ which have been issued and against which free or reduced-rate transportation has been furnished in accordance with the provisions of this part, shall be maintained in the office of the Secretary of the Board and shall be open to public inspection upon reasonable request therefor.

§ 226.8 *Separability.* If any provision of this part or the application thereof to any air transportation, person, class of persons, or circumstances is held invalid, the remainder of the part and the application of such provisions to other air transportation, persons, classes of persons, or circumstances shall not be affected thereby.

FEDERAL COMMUNICATIONS COMMISSION

[47 CFR Part 18]

[Docket No. 11442]

INDUSTRIAL, SCIENTIFIC AND MEDICAL SERVICE

INDUSTRIAL HEATING EQUIPMENT

In the matter of amendment of Part 18 to establish a type acceptance procedure for industrial heating equipment and in general to reorganize the regulations applicable to industrial heating equipment.

The Commission having under consideration a notice of proposed rule making in the above-entitled matter adopted on July 6, 1955 (20 F. R. 5018), providing that written comments in connection therewith be filed by interested parties on or before August 15, 1955; and

It appearing that as a result of a petition filed by Westinghouse Electric Corporation the time for filing comments was extended to November 15, 1955; and

It further appearing that the Commission has recently received several requests for a further extension of time within which to present comments with respect to Item 6 of the Notice of Proposed Rule Making which contemplates the addition of a new subpart entitled "Industrial Heating Equipment", including a request from the Committee on Induction and Dielectric Heating of the American Institute of Electrical Engineers. This Committee pleads that it is in the midst of a test program to gather engineering information pertinent to many of the changes contemplated by the proposed rule making and that the tests cannot be completed prior to March 15, 1956 nor can the data be analyzed and an engineering recommendation formulated prior to May 15, 1956.

It further appearing that no specific request has been received for additional time to comment on the remainder of the amendments proposed in the mentioned Notice of Proposed Rule Making; and

It further appearing that the public interest would be served by granting the additional time requested for gathering and analyzing such technical data as may be pertinent to this proceeding:

It is ordered, This 4th day of November 1955 that the date for filing comments with respect to Item 6 of the Commission's Notice of Proposed Rule Making which item proposes the addition of a new subpart entitled, "Industrial Heating Equipment", is hereby extended to May 15, 1956.

Released: November 4, 1955.

FEDERAL COMMUNICATIONS COMMISSION,
[SEAL] MARY JANE MORRIS,
Secretary.

NOTICES

DEPARTMENT OF AGRICULTURE

Office of the Secretary

NEW YORK

DESIGNATION OF AREAS FOR PRODUCTION EMERGENCY AND ECONOMIC EMERGENCY LOANS

For the purpose of making production emergency loans pursuant to section 2 (a) of Public Law 38, 81st Congress (12 U. S. C. 1148a-2 (a)), as amended, it has been determined that in the following named additional counties in the State of New York a production disaster has caused a need for agricultural credit not readily available from commercial banks, cooperative lending agencies, or other responsible sources.

Pursuant to the delegations of authority from the Administrator, Federal Civil Defense Administration (18 F. R. 4609; 19 F. R. 2148; and 19 F. R. 5364), and for the purpose of making economic emergency loans pursuant to section 2 (b) of Public Law 38, 81st Congress (12 U. S. C. 1148a-2 (b)), as amended by Public Law 115, 83d Congress, it has been determined that the following named additional counties in the State of New York are within the area affected by the major disaster occasioned by hurricanes and flood as determined by the President on August 22, 1955, as amended on October 17, 1955, pursuant to Public Law 875, 81st Congress (42 U. S. C. 1855 et seq.). It has also been determined that an economic disaster exists in said counties that has caused a need for agricultural credit that cannot be met for a temporary period from commercial banks, cooperative lending agencies, the Farmers Home Administration under its regular loan programs, or other responsible sources.

STATE OF NEW YORK

Albany.	Montgomery.
Delaware.	Schoharie.
Greene.	

Pursuant to the authority set forth in this document, production emergency and economic emergency loans may be made to new applicants in said counties through December 31, 1956. Thereafter, production emergency loans and economic emergency loans may be made in such counties only to borrowers indebted for such loans.

Done at Washington, D. C., this 4th day of November 1955.

[SEAL] TRUE D. MORSE,
Acting Secretary.

[F. R. Doc. 55-9049; Filed, Nov. 8, 1955; 8:57 a. m.]

OREGON

DESIGNATION OF AREAS FOR PRODUCTION EMERGENCY LOANS

For the purpose of making production emergency loans pursuant to section 2 (a) of Public Law 38, 81st Congress, as amended, it is determined that in the following named additional counties in the State of Oregon a production disaster has caused a need for agricultural credit not readily available from commercial banks, cooperative lending agencies, or other responsible sources.

STATE OF OREGON

Clackamas.	Washington.
Marion.	Yamhill.

Pursuant to the authority as set forth above, such loans will not be made in the State of Oregon after June 30, 1956, except to borrowers who previously received such assistance.

Done at Washington, D. C., this 4th day of November 1955.

[SEAL] TRUE D. MORSE,
Acting Secretary.

DEPARTMENT OF COMMERCE

Bureau of the Census

NOTICE OF CONSIDERATION FOR SURVEYS

Notice is hereby given that the Bureau of the Census is considering a proposal to conduct the annual surveys covering 1955 listed below, under the Authority of Title 13, United States Code, section 181, approved August 31, 1954. These surveys are significant in the manufacturing area and on the basis of information and recommendations received by the Bureau of the Census, the data have significant application to the needs of the public and industry and are not available from non-Governmental or other Governmental sources.

The establishments covered by these surveys directly employ more than 17 million persons. The information to be developed from these surveys is necessary to an adequate measurement of total industrial production. Government agencies need data on the output of these industries. Manufacturers in the industries involved, as well as their suppliers and customers and the general public, have all requested such data in the interest of business efficiency and stability.

Such surveys, if conducted, shall begin not earlier than 30 days after publication of this notice in the FEDERAL REGISTER.

Report forms in most instances furnishing data on shipments and/or production and in some instances on stocks, unfilled orders, orders booked, consumption, etc., will be required of all establishments engaged in the production of the items covered by the following list of surveys with the exception of the Annual Survey of Manufactures which will be conducted on a sample basis and which calls for general statistical data such as employment, payroll, man-hours, capital expenditures, cost of materials consumed, etc., in addition to information on products shipped, and the lumber and household furniture surveys which will also be conducted on a sample basis.

Annual survey of manufactures.
Stocks of wool (as of April 1, 1956).
Cotton and synthetic woven goods finished.
Knit cloth.
Woolen and worsted machinery activity.
Gloves and mittens.
Apparel.
Shoes and slippers.
Softwood plywood.
Softwood veneer.
Red cedar shingles.
Hardwood plywood—production by consuming company.
Hardwood veneer.
Lumber.
Household furniture and bedding products.
Paper and board—detailed grade.
Inorganic chemicals and gases.
Refractories.
Pressed and blown glassware.
Steel mill products.
Aluminum foil converted.
Steel boilers.
Heating and cooking equipment.
Internal combustion engines.
Machine tools.
Metalworking machinery.
Tractors.
Farm machines and equipment.
Radios, television, and phonographs.
Mechanical stokers.
Refrigeration equipment.
Office, computing, and accounting machines.

The following list of surveys represent annual counterparts of monthly, quarterly, and semi-annual surveys. The content of these annual reports will be identical with that of the monthly, quarterly, and semi-annual reports except for Construction Machinery which will additionally call for data on shipments of power cranes and shovels and off-highway-type trucks. However, there will be no duplication inasmuch as establishments that file the monthly, quarterly, and semi-annual reports during the year covered by the annual report will not need to submit annual reports on these products.

Flour milling products.
Confectionery products.
Cotton broad woven goods.
Synthetic broad woven goods.
Wool consumption and stocks.
Woolen and worsted fabrics.
Tire cord and tire fabrics.
Hardwood plywood (for sale).
Pulp, paper, and board.
Consumers of wood pulp.
Superphosphate.
Paint, varnish, and lacquer.
Clay construction products.
Asphalt and tar roofing and siding products.
Glass containers.
Nonferrous castings.
Plumbing fixtures.
Steel shipping barrels, drums, and pails.
Commercial and home canning closures.
Metal cans.
Farm pumps.
Fans, blowers, and unit heaters.
Electric lamps.
Construction machinery (excavating and earthmoving).
Complete aircraft and aircraft engines.
Backlog of orders for aircraft companies.
Aircraft propellers.

Copies of the proposed forms are available on request to the Director, Bureau of the Census, Washington 25, D. C.

Any suggestions or recommendations concerning the subject matter of these proposed surveys should be submitted in writing to the Director of the Census and will receive consideration.

Dated: November 2, 1955.

[SEAL] ROBERT W. BURGESS,
Director.

Approved:

SINCLAIR WEEKS,
Secretary of Commerce.

[F. R. Doc. 55-8989; Filed, Nov. 8, 1955; 8:45 a. m.]

DEPARTMENT OF THE TREASURY

Internal Revenue Service

RELIEF FROM EXCESS PROFITS TAX BECAUSE OF INADEQUATE EXCESS PROFITS CREDIT

ALLOWANCE DURING FISCAL YEAR ENDED JUNE 30, 1955

Subchapter E of Chapter 2 of the Internal Revenue Code (1939) imposes an excess profits tax on corporations for taxable years beginning after December 31, 1939. Under the provisions of this subchapter excess profits are measured by comparing the earnings for the current taxable year with a statutory excess profits credit.

Section 722 of Subchapter E reflects the recognition by Congress of the desirability and necessity of granting relief in meritorious cases to corporations which bear an excessive burden because of an inadequate excess profits credit. This section provides for the recomputation of excess profits tax on the basis of a reconstructed excess profits credit.

As required by section 6105 the following list, containing the cases arranged alphabetically by internal revenue districts, shows the name and address of each corporation to which relief has been allowed, business, taxable years involved, excess profits credit before allowance of relief, increase in excess profits credit claimed, increase in excess profits credit allowed, decrease in excess profits tax, and increase in income tax. Allowance pursuant to decisions entered by The Tax Court of the United States have been made in sixty-two docketed cases. These are included in the list with appropriate notations. There are included as a supplemental to this list twenty-one cases in which relief was allowed by the Commissioner and thirty-five docketed cases in which relief was allowed by The Tax Court of the United States during the fiscal year ended June 30, 1954. These cases were not included in the list of allowances made during the fiscal year 1954 previously published.

In order to determine the relief granted and the relevant data required to be published, intermediate computations of the excess profits tax and the income tax showing the amounts of taxes which would have been due without the benefits of section 722 were made. Comparison of the pertinent items and figures appearing in the application for relief and the tax computations after allowance of relief with those appearing in the intermediate tax computations developed the required data.

Explanations of certain items, as displayed in their respective column headings of the list, and the data evolved follows:

Business in Which Engaged, Column 2. The business in which taxpayer is engaged is that reported in the income tax return of the corporation for the taxable year or years involved, therefore, it does not necessarily correspond with the business during the base period. In those instances where the return for the year involved failed to disclose the nature of the business, information from other sources was utilized. Moreover, since the nature of business shown usually represents a general description of the predominate business activity, it does not necessarily represent or reflect the business activity with respect to which an inadequate excess profits credit was established.

Excess Profits Credit Before Allowance of Relief, Column 4. The excess profits credit before allowance of relief is the credit originally claimed by the taxpayer, as corrected, whether based on income or capital.

Increase in the Amount of Excess Profits Credit Claimed by Taxpayer, Column 5. The increase in the amount of excess profits credit claimed by taxpayer is the excess of the credit based on the constructive income claimed by the taxpayer over the credit before allowance of relief shown in column 4.

Increase in the Amount of Excess Profits Credit Allowed, Column 6. This increase in the amount of excess profits credit allowed is the excess of the recomputed credit based on constructive income finally allowed over the credit before allowance of relief shown in column 4.

Cross Reduction in the Excess Profits Tax, Column 7.

Gross Increase in the Income Tax, Column 8. The gross reduction in the excess profits tax and the gross increase in the income tax resulting from the operation of section 722 are the difference between the gross taxes which would have been due without the benefits of section 722 and the gross taxes due after relief has been granted. The gross excess profits tax is the tax due prior to the deferment under section 710 (a) (5), the foreign tax credit under section 729, the credit for debt retirement under section 783, the ten percent credit under section 784, and the adjustment under section 734. The gross income tax is the tax prior to the foreign tax credit under section 131.

The changes in the income and excess profits taxes shown reflect the effect of the increase attributable to section 722 in the unused excess profits credit carried forwarded from prior taxable years as well as the effect of the increase in unused excess profits credit carried back from subsequent years to the extent that claims with respect to unused credit carry-overs and carry-backs determined under section 722 were allowed within the same fiscal year.

While the decrease in excess profits tax is directly related to the increase in excess profits credit allowed, a number of factors serve to invalidate a comparison of the relationship of these two items applicable to a corporation for different taxable years or to different corporations for the same taxable year. Among the most important factors affecting this comparison are (1) increase in excess profits tax rates, (2) changes in rate structure from a graduated to a flat rate system, (3) effect of unused excess profits credits of prior and subsequent years attributable to section 722, (4) variations of provisions applicable to fiscal years, (5) limitation of excess profits tax to the amount of which 80 percent of net income exceeds the income tax, applicable to certain taxable years, and (6) relation of excess profits before the application of section 722 to the increase in excess profits credit allowed.

For taxable years beginning after December 31, 1940, a portion of the amount by which the excess profits tax is reduced by reason of the application of section 722 is offset by an increase in income tax. This offset arises from the provisions which permit the deduction of the income subject to excess profits tax (or excess profits tax in certain taxable years) in arriving at income subject to income tax.

Lists containing the cases in which relief has been allowed for prior fiscal years have been published in the various issues of the FEDERAL REGISTER as follows:

Fiscal year ended	Volume	Number	Date
June 30, 1942	9	194	Sept. 28, 1944
June 30, 1943	9	194	Sept. 28, 1944

FEDERAL COMMUNICATIONS COMMISSION

[Docket Nos. 11284, 11285; FCC 55M-922]

PACIFIC TELEPHONE & TELEGRAPH CO. AND RADIOMARINE CORPORATION OF AMERICA

ORDER SCHEDULING HEARING

In the matter of The Pacific Telephone & Telegraph Company, Docket No. 11284, application for construction permit to add transmitter to existing station KOU (File No. 13412-F1-P-G) at San Pedro, California; and Radiomarine Corporation of America, Docket No. 11285, application for construction permit for new public class II-B coast station at San Diego, California (File No. 17229-F1-P-D).

It is ordered, This 2d day of November 1955, that Elizabeth C. Smith, in lieu of William G. Butts, will preside at the hearing in the above-entitled matter which is hereby scheduled to commence on December 19, 1955, in Washington, D. C.

Released: November 4, 1955.

FEDERAL COMMUNICATIONS COMMISSION,
[SEAL] MARY JANE MORRIS,
Secretary.

[F. R. Doc. 55-9038; Filed, Nov. 8, 1955; 8:54 a. m.]

[Docket No. 11287, etc.; FCC 55M-919]

EL MUNDO, INC., ET AL.

ORDER CONTINUING HEARING

In re applications of El Mundo, Inc., Mayaguez, Puerto Rico, Docket No. 11287, File No. BPCT-1892, Ponce de Leon Broadcasting Company, Inc., of P. R., Mayaguez, Puerto, Rico, Docket No. 11288, File No. BPCT-1906, Supreme Broadcasting Company, Inc., Mayaguez, Puerto Rico, Docket No. 11289, File No. BPCT-1911; for construction permits for new television broadcast stations.

The Hearing Examiner having under consideration a motion filed on November 1, 1955, on behalf of Ponce de Leon Broadcasting Company, Inc., of Puerto Rico, requesting that the hearing now scheduled to be held in the above-entitled proceeding on November 7, 1955, be continued until December 29, 1955; and

It appearing that sufficient "good cause" has been set forth in the said motion to warrant the postponement requested therein and that all of the parties to the proceeding have consented to a grant thereof;

It is ordered, This 3d day of November 1955, that the above motion be, and it is hereby, granted; and that the hearing in the above-entitled proceeding is hereby continued until 10:00 o'clock a. m., on Thursday, December 29, 1955, in the offices of this Commission, at Washington, D. C.

NIAGARA BROADCASTING SYSTEM (WNIA)

ORDER CONTINUING HEARING

In re application of Gordon P. Brown, tr/as Niagara Broadcasting System (WNIA), Cheektowaga, New York, Docket No. 11404, File No. BMP-6773; For modification of permit to extend completion date.

The Hearing Examiner having under consideration a petition, filed by applicant on November 1, 1955, for further continuance of the hearing now scheduled for November 7, 1955, until November 29, 1955;

It appearing that the proposed continuance, among other things is based on the pendency, before the Commission, of applicant's petition, filed on October 27, 1955, seeking renewed consideration by the Commission of its designation of the application for hearing; and that the Broadcast Bureau, although it does not object to a continuance for the time requested because of its own work schedule, and to an immediate consideration of the present petition, does not feel that the above described reason of petitioner represents "good cause";

It is ordered, This 2d day of November 1955, that the petition for continuance is granted to the extent that the hearing now scheduled for November 7, 1955 is continued to Tuesday, November 29, 1955, at 10:00 a. m., in the offices of the Commission, Washington, D. C.

[Docket No. 11528, FCC 55-1064]

WBUF-TV, INC., AND NATIONAL BROADCASTING CO., INC.

MEMORANDUM OPINION AND ORDER DESIGNATING APPLICATION FOR CONSOLIDATED HEARING ON STATED ISSUES

In re application of WBUF-TV, Inc., (Assignor), Docket No. 11528, File No. BAPCT-150 and National Broadcasting Company, Inc. (Assignee), for assignment of the construction permit for Station WBUF-TV, Buffalo, New York.

1. The Commission has before it for consideration (a) a "Protest" filed on October 3, 1955, and amended on October 20, 1955, by WGR Corporation, licensee of Standard Broadcast Station WGR and permittee of Television Station WGR-TV, Channel 2, both in Buffalo, New York, pursuant to section 309 (c) of the Communications Act of 1934, as amended, directed against the Commission's action of September 21, 1955, granting without hearing the above-entitled application; (b) the "Opposition of WBUF-TV, Inc., to Protest to WGR Corporation and Petition to Designate for Hearing and Consolidation",[1] filed on October 20, 1955;[2] (c) the "Opposition of National Broadcasting Company, Inc., to Protest of WGR Corporation" filed on October 20, 1955. The protested authorization permits the assignment of the construction permit for WBUF-TV, Buffalo, New York, from WBUF-TV, Inc., to NBC.

2. Protestant claims that it is a party in interest within the purview of section 309 (c) of the Communications Act of 1934, as amended, because, as the licensee of Standard Broadcast Station WGR and permittee of WGR-TV, both in Buffalo, New York, it will suffer economic injury if the assignment is permitted; that "it will lose its present affiliation with NBC;" that it has been an affiliate of NBC since it commenced commercial operation on August 14, 1954, that the affiliation agreement expires August 13, 1956, and that "it will lose forever its right to compete for the NBC affiliation which right is substantial in view of WGR's present status as an affiliate;" that the "right of competition of broadcast licensees for network affiliation is one of the underlying purposes of the Commission's Chain Broadcast Rules and Regulations;" that the availability of network programs may well mean the difference between success and failure of a television station; that "the economic injury of which it here complains is the direct and immediate result of the change flowing from the Commission's action approving NBC's acquisition of WBUF-TV." Petitioner here cites "Camden Radio, Inc., v. FCC, 220 F. 2d 191 (CADC 1955); cf WEAT-TV, Inc., FCC 55-971, Released September 29, 1955."

3. In its Opposition to the Protest, the applicant, NBC, attacked WGR's standing as a party in interest, stating that when the 1952 amendments to the Communications Act were passed, the Congress stated[3] that parties in interest from an economic standpoint are defined by the Supreme Court decision in the Sanders Case (309 U. S. 470; (1 Pike and Fischer RR 280)); that the Sanders Case was concerned with and confined to the authorization of a "new and additional station" in a community; that it did not purport to nor did it encompass the transfer or assignment of an existing service such as WBUF-TV; that the legislative history of section 309 (c) confirms this view; that in the Camden Case the Court, on rehearing, pointed out its decision was confined to assignments or transfers involving new stations when it stated:

> In our opinion, handed down July 15, 1954, we held that when the Commission has approved without a hearing the assignment of a construction permit, the licensee of an existing station shows himself to be a party in interest, entitled under section 309 (c) of the act to protest and be heard, when he alleges he will suffer economic injury from the operation of the new station. We held no more than that.

4. No extended discussion is needed on this point. We think it clear that under the language of the statute, a transfer or assignment of a permit is subject to protest under section 309 (c) by a party aggrieved or adversely affected thereby. WEAT-TV, Inc., FCC File No. BTC-2018, 55-971, September 29, 1955; In re Hyman Rosenblum, 11 RR 826 (1954), Docket No. 11243. We believe NBC's interpretation of the Camden case to be incorrect. See WEAT-TV, Inc., supra.

5. NBC further argues that even if section 309 (c) may be applicable in appropriate circumstances to transfer of existing stations, the Protestant has not shown itself to be a "party in interest;" that under that section

> any protest • • • shall contain such allegations of fact as will show the protestant to be a party in interest and shall specify with particularity the facts, matters, and things relied upon, but shall not include • • • allegations phrased generally.

NBC takes the position that the showing required of the Protestant is not what could have been shown but what has been shown; that the WGR allegations fail to meet the test in that when it says it "will lose its present affiliation with NBC" it is untrue since that affiliation contract does not expire until August 13, 1956;[4] that the protested assignment in no way affects the terms of the contractual relationship between the parties; that WGR has not provided "a single citation of authority to support the contention that it has a 'right' to network service;" that on the contrary, "the right is in the network to make such an arrangement as it may choose for the distribution of its programs," citing Federal Broadcasting System, Inc., v. ABC, 4 Pike and Fischer RR 2019, 2021 (1948).

6. As we stated in our memorandum opinion and order in the WEAT-TV, Inc., case, we do not believe the Camden case stands for the carte blanche right of the licensee or permittee of an existing station to protest the granting of an assignment of the construction permit for a competing station in the same community without a showing of injury resulting from the Commission action. In the WEAT-TV, Inc., case, we found the petitioners had no standing because of the absence of a showing that the petitioners were adversely affected by the Commission action. Here, however, we believe that a showing has been made. It is clear that as a result of the Commission's action permitting NBC to acquire WBUF-TV, WGR will lose forever the valuable NBC network affiliation on August 13, 1956, the date of the expiration of its present network contract. It follows that in a very real sense, WGR is adversely affected by the Commission's action here complained of. Greenville Television Co. v. Federal Communications Commission (CADC 1955) 221 F. 2d 870.

7. NBC further attacks the Protest claiming "it should be dismissed for want of jurisdiction under Section 309 (c)", and that the Protest was not properly filed "under oath", which is a statutory jurisdictional requirement that cannot be waived by the Commission; that the signature of the officer of the corporation[5] was not accompanied by any showing that said officer had authority to sign for the corporation, pursuant to by-law or specially delegated powers; and that in "this particular type of action", which NBC likens to institution of litigation, this omission is a fatal jurisdictional defect requiring dismissal of the protest.

8. The Commission finds no merit in this contention. Neither the Rules nor the Communications Act provides that such a showing of authority of an officer to act for his corporation is required. In the absence of a specific showing by NBC that the officer signing for WGR Corporation is acting without or in excess of authority vested in him, we think it clear that we may properly assume that he is acting within his authority and with the approval of the corporation. Such an assumption is completely consistent with the long standing and well established Commission policy and practice in similar cases. NBC, with a showing that its claim of lack of authority can be substantiated, may petition this Commission to make the matter an issue for hearing.

9. Protestant asks that the application be designated for a full and evidentiary hearing upon the following five issues:

(1) To determine whether the grant of the application would result in an undue concentration of control of broadcast stations inconsistent with the public interest, convenience and necessity, contrary to § 3.636 of the Rules.

(2) To determine whether the overall plan of NBC to acquire television stations in New Britain, Philadelphia and Buffalo, in accordance with now pending applications, would result in an undue concentration of control of broadcast stations inconsistent with the public interest, convenience and necessity, contrary to § 3.636 of the Rules.

(3) To determine whether the circumstances surrounding the agreement for the exchange of Stations WPTZ and KYW, Philadelphia, for WNBK-TV and WTAM, Cleveland, adversely reflect on NBC's character qualifications to own and operate broadcast stations in the public interest.

(4) To determine whether the past history of anti-trust litigation and trade practices of RCA, the parent company of NBC, adversely reflects on NBC's character qualifications to own and operate broadcast stations in the public interest.

(5) To determine whether, in view of the evidence adduced under the issues, the assignment of the construction permit of WBUF-TV, Buffalo, to NBC will serve the public interest, convenience and necessity.

10. In support of Issue Number 1, Protestant argues that NBC is presently the licensee of five VHF television stations located in New York, Washington, D. C., Cleveland, Chicago and Los Angeles, and submits an engineering affidavit purporting to show that 32,688,900 people representing 22 percent of the total population of the United States "live within the Grade B contours of the five NBC owned and operated television stations;" that the acquisition of WBUF-TV "will add 1,168,900 people to the population already served" and NBC will own television stations "in the two largest population centers of the State (New York City and Buffalo) and thus will dominate both the 'up state' and 'down state' political, business and commercial areas."[6] Consequently, it is said, the acquisition of WBUF-TV "will result in a concentration of control of television broadcasting in a manner inconsistent with the public interest, convenience and necessity in violation of section 3.636 of the Commission Rules, and contravenes its general policy of encouraging diverse ownership of all mass media of communication;" that "there is no indication that the Commission has considered such factors as the size, extent and location of areas served, the number of people served, and the extent of other competitive service to the areas in question" as required in Section 3.636 (a) (2) of its Rules and that Clarksburg Publishing Company v. FCC, U. S. Ct. App. D. C. June 9, 1955, 12 RR 2026, requires determination of these issues after a full hearing. Since the Protestant has standing to protest and has set out Issue Number 1 with sufficient particularity as a public interest consideration, we find that the Protestant has a right to a full evidentiary hearing thereon. However, the burden of proceeding with the introduction of evidence and the burden of proof thereof shall be upon the Protestant. We do not adopt this Issue because of the policy considerations set out in our Report and Order, Docket 10822, FCC 54-1185, Mimeo No. 10215, adopted September 17, 1954. We believe these considerations are particularly applicable to the instant case.

11. Apparently in support of requested Issue Number 2, Protestant argues that it has a right to have the Commission consider the effect of not only the instant Buffalo application, but the Philadelphia and New Britain applications "as part of an over-all plan on the part of NBC to increase the coverage of its owned and operated stations"; that consideration of the Buffalo application apart from the others would be arbitrary and capricious, and would prejudice Protestant's right to a fair hearing; and that even assuming that by considering the Buffalo application singly no undue concentration of control can be found to exist, "the comparative difference between the concentration of control which would exist if NBC acquires New Britain and Philadelphia is still a relevant issue."

---

[1] We are not here dealing with WGR Corporation's "Petition to Designate for Hearing and Consolidation" filed on October 5, 1955, or those pleadings or portions thereof filed by NBC, Westinghouse or WBUF-TV, Inc., in opposition to such Petition. We believe that action on this request for consolidation should be postponed until resolution of the several outstanding questions concerning the Philadelphia and New Britain situation (e. g., whether hearing is to be ordered on the Philadelphia application and/or whether the issues are to be enlarged and an evidentiary hearing ordered with respect to the New Britain application).

[2] By letter of October 11, 1955, WBUF-TV, Inc., was given an extension of time to October 20, 1955 to file its Opposition.

[3] In Senate Report No. 44, 82d Cong., 1st Sess., to accompany S. 658, submitted on January 25, 1951.

[4] The contract is subject to renewal unless either party five months prior to the expiration of the two year term gives notice of intent not to renew.

[5] The original Protest was signed under oath by the president of WGR Corporation, but lacked a statement as to where it was signed and notarized. The Protest was amended on October 20, 1955 to show signature on behalf of the corporation by the vice president, notarized in the State of New York, County of Erie and City of Buffalo, on that date.

[6] It is further stated that NBC is also the licensee of 50 kw standard broadcast stations in New York, San Francisco, Chicago and Cleveland, and a 5 kw regional station in Washington, all rendering a service to areas with a 1950 population of 27,945,636.

12. Issue Number 2 not being a frivolous or sham one, and having been alleged with sufficient particularity, there is no question as to Protestant's right to have such an issue in the hearing to be held. Federal Broadcasting System, Inc., v. FCC (Case No. 12252), —— F. 2d ——. As to the question of consolidation with other proceedings, we have already pointed out the impropriety of considering such a request at this time (see Footnote 1, supra). We believe rephrasing of the issue is called for. Protestant's argument is not, of course, that the New Britain and Philadelphia applications should be denied—it is rather that if those applications (or either of them) were granted, the grant of the Buffalo application would be found to be inconsistent with the policy established by Section 3.636. We have accordingly rephrased the issue to reflect this argument—and in the manner most favorable to Protestant's cause (i. e., assumption of the New Britain and Philadelphia grants). As in Issue Number 1, the burden of proof on this Issue is placed on Protestant.

13. As support for Issue Number 3, the Protestant alleges that NBC has forced Westinghouse to agree to transfer its Philadelphia stations to NBC by the economic threat of withdrawing network affiliation if Westinghouse refused; that the pending application for the Cleveland-Philadelphia exchange "establishes a prima facie case that Westinghouse is not a voluntary agent but is, in fact, acting under duress in agreeing to this exchange"; that "if the Commission finds that NBC utilized its economic powers as a network to force Westinghouse to agree to an exchange of facilities under the threat of losing its affiliation agreement," it could only conclude that NBC's character is such that it would not be in the public interest to permit it to acquire the Philadelphia station or "to operate any broadcast station in the public interest."

14. In regard to this Issue (Number 3), NBC in its Opposition takes the position (as it does with all of the Issues) that all of the facts presented in the Protest were before the Commission when it approved the subject application on September 21, 1955; that no new facts have been presented by Protestant who therefore fails the statutory requirement or test of particularity. As to this Issue, it is clear that NBC's arguments are without merit. We believe that the Protestant has met the statutory standards. Accordingly, this Issue is also to be heard, with the burden of proof placed on the Protestant.

15. As support for Issue Number 4, Protestant states "As shown by Exhibit II–4 attached to the WBUF–TV application,[1] NBC and its parent company, Radio Corporation of America, have an extensive history of anti-trust violations and litigation;" that "the record discloses that RCA . . . has entered into numerous Consent Decrees in anti-trust matters as a result of suits instituted by the United States Government over the past twenty years." Protestant points to the Court decision in Mansfield Journal Co., v. FCC (CADC, 1950) 180 F. 2d, 28, 33, and the Commission's pronouncements in its Report on Uniform Policy as to violations by Applicants of Laws of the United States (Docket 9572, 1 RR, Part III, 91:495). Protestant further relies on a complaint filed in the United States Court for the Southern District of New York on November 19, 1954, in which the Department of Justice charged that RCA "has continuously since November 22, 1932, attempted to monopolize, and has in fact monopolized, the aforesaid interstate trade and commerce in radio-television research, patent holding and patent acquisition, and the issuance and exchange of radio-television patent licenses, in violation of Section 2 of the Sherman Act." Again, we find that the statutory standards have been met and that therefore the hearing shall include Protestant's Issue Number 4, with the burden of proof being placed upon the Protestant.

16. Protestant has also requested that the effective date of the Commission's action granting the assignment be postponed until after a hearing and decision on the Protest, stating that "the hearing called for by this Protest can be concluded before" December 31, 1955, the date to which WBUF–TV must continue in operation pursuant to the contract existing between NBC and WBUF–TV, Inc.

17. The Opposition of WBUF–TV, Inc., takes the position that WGR Corporation is not entitled to a stay because (a) WGR's affiliation agreement with NBC does not expire until August 13, 1956 and it therefore is assured of the NBC programs by contract through that date; (b) the public would, from December 31, 1955 on, suffer irreparable injury since, on that date, if a stay is granted, WBUF–TV will go off the air; and (c) any hearing ordered under this Protest could not possibly be completed by December 31, 1955. In support of its position, WBUF–TV has furnished, as part of its Opposition, an affidavit, dated October 10, 1955, of the President of WBUF–TV, Inc., which states unequivocally that because of the extremely large operating losses suffered by the company,[2] which are still continuing, and pursuant to the unanimous resolution of the Board of Directors, WBUF–TV will not operate beyond December 31, 1955, if a stay is granted to the application. In support of its allegation that any hearing could not be finally concluded by December 31, 1955, WBUF–TV, Inc., points to the following minimum procedural steps which cannot, as a matter of law, be cut short without the consent of all parties:

1. Order of Designation.
2. Hearing before the Examiner.
3. Proposed Findings and Conclusions.
4. Examiner's Initial Decision.
5. Exceptions and Request for Oral Argument.
6. Oral Argument before Commission.
7. Final Commission Decision.

WBUF–TV, Inc., then points to the fact that various Commission Rules provide for the number of days allowed parties in regard to compliance with some of the said steps, all of which would not permit the issuance of a final Commission decision prior to December 31, 1955. It further presents the results of a statistical study made in regard to the 80 Protests that have been filed with the Commission against grants of broadcast facilities (AM and TV) since Section 309 (c) became law in 1952, which shows that only three which involved an evidentiary hearing have run their course through oral argument and final Commission decision with the time between Order of Designation and Final Decision being 14, 15 and 32 months. In addition, it points to 12 protest proceedings on which evidentiary hearings have been ordered and which are still in hearing status even though the earliest was designated for hearing on November 27, 1954, over 10 months ago, and the latest, on July 13, 1955, more than three months ago. We have checked these allegations and agree that there is no justification for assuming a hearing in this case could be processed through final Commission decision by December 31, 1955.

18. However, we are in doubt, in the light of the facts presently before us and in view of the allegations of the Protestant in its "Reply to Oppositions to Protest", filed October 27, 1955, with respect to those facts, whether a stay of the effectiveness of the instant grant is appropriate. We are aware of the fact, from our records, that WBUF–TV first went on the air with commercial programming on August 17, 1953, under an STA;[3] that on February 24, 1955, it notified the Commission that it was suspending operations effective with the last program, February 23, 1955, stating that such action was necessary due to heavy losses the station was sustaining in its operations; that the balance sheet of WBUF–TV, Inc., as of January 31, 1955, submitted with the assignment application, showed total liabilities exceeded total assets by approximately $157,000, that current liabilities exceeded current assets by approximately $122,000, that the station for the month of January 1955 suffered a net loss of $12,196.78 and for the period of its operation beginning August 17, 1953 to the date of the balance sheet, a net loss of $248,521.80; that on March 3, 1955, the Commission authorized suspension of operation for the period of the construction permit which had an expiration date of September 17, 1955; that the station did go off the air on that date; that on March 9, the station notified the Commission that operations would be resumed that day, which action was brought about by and was a condition of its contract with NBC to sell the station and which prefaced the instant assignment application filed on April 8, 1955; that the said contract also contained the provision obligating WBUF–TV to operate the station until December 31, 1955; that the above-mentioned affidavit dated October 10, 1955 shows that the corporation will definitely go off the air on December 31, 1955, if a stay is granted; and that the president stated under oath "it does not have financial resources to continue to operate beyond that date."

19. Protestant, in its reply, argues that WBUF–TV is still under the control of the assignor and that "the only 'evidence' that the present service will not be maintained is a self-serving affidavit that the assignor will not maintain that service beyond December 31, 1955, if the Commission stays its action;" that the termination of operation is a voluntary choice and thus the parties cannot invoke the argument that a stay must be denied to preserve that service; that aside from the allegation of WBUF–TV, Inc., that during the month of September 1955, it lost in excess of $10,000, it has not "established that it cannot maintain its service;" and that the Protestant, not having access to the books of the assignor corporation, cannot determine whether such a loss is a cash one or a bookkeeping one "composed largely of depreciation".

20. It is this latter objection that prompts us at this time to postpone our decision on the request for a stay. We believe that the record upon which we would have to base our decision on this question is presently incomplete with respect to the financial condition of WBUF–TV, Inc., for the period from January 31, 1955, to the present. Accordingly, it is requested that a further, detailed showing be made by assignor, and that such showing include, at the least, a balance sheet covering the aforesaid period and a detailed current profit and loss statement. Following the receipt of this data, which may be submitted on or before December 1, 1955, and the allowance of a 10-day period thereafter for the filing of any Opposition or comments by Protestant, we will issue our decision on the question of the stay. Since the assignor is obligated to continue operation until December 31, 1955, and our decision will be made before that date, it is clear that Protestant will in no way be adversely affected by the brief delay involved in obtaining all the pertinent facts.

21. Protestant has advanced certain other arguments directed to the issuance of the stay. We believe these arguments can most appropriately be taken up at the time we dispose of the main point at issue with respect to the stay. Accordingly, we do not here rule on these arguments. We also believe it desirable to caution the assignor and the assignee against effectuation of their assignment agreement during the period when the question of the issuance of the stay is being considered; any such effectuation would be at the risk of the parties since, as we have pointed out, the stay issue is still to be resolved. In view of the foregoing,

It is ordered, That the Protest is granted, with the question of the stay to be resolved after receipt of the material referred to in Paragraph 20; and that, pursuant to section 309 (c) of the Communications Act of 1934, as amended, the above-entitled application for assignment of construction permit is designated for hearing at the offices of the Commission in Washington, D. C., on the following issues:

(1) To determine whether the grant of the application would result in an undue concentration of control of broadcast stations inconsistent with the public interest, convenience and necessity, contrary to § 3.636 of the rules.

(2) To determine whether acquisition by NBC of television stations in New Britain and Philadelphia, assuming such acquisition is the result of the grant of the now pending applications, would render the grant in Buffalo inconsistent with the public interest, convenience and necessity, and specifically with section 3.636 of the rules.

(3) To determine whether the circumstances surrounding the agreement for the exchange of stations WPTZ and KYW, Philadelphia, for WNBK–TV and WTAM, Cleveland, adversely reflect on NBC's character qualifications to own and operate broadcast stations in the public interest.

(4) To determine whether the past history of anti-trust litigation and trade practices of RCA, the parent company of NBC, adversely reflects on NBC's character qualifications to own and operate broadcast stations in the public interest.

(5) To determine whether, in view of the evidence adduced under the issues, the assignment of the construction permit of WBUF–TV, Buffalo, to NBC will serve the public interest, convenience and necessity.

The burden of proof as to each of the above issues shall be on the Protestant.

It is further ordered, That the Protestant and the Chief, Broadcast Bureau, are hereby made parties to the proceeding herein and that:

(a) The hearing on the above issues shall commence at 10:00 a. m. on December 19, 1955, before an Examiner to be specified by the Commission;

(b) The parties to the proceeding herein shall have fifteen (15) days after the issuance of the Examiner's decision to file exceptions thereto and seven (7) days thereafter to file replies to any such exceptions; and

(c) The appearances by the parties intending to participate in the above hearing shall be filed not later than November 15, 1955.

Adopted: November 2, 1955.

Released: November 4, 1955.

FEDERAL COMMUNICATIONS COMMISSION,[4]

[SEAL] MARY JANE MORRIS, *Secretary.*

[F. R. Doc. 55–9045; Filed, Nov. 8, 1955; 8:55 a. m.]

[1] Exhibit II–4 gives a brief summary of the following actions involving Radio Corporation of America (parent of NBC) and/or NBC:
RCA v. Lord et al. (1928) 38 F. 2d 257.
Civil Action No. 982, December 17, 1946.
Civil Action No. 1098, February 6, 1948.
Civil Action No. 48c1818, December 7, 1948.
Civil Action No. 1247, August 9, 1949, July 16, 1952 (consolidating actions Nos. 982, 1098 and 1247).
Civil Action No. 85–360, June 12, 1953.
Civil Action No. 89–103, November 9, 1953.
Civil Action No. 97–38, November 19, 1954.
Civil Action No. 33968, August 19, 1954.
Civil Action No. L–2021–54, November 9, 1954.

[2] From August 17, 1953, when WBUF–TV went on the air until the present the corporation has suffered operating losses aggregating more than $325,000 and "at the present time the losses of the corporation are in excess of $10,000 per month."

[3] Modified and/or extended August 20 and October 23, 1953; January 12, June 28, August 18 and September 20, 1954; and January 20, 1955.

CIVIL AERONAUTICS BOARD

[Docket No. 6901]

AMERICAN AIRLINES, INC., ET AL.; FIRST-CLASS AND OTHER PREFERENTIAL MAIL RATE PROCEEDING

NOTICE OF HEARING

In the matter of compensation to be paid to American Airlines, Inc.; Northwest Airlines, Inc.; Trans World Airlines, Inc.; United Airlines, Inc.; and Western Air Lines, Inc.; for the transportation of first-class and other preferential mail (other than air mail and air parcel post) by aircraft, the facilities used and useful therefor, and the services connected therewith between Seattle, Washington; Portland, Salem, Bend, Redmond, Eugene, Medford and Klamath Falls, Oregon; San Francisco, Oakland, Sacramento, Stockton, Modesto, Merced, Salinas, Fresno, Visalia, Bakersfield, Los Angeles and San Diego, California.

Notice is hereby given pursuant to the Civil Aeronautics Act of 1938, as amended, particularly Sections 406 and 1001 of said Act, that hearing in the above-indicated proceeding will be held on November 16, 1955, at 10 a. m., e. s. t., in Hearing Room E–210, Temporary Building 5, Constitution Avenue and Sixteenth Street NW., Washington, D. C., before Examiner Herbert K. Bryan.

Dated at Washington, D. C., November 3, 1955.

[SEAL] FRANCIS W. BROWN, *Chief Examiner.*

[F. R. Doc. 55–9031; Filed, Nov. 8, 1955; 8:52 a. m.]

[Docket No. SA–311]

ACCIDENT OCCURRING ON MEDICINE BOW PEAK, WYOMING

NOTICE OF POSTPONEMENT OF HEARING

In the matter of investigation of accident involving aircraft of United States Registry N 30062, which occurred on Medicine Bow Peak, Wyoming, October 6, 1955.

Notice of hearing originally assigned to be held pursuant to the Civil Aeronautics Act of 1938, as amended, particularly Section 702 of said Act, in the above-entitled proceeding, on Monday, November 7, 1955, at 9:30 a. m. (local time) in the Farmers Union Building, Room 100, corner of 16th and Sherman Streets, Denver, Colorado, is hereby post-

[4] Commissioner Bartley not participating; Commissioner Doerfer dissenting; Commissioner Mack abstaining from voting.

poned until Monday, November 14, 1955, at 9:30 a. m. (local time) at the Cosmopolitan Hotel, Century Room, Eighteenth and Broadway, Denver, Colorado.

Dated at Washington, D. C., November 3, 1955.

[SEAL] VAN R. O'BRIEN,
Presiding Officer.

GENERAL SERVICES ADMINISTRATION

Public Buildings Service

[Wildlife Order 34]

FORT FLAGLER MILITARY RESERVATION, JEFFERSON COUNTY, WASH.

TRANSFER OF PROPERTY FOR MIGRATORY BIRD CONSERVATION

Pursuant to the provisions of section 2 of Public Law 537, Eightieth Congress, approved May 19, 1948 (16 U. S. C. 667c), notice is hereby given that:

1. By letter of transfer from the Department of the Army dated September 26, 1955, signed by Colonel N. A. Matthias, Corps of Engineers, District Engineer, Portland, Oregon, a portion of that property known as Fort Flagler Military Reservation in Jefferson County, Washington, has been transferred to the Department of the Interior.

2. The above described property is transferred to the Department of the Interior for migratory bird conservation purposes in accordance with the provisions of said Public Law 537.

P. A. STROBEL,
Commissioner of Public Buildings Service.

NOVEMBER 4, 1955.

INTERSTATE COMMERCE COMMISSION

[Notice 85]

MOTOR CARRIER APPLICATIONS

NOVEMBER 4, 1955.

Protests, consisting of on original and two copies to the granting of an application must be filed with the Commission within 30 days from the date of publication of this notice in the FEDERAL REGISTER and a copy of such protest served on the applicant. Each protest must clearly state the name and street number, city and state address of each protestant on behalf of whom the protest is filed (49 CFR 1.240 and 1.241). Failure to seasonably file a protest will be construed as a waiver of opposition and participation in the proceeding unless an oral hearing is held. In addition to other requirements of Rule 40 of the General Rules of Practice of the Commission (39 CFR 1.40), protests shall include a request for a public hearing, if one is desired, and shall specify with particularity the facts, matters, and things, relied upon, but shall not include issues or allegations phrased generally. Protests containing general allegations may be rejected. Requests for an oral hearing must be supported by an explanation as to why the evidence cannot be submitted in forms of affidavits. Any interested person, not a protestant, desiring to receive notice of the time and place of any hearing, pre-hearing conference, taking of depositions, or other proceedings shall notify the Commission by letter or telegram within 30 days from the date of publication of this notice in the FEDERAL REGISTER.

Except when the circumstances require immediate action, an application for approval, under Section 210a (b) of the Act, of the temporary operations of motor carrier properties sought to be acquired in an application under Section 5 (2) will not be disposed of sooner than 10 days from the date of publication of this notice in the FEDERAL REGISTER. If a protest is received prior to action being taken, it will be considered.

APPLICATIONS OF MOTOR CARRIERS OF PROPERTY

No. MC 1494 Sub 14, filed October 26, 1955, GROSS COMMON CARRIER, INC., West Grand Street, Wisconsin Rapids, Wis. Applicant's attorney: Claude J. Jasper, One West Main Street, Madison 3, Wis. For authority to operate as a *common carrier*, transporting: *General commodities*, except those of unusual value, Class A and B explosives, household goods as defined by the Commission, commodities in bulk, and those requiring special equipment, between Mauston, Wis., and junction U. S. Highways 82 and 51 over U. S. Highway 82, serving no intermediate points, as a connecting route, in connection with carrier's regular route operations between (a) New Lisbon, Wis., and Sheboygan, Wis., (b) Mauston, Wis., and Hillsboro, Wis., and (c) Sparta, Wis., and Mauston, Wis. Applicant is authorized to conduct operations in Minnesota and Wisconsin.

NOTE: Applicant's attorney in letter transmitting the application states this is a new route occasioned by the building of a bridge over the Wisconsin River several miles east of Mauston, Wis.

No. MC 2202 Sub 135, filed October 28, 1955, ROADWAY EXPRESS, INC., 147 Park Street, P. O. Box 471, Akron, Ohio. Applicant's attorney: William O. Turney, 2001 Massachusetts Avenue, N. W., Washington 6, D. C. For authority to operate as a *common carrier*, over a regular route, transporting: *General commodities*, except those of unusual value, Class A and B explosives, livestock, household goods as defined by the Commission, commodities in bulk, and those requiring special equipment, between Winston-Salem, N. C. and Junction U. S. Highway 158 and North Carolina Highway 68 east of Stokesdale, N. C., from Winston-Salem over North Carolina Highway 150 to Oak Ridge, N. C., thence over North Carolina Highway 68 to junction with U. S. Highway 158 east of Stokesdale, and return over the same route, serving no intermediate points, but serving junction points for purposes of joinder only, in connection with applicants authorized alternate route operations between Winston-Salem, N. C. and Richmond, Va. Applicant is authorized to conduct operations in Alabama, Connecticut, Delaware, Georgia, Illinois, Indiana, Kansas, Kentucky, Maryland, Michigan, Missouri, New Jersey, New York, North Carolina, Ohio, Oklahoma, Pennsylvania, South Carolina, Tennessee, Texas, Virginia, West Virginia, Wisconsin and the District of Columbia.

No. MC 11620 Sub 14, filed October 17, 1955, GEORGE BUSSE, doing business as THE ARROW TRANSFER COMPANY, 339 Main Street, Danville, Ky. Applicant's attorney: Noel F. George, 44 East Broad Street, Columbus 15, Ohio. For authority to operate as a *contract carrier*, over irregular routes, transporting: *Oleomargarine*, from Cincinnati, Ohio, to points in Tennessee, North Carolina, South Carolina, Georgia, and Florida.

No. MC 11620 Sub 15, filed October 17, 1955, GEORGE BUSSE, doing business as THE ARROW TRANSFER COMPANY, 339 Main Street, Danville, Ky. Applicant's attorney: Noel F. George, 44 East Broad Street, Columbus 15, Ohio. For authority to operate as a *contract carrier*, over irregular routes, transporting: *Cheese*, from Stanford, Ky., to points in New York, New Jersey, and Pennsylvania. Applicant is authorized to conduct operations in Florida, Georgia, Kentucky, North Carolina, Ohio, South Carolina, and Tennessee.

No. MC 31462 Sub 5, filed September 19, 1955, (Amended), published page 7887 issue of October 19, 1955, ACME VAN LINES, INC., 912 Troost Ave., Kansas City 6, Mo. Applicant's attorney: Carll V. Kretsinger, Suite 1014-18 Temple Bldg., Kansas City 6, Mo. For authority to operate as a *common carrier*, over irregular routes, transporting: *Household goods*, as defined by the Commission, between points in Missouri and Kansas, on the one hand, and, on the other, points in Missouri, Kansas, Arkansas, Oklahoma, Colorado, Iowa, Illinois, and Indiana.

NOTE: Applicant states that if the above substituted authority is granted it will request cancellation of its authority in Certificates Nos. MC 31462 and MC 31462 Sub 4, which, territorially, authorize transportation of household goods between Kansas City, Mo. and points within 30 miles thereof, on the one hand, and, on the other, points in Kansas, Arkansas, Oklahoma, Colorado, Iowa, Illinois, and Indiana, and between points in Kansas, on the one hand, and, on the other, points in Missouri. Applicant will retain its authority in MC 31462 Sub 2 which authorizes transportation of household goods between Omaha, Nebr. and points in Nebraska within 100 miles of Omaha, on the one hand, and, on the other, points in Iowa, Illinois, Missouri, Georgia, and Ohio. By the authority as proposed and the deletion of that which would be cancelled, applicant will eliminate its present Kansas City, Mo. gateway operation.

No. MC 31600 Sub 394, filed October 17, 1955, P. B. MUTRIE MOTOR TRANSPORTATION, INC., Calvary St., Waltham 54, Mass. For authority to operate as a *common carrier*, over irregular routes, transporting: (1) *Formaldehyde*, in bulk, in tank vehicles, from Bainbridge, N. Y., to points in Connecticut, Maine, Maryland, Massachusetts,

New Hampshire, North Carolina, Pennsylvania, Rhode Island, Vermont, Virginia, and West Virginia; (2) *glues, resins, starches, surface coatings, sizings* and *latex*, in bulk, in tank vehicles, (a) from Bainbridge, N. Y., to points in Bronx, Kings, Nassau, New York, Queens, Richmond, Suffolk, and Westchester Counties, N. Y., and those in Connecticut, Delaware, Maine, Maryland, excepting glue to Bethesda, Massachusetts, New Hampshire, New Jersey, North Carolina, Pennsylvania, Rhode Island, Vermont, Virginia, and West Virginia; (b) from Peabody, Mass., to points in New York, excepting those located on and east of U. S. Highway 9W and on and south of New York Highway 7, Delaware, Maryland, North Carolina, Pennsylvania, Virginia, and West Virginia; (c) from Leominster, Mass., to points in New York located west of U. S. Highway 9W and north of New York Highway 7, and those in Connecticut, Delaware, Maine, Maryland, New Hampshire, North Carolina, Pennsylvania, Rhode Island, Vermont, Virginia, and West Virginia; (3) *chemicals, glues, varnishes*, and *resins*, in bulk, in tank vehicles, from Springfield, Mass., to Waukegan, Ill., New Albany, Ind., Henderson, Ky., Laurel, Md., and Odenton, Md., Detroit, Mich., Cattaraugus, N. Y., Linwood, Lexingtn, Thomasville, and Rural Hall, N. C., Cleveland, Ohio, Jamestwn, Pa., and Williamsport, Pa., Orangeburg, S. C., and Roanoke, Va. Applicant is authorized to conduct operations in New Jersey, Connecticut, Delaware, Massachusetts, New Hampshire, New York, Pennsylvania, Rhode Island, Vermont, Ohio, and Maryland.

No. MC 38183 Sub 35, filed October 17, 1955, (amended). Published on page 8235 of issue of November 2, 1955. WHEELOCK BROS., INC., 720 E. 3rd St., Kansas City, Mo. Applicant's attorney: James F. Miller, 500 Board of Trade, 10th and Wyandotte, Kansas City 6, Mo. For authority to operate as a *common carrier*, over a regular route, transporting: *Meats, meat products* and *meat byproducts, dairy products*, and *articles distributed by meat-packing houses*, as defined by the Commission, and *such commodities as are used by meat packers in the conduct of their business when destined to and for use by meat packers*, between Arkansas City, Kans., and Lindsborg, Kans., over U. S. Highway 166 from Arkansas City to junction U. S. Highway 81, thence over U. S. Highway 81 to Wichita, Kans., thence over presently authorized route (U. S. Highway 81) to Lindsborg, and return over the same route, serving the intermediate point of Wellington, Kans. Applicant is authorized to conduct operations in Colorado, Illinois, Indiana, Kansas, and Missouri.

No. MC 40007 Sub 44, filed October 26, 1955, RELIABLE TRANSPORTATION COMPANY, 4817 Sheila St., Los Angeles 22, Calif. For authority to operate as a *common carrier*, over irregular routes, transporting: *Sulphuric acid*, in bulk, in tank vehicles, from El Segundo, Calif., to Henderson, Nev.

No. MC 52713 Sub 6, filed October 26, 1955, MAXINE HUTCHENS AND B. F. BABB, doing business as CASSVILLE TRUCK LINE, Cassville, Mo. Applicant's attorney: Joseph R. Nacy, 117 W. High St., Jefferson City, Mo. For authority to operate as a *common carrier*, over regular routes, transporting: *General commodities*, except those of unusual value, Class A and B explosives, household goods as defined by the Commission, commodities in bulk, and commodities requiring special equipment, between Springfield, Mo. and Gateway, Ark., from Springfield over U. S. Highway 60 to junction Missouri Highway 37 at Monett, Mo., thence over Missouri Highway 37 to the Missouri-Arkansas state line and junction Arkansas Highway 47, thence over Arkansas Highway 47 to Gateway, Ark. and junction U. S. Highway 62, and return over the same route, serving the Missouri-Arkansas state line as an intermediate point. Applicant is authorized to conduct operations in Missouri.

NOTE: Applicant holds authority between Springfield, Mo. and Seligman, Mo. over U. S. Highway 60 to Monett, Mo. and thence over Missouri Highway 37 to Seligman, serving the intermediate points of Cassville, Monett, Purdy, Butterfield, and Washburn, Mo. and the off-route point of Wayne, Mo.

No. MC 52858 Sub 50, filed October 31, 1955, CONVOY COMPANY, 3900 N. W. Yeon Ave., Portland 10, Oreg. Applicant's attorney: Marvin Handler, 465 California St., San Francisco 4, Calif. For authority to operate as a *common carrier*, over irregular routes, transporting: *Automobiles, trucks*, and *busses*, not including trailers in initial movements, in truckway service, from Kenosha, Wis., to points in Oregon, Washington, Idaho, Nevada and California. Applicant is authorized to conduct irregular route operations in California, Idaho, Oregon, Washington, Montana, Nevada, Utah, Wyoming, New Mexico, Arizona and Colorado.

No. MC 59014 Sub 13, filed October 28, 1955, TALLANT TRANSFER COMPANY, INC., 1341-2nd Ave., S. W., Hickory, N. C. For authority to operate as a *common carrier*, over irregular routes, transporting: (1) *New furniture* (a) from points in Alexander, Burke, Caldwell, Catawba, Iredell, Lincoln, Mecklenburg, McDowell, and Wilkes Counties, N. C., to points in Arkansas, Mississippi, and Missouri, those in Louisiana on, north, and east of a line beginning at New Orleans, La. and thence extending along U. S. Highway 61 to Baton Rouge, La., thence along U. S. Highway 190 to junction U. S. Highway 71, and thence along U. S. Highway 71 to the Arkansas-Louisiana State line, and those in Wisconsin on, south, and east of U. S. Highway 151, (b) from points in Alexander, and Iredell Counties, N. C., to points in Alabama, Connecticut, Delaware, Florida, Georgia, Illinois, Indiana, Kentucky, Maryland, Massachusetts, Michigan, New Jersey, New York, Ohio, Pennsylvania, Rhode Island, Tennessee, Virginia, West Virginia, and the District of Columbia, (c) from points in Wilkes, Lincoln, and Mecklenburg Counties, N. C., to points in Indiana, Illinois, Massachusetts, Connecticut, Rhode Island, and Michigan, excepting no service from points in Lincoln County to points in Michigan, (d) from points in Burke, Caldwell, and McDowell Counties, N. C., to points in Michigan, Indiana, and Illinois, (e) from points in Catawba County, N. C., to points in Indiana, and points in Illinois which are located in the Chicago, Ill. Commercial Zone as defined by the Commission, (f) from Beacon, N. Y., to Philadelphia, Pa. and points in Delaware, Maryland, Virginia, North Carolina, Tennessee, and the District of Columbia, and (g) from points in Burke County, N. C., to points in New York on, west, and south of a line beginning at Oswego, N. Y., and thence extending along New York Highway 57 to Syracuse, N. Y., thence along New York Highway 5 to Schenectady, N. Y., and thence along New York Highway 7 to the New York-Vermont State line, (2) *petroleum products*, in containers, from Kansas City, Mo., to points in North Carolina on and west of U. S. Highway 1, and (3) *damaged shipments* of the above specified commodities, on return movements, from above-named points of destination and points in above-named destination territories, to above-named origin points and points in above-named origin territories. Applicant is authorized to conduct operations in Alabama, Connecticut, Delaware, Florida, Georgia, Illinois, Kentucky, Maryland, Massachusetts, Michigan, New Jersey, New York, North Carolina, Ohio, Pennsylvania, Rhode Island, South Carolina, Tennessee, Virginia, West Virginia, and the District of Columbia.

Hickson, Yeon Building, Portland, Oreg. For authority to operate as a *contract carrier*, over irregular routes, transporting: *Lumber* from points in Multnomah, Clackamas, Polk, Marion, Douglas, Linn, Benton, Lane, Deschutes and Jefferson Counties, Oreg., to points in Idaho and Utah.

No. MC 115642, filed October 24, 1955, MISSISSIPPI DOCKS, INC., 1034 First National-Soo Line Building, Minneapolis, Minn. Applicant's attorney: Donald A. Morken, Eleven Hundred First National-Soo Line Building, Minneapolis 2, Minn. For authority to operate as a *common carrier*, over irregular routes, transporting: *Coal, in bulk*, from Red Wing and Winona, Minn., to points in Minnesota and Wisconsin.

No. MC 115644, filed October 24, 1955, MICKLE MARSHALL, doing business as RAPID TRANSIT COMPANY, French Lick, Ind. For authority to operate as a *contract carrier*, over irregular routes, transporting: *Wooden skids*, from the site of Paoli Box Corporation plant located approximately one mile north of Paoli, Ind., on Indiana Highway 37, to the site of General Electric Company plant located at Buechel, Ky., near Louisville, Ky., and *damaged shipments* on return.

No. MC 115647 filed October 27, 1955, and amended November 1, 1955, JAMES G. ROUSE, 795 South Dunham Street, Prineville, Oreg. Applicant's attorney: John M. Hickson, Yeon Building, Portland, Oreg. For authority to operate as a *contract carrier*, over irregular routes, transporting: *Lumber* (1) between points in Washington, Lake, Douglas, and Wasco Counties, Oreg., and points in Box Elder, Cache, Rich, Weber, Tooele, Davis, Morgan, Summit, Salt Lake, Utah and Wasatch Counties, Utah, and (2) from points in Ada County, Idaho, to points in Deschutes County, Oreg.

No. MC 115649 filed October 28, 1955, N. J. RADUNICH and BEN F. HAWES, a partnership, doing business as RED LINE CARRIERS, 1726 South Smith Avenue, San Jose, Calif. Applicant's attorney: Frank Loughran, 155 Sansome Street, San Francisco 4, Calif. For authority to operate as a *contract carrier*, over irregular routes, transporting: *New uncrated gas stoves*, from Newark, Calif., to points in Arizona, and *damaged shipments* on return.

No. MC 115657, filed November 1, 1955, ALAN N. CAMPBELL, 203 East Hector Street, Conshohocken, Pa. Applicant's attorney: Donald J. McGonigal, 121 Fayette Street, Conshohocken, Pa. For authority to operate as a *common carrier*, over irregular routes, transporting: *Household goods* as defined by the Commission, between Conshohocken, Pa., on the one hand, and, on the other, points in Delaware, New Jersey and New York.

APPLICATIONS OF MOTOR CARRIERS OF PASSENGERS

No. MC 3647 Sub 193, filed October 25, 1955, PUBLIC SERVICE COORDINATED TRANSPORT, 80 Park Place, Newark, N. J. Applicant's attorney: Winslow B. Ingham, Associated General Solicitor, Law Department, Public Service Coordinated Transport, Public Service Terminal, Newark 1, N. J. For authority to operate as a *common carrier*, over regular routes, transporting: *Passengers and their baggage*, and *express* and *newspapers*, in the same vehicle with passengers, within the City of Clifton, N. J. (1) from junction River Road and Delawanna Avenue over River Road to junction Entin Road, thence over Entin Road to junction Carol Street, and return over the same route, and (2) from junction Allwood Road and Bloomfield Avenue over Bloomfield Avenue to junction Brighton Avenue, thence over Brighton Avenue to the Fisher-Stevens Plant, and return over the same route. Serving all intermediate points on the above-specified routes. Applicant is authorized to conduct regular route operations in Delaware, New Jersey, New York and Pennsylvania.

No. MC 28680 Sub 8, filed October 31, 1955, JORDAN BUS COMPANY, a corporation, Jordan Terminal Bldg., 200 East Jackson Street, Hugo, Okla. For authority to operate as a *common carrier*, over regular routes, transporting: *Passengers and their baggage*, and *express, newspapers*, and *mail*, in the same vehicle with passengers, between Paris, Texas, and Mt. Pleasant, Texas, over U. S. Highway 271, serving all intermediate points. Applicant is authorized to conduct operations in Arkansas, Oklahoma and Texas.

No. MC 52813 Sub 3, filed October 17, 1955, BEN W. BICKEL, doing business as BICKEL BUS LINES, 711 Seventh, Alva, Okla. Applicant's representative: C. L. Harkness, Ransom, Kans. For authority to operate as a *common carrier*, over a regular route transporting: *Passengers and their baggage*, and *express, newspapers*, and *mail*, in the same vehicle with passengers, between Conway Springs, Kans., and Medicine Lodge, Kans., from Conway Springs in a westerly direction over unnumbered county highway to junction Kansas Highway 2, thence over Kansas Highway 2 to Harper, Kans., thence over U. S. Highway 160 to Medicine Lodge, and return over the same route, serving all intermediate points. Applicant is authorized to conduct operations in Kansas and Oklahoma.

No. MC 115487, filed August 1, 1955, and amended October 28, 1955, GEORGE BELL, doing business as BELL'S BUS SERVICE, Lovers Lane, Glassboro, N. J. Applicant's attorney: Harry Adler, 143 E. Commerce St., Bridgeton, N. J. For authority to operate as a *common carrier*, over regular routes, transporting: *Passengers and their baggage*, and *newspapers*, in the same vehicle with passengers, between Ancora, N. J., and Philadelphia, Pa., beginning at the hospital at Ancora, thence southwest on Spring Garden Street to Winslow Road, thence west on Winslow Road to Malaga Road, thence south on Malaga Road to Corkey's Lane, thence west on Corkey's Lane to the Blackhorse Pike, thence northwest on the Blackhorse Pike to Main Street in Williamstown, N. J., thence northwest on Main Street to Egg Harbor Road, thence over Egg Harbor Road to Delsea Drive (Fairview, N. J.), thence over Delsea Drive to Egg Harbor Road (New Sharon, N. J.), thence over Egg Harbor Road to Barber Avenue in Woodbury, N. J., thence over Barber Avenue to Broad Street, thence north on Broad Street to Gateway Blvd., Westville, N. J., thence over Gateway Blvd., to Broadway, Gloucester, N. J., thence north on Broadway to the New York Shipyards, thence south on Broadway to the New Packer Bridge Approach (Philadelphia-Gloucester Bridge now under construction), thence over the bridge to Broad Street, Philadelphia, Pa., thence over Broad Street to Locust Street, thence over Locust Street to Seventh Street, thence over Seventh Street to Samson Street terminal, and return over the same route, serving the intermediate points of Williamstown, Cross Keys, Hurffville, Fairview, New Sharon, Woodbury, Westville, Brooklawn, Gloucester, and Camden, N. J.

CORRECTIONS

Docket No. MC 66562 Sub 1250, RAILWAY EXPRESS AGENCY, INCORPORATED, published on page 7406, issue of October 5, 1955. Delete from the commodity description that portion reading: "but excepting those of unusual value, household goods as defined by the Commission, commodities in bulk, and commodities requiring special equipment." The commodities sought to be transported, as corrected, reads: "*General commodities, including Class A and B explosives, moving in express service.*"

APPLICATIONS UNDER SECTION 5 AND 210a (b)

No. MC–F 5788, published in the September 29, 1954, issue of the FEDERAL REGISTER on page 6295. Application filed October 28, 1955, for temporary authority under Section 210a (b).

No. MC–F 5869, published in the December 29, 1954 issue of the FEDERAL REGISTER on page 9311. By petition filed October 31, 1955, applicants propose that the authority sought to be transferred be amended in such manner that vendor will retain its terminal and service at Bradford, Pa., an intermediate point on the route between Kane, Pa., and Foster Brook, Pa.

No. MC–F 6124. Authority sought for control by SCHWERMAN TRUCKING CO., (WISCONSIN), 620 S. 29th St., Milwaukee, Wis., of the operating rights and property of SCHWERMAN TRUCKING CO. OF ILL., INC., 620 S. 29th St., Milwaukee, Wis., and for acquisition by FRED SCHWERMAN, SR., FRED J. SCHWERMAN, RICHARD D. SCHWERMAN, and RUTH SCHWERMAN (on behalf of CARL SCHWERMAN, a minor), of control of the rights and property through the transaction. Applicant's attorney: Adolph E. Solie, 715 First National Bank Bldg., Madison 3, Wis. SCHWERMAN TRUCKING CO. OF ILL., INC., is presently operating as an intrastate carrier and has applied for the following interstate authority: *Fuel oils, residual*, in insulated tank vehicles, equipped with heater coils or other heating devices for maintaining the lading in a free flowing condition, as a *contract carrier* over irregular routes, from Peru, Ill., and points in Illinois within 10 miles of Peru, to points in Wisconsin located on and south of the following highways; Wisconsin Highway 33 from Port Washington to Hillsboro and Wisconsin Highway 82 from Hillsboro to De Soto. SCHWERMAN TRUCKING CO. (WISCONSIN) is authorized to operate in Indiana, Illinois, and Wisconsin. Application has not been filed for temporary authority under Section 210a(b). No. MC 115577, published in the October 26, 1955, issue of the FEDERAL REGISTER on page 8062, is a directly related matter.

No. MC–F 6125. Authority sought for control by MISSOURI-KANSAS-TEXAS RAILROAD COMPANY, 1506 Railway Exchange Bldg., 611 Olive St., St. Louis 1, Mo., of the operating rights and property of COORDINATED TRANSPORTATION COMPANY, 115–17 S. Lexington, Harrisonville, Mo. Applicant's attorney: Clarence D. Todd, 944 Washington Bldg. Operating rights sought to be controlled: *General commodities*, with certain exceptions including household goods, as a *common carrier* over regular routes including routes between New Franklin, Mo., and Parsons, Kans., between Kansas City, Mo., and Parsons, Kans., between Parsons, Kans., and Junction City, Kans., Joplin, Mo., Muskogee and Oklahoma City, Okla., between Muskogee, Okla., and Denison, Tex., and Oklahoma City, Okla., between Dallas and Denison, Tex., and Wichita Falls, Tex., between Dallas and Fort Worth, Tex., and Waco, Tex., and between Waco and Smithville, Tex., and between San Antonio and Smithville, Tex. Applicant is a common carrier by railroad. Application has not been filed for temporary authority under section 210a (b).

No. MC–F 6126. Authority sought for purchase by A. A. O'CONNOR, doing business as O'CONNOR BROS. AND O'CONNOR BROTHERS TRUCKING COMPANY, 800 W. 27th St., Odessa, Texas, of the operating rights of H. C. DANIEL, BENNY B. McCULLOUGH, and PAT M. McCULLOUGH, doing business as McCULLOUGH TRUCKING CO., 4605 Wyoming St., Wichita Falls, Texas. Applicants' attorney: Robert S. Watson, 712 Wichita National Bldg., Wichita Falls, Texas. Operating rights sought to be transferred: *Oilfield commodities*, as a *common carrier*, over irregular routes, between all points in Oklahoma, and those in Texas on and west of a line beginning at the Texas-Oklahoma State line and extending along U. S. Highway 81 to San Antonio, Tex., thence along U. S. Highway 281 (old Texas Highway 66) to the Rio Grande River. Vendee is authorized to operate in New Mexico and Texas. Application has not been filed for temporary authority under Section 210a (b).

No. MC–F 6127. Authority sought for control and merger by CONSOLIDATED FREIGHTWAYS, INC., 2029 N. W. Quimby St., Portland, Oregon, of the operating rights and property of BICE TRUCK LINES, INC., 505 E. Main St., Laurel, Montana, and for acquisition by PEERLESS, INC., LELAND JAMES, AND ERIC RENDAHL, all of Portland, E. W. A. PEAKE and WANDA PEAKE, Both of Hollywood, Calif., of control of said operating rights and property through the transaction. Applicant's attorneys: White, Sutherland and Parks, 1100 Jackson Tower, Portland 5, Oregon, W. S. Pilling, 2029 N. W. Quimby St., Portland, Oregon, and Jerome Anderson, Electric Bldg., Billings, Mont. Operating rights sought to be controlled and merged: *Petroleum and petroleum products*, including *casinghead gasoline* and *road oil*, as a *common carrier*, over regular and irregular routes, from, to and between certain points in Montana, Wyoming, and Idaho. CONSOLIDATED FREIGHTWAYS, INC., is authorized to operate in California, Idaho, Illinois, Iowa, Minnesota, Montana, Nevada, North Dakota, Oregon, Utah, Washington, Wisconsin, and Wyoming. Application has not been filed for temporary authority under Section 210a (b).

By the Commission.

[SEAL] HAROLD D. McCOY, *Secretary.*

SECURITIES AND EXCHANGE COMMISSION

[File Nos. 54–127, 59–3, 59–12]

ELECTRIC BOND AND SHARE CO.

ORDER RELEASING JURISDICTION OVER ADDITIONAL FEES

NOVEMBER 3, 1955.

The Commission having by its order of August 4, 1950 (Holding Company Act Release No. 10018), pursuant to section 11 (e) of the Public Utility Holding Company Act of 1935, approved Plan II–B of Electric Bond and Share Company ("Bond and Share"), a registered holding company, but having reserved jurisdiction over all fees and expenses incurred or to be incurred in connection with said Plan; and the District Court having approved said Plan and ordered its enforcement (In re Electric Bond and Share Company, 95 F. Supp. 492 (S. D. N. Y. 1951)); and

Claims for fees and expenses in connection with said Plan having thereafter been filed with the Commission and having been allowed in part and denied in part by the Commission in its orders of June 5, 1953 (Holding Company Act Release No. 11978), and October 27, 1954 (Holding Company Act Release No. 12691); and Simpson Thatcher & Bartlett, counsel for Bond and Share, having been allowed $161,500 for fees and $13,806.94 for expenses or a total of $175,306.94 in connection with their services in connection with the formulation, approval and consummation of said Plan; and

Simpson, Thacher & Bartlett having filed an affidavit covering their services from October 31, 1952, to November 10, 1954, solely in connection with opposing, reducing, and negotiating with respect to, claims for fees which Bond and Share opposed or considered excessive, claiming a fee for such services in the amount of $7,000, it being stated that approximately 318 hours were spent in the rendition of such services, that no part of such services related to the presentation of Simpson, Thacher & Bartlett's principal claim for services and expenses which has heretofore been allowed by the Commission, as above set forth, and that such additional fee is agreeable to Bond and Share; and

It appearing to the Commission that such claim for additional compensation by Simpson, Thacher & Bartlett is reasonable, that such services were a benefit to the estate of Bond and Share, and that jurisdiction in respect thereto should be released;

It is ordered, That the jurisdiction heretofore reserved be, and the same hereby is, released so as to permit the payment by Bond and Share to Simpson, Thacher & Bartlett of the sum of $7,000.

By the Commission.

[SEAL] ORVAL L. DUBOIS, *Secretary.*

PART 6—EXCEPTIONS FROM THE COMPETITIVE SERVICE

DEPARTMENT OF STATE; DEPARTMENT OF THE ARMY

Effective upon publication in the FEDERAL REGISTER, paragraph (a) (23) is added to § 6.302 and paragraph (a) (9) is added to § 6.305, as set out below.

§ 6.302 *Department of State*—(a) *Office of the Secretary.* * * *

(23) The Chief of Protocol, Office of the Under Secretary.

§ 6.305 *Department of the Army*—(a) *Office of the Secretary.* * * *

(9) One Special Assistant to the Assistant Secretary of the Army (Logistics) for Procurement.

(R. S. 1753, sec. 2, 22 Stat. 403; 5 U. S. C. 631, 633; E. O. 10440, 18 F. R. 1823, 3 CFR 1953 Supp.)

PART 24—FORMAL EDUCATION REQUIREMENTS FOR APPOINTMENT TO CERTAIN SCIENTIFIC, TECHNICAL, AND PROFESSIONAL POSITIONS

GEOPHYSICIST

Section 24.127 is added to read as set out below.

§ 24.127 *Geophysicist (Earth Physics, Geomagnetics, Seismology), GS-1313-5-15*—(a) *Educational requirement.* Applicants must have completed one of the following:

(1) A full 4-year course in an accredited college or university leading to a bachelor's degree including courses in mathematics and physics (inclusive of geophysics) totaling 24 semester hours, and courses in the physical sciences (engineering, geology, astronomy, electronics, etc.) totaling 6 semester hours; or

(2) Courses in mathematics and physics in an accredited college or university totaling 24 semester hours; plus additional appropriate experience or education in scientific fields which when combined with the 24 semester hours in mathematics and physics will total 4 years of education and experience and give the applicant a technical and professional knowledge, comparable to that which would have been acquired through the successful completion of the 4-year college course described in subparagraph (1) of this paragraph.

In either subparagraph (1) or (2) of this paragraph, the courses must have included a minimum of 10 semester hours in any combination of courses in trigonometry, differential calculus, integral calculus, theory of equations, vector analysis, higher algebra (beyond elementary college algebra), differential equations, advanced calculus; and a minimum of 8 semester hours in physics. All of the courses specified in subparagraph (1) or (2) of this paragraph must have been accepted for credit toward the completion of a standard 4-year professional curriculum leading to a bachelor's degree at an accredited college or university.

(b) *Duties.* Geophysicists apply mathematics and physics to the solution of geophysical problems or the geophysical interpretation of scientific phenomena. The duties deal with: (1) The electric, magnetic and gravitational field of the earth, (2) deformation of the earth, (3) the motion and constitution of the earth, (4) cosmic physics in its relation to the earth and its atmosphere, (5) response of the earth to artificially applied fields of force. The duties include making observations in the field or at fixed stations, interpreting the results, preparing charts and tabulations, and securing other information required for interpretations; designing or assisting in constructing specialized apparatus and equipment for use in connection with geophysical measurements, and the testing and calibrating of such apparatus and equipment; making reports and preparing articles for publication.

FEDERAL REGISTER

Published daily, except Sundays, Mondays, and days following official Federal holidays, by the Federal Register Division, National Archives and Records Service, General Services Administration, pursuant to the authority contained in the Federal Register Act, approved July 26, 1935 (49 Stat. 500, as amended; 44 U. S. C., ch. 8B), under regulations prescribed by the Administrative Committee of the Federal Register, approved by the President. Distribution is made only by the Superintendent of Documents, Government Printing Office, Washington 25, D. C.

The FEDERAL REGISTER will be furnished by mail to subscribers, free of postage, for $1.50 per month or $15.00 per year, payable in advance. The charge for individual copies (minimum 15 cents) varies in proportion to the size of the issue. Remit check or money order, made payable to the Superintendent of Documents, directly to the Government Printing Office, Washington 25, D. C.

The regulatory material appearing herein is keyed to the CODE OF FEDERAL REGULATIONS, which is published, under 50 titles, pursuant to section 11 of the Federal Register Act, as amended August 5, 1953. The CODE OF FEDERAL REGULATIONS is sold by the Superintendent of Documents. Prices of books and pocket supplements vary.

There are no restrictions on the republication of material appearing in the FEDERAL REGISTER, or the CODE OF FEDERAL REGULATIONS.

(c) *Knowledge and training requisite for performance of duties.* The duties of these positions can not be performed without a sound basic knowledge of fundamental mathematics and physics and broad training in related scientific fields. These duties require exacting knowledge and training. Appointees must have the ability to apply scientific knowledges to the work in order to solve specific problems, interpret and apply the results of research in geophysics and related sciences, and to perform research in geophysics. The knowledge and training required can only be acquired through a planned and directed course of study in an accredited college or university where there are adequate scientific libraries and well-equipped laboratories, where competent instruction and guidance are available, where courses are arranged in a systematic, progressive schedule, and where progress in the acquisition of professional and scientific knowledge is competently evaluated.

TITLE 25—INDIANS

Chapter I—Bureau of Indian Affairs, Department of the Interior

PART 100—FLATHEAD, MISSION, AND JOCKO VALLEY IRRIGATION DISTRICTS, MONTANA

PENALTY FOR NON-PAYMENT OF ASSESSMENTS

On July 6, 1955, there was published in the FEDERAL REGISTER, 20 F. R. 4775, notice of intention, to amend § 100.8 *Penalty for non-payment of assessments* of Title 25, Code of Federal Regulations. Interested persons were thereby given opportunity to participate in preparing the amendment by submitting their views, data or arguments in writing within 30 days from the date of publication of the notice of intention. No objections were submitted. Accordingly § 100.8 is as follows, to be effective for the season of 1956 and thereafter until further notice:

§ 100.8 *Penalty for non-payment of assessments.* All assessments duly authorized shall be paid on the due date to the properly designated Officer of the Indian Irrigation Service at St. Ignatius, Montana, and on all such assessments remaining unpaid on and after March 1, and August 1, following the due dates there shall be assessed a penalty of one-half percent per month or fraction thereof, from the due date until paid.

(Secs. 1, 3, 36 Stat. 270, 272, as amended, 25 U. S. C. 385)

CLARENCE A. DAVIS,
Acting Secretary of the Interior.

SUBPART—SELECTION AND FUNCTIONS OF AGRICULTURAL STABILIZATION AND CONSERVATION COUNTY AND COMMUNITY COMMITTEES

ACTING COUNTY COMMITTEE DURING INVESTIGATION

By virtue of the authority vested in the Secretary of Agriculture by the Soil Conservation and Domestic Allotment Act, as amended, § 7.30 (b) of the regulations in this subpart published in the FEDERAL REGISTER of June 19, 1954 (19 F. R. 3637) is hereby amended, effective upon filing with the Director, Division of the Federal Register, as follows:

§ 7.30 *County and community committeemen and members of community election boards.* • • •

(b) If because of an investigation there are less than two members or alternates available to serve on the county committee, the State Committee shall designate a person to administer the programs in the county pending the exoneration or removal of those under investigation, and if removed, pending the election of new county committee members and alternates. Such person may be the remaining member or alternate member of the committee if available. Any person named by the State Committee in such capacity shall, notwithstanding the provisions of § 7.41, have full authority to perform all duties regularly performed by a duly elected county committee.

(Sec. 5, 49 Stat. 164, as amended; 16 U. S. C. 590d. Interprets or applies 49 Stat. 1149, as amended; 16 U. S. C. 590h.)

Done at Washington, D. C., this 7th day of November 1955. Witness my hand and seal of the Department of Agriculture.

[SEAL] TRUE D. MORSE,
Acting Secretary of Agriculture.

[F. R. Doc. 55-9066; Filed, Nov. 9, 1955; 8:48 a. m.]

Chapter I—Agricultural Marketing Service (Standards, Inspections, Marketing Practices), Department of Agriculture

PART 26—GRAIN STANDARDS

SUBPART A—REGULATIONS

INSPECTOR NOT TO BE INTERESTED IN GRAIN; QUALIFICATIONS OF SAMPLER

On September 13, 1955, there was published in the FEDERAL REGISTER (20 F. R. 6713), a notice of a proposal to amend §§ 26.23 and 26.24 of the Regulations of the Secretary of Agriculture under the United States Grain Standards Act, as amended (7 CFR 26.23, 26.24; 7 U. S. C. 84). Interested parties were given thirty days in which to submit written data, views, or arguments concerning the proposed amendments.

The purpose of these amendments is to amplify and clarify §§ 26.23 and 26.24 of the regulations which will aid in the administration of the provisions of Section 7 of the Act with respect to activities of licensed grain inspectors, and persons who draw samples of grain for them, in connection with grain handling and merchandising operations.

After due consideration of all relevant material, arguments, and opinions received and all data available in the Department of Agriculture on this proposal, the said §§ 26.23 and 26.24 are hereby amended pursuant to the provisions of section 8 of the United States Grain Standards Act, as amended (39 Stat. 485; 7 U. S. C. 84) to read:

§ 26.23 *Inspector not to be interested in grain.* No licensed inspector shall be interested, financially or otherwise, directly or indirectly, in any grain elevator or warehouse, or in the merchandising of grain, including the binning, mixing, blending, drying or other preparation of grain for purposes of warehousing, storage, shipment, or otherwise, nor shall he be in the employment of any person or corporation owning or operating a grain elevator or warehouse, nor shall he issue a certificate of grade for any grain in which he is directly or indirectly financially interested.

§ 26.24 *Qualifications of sampler.* No licensed inspector shall issue a certificate of grade for a lot or parcel of grain based upon a sample thereof drawn by a sampler who is not employed by him or his inspection department, or who is not an employee of the United States Department of Agriculture approved for the purpose by a grain supervisor, or who is interested, financially or otherwise, directly or indirectly, in the grain involved or in any grain elevator or warehouse or in the merchandising of grain, including

the binning, mixing, blending, drying, or other preparation of grain for purposes of warehousing, storage, shipment, or otherwise, or who is in the employment of any person or corporation owning or operating a grain elevator or warehouse, or who the licensed inspector knows or has reason to believe is incompetent.

(Sec. 8, 39 Stat. 485; 7 U. S. C. 84)

The foregoing amendments shall become effective on the first day of January 1956.

Done at Washington, D. C., this 7th day of November, 1955.

[SEAL] FRANK E. BLOOD,
Acting Deputy Administrator,
Agricultural Marketing Service.

[F. R. Doc. 55-9064; Filed, Nov. 9, 1955; 8:47 a. m.]

Chapter IX—Agricultural Marketing Service (Marketing Agreements and Orders), Department of Agriculture

[Navel Orange Reg. 59]

PART 914—NAVEL ORANGES GROWN IN ARIZONA AND DESIGNATED PART OF CALIFORNIA

LIMITATION OF HANDLING

§ 914.359 *Navel Orange Regulation 59*—(a) *Findings.* (1) Pursuant to the marketing agreement, as amended, and Order No. 14, as amended (7 CFR Part 914; 19 F. R. 2941), regulating the handling of Navel oranges grown in Arizona and designated part of California, effective September 22, 1953, under the applicable provisions of the Agricultural Marketing Agreement Act of 1937, as amended (7 U. S. C. 601 et seq.), and upon the basis of the recommendation and information submitted by the Navel Orange Administrative Committee, established under the said amended marketing agreement and order, and upon other available information, it is hereby found that the limitation of handling of such Navel oranges, as hereinafter provided, will tend to effectuate the declared policy of the act.

(2) It is hereby further found that it is impracticable and contrary to the public interest to give preliminary notice, engage in public rule making procedure, and postpone the effective date of this section until 30 days after publication thereof in the FEDERAL REGISTER (60 Stat. 237; 5 U. S. C. 1001 et seq.) because the time intervening between the date when information upon which this section is based became available and the time when this section must become effective in order to effectuate the declared policy of the act is insufficient, and a reasonable time is permitted, under the circumstances, for preparation for such effective time; and good cause exists for making the provisions hereof effective as hereinafter set forth. The Navel Orange Administrative Committee held an open meeting on November 3, 1955, after giving due notice thereof, to consider supply and market conditions for Navel oranges and the need for regulation; interested persons were afforded an opportunity to submit information and views at this meeting; the recommendation and supporting information for regulation during the period specified herein was promptly submitted to the Department after such meeting was held; the provisions of this section, including its effective time, are identical with the aforesaid recommendation of the committee, and information concerning such provisions and effective time has been disseminated among handlers of such Navel oranges; it is necessary, in order to effectuate the declared policy of the act, to make this section effective during the period herein specified; and compliance with this section will not require any special preparation on the part of persons subject thereto which cannot be completed on or before the effective date hereof.

(b) *Order.* (1) During the period beginning at 12:01 a. m., P. s. t., November 14, 1955, and ending at 12:01 a. m., P. s. t., June 3, 1956, no handler shall handle any Navel oranges, grown in District 1, in District 3, or in District 4 which are of a size smaller than 2.31 inches in diameter, which shall be the largest measurement at a right angle to a straight line running from the stem to the blossom end of the fruit: *Provided,* That not to exceed 5 percent, by count, of the oranges contained in any type of container may measure smaller than 2.31 inches in diameter.

(2) As used in this section, "handle," "handler," "District 1," "District 3," and "District 4," shall have the same meaning as when used in said amended order.

(Sec. 5, 49 Stat. 753, as amended; 7 U. S. C. 608c)

Dated: November 7, 1955.

[SEAL] S. R. SMITH,
Director, Fruit and Vegetable Division, Agricultural Marketing Service.

[F. R. Doc. 55-9112; Filed, Nov. 9, 1955; 8:57 a. m.]

PART 1066—IRISH POTATOES

RESTRICTION ON IMPORTATION

§ 1066.8 *Potato Regulation No. 2*—(a) *Findings and determinations*—(1) *Findings.* (i) Notice of rule making regarding proposed restrictions on the importation of Irish potatoes into the United States, to be made effective under section 8e of the Agricultural Marketing Agreement Act of 1937, as amended (48 Stat. 31, as amended; 7 U. S. C. 601 et seq.; 68 Stat. 906, 1047), was published in the FEDERAL REGISTER October 22, 1955, (20 F. R. 7966). After consideration of all relevant matters presented, including the proposals set forth in the aforesaid notice, and the data, views, and arguments submitted by interested parties, it is hereby found that the restrictions on the importation of Irish potatoes into the United States, as hereinafter provided are in accordance with said section 8e.

(ii) It is hereby found that it is impracticable and contrary to the public interest to postpone the effective date of this section beyond that herein specified (5 U. S. C. 1001 et seq.) in that (*a*) the requirements established by this import regulation are issued pursuant to section 8e of the Agricultural Marketing Agreement Act of 1937, as amended, (48 Stat. 31, as amended; 7 U. S. C. 601 et seq.; 68 Stat. 906, 1047), which makes such regulation mandatory; (*b*) grade, size, and quality regulations are now in effect on domestic shipments of potatoes under § 970.302 of this chapter (20 F. R. 6815, 8091) and § 957.313 of this chapter (20 F. R. 4794, 5807, 6075, 6729, 7325); (*c*) the General Regulations (Part 1060 of this chapter) relating to prohibition of imported commodities were published in the FEDERAL REGISTER on November 30, 1954 (19 F. R. 7707, 8012); (*d*) notice that this action was being considered to become effective November 14, 1955, was published in the FEDERAL REGISTER on October 22, 1955 (20 F. R. 7966); (*e*) compliance with this section will not require any special preparation by importers which cannot be completed by the effective date; (*f*) notice hereof in excess of three days, the minimum that is prescribed by said section 8e, is given with respect to this section; and (*g*) such notice is hereby determined, under the circumstances, to be reasonable.

(2) *Determinations with respect to imports of Irish potatoes.* (i) Pursuant to section 8e of the Agricultural Adjustment Act of 1933, as amended, and as reenacted and amended by the Agricultural Marketing Agreement Act of 1937, as amended (48 Stat. 31, as amended; 7 U. S. C. 601 et seq.; 68 Stat. 906, 1047), it is hereby determined that during the effective time hereof imports of Irish potatoes of the long varieties are in most direct competition with such varieties of Irish potatoes which are grown in the production area defined in Order No. 57 (Part 957 of this chapter; designated counties in Idaho and Malheur County, Oregon) and imports of Irish potatoes of the round white or red skin varieties are in most direct competition with such varieties of Irish potatoes which are grown in the production area defined in Order No. 70 (Part 970 of this chapter; the State of Maine).

(ii) It is hereby further determined that the grade, size, and quality regulations hereby established for the respective varieties of Irish potatoes that may be imported into the United States are equivalent or comparable to those imposed upon domestic Irish potatoes under the aforesaid marketing orders.

(b) *Import restrictions.* During the period from November 14, 1955, to June 30, 1956, both dates inclusive, and subject to the General Regulations (Part 1060 of this chapter) applicable to the importation of listed commodities and the requirements of this section, no person shall import any Irish potatoes of any variety, other than certified seed potatoes, unless at least 90 percent of such potatoes are "fairly clean" and (1) if they are of the round white or red skin varieties, such potatoes meet the requirements of the U. S. No. 1 or better grade, 2¼ inches minimum diameter and 4 inches maximum diameter, and (2) if they are of the long white varieties (including, but not limited to, Russet Burbank variety), such potatoes meet the requirements of the U. S. No. 2 or better grade, Size A, 5 ounces minimum weight, except that potatoes of such long white varieties not less than 2 inches minimum diameter or 4 ounces minimum weight, Size A, may be imported if they meet the requirements of the U. S. No. 1 or better grade.

(c) *Minimum quantities.* Any importation which, in the aggregate, does not exceed 500 pounds, may be imported without regard to the provisions of paragraph (b) of this section.

(d) *Plant quarantine.* No provisions of this section shall supersede the restrictions or prohibitions on potatoes under the Plant Quarantine Act of 1912.

(e) *Certified seed imports.* Any person may import certified seed potatoes, which shall include only those potatoes which are officially certified and tagged as seed potatoes by the Plant Protection Division, Science Service, Canada Department of Agriculture.

(f) *Designation of Governmental Inspection Service.* The Fruit and Vegetable Inspection Services, Fruit and Vegetable Division, Marketing Service, Canada Department of Agriculture, is hereby designated, pursuant to § 1060.4 (a) of this chapter, as a governmental inspection service for the purpose of certifying the grade, size, quality, and maturity of Irish potatoes that are imported, or to be imported, from Canada into the United States under the provisions of section 8e of the act.

(g) *Inspection and official inspection certificates.* (1) Inspection by the Federal or Federal-State Inspection Service, by the Fruit and Vegetable Inspection Services, Fruit and Vegetable Division, Marketing Service, Canada Department of Agriculture, or by such other governmental inspection service as may be designated, or approved, by the Administrator, with appropriate evidence thereof in the form of an official inspection certificate issued by the respective service and applicable to a particular shipment of potatoes, is required on all imports of potatoes, other than certified seed, pursuant to § 1060.3 of this chapter (*Eligible imports*).

(2) Inspection certificates shall cover only the quantity of potatoes that is being imported at a particular port of entry by a particular importer.

(3) The inspections performed, and certificates issued, by the Federal or Federal-State Inspection Services shall be in accordance with the rules and regulations of the Department governing the inspection and certification of fresh fruits, vegetables, and other products (Part 51 of this title; 20 F. R. 4842). The cost of inspection and certification shall be borne by the applicant therefor.

(4) Each inspection certificate issued with respect to any Irish potatoes to be imported into the United States shall set forth, among other things:

(i) The date and place of inspection;

(ii) The name of the shipper, or applicant;

(iii) The name of the importer (consignee);

(iv) The commodity inspected;

(v) The quantity of the commodity covered by the certificate;

(vi) The principal identifying marks on the containers;

(vii) The railroad car initials and number, the truck and trailer license number, the name of the vessel, or other identification of the shipment; and

(viii) The following statement, if the facts warrant: Meets U. S. Import requirements under section 8e of the Agricultural Marketing Agreement Act of 1937.

(h) *Definitions.* (1) The terms "U. S. No. 1", "U. S. No. 2", "fairly clean," and "Size A" mean the U. S. No. 1 grade, the U. S. No. 2 grade, fairly clean, and Size A, respectively, as set forth in the United States Standards for Potatoes (§§ 51.1540 to 51.1559, inclusive, of this title) including the tolerances set forth therein. For the purposes of this section, the following United States Potato Standards and Canadian potato standards are determined to be equivalent; U. S. No. 1 grade and Canada No. 1 grade; U. S. No. 2 grade and Canada No. 2 grade.

(2) All other terms have the same meaning as when used in the General Regulations (Part 1060 of this chapter) applicable to the importation of listed commodities.

Dated: November 7, 1955.

[SEAL] S. R. SMITH,
Director,
Fruit and Vegetable Division.

[F. R. Doc. 55-9116; Filed, Nov. 9, 1955; 8:58 a. m.]

TITLE 30—MINERAL RESOURCES

Chapter I—Bureau of Mines, Department of the Interior

Subchapter E—Mechanical Equipment for Mines; Tests for Permissibility; Fees

[Bureau of Mines Schedule 28]

PART 34—FIRE-RESISTANT CONVEYOR BELTS

There was published in the FEDERAL REGISTER of September 1, 1955 (20 F. R. 6475), a notice and text of proposed regulations amending the title of Subchapter E of Title 30, Code of Federal Regulations and prescribing requirements governing investigations leading to acceptability of Fire-Resistant Conveyor Belts. After consideration of all relevant material presented pursuant to the notice, the regulations as published in the FEDERAL REGISTER of September 1, 1955, and as corrected in the FEDERAL REGISTER of October 26, 1955 (20 F. R. 8050), are hereby adopted without change.

F. E. WORMSER,
Assistant Secretary of the Interior.

NOVEMBER 4, 1955.

Sec.
34.1 Definitions.
34.2 Scope of this part.
34.3 Preliminary consultation.
34.4 Application, fee, and sample.
34.5 Fees for testing conveyor belts.
34.6 Termination of investigation; disposal of fee and material.
34.7 Date of tests.
34.8 Observers at formal investigations and demonstrations.
34.9 Types of tests.
34.10 Flame test.
34.11 Drum friction test.
34.12 Changing details of tests.
34.13 Notification of acceptance or rejection.
34.14 Acceptance markings.
34.15 Manufacturer's obligation.
34.16 Changes subsequent to acceptance.
34.17 Withdrawal of acceptance.

AUTHORITY: §§ 34.1 to 34.17 issued under sec. 5, 36 Stat. 370, as amended; 30 U. S. C. sec. 7. Interpret or apply secs. 2, 3, Stat. 370, as amended, 30 U. S. C. 3, 5.

§ 34.1 *Definitions*—(a) *Fire-resistant conveyor belt.* A conveyor belt that is identical in all respects to the sample of the conveyor belt designated as acceptable under this part.

(b) *Sample.* That portion of a conveyor belt submitted to the Bureau by a manufacturer for acceptance testing.

(c) *Specimen.* A specific portion of a sample prepared for testing purposes.

(d) *Acceptance.* Written official notification by the Bureau of Mines that a conveyor belt has met satisfactorily the requirements of this part.

(e) *Acceptance marking.* An identifying mark indicating that the conveyor belt has been accepted for listing by the Bureau of Mines as fire-resistant.

§ 34.2 *Scope of this part.* The regulations in this part define the fire-resistant properties, methods of testing to determine such properties, the manner in which samples should be submitted and specimens prepared for tests, and the manufacturer's identification and markings to denote acceptance when the results of tests are satisfactory. Other requirements, such as strength, resistance to wear, and flexibility, are not covered by the regulations in this part.

§ 34.3 *Preliminary consultation.* Manufacturers or their representatives may visit or communicate with the Central Experiment Station, Bureau of Mines, 4800 Forbes Street, Pittsburgh 13, Pennsylvania, to discuss the requirements or regulations in this part in connection with a belt to be submitted for test. No charge is made for such consultation, and no formal report will be submitted to the manufacturer.

§ 34.4 *Application, fee, and sample.* (a) An application for investigation under this part shall be in duplicate, addressed to the Central Experiment Station, Bureau of Mines, 4800 Forbes Street, Pittsburgh 13, Pennsylvania, and shall include:

(1) Description and specifications of the conveyor belt, which may be supplemented by descriptive literature. Specifications shall include: Trade name of the conveyor belt; thickness of covers; designation of the compounds used in the manufacture of the covers, friction, and skim coats; number of plies; type and weight of ply materials; a designation of breaker strip or floated ply; and any other features deemed significant by the applicant.

(2) A statement that the conveyor belt is completely developed and ready for market.

(3) A statement that the conveyor belt has been subjected to a flame test,

the nature of the test, and results obtained.

(4) A request that the necessary tests leading to acceptance be made.

(b) Each application shall be accompanied by a check, draft, or money order, payable to the United States Bureau of Mines, to cover the cost of tests (see § 34.5).

(c) Two samples of the conveyor belt to be tested, each 6-feet long by 9-inches wide and having open edges, shall be delivered without charge to the Central Experiment Station, Bureau of Mines, 4800 Forbes Street, Pittsburgh 13, Pennsylvania. A conveyor belt will not be accepted for testing under this part unless the samples submitted are constructed in the form in which the belt is to be marketed. On receipt of this application, fee, and samples to be tested, the Bureau will act on the application.

§ 34.5 *Fees for testing conveyor belts.*

1. Flame test	$15.00
2. Drum-friction test	35.00

3. Fees for other tests will be based on the actual cost of testing, as determined by the Bureau, in which case the applicant will be notified and the fees paid before the tests are initiated.

§ 34.6 *Termination of investigation; disposal of fee and material.* Upon request by an applicant that the Bureau terminate its investigation of the conveyor belt, the Bureau will terminate the investigation, and will return to the applicant the fees paid by him, less such portion thereof as the Bureau determines is applicable to the testing already done. The Bureau of Mines may retain as its own property any or all material submitted by the applicant that may be required for record. Any material remaining after termination of tests and not required for record will be available to the applicant and will be returned at his expense on shipping instructions made in writing to the Central Experiment Station, Bureau of Mines, 4800 Forbes Street, Pittsburgh 13, Pennsylvania.

§ 34.7 *Date of tests.* Tests will be made in the order in which samples are received by the Bureau after applications have been filed and accepted; however, not more than three belts will be tested consecutively for any one manufacturer, if applications are on file from other manufacturers. The applicant will be notified of the date on which tests will be started. If a conveyor belt fails to meet any of the requirements set forth in this part, it shall lose its order of test precedence. Tests will be made on resubmitted samples following completion of other test work which is in progress at the time both the request and the materials for retesting are received. Exceptions to the provisions of this section may be made only for minor tests that may be performed simultaneously with other work in the laboratory.

§ 34.8 *Observers at formal investigations and demonstrations.* No one shall be present during any part of the formal investigation conducted by the Bureau which leads to acceptability except the necessary Government personnel, representatives of the applicant, and such other persons as may be mutually agreed upon by the applicant and the Bureau. Upon accepting a conveyor belt for listing as fire-resistant, the Bureau will announce that such acceptability has been granted and may thereafter conduct from time to time in its discretion public demonstrations of the tests conducted on the accepted conveyor belt. Those who attend any part of the investigation, or any public demonstration, shall be present solely as observers; the conduct of the investigation and of any public demonstration shall be controlled wholly by the Bureau's personnel. Results of chemical analyses of material and all information contained in the drawings, specifications, and instructions shall be deemed confidential and their disclosure will be appropriately safeguarded by the Bureau.

§ 34.9 *Types of tests.* To obtain acceptance under this part a conveyor belt must pass test 1 (Flame Test) and, when in the opinion of the Bureau it is required, test 2 (Drum-Friction Test).

§ 34.10 *Flame test*—(a) *Size of test specimens.* Specimens of conveyor belts 6 inches long by ½ inch wide by belt thickness shall be cut by Bureau test personnel from the belt sample submitted for testing to provide four test specimens, two of which will be cut parallel to the warp and two of which will be cut parallel to the weft.

(b) *Flame-test apparatus.* The principal parts of the apparatus within and appended to the 21-inch cubical test gallery are:

(1) A support stand with a ring clamp and wire gauze.

(2) A Pittsburgh-Universal Bunsen-type burner (inside diameter of burner tube 11 mm.), or equivalent, mounted in a burner placement guide in such a manner that the burner may be placed beneath the test specimen, or pulled away from it by an external knob on the front panel of the test gallery.

(3) A variable speed electric fan and an ASME flow nozzle (16–8½ inches reduction) to attain constant air velocities at any speed between 50–500 feet a minute.

(4) An electric timer or hand-operated stopwatch to measure the duration of the tests.

(5) A mirror mounted inside the test gallery to permit the test specimen to be viewed from the back through the viewing door.

(c) *Preparation of test specimen.* The specimen shall be clamped in a support with its longitudinal axis horizontal and its transverse axis inclined at 45° to the horizontal. Under the test specimen shall be clamped a piece of 20-mesh iron-wire gauze, 5 inches square, in a horizontal position ¼ inch below the pulley cover edge of the specimen and with about ½ inch of the specimen extending beyond the edge of the gauze.

(d) *Procedure for flame test.* The procedure for flame tests on conveyor belting is as follows:

(1) The support stand, with the test specimen mounted as described above, shall be positioned in the burner placement guide within the flame-test gallery.

(2) The Bunsen burner shall be adjusted to give a blue flame 3 inches in height having a temperature of 1350° ± 50° F. (732° ± 28° C.) when measured by means of a 20 B & S (Brown and Sharpe) gauge, iron-constantan thermocouple, centered in the flame at a point 1 inch above the top of the burner.

(3) The test specimen shall be inserted into the flame at a distance 1 inch above the top of the burner.

(4) The free end of the specimen shall be centered in the flame.

(5) The observation door of the gallery shall be closed for the entire test.

(6) The burner flame shall be applied to the test specimen for 1 minute in still air.

(7) At the end of one minute, the burner flame shall be removed, the ventilating fan turned on to give an air current having a velocity of 300 feet per minute, and the duration of flame measured.

(8) After the test specimen ceases to flame, it shall remain in the air current for at least 3 minutes to determine the presence and duration of afterglow. If a glowing specimen bursts into flame within 3 minutes, the duration of flame shall be added to the duration of flame in subparagraph (7) of this paragraph.

(9) The tests of the four specimens cut from any sample shall not result in either duration of flame exceeding an average of 1 minute after removal of the applied flame or afterglow exceeding an average of 3 minutes' duration.

§ 34.11 *Drum-friction test.* This test shall be applied only to samples which pass the flame test.

(a) *Size of test specimen.* A test specimen 5 feet long by 9 inches wide shall be cut from one of the two samples of conveyor belting submitted.

(b) *Drum-friction test apparatus.* The essential parts of the drum-friction test apparatus are:

(1) A suitable clamp for securing the fixed end of belt sample in test position and an adjustable weight clamp for the free end.

(2) Means for measuring accurately the temperature at specified points of the belt sample under test.

(3) Electric drive motor of at least 15 horsepower.

(4) Positive drive to maintain drum speed of 110 ± 10 r. p. m.

(5) Drive pulley of at least 18 inches in diameter.

(6) Where drive pulleys in excess of 13 inches in width are used, insulation shall be provided for the portion of the face in excess of 13 inches and the ends of the drum to reduce heat loss. The test specimen shall cover approximately 180° of the exposed drum surface in test position.

(7) Scales, to be installed in the fixed clamp when tension measurement is desired.

(8) Multiple jets of compressed air, issuing from 1/16-inch-diameter holes on ½-inch centers along the top of a ½-inch pipe of the same length as the drum, to maintain an air velocity of 300 feet per minute at the surface of the drum.

(c) *Preparation of test specimen.* Two steel clamps, 12 inches long by 2 inches wide by ½ inch thick, shall be bolted onto the specimen approximately 1 inch from each end. One clamp, called the fixed clamp, is fitted with a chain and hook arrangement, while the other clamp, called the weight clamp, contains two rods to which weight bars may be attached. At three points along the specimen from the fixed clamp, ⅛-inch holes shall be drilled into the edge of the belt to provide openings for thermocouples with which to measure belt temperatures. Two of these holes shall be at the point of tangency when the specimen is lapped over the conveyor driving drum, and the third shall be placed halfway between these points. The holes shall be drilled to a depth of 2 inches between the first and second ply from the pulley cover, or a similar position in case of solid woven belts. The specimen shall be placed over the conveyor driving drum; the hook fastened to a steel I-beam or other rigid support, secured to the floor beneath the drum; thermocouples inserted into the holes in the side of the belt; an additional thermocouple shall be inserted in the center of the carrying cover of the belt at a point midway between the thermocouples at the points of tangency; and the proper weights adjusted at the weight clamp.

(d) *Procedure for drum-friction test.* The procedure for the drum-friction test is as follows:

(1) During the entire test a current of air having a velocity of 300 feet per minute shall be maintained at the drum and belt.

(2) With the specimen in the position described heretofore, the drum shall be revolved for a period of 120 minutes.

(3) Weights shall be attached to the weight clamp at the following time intervals:

Duration of test (cumulative)	Weight added (pounds)	Total weight on belt (pounds)
First 15 minutes		50
15 to 30 minutes	25	75
30 to 45 minutes	25	100
45 to 60 pounds	30	130
60 to 75 minutes	35	165
75 to 90 minutes	35	200
90 to 105 minutes	35	235
105 to 120 minutes	35	270

(4) Temperature readings shall be recorded at intervals of not more than 10 minutes throughout the test.

(5) A specimen that is destroyed during the test without signs of flame or glow, or that does not develop a temperature of 482° F. (250° C.) at any thermocouple during the 2-hour period, shall be considered fire-resistant.

(6) A specimen shall not be considered fire-resistant if any flame appears on the belt during a test.

(7) When glow is evident at the conclusion of a test, the glowing specimen shall be subjected to an air stream for 3 minutes. If the specimen bursts into flame within this time, or continues to glow beyond this time, it shall not be considered fire-resistant.

§ 34.12 *Changing details of tests.* The Bureau may modify the details of the tests prescribed by these regulations provided that the information obtained and the degree of safety are not substantially affected. The applicant will be notified of any changes that the Bureau deems advisable.

§ 34.13 *Notification of acceptance or rejection.* (a) After the Bureau has considered the results of the tests, a formal written notification of acceptance or rejection of the conveyor belt for listing will be supplied to the applicant by the Bureau. If the conveyor belt meets all requirements of this part, the notification will not be accompanied by test data or detailed results of tests. If the conveyor belt fails to meet any of the requirements of this part, the notification will be accompanied by details of the failure, with a view to possible remedy of the defect or defects in conveyor belts submitted in the future. Except for such notification to the applicant, results of tests of conveyor belts that fail to meet the requirements will not be made public by the Bureau.

(b) The Bureau will not give verbal reports concerning the investigations, or conduct informal tests, or grant informal acceptances.

§ 34.14 *Acceptance markings.* With formal notification of acceptance, the applicant will receive written permission to designate, as "fire-resistant," conveyor belts of the same type and composition as the specimen that passed the test.

(a) *Marking.* Conveyor belts accepted by the Bureau of Mines as fire-resistant shall be marked as follows: Metal stencils furnished by the manufacturer shall be used during the vulcanizing process to produce letters depressed into the conveyor belt with the words Fire-Resistant, U. S. B. M. No. ------. This number will be assigned to the manufacturer after the sample has passed the tests. The letters and numbers shall be at least ½ inch high.

(b) *Position of markings.* The acceptance markings shall be placed approximately 1 inch from the edge of the carrying (top) cover of the conveyor belt and spaced at intervals not exceeding 30 feet for the entire length of the conveyor belt. The markings shall be so placed that they are alternately at opposite edges of the belt.

§ 34.15 *Manufacturer's obligation.* A manufacturer who has obtained the Bureau's permission to place acceptance markings on conveyor belts manufactured by him is obligated to maintain the fire-resistant quality of his product and to have each conveyor belt so marked manufactured strictly according to the records that have been accepted and placed on file by the Bureau for that conveyor belt. Conveyor belts that have been accepted as fire-resistant by the Bureau of Mines but subsequently have been altered in design or composition without Bureau authorization, and belts that have not been accepted a fire-resistant by the Bureau of Mines, must not bear the Bureau's acceptance marking.

§ 34.16 *Changes subsequent to acceptance.* The manufacturer may obtain the Bureau's authorization for modifying the specifications of a conveyor belt that has been tested and accepted, by letter to the Central Experiment Station, Bureau of Mines, 4800 Forbes Street, Pittsburgh 13, Pennsylvania, requesting an extension of the original acceptance and stating the change or changes desired. The letter shall be accompanied by revised specifications showing the proposed changes in detail. If the Bureau determines that tests are unnecessary, the Bureau will formally advise the manufacturer of the acceptance or rejection of the proposed change. If the Bureau determines that tests are necessary, the Bureau will advise the manufacturer as to the fee and material required.

§ 34.17 *Withdrawal of acceptance.* The Bureau may rescind for cause, at any time, any acceptance granted under the regulations in this part.

[1] The Cooperative Association through which price support is made available is authorized to deduct from the amount paid the grower not more than the larger of $1.00 per hundred pounds or $10.00 per consignment to apply against receiving and overhead costs. The advance rate on any lot of tobacco graded B1M through B7M and marked with the special factor "Moist" or "Damp" will be supported at the advance rate minus $5.00 or $9.00, respectively. Grades B1M through R3 containing damaged leaves will be marked with the special factor symbol D followed by the percentage of damaged leaves. The weight of the damaged leaves will be deducted and the advance will be made only on the weight of sound or undamaged tobacco. Only the original producer is eligible to receive advances. No advance is authorized for tobacco graded W (doubtful keeping order), U (unsound), or N (nondescript).

*The Cooperative Association through which price support is made available is authorized to deduct from the amount paid to growers not to exceed $1.50 per hundred pounds to apply against receiving and overhead costs to the Association of the loan operation. Only the original producer is eligible to receive advances. A producer may obtain advances on sorted Broadleaf only if all eligible grades of tobacco produced in the sorting process are included in the consignment. No advance is authorized for tobacco graded W (unsafe keeping order), U (unsound), or N (nondescript). Tobacco graded Y1 DAM or Y2 DAM will be accepted at an advance rate of two cents per pound below the regular grade advance rate.

TITLE 36—PARKS, FORESTS, AND MEMORIALS

Chapter II—Forest Service, Department of Agriculture

PART 251—LAND USES

WILDERNESS AREAS

By virtue of the authority vested in the Secretary of Agriculture paragraphs (a), (b), and (c) of § 251.20 (Reg. U-1) of the rules and regulations governing the occupancy, use, protection, and administration of the national forests are hereby amended as follows:

1. The proviso of paragraph (a) of § 251.20 is amended to read as follows: "*Provided,* That roads over national forest lands reserved from the public domain and necessary for ingress and egress to or from privately owned property shall be allowed under appropriate conditions determined by the forest supervisor, and upon allowance of such roads the boundary of the wilderness area may be modified without prior notice or public hearing to exclude the portion affected by the roads."

2. Paragraphs (b) and (c) of § 251.20 are amended to read as follows:

(b) Grazing of domestic livestock, development of water storage projects which do not involve road construction, and improvements necessary for the protection of the forest may be permitted subject to such restrictions as the Chief deems desirable. Within such designated wildernesses when the use is for other than administrative needs and emergencies the landing of airplanes and the use of motorboats are prohibited on national forest land or water unless such use by airplanes or motorboats has already become well established and the use of motor vehicles is prohibited unless the use is in accordance with a statutory right of ingress and egress.

(c) Wilderness areas will not be modified or eliminated except by order of the Secretary. Except as provided in paragraph (a) of this section notice of every proposed establishment, modification, or elimination will be published or publicly posted by the Forest Service for a period of at least 90 days prior to the approval of the contemplated order and if there is any demand for a public hearing, the regional forester shall hold such hearing and make full report thereon to the Chief of the Forest Service, who will submit it with his recommendations to the Secretary.

(Sec. 1, 30 Stat. 35, as amended, 16 U. S. C. 251. Interprets or applies Sec. 1, 33 Stat. 628, 16 U. S. C. 472)

In testimony whereof, I have hereunto set my hand and caused the official seal of the Department of Agriculture to be affixed, in the city of Washington, D. C., this 4th day of November 1955.

[SEAL] E. L. PETERSON,
Assistant Secretary of Agriculture.

[F. R. Doc. 55-9065; Filed, Nov. 9, 1955; 8:47 a. m.]

TITLE 38—PENSIONS, BONUSES, AND VETERANS' RELIEF

Chapter I—Veterans Administration

PART 21—VOCATIONAL REHABILITATION AND EDUCATION

EFFECTIVE DATE OF CHANGE OR DISCONTINUANCE OF EDUCATION OR TRAINING ALLOWANCE

In § 21.2056, paragraph (a) (6) is amended to read as follows:

§ 21.2056 *Effective date of change or discontinuance of education or training allowance.* (a) * * *

(6) In the event veteran applies for an additional education or training allowance because of a dependent or dependents after original entrance into training under the law, such additional allowance will be authorized as of the date of change or the date of entrance into training, whichever is later, if application therefor is received in the Veterans Administration within 60 days from that date and satisfactory evidence of such dependent or dependents is received in the Veterans Administration within 1 year of the date of request therefor. Where the change occurred during a period of interruption of training, such additional allowance will be authorized from the date of reentrance if application therefor is received in the Veterans Administration within 60 days from the date of reentrance and satisfactory evidence of dependency is received within the 1-year time limitation. In any case where such application is received after the 60-day time limitation provided in this subparagraph, additional education and training allowance will be authorized from date of receipt of application, provided satisfactory evidence of the dependent or dependents is received within the 1-year time limitation.

* * * * *

(Sec. 2, 46 Stat. 1016, sec. 7, 48 Stat. 9, sec. 2, 57 Stat. 43, as amended, sec. 400, 58 Stat. 287, as amended; 38 U. S. C. 11a, 701, 707, ch. 12A. Interprets or applies secs. 3, 4, 57 Stat. 43, as amended, secs. 300, 1500-1504, 1506, 1507, 58 Stat. 286, 300, as amended, sec. 261, 66 Stat. 663; 38 U. S. C. 693g, 697-697d, 697f, g, 971, ch. 12A)

This regulation is effective November 10, 1955.

[SEAL] J. C. PALMER,
Assistant Deputy Administrator.

[F. R. Doc. 55-9128; Filed Nov. 9, 1955; 8:58 a. m.]

TITLE 43—PUBLIC LANDS: INTERIOR

Chapter I—Bureau of Land Management, Department of the Interior

Appendix—Public Land Orders

[Public Land Order 1245]

[Anchorage 024227]

[Misc. 1796532]

ALASKA

PARTIALLY REVOKING EXECUTIVE ORDERS NO. 8344 OF FEBRUARY 10, 1940 AND NO. 8789 OF JUNE 14, 1941; WITHDRAWING PORTIONS OF RELEASED LANDS FOR USE OF UNITED STATES COAST GUARD AS A LORAN STATION

By virtue of the authority vested in the President by Section 1 of the act of June 25, 1910 (36 Stat. 847; 43 U. S. C. 141) and otherwise, and pursuant to Executive Order No. 10355 of May 26, 1952, it is ordered as follows:

1. Executive Order No. 8344 of February 10, 1940, temporarily withdrawing certain lands in Alaska for classification and in aid of legislation, is hereby revoked so far as it affects the following-described area:

KODIAK ISLAND

U. S. Survey No. 3233.

The area described contains 23.53 acres.

2. Executive Order No. 8789 of June 14, 1941, reserving certain lands for use of the War Department for military purposes, is hereby revoked so far as it affects the following-described lands:

MILLER POINT, SPRUCE CAPE AREA

KODIAK ISLAND, ALASKA

Beginning at a point on line of mean high tide on the east side of Kodiak Island, 57°48'30" N., latitude, 152°20'48" W., longitude, as shown on United States Coast and Geodetic Survey Chart No. 8570, March 1910.

Thence from said initial point, N. 45° W., 1.8 miles, to line of mean high tide on east shore of Sycamore Bay;

Thence northeasterly and southeasterly around Miller Point and Spruce Cape with meanders of Sycamore Bay, Popof Bay, and Chiniak Bay to the point of beginning.

The area described, including both public and non-public lands, aggregates 780 acres.

3. Subject to valid existing rights, the following-described lands, which are a portion of the lands described in paragraph 2 of this order, are hereby withdrawn from all forms of appropriation under the public-land laws, including the mining and the mineral-leasing laws, and reserved for use of the United States Coast Guard as a loran station:

Beginning at corner No. 5, U. S. Survey No. 3101, on line 1–5, U. S. S. 1682, thence S. 89°49' E., 863.28 feet along line 5–6 U. S. S. 3101 to corner 6 MC thereof;

Northeasterly, northerly and southwesterly along line of mean high tide around Spruce Cape to corner 1 MC, U. S. S. 1682;

South, 2,377.42 feet along east boundary U. S. S. 1682 to point of beginning.

The tract described contains approximately 180 acres.

4. The status of the lands described in this order, except those withdrawn by paragraph 3, shall not change so far as applications, locations, settlement, entry or other forms of appropriation are concerned until further order of an authorized officer of the Bureau of Land Management.

WESLEY A. D'EWART,
Assistant Secretary of the Interior.

NOVEMBER 3, 1955.

[F. R. Doc. 55-9063; Filed, Nov. 9, 1955; 8:45 a. m.]

[Public Land Order 1246]

[Misc. 189250]

SOUTH DAKOTA

REVOKING EXECUTIVE ORDER NO. 1432 OF NOVEMBER 13, 1911, WHICH RESERVED PUBLIC LANDS FOR USE OF DEPARTMENT OF AGRICULTURE AS VALLEY ADMINISTRATIVE SITE

By virtue of the authority vested in the President by Section 1 of the act of June 25, 1910 (36 Stat. 847; 43 U. S. C. 141) and pursuant to Executive Order No. 10355 of May 26, 1952, it is ordered as follows:

Executive Order No. 1432 of November 13, 1911, reserving the following-described lands in South Dakota for use of the Forest Service, Department of Agriculture, as the Valley Administrative Site, is hereby revoked:

BLACK HILLS MERIDIAN

T. 17 N., R. 2 E.,
Sec. 25, SW¼NE¼, S½NW¼.

The areas described aggregate 120 acres.

The land is grazing land located ½ mile north of Harding, South Dakota, and can be reached over a county gravel road. The topography is rolling to rough. The soil consists of a shallow layer of sandy loam over a rocky and highly calcareous sandy clay subsoil. Vegetation consists of short to midgrasses. Annual precipitation is approximately 13 inches.

No application for the lands may be allowed under the homestead, desert-land, small tract, or any other nonmineral public-land law unless the lands have already been classified as valuable or suitable for such type of application, or shall be so classified upon the consideration of an application. Any application that is filed will be considered on its merits. The lands will not be subject to occupancy or disposition until they have been classified.

Subject to any existing rights and the requirements of applicable law, the lands described are hereby opened to filing of applications, selections, and locations in accordance with the following:

a. The lands have been open to application and offers under the mineral-leasing laws. Applications and selections under the nonmineral public-land laws may be presented to the Manager mentioned below, beginning on the date of this order. Such applications and selections will be considered as filed on the hour and respective dates shown for the various classes enumerated in the following paragraphs:

(1) Applications by persons having prior existing valid settlement rights, preference rights conferred by existing laws, or equitable claims subject to allowance and confirmation will be adjudicated on the facts presented in support of each claim or right. All applications presented by persons other than those referred to in this paragraph will be subject to the applications and claims mentioned in this paragraph.

(2) All valid applications under the Homestead, Desert-Land, and Small Tract Laws by qualified veterans of World War II or of the Korean Conflict, and by others entitled to preference rights under the act of September 27, 1944 (58 Stat. 747; 43 U. S. C. 279–284 as amended), presented prior to 10:00 a. m. on December 9, 1955, will be considered as simultaneously filed at that hour. Rights under such preference right applications filed after that hour and before 10:00 a. m. on March 10, 1956, will be governed by the time of filing.

(3) All valid applications and selections under the nonmineral public-land laws, other than those coming under paragraphs (1) and (2) above, presented prior to 10:00 a. m. on March 10, 1956, will be considered as simultaneously filed at that hour. Rights under such applications and selections filed after that hour will be governed by the time of filing.

b. The lands have been open to location for metalliferous minerals. They will be open to location for non-metalliferous minerals under the United States mining laws beginning at 10:00 a. m. on March 10, 1956.

Persons claiming veteran's preference rights under paragraph a (2) above must enclose with their applications proper evidence of military or naval service, preferably a complete photostatic copy of the certificate of honorable discharge. Persons claiming preference rights based upon valid settlement, statutory preference, or equitable claims must enclose properly corroborated statements in support of their applications, setting forth all facts relevant to their claims. Detailed rules and regulations governing applications which may be filed pursuant to this notice can be found in Title 43 of the Code of Federal Regulations.

Inquiries regarding the lands shall be addressed to the Manager, Land Office, Bureau of Land Management, Billings, Montana.

WESLEY A. D'EWART,
Assistant Secretary of the Interior.

NOVEMBER 3, 1955.

[F. R. Doc. 55-9054; Filed, Nov. 9, 1955; 8:45 a. m.]

[Public Land Order 1247]

[1500537–1506978]

NEW MEXICO

PARTIALLY REVOKING EXECUTIVE ORDERS NO. 6276 OF SEPTEMBER 8, 1933 AND NO. 6583 OF FEBRUARY 3, 1934 WHICH WITHDREW LANDS TO AID THE STATE IN MAKING EXCHANGE SELECTIONS

By virtue of the authority vested in the President by the act of June 25, 1910, ch. 421 (36 Stat. 847; 43 U. S. C. 141) and pursuant to Executive Order No. 10355 of May 26, 1952, it is ordered as follows:

Executive Orders No. 6276 of September 8, 1933 and No. 6583 of February 3, 1934, withdrawing public lands to aid the State of New Mexico in making exchange selections are hereby revoked so far as they affect the following-described lands:

In Executive Order No. 6276:

[1500537]

NEW MEXICO PRINCIPAL MERIDIAN

T. 21 S., R. 6 W.,
Sec. 19, lots 1 and 2, E½NW¼ and SW¼ NE¼;
Sec. 30, NW¼SE¼, E½SW¼;
Sec. 31, W½NE¼, SE¼NE¼, E½NW¼, NE¼SW¼, N½SE¼, SE¼SE¼.
T. 21 S., R. 7 W.,
Sec. 13, lots 9 to 16, inclusive;
Sec. 24, lot 15;
Sec. 25, lots 2, 7, 10, and 15.

In Executive Order No. 6583:

[1506978]

T. 21 S., R. 6 W.,
Sec. 18, lots 3 and 4, E½SW¼;
Sec. 19, lot 3, NW¼NE¼, NW¼SE¼;
Sec. 30, SE¼NE¼, NE¼SE¼;
Sec. 31, NE¼NE¼.
T. 21 S., R. 7 W.,
Sec. 24, lots 1, 2, 7, and 8.

The areas described aggregate 1,728.08 acres for both orders.

The lands are generally grazing lands.

No application for the lands may be allowed under the homestead, small tract, desert-land, or any other nonmineral public-land law unless the land has already been classified as valuable or suitable for such type of application or shall be so classified upon consideration of an application.

Subject to any existing valid rights and the requirements of applicable law, the lands are hereby opened to filing of applications, selections, and locations in accordance with the following:

a. Applications and selections under the nonmineral public land laws and applications and offers under the mineral leasing laws may be presented to the Manager mentioned below, beginning on the date of this order. Such applications, selections, and offers will be considered as filed on the hour and respective dates shown for the various classes enumerated in the following paragraph:

(1) Applications by persons having prior existing valid settlement rights, preference rights conferred by existing laws, or equitable claims subject to allowance and confirmation will be adjudicated on the facts presented in support of each claim or right. All applications presented by persons other than those referred to in this paragraph will be subject to the applications and claims mentioned in this paragraph.

(2) All valid applications under the Homestead, Desert Land, and Small Tract Laws by qualified veterans of World War II or the Korean Conflict, and by others entitled to preference rights under the act of September 27, 1944 (58 Stat. 747; 43 U. S. C. 279–284 as amended), presented prior to 10:00 a. m. on December 10, 1955, will be considered as simultaneously filed at that hour. Rights under such preference right applications filed after that hour and before 10:00 a. m. on March 10, 1956, will be governed by the time of filing.

(3) All valid applications and selections under the nonmineral public land laws, other than those coming under paragraphs (1) and (2) above, and applications and offers under the mineral leasing laws, presented prior to 10:00 a. m. on March 10, 1956, will be considered as simultaneously filed at that hour. Rights under such applications and selections filed after that hour will be governed by the time of filing.

b. The lands are now open to location for metalliferous minerals. They will be open to location for non-metalliferous minerals under the United States mining laws beginning at 10:00 a. m. on March 10, 1956.

Persons claiming veterans preference rights under Paragraph a (2) above must enclose with their applications proper evidence of military or naval service, preferably a complete photostatic copy of the certificate of honorable discharge. Persons claiming preference rights based upon valid settlement, statutory preference, or equitable claims must enclose properly corroborated statements in support of their applications, setting forth all facts relevant to their claims. Detailed rules and regulations governing applications which may be filed pursuant to this notice can be found in Title 43 of the Code of Federal Regulations.

Inquiries concerning the lands shall be addressed to the Manager, Land Office, Bureau of Land Management, Santa Fe, New Mexico.

WESLEY A. D'EWART,
Assistant Secretary of the Interior.

ALASKA

AMENDING PUBLIC LAND ORDER NO. 1212 OF SEPTEMBER 9, 1955

Paragraph 4 (c) of Public Land Order No. 1212 of September 9, 1955, appearing as Doc. 55-7464 in 20 F. R. 6797 of the issue for September 15, 1955, is hereby amended to read as follows:

(c) At 10:00 a. m. on the 91st day after the date of this order, to settlement under the homestead laws or the Alaska Home Site Act of May 26, 1934 (48 Stat. 809; 48 U. S. C. 461) or to application under the Small Tract Act of June 1, 1938 (52 Stat. 609; 43 U. S. C. 682a) as amended:

The unsurveyed public lands released from withdrawal by paragraph 1 of this order, and not otherwise rewithdrawn or restored.

Provided, however, That the following-described lands shall not be subject to application, location, settlement, entry, or other forms of appropriation under the public-land laws until further order of an authorized officer of the Bureau of Land Management:

SEWARD MERIDIAN

T. 2 N., R. 11 W.,
Secs. 5, 6, 7, and 8 (unsurveyed).
T. 2 N., R. 12 W.,
Secs. 1, 11 and 12 (unsurveyed).

WESLEY A. D'EWART,
Assistant Secretary of the Interior.

NOVEMBER 4, 1955.

DEPARTMENT OF LABOR

Wage and Hour Division

[29 CFR Part 779]

AUTOMOTIVE TRADE

RETAIL OR SERVICE ESTABLISHMENT AND APPLICATION OF CERTAIN EXEMPTIONS

Pursuant to authority under the Fair Labor Standards Act of 1938, as amended (52 Stat. 1060, as amended; 29 U. S. C. 201 et seq.), notice is hereby given that the Administrator of the Wage and Hour Division of the United States Department of Labor, proposes to amend Interpretative Bulletin, Part 779 (29 CFR Part 779) by the addition of § 779.36 to read as follows:

§ 779.36 *Application of the 13 (a) (2) exemption to the automotive trade.* (a) It is the purpose of this section to show generally how the principles governing the application of the section 13 (a) (2) exemption apply to establishments engaged in the sale of automobiles, trucks, parts, accessories and repair services.

(b) All sales of automobiles, trucks, automobile parts, accessories, servicing and repair work will be considered retail except those set out below:

(1) Sales for resale: For example, sales for resale include sales to garages, service stations, repair shops and automobile dealers where these establishments resell the various items or where they use them in repairing customers' vehicles or in reconditioning used cars for resale. However, this does not apply to transfers of such items between departments within the dealer's establishment. Thus, transfers of parts from the parts department to the service department of the automobile dealer's establishment are not sales to the service department and are not, therefore, sales for resale. Such transfers from one department to another will be disregarded in computing the establishment's sales for determining the applicability of the 13 (a) (2) exemption. So also accommodation transfers of automobiles between dealers will be disregarded in computing the establishment's sales under section 13 (a) (2). Accommodation transfers refer to occasional exchanges or transfers of automobiles between dealers and not to situations wherein a dealer supplies cars to other dealers as part of what may be described as a distribution system.

(2) Sales made pursuant to a formal invitation to bid. Such sales are made under a procedure involving the issuance by the buyer of a formal invitation to bid on certain merchandise for delivery in accordance with prescribed terms and specifications. Sales to the Federal, state, and local governments are typically made in this manner.

(3) Fleet sales: Sales of automobiles, trucks, parts, or accessories to national fleet owners as designated by the various automotive manufacturers, at fleet discounts, and sales to other fleet users (operating five or more units for business purposes) at discounts similar to these provided in sales to national fleet owners.

(4) Sales of specialized heavy motor vehicles or bodies (16,000 lbs. and over gross vehicle weight). The following is a complete list of these items:

(i) *Single unit trucks.*

Armored (money carrying).
Buses (integral).
Coal.
Drilling.
Dump.
Hook and ladder (fire department).
Chemical wagons (fire department).
Garbage.
Mixer.
Refrigerator.
Rotary snowplow.
Special public utility.
Street cleaning.
Tank.
Wrecker.

(ii) *Full trailers and semitrailers.*

Auto carrier.
Coal.
Dump.
Garbage.
House carrier.
Low bed carry all.
Pole (lumber).
Refrigerator.
Tank.
Van.

(5) Sales of servicing and repair work performed under a fleet maintenance arrangement on trucks and other automotive vehicles whereby the establishment undertakes to maintain a customer's fleet at a price below the prevailing retail price.

Prior to the final adoption of the proposed amendment set forth above, consideration will be given to any views, arguments or data pertaining thereto which are submitted in writing to the Administrator, Wage and Hour Division, United States Department of Labor, Washington 25, D. C., within 30 days from the date of publication of this notice in the FEDERAL REGISTER.

Signed at Washington, D. C., this 7th day of November 1955.

NEWELL BROWN,
Administrator,
Wage and Hour Division.

NOTICES

DEPARTMENT OF LABOR

Wage and Hour Division

LEARNER EMPLOYMENT CERTIFICATES

ISSUANCE TO VARIOUS INDUSTRIES

Notice is hereby given that pursuant to Section 14 of the Fair Labor Standards Act of 1938, as amended (52 Stat. 1068, as amended; 29 U. S. C. and Supp. 214) and Part 522 of the Regulations issued thereunder (29 CFR Part 522), special certificates authorizing the employment of learners at hourly wage rates lower than the minimum wage rates applicable under Section 6 of the act have been issued to the firms listed below. The employment of learners under these certificates is limited to the terms and conditions therein contained and is subject to the provisions of Part 522. The effective and expiration dates, occupations, wage rates, number or proportion of learners and learning periods for certificates issued under general learner regulations (§§ 522.1 to 522.12) are as indicated below; conditions provided in certificates issued under special industry regulations are as established in these regulations.

Apparel Industry Learner Regulations, (29 CFR 522.20 to 522.24, as amended April 19, 1955, 20 F. R. 2304).

Blue Anchor, Inc., Olive Hill, Ky., effective 10–31–55 to 10–30–56; 10 percent of the total factory production workers for normal labor turnover purposes (shirts, dungarees, jackets, etc.).

Cluett, Peabody & Co., Inc., Shamokin, Pa., effective 11–4–55 to 11–3–56; 10 percent of the total number of factory production workers for normal labor turnover purposes (men's sport shirts).

The O. L. Hinds Co., 167 St. Paul Street, Burlington, Vt., effective 10–27–55 to 10–26–56; 10 learners for normal labor turnover purposes (children's snow and ski suits).

Linda Lane Garment Co., 106 Bluff Street, Excelsior Springs, Mo., effective 10–31–55 to 10–30–56; 10 learners for normal labor turnover purposes (nylon, and nylon and orlon uniforms).

Livingston Shirt Corp., 308 South Church Street, Livingston, Tenn., effective 11–5–55 to 11–4–56; 10 percent of the total number of factory production workers for normal labor turnover purposes (men's dress and sport shirts).

McEwen Manufacturing Co., McEwen, Tenn., effective 11–6–55 to 11–5–56; 10 percent of the total number of factory production workers for normal labor turnover purposes (overalls, dungarees, playsuits).

McMinnville Garment Co., McMinnville, Tenn., effective 11–8–55 to 11–7–56; 10 percent of the total number of factory production workers for normal labor turnover purposes (work trousers).

Charles Meyers & Co., First and Harrison Streets, Belleville, Ill., effective 11–1–55 to 10–31–56; 10 percent of the total number of factory production workers for normal labor turnover purposes (men's trousers).

Milan Shirt Manufacturing Co., Milan, Tenn., effective 11–4–55 to 11–3–56; 10 percent of the total number of factory production workers for normal labor turnover purposes (cotton work shirts, western and regular).

Palm Beach Co., Talladaga, Ala., effective 10–31–55 to 10–30–56; 10 percent of the total number of factory production workers for normal labor turnover purposes (men's summer wash pants).

Roydon Wear, Inc., McRae, Ga., effective 10–31–55 to 2–29–56; 60 learners for plant expansion purposes (outerwear, trousers and shirts).

Salant & Salant, Inc., Washington Street, Paris, Tenn., effective 11–9–55 to 11–8–56; 10 percent of the total number of factory production workers for normal labor turnover purposes (cotton and wool work shirts).

Salant & Salant, Inc., First Street, Lexington, Tenn., effective 11–9–55 to 11–8–56; 10 percent of the total number of factory production workers for normal labor turnover purposes (cotton work shirts).

Salant & Salant, Inc., Pine Street, Lexington, Tenn., effective 11–6–55 to 11–5–56; 10 percent of the total number of factory production workers for normal labor turnover purposes (cotton work shirts).

Salant & Salant, Inc., Obion, Tenn., effective 11–9–55 to 11–8–56; 10 percent of the total number of factory production workers for normal labor turnover purposes (cotton work shirts).

Salant & Salant, Inc., Princeton Factory, Tennessee Avenue, Parsons, Tenn., effective 11–8–55 to 11–7–56; 10 percent of the total number of production factory workers for normal labor turnover purposes (cotton work pants).

Salant & Salant, Inc., Troy, Tenn., effective 11–7–55 to 11–6–56; 10 percent of the total number of factory production workers for normal labor turnover purposes (cotton work shirts).

Sustan Garments, Inc., Winnsboro, La., effective 10–31–55 to 2–29–56; 25 learners for plant expansion purposes (sportswear).

Vanderbilt Shirt Co., Inc., 29–31 Walnut Street, Asheville, N. C., effective 10–26–55 to 10–25–56; 10 percent of the total number of factory production workers for normal labor turnover purposes (western shirts).

The Warner Bros. Co., Massena, N. Y., effective 10–27–55 to 10–26–56; 10 percent of the total number of factory production workers for normal labor turnover purposes (corsets and brassieres).

Williamson-Dickie Manufacturing Co., Eagle Pass., Tex., effective 11–3–55 to 11–2–56; 10 percent of the total number of factory production workers for normal labor turnover purposes (dungarees).

Cigar Industry Learner Regulations (29 CFR 522.80 to 522.85, as amended April 19, 1955, 20 F. R. 2304)

Bayuk Cigars, Inc., Morgan Street, Selma, Ala., effective 10–26–55 to 2–29–56; 25 additional learners for plant expansion purposes in the occupations hereinafter listed: Cigar machine operating, 320 hours at 65 cents an hour; packing (cigars retailing for 6 cents or less), machine stripping, and hand stripping each 160 hours at 65 cents an hour. (Supplemental certificate.)

Bayuk Cigars, Inc., Second and Washington Streets, Steelton, Pa., effective 10–26–55 to 2–29–56; 25 additional learners for plant expansion purposes in each of the occupations hereinafter listed: Cigar machine operating, and packing (cigars retailing for over 6 cents) each 320 hours; packing (cigars retailing for 6 cents or less), and machine stripping, each 160 hours. All at 65 cents an hour. (Supplemental certificate.)

Regulations Applicable to the Employment of Student-Workers (29 CFR 527.1 to 527.9, October 14, 1955, 20 F. R. 7737).

Maplewood Academy, 700 North Main Street, Hutchinson, Minn., effective 10–21–55 to 8–31–56; 25 learners in bookbindery as bookbinder, bindery worker and related skilled and semiskilled occupations, 300 hours at 65 cents an hour and 300 hours at 70 cents an hour; 30 learners in woodworking as assembler, sawyer, machine operator and related skilled and semiskilled occupations, 375 hours at 65 cents an hour and 375 hours at 70 cents an hour; 6 learners in the clerical occupations of typist, bookkeeper and related skilled and semiskilled occupations, 300 hours at 65 cents an hour and 300 hours at 70 cents an hour.

Monterey Bay Academy, P. O. Box 191, Watsonville, Calif., effective 10–25–55 to 8–31–56; 30 learners in trellis shop as millman and other related skilled and semiskilled occupations including incidental clerical work in shop, 250 hours at 65 cents an hour and 250 hours at 70 cents an hour.

Shenandoah Valley Academy, New Market, Va., effective 10–25–55 to 8–31–56; 18 learners in bookbindery as bookbinder, bindery worker, sewer, trimmer, backer, cutter, casemaker, letterer and related skilled and semiskilled occupations including incidental clerical work in shop, 300 hours at 65 cents an hour and 300 hours at 70 cents an hour.

Washington Missionary College, 7600 Flower Avenue, Takoma Park, Washington, D. C., effective 10–27–55 to 8–31–56; 5 learners in woodworking shop (furniture) as machine operator, assembler, furniture finisher and related skilled and semiskilled occupations, including incidental clerical work in the shop, 375 hours at 65 cents an hour and 375 hours at 70 cents an hour.

Each certificate has been issued upon the employer's representation that employment of learners at subminimum rates is necessary in order to prevent curtailment of opportunities for employment, and that experienced workers for the learner occupations are not available. The certificates may be cancelled in the manner provided in the regulations and as indicated in the certificates. Any person aggrieved by the issuance of any of these certificates may seek a review or reconsideration thereof within fifteen days after publication of this notice in the FEDERAL REGISTER pursuant to the provisions of Part 522.

Signed at Washington, D. C., this 4th day of November 1955.

MILTON BROOKE,
Authorized Representative of the Administrator.

DEPARTMENT OF THE INTERIOR

Bureau of Land Management

ALASKA

NOTICE OF PROPOSED WITHDRAWAL AND RESERVATION OF LANDS

NOVEMBER 3, 1955.

An application, serial number Anchorage 031290, for the withdrawal from all forms of appropriation under the public land laws, of the lands described below was filed on September 19, 1955, by Civil Aeronautics Administration, Department of Commerce.

The purposes of the proposed withdrawal: To establish an air navigation obstruction light to Juneau Airport.

For a period of 30 days from the date of publication of this notice, persons having cause to object to the proposed withdrawal may present their objections in writing to the Area Administrator, Area 4, Bureau of Land Management, Department of the Interior at Box 480, Anchorage, Alaska. In case any objection is filed and the nature of the opposition is such as to warrant it, a public hearing will be held at a convenient time and place, which will be announced, where opponents to the order may state their views and where proponents of the order can explain its purpose.

The determination of the Secretary on the application will be published in the FEDERAL REGISTER, either in the form of a public land order or in the form of a Notice of Determination if the application is rejected. In either case, a separate notice will be sent to each interested party of record.

The lands involved in the application are:

(A) From corner No. 2 of Homestead Entry Survey No. 159, said point being on the Mendenhall Peninsula, Alaska, approximate latitude 58°21'30" N., approximate longitude 134°37'30" W., near the easterly side of the Fritz Cove Highway in the vicinity of the Brown residence, go N. 34°55' E. 36.6 feet to a power pole on the Glacier Highway Electric Association pole line and the point of beginning, thence go S. 78°08' E. 907 feet more or less, thence N. 49°46' E. 529 feet more or less to a point which will be the center point of an air navigation light, and,

(B) A 200-foot square plot of land, the sides of which lie North, South, East and West and the center of which is identical with the center point of said air navigation light containing 0.918 acre (40,000 square feet).

ROGER R. ROBINSON,
Acting Area Administrator.

Geological Survey

[Survey Order 218, Amdt. 1]

REGIONAL OIL AND GAS SUPERVISORS AND REGIONAL MINING SUPERVISORS

DELEGATION OF AUTHORITY WITH RESPECT TO SUSPENSION OF OPERATIONS AND PRODUCTION

Section 1 of Survey Order No. 218 is amended as follows:

SECTION 1. *Suspension of operations and production.* Pursuant to the authority contained in Order No. 2699 of August 11, 1952 (as amended), of the Secretary of the Interior, the regional oil and gas supervisors and the regional mining supervisors of the Geological Survey are hereby authorized to act on applications for suspension of operations or production or both, filed pursuant to 43 CFR 70.10, 191.26, 191.27, 200.38, and to terminate suspensions of this kind which have been or may be granted.

Dated: November 3, 1955.

THOMAS B. NOLAN,
Acting Director, Geological Survey.

Approved:

CLARENCE A. DAVIS,
Acting Secretary of the Interior.

FEDERAL COMMUNICATIONS COMMISSION

[Docket No. 11268, etc.; FCC 55M–931]

WISCONSIN TELEPHONE CO. ET AL.

ORDER CONTINUING PREHEARING CONFERENCE

In re applications of Wisconsin Telephone Company, Docket No. 11268, File No. 5300–F1–P–H; Ohio Bell Telephone Company, Docket No. 11269, File No. 5301–F1–P–H; Ohio Bell Telephone Company, Docket No. 11270, File No. 5745–F1–P–H; for new VHF public class III–B coast stations at Milwaukee, Cleveland and Toledo, respectively and Michigan Bell Telephone Company, Docket No. 11375, File No. 5832–F1–P–H; Michigan Bell Telephone Company, Docket No. 11376, File No. 5833–F1–P–H; Michigan Bell Telephone Company, Docket No. 11377, File No. 5834–F1–P–H; Michigan Bell Telephone Company, Docket No. 11378, File No. 5835–F1–P–H; Michigan Bell Telephone Company, Docket No. 11379, File No. 5836–F1–P–H; for new VHF Public Class III–B coast stations at Hancock, Escanaba, East Tawas, Port Huron and Marquette, Michigan, respectively and Wisconsin Telephone Company, Docket No. 11380, File No. 5299–F1–P–H; for new VHF Public Class III–B coast station at Green Bay (Glenmore), Wisconsin.

The Hearing Examiner having under consideration a motion filed November 3, 1955, on behalf of the Ohio Bell Telephone Company, one of the above-entitled applicants, requesting that the time for the resumption of the pre-hearing conference be continued from November 15, 1955, to December 15, 1955, or some other date subsequent to December 11, 1955; and

It appearing that the reason for the requested continuance is the fact that previous commitments of counsel for the Ohio Bell Telephone Company are such that it will not be possible for them to attend a further pre-hearing conference on November 15, 1955, the date presently scheduled; and

It appearing that counsel for all other parties have agreed orally to the requested extension of time and have also agreed to waive the four-day notice required by the Commission's Rules, and good cause for the requested continuance having been shown;

It is ordered, This the 4th day of November 1955, that the motion to extend the time for the resumption of the pre-hearing conference is granted and the pre-hearing conference is continued from November 15, 1955, to a date which will be subsequent to December 11, 1955, the precise date to be specified later by the Hearing Examiner after conferring with all parties to the proceeding.

ELYRIA-LORAIN BROADCASTING CO., INC. (WEOL)

MEMORANDUM OPINION AND ORDER DESIGNATING APPLICATION FOR HEARING ON STATED ISSUES

In re application of Elyria-Lorain Broadcasting Co., Inc. (WEOL), Elyria, Ohio, Docket No. 11526, File No. BR-2173; for renewal of license.

1. The Commission has before it a protest and petition for reconsideration pursuant to sections 309 (c) and 405 of the Communications Act of 1934, as amended, filed October 5, 1955 by the Lorain Journal Company, Lorain, Ohio, against the Commission's action of September 7, 1955, granting without hearing the above-entitled application. An opposition to the protest was filed by the Elyria-Lorain Broadcasting Co., Inc., on October 17, 1955.

2. The Lorain Journal Company claims standing as a "party in interest" under section 309 (c) of the Communications Act of 1934, as amended, by virtue of its status as the publisher of "The Lorain Journal", a newspaper of general circulation in Lorain, Ohio. The Journal Company alleges that it publishes the sole daily newspaper in Lorain, Ohio, and that Elyria-Lorain Broadcasting, licensee of Station WEOL, although licensed for Elyria, Ohio, has auxiliary studios and originates programs in Lorain; that Station WEOL considers that it is a Lorain, as well as an Elyria station; that Station WEOL and "The Lorain Journal" are the only advertising media of general circulation in Lorain and are in competition with each other for news and advertising revenues; and that, consequently, the Journal Company will suffer economic injury within the meaning of the Sanders case [1] and, pursuant to the decision in Clarksburg Publishing Co. v. F. C. C., —— U. S. App. D. C. ——, —— F. 2d ——, decided June 9, 1955, is a "party in interest" under Section 309 (c) of the Act.

3. In support of its protest, the Journal Company alleges, in substance, that Station WEOL has engaged in competitive practices contrary to the public interest by broadcasting news stories pirated from "The Lorain Journal"; that it failed to file the subject application for renewal of license within the period prescribed by section 1.320 (a) of the Commission's rules; that in the subject renewal application Station WEOL is guilty of major deviations from original programing representations; that Station WEOL or its officers, directors, stockholders or employees have circulated or broadcast false and malicious statements regarding "The Lorain Journal"; and that it applied for a construction permit for a television station for the purpose of blocking a possible grant to the Journal Company. The protestant requests, pursuant to the provisions of sections 309 (c) and 405 of the Communications Act, that the Commission designate the above-entitled application for hearing,

[1] F. C. C. v. Sanders Brothers Radio Station, 309 U. S. 407 (1940).

on the issues specified in the protest, together with such other issues as the Commission deems appropriate, and to reconsider and set aside its order of September 7, 1955, granting the application of Elyria-Lorain Broadcasting for renewal of license of Station WEOL.

4. In its reply to the above protest, Elyria-Lorain Broadcasting argues that the Journal Company has failed to set forth particular "facts, matters and things relied upon" in support of its protest, as required by section 309 (c) of the act, and that the protest constitutes general allegations and conclusions of law insufficient under the statute without some specification of events and circumstances. Elyria-Lorain Broadcasting therefore urges that the protest be denied, but requests that if the Commission grants the protest, it should include in the order of hearing additional issues for the purpose of permitting inquiry into the basis upon which the protest was filed, the motives and integrity of The Lorain Journal Company and Mr. Samuel A. Horvitz, Vice President and publisher of "The Lorain Journal" in particular, and whether filing of the instant protest constituted an abuse of the processes of the Federal Communications Commission.

5. The protestant claims standing under section 309 (c) of the Communications Act, by virtue of the allegations that its newspaper and the applicant's station will compete for advertising revenues and that the protestant will suffer economic injury as a result of the grant of renewal. We were of the view in Ohio Valley Broadcasting Corp., 10 Pike & Fischer Rad. Reg. 452 (1954), rev'd on other grounds, Clarksburg Publishing Co. v. F. C. C., supra, that a newspaper publisher who protested the grant of a permit to construct a new television station was a "party in interest" within the meaning of section 309 (c) of the act, as amended. We are of the opinion that a newspaper publisher has similar standing to protest the grant of license renewal for a broadcasting station where the two compete with each other for news and advertising revenues. We therefore find the protestant to be a "party in interest" within the meaning of section 309 (c) of the Communications Act of 1934, as amended.

6. The only question remaining is whether the protestant has satisfied the requirements of section 309 (c) of the act, as amended, by specifying with sufficient particularity the "facts, matters and things relied upon" in support of the protest. The Commission finds that the protestant has satisfied this requirement relating to alleged deviations from Station WEOL's program commitments and to the question of whether the Elyria-Lorain application for a permit to construct a new television station was designed to "block" a grant to the protestant. With respect to the remaining issues, we are of the opinion that they amount to nothing more than general allegations "obviously insufficient under the statute without some specification of events and circumstances". Federal Broadcasting System, Inc. v. F. C. C., —— U. S. App. D. C. ——, —— F 2d ——, decided July 28, 1955.

7. As noted above, the applicant, in its opposition to the protest, requested that in the event the Commission allowed the protest, it include three issues with reference to the basis upon which the protest was filed, the motives and integrity of the protestant, and whether the filing of the instant protest constituted an abuse of the processes of the Commission. These requested issues are neither relevant to a determination of the merits of the instant protest nor to a reconsideration of our action granting the subject application. Accordingly, we are not designating for hearing the issues requested by the applicant.

8. In view of the foregoing: *It is ordered*, That, pursuant to section 309 (c) of the Communications Act of 1934, as amended, the above-entitled application for renewal of license is designated for hearing at the offices of the Commission in Washington, D. C., on the following issues:

(1) To determine whether false and misleading statements have been made by Elyria-Lorain Broadcasting Company or its officers, directors and stockholders regarding program plans.

(2) To determine whether Elyria-Lorain Broadcasting Company has abided by its representations with regard to programming of Station WEOL.

(3) To determine whether Elyria-Lorain Broadcasting Company applied for a construction permit for a new television station in Elyria in good faith and not for the purpose of preventing another applicant from securing a construction permit for the same facilities.

(4) To determine if Elyria-Lorain Broadcasting Company has proceeded with the construction of its proposed television station in accordance with representations made to the Commission.

(5) To determine whether in the light of the above, the application of Elyria-Lorain Broadcasting Company for renewal of license of Station WEOL should be denied.

It is further ordered, That, the burden of proof as to each of the aforementioned issues shall be on the protestant; That the protestant and the Chief, Broadcast Bureau are hereby made parties to the proceeding herein; and That:

(a) The hearing on the above issues shall commence before an examiner at a time and place to be designated by subsequent order; and

(b) The parties to the proceeding herein shall have fifteen (15) days after the issuance of the Examiner's decision to file exceptions thereto and seven (7) days thereafter to file replies to any such exceptions.

Adopted: November 2, 1955.

Released: November 7, 1955.

Secretary.

[F. R. Doc. 55-9082; Filed, Nov. 9, 1955; 8:51 a. m.]

[Docket No. 11527; FCC 55-1062]

RICHLAND, INC. (WMAN)

MEMORANDUM OPINION AND ORDER DESIGNATING APPLICATION FOR HEARING ON STATED ISSUES

In re application of Richland, Inc. (WMAN), Mansfield, Ohio, Docket No. 11527, File No. BR-1037; for renewal of license.

1. The Commission has before it a protest and petition for reconsideration, pursuant to sections 309 (c) and 405 of the Communications Act of 1934, as amended, filed October 5, 1955, by the Mansfield Journal Company, Mansfield, Ohio, against the Commission's action of September 7, 1955, granting without hearing the above-entitled application. An opposition to such protest was filed by Richland, Inc., on October 14, 1955.

2. The Mansfield Company claims standing as a "party in interest" under section 309 (c) of the Communications Act of 1934, as amended, by virtue of its status as the publisher of "The Mansfield Journal," a newspaper of general circulation in Mansfield, Ohio. The Mansfield Company alleges that Richland, Inc., licensee of Station WMAN, and "The Mansfield Journal" are the only advertising media of general circulation in Mansfield and are in competition with each other for news and advertising revenues; and that, consequently, the Mansfield Company will suffer economic injury within the meaning of the Sanders case [1] and, pursuant to the decision in Clarksburg Publishing Co. v. F. C. C., —— U. S. App. D. C. ——, —— F. 2d ——, decided June 9, 1955; is a "party in interest" under section 309 (c) of the act.

3. In support of its protest, the Mansfield Company alleges, in substance, that Station WMAN has engaged in competitive practices contrary to the public interest by broadcasting news stories pirated from "The Mansfield Journal"; that Richland, Inc., or its officers, directors and stockholders made false representations and statements in obtaining the original authorizations for Station WMAN; that it further made false programming representations in the subject renewal application; that it failed to supply to the Commission required information as to proposed programming; and that it made application for a construction permit for an FM station for the purpose of blocking a possible grant to the Mansfield Company. The protestant requests that, pursuant to the provisions of sections 309 (c) and 405 of the Communications Act, the Commission designate the above-entitled application for hearing, on the issues specified in the protest, together with such other issues as the Commission deems appropriate, and to reconsider and set aside its order of September 7, 1955, granting the application of Richland, Inc., for renewal of license of Station WMAN.

4. In its reply to the above protest, Richland, Inc., argues that the Mans-

[1] F. C. C. v. Sanders Brothers Radio Station, 309 U. S. 407 (1940).

field Journal Company has failed to plead facts establishing its standing as a "party in interest" under section 309 (c) of the act, and that the protest has failed to set forth particular "facts, matters and things relied upon" as required by section 309 (c) of the act. Richland, Inc., urges, therefore, that the protest be denied.

5. The protestant claims standing under section 309 (c) of the Communications Act, as amended, by virtue of the allegations that its newspaper and the applicant's station will compete for advertising revenues and that the protestant will suffer alleged economic injury as a result of the grant of renewal. We were of the view in Ohio Valley Broadcasting Corp., 10 Pike & Fischer Rad. Reg. 452 (1954), rev'd on other grounds, Clarksburg Publishing Co. v. F. C. C., supra, that a newspaper publisher who protested the grant of a permit to construct a new television station was a "party in interest" within the meaning of section 309 (c) of the act, as amended. We are of the opinion that a newspaper publisher has similar standing to protest the grant of license renewal for a broadcasting station where the two compete with each other for news and advertising revenues. We therefore find the protestant to be a "party in interest" within the meaning of section 309 (c) of the Communications Act of 1934, as amended.

6. The only question remaining is whether the protestant has satisfied the requirements of section 309 (c) of the act, as amended, by specifying with sufficient particularity the "facts, matters and things relied upon" in support of the protest. The Commission finds that the protestant has satisfied this requirement with respect to the issues pertaining to programming representations appearing on Station WMAN's subject application for renewal of license. However, we are of the opinion that the issues predicated upon charges of alleged news piracy and the broadcasting of false and malicious statements by the applicant are nothing more than general allegations "obviously insufficient under the statute without some specification of events and circumstances." Federal Broadcasting System, Inc. v. F. C. C., —— U. S. App. D. C. ——, —— F. 2d ——, decided July 28, 1955. Additionally, we are denying the first three issues specified by the protestant. The issues we are declining are designed:

(a) To determine whether Richland, Incorporated has complied with the Rules and Regulations of the Federal Communications Commission with regard to the filing of accurate information as to stock ownership of said company;

(b) To determine whether false or misleading statements have ever been made by Richland, Incorporated or its officers, directors and stockholders regarding plans of financing and stock ownership;

(c) To determine whether there has ever been an unauthorized transfer of control of Richland, Incorporated;

In urging that these are matters to be inquired into at hearing on its protest, the Mansfield Company has culled, from the record of a proceeding [2] held in 1942 on the application for renewal of license for Station WMAN, matters which it thinks warrant denial of the license renewal application involved here. But the protestant is relying on matter already heard and decided in connection with the earlier proceeding. Under the circumstances, Mansfield Company is not entitled to avail itself of a remedy designed to permit hearing inquiry into matters decided without hearing. In deciding that the protestant may not retry the above issues in the section 309 (c) proceeding we are herein ordering, we are not making any determination of the materiality or relevancy of the facts and matters of record in the earlier proceeding as related to the issues herein set for hearing.

7. In view of the foregoing: *It is ordered*, That pursuant to section 309 (c) of the Communications Act of 1934, as amended, the above-entitled application for renewal of license is designated for hearing at the offices of the Commission in Washington, D. C., on the following issues:

(1) To determine the accuracy of representations of Richland, Incorporated as to past programming.

(2) To determine Richland, Incorporated's plans for programming Station WMAN.

(3) To determine in the light of the foregoing whether Richland, Incorporated has the necessary qualifications to be licensee of Radio Station WMAN.

(4) To determine whether in the light of the evidence adduced under the above issues the Commission should deny the application of Richland, Incorporated for renewal of license of Station WMAN.

It is further ordered, That, the burden of proof as to each of the aforementioned issues shall be on the protestant; That the protestant and the Chief, Broadcast Bureau are hereby made parties to the proceeding herein; and That:

(a) The hearing on the above issues shall commence before an examiner at a time and place to be designated by subsequent order; and

(b) The parties to the proceeding herein shall have fifteen (15) days after the issuance of the Examiner's decision to file exceptions thereto and seven (7) days thereafter to file replies to any such exceptions.

Adopted: November 2, 1955.

Released: November 7, 1955.

[Docket No. 11530; FCC-1091]

JAMES W. MILLER

ORDER DESIGNATING APPLICATION FOR HEARING ON STATED ISSUES

In re application of James W. Miller, Milford, Massachusetts, Docket No. 11530, File No. BP-9878; for construction permit.

At a session of the Federal Communications Commission held at its offices in Washington, D. C., on the 2d day of November 1955;

The Commission having under consideration the above-entitled application of James W. Miller for a construction permit for a new standard broadcast station to operate on 1490 kilocycles with a power of 250 watts, unlimited time, at Milford, Massachusetts; and

It appearing that the applicant is legally, technically, financially and otherwise qualified to operate the station as proposed but that operating as proposed applicant may cause interference to Stations WSAR, Fall River, Massachusetts (1480 kc, 5 kw, DA-2, U); and WHAV, Haverhill, Massachusetts (1490 kc, 250 w, U); and

It further appearing that pursuant to section 309 (b) of the Communications Act of 1934, as amended, the subject applicant was advised by letter dated August 11, 1955, of the aforementioned deficiency and that the Commission was unable to conclude that a grant of the application would be in the public interest; and

It further appearing that in an amendment dated October 10, 1955, field intensity measurements were submitted purporting to show that no interference would result to Stations WSAR and WHAV, but that the measurements are insufficient to prove that the said interference would not result to Stations WSAR and WHAV; and

It further appearing that timely replies were received from Stations WSAR and WHAV in which each expressed its intention to appear at a hearing on the subject application; and

It further appearing that the Commission, after consideration of the replies, is of the opinion that a hearing is necessary;

It is ordered, That, pursuant to section 309 (b) of the Communications Act of 1934, as amended, the said application is designated for hearing, at a time and place to be specified in a subsequent order, upon the following issues:

1. To determine the areas and populations which would be served by the subject proposal, and the availability of other primary service to such areas and populations.

2. To determine whether the operation of the subject proposal would involve objectionable interference with Stations WSAR, Fall River, Massachusetts, and WHAV, Haverhill, Massachusetts, or any other existing broadcast station, and, if so, the nature and extent thereof, the areas and populations affected thereby, and the availability of other primary service to such areas and populations.

3. To determine, in the light of the evidence adduced with respect to the foregoing issues, whether the subject proposed station would serve the public interest, convenience or necessity.

It is further ordered, That the Fall River Broadcasting Company, Inc., licensee of Station WSAR, Fall River, Massachusetts and the WHAV Broadcasting Company, Inc., licensee of Station WHAV, Haverhill, Massachusetts, are made parties to the proceeding.

Released: November 7, 1955.

SANFORD A. SCHAFITZ

ORDER DESIGNATING APPLICATION FOR HEARING ON STATED ISSUES

In re application of Sanford A. Schafitz, Lorain, Ohio, Docket No. 11531, File No. BP-9934; for construction permit.

At a session of the Federal Communications Commission held at its offices in Washington, D. C., on the 2d day of November 1955;

The Commission having under consideration the above-entitled application of Sanford A. Schafitz for a construction permit for a new standard broadcast station to operate on 1380 kilocycles with a power of 500 watts, daytime only;

It appearing that the applicant is legally, technically, financially and otherwise qualified, except as may appear from the issues specified below, to operate the proposed station, but that the proposed operation may involve interference with Stations WTTH, Port Huron, Michigan; and WSPD, Toledo, Ohio; and

It further appearing that pursuant to section 309 (b) of the Communications Act of 1934, as amended, the subject applicant was advised by letter dated August 24, 1955, that the Commission was unable to conclude that a grant of the application would be in the public interest; and

It further appearing that the applicant filed a timely reply to the Commission's letter; and

It further appearing that Stations WSPD and WTTH in letters dated July 1 and 22, 1955, respectively, requested that the subject application be designated for hearing on grounds of the above-described interference and that they be made parties to the hearing; and

It further appearing that the Commission, after consideration of the applicant's reply, is of the opinion that a hearing is necessary;

It is ordered, That, pursuant to section 309 (b) of the Communications Act of 1934, as amended, the said application is designated for hearing, at a time and place to be specified in a subsequent order, upon the following issues:

1. To determine the areas and population which would receive primary service from the proposed operation, and the availability of other primary service to such areas and populations.

2. To determine whether the proposed operation would involve objectionable interference with Stations WTTH, Port Huron, Michigan, and WSPD, Toledo, Ohio, or any other existing standard broadcast station, and, if so, the nature and extent thereof, the areas and populations affected thereby and the availability of other primary service to such areas and populations.

3. To determine whether in the light of the evidence adduced under the foregoing issues, a grant of the proposed operation would be in the public interest.

It is further ordered, That The Times Herald Company, licensee of Station WTTH, Port Huron, Michigan; and Storer Broadcasting Company, licensee of Station WSPD, Toledo, Ohio, are made parties to the proceeding.

Released: November 7, 1955.

FEDERAL POWER COMMISSION

[Docket No. E-6649]

MONTANA-DAKOTA UTILITIES CO.

NOTICE OF APPLICATION

NOVEMBER 7, 1955.

Take notice that on October 19, 1955, with amendment thereto on October 28, 1955, an application was filed with the Federal Power Commission pursuant to Section 204 of the Federal Power Act by Montana-Dakota Utilities Co. (Applicant), a corporation organized under the laws of the State of Delaware and doing business in the States of Minnesota, Montana, North Dakota, South Dakota and Wyoming, with its principal business office at Minneapolis, Minnesota, seeking an order authorizing the issuance of 50,000 shares of Preferred Stock of the par value of $100 each. Applicant states that the said stock will be of the same class and of equal rank with the 4.5 percent series of Preferred Stock now outstanding; the 50,000 shares of Preferred Stock proposed to be issued will be designated as a separate series. The dividend rate of the proposed stock will not exceed 5 percent per annum and the redemption premium will not exceed $5 per share. The dividends will be cumulative from October 1, 1955. Applicant has requested exemption from the competitive bidding requirements and proposes to issue the Preferred Stock under an underwriting agreement to be arrived at through private negotiation, all as more fully appears in the application on file with the Commission.

Any person desiring to be heard or to make any protest with reference to said application should on or before the 25th day of November 1955, file with the Federal Power Commission, Washington 25, D. C., a petition or protest in accordance with the Commission's Rules of Practice and Procedure. The application is on file and available for public inspection.

[SEAL] J. H. GUTRIDE,
Acting Secretary.

[Docket No. G-9592]

FOREST OIL CORP.

ORDER SUSPENDING PROPOSED CHANGES IN RATES

Forest Oil Corporation (Applicant), on October 3, 1955, tendered for filing proposed changes in presently effective rate schedules for sales subject to the jurisdiction of the Commission. The proposed changes, which constitute increased rates and charges, are contained in the following designated filing, which is proposed to become effective on the date shown:

Description	Purchaser	Rate schedule designation	Effective date [1]
Notice of change, undated	United Fuel Gas Co.	Supplement No. 1 to Applicant's FPC Gas Rate Schedule No. 3.	Nov. 3, 1955

[1] The stated effective date is the first day after expiration of the required 30 days' notice, or the effective date proposed by Applicant if later.

The increased rates and charges proposed in the aforesaid filing have not been shown to be justified, and may be unjust, unreasonable, unduly discriminatory, or preferential, or otherwise unlawful.

The Commission finds: It is necessary and proper in the public interest and to aid in the enforcement of the provisions of the Natural Gas Act that the Commission enter upon a hearing concerning the lawfulness of the said proposed changes, and that the above-designated supplement be suspended and the use thereof deferred as hereinafter ordered.

The Commission orders:

[2] Richland, Inc. (WMAN), 10 F. C. C. 395 (1944).

(A) Pursuant to the authority contained in sections 4 and 15 of the Natural Gas Act and the Commission's general rules and regulations (18 CFR, Chapter I), a public hearing be held upon a date to be fixed by notice from the Secretary concerning the lawfulness of said proposed changes in rates and charges; and, pending such hearing and decision thereon, the above-designated supplement be and the same is hereby suspended and the use thereof deferred until April 3, 1956, and until such further time as it is made effective in the manner prescribed by the Natural Gas Act.

(B) Interested State commissions may participate as provided by sections 1.8 and 1.37 (f) of the Commission's rules of practice and procedure (18 CFR 1.8 and 1.37 (f)).

Adopted: November 2, 1955.

Issued: November 2, 1955.

By the Commission.[1]

[SEAL] J. H. GUTRIDE, *Acting Secretary.*

[F. R. Doc. 55-9091; Filed, Nov. 9, 1955; 8:53 a. m.]

[Docket No. G-9254]

EAST TENNESSEE NATURAL GAS CO.

NOTICE OF APPLICATION AND DATE OF HEARING

NOVEMBER 3, 1955.

Take notice that East Tennessee Natural Gas Company, Applicant, a Tennessee corporation whose address is P. O. Box 831, Knoxville, Tennessee, filed an application on August 23, 1955, as supplemented on September 19, 1955, for a certificate of public convenience and necessity, pursuant to section 7 of the Natural Gas Act, authorizing Applicant to render service as hereinafter described, subject to the jurisdiction of the Commission, all as more fully represented in the application which is on file with the Commission and open for public inspection.

Applicant proposes to construct and operate a physical connection and metering and regulating equipment at a point on its existing main 12-inch line in Franklin County, Tennessee, to permit the delivery and sale of a firm daily volume of up to 2,000 Mcf to the Elk River Public Utility District (District) for resale in and near the towns of Winchester and Decherd, Tennessee.

The cost of East Tennessee's projected facilities is estimated at $12,626 to be obtained from cash on hand.

This matter is one that should be disposed of as promptly as possible under the applicable rules and regulations and to that end:

Take further notice that, pursuant to the authority contained in and subject to the jurisdiction conferred upon the Federal Power Commission by sections 7 and 15 of the Natural Gas Act, and the Commission's rules of practice and procedure, a hearing will be held on Tuesday, December 13, 1955, at 9:30 a. m., e. s. t., in a hearing room of the Federal Power Commission, 441 G Street NW., Washington, D. C., concerning the matters involved in and the issues presented by such application: *Provided, however,* That the Commission may, after a non-contested hearing, dispose of the proceedings pursuant to the provisions of section 1.30 (c) (1), or (c) (2) of the Commission's rules of practice and procedure. Under the procedure herein provided for, unless otherwise advised, it will be unnecessary for Applicant to appear or be represented at the hearing.

Protests or petitions to intervene may be filed with the Federal Power Commission, Washington 25, D. C., in accordance with the rules of practice and procedure (18 CFR 1.8 or 1.10) on or before November 21, 1955. Failure of any party to appear at and participate in the hearing shall be construed as waiver of and concurrence in omission herein of the intermediate decision procedure in cases where a request therefor is made.

[SEAL] J. H. GUTRIDE, *Acting Secretary.*

[Docket No. G-9503]

TEXAS CO.

ORDER SUSPENDING PROPOSED CHANGES IN RATES

The Texas Company (Applicant), on October 3, 1955, tendered for filing proposed changes in presently effective rate schedules for sales subject to the jurisdiction of the Commission. The proposed changes, which constitute increased rates and charges, are contained in the following designated filing, which is proposed to become effective on the date shown:

Description	Purchaser	Rate schedule designation	Effective date[1]
Notice of change, undated...	United Fuel Gas Co.....	Supplement No. 1 to Applicant's FPC Gas Rate Schedule No. 3.	Nov. 3, 1955

[1] The stated effective date is the first day after expiration of the required 30 days' notice, or the effective date proposed by Applicant if later.

The increased rates and charges proposed in the aforesaid filing have not been shown to be justified, and may be unjust, unreasonable, unduly discriminatory, or preferential, or otherwise unlawful.

The Commission finds: It is necessary and proper in the public interest and to aid in the enforcement of the provisions of the Natural Gas Act that the Commission enter upon a hearing concerning the lawfulness of the said proposed changes, and that the above-designated supplement be suspended and the use thereof deferred as hereinafter ordered.

The Commission orders:

(A) Pursuant to the authority contained in sections 4 and 15 of the Natural Gas Act and the Commission's general rules and regulations (18 CFR, Chapter I), a public hearing be held upon a date to be fixed by notice from the Secretary concerning the lawfulness of said proposed changes in rates and charges; and, pending such hearing and decision thereon, the above-designated supplement be and the same hereby is suspended and the use thereof deferred until April 3, 1956, and until such further time as it is made effective in the manner prescribed by the Natural Gas Act.

(B) Interested State commissions may participate as provided by sections 1.8 and 1.37 (f) of the Commission's rules of practice and procedure (18 CFR 1.8 and 1.37 (f)).

Adopted: November 2, 1955.

Issued: November 2, 1955.

By the Commission.[1]

[SEAL] J. H. GUTRIDE, *Acting Secretary.*

[Docket No. G-9594]

TEXAS CO.

ORDER SUSPENDING PROPOSED CHANGES IN RATES

The Texas Company (Applicant), on October 3, 1955, tendered for filing proposed changes in presently effective rate schedules for sales subject to the jurisdiction of the Commission. The proposed changes, which constitute increased rates and charges, are contained in the following designated filing, which is proposed to become effective on the date shown:

Description	Purchaser	Rate schedule designation	Effective date[1]
Notice of change, undated....	United Fuel Gas Co.....	Supplement No. 1 to Applicant's FPC Gas Rate Schedule No. 2.	Nov. 3, 1955

[1] The stated effective date is the first day after expiration of the required 30 days' notice, or the effective date proposed by Applicant if later.

The increased rates and charges proposed in the aforesaid filing have not been shown to be justified, and may be unjust, unreasonable, unduly discriminatory, or preferential, or otherwise unlawful.

The Commission finds: It is necessary and proper in the public interest and to aid in the enforcement of the provisions of the Natural Gas Act that the Commission enter upon a hearing concerning the lawfulness of the said proposed changes,

[1] Commissioner Digby dissenting.

and that the above-designated supplement be suspended and the use thereof deferred as hereinafter ordered.

The Commission orders:

(A) Pursuant to the authority contained in sections 4 and 15 of the Natural Gas Act and the Commission's general rules and regulations (18 CFR, Chapter I), a public hearing be held upon a date to be fixed by notice from the Secretary concerning the lawfulness of said proposed changes in rates and charges; and, pending such hearing and decision thereon, the above-designated supplement be and the same hereby is suspended and the use thereof deferred until April 3, 1956, and until such further time as it is made effective in the manner prescribed by the Natural Gas Act.

(B) Interested State commissions may participate as provided by sections 1.8 and 1.37 (f) of the Commission's rules of practice and procedure (18 CFR 1.8 and 1.37 (f)).

Adopted: November 2, 1955.

Issued: November 2, 1955.

By the Commission.[1]

[Docket No. G-6063]

ELM OIL AND GAS CO.

NOTICE OF APPLICATION AND DATE OF HEARING

NOVEMBER 3, 1955.

Take notice that Elm Oil and Gas Company (Applicant), a Delaware corporation whose address is 602 Fidelity Union Life Building, Dallas, Texas, filed on November 26, 1954, an application for a certificate of public convenience and necessity pursuant to section 7 of the Natural Gas Act, authorizing Applicant to render service as hereinafter described, subject to the jurisdiction of the Commission, all as more fully represented in the application which is on file with the Commission and open for public inspection.

Applicant sells natural gas produced in the Hugoton Field, Kearny and Grant Counties, Kansas, to Colorado Interstate Gas Company, at 11 cents per Mcf, for transportation in interstate commerce for resale.

This matter is one that should be disposed of as promptly as possible under the applicable rules and regulations and to that end:

Take further notice that, pursuant to the authority contained in and subject to the jurisdiction conferred upon the Federal Power Commission by sections 7 and 15 of the Natural Gas Act, and the Commission's rules of practice and procedure, a hearing will be held on December 9, 1955, at 9:30 a. m., e. s. t., in a hearing room of the Federal Power Commission, 441 G Street NW., Washington, D. C., concerning the matters involved in and the issues presented by such application: *Provided, however,* That the Commission may, after a non-contested hearing, dispose of the proceedings pursuant to the provisions of section 1.30 (c) (1) of the Commission's rules of practice and procedure. Under the procedure herein provided for, unless otherwise advised, it will be unnecessary for Applicant to appear or be represented at the hearing.

Protests or petitions to intervene may be filed with the Federal Power Commission, Washington 25, D. C., in accordance with the Rules of Practice and Procedure (18 CFR 1.8 or 1.10) on or before November 22, 1955. Failure of any party to appear at and participate in the hearing shall be construed as waiver of and concurrence in omission herein of the intermediate decision procedure in cases where a request therefor is made.

[SEAL] J. H. GUTRIDE, *Acting Secretary.*

[Docket No. G-9595]

TEXAS CO.

ORDER SUSPENDING PROPOSED CHANGES IN RATES

The Texas Company (Applicant), on October 3, 1955, tendered for filing proposed changes in presently effective rate schedules for sales subject to the jurisdiction of the Commission. The proposed changes, which constitute increased rates and charges, are contained in the following designated filing, which is proposed to become effective on the date shown:

Description	Purchaser	Rate schedule designation	Effective date[1]
Notice of change, undated...	United Fuel Gas Co.....	Supplement No. 1 to Applicant's FPC Gas Rate Schedule No. 4.	Nov. 3, 1955

[1] The stated effective date is the first day after expiration of the required 30 days' notice, or the effective date proposed by Applicant if later.

The increased rates and charges proposed in the aforesaid filing have not been shown to be justified, and may be unjust, unreasonable, unduly discriminatory, or preferential, or otherwise unlawful.

The Commission finds: It is necessary and proper in the public interest and to aid in the enforcement of the provisions of the Natural Gas Act that the Commission enter upon a hearing concerning the lawfulness of the said proposed changes, and that the above-designated supplement be suspended and the use thereof deferred as hereinafter ordered.

The Commission orders:

(A) Pursuant to the authority contained in sections 4 and 15 of the Natural Gas Act and the Commission's general rules and regulations (18 CFR, Chapter I), a public hearing be held upon a date to be fixed by notice from the Secretary concerning the lawfulness of said proposed changes in rates and charges; and, pending such hearing and decision thereon, the above-designated supplement be and the same hereby is suspended and the use thereof deferred until April 3, 1956, and until such further time as it is made effective in the manner prescribed by the Natural Gas Act.

(B) Interested State commissions may participate as provided by sections 1.8 and 1.37 (f) of the Commission's rules of practice and procedure (18 CFR 1.8 and 1.37 (f)).

Adopted: November 2, 1955.

Issued: November 2, 1955.

FRYER & HANSON DRILLING CO.

NOTICE OF APPLICATION AND DATE OF HEARING

NOVEMBER 3, 1955.

Take notice that Fryer & Hanson Drilling Company (Applicant), a partnership, whose address is 2520 Republic National Bank Building, Dallas, Texas, filed on September 12, 1955, an application for a certificate of public convenience and necessity pursuant to Section 7 of the Natural Gas Act, authorizing Applicant to render service as hereinafter described, subject to the jurisdiction of the Commission, all as more fully represented in the application which is on file with the Commission and open for public inspection.

Applicant proposes to sell natural gas produced from a one-fourth working interest in the Olin Industries, Inc. Unit No. 1 in the Carthage Field, Panola County, Texas, at an initial price of 9.689525 cents per Mcf, for transportation in interstate commerce for resale.

This matter is one that should be disposed of as promptly as possible under the applicable rules and regulations and to that end:

Take further notice that, pursuant to the authority contained in and subject to the jurisdiction conferred upon the Federal Power Commission by sections 7 and 15 of the Natural Gas Act, and the Commission's rules of practice and procedure, a hearing will be held on December 9, 1955, at 9:35 a. m., e. s. t., in a hearing room of the Federal Power Commission, 441 G Street NW., Washington, D. C., concerning the matters involved in and the issues presented by such application: *Provided, however,* That the Commission may, after a non-contested hearing, dispose of the proceedings pursuant to the provisions of section 1.30 (c) (1) or (c) (2) of the Commission's rules of practice and procedure. Under the procedure herein provided for, unless otherwise advised, it will be unnecessary for Applicant to appear or be represented at the hearing.

Protests or petitions to intervene may be filed with the Federal Power Commission, Washington 25, D. C., in accordance with the rules of practice and procedure (18 CFR 1.8 or 1.10) on or before November 22, 1955. Failure of any party to appear at and participate in the hearing shall be construed as waiver of and concurrence in omission herein of the intermediate decision procedure in cases where a request therefor is made.

MESSENGER-WHITE GAS CO. ET AL.

NOTICE OF APPLICATION AND DATE OF HEARING

NOVEMBER 3, 1955.

Take notice that Messenger-White Gas Company, et al. (Applicant), a West Virginia organization whose address is Glenville, West Virginia, filed on September 15, 1955, an application for a certificate of public convenience and necessity pursuant to section 7 of the Natural Gas Act, authorizing Applicant to render service as hereinafter described, subject to the jurisdiction of the Commission, all as more fully represented in the application which is on file with the Commission and open for public inspection.

Applicant proposes to sell natural gas produced from Stewarts Creek Field, Baldwin County, West Virginia, to Equitable Gas Company at an initial price of 20 cents per Mcf, for transportation in interstate commerce for resale.

This matter is one that should be disposed of as promptly as possible under the applicable rules and regulations and to that end:

Take further notice that, pursuant to the authority contained in and subject to the jurisdiction conferred upon the Federal Power Commission by sections 7 and 15 of the Natural Gas Act, and the Commission's rules of practice and procedure, a hearing will be held on December 9, 1955, at 9:40 a. m., e. s. t., in a hearing room of the Federal Power Commission, 441 G Street NW., Washington, D. C., concerning the matters involved in and the issues presented by such application: *Provided, however,* That the Commission may, after a non-contested hearing, dispose of the proceedings pursuant to the provisions of section 1.30 (c) (1) or (c) (2) of the Commission's rules of practice and procedure. Under the procedure herein provided for, unless otherwise advised, it will be unnecessary for Applicant to appear or be represented at the hearing.

Protests or petitions to intervene may be filed with the Federal Power Commission, Washington 25, D. C., in accordance with the rules of practice and procedure (18 CFR 1.8 or 1.10) on or before November 22, 1955. Failure of any party to appear at and participate in the hearing shall be construed as waiver of and concurrence in omission herein of the intermediate decision procedure in cases where a request therefor is made.

ROBERT MOSBACHER

ORDER SUSPENDING PROPOSED CHANGES IN RATES

Robert Mosbacher (Applicant), on October 3, 1955, tendered for filing proposed changes in presently effective rate schedules for sales subject to the jurisdiction of the Commission. The proposed changes, which constitute increased rates and charges, are contained in the following designated filing, which is proposed to become effective on the date shown:

Description	Purchaser	Rate schedule designation	Effective date [1]
Notice of change, undated...	United Fuel Gas Co.....	Supplement No. 1 to Applicant's FPC Gas Rate Schedule No. 1.	Nov. 3, 1955

[1] The stated effective date is the first day after expiration of the required 30 days' notice, or the effective date proposed by Applicant if later.

The increased rates and charges proposed in the aforesaid filing have not been shown to be justified, and may be unjust, unreasonable, unduly discriminatory, or preferential, or otherwise unlawful.

The Commission finds: It is necessary and proper in the public interest and to aid in the enforcement of the provisions of the Natural Gas Act that the Commission enter upon a hearing concerning the lawfulness of the said proposed changes, and that the above-designated supplement be suspended and the use thereof deferred as hereinafter ordered.

The Commission orders:

(A) Pursuant to the authority contained in sections 4 and 15 of the Natural Gas Act and the Commission's general rules and regulations (18 CFR, Chapter I), a public hearing be held upon a date to be fixed by notice from the Secretary concerning the lawfulness of said proposed changes in rates and charges; and, pending such hearing and decision thereon, the above-designated supplement be and the same hereby is suspended and the use thereof deferred until April 3, 1956, and until such further time as it is made effective in the manner prescribed by the Natural Gas Act.

(B) Interested State commissions may participate as provided by sections 1.8 and 1.37 (f) of the Commission's rules of practice and procedure (18 CFR 1.8 and 1.37 (f)).

Adopted: November 2, 1955.

Issued: November 2, 1955.

The proposed changes, which constitute increased rates and charges, are contained in the following designated filing which is proposed to become effective on the date shown:

Description	Purchaser	Rate schedule designation	Effective date[1]
Notice of change, dated Oct. 1, 1955.	United Fuel Gas Co.....	Supplement No. 1 to Applicant's FPC Gas Rate Schedule No. 1.	Nov. 5, 1955

[1] The stated effective date is the first day after expiration of the required 30 days' notice, or the effective date proposed by Applicant if later.

The increased rates and charges proposed in the aforesaid filing have not been shown to be justified, and may be unjust, unreasonable, unduly discriminatory, or preferential, or otherwise unlawful.

The Commission finds: It is necessary and proper in the public interest and to aid in the enforcement of the provisions of the Natural Gas Act that the Commission enter upon a hearing concerning the lawfulness of the said proposed changes, and that the above-designated supplement be suspended and the use thereof deferred as hereinafter ordered.

The Commission orders:

(A) Pursuant to the authority contained in sections 4 and 15 of the Natural Gas Act and the Commission's general rules and regulations (18 CFR, Chapter I), a public hearing be held upon a date to be fixed by notice from the Secretary concerning the lawfulness of said proposed changes in rates and charges; and, pending such hearing and decision thereon, the above-designated supplement be and the same hereby is suspended and the use thereof deferred until April 5, 1956, and until such further time as it is made effective in the manner prescribed by the Natural Gas Act.

(B) Interested State commissions may participate as provided by sections 1.8 and 1.37 (f) (18 CFR 1.8 and 1.37 (f)) of the Commission's rules of practice and procedure.

Adopted: November 2, 1955.

Issued: November 2, 1955.

By the Commission.[1]

SMALL BUSINESS ADMINISTRATION

[SBA Group Loan Request 1]

NORTHERN NATIONAL BANK OF PRESQUE ISLE AND MAINE STARCH SALES CO.

REQUEST FOR LOAN TO MAINE STARCH SALES CO. FOR BENEFIT OF CERTAIN COMPANIES

Pursuant to section 207 of the Small Business Act of 1953, as amended by Public Law 268 of the 84th Congress, 1st Session, the request of Northern National Bank of Presque Isle, Maine (hereinafter called "Bank"), and Maine Starch Sales Company, Presque Isle, Maine (hereinafter called "Borrower"), on Applications dated October 6, 1955, for an immediate participation of 90 percent of a loan in the amount of $700,000 to be made by Bank to Borrower for the benefit of certain companies, was approved by me on October 27, 1955.

I find that the making of this loan does contribute to the needs of small business. This finding has been concurred in by the Attorney General after consultation with the Attorney General and with the Chairman of the Federal Trade Commission pursuant to section 207 (a) of the Small Business Act of 1953, as amended by Public Law 268, 84th Congress, 1st Session.

Borrower and the participating companies, namely:

Aroostock Potato Products, Inc., Houlton, Maine.
Colbey Co.-operative Starch Co., Caribou, Maine.
Eastern Maine Starch Co., Caribou, Maine.
Frenchville Starch Co., Frenchville, Maine.
Frontier Starch Co., Fort Fairfield, Maine.
Grand Isle Starch Co., Grand Isle, Maine.
Higgins & Lenfest, Inc., Mapleton, Maine.
Harold Leighton, Limestone, Maine.
Long Lake Starch Co., Long Lake, Maine.
Machias Starch Co., Ashland, Maine.
New England Starch Co., Caribou, Maine.
Northern Aroostock Starch Co., Fort Kent, Maine.
Gertrude Osborne, Fort Fairfield, Maine.
Page Starch Co., Caribou, Maine.
Philbrick Starch Co., Van Buren, Maine.
C. A. Powers Co., Fort Fairfield, Maine.
Presque Isle Starch Co., Presque Isle, Maine.
G. H. Stone & Sons, Inc., Fort Fairfield, Maine.
Westfield Starch Co., Westfield, Maine.

are hereby granted immunity from prosecution under the Federal Antitrust Laws and Federal Trade Commission Act, provided that the proceeds of the loan shall be used by the participating companies for the purpose of purchasing raw materials for use in the manufacture of potato starch, and provided further, that Borrower will not engage in the sale or distribution of manufactured potato starch either on Borrower's own behalf, or on behalf of, or as agent of, any of the participating companies, but that Borrower's activities will be restricted to assisting participating companies in purchasing or acquiring a supply of unprocessed potatoes for their individual requirements.

Dated: October 31, 1955.

TITLE 7—AGRICULTURE

Chapter I—Agricultural Marketing Service (Standards, Inspections, Marketing Practices), Department of Agriculture

PART 27—COTTON CLASSIFICATION UNDER COTTON FUTURES LEGISLATION

REMOVAL OF SAMPLES

Pursuant to the authority contained in section 4863 of the Internal Revenue Code of 1954 (Public Law 591, 83d Congress, 68A Stat. 582; 26 U. S. C. Supp. 4863), § 27.28 of the regulations relating to cotton classification (7 CFR 27.28, as amended, 20 F. R. 6373) is hereby amended to read as follows:

§ 27.28 *Removal of samples.* (a) Samples in the custody of the Department of Agriculture that are not removed in accordance with paragraphs (b) and (c) of this section shall become the property of the Department of Agriculture and be disposed of in accordance with § 27.86.

(b) The sample may be removed, by the current holder of the cotton classification certificate covering the cotton represented by such sample, at any time within 30 days after whichever of the following occurs first: (1) Such certificate becomes invalid as provided in § 27.42, or (2) the certificate (covering tenderable cotton) is surrendered for cancellation without the issuance of a new certificate in lieu thereof, or (3) the cotton is classified as untenderable and an application for review is not filed within the time specified in § 27.62: *Provided,* That the chairman of the board of cotton examiners may for good cause retain the samples for a longer period.

(c) In case a classification request shall be withdrawn prior to the classification of the cotton pursuant thereto, the applicant may, within 30 days after the date of such withdrawal, remove any samples of the cotton involved then in the possession of the Department of Agriculture.

This amendment deletes the following 2 conditions under either of which holders of cotton classification certificates (warehouse receipts) could formerly remove samples from the custody of the Department of Agriculture: (1) The classification of the cotton had been reviewed and a fiber fineness and maturity determination had been made, and (2) a period of 1 year had elapsed following the date of issuance of the original cotton class certificate.

The amendment harmonizes the regulation on removal of samples with the present rules of the cotton futures exchanges and will avoid confusion and inconvenience to tenderers and receivers of cotton on futures contracts by assuring that the samples of cotton certified as tenderable under the regulations will be available for removal by the final receiver who decertificates the cotton represented by the samples. The exchanges have requested amendent of the regulations for this purpose. The amendment requires no preparation on the part of users of the classification service. It should be made effective as soon as possible in order to be of maximum benefit to affected persons. Therefore under section 4 of the Administrative Procedure Act (5 U. S. C. 1003) it is found upon good cause that notice of rule-making and other public procedure with respect to the amendment are impracticable and contrary to the public interest and good cause is found for making the amendment effective less than 30 days after publication in the FEDERAL REGISTER.

This amendment shall become effective upon publication in the FEDERAL REGISTER.

(Sec. 4863, 68A Stat. 582; 26 U. S. C. Supp. 4863)

Part 1 (proposed) — 8454

Done at Washington, D. C., this 8th day of November 1955.

[SEAL] FRANK E. BLOOD,
Acting Deputy Administrator, Agricultural Marketing Service.

[F. R. Doc. 55-9130; Filed, Nov. 10, 1955; 8:47 a. m.]

PART 58—GRADING AND INSPECTION OF DAIRY PRODUCTS

SUBPART B—MINIMUM SPECIFICATIONS FOR APPROVED PLANTS MANUFACTURING, PROCESSING, AND PACKAGING DAIRY PRODUCTS UNDER UNITED STATES DEPARTMENT OF AGRICULTURE INSPECTION [1]

A notice of proposed rule making covering issuance of Minimum Specifications for Approved Plants Manufacturing, Processing, and Packaging Dairy Products under United States Department of Agriculture Inspection was published in the FEDERAL REGISTER of August 10, 1955 (20 F. R. 5780) and afforded interested persons the opportunity to submit written data, views or arguments in connection therewith. The minimum specifications hereinafter promulgated are pursuant to authority contained in the Agricultural Marketing Act of 1946 (60 Stat. 1087; 7 U. S. C. 1621 et seq.). The minimum specifications are approximately identical to the provisions published as proposed rule making with minor changes and additions as follows: For the purpose of clarification, slight changes have been made in the wording of §§ 58.105, 58.107, 58.136 and 58.143 (l). For the purpose of providing a more specific procedure, additions have been made to §§ 58.143 (a) and (d), 58.144 (b) and 58.176.

The minimum specifications will supersede the current provisions of "Instructions Governing Plants Operating as Official Plants Processing and Packaging Dairy Products." These revised minimum specifications will be used by the Department in providing the dairy industry with voluntary inspection and grading service applicable to manufactured or processed dairy products. Such inspection and grading service will be provided to the industry only upon request by the applicant. Full cost of the service will be borne by the company or organization utilizing same.

Revision of these minimum specifications is based on the Department's experience in providing voluntary inspection and grading service in the past and on the basis of many informal discussions and suggestions by all major segments of the dairy industry.

After consideration of all relevant material presented, including the proposals in the aforesaid notice of rule making, the minimum specifications hereinafter set forth are promulgated to become effective 30 days after publication in the FEDERAL REGISTER

The minimum specifications are as follows:

DEFINITIONS

Sec.
58.101 Approved laboratory.
58.102 Approved plant.
58.103 Bactericidal treatment.
58.104 Cream.
58.105 Dairy products.
58.106 Grader.
58.107 Inspector.
58.108 Milk.
58.109 Rules and regulations.
58.110 USDA.

PURPOSE

58.120 Approved plants operating under USDA inspection.

APPROVED PLANTS

58.122 Survey and approval.
58.123 Suspension of plant approval.

PREMISES, PLANT, FACILITIES, EQUIPMENT AND UTENSILS

58.127 Premises.
58.128 Building.
58.129 Facilities.
58.132 Equipment and utensils.

PERSONNEL, CLEANLINESS AND HEALTH

58.135 Cleanliness.
58.136 Health.

SPECIFICATIONS FOR RAW MILK AND FARM SEPARATED CREAM

Sec.
58.142 Transportation and protection of raw material while in transit.
58.143 Specifications for raw milk.
58.144 Specifications for farm-separated cream.
58.147 Alternate quality programs.

OPERATIONS AND OPERATING PROCEDURES

58.150 Clean and sanitary methods.
58.151 Segregation of raw material.
58.152 Raw material deterioration.
58.153 Milk or cream storage.
58.158 Pasteurization.
58.159 Product contamination.
58.160 Checking quality.
58.161 Wholesomeness.
58.162 Product stability.
58.168 Cleaning and bactericidal treatment of equipment and utensils.
58.169 Plant records.

PACKAGING AND GENERAL IDENTIFICATION

58.175 Containers.
58.176 Packaging and repackaging.
58.177 General identification.

STORAGE OF FINISHED PRODUCT

58.182 Dry storage.
58.183 Refrigerated storage.

INSPECTION, GRADING, AND OFFICIAL IDENTIFICATION

58.187 Grading.
58.188 Inspection.
58.189 Official identification.
58.190 Local or state regulations and specifications.
58.195 Explanation of terms.

AUTHORITY: §§ 58.101 to 58.195 issued under sec. 205, 60 Stat. 1090; 7 U. S. C. 1624.

DEFINITIONS

§ 58.101 *Approved laboratory.* An "approved laboratory" is one in which the entire facilities and equipment have been approved by the Administrator as being adequate to perform the necessary official tests in accordance with the rules and regulations in this part.

§ 58.102 *Approved plant.* "Approved plant" means one or more adjacent buildings, or parts thereof, comprising a single plant at one location in which the facilities and methods of operation therein have been approved by the Administrator as suitable and adequate for operation under inspection or grading service and in which inspection or grading is carried on in accordance with the regulations in this part.

§ 58.103 *Bactericidal treatment.* "Bactericidal treatment" means subjection to an acceptable sanitizing agent.

§ 58.104 *Cream.* "Cream" means that portion of milk, which is produced by healthy cows located in modified tuberculosis-free areas or from cows in herds fully accredited as tuberculosis-free by the United States Department of Agriculture, and which rises to the surface on standing or is separated by centrifugal force and contains not less than eighteen percent of milk fat.

§ 58.105 *Dairy products.* "Dairy products" means butter, cheese (whether natural or processed), milk, cream, milk products (whether dried, evaporated, stabilized or condensed), ice cream, dry whey, dry buttermilk, and such other perishable dairy products as the Secretary may hereafter designate. Such term shall also include any food product which is prepared or manufactured from any of the aforesaid products if such products constitute at least 50 percent, by weight, of all the ingredients used in the preparation or manufacture of such food product. Such food product shall not contain any fats except milk fats and those fats inherent to the food product graded.

§ 58.106 *Grader.* "Grader" means any employee of the Department authorized by the Secretary, or any other person to whom a license has been issued by the Secretary, to investigate and certify, in accordance with the act and this part, to shippers of products and other interested parties the class, quality, quantity, and condition of such products.

§ 58.107 *Inspector.* "Inspector" means any employee of the Department authorized by the Secretary, or any other person to whom a license has been issued by the Secretary, to inspect and certify quality, quantity, and condition of products, supervise the operation in an approved plant and perform plant surveys.

§ 58.108 *Milk.* "Milk" means the whole lacteal secretion, practically free from colostrum, obtained by the complete milking of one or more healthy cows located in modified tuberculosis-free areas or from cows in herds fully accredited as tuberculosis-free by the United States Department of Agriculture.

§ 58.109 *Rules and regulations.* The term "rules and regulations" contained in Subpart A of this part; and all other terms which are used in this subpart shall have the meaning applicable to such terms as defined in said rules and regulations.

§ 58.110 *USDA.* The term "USDA" means the United States Department of Agriculture.

PURPOSE

§ 58.120 *Approved plants operating under USDA inspection.* (a) The minimum specifications established in this subpart provide the basis for a quality improvement program which may be effectively carried forward through official inspection and grading service. Adoption of certain sound practices at dairy plants should significantly aid operators to more consistently manufacture uniform high-quality stable dairy products. Dairy products processed and packaged in an approved plant shall be graded and/or inspected and may be identified with official inspection and/or grade labels. Such standardized dairy products properly labeled and merchandised should encourage greater consumer acceptance and use of dairy products.

(b) This USDA inspection service is provided to dairy plants on a voluntary basis. The operator of any dairy plant desiring to have such plant qualified as an approved plant under USDA inspection service may request a survey of such plant, premises, equipment, facilities, and raw material to determine whether they are adequate to permit plant operation in accordance with the minimum specifications contained in this subpart. The cost of this survey shall be borne by the applicant. The cost of the inspection service, after inauguration of the program, includes the salary of an inspector(s) or grader(s) plus a prescribed administrative charge.

APPROVED PLANTS

§ 58.122 *Survey and approval.* (a) Prior to the inauguration of USDA inspection and grading service in a plant, a designated representative of the Administrator shall make a survey and inspection of the plant, premises, and raw material, including a general review of the source of supply, volume of raw material processed daily and facilities for handling the raw material at the initial receiving point and the plant, to determine whether the facilities, equipment, method of operation, and raw material being received are adequate and suitable for grading service in accordance with the provisions of this part and such further specifications which may hereafter be issued with respect to minimum requirements, facilities, operating methods and procedures, raw materials, and sanitation in the plant and which are in effect at the time of the aforesaid survey and inspection.

(b) A plant may be designated as an "approved plant" for inspection and grading service only upon compliance with the requirements of this part, and at such time as the management is prepared and has agreed to operate the plant in accordance therewith.

(c) The cost of performing a plant survey shall be borne by the applicant requesting such survey.

§ 58.123 *Suspension of plant approval.* Any plant approval may be suspended for (a) failure to maintain plant and equipment in a sanitary and satisfactory operating condition, (b) the use of unwholesome raw material or use of operating procedures which are not in accordance with the provisions of this part, (c) failure to process or manufacture stable product, (d) failure to maintain legal composition of the finished product, or (e) major alterations of buildings, facilities, or equipment, without prior approval by the Administrator.

PREMISES, PLANT, FACILITIES, EQUIPMENT, AND UTENSILS

§ 58.127 *Premises.* (a) The premises shall be kept in a clean and orderly condition, and should be free from strong or foul odors, smoke-laden or excessive air pollution. Dust in driveways and immediate plant area should be kept to a minimum.

(b) The outside surroundings shall be also free from refuse, rubbish, and waste materials to prevent harborage of rodents, insects, and other vermin.

(c) A suitable drainage system shall be provided to allow rapid drainage of all water from plant buildings and surface water around the plant and on the premises, and all such water shall be disposed of in such a manner as to prevent a nuisance or health hazard.

[1] Compliance with these specifications does not excuse failure to comply with the provisions of the Federal Food, Drug, and Cosmetic Act.

§ 58.128 *Building.* The building or buildings shall be of sound construction and kept in good repair to prevent the entrance or harboring of insects, rodents, vermin, dogs, and cats. All pipe openings shall be completely cemented or provided with tight metal collars.

(a) *Outside doors, windows, openings, etc.* All openings to the outer air, including doors, windows, skylights, and transoms shall be effectively protected or screened against the entrance of flies and other insects, rodents, dust, and dirt. All outside doors opening into processing rooms shall open outward and be constructed of metal or the bottom edge shall be flashed and edged with sheet metal to a height of six inches. All doors and windows shall be kept clean and in good repair. Outside conveyor openings and other special-type outside openings shall be effectively protected at all times against the entrance of flies and rodents by the use of doors, screens, flaps, fans, or tunnels.

(b) *Walls, ceilings, partitions and posts.* The walls, ceilings, partitions, and posts of rooms in which milk or milk products are processed, packaged, or handled, or in which utensils are washed and stored, shall be finished in suitable light color with smooth washable concrete, tile, cement-plaster, or other easily cleaned material which is substantially impervious to moisture. They shall be kept clean and refinished as often as necessary to maintain them in good repair.

(c) *Floors.* The floors of all rooms in which milk and milk products are processed or packaged or in which utensils are washed shall be constructed of concrete, or of tile laid closely together with impervious joint material, or of other equally impervious and easily cleaned material. They shall be smooth, kept in good repair, sloped so that there will be no pools of standing water after flushing and the drains shall be equipped with traps properly constructed and kept in good repair to avoid foul odors therefrom. The plumbing shall be so installed as to prevent any back-up of sewage into drain line and to floor of plant.

(d) *Lighting and ventilation.* There shall be ample light, natural or artificial or both, of good quality and well distributed, and adequate ventilation for all rooms and compartments to permit maintenance of sanitary conditions. All rooms where milk or milk products are processed, packaged, or handled, or where utensils and/or equipment are washed should have at least 10 to 30 foot-candles of light intensity on all working surfaces; at least 30 to 50 foot-candles of light intensity in areas where dairy products are examined for condition and quality; and at least 5 foot-candles of light in all other rooms, when measured from a distance of 30 inches above the floor. Light bulbs and fluorescent tubage shall be protected against breakage where necessary. All rooms shall be adequately ventilated to minimize or eliminate objectionable odors and moisture condensation. Exhaust fans, vents, and hoods shall be provided to supplement windows and doors where and when needed.

(e) *Rooms and compartments.* Each room and each compartment in which any raw material, packaging and ingredient supplies, or finished products are handled, processed, or stored shall be so designed and constructed as to assure processing and operating conditions of a clean and orderly character, free from objectionable odors and vapors, and maintained accordingly. Rooms for receiving milk and cream should be separated from processing rooms. Each cold storage room shall possess sufficient and proper refrigeration to adequately protect the quality and condition of the products stored.

(1) *Coolers and freezers.* The coolers and freezers shall be of adequate size and equipped with facilities for proper temperature and humidity conditions consistent with the most desirable commercial practices for the applicable product. Coolers and freezers shall be kept clean, dry, orderly, free from insects, rodents, and mold and maintained in good repair. They shall be adequately lighted and proper circulation of air shall be maintained at all times. The floors, walls, and ceilings shall be constructed of impervious material to permit thorough cleaning.

(2) *Cheddar cheese drying room.* The cheddar cheese drying room shall be sufficiently large to permit holding of cheese prior to waxing for sufficient time to provide a smooth thoroughly dry surface—generally 48 to 72 hours is required. The drying room shall be kept clean and free from mold and shall be equipped with facilities for proper air circulation, control of temperature and relative humidity. There shall be ample shelving, properly spaced, and the shelves so constructed to permit easy cleaning. The shelves shall be kept clean and dry.

(3) *Dry storage (product).* The storage rooms for the dry storage of product shall be adequate in size, kept clean, dry, orderly, free from insects and mold and maintained in good repair. They shall be adequately lighted and ventilated. Control of humidity and temperature shall be maintained at all times consistent with good commercial practices which will not impair the quality of the finished product.

(4) *Supply room.* The supply rooms used for the purpose of storing packaging materials, containers, and miscellaneous ingredients shall be kept clean, dry, orderly, free from insects, rodents and mold, and maintained in good repair. Such items stored therein shall be adequately protected from dust, dirt, or other extraneous matter and so arranged as to permit cleaning, inspection, and spraying. The rooms shall be adequately lighted and ventilated.

(5) *Boiler, compressor, and tool rooms.* The boiler and tool rooms shall be separated from other rooms where milk and milk products are processed, manufactured, packaged, handled, or stored. The rooms shall be adequately lighted and ventilated. Ammonia compressors should be so located as to prevent any ammonia leakage from damaging milk or milk products.

(6) *Toilet and dressing rooms.* Adequate toilet and dressing room facilities shall be conveniently located but shall not open directly into any room in which milk, milk products, or ingredients are processed, packaged or stored. The toilet rooms shall be well lighted and ventilated by openings to the outer air. The toilet rooms and fixtures shall be kept clean and in good repair. The doors of all toilet rooms shall be self-closing. All employees shall be furnished with a locker or other suitable facility and the dressing rooms shall be kept clean and orderly. A durable, legible sign or signs shall be posted conspicuously in each toilet or dressing room directing employees to wash their hands before returning to work.

(7) *Grading room.* A separate grading room or designated area shall be provided for the inspection and grading of finished products. The grading room or area shall be suitably located, sufficient in size, well lighted, ventilated and the temperature range should preferably be between 60 and 80° F. and shall not be below 50° F. It shall be kept clean and dry, free from foreign odors and reasonably free from disturbing elements which would interfere with proper concentration by the grader. The grading room or area shall be equipped with a table or desk and facilities for washing hands.

(8) *Inspector's office.* An office shall be provided for official purposes. The room shall be conveniently located, adequate in size, and equipped with desk, storage supply cabinet, and clothes locker. It shall be well lighted, ventilated, heated, and custodial service furnished.

(9) *Laboratory.* (i) An adequate laboratory shall be maintained and properly staffed with trained and qualified personnel for control and analytical purposes. It shall be located reasonably close to the processing activity in a well-lighted and ventilated room of sufficient size to permit proper performance of the tests necessary in evaluating the raw and finished products. An approved central control laboratory serving several plants will be acceptable if conveniently located and samples and results of tests can be transmitted without undue delay.

(ii) Adequate equipment and facilities shall be provided for performing the required tests as determined by the nature and variety of dairy products processed. If the laboratory is to qualify as an "approved laboratory" it shall meet the requirements as set forth in § 58.101.

§ 58.129 *Facilities*—(a) *Water supply.* (1) There shall be an ample supply of both hot and cold water; and the water shall be of safe and sanitary quality with adequate facilities for its proper distribution throughout the plant and protection against contamination and pollution. Bacteriological examination should be made of the water supply at least twice a year, or as often as necessary, to determine purity and suitability for use in processing or manufacturing of dairy products. Such tests shall be made by a USDA or State agency laboratory or other approved laboratory and the results shall be kept on file at the plant for examination by the inspector.

(2) The location, construction and operation of the well shall comply with applicable local or State regulations.

(b) *Drinking-water facilities.* Drinking-water facilities of a sanitary type shall be provided in the plant and so located as to be convenient for employee use.

(c) *Hand-washing facilities.* Convenient hand-washing facilities shall be provided, including hot and cold running water, soap, or other detergents, and approved sanitary towels. Such accommodations shall be located in or adjacent to toilet and dressing rooms and also at such other places in the plant as may be essential to the cleanliness of all personnel handling products. Self-closing metal containers shall be provided for used towels and other wastes. Vats for washing equipment shall not be deemed satisfactory as hand-washing facilities for personnel.

(d) *Disposal of wastes.* Dairy waste shall be properly disposed of from the plant and premises. The sewage system shall have sufficient slope and capacity to readily remove all waste from the various processing operations. Containers used for the collection and holding of wastes, in the processing rooms, shall be kept covered or be of the self-closing type. Outside trash containers shall be constructed of metal and kept covered with tight-fitting lids and placed on a concrete slab or on a rack which is at least 12 inches above the ground. Solid wastes shall be disposed of daily and the containers cleaned before reusage.

§ 58.132 *Equipment and utensils*—(a) *Construction, repair and installation of equipment and utensils.* The equipment and utensils, including sanitary pumps, piping, fittings and connections, coming in contact with raw material and product shall be made of stainless steel. Other non-corrosive material which will not adversely affect the product also may be approved. Churns of wood construction may be temporarily approved if the wood is in sound condition. All equipment, utensils and piping shall be installed so as to be easily accessible for cleaning and shall be kept in good repair and free from cracks and corroded surfaces. The equipment, where applicable, should be set out approximately 24 inches from any wall and spaced approximately 24 inches between pieces of equipment which measure more than 48 inches on the parallel sides. Cleaned-in-place sanitary piping properly constructed of suitable material and properly installed will be acceptable.

(b) *New equipment and replacements.* New equipment and replacements where applicable shall meet the 3A Standards formulated by the International Association of Milk and Food Sanitarians, United States Public Health Service, and the Dairy Industry Committee. If 3A specifications are not available, such equipment and replacements shall be approved by the Administrator.

(c) *Contract specifications.* Where contract specifications specifically require stainless steel equipment and utensils in the processing, manufacturing or repackaging of any dairy product such specifications shall take precedence and govern the operation.

(d) *High temperature short time pasteurizers.* An approved automatic flow diversion valve and holding tube or its equivalent, if not a part of the existing equipment, should be installed on all HTST pasteurization equipment, including vacuum type pasteurizers, to assure complete pasteurization. When vacuum type pasteurizers are used the steam shall be conducted through a steam strainer and a steam purifier equipped with a steam trap. Such pasteurizing facilities shall yield a negative phosphatase test on milk or cream.

(e) *Thermometers and recorders*—(1) *Indicating thermometers.* (i) Long stem indicating thermometers which are accurate within 0.5° F. plus or minus for the applicable temperature range shall be provided for the purpose of checking temperatures of pasteurization and/or cooling of products in vats and for checking the accuracy of recording thermometers.

(ii) Short stem indicating thermometers which are accurate within 0.5° F. plus or minus for the applicable temperature range shall be installed in the proper stationary position in all HTST pasteurizers and all storage tanks where temperature readings are required.

(iii) Air-space indicating thermometers, where applicable, which are accurate within 1.0° F. plus or minus for the proper temperature range shall also be installed above the surface of the products pasteurized in vats, to make certain that the temperature of the foam and/or air above the products pasteurized also received the required minimum temperature treatment.

(2) *Recording thermometers.* Recording thermometers which are accurate within 1.0° F. plus or minus (2.0° F. at high temperatures) for the applicable temperature range shall be used on all vats or HTST equipment used for pasteurizing any milk or milk products to record the temperature and time held. Other recorders may be necessary where a record of temperature or time of cooling and holding is of significant importance. For more detailed specifications as to type, accuracy of installation of thermometers or recorders, the specifications as outlined by the United States Public Health Service Milk Ordinance and Code shall apply.

(f) *Heavy-duty vacuum cleaner.* Each plant should be equipped with a heavy-duty industrial vacuum cleaner and regular schedules established for thoroughly vacuuming applicable equipment and areas in the plant. The material picked up by vacuum cleaners shall be disposed of promptly.

PERSONNEL, CLEANLINESS AND HEALTH

§ 58.135 *Cleanliness.* All employees shall wash their hands before beginning work and upon returning to work after using toilet facilities, eating, smoking, or otherwise soiling their hands. They shall keep their hands clean and follow good hygienic practices while on duty. Expectorating or use of tobacco in any form, shall be prohibited in each room and each compartment, including the grading room or area, where any unpacked or exposed dairy products are prepared, processed, or otherwise handled. Clean, white, or light-colored washable outer garments, and caps (paper caps or hair nets acceptable) shall be worn by all persons engaged in receiving, testing, processing, or packaging any dairy products.

§ 58.136 *Health.* No person afflicted with any communicable disease (including, but not being limited to, tuberculosis) shall be permitted in any room or compartment where dairy products are prepared, processed, or otherwise handled. No person who has a discharging or infected wound, sore, or lesion on hands, arms, or other exposed portions of the body, shall work in any dairy processing rooms, or in any capacity resulting in contact with dairy products. All plant employees shall have a medical and physical examination by a registered physician or by the local department of health and each new employee should be examined and furnish a satisfactory medical certificate prior to starting work. Thereafter, every employee whose work brings him in contact with the processing or handling of milk, milk products, containers, or equipment should have a medical and physical examination at least once each 24 months. Employees returning to work following illness from communicable diseases shall have a certification from the attending physician to establish proof of complete recovery. A medical certificate for each employee should be on file at the plant office.

SPECIFICATIONS FOR RAW MILK AND FARM SEPARATED CREAM

§ 58.142 *Transportation and protection of raw material while in transit*—(a) *Milk and cream cans.* The milk and cream cans used in transporting milk or cream from farm to plant shall be of such construction as to be easily cleaned and kept in good repair. Covers providing adequate protection to the product shall be used. Inspection, repair, or replacement of cans and lids shall be adequate to substantially eliminate the use of cans and lids showing open seams, cracks, rust condition, milkstone or any unsanitary condition.

(b) *Bulk farm tanks.* All bulk farm tanks shall meet 3A Standards for construction at the time of installation and shall be installed in accordance with all local and state regulations. The tanks shall be designed and equipped with refrigeration so as to permit the cooling of the milk to 40° F. or lower within two hours and maintained below 45° F. until picked up. The milk shall be transferred from tank to truck through stainless steel piping or approved hose under sanitary conditions which will not detract from the established quality of the milk in the tank.

(c) *Transporting raw material.* All vehicles used for the transportation of raw material shall be constructed and operated to protect the product from extreme temperatures, dust, or other adverse conditions. Facilities shall be provided for adequate washing and sanitizing of tanks, piping, and accessories, at central locations, or at all plants receiving or shipping milk or milk products in tanks.

§ 58.143 *Specifications for raw milk.* The inspection of the raw milk for manufacturing or processing into dairy products under this part shall be based on the organoleptic examination and quality control tests for sediment content and bacterial estimate, as set forth in paragraphs (a), (b), and (c) of this section, at such time and place as is applicable for the tests performed.

(a) *Organoleptic examination.* All raw milk delivered at the approved plant shall be identified as to the producer, seller, or shipper from whom received. Each can or farm tank of milk shall be examined for physical characteristics, off-flavors, or off-odors, including those associated with developed acidity. The quality of the raw milk shall be wholesome and characteristic of normal milk. The flavor and odor of the raw milk shall be fresh and sweet and practically free from off-flavors or off-odors; however, normal feed flavors may be present. Any raw milk that shows an abnormal condition (including, but not being limited to curdled, ropy, clotted, bloody, or contains extraneous matter), or which shows significant bacterial deterioration shall be rejected to the producer, seller, or shipper and shall not be used in the processing or manufacturing of dairy products.

(b) *Sediment content classification.* (1) For the purpose of quality control and establishing a rejection level of the milk to the producer the following classifications of the milk for sediment content shall be applicable:

Sediment (off-the-bottom method):
Class 1—USDA Sediment Standard (not to exceed) 0.50 mg.
Class 2—USDA Sediment Standard (not to exceed) 1.00 mg.
Class 3—USDA Sediment Standard (not to exceed) 2.50 mg.

(2) At least twice each month, at irregular intervals, one can of milk from each producer shall be selected at random and tested for sediment content by the "off-the-bottom" method of sediment testing as set forth in the latest edition of "Standard Methods for the Examination of Dairy Products" published by the American Public Health Association, 1790 Broadway, New York, New York. If the sediment disc on the can of milk selected at random is classified Class 3 (2.50 mg.) or more, as determined on the basis of the United States Sediment Standards for Milk and Milk Products (Part 43 of this title), all cans of milk in the shipment shall be tested for sediment content. In the case of milk held in bulk farm tanks a representative sample shall be taken by an acceptable and approved method for sediment testing, which will yield results comparable to the "off-the-bottom" method of sediment testing for individual cans, and properly classified in accordance with the aforementioned United States Sediment Standards for Milk and Milk Products.

(c) *Bacterial estimate classification.* (1) For the purpose of quality improvement and establishing a quality pattern for producers the following classification of the milk for bacterial estimate shall be applicable:

Bacterial estimate classification	Direct microscopic (clump) count	Methylene blue test, mixed sample not decolorized in—	Resazurin test, no color change beyond color represented by—
Class 1	200,000 per milliliter	5½ hours	P–7/4 in 2¾ hours.
Class 2	3,000,000 per milliliter	2½ hours	P–7/4 in 1½ hours.
Class 3	10,000,000 per milliliter	1 hour	P–7/4 in ¾ hour.

(2) At least twice each month a bacterial estimate shall be made on a mixed sample of each producer's milk by the methylene blue test, the resazurin test, the direct microscopic (clump) count or its equivalent as set forth in the latest edition of "Standard Methods for the Examination of Dairy Products," published by the American Public Health Association, 1790 Broadway, New York, New York.

(3) Weekly rechecks should be made on Class 3 milk until the milk has improved to Class 2 or better.

(d) *Acceptable milk.* Milk acceptable pursuant to the requirements of paragraph (a) of this section for organoleptic examination and complying with Class 1 or Class 2 for sediment content may be used in the processing or manufacturing of dairy products. For stabilized (sterilized) whole milk to be officially identified with USDA inspection legend the bacterial estimate of the raw milk shall not exceed 500,000 per ml. by the direct microscopic clump count or its equivalent, and the sediment shall not exceed Class 2, applicable to the individual producer's milk. For stabilized (sterilized) whole milk not bearing the USDA inspection legend, the bacterial estimate of the raw milk from individual producers, and sediment, shall be in accordance with either Federal or Military specifications and/or other purchase contract requirements, whichever is applicable.

(e) *Probational milk.* Milk acceptable pursuant to the requirements of paragraph (a) of this section for organoleptic examination but classified as Class 3 for sediment content may be used in processing or manufacturing of dairy products for a period of 10 days with respect to sediment content. When any producer's milk is classified as probationary for sediment or Class 3 or more for bacterial estimate a plant representative shall visit the farm and assist the producer in correcting the unsatisfactory condition. If the quality of the milk, as determined by further testing of each can of a producer's milk for sediment content, has not improved within the probationary period to Class 2, or better, the plant shall reject the milk to the producer.

(f) *Rejected milk.* The milk from a producer who has failed to improve the quality of his milk during the probationary period so as to meet Class 2, or better, for sediment, shall be rejected milk. Any further acceptance of milk from such a producer shall be on the basis of testing each shipment for sediment content prior to acceptance to determine if the milk is Class 2, or better. When three consecutive shipments within the next 5 days indicate milk of Class 2, or better, the milk from this producer may again be accepted, subject to regular periodic testing and quality control measures. If within five days three consecutive shipments fail to meet the requirements of Class 2, for sediment, the milk from this producer shall again be classified as reject milk and the plant shall not accept milk from this producer until a representative of the plant again visits the farm and has determined that the unsatisfactory condition has been corrected.

(g) *Unacceptable milk.* The plant shall reject to the producer all milk that fails to meet the requirements of paragraph (a) of this section for organoleptic examination and/or is lower in quality than Class 3 for sediment on any single shipment.

(h) *Field service.* A representative of the plant should arrange to visit promptly each producer involved in the production of probational or rejected milk for the purpose of inspecting the equipment, utensils, and facilities at the farm and to offer constructive assistance for improvement in the quality of the milk. A representative of the plant should visit each producer as often as is practicable to assist in and encourage the production of high quality milk.

(i) *Bulk milk.* Bulk milk in storage tanks within the processing plant or receiving station shall be maintained at a temperature of 45° F. or lower until processed. Quality checks for bacterial estimate and flavor shall be made daily to make certain that the quality of the milk in the tanks is consistent with the milk received from the producers as shown by plant records.

(j) *Records.* Accurate plant records, listing the results of quality tests made on raw milk, shall be maintained on each producer's milk. Each producer shipping probational or reject milk shall be informed immediately of the results of such quality tests. Producers shipping Class 1 and Class 2 milk should receive such information at the time of regular remittances. Records shall also be maintained on each bulk milk lot. Such records shall be available for examination by the inspector and kept on file for at least one year.

§ 58.144 *Specifications for farm-separated cream.* The inspection of the farm-separated cream to be used for manufacturing or processing into dairy products under this part shall be based on the organoleptic examination and quality control tests to determine sediment content of each individual producer's cream at the time of delivery thereof at the receiving plant or substation.

(a) *Organoleptic examination.* All cream received at the approved plant, receiving plant, or substation shall be identified as to the producer, seller, or shipper from whom received. Each can of cream in each shipment shall be examined for physical characteristics, off-flavors and off-odors, including those associated with developed acidity. The condition of the cream shall be wholesome and characteristic of normal cream. The organoleptic examination and segregation of the cream, which is used in the manufacturing or processing into butter, shall be consistent with the applicable flavor classification of butter set forth in the U. S. Standards for Grades of Butter (Part 63 of this title). Any cream having pronounced or offensive off-flavors or off-odors, or which is in an abnormal condition (including, but not being limited to surface mold, foamy, yeasty, fruity, or containing extraneous matter), or which is otherwise unwholesome, shall be rejected to the producer, seller, or shipper and shall not be used in the processing or manufacturing of dairy products.

(b) *Sediment content classification.* (1) For the purpose of quality control and establishing a rejection level of cream to the producer, seller, or shipper, the following classifications of cream for sediment shall be applicable:

Sediment (off-the-bottom method):
Class 1—USDA Sediment Standard (not to exceed) 0.50 mg.
Class 2—USDA Sediment Standard (not to exceed) 1.00 mg.
Class 3—USDA Sediment Standard (not to exceed) 2.50 mg.
Sediment (mixed-can method):
Class 1—USDA Sediment Standard (not to exceed) 0.20 mg.
Class 2—USDA Sediment Standard (not to exceed) 0.30 mg.
Class 3—USDA Sediment Standard (not to exceed) 1.00 mg.

(2) At least twice each month one can of cream from each producer, seller, or shipper of farm separated cream shall be selected at random and tested by using the "off-the-bottom" method or the "mixed-can" method in accordance with acceptable and approved procedures.

(3) As a supplement to the regular sediment testing procedure it is recommended that whole-can filtering facilities be utilized for each can of each shipment of cream from the producer for coarse sediment or extraneous matter and rejections be made in accordance with State or Federal Food and Drug Administration practices.

(c) *Acceptable cream.* Cream acceptable pursuant to the requirements of paragraph (a) of this section for organoleptic examination and complying with Class 1 or Class 2 for sediment content may be used in the processing or manufacturing of dairy products.

(d) *Probational cream.* Cream acceptable pursuant to the requirements of paragraph (a) of this section for organoleptic examination but classified Class 3 for sediment content may be accepted for processing in an approved plant for three successive deliveries. Thereafter each successive delivery shall be tested for sediment content prior to acceptance. If the sediment content is in excess of Class 2, such cream shall be rejected to the producer, seller, or shipper, and successive deliveries shall continue to be rejected until the sediment content is Class 2, or better. As soon as any shipment of cream is classified as probationary a representative of the plant, receiving plant, or substation should contact the producer, seller, or shipper involved in the production of probational cream and, if necessary, arrange to inspect the equipment, utensils, and facilities at the farm, receiving plant, or substation and to offer constructive assistance for improvement in the quality of the cream.

(e) *Rejected cream.* (1) The cream from a producer, seller, or shipper who has failed to improve the quality of his cream during the probationary period so as to meet the requirements of Class 2, or better, for sediment shall be rejected cream. Any further acceptance of cream from such a producer, seller, or shipper shall be on the basis of testing each shipment for sediment content, prior to acceptance to determine if the cream is Class 2, or better. If all cans of cream of the subsequent shipment meet Class 2, or better, such cream shall be classified as probational cream. When three successive shipments indicate cream of Class 2, or better, the cream may again be accepted, subject to regular periodic testing and quality control measures.

(2) If the initial new shipment fails to meet the requirements of Class 2 cream, or better, the plant shall not accept such cream until a representative of the plant again contacts the producer, seller, or shipper for the purpose of offering constructive assistance in correcting the unsatisfactory condition.

(f) *Field service.* A representative of the plant should arrange to contact promptly each producer, seller, or shipper involved in the production of probational or reject cream for the purpose of offering constructive assistance for the improvement in the quality of the cream. If necessary, he should arrange to inspect the equipment, utensils, and facilities at the farm, receiving plant, or substation. A representative of the plant should visit each producer, seller, or shipper as often as is practicable to assist in and encourage the production of high quality cream.

(g) *Records.* Accurate plant records listing the results of quality tests made on raw cream shall be maintained on cream from each producer, seller, or shipper. Each producer, seller, or shipper, shipping probational or rejected cream, shall be informed immediately of the results of such quality tests. Producers, sellers, or shippers, shipping Class 1 and Class 2 cream should receive such information at the time of regular remittances. Such records shall be available for examination by the inspector and kept on file for at least one year.

§ 58.147 *Alternate quality program.* When a processor has in operation an acceptable quality program, at the producer level, which is approved by the Inspection and Grading Branch, Dairy Division, Agricultural Marketing Service, as being effective in obtaining results comparable to or higher than the quality program as outlined above for milk or cream, then such a program may be accepted in lieu of the program herein prescribed.

OPERATIONS AND OPERATING PROCEDURES

§ 58.150 *Clean and sanitary methods.* All operations in receiving, transporting, segregating, holding, processing, packaging, and storing of dairy products shall be strictly in accordance with clean and sanitary methods and shall be conducted rapidly, and consistent with best commercial practices.

§ 58.151 *Segregation of raw material.* The milk and cream received at an approved plant shall meet the quality specifications as listed under §§ 58.143 and 58.144. The milk and cream received at an approved plant should be segregated and processed separately in such a manner that the finished dairy product will fully meet the requirements of a particular U. S. Grade or other specification, whichever is applicable.

§ 58.152 *Raw material deterioration.* Raw materials shall be held under conditions and at temperatures that will retard any material increase in bacterial content to avoid any deterioration or contamination of such products.

§ 58.153 *Milk or cream storage.* Incoming milk or cream shall be handled in such a manner to minimize bacterial increase during the receipt of the milk or cream and during the holding period prior to processing.

§ 58.158 *Pasteurization.* Pasteurization of the raw material shall be accomplished at the plant where the milk or cream is processed.

(a) *Cream for butter making.* The pasteurization of cream for butter making shall be at a temperature of not less than 165° F. for at least 30 minutes for the holding method, or not less than 185° F. for at least 15 seconds for the flash method, or any other temperature and holding time which will assure adequate pasteurization and comparable keeping-quality characteristics. If vat or holding method is used vat covers are to be closed prior to holding period to assure temperature of air space reaching the minimum temperature before holding time starts.

(b) *Milk for cheese making.* Pasteurization of milk for cheese making shall be at a temperature of at least 161° F. for 15 seconds in approved and properly operating equipment. Comparable temperatures and holding times may be used which will produce a negative phosphatase test.

(c) *Other dairy products.* Pasteurization of milk or cream for other dairy products shall be at such temperatures and at holding periods as will assure proper pasteurization and sufficient to assure adequate keeping-quality and consistent with the most desirable quality of the finished product.

§ 58.159 *Product contamination.* All necessary precautions shall be taken to prevent the contamination of any dairy product.

§ 58.160 *Checking quality.* All dairy products shall be subject to inspection for quality and condition throughout each processing operation in addition to the regular routine analysis made on the

raw and finished products in the laboratory to determine quality and/or composition.

§ 58.161 *Wholesomeness.* All substances and ingredients used in the processing or manufacturing of any dairy product shall be subject to inspection and shall be wholesome and practically free from impurities.

§ 58.162 *Product stability.* The methods and procedures employed in the receiving, segregating, and processing of raw materials in a plant and the storing of the finished product shall be in accordance with best commercial practices and adequate to result in a satisfactory and stable product.

§ 58.168 *Cleaning and bactericidal treatment of equipment and utensils.* The equipment, sanitary piping, and utensils used in the receiving, processing, packaging and handling of milk and milk products shall be maintained in a sanitary condition. The equipment, except that which is effectively cleaned-in-place, shall be disassembled daily for thorough cleaning. A dairy cleanser, detergent, wetting agent or sanitizing agent, or other similar materials may be used as will not contaminate or deleteriously affect the product. Steel wool or metal sponges shall not be used in the cleaning of any dairy equipment or utensils. Such equipment and utensils shall be subjected to an acceptable bactericidal or sanitizing process. After reassembly and prior to use all equipment coming in contact with milk or milk products shall be subjected to an acceptable bactericidal or sanitizing process. Utensils and portable equipment used in processing operations shall be stored above the floor in clean, dry locations, and in a self-draining position on racks constructed of impervious, corrosion-resistant material. The milk or cream cans shall be cleaned, sanitized, and dried before returning to the producers. Can washers shall be maintained in a clean and satisfactory operating condition. Truck-tanks, sanitary piping, connections, and pumps shall be cleaned and sanitized at least once each day and more frequently as required. The outside of the truck-tanks shall be maintained in a clean and satisfactory condition.

§ 58.169 *Plant records.* Adequate plant records shall be maintained of all tests and analyses made in the laboratory or throughout the plant during processing, on all raw material and finished products. Such records shall be available for examination at any time by the inspector and kept on file for at least one year.

PACKAGING AND GENERAL IDENTIFICATION

§ 58.175 *Containers.* (a) Packages or containers used for the packing of approved dairy products shall be any commercially accepted container or packaging material which will satisfactorily protect the contents through the regular channels of trade, without significant impairment of quality with respect to flavor, contamination or moisture content under the normal conditions of handling.

(b) Due to the importance of proper treatment of parchment liners in bulk butter packages for protection against mold and other possible deterioration, the liners shall be treated as follows: The liners shall be completely immersed in a salt solution in a suitable noncorrosive container and held therein at the boiling point for not less than 30 minutes and held in this solution until used. The solution should consist of at least 15 pounds of salt for every 100 pounds of water and shall be changed each day. The lined butter boxes shall be inverted until ready for use to afford protection from possible contamination.

§ 58.176 *Packaging and repackaging.* Packaging shall be performed at the place and time of manufacture. In case of cheddar cheese, paraffining may be at factory or assembling warehouse. When officially graded bulk product is to be repackaged into consumer type packages for official grade labeling or other official identification a supervisor of packaging shall be required and the plant, equipment, facilities, and personnel shall meet the same specifications as outlined in this part, including such markings or identification as may be required.

§ 58.177 *General identification.* All commercial bulk packages containing dairy products manufactured under the provisions of this part shall be adequately and legibly marked with the name of the product, net weight, name and address of processor or manufacturer or other assigned plant identification, lot number, and any other identification as may be required. Consumer packaged product shall be legibly marked with the name of the product, net weight, name and address of packer or distributor and such other official identification as may be required.

STORAGE OF FINISHED PRODUCT

§ 58.182 *Dry storage.* The product shall be stored or so arranged in aisles, rows, or sections and lots or in such a manner as to be orderly, easily accessible for inspection or for cleaning of room. It is recommended that dunnage or pallets be used when practical. Care shall be taken in the storage of any other product foreign to dairy products in the same room, in order to prevent impairment or damage to the product from absorbed odors or vermin or insect infestation. Control of humidity and temperature shall be maintained at all times consistent with good commercial practices.

§ 58.183 *Refrigerated storage.* The finished product shall be placed on dunnage or palletized and properly identified. It shall be stored under temperatures that will best maintain the initial quality. The product shall not be exposed to anything from which it might absorb any foreign odors or be contaminated from drippage or condensation.

INSPECTION, GRADING AND OFFICIAL IDENTIFICATION

§ 58.187 *Grading.* All dairy products which have been processed or manufactured in an approved plant shall be graded by the grader in accordance with established official U. S. Standards for Grades. Laboratory analysis, when required in determining the final grade, shall be conducted only in an approved laboratory.

§ 58.188 *Inspection.* All dairy products, which have been processed or manufactured in an approved plant, for which there are no official U. S. Standards for Grades, shall be inspected for quality by the inspector in accordance with contract requirements or specifications established by the U. S. Department of Agriculture or other Federal agency, including laboratory analysis when necessary.

§ 58.189 *Official identification.* (a) Only dairy products received, processed, or manufactured in accordance with the specifications contained in this subpart and inspected and/or graded in accordance with the provisions of this part may be identified with official identification.

(b) Sketches, proofs, or photostatic copies of all proposed packaging materials, grade labels, and inspection marks to be used as official identification shall be submitted to the Chief of the Inspection and Grading Branch, Dairy Division, Agricultural Marketing Service, U. S. Department of Agriculture, Washington, D. C., for tentative approval prior to acquisition of a supply of material bearing such identification.

(c) Finished copies, in quadruplicate, of the tentatively approved packaging materials, grade labels, and inspection marks shall be transmitted to the Chief of the Inspection and Grading Branch for final approval prior to their use as official identification.

§ 58.190 *Local or State regulations and specifications.* (a) Local or State regulations or specifications where applicable to the plant, equipment, raw material, product ingredients, facilities, sanitation or dairy products, which are higher than those specified in this subpart, shall be applicable.

(b) Local or State health requirements when higher than those specified in this subpart shall be applicable.

§ 58.195 *Explanation of terms.*—(a) *Fresh and sweet.* Free from "old milk" flavor and odor of developed acidity or other off-flavors or off-odors.

(b) *Normal feed.* Regional feed flavors, such as alfalfa, clover, silage, or similar feeds or grasses (weed flavors, such as peppergrass, French weed, onion, garlic, or other obnoxious weeds, excluded).

(c) *Off-flavors or off-odors.* Flavors or odors, such as utensil, bitter, barny, or other associated defects when present to a degree readily detectable.

(d) *Developed acidity.* An apparent increase from the normal acidity of the milk to a degree of flavor and odor which is detectable.

(e) *Extraneous matter.* Foreign substances, such as filth, hair, insects and fragments thereof, and rodents and fragments thereof; and materials, such as metal, fiber, wood, and glass.

(f) *Sediment.* Fine particles of material other than the foreign substances and materials defined in paragraph (e) of this section.

(g) *Normal cream.* Wholesome cream free from pronounced or offensive off-flavors or off-odors or abnormal conditions, such as mold, extraneous matter, or excessive sediment.

(h) *Pronounced off-flavors and off-odors.* Flavors and odors, such as stale, metallic, yeasty, and fruity.

(i) *Offensive off-flavors or off-odors.* Flavors and odors, such as chemical, oily, rancid, obnoxious weeds (peppergrass, French weed, onion, and garlic).

Done at Washington, D. C., this 8th day of November 1955.

[SEAL] FRANK E. BLOOD,
Acting Deputy Administrator,
Agricultural Marketing Service.

Chapter IX—Agricultural Marketing Service (Marketing Agreements and Orders), Department of Agriculture

[Navel Orange Reg. 60]

PART 914—NAVEL ORANGES GROWN IN ARIZONA AND DESIGNATED PART OF CALIFORNIA

LIMITATION OF HANDLING

§ 914.360 *Navel Orange Regulation 60.*—(a) *Findings.* (1) Pursuant to the marketing agreement, as amended, and Order No. 14, as amended (7 CFR Part 914; 19 F. R. 2941), regulating the handling of navel oranges grown in Arizona and designated part of California, effective September 22, 1953, under the applicable provisions of the Agricultural Marketing Agreement Act of 1937, as amended (7 U. S. C. 601 et seq.), and upon the basis of the recommendation and information submitted by the Navel Orange Administrative Committee, established under the said amended marketing agreement and order, and upon other available information, it is hereby found that the limitation of handling of such navel oranges, as hereinafter provided, will tend to effectuate the declared policy of the act.

(2) It is hereby further found that it is impracticable and contrary to the public interest to give preliminary notice, engage in public rule-making procedure, and postpone the effective date of this section until 30 days after publication thereof in the FEDERAL REGISTER (60 Stat. 237; 5 U. S. C. 1001 et seq.) because the time intervening between the date when information upon which this section is based became available and the time when this section must become effective in order to effectuate the declared policy of the act is insufficient, and a reasonable time is permitted, under the circumstances, for preparation for such effective time; and good cause exists for making the provisions hereof effective as hereinafter set forth. The Navel Orange Administrative Committee held an open meeting on November 9, 1955, after giving due notice thereof, to consider supply and market conditions for navel oranges and the need for regulation; interested persons were afforded an opportunity to submit information and views at this meeting; the recommendation and supporting information for regulation during the period specified herein was promptly submitted to the Department after such meeting was held; the provisions of this section, including its effective time, are identical with the aforesaid recommendation of the committee, and information concerning such provisions and effective time has been disseminated among handlers of such navel oranges; it is necessary, in order to effectuate the declared policy of the act; to make this section effective during the period herein specified; and compliance with this section will not require any special preparation on the part of persons subject thereto which cannot be completed on or before the effective date hereof.

(b) *Order.* (1) The quantity of navel oranges grown in Arizona and designated part of California which may be handled during the period beginning at 12:01 a. m., P. s. t., November 13, 1955, and ending at 12:01 a. m., P. s. t., November 20, 1955, is hereby fixed as follows:

(i) District 1: 29,090 cartons;
(ii) District 2: Unlimited movement;
(iii) District 3: Unlimited movement;
(iv) District 4: Unlimited movement.

(2) Navel oranges handled pursuant to the provisions of this section shall be subject to any size restrictions applicable thereto which have heretofore been issued on the handling of such oranges and which are effective during the period specified herein.

(3) As used in this section, "handled," "District 1," "District 2," "District 3," and "District 4" have the same meaning as when used in said amended marketing agreement and order; and "carton" means the standard one-half orange, grapefruit, or lemon box set forth as standard container number 58 in section 828.83, as amended, of the Agricultural Code of California.

(Sec. 5, 49 Stat. 753, as amended; 7 U. S. C. 608c)

Dated: November 10, 1955.

[SEAL] S. R. SMITH,
Director, Fruit and Vegetable Division, Agricultural Marketing Service.

[F. R. Doc. 55-9194; Filed, Nov. 10, 1955; 11:14 a. m.]

PART 953—LEMONS GROWN IN CALIFORNIA AND ARIZONA

ORDER AMENDING ORDER, AS AMENDED, REGULATING HANDLING OF LEMONS GROWN IN CALIFORNIA AND ARIZONA

§ 953.0 *Findings and determinations.* The findings and determinations hereinafter set forth are supplementary and in addition to the findings and determinations made in connection with the issuance of this order and each of the previously issued amendments thereto; and all of said previous findings and determinations are hereby ratified and affirmed except insofar as such findings and determinations may be in conflict with the findings and determinations set forth herein.

(a) *Findings upon the basis of the hearing record.* Pursuant to the Agricultural Marketing Agreement Act of 1937, as amended (48 Stat. 31, as amended; 7 U. S. C. 601 et seq.; 68 Stat. 906, 1047), and the applicable rules of practice and procedure effective thereunder (7 CFR Part 900; 19 F. R. 57), a public hearing was held at Los Angeles, California, on April 13, 1955, upon proposed amendments to Marketing Agreement No. 94, as amended, and Order No. 53, as amended (7 CFR Part 953) [1] regulating the handling of lemons grown in California and Arizona. Upon the basis of the evidence introduced at such hearing and the record thereof, it is found that:

(1) The said order, as amended, and as hereby further amended, and all of the terms and conditions thereof, will tend to effectuate the declared policy of the act, including the establishment and maintenance of such orderly marketing conditions for lemons grown in the States of California and Arizona as will provide, in the interests of producers and consumers, an orderly flow thereof to market throughout its normal marketing season to avoid unreasonable fluctuations in supplies and prices;

(2) The said order, as amended, and as hereby further amended, regulates the handling of lemons grown in the States of California and Arizona in the same manner as, and is applicable only to persons in the respective classes of industrial and commercial activity specified in, the marketing agreement upon which hearings have been held;

(3) The said order, as amended, and as hereby further amended, is limited in its application to the smallest regional production area that is practicable, consistently with carrying out the declared policy of the act; and the issuance of several orders applicable to subdivisions of such production area would not effectively carry out the declared policy of the act; and

(4) The said order, as amended, and as hereby further amended, prescribes, so far as practicable, such different terms, applicable to different parts of the production area, as are necessary to give due recognition to differences in the production and marketing of the lemons covered thereby.

(b) *Determinations.* It is hereby determined that:

(1) The "Agreement Amending the Markcting Agreement, as Amended, Regulating the Handling of Lemons Grown in California and Arizona," upon which the aforesaid public hearing was held, has been signed by handlers (excluding cooperative associations of producers who were not engaged in processing, distributing, or shipping the lemons covered by this order) who, during the period November 1, 1953, through October 31,

[1] The compilation of Order No. 53, as amended, appears in 20 F. R. 2913.

1954, shipped not less than 80 percent of the volume of lemons covered by said order, as amended, and hereby further amended;

(2) The issuance of this order, amending the aforesaid order, as amended, is favored, or approved, by at least three-fourths of the producers who, during the determined representative period (November 1, 1953, through October 31, 1954), were engaged within the production area specified in said order, as amended, in the production of lemons for market; and

(3) The issuance of this order, amending the aforesaid order as amended, is favored or approved by producers who, during the aforesaid representative period, produced for market at least two-thirds of the volume of lemons produced within California and Arizona for market.

It is, therefore, ordered, That, on and after the effective date hereof, all handling of lemons grown in the production area shall be in conformity to, and in compliance with, the terms and conditions of the aforesaid order, as amended, and as hereby further amended as follows:

1. Delete the provisions of § 953.2 *Act* and insert, in lieu thereof, the following:

§ 953.2 *Act.* "Act" means Public Act No. 10, 73d Congress (May 12, 1933), as amended and as reenacted and amended by the Agricultural Marketing Agreement Act of 1937, as amended (48 Stat. 31, as amended; 7 U. S. C. 601 et seq.; 68 Stat. 906, 1047).

2. Insert the following new sentence immediately preceding the last sentence of § 953.52 *Issuance of regulations:* "Such regulation may be made effective, as authorized by the act, irrespective of whether the season average price for lemons is in excess of the parity price specified therefor in the act."

3. Delete the word "two" wherever it appears in paragraph (h) of § 953.22 *Nominations* and insert, in lieu thereof, the word "one".

(Sec. 5, 49 Stat. 753, as amended; 7 U. S. C. 608c)

Done at Washington, D. C., this 7th day of November 1955, to become effective December 15, 1955.

[SEAL] TRUE D. MORSE,
Acting Secretary.

[F. R. Doc. 55-9118; Filed, Nov. 10, 1955; 8:45 a. m.]

[Lemon Reg. 615]

PART 953—LEMONS GROWN IN CALIFORNIA AND ARIZONA

LIMITATIONS OF SHIPMENTS

§ 953.722 *Lemon Regulation 615*—(a) *Findings.* (1) Pursuant to the marketing agreement, as amended, and Order No. 53, as amended (7 CFR Part 953; 20 F. R. 2913), regulating the handling of lemons grown in the State of California or in the State of Arizona, effective under the applicable provisions of the Agricultural Marketing Agreement Act of 1937, as amended (7 U. S. C. 601 et seq.), and upon the basis of the recommendation and information submitted by the Lemon Administrative Committee, established under the said amended marketing agreement and order, and upon other available information, it is hereby found that the limitation of the quantity of such lemons which may be handled, as hereinafter provided, will tend to effectuate the declared policy of the act.

(2) It is hereby further found that it is impracticable and contrary to the public interest to give preliminary notice, engage in public rule-making procedure, and postpone the effective date of this section until 30 days after publication thereof in the FEDERAL REGISTER (60 Stat. 237; 5 U. S. C. 1001 et seq.) because the time intervening between the date when information upon which this section is based became available and the time when this section must become effective in order to effectuate the declared policy of the act is insufficient, and a reasonable time is permitted, under the circumstances, for preparation for such effective time; and good cause exists for making the provisions hereof effective as hereinafter set forth. Shipments of lemons, grown in the State of California or in the State of Arizona, are currently subject to regulation pursuant to said amended marketing agreement and order; the recommendation and supporting information for regulation during the period specified herein was promptly submitted to the Department after an open meeting of the Lemon Administrative Committee on November 9, 1955, such meeting was held, after giving due notice thereof to consider recommendations for regulation, and interested persons were afforded an opportunity to submit their views at this meeting; the provisions of this section, including its effective time, are identical with the aforesaid recommendation of the committee, and information concerning such provisions and effective time has been disseminated among handlers of such lemons; it is necessary, in order to effectuate the declared policy of the act, to make this section effective during the period hereinafter specified; and compliance with this section will not require any special preparation on the part of persons subject thereto which cannot be completed by the effective time thereof.

(b) *Order.* (1) The quantity of lemons grown in the State of California or in the State of Arizona which may be handled during the period beginning at 12:01 a. m., P. s. t., November 13, 1955, and ending at 12:01 a. m., P. s. t., November 20, 1955, is hereby fixed as follows:

(i) District 1: Unlimited movement;

(ii) District 2: 162,750 cartons;

(iii) District 3: Unlimited movement.

(2) As used in this section, "handled," "District 1," "District 2," and "District 3" shall have the same meaning as when used in the said amended marketing agreement and order; and "carton" shall mean a container having a capacity equal to one-half the standard lemon box described in said amended marketing agreement and order as having inside dimensions 10 inches in depth, 13 inches in width, and 25⅝ inches in length.

(Sec. 5, 49 Stat. 753, as amended; 7 U. S. C. 608c)

Dated: November 9, 1955.

[SEAL] S. R. SMITH,
Director, Fruit and Vegetable Division, Agricultural Marketing Service.

[F. R. Doc. 55-9161; Filed, Nov. 10, 1955; 8:55 a. m.]

PART 959—IRISH POTATOES GROWN IN MODOC AND SISKIYOU COUNTIES IN CALIFORNIA AND IN ALL COUNTIES IN OREGON EXCEPT MALHEUR COUNTY

APPROVAL OF EXPENSES AND RATE OF ASSESSMENT

Notice of rule making regarding proposed expenses and rate of assessment, to be made effective under Marketing Agreement No. 114, as amended, and Order No. 59, as amended (7 CFR Part 959; 20 F. R. 7068), regulating the handling of Irish potatoes grown in Modoc and Siskiyou Counties in California and in all counties in Oregon except Malheur County, was published in the FEDERAL REGISTER October 15, 1955 (20 F. R. 7795). This regulatory program is effective under The Agricultural Marketing Agreement Act of 1937, as amended (48 Stat. 31, as amended; 7 U. S. C. 601 et seq.). After consideration of all relevant matters presented, including the proposals set forth in the aforesaid notice, which proposals were adopted and submitted for approval by the Oregon-California Potato Committee, established pursuant to said amended marketing agreement and order, it is hereby found and determined that:

§ 959.208 *Expenses and rate of assessment.* (a) The reasonable expenses that are likely to be incurred by the Oregon-California Potato Committee, established pursuant to Marketing Agreement No. 114, as amended, and Order No. 59, as amended, to enable such committee to perform its functions pursuant to the provisions of aforesaid amended marketing agreement and order, during the fiscal period ending June 30, 1956, will amount to $26,100.

(b) The rate of assessment to be paid by each handler, pursuant to Marketing Agreement No. 114, as amended, and Order No. 59, as amended, shall be one-half of one cent ($0.005) per hundredweight of potatoes handled by him as the first handler thereof during said fiscal period.

(c) The terms used in this section shall have the same meaning as when used in Marketing Agreement No. 114, as amended, and Order No. 59, as amended.

(Sec. 5, 49 Stat. 753, as amended; 7 U. S. C. 608c)

Done at Washington, D. C., this 8th day of November 1955, to become effective 30 days after publication in the FEDERAL REGISTER.

[SEAL] F. R. BURKE,
Acting Deputy Administrator.

[F. R. Doc. 55-9133; Filed, Nov. 10, 1955; 8:48 a. m.]

PART 989—HANDLING OF RAISINS PRODUCED FROM RAISIN VARIETY GRAPES GROWN IN CALIFORNIA

BUDGET OF EXPENSES OF RAISIN ADMINISTRATIVE COMMITTEE AND RATE OF ASSESSMENT FOR 1955–56 CROP YEAR

Pursuant to Marketing Agreement No. 109, as amended, and Order No. 89, as amended (20 F. R. 6435), regulating the handling of raisins produced from raisin variety grapes grown in California, effective under the applicable provisions of the Agricultural Marketing Agreement Act of 1937, as amended (7 U. S. C. 601 et seq.), a budget of expenses for the Raisin Administrative Committee and a rate of assessment for the 1955–56 crop year were submitted by the said committee for approval by the Secretary.

After consideration of all matters pertaining thereto, including the recommendation of the Raisin Administrative Committee, it is hereby found and determined, and it is therefore ordered, that the budget of expenses for the Raisin Administrative Committee, and the rate of assessment, for the crop year beginning September 1, 1955, shall be as follows:

§ 989.306 *Budget of expenses of the Raisin Administrative Committee and rate of assessment for the 1955–56 crop year*—(a) *Budget of expenses.* Expenses in the amount of $70,500 are reasonable and are likely to be incurred by the Raisin Administrative Committee for its maintenance and functioning and for the maintenance and functioning of the Raisin Advisory Board for the crop year beginning September 1, 1955.

(b) *Rate of assessment.* Each handler shall pay to the Raisin Administrative Committee, in accordance with the amended marketing agreement and the amended order, an assessment rate of 47 cents for each ton of free tonnage raisins acquired by him, and for each ton of reserve tonnage raisins sold to him by the committee, during the crop year beginning September 1, 1955, which assessment rate is hereby fixed as each handler's pro rata share of the aforesaid expenses.

It is further found that it is impractical and contrary to the public interest to give preliminary notice, engage in public rule making, and postpone the effective time of the document with respect to the aforesaid budget of expenses and rate of assessment for 30 days, or any lesser period, after publication of it in the FEDERAL REGISTER (see section 4 (c) of the Administrative Procedure Act; 5 U. S. C. 1001 et seq.) because: (1) The rate of assessment hereby fixed is applicable to raisins acquired by handlers during the current crop year as set forth in this section; (2) handlers usually begin to receive deliveries of raisins from producers about September 1 which receipts are, by the terms of the amended marketing agreement and the amended order, subject to the assessments set forth in this section; (3) it is essential that the Raisin Administrative Committee be enabled to obtain assessment funds promptly to defray expenses of administering the program; and (4) compliance with this section will not require any special preparation on the part of handlers. Therefore, good cause exists to make this order effective upon publication in the FEDERAL REGISTER.

(Sec. 5, 49 Stat. 753, as amended; 7 U. S. C. 608c)

Issued this 8th day of November 1955, to become effective upon publication in the FEDERAL REGISTER.

[SEAL] F. R. BURKE,
Acting Deputy Administrator, Marketing Services.

[F. R. Doc. 55-9132; Filed, Nov. 10, 1955; 8:48 a. m.]

PART 1002—MILK IN GREATER WHEELING, W. VA., MARKETING AREA

ORDER SUSPENDING CERTAIN PROVISIONS

Pursuant to the applicable provisions of the Agricultural Marketing Agreement Act of 1937, as amended (7 U. S. C. 601 et seq.), hereinafter referred to as the "act", and of the order, as amended (7 CFR Part 1002), regulating the handling of milk in the Greater Wheeling, West Virginia, marketing area, hereinafter referred to as the "order", it is hereby found and determined that:

(a) The provision "unless a greater volume of Class I milk is disposed of from such plant to retail or wholesale outlets (except pool plants or nonpool plants) in the Greater Wheeling marketing area than in the marketing area regulated pursuant to such order;" of § 1002.61 (a) will not tend to effectuate the declared policy of the act for the period November 1, 1955, through July 31, 1956. This provision prohibits the determination by the Secretary that a plant regulated under another Federal order shall be considered a nonpool plant under the Greater Wheeling order if a greater volume of Class I milk is disposed of to retail or wholesale outlets in the Greater Wheeling area than in the marketing area pursuant to such other order. This limitation on the discretion of the Secretary to determine that a plant otherwise subject to both the Greater Wheeling and the Cleveland Federal milk orders shall be regulated under the Cleveland order, will jeopardize the interests of producers who have been subject to the Cleveland order and who are establishing eligible milk quotas pursuant to § 975.65 of the Cleveland order, which will determine their share of eligible and ineligible milk payments in subsequent months. The handlers who would become subject to the Greater Wheeling order maintain that plans for additional sales outlets in the Cleveland marketing area will make them eligible, within a few months, for an automatic determination under the Greater Wheeling order that the full regulation of the Cleveland order shall apply to them. If these handlers should extend sales in the Cleveland area so as to become subject to that order in the quota-paying months, the producers who had established bases in the Greater Wheeling order would not be eligible for eligible milk payments under the Cleveland milk order. It is found, therefore, that the provision of the Greater Wheeling order, which requires a determination that such plants be regulated under the Greater Wheeling order if their Class I sales are greater in such marketing area, be suspended until the end of the periods during which either eligible and ineligible or base and excess payments are made in the Cleveland and Greater Wheeling orders, respectively.

(b) Notice of proposed rule making, public procedure thereon, and 30 days notice of the effective date hereof, are found to be impracticable, unnecessary, and contrary to the public interest for reasons stated under (a) above and in that:

1. The information upon which this action is based did not become available in time sufficient for such compliance;

2. This suspension order would remove the requirement that the Secretary's determination of which Federal order shall regulate a handler otherwise subject to the Greater Wheeling order and another Federal milk order must be made solely on the basis of the proportion of Class I milk disposed of in the respective markets;

3. This suspension order follows a specific request by those handlers who will be immediately affected thereby. They request that action to keep them subject to the Cleveland order rather than to the Greater Wheeling order be made effective as of November 1, 1955, the effective date of the pricing provisions of the Greater Wheeling order; and

4. This action is necessary to facilitate and maintain the orderly marketing of milk between regulated markets.

It is therefore ordered, That the provision "unless a greater volume of Class I milk is disposed of from such plant to retail or wholesale outlets (except pool plants or nonpool plants) in the Greater Wheeling marketing area than in the marketing area regulated pursuant to such order;" of § 1002.61 (a) be and hereby is suspended during the period November 1, 1955 through July 31, 1955.

(Sec. 5, 49 Stat. 753, as amended; 7 U. S. C. 608c)

Done at Washington, D. C., this 7th day of November 1955, to be effective as of November 1, 1955.

[SEAL] TRUE D. MORSE,
Acting Secretary.

TITLE 16—COMMERCIAL PRACTICES

Chapter I—Federal Trade Commission

[Docket 6303]

PART 13—DIGEST OF CEASE AND DESIST ORDERS

GENERAL PRODUCTS CORP. ET AL.

Subpart—*Advertising falsely or misleadingly:* § 13.170 *Qualities or properties of product or service;* § 13.205 *Scientific or other relevant facts.*

(Sec. 6, 38 Stat. 721; 15 U. S. C. 46: Interpret or apply sec. 5, 38 Stat. 719, as amended; 15 U. S. C. 45) [Cease and desist order, General

Products Corporation et al., Los Angeles, Calif., Docket 6303, October 29, 1955.]

In the Matter of General Products Corporation, a corporation, and David Ormont and Alan Mann, Individually and as Officers of said Corporation, and Dean Simmons, an Individual

This proceeding was heard by Earl J. Kolb, hearing examiner, upon the complaint of the Commission—which charged respondents with the dissemination of false advertisements, including powerful radio broadcasts from Mexico to this country, concerning the therapeutic and health-giving qualities of their "Autry's Minerals", a mineral food supplement—and an agreement between the parties providing for the entry of a consent order in accordance with § 3.25 of the Commission's rules of practice.

Upon this basis, the hearing examiner made his initial decision and order to cease and desist, which by the Commission's order of October 28, 1955, pursuant to § 3.21 of the rules of practice, became, on October 29, 1955, the "Decision of the Commission".

The order to cease and desist is as follows:

It is ordered, That the respondent General Products Corporation, a corporation, and its officers, and respondents David Ormont and Alan Mann, individually and as officers of said corporation, and respondent Dean Simmons, individually, and respondents' agents, representatives and employees, directly or through any corporate or other device, in connection with the offering for sale, sale or distribution of Autry's Minerals, or any preparation of substantially similar composition or possessing substantially similar properties, whether sold under the same name or any other name, do forthwith cease and desist from, directly or indirectly:

1. Disseminating or causing to be disseminated any advertisement by means of the United States mails or by any means in commerce, as "commerce" is defined in the Federal Trade Commission Act, which advertisement represents, directly or indirectly;

(a) That the use of said preparation is effective in the prevention, treatment or relief of, or will cure aches or pains in the muscles or joints, arthritic or rheumatic pains, sinus trouble, or colds;

(b) That the use of said preparation is effective in preventing any type of nutritional anemia, other than iron deficiency anemia;

(c) That the use of said preparation is effective in preventing tiredness and weariness, unless expressly limited to these conditions when they might result from iron deficiency anemia;

(d) That the use of said preparation is an effective treatment for or will cure any kind of anemia, or is effective in the treatment or relief of or will cure tiredness or weariness;

(e) That the use of said preparation will restore sight to the blind, or is an effective treatment for or will cure ulcer of the cornea, conjunctivitis or glaucoma;

(f) That the use of said preparation is effective in the treatment for or will cure any disease caused by mineral deficiencies, or is effective in the prevention of any disease caused by mineral deficiencies, except iron deficiency anemia and that type of goiter caused by a deficiency of iodine;

(g) That any major portion of the people in this country are ill because of mineral deficiencies, or that such deficiencies were the cause of the high percentage of the people in this country who failed to pass the physical examination for military service during World War II.

2. Disseminating or causing the dissemination of any advertisement by any means for the purpose of inducing or which is likely to induce, directly or indirectly, the purchase in commerce, as "commerce" is defined in the Federal Trade Commission Act, of said preparation, which advertisement contains any of the representations prohibited in paragraph 1 hereof.

By said "Decision of the Commission", report of compliance was required as follows:

It is ordered, That the respondents herein shall within sixty (60) days after service upon them of this order, file with the Commission a report in writing setting forth in detail the manner and form in which they have complied with the order to cease and desist.

Issued: October 28, 1955.

By the Commission.

[SEAL] ROBERT M. PARRISH, *Secretary.*

TITLE 24—HOUSING AND HOUSING CREDIT

Chapter II—Federal Housing Administration, Housing and Home Finance Agency

Subchapter F—Rehabilitation and Neighborhood Conservation Housing Insurance

PART 261—HOME REHABILITATION INSURANCE; ELIGIBILITY REQUIREMENTS OF MORTGAGE COVERING ONE- TO ELEVEN-FAMILY DWELLINGS

PART 266—HOME RELOCATION INSURANCE; ELIGIBILITY REQUIREMENTS OF MORTGAGE COVERING SINGLE FAMILY DWELLINGS

MAXIMUM MORTGAGE AMOUNT; LOAN-TO-VALUE LIMITATION

1. Section 261.7 is amended to read as follows:

§ 261.7 *Maximum mortgage amount; loan-to-value limitation.* In addition to meeting the dollar limitation as set forth in § 261.6 the mortgage shall meet a loan-to-value limitation as follows:

(a) Where the mortgagor is the occupant of the property the mortgage shall be in an amount not in excess of:

(1) 95 percent of $9,000 of the Commissioner's estimate of the replacement cost, as of the date the mortgage is accepted for insurance if the dwelling is approved for mortgage insurance prior to the beginning of construction; and 75 percent of the Commissioner's estimate of the replacement cost in excess of $9,000; or

(2) 90 percent of $9,000 of the appraised value as of the date the mortgage is accepted for insurance if the proceeds of the mortgage are used to finance the rehabilitation of an existing property or to complete the construction of a new property not approved for mortgage insurance prior to the beginning of construction; and 75 percent of the appraised value in excess of $9,000.

(b) Where the mortgagor is not the occupant of the property the principal obligation of the mortgage shall not exceed 85 percent of the amount computed under the formula in paragraph (a) of this section.

2. Section 266.6 is amended to read as follows:

§ 266.6 *Maximum mortgage amount; loan-to-value limitation.* In addition to meeting the dollar limitation as set forth in § 266.5 the mortgage shall be in an amount not to exceed:

(a) 95 percent of the appraised value, as of the date the mortgage is accepted for insurance, where the mortgagor is the occupant of the property, or

(b) 85 percent of the appraised value, as of the date the mortgage is accepted for insurance, if the mortgagor is not the owner and occupant: *Provided*, (1) The property is to be built or acquired or rehabilitated for sale, and (2) the insured mortgage financing is required to facilitate the construction or the repair or rehabilitation of the dwelling and provide financing pending the subsequent sale thereof to a qualified owner occupant.

(Sec. 211, 52 Stat. 23; 12 U. S. C. 1715b)

Issued at Washington, D. C., November 9, 1955.

NORMAN P. MASON, *Federal Housing Commissioner.*

[F. R. Doc. 55-9158; Filed, Nov. 9, 1955; 4:06 p. m.]

PROPOSED RULE MAKING

DEPARTMENT OF THE TREASURY

Internal Revenue Service

[26 CFR (1954) Part 1]

INCOME TAX: TAXABLE YEARS BEGINNING AFTER DEC. 31, 1953; DEPRECIATION

NOTICE OF PROPOSED RULE MAKING

Pursuant to the Administrative Procedure Act, approved June 11, 1946, proposed regulations under section 167 of the Internal Revenue Code of 1954 were published in tentative form with a notice of proposed rule making in the FEDERAL REGISTER for September 28, 1954 (19 F. R. 6229). After consideration of all relevant matter presented by interested persons regarding the rules proposed, notice is hereby given that such proposed regulations are hereby withdrawn.

Further, notice is hereby given, pursuant to the Administrative Procedure Act, that the regulations set forth in tentative form below are proposed to be prescribed by the Commissioner of Internal Revenue, with the approval of the Secretary of the Treasury, in substitution for the proposed regulations hereinbefore withdrawn. Prior to the final adoption of such regulations, consideration will be given to any data, views, or arguments pertaining thereto which are submitted in writing, in duplicate, to the Commissioner of Internal Revenue, Attention: T:P, Washington 25, D. C., within the period of 30 days from the date of publication of this notice in the FEDERAL REGISTER. The proposed regulations are to be issued under the authority contained in sections 167 and 7805 of the Internal Revenue Code of 1954 (68A Stat. 51, 917; 26 U. S. C. 167, 7805).

[SEAL] O. GORDON DELK, *Acting Commissioner of Internal Revenue.*

The following regulations are hereby prescribed under section 167 of the Internal Revenue Code of 1954:

Sec.

1.167 (a)	Statutory provisions; depreciation; general rule.
1.167 (a)-1	Depreciation in general.
1.167 (a)-2	Tangible property.
1.167 (a)-3	Intangibles.
1.167 (a)-4	Leased property.
1.167 (a)-5	Apportionment of basis.
1.167 (a)-6	Depreciation in special cases.
1.167 (a)-7	Accounting for depreciable property.
1.167 (a)-8	Losses on normal retirements.
1.167 (a)-9	Obsolescence.
1.167 (a)-10	When depreciation deduction is allowable.
1.167 (b)	Statutory provisions; depreciation; use of certain methods and rates.
1.167 (b)-0	Methods of computing depreciation.
1.167 (b)-1	Straight line method.
1.167 (b)-2	Declining balance method.
1.167 (b)-3	Sum of the years-digits method.
1.167 (b)-4	Other methods.
1.167 (c)	Statutory provisions; depreciation; limitations on use of certain methods and rates.
1.167 (c)-1	Limitations on methods of computing depreciation under section 167 (b) (2), (3), and (4).
1.167 (d)	Statutory provisions; depreciation; agreement as to useful life on which depreciation rate is based.
1.167 (d)-1	Agreement as to useful life and rates of depreciation.
1.167 (e)	Statutory provisions; depreciation; change in method.
1.167 (e)-1	Change in method.
1.167 (f)	Statutory provisions; depreciation; basis for depreciation.
1.167 (f)-1	Basis for depreciation.
1.167 (g)	Statutory provisions; depreciation; life tenants and beneficiaries of trusts and estates.
1.167 (g)-1	Life tenants and beneficiaries of trusts and estates.
1.167 (h)	Statutory provisions; depreciation; depreciation of improvements in the case of mines, etc.
1.167 (h)-1	Depreciation of improvements in the case of mines, etc.

§ 1.167 (a) *Statutory provisions; depreciation; general rule.*

SEC. 167. *Depreciation*—(a) *General rule.* There shall be allowed as a depreciation deduction a reasonable allowance for the exhaustion, wear and tear (including a reasonable allowance for obsolescence)—

(1) Of property used in the trade or business, or

(2) Of property held for the production of income.

§ 1.167 (a)-1 *Depreciation in general*—(a) *Reasonable allowance.* Section 167 (a) provides that a reasonable allowance for the exhaustion, wear and tear, and obsolescence of property used in the trade or business or of property held by the taxpayer for the production of income shall be allowed as a depreciation deduction. The allowance is that amount which should be set aside for the taxable year in accordance with a reasonably consistent plan (not necessarily at a uniform rate), so that the aggregate of the amounts set aside, plus the salvage value, will, at the end of the estimated useful life of the depreciable property, equal the cost or other basis of the property as provided in section 167 (f) and § 1.167 (f)-1. An asset shall not be depreciated below a reasonable salvage value under any method of computing depreciation. See paragraph (c) of this section for definition of salvage. The allowance shall not reflect amounts representing a mere reduction in market value.

(b) *Useful life.* For the purpose of section 167 the estimated useful life of an asset is not necessarily the useful life inherent in the asset but is the period over which the asset may reasonably be expected to be useful to the taxpayer in his trade or business or in the production of his income. This period shall be determined by reference to his experience with similar property taking into account present conditions and probable future developments. Some of the factors to be considered in determining this period are (1) wear and tear and decay or decline from natural causes, (2) the normal progress of the art, economic changes, inventions, and current developments within the industry and the taxpayer's trade or business, (3) the climatic and other local conditions peculiar to the taxpayer's trade or business, and (4) the taxpayer's policy as to repairs, renewals, and replacements. If the taxpayer's experience is inadequate, the general experience in the industry may be used until such time as the taxpayer's own experience forms an adequate basis for making the determination. The estimated remaining useful life may be subject to modification by reason of conditions known to exist at the end of the taxable year and shall be redetermined when necessary regardless of the method of computing depreciation. For rules covering agreements with respect to useful life, see section 167 (d) and § 1.167 (d)-1.

(c) *Salvage.* Salvage value is the amount realizable upon sale or other disposition of an asset when it is no longer useful in the taxpayer's trade or business or in the production of his income and is retired from service by the taxpayer. Salvage, when reduced by the cost of removal, is referred to as net salvage. The time at which an asset is retired from service may vary according to the policy of the taxpayer. If the taxpayer's policy is to dispose of assets which are still in good operating condition, the salvage value may represent a relatively large proportion of the original basis of the asset. However, if the taxpayer customarily uses an asset until its inherent useful life has been substantially exhausted, salvage value may represent no more than junk value. Salvage value must be taken into account in determining the depreciation deduction either by a reduction of the amount subject to depreciation, by a reduction in the rate of depreciation, or as a limitation on the amount of the depreciation allowances. The taxpayer may use either salvage or net salvage in determining depreciation allowances but such practice must be consistently followed and the treatment of the costs of removal must be consistent with the practice adopted. For specific treatment of salvage value see §§ 1.167 (b)-1, 1.167 (b)-2, and 1.167 (b)-3. When an asset is retired, the amount of the salvage adjusted for the costs of removal, where necessary, should be credited to the depreciation reserve.

§ 1.167 (a)-2 *Tangible property.* The depreciation allowance in the case of tangible property applies only to that part of the property which is subject to wear and tear, to decay or decline from natural causes, to exhaustion, and to obsolescence. The allowance does not apply to inventories or stock in trade, or to land apart from the improvements or physical development added to it. The allowance does not apply to natural resources which are subject to the allowance for depletion provided in section 611. No deduction for depreciation shall be allowed on automobiles or other vehicles used solely for pleasure, on a building used by the taxpayer solely as his residence, or on furniture or furnishings therein, personal effects, or clothing; but properties and costumes used exclusively in a business, such as a theatrical business, may be depreciated.

§ 1.167 (a)-3 *Intangibles.* If an intangible asset is known from experience or other factors to be of use in the business or in the production of income for only a limited period, the length of which can be estimated with reasonable accuracy, such an intangible asset may be the subject of a depreciation allowance. Examples are patents and copyrights. An intangible asset, the useful life of which is not limited, is not subject to the allowance for depreciation. No allowance will be permitted merely because, in the unsupported opinion of the taxpayer, the intangible asset has a limited useful life. No deduction for depreciation is allowable with respect to goodwill. For rules with respect to organizational expenditures, see section 248 and the regulations thereunder.

§ 1.167 (a)-4 *Leased property.* Capital expenditures made by a lessee for the erection of buildings or the construction of other permanent improvements on leased property are recoverable through allowances for depreciation or amortization. If the useful life of such

improvements in the hands of the taxpayer is equal to or shorter than the remaining period of the lease, the allowance shall take the form of depreciation under section 167. See §§ 1.167 (b)–0, 1.167 (b)–1, 1.167 (b)–2, 1.167 (b)–3, and 1.167 (b)–4 for methods of computing such depreciation allowances. If, on the other hand, the estimated useful life of such property in the hands of the taxpayer, determined without regard to the terms of the lease, would be longer than the remaining period of such lease, the allowances shall take the form of annual deductions from gross income in an amount equal to the unrecovered cost of such capital expenditures divided by the number of years remaining of the term of the lease. Such deductions shall be in lieu of allowances for depreciation. See section 162 and the regulations thereunder. Capital expenditures made by a lessor for the erection of buildings or other improvements shall, if subject to depreciation allowances, be recovered by him over the estimated life of the improvements without regard to the period of the lease.

§ 1.167 (a)–5 *Apportionment of basis.* In the case of the acquisition on or after March 1, 1913, of a combination of depreciable and nondepreciable property for a lump sum, as for example, buildings and land, the basis for depreciation cannot exceed an amount which bears the same proportion to the lump sum as the value of the depreciable property at the time of acquisition bears to the value of the entire property at that time. In the case of property which is subject to both the allowance for depreciation and amortization, depreciation is allowable only with respect to the portion of the depreciable property which is not subject to the allowance for amortization and may be taken concurrently with the allowance for amortization. After the close of the amortization period or after amortization deductions have been discontinued with respect to any such property, the unrecovered cost or other basis of the depreciable portion of such property will be subject to depreciation. For adjustments to basis, see section 1016 and other applicable provisions of law.

§ 1.167 (a)–6 *Depreciation in special cases*—(a) *Depreciation of patents or copyrights.* The cost or other basis of a patent or copyright shall be depreciated over its remaining useful life. Its cost to the patentee includes the various Government fees, cost of drawings, models, attorneys' fees, and similar expenditures. For rules applicable to research and experimental expenditures, see sections 174 and 1016 and the regulations thereunder. If a patent or copyright becomes valueless in any year before its expiration the unrecovered cost or other basis may be deducted in that year.

(b) *Depreciation in case of farmers.* A reasonable allowance for depreciation may be claimed on farm buildings (except a dwelling occupied by the owner), farm machinery, and other physical property but not including land. Livestock acquired for work, breeding, or dairy purposes may be depreciated unless included in an inventory used to determine profits in accordance with section 61 and the regulations thereunder. Such depreciation should be determined with reference to the cost or other basis, salvage value, and the estimated useful life of the livestock. See also section 162 and the regulations thereunder relating to trade or business expenses, section 165 and the regulations thereunder relating to losses of farmers, and section 175 and the regulations thereunder relating to soil or water conservation expenditures.

§ 1.167 (a)–7 *Accounting for depreciable property.* (a) Depreciable property may be accounted for by treating each individual item as an account, or by combining two or more assets in a single account. Assets may be grouped in an account in a variety of ways. For example, assets similar in kind with approximately the same useful lives may be grouped together. Such an account is commonly known as a group account. Another appropriate grouping might consist of assets segregated according to use without regard to useful life, for example, machinery and equipment, furniture and fixtures, or transportation equipment. Such an account is commonly known as a classified account. A broader grouping, where assets are included in the same account regardless of their character or useful lives, is commonly referred to as a composite account. For example, in an extreme case a taxpayer might be permitted to combine all assets used in his business in a single account. Group, classified, or composite accounts may be further broken down on the basis of location, dates of acquisition, cost, character, use, etc.

(b) When group, classified, or composite accounts are used with average useful lives and a normal retirement occurs, the full cost or other basis of the asset retired, unadjusted for depreciation or salvage, shall be removed from the asset account and shall be charged to the depreciation reserve. Amounts representing salvage shall be credited to the depreciation reserve. Where an asset is disposed of for reasons other than normal retirement, the full cost or other basis of the asset shall be removed from the asset account, and the depreciation reserve shall be charged with the depreciation applicable to the retired asset. For rules with respect to losses on normal retirements, see § 1.167 (a)–8.

(c) A taxpayer may establish as many accounts for depreciable property as he desires. Depreciation allowances for the property contained in each account shall be computed separately. Such depreciation preferably should be recorded in a depreciation reserve account; however, in appropriate cases it may be recorded directly in the asset account. Where depreciation reserves are maintained, a separate reserve account shall be maintained for each asset account. The regular books of account or permanent auxiliary records shall show for each account the basis of the property, including adjustments necessary to conform to the requirements of section 1016 and other provisions of law relating to adjustments to basis, and the depreciation allowances for tax purposes. In the event that reserves for book purposes do not correspond with reserves maintained for tax purposes, permanent auxiliary records shall be maintained with the regular books of account reconciling the differences in depreciation for tax and book purposes because of different methods of depreciation, bases, rates, salvage, or other factors. Depreciation schedules filed with the income tax return shall show the accumulated reserves computed in accordance with the allowances for income tax purposes.

(d) In classified or composite accounts, the average useful life and rate shall be redetermined whenever additions, retirements, or replacements substantially alter the relative proportion of types of assets in the accounts. See example (2) in § 1.167 (b)–1 (b) for the method of determining the depreciation rate for a classified or composite account.

§ 1.167 (a)–8 *Losses on normal retirements.* (a) Where depreciation is computed on individual assets (item accounting), the depreciation rate for each asset must be based on the maximum expected useful life of the asset, and in such case a loss equal to the unrecovered cost or other basis of the asset, adjusted for salvage value, is allowable upon its normal retirement. Thus, a manufacturer who purchases 50 identical assets which are expected to have an average life of 25 years but which will remain useful to him for varying periods between 20 and 40 years, must use a rate based on a 40-year life for each of the assets if he chooses to compute depreciation on each asset individually.

(b) Where depreciation is computed for an account containing two or more assets, the depreciation rate for that account may be based on the maximum expected useful life of the longest lived asset in the account, or may be based on the average useful life of the assets in the account. If the rate is based on the maximum expected useful life of the longest lived asset, upon the normal retirement of any asset in the account a loss is allowable equal to the unrecovered cost or other basis of the asset, adjusted for salvage value. On the other hand, if the rate is based on the average useful life, no loss is allowable on the normal retirement of an asset since the use of a rate based on the average useful life contemplates that some assets will be retired before and that others will be retired after the end of the average useful life.

(c) Experience with assets which attained an exceptional or unusual age shall, with respect to similar assets, be disregarded in determining the maximum expected useful life of an individual asset, or the maximum expected useful life of the longest lived asset in a multiple asset account. For instance, if, in the example above involving the identical assets, experience of the taxpayer with similar assets indicates that an occasional asset of this kind may last 60 years, the taxpayer will not be required to base the maximum expected useful life on such exceptional experience.

(d) A retirement shall be considered to be a normal retirement unless the taxpayer can show such retirement was due to a cause not contemplated in setting the applicable depreciation rate.

(e) Losses sustained on depreciable property other than losses arising from normal retirements, for example, from bona fide sales or exchanges, casualty or abandonment, may be allowable under section 165. See section 165 and the regulations thereunder. See example (2) in § 1.167 (b)–2 (b) for special rules in connection with the retirement of the last asset of a given year's acquisitions.

§ 1.167 (a)–9 *Obsolescence.* The depreciation allowance includes an allowance for normal obsolescence, that is, in computing the estimated useful life of the property, consideration should be given to the extent to which the expected useful life of an asset will be shortened by reason of technological improvement or reasonably foreseeable economic changes. In any case in which the taxpayer shows that the estimated useful life previously used should be shortened by reason of obsolescence greater than had been assumed in computing such estimated useful life, a change to a new and shorter estimated useful life computed in accordance with such showing will be permitted. No such change will be permitted merely because in the unsupported opinion of the taxpayer the property may become obsolete at some later date. For rules governing the allowance of a loss when the usefulness of an asset is suddenly terminated, see section 165 and the regulations thereunder. If the estimated useful life and the depreciation rates have been the subject of a previous agreement, see section 167 (d) and § 1.167 (d)–1.

§ 1.167 (a)–10 *When depreciation deduction is allowable.* (a) A taxpayer is not permitted under the law to offset income of later years by reason of his failure to deduct any depreciation allowance or of his action in deducting an allowance plainly inadequate under the known facts in prior years. The inadequacy of the depreciation allowance for property in prior years shall be determined on the basis of the allowable method of depreciation used by the taxpayer for such property or under the straight line method if no allowance has ever been claimed for such property. For rules relating to adjustments to basis, see section 1016 and the regulations thereunder.

(b) The period for depreciation of an asset shall begin on the date when the asset is placed in service and shall end on the date when the asset is retired from service. A proportionate part of one year's depreciation is allowable for that part of the first and last year during which the asset was in service. However, in the case of a multiple asset account, the amount of depreciation may be determined by using what is commonly described as the "averaging convention" under which it is assumed that all additions and retirements to the asset account occur uniformly throughout the taxable year. Under this convention depreciation is computed on the average of the beginning and ending balances for the taxable year in the asset account. See example (3) under § 1.167 (b)–1 (b). Such averaging convention, if used, must be consistently followed. In any year in which such averaging convention substantially distorts the depreciation allowance for the taxable year, it may not be used. No other assumptions may be made with respect to the timing of additions and retirements during the taxable year.

§ 1.167 (b) *Statutory provisions; depreciation; use of certain methods and rates.*

SEC. 167. *Depreciation.* • • •

(b) *Use of certain methods and rates.* For taxable years ending after December 31, 1953, the term "reasonable allowance" as used in subsection (a) shall include (but shall not be limited to) an allowance computed in accordance with regulations prescribed by the Secretary or his delegate, under any of the following methods:

(1) The straight line method,

(2) The declining balance method, using a rate not exceeding twice the rate which would have been used had the annual allowance been computed under the method described in paragraph (1),

(3) The sum of the years-digits method, and

(4) Any other consistent method productive of an annual allowance which, when added to all allowances for the period commencing with the taxpayer's use of the property and including the taxable year, does not, during the first two-thirds of the useful life of the property, exceed the total of such allowances which would have been used had such allowances been computed under the method described in paragraph (2).

Nothing in this subsection shall be construed to limit or reduce an allowance otherwise allowable under subsection (a).

§ 1.167 (b)–0 *Methods of computing depreciation*—(a) *In general.* Any reasonable and consistently applied method of computing depreciation may be used or continued to be used under section 167. Whatever method is adopted, due regard must be given to operating conditions during the taxable year. The reasonableness of any claim for depreciation shall be determined upon the basis of conditions known to exist at the end of the period for which the return is made. Regardless of the method used in computing depreciation, deductions for depreciation shall not exceed such amounts as may be necessary to recover the unrecovered cost or other basis less salvage during the remaining useful life of the property. It is the responsibility of the taxpayer to establish the reasonableness of the deduction for depreciation claimed. Generally, depreciation deductions so claimed will be changed only where there is a clear and convincing basis for a change.

(b) *Certain methods.* Methods previously found adequate to produce a reasonable allowance under the Internal Revenue Code of 1939 or prior revenue laws will, if used consistently by the taxpayer, continue to be acceptable under section 167. Examples of such methods which continue to be acceptable are the straight line method, the declining balance method with the rate limited to 150 percent of the applicable straight line rate, and under appropriate circumstances, the unit of production method. The methods described in section 167 (b) and §§ 1.167 (b)–1, 1.167 (b)–2, 1.167 (b)–3, and 1.167 (b)–4 shall be deemed to produce a reasonable allowance for depreciation except as limited under section 167 (c) and § 1.167 (c)–1. See also § 1.167 (e)–1 for rules relating to change in method of computing depreciation.

(c) *Application of methods.* In the case of item accounts, any method which results in a reasonable allowance for depreciation may be selected for each item of property, but such method must thereafter be applied consistently to that particular item. In the case of group, classified, or composite accounts, any method may be selected for each account. Such method must be applied to that particular account consistently thereafter but need not necessarily be applied to acquisitions of similar property in the same or subsequent years, provided such acquisitions are set up in separate accounts. See, however, § 1.167 (e)–1 and section 446 and the regulations thereunder, for rules relating to changes in the method of computing depreciation, and § 1.167 (c)–1 for restriction on the use of certain methods. See also § 1.167 (a)–7 for definition of account.

§ 1.167 (b)–1 *Straight line method*—(a) *Application of method.* Under the straight line method the cost or other basis of the property less its estimated salvage value is deductible in equal annual amounts over the period of the estimated useful life of the property. The allowance for depreciation for the taxable year is determined by dividing the adjusted basis of the property at the beginning of the taxable year, less salvage value, by the remaining useful life of the property at such time. For convenience, the allowance so determined may be reduced to a percentage. This method may be used in determining a reasonable allowance for depreciation for any property which is subject to depreciation under section 167 and it shall be used in all cases where the taxpayer has not adopted a different acceptable method with respect to such property.

(b) *Illustrations.* The straight line method is illustrated by the following examples:

Example (1). Under the straight line method items may be depreciated separately:

Year	Item	Cost or other basis less salvage	Useful life	Depreciation allowable		
				1954	1955	1956
			Years			
1954	Asset A	$1,600	4	[1] $200	$400	$400
	Asset B	12,000	40	[1] 150	300	300

[1] In this example one-half of the annual depreciation is taken on new additions.

Example (2). In group, classified, or composite accounting, a number of assets with the same or different useful lives may be combined into one account, and a single rate of depreciation, i. e., the group, classified, or composite rate used for the entire account. In the case of group accounts, i. e., accounts containing assets which are similar in kind and which have approximately the same esti-

allowed or allowable, and for all other adjustments provided by section 1016 and other applicable provisions of law. The declining balance rate may be determined without resort to formula. Such rate determined under section 167 (b) (2) shall not exceed twice the appropriate straight line rate computed without adjustment for salvage. While salvage is not taken into account in determining the annual allowances under this method, in no event shall an asset (or an account) be depreciated below a reasonable salvage value. See section 167 (c) and § 1.167 (c)-1 for restrictions on the use of the declining balance method.

(b) *Illustrations.* The declining balance method is illustrated by the following examples:

Example (1). A new asset having an estimated useful life of 20 years was purchased on January 1, 1954, for $1,000. The normal straight line rate (without adjustment for salvage) is 5 percent, and the declining balance rate at twice the normal straight line rate is 10 percent. The annual depreciation allowances for 1954, 1955, and 1956 are as follows:

Year	Basis	Declining balance rate (percent)	Depreciation allowance
1954	$1,000	10	$100
1955	900	10	90
1956	810	10	81

Example (2). A taxpayer filing his returns on a calendar year basis maintains a group account to which a 5 year life and a 40 percent declining balance rate are applicable. Original investment, additions, retirements, and salvage recoveries are the same as those set forth in example (3) of § 1.167 (b)-1 (b). Although salvage value is not taken into consideration in computing a declining balance rate, it must be recognized and accounted for when assets are retired.

DEPRECIABLE ASSET ACCOUNT AND DEPRECIATION COMPUTATION USING AVERAGE ASSET AND RESERVE BALANCES

Year	Asset balance Jan. 1	Current additions	Current retirements	Asset balance Dec. 31	Average balance	Average reserve before depreciation	Net depreciable balance	Rate (percent)	Allowable depreciation
1954	$12,000	$12,000		$12,000	$6,000		$6,000	40	$2,400
1955	12,000			12,000	12,000	$2,400	9,600	40	3,840
1956	12,000			12,000	12,000	6,240	5,760	40	2,304
1957	12,000		$2,000	10,000	11,000	7,744	3,356	40	1,342
1958	10,000	10,000		18,000	14,000	9,086	4,914	40	726
1959	8,000	4,000		14,000	11,000	5,212	5,788	40	2,315
1960	14,000	2,000		12,000	13,000	4,727	8,273	40	3,309
1961	12,000	2,000		10,000	11,000	6,036	4,964	40	1,986

DEPRECIATION RESERVE

Year	Reserve Jan. 1	Current retirements	Salvage realized	Reserve Dec. 31, before depreciation	Average before depreciation	Allowable depreciation	Reserve Dec. 31, after depreciation
1954	$2,400			$2,400	$2,400	$2,400	$2,400
1955	3,840			6,240	6,240	3,840	6,240
1956	8,544			8,544	7,744	2,304	8,544
1957	8,086	$2,000	$200	6,286	7,186	1,342	8,086
1958	7,012	2,000	200	5,212	5,749	726	7,012
1959	3,727	4,000	400	3,412	4,312	315	3,727
1960	1,836	2,000		1,727	2,727	109	1,836
1961	1,022	2,000		(164)	836	164	1,022

Where separate depreciation accounts are maintained by year of acquisition and there is an unrecovered balance at the time of the last retirement, such unrecovered balance may be deducted as part of the depreciation allowance for the year of such retirement. Thus, if the taxpayer had kept separate depreciation accounts by year of acquisition and all the retirements shown in the example above were from 1954 acquisitions, depreciation would be computed on the 1954 and 1959 acquisitions as follows:

DEPRECIABLE ASSET ACCOUNT AND DEPRECIATION COMPUTATION ON AVERAGE BALANCES

Year	Asset balance Jan. 1	Current additions	Current retirements	Asset balance Dec. 31	Average balance	Rate (percent)	Allowable depreciation
1954	$12,000	$12,000		$12,000	$6,000	18.67	$1,120
1955	12,000			12,000	12,000	18.67	2,240
1956	12,000			12,000	12,000	18.67	2,240
1957	10,000		$2,000	10,000	11,000	18.67	2,054
1958	8,000	2,000		10,000	10,000	18.67	1,680
1959	14,000	4,000		14,000	12,000	18.67	2,427
1960	12,000	2,000		12,000	13,000	18.67	2,054
1961		2,000		10,000	11,000	18.67	2,054

CORRESPONDING DEPRECIATION RESERVE ACCOUNT

Year	Depreciation reserve Jan. 1	Depreciation allowable	Current retirements	Salvage realized	Depreciation reserve Dec. 31
1954		$1,120			$1,120
1955	$1,120	2,240			3,360
1956	3,360	2,240			5,600
1957	5,600	2,054	$2,000	$200	5,854
1958	5,754	1,680	2,000	200	5,734
1959	4,188	2,427	4,000	400	4,188
1960	4,615	2,054	2,000		4,669
1961	4,669				

Where separate depreciation accounts are maintained by year of acquisition and there is an unrecovered balance at the time of the last retirement, such unrecovered balance may be deducted as part of the depreciation allowance for the year of such retirement. Thus, if the taxpayer had kept separate depreciation accounts by year of acquisition and all the retirements shown in the example above were from 1954 acquisitions, depreciation would be computed on the 1954 and 1959 acquisitions as follows:

mated useful lives, the group rate is determined from the average of the useful lives or the assets. In the case of classified or composite accounts, the classified or composite rate is generally computed by determining the amount of one year's depreciation for each item or each group of similar items, and by dividing the total depreciation thus obtained by the total cost or other basis of the assets. The average rate so obtained is to be used as long as subsequent additions, retirements, or replacements do not substantially alter the relative proportions of different types of assets in the account. An example of the computation of a classified or composite rate follows:

Cost or other basis	Estimated useful life	Annual depreciation
	Years	
$10,000	5	$2,000
10,000	15	667
20,000		2,667

Average rate is 13.33 percent ($2,667÷$20,000) unadjusted for salvage. Assuming the estimated salvage value is 10 percent of the cost or other basis, the rate adjusted for salvage will be 13.33 percent minus 10 percent of 13.33 percent (13.33%−1.33%), or 12 percent.

Example (3). The use of the straight line method for group, classified, or composite accounts is illustrated by the following example: A taxpayer filing his returns on a calendar year basis maintains an asset account for which a group rate of 20 percent has been determined, before adjustment for salvage. Estimated salvage is determined to be 6⅔ percent, resulting in an adjusted rate of 18.67 percent. During the years illustrated, the initial investment, additions, retirements, and salvage recoveries, which were determined not to change the composition of the group sufficiently to require a change in rate, were assumed to have been made as follows:

1954—Initial investment of $12,000.
1957—Retirement $2,000, salvage realized $200.
1958—Retirement $2,000, salvage realized $200.
1959—Retirement $4,000, salvage realized $400.
1959—Additions $10,000.
1960—Retirement $2,000, no salvage realized.
1961—Retirement $2,000, no salvage realized.

§ 1.167 (b)-2 *Declining balance method—*(a) *Application of method.* Under the declining balance method a uniform rate is applied each year to the unrecovered cost or other basis of the property. The unrecovered cost or other basis is the basis provided by section 167 (f), adjusted for depreciation previously

1954 ACQUISITIONS

Year	Asset balance Jan. 1	Acquisitions	Current retirements	Asset balance Dec. 31	Average balance	Average reserve before depreciation	Net depreciable balance	Rate (percent)	Allowable depreciation
1954		$12,000		$12,000	$6,000		$6,000	40	$2,400
1955	$12,000			12,000	12,000	$2,400	9,600	40	3,840
1956	12,000			12,000	12,000	6,240	5,760	40	2,304
1957	12,000		$2,000	10,000	11,000	7,644	3,356	40	1,342
1958	10,000		2,000	8,000	9,000	7,186	1,814	40	726
1959	8,000		4,000	4,000	6,000	5,212	788	40	315
1960	4,000		2,000	2,000	3,000	2,727	273	40	109
1961	2,000		2,000		1,000	836	164		[1] 164

[1] Balance allowable as depreciation in the year of retirement of the last survivor of the 1954 acquisitions.

DEPRECIATION RESERVE FOR 1954 ACQUISITIONS

Year	Reserve Jan. 1	Current retirements	Salvage realized	Reserve Dec. 31, before depreciation	Average reserve before depreciation	Allowable depreciation	Reserve Dec. 31, after depreciation
1954						$2,400	$2,400
1955	$2,400			$2,400	$2,400	3,840	6,240
1956	6,240			6,240	6,240	2,304	8,544
1957	8,544	$2,000	$200	6,744	7,644	1,342	8,086
1958	8,086	2,000	200	6,286	7,186	726	7,012
1959	7,012	4,000	400	3,412	5,212	315	3,727
1960	3,727	2,000		1,727	2,727	109	1,836
1961	1,836	2,000		(164)	836	164	

1959 ACQUISITIONS

Year	Asset balance Jan. 1	Acquisition	Asset balance Dec. 31	Average balance	Reserve Dec. 31, before depreciation	Net depreciable balance	Rate (percent)	Allowable depreciation	Reserve Dec. 31, after depreciation
1959		$10,000	$10,000	$5,000	None	$5,000	40	$2,000	$2,000
1960	$10,000		10,000	10,000	$2,000	8,000	40	3,200	5,200
1961	10,000		10,000	10,000	5,200	4,800	40	1,920	7,120

In the above example, the allowable depreciation on the 1954 acquisitions totals $11,200. This amount when increased by salvage realized in the amount of $800, equals the entire cost or other basis of the 1954 acquisitions ($12,000).

(c) *Change in estimated useful life.* In the declining balance method when a change is justified in the useful life estimated for an account, subsequent computations shall be made as though the revised useful life had been originally estimated. For example, assume that an account has an estimated useful life of ten years and that a declining balance rate of 20 percent is applicable. If, at the end of the sixth year, it is determined that the remaining useful life of the account is six years, computations shall be made as though the estimated useful life was originally determined as twelve years. Accordingly, the applicable depreciation rate will be 16⅔ percent. This rate is thereafter applied to the unrecovered cost or other basis.

§ 1.167 (b)-3 *Sum of the years-digits method—*(a) *Applied to a single asset—*(1) *General rule.* Under the sum of the years-digits method annual allowances for depreciation are computed by applying changing fractions to the cost or other basis of the property reduced by estimated salvage. The numerator of the fraction changes each year to a number which corresponds to the remaining useful life of the asset (including the year for which the allowance is being computed), and the denominator which remains constant is the sum of all the years digits corresponding to the estimated useful life of the asset. See section 167 (c) and § 1.167 (c)-1 for restrictions on the use of the sum of the years-digits method.

(i) *Illustrations.* Computation of depreciation allowances on a single asset under the sum of the years-digits method is illustrated by the following examples:

Example (1). A new asset having an estimated useful life of five years was acquired on January 1, 1954, for $1,750. The estimated salvage is $250. For a taxpayer filing his returns on a calendar year basis, the annual depreciation allowances are as follows:

Year	Cost or other basis less salvage	Fraction [1]	Allowable depreciation	Depreciation reserve
1954	$1,500	5/15	$500	$500
1955	1,500	4/15	400	900
1956	1,500	3/15	300	1,200
1957	1,500	2/15	200	1,400
1958	1,500	1/15	100	1,500
Unrecovered value (salvage)				$250

[1] The denominator of the fraction is the sum of the digits representing the years of useful life, i. e., 5, 4, 3, 2, and 1, or 15.

Example (2). Assume in connection with an asset acquired in 1954 that three-fourths of a year's depreciation is allowable in that year. The following illustrates a reasonable method of allocating depreciation:

	Depreciation for 12 months	Allowable depreciation		
		1954	1955	1956
1st year	$500	(¼) $375	(¼) $125	
2d year	400		(¾) 300	(¼) $100
3d year	300			(¾) 225
		375	425	325

(ii) *Change in useful life.* Where in the case of a single asset, a change is justified in the useful life, subsequent computations shall be made as though the remaining useful life at the beginning of the taxable year of change were the useful life of a new asset acquired at such time and with a basis equal to the unrecovered cost or other basis of the asset at that time. For example, assume that a new asset with an estimated useful life of ten years is purchased in 1954. At the time of making out his return for 1959, the taxpayer finds that the asset has a remaining useful life of seven years from January 1, 1959. Depreciation for 1959 should then be computed as though 1959 were the first year of the life of an asset estimated to have a useful life of seven years, and the allowance for 1959 would be 7/28 of the unrecovered cost or other basis of the asset after adjustment for salvage.

(2) *Remaining life—*(i) *Application.* Under the sum of the years-digits method, annual allowances for depreciation may also be computed by applying changing fractions to the unrecovered cost or other basis of the asset reduced by estimated salvage. The numerator of the fraction changes each year to a number which corresponds to the remaining useful life of the asset (including the year for which the allowance is being computed), and the denominator changes each year to a number which represents the sum of the digits corresponding to the years of estimated remaining useful life of the asset. For decimal equivalents of such fractions see Table I below. For example, a new asset with an estimated useful life of 10 years is purchased January 1, 1954, for $6,000. Assuming a salvage value of $500, the depreciation allowance for 1954 is $1,000 ($5,500×0.1818, the applicable rate from Table I). For 1955, the unrecovered balance is $4,500, and the remaining life is 9 years. The depreciation allowance for 1955 would then be $900 ($4,500×0.2000, the applicable rate from Table I).

(ii) *Table I.* This table shows decimal equivalents of sum of the years-digits fractions corresponding to remaining lives from 1 to 100 years.

TABLE I—DECIMAL EQUIVALENTS FOR USE OF SUM OF THE YEARS-DIGITS METHOD, BASED ON REMAINING LIFE

NOTE: For determination of decimal equivalents of remaining lives falling between those shown in the above table, the taxpayer may use the next longest life shown in the table, interpolate from the table, or use the following formula from which the table was derived.

$$D=\frac{2R}{(W+2F)(W+1)}$$

where:

D = Decimal equivalent.
R = Remaining life.
W = Whole number of years in remaining life.
F = Fractional part of year in remaining life.

If the taxpayer desires to carry his calculations of decimal equivalents to a greater number of decimal places than is provided in the table, he may use the formula. The procedure adopted must be consistently followed thereafter.

(b) *Applied to group, classified, or composite accounts*—(1) *General rule.* The sum of the years-digits method may be applied to group, classified, or composite accounts in accordance with the plan described in subparagraph (2) or in accordance with other plans as explained in subparagraph (3).

(2) *Remaining life plan.* The remaining life plan as applied to a single asset is described in § 1.167 (b)–3 (a) (2). This plan may also be applied to group, classified, or composite accounts. Under this plan the allowance for depreciation is computed by applying changing fractions to the unrecovered cost or other basis of the account reduced by estimated salvage. The numerator of the fraction changes each year to a number which corresponds to the remaining useful life of the account (including the year for which the allowance is being computed), and the denominator changes each year to a number which represents the sum of the years digits corresponding to the years of estimated remaining useful life of the account. Decimal equivalents of such fractions can be obtained by use of Table I under § 1.167 (b)–3 (a) (2) (ii). The proper application of this method requires that the estimated remaining useful life of the account be redetermined each year. This redetermination, of course, may be made each year by analysis, i. e., by determining the remaining lives for each of the components in the account, and averaging them. The estimated remaining life of any account, however, may also be determined arithmetically by dividing the unrecovered cost or other basis of the account, as computed by straight line depreciation, by the gross cost or other basis of the account, and multiplying the result by the average life of the assets in the account. Thus, if a group account with an average life of ten years had at January 1, 1958, a gross asset balance of $12,600 and a depreciation reserve computed on the straight line method of $9,450, the remaining life of the account at January 1, 1958, would be computed as follows:

$$\frac{\$12,600-\$9,450}{\$12,600}$$

times 10 years equals 2.50 years.

(i) *Example.* The use of the sum of the years-digits method with group, classified, or composite accounts under the remaining life plan is illustrated by the following example: A calendar year taxpayer maintains a group account to which a five-year life is applicable. Original investment, additions, retirements, and salvage recoveries are the same as those set forth in example (3) of § 1.167 (b)–1 (b).

DEPRECIATION COMPUTATION ON A GROUP ACCOUNT UNDER REMAINING LIFE PLAN

1962						5,000					6,963			

[1] ½ year's amount.
[2] F = Rate based on average service life (0.3333 in this example).

(3) *Other plans for application of the sum of the years-digits method.* Taxpayers who wish to use the sum of the years-digits method in computing depreciation for group, classified, or composite accounts in accordance with a sum of the years digits plan other than the remaining life plan described herein may do so only with the consent of the Commissioner. Request for permission to use methods other than that described shall be addressed to the Commissioner of Internal Revenue, Washington 25, D. C.

§ 1.167 (b)–4 *Other methods.* (a) Under section 167 (b) (4) a taxpayer may use any consistent method of computing depreciation, such as the sinking fund method, provided depreciation allowances computed in accordance with such method do not result in accumulated allowances at the end of any taxable year greater than the total of the accumulated allowances which could have resulted from the use of the declining balance method. This limitation applies only during the first two-thirds of the useful life of the property. For example, an asset costing $1,000 having a useful life of six years may be depreciated under the declining balance method in accordance with § 1.167 (b)–2, at a rate of 33⅓ percent. During the first four years or two-thirds of its useful life, maximum depreciation allowances under the declining balance method would be as follows:

	Current depreciation	Accumulated depreciation	Balance
Cost of asset			$1,000
First year	$333	$333	667
Second year	222	555	445
Third year	148	703	297
Fourth year	99	802	198

An annual allowance computed by any other method under section 167 (b) (4) could not exceed $333 for the first year, and at the end of the second year the total allowances for the two years could not exceed $555. Likewise, the total allowances for the three years could not exceed $703 and for the four years could not exceed $802. This limitation would not apply in the fifth and sixth years. See section 167 (c) and § 1.167 (c)–1 for restrictions on the use of certain methods.

(b) It shall be the responsibility of the taxpayer to establish to the satisfaction of the Commissioner that a method of depreciation under section 167 (b) (4) is both a reasonable and consistent method and that it does not produce depreciation allowances in excess of the amount permitted under the limitations provided in such section.

§ 1.167 (c) *Statutory provisions; depreciation; limitations on use of certain methods and rates.*

SEC. 167. *Depreciation.* • • •

(c) *Limitations on use of certain methods and rates.* Paragraphs (2), (3), and (4) of subsection (b) shall apply only in the case of property (other than intangible property) described in subsection (a) with a useful life of 3 years or more—

(1) The construction, reconstruction, or erection of which is completed after December 31, 1953, and then only to that portion of the basis which is properly attributable to such construction, reconstruction, or erection after December 31, 1953, or

(2) Acquired after December 31, 1953, if the original use of such property commences with the taxpayer and commences after such date.

§ 1.167 (c)–1 *Limitations on methods of computing depreciation under section 167 (b) (2), (3), and (4)—(a) In general.* (1) Section 167 (c) provides limitations on the use of the declining balance method described in section 167 (b) (2), the sum of the years-digits method described in section 167 (b) (3), and certain other methods authorized by section 167 (b) (4). These methods are applicable only to tangible property having a useful life of three years or more. If construction, reconstruction, or erection by the taxpayer began before January 1, 1954, and was completed after December 31, 1953, these methods apply only to that portion of the basis of the property which is properly attributable to such construction, reconstruction, or erection after December 31, 1953. Property is considered as constructed, reconstructed, or erected by the taxpayer if the work is done for him in accordance with his specifications. The portion of the basis of such property attributable to construction, reconstruction, or erection after December 31, 1953, consists of all costs of the property allocable to the period after December 31, 1953, including the cost or other basis of materials entering into such work. It is not necessary that such materials be acquired after December 31, 1953, or that they be new in use. If construction or erection by the taxpayer began after December 31, 1953, the entire cost or other basis of such construction or erection qualifies for these methods of depreciation. In the case of reconstruction of property, these methods do not apply to any part of the adjusted basis of such property on December 31, 1953. For purposes of this section, construction, reconstruction, or erection by the taxpayer begins when physical work is started on such construction, reconstruction, or erection.

(2) If the property was not constructed, reconstructed, or erected by the taxpayer, these methods apply only if it was acquired after December 31, 1953, and if the original use of the property commences with the taxpayer and commences after December 31, 1953. For the purpose of the preceding sentence, property shall be deemed to be acquired when reduced to physical possession, or control. The term "original use" means the first use to which the property is put, whether or not such use corresponds to the use of such property by the taxpayer. For example, a reconditioned or rebuilt machine acquired after December 31, 1953, will not be treated as being put to original use by the taxpayer even though it is put to a different use, nor will a horse acquired for breeding purposes be treated as being put to original use by the taxpayer if prior to the purchase the horse was used for racing purposes. See §§ 1.167 (b)–2, 3, and 4 for application of the various methods.

(3) Assets having an estimated average useful life of less than three years shall not be included in a group, classified, or composite account to which the methods described in §§ 1.167 (b)–2, 3, and 4 are applicable. However, an incidental retirement of an asset from such an account prior to the expiration of a useful life of three years will not prevent the application of these methods to such an account.

(4) See section 381 (c) (6) and the regulations thereunder for rules covering the use of depreciation methods by acquiring corporations in the case of certain corporate acquisitions.

(b) *Illustrations.* (1) The application of these methods to property constructed, reconstructed, or erected by the taxpayer after December 31, 1953, may be illustrated by the following examples:

Example (1). If a building with a total cost of $100,000 is completed after December 31, 1953, and the portion attributable to construction after December 31, 1953, is determined by engineering estimates or by cost accounting records to be $30,000, the methods referred to in paragraph (a) (1) above, are applicable only to the $30,000 portion of the total.

Example (2). In 1954, a taxpayer has an old machine with an unrecovered cost of $1,000. If he contracts to have it reconditioned, or reconditions it himself, at a cost of an additional $5,000, only the $5,000 may be depreciated under the methods referred to in paragraph (a) (1) above, whether or not the materials used for reconditioning are new in use.

Example (3). A taxpayer who acquired a building in 1940 makes major maintenance or repair expenditures in 1954 of a type which must be capitalized. For these expenditures the taxpayer may use a method of depreciation different from that used on the building (for example, the methods referred to in paragraph (a) (1) above) only if he accounts for such expenditures separately from the account which contained the original building. In such case, the unadjusted basis on any parts replaced shall be removed from the asset account and shall be charged to the appropriate depreciation reserve account. In the alternative he may capitalize such expenditures by charging them to the depreciation reserve account for the building.

(2) The application of these methods to property which was not constructed, reconstructed, or erected by the taxpayer but which was acquired after December 31, 1953, may be illustrated by the following examples:

Example (1). A taxpayer contracted in 1953 to purchase a new machine which he acquired in 1954 and put into first use in that year. He may use the methods referred to in paragraph (a) (1) above, in recovering the cost of the new machine.

Example (2). A taxpayer instead of reconditioning his old machine buys a "factory reconditioned" machine in 1954 to replace it. He can not apply the methods referred to in paragraph (a) (1) above, to any part of the cost of the reconditioned machine since he is not the first user of the machine.

Example (3). In 1954, a taxpayer buys a house for $20,000 which had been used as a personal residence and thus had not been subject to depreciation allowances. He makes a capital addition of $5,000 and rents the property to another. The taxpayer may use the methods referred to in paragraph (a) (1) above, only with respect to the $5,000 cost of the addition.

(c) *Election to use methods.* Subject to the limitations set forth in paragraph (a) of this section, the methods of computing the allowance for depreciation specified in section 167 (b) (2), (3), and (4) may be adopted without permission and no formal election is required. In order for a taxpayer to elect to use these methods for any property described in paragraph (a) of this section, he need only compute depreciation thereon under any of these methods for any taxable year ending after December 31, 1953, in which the property may first be depreciated by him. The election with respect to any property shall not be binding with respect to acquisitions of similar property in the same year or subsequent years which are set up in separate accounts. If a taxpayer has filed his return for a taxable year ending after December 31, 1953, for which the return is required to be filed on or before the 90th day following the promulgation of these regulations under section 167, an election to compute the depreciation allowance under any of the methods specified in section 167 (b) or a change in such an election may be made in an amended return or claim for refund filed on or before such 90th day.

§ 1.167 (d) *Statutory provisions; depreciation; agreement as to useful life on which depreciation rate is based.*

SEC. 167. *Depreciation.* • • •

(d) *Agreement as to useful life on which depreciation rate is based.* Where, under regulations prescribed by the Secretary or his delegate, the taxpayer and the Secretary or his delegate have, after the date of enactment of this title, entered into an agreement in writing specifically dealing with the useful life and rate of depreciation of any property, the rate so agreed upon shall be binding on both the taxpayer and the Secretary in the absence of facts or circumstances not taken into consideration in the adoption of such agreement. The responsibility of establishing the existence of such facts and circumstances shall rest with the party initiating the modification. Any change in the agreed rate and useful life specified in the agreement shall not be effective for taxable years before the taxable year in which notice in writing by registered mail is served by the party to the agreement initiating such change.

§ 1.167 (d)–1 *Agreement as to useful life and rates of depreciation.* After August 16, 1954, a taxpayer may, for taxable years ending after December 31, 1953, enter into an agreement with respect to the estimated useful life, method, and rate of depreciation of any property which is subject to the allowance for depreciation. An application for such agreement may be made to the district director of internal revenue for the district in which the taxpayer's return is required to be filed. Such application shall be filed in quadruplicate and shall contain in such detail as may be practical the following information:

(a) The character and location of the property.

(b) The original cost or other basis and date of acquisition.

(c) Proper adjustments to the basis including depreciation accumulated to the first taxable year to be covered by the agreement.

(d) Estimated useful life and estimated salvage value.

(e) Method and rate of depreciation.

(f) Any other facts and circumstances pertinent to making a reasonable estimate of the useful life of the property and its salvage value.

The agreement must be in writing and must be signed by the taxpayer and by the district director or such other person as is authorized by the Commissioner. The agreement must be signed in quadruplicate, and two of the signed copies will be returned to the taxpayer. The agreement shall set forth its effective date, the estimated remaining useful life, the estimated salvage value, and rate and method of depreciation of the property and the facts and circumstances taken into consideration in adoption of the agreement, and shall relate only to depreciation allowances for such property on and after the effective date of the agreement. Such an agreement shall be binding on both parties until such time as facts and circumstances which were

not taken into account in making the agreement are shown to exist. The party wishing to modify or change the agreement shall have the responsibility of establishing the existence of such facts and circumstances. Any change in the useful life or rate specified in such agreement shall be effective only prospectively, that is, it shall be effective beginning with the taxable year in which notice of the intention to change, including facts and circumstances warranting the adjustment of useful life and rate, is sent by registered mail by the party proposing the change to the other party. A copy of the agreement (and any modification thereof) shall be filed with the taxpayer's return for the first taxable year which is affected by the agreement (or any modification thereof). A signed copy should be retained with the permanent records of the taxpayer. For rules relating to changes in method of depreciation, see § 1.167 (e)–1 and section 446 and the regulations thereunder.

§ 1.167 (e) *Statutory provisions; depreciation; change in method.*

SEC. 167. *Depreciation.* • • •

(e) *Change in method.* In the absence of an agreement under subsection (d) containing a provision to the contrary, a taxpayer may at any time elect in accordance with regulations prescribed by the Secretary or his delegate to change from the method of depreciation described in subsection (b) (2) to the method described in subsection (b) (1).

§ 1.167 (e)–1 *Change in method*—(a) *In general.* Any change in the method of computing the depreciation allowances with respect to a particular account is a change in method of accounting, and such a change will be permitted only with the consent of the Commissioner, except that the change from the declining balance method to the straight line method as provided in section 167 (e) shall be permitted without consent. See paragraph (b) of this section. A change in method of computing depreciation will be permitted only with respect to all the assets contained in a particular account as defined in § 1.167 (a)–7. Any change in the percentage of the current straight line rate under the declining balance method or any change in the interest factor used in connection with a compound interest or sinking fund method will constitute a change in method of depreciation and will require the consent of the Commissioner. Any request for a change in method of depreciation shall be made in accordance with section 446 and the regulations thereunder and shall state the character and location of the property, method of depreciation being used and the method proposed, the date of acquisition, the cost or other basis and adjustments thereto, amounts recovered through depreciation and other allowances, the estimated salvage value, the estimated remaining life of the property, and such other information as may be required.

For rules covering the use of depreciation methods by acquiring corporations in the case of certain corporate acquisitions, see section 381 (c) (6) and the regulations thereunder.

(b) *Declining balance to straight line.* In the case of an account to which the method described in section 167 (b) (2) is applicable, a taxpayer may change without the consent of the Commissioner, from the declining balance method of depreciation to the straight line method at any time during the useful life of the property under the following conditions. Such a change may not be made if a provision prohibiting such a change is contained in an agreement under section 167 (d). When the change is made, the unrecovered cost or other basis (less a reasonable estimate for salvage) shall be recovered through annual allowances over the estimated remaining useful life determined in accordance with the circumstances existing at that time. With respect to any account, this change will be permitted only if applied to all the assets in the account as defined in § 1.167 (a)–7. The taxpayer shall furnish a statement, with respect to the property which is the subject of the change, showing the date of acquisition, cost or other basis, amounts recovered through depreciation and other allowances, the estimated salvage value, the character of the property, the remaining useful life of the property, and such other information as may be required. The statement shall be attached to the taxpayer's return for the taxable year in which the change is made. A change to the straight line method must be adhered to for the entire taxable year of the change and for all subsequent taxable years unless, with the consent of the Commissioner, a change to another method is permitted.

§ 1.167 (f) *Statutory provision; depreciation; basis for depreciation.*

SEC. 167. *Depreciation.* • • •

(f) *Basis for depreciation.* The basis on which exhaustion, wear and tear, and obsolescence are to be allowed in respect of any property shall be the adjusted basis provided in section 1011 for the purpose of determining the gain on the sale or other disposition of such property.

§ 1.167 (f)–1 *Basis for depreciation.* The basis upon which the allowance for depreciation is to be computed with respect to any property shall be the adjusted basis provided in section 1011 for the purpose of determining gain on the sale or other disposition of such property. In the case of property which has not been used in the trade or business or held for the production of income and which is thereafter converted to such use, the fair market value on the date of such conversion, if less than the adjusted basis of the property at that time, is the basis for computing depreciation.

§ 1.167 (g) *Statutory provision; depreciation; life tenants and beneficiaries of trusts and estates.*

SEC. 167. *Depreciation.* • • •

(g) *Life tenants and beneficiaries of trusts and estates.* In the case of property held by one person for life with remainder to another person, the deduction shall be computed as if the life tenant were the absolute owner of the property and shall be allowed to the life tenant. In the case of property held in trust, the allowable deduction shall be apportioned between the income beneficiaries and the trustee in accordance with the pertinent provisions of the instrument creating the trust, or, in the absence of such provisions, on the basis of the trust income allocable to each. In the case of an estate, the allowable deduction shall be apportioned between the estate and the heirs, legatees, and devisees on the basis of the income of the estate allocable to each.

§ 1.167 (g)–1 *Life tenants and beneficiaries of trusts and estates.* In the case of property held by one person for life with remainder to another person, the deduction for depreciation shall be computed as if the life tenant were the absolute owner of the property so that he will be entitled to the deduction during his life, and thereafter the deduction, if any, shall be allowed to the remainderman. In the case of property held in trust, the allowable deduction shall be apportioned between the income beneficiaries and the trustee in accordance with the pertinent provisions of the will, deed, or other instrument creating the trust, or, in the absence of such provisions, on the basis of the trust income which is allocable to the trustee and the beneficiaries, respectively. For example, if the trust instrument provides that the income of the trust computed without regard to depreciation shall be distributed to a named beneficiary, such beneficiary shall be entitled to the depreciation allowance to the exclusion of the trustee, while if the instrument provides that the trustee in determining the distributable income shall first make due allowance for keeping the trust corpus intact by retaining a reasonable amount of the current income for that purpose, the allowable deduction shall be granted in full to the trustee. In the case of an estate, the allowable deduction shall be apportioned between the estate and the heirs, legatees, and devisees on the basis of income of the estate which is allocable to each. See section 642 (e) and the regulations thereunder for rules applicable to the allocation of income of estates and trusts.

§ 1.167 (h) *Statutory provisions; depreciation; depreciation of improvements in the case of mines, etc.*

SEC. 167. *Depreciation.* • • •

(h) *Depreciation of improvements in the case of mines, etc.* For additional rule applicable to depreciation of improvements in the case of mines, oil and gas wells, other natural deposits, and timber, see section 611.

§ 1.167 (h)–1 *Depreciation of improvements in the case of mines, etc.* Property used in the trade or business or held for the production of income which is subject to the allowance for depreciation provided in section 611 shall be treated for all purposes of the Internal Revenue Code of 1954 as if it were property subject to the allowance for depreciation under section 167. The preceding sentence shall not limit the allowance for depreciation otherwise allowable under section 611.

[7 CFR Part 28]

COTTON SAMPLING

PROPOSED REVISED REGULATIONS FOR COTTON CLASSIFICATION AND MARKET NEWS SERVICES FOR ORGANIZED GROUPS OF PRODUCERS

Notice is hereby given that the United States Department of Agriculture is considering a revision of the regulations governing cotton classification and market news services for organized groups of producers (7 CFR 28.901–28.918), pursuant to authority contained in the Cotton Statistics and Estimates Act of March 3, 1927, as amended (50 Stat. 62; 7 U. S. C. 473a, b, and c).

The proposed revision would incorporate details as to the drawing, handling, and submitting of samples for classification, and the bonding requirements for certain samplers.

The proposed amendment would delete the undesignated center head immediately preceding § 28.906, and §§ 28.906 through 28,910, substituting therefor the following:

SAMPLING

§ 28.906 *Approval and bonding of samplers.* The cotton of members of organized groups may be sampled at a cotton gin, or at a warehouse which issues negotiable warehouse receipts. Sampling agents at these sampling locations are subject to the approval of the Administrator or his representatives. Each sampling agent, other than an approved warehouse sampler or an employee of the Department of Agriculture, serving one or more cotton gins shall, as a condition for approval, execute and file with the Service a good and sufficient bond to the United States to secure the faithful performance of his duties as a sampler under the terms of the act and this subpart. Said bond shall be in such form and amount and shall have such surety or sureties as shall be approved by the Service: *Provided*, That said bond shall be in an amount not less than $1,000 for each gin serviced less than five, and not less than $5,000 for five or more gins serviced: *Provided further*, That such surety or sureties shall be subject to service of process in suits on the bond within the State, district, or territory in which such sampler shall perform services under the act and this subpart.

§ 28.907 *Responsibilities of sampling agents.* Each sampling agent shall be primarily responsible for drawing, identifying, handling, and shipping samples of cotton in accordance with this subpart and with instructions furnished by the Administrator or his representatives from time to time.

§ 28.908 *Samples*—(a) *Only one sample to be submitted.* Only one sample from each bale of eligible cotton shall be submitted for classification under this subpart. This does not prohibit the submission of an additional sample from a bale for review classification or reclassification on a fee basis if the producer so desires.

(b) *Drawing of samples manually.* Each cut sample shall be drawn from the bale after it is tied out following the ginning process, and shall be approximately 6 ounces in weight, not less than 3 ounces of which are to be drawn from each side of the bale.

(c) *Mechanical sampling.* Samples may be drawn at gins equipped with mechanical samplers approved by the Service. Such samples shall be not less than 6 ounces in weight.

(d) *Samples must be representative.* Each sample must be representative of the bale from which drawn.

(e) *Handling samples.* Samples shall not be dressed or trimmed and shall be carefully handled in such manner as not to cause loss of leaf, sand, or other material, or otherwise change their representative character. Samples shall not be handled by any person other than the sampling agent prior to shipment or delivery to the cotton classing office of the Service.

(f) *Identifying and shipping samples.* Each sample shall be identified with a tag, supplied or approved by the Service, bearing the gin or warehouse number of the bale from which the sample was drawn and the name and address of the producer of the bale. The tag shall be placed between the two halves of the sample, the sample tightly rolled and enclosed in a package or bag for shipment. Each package or bag shall be labeled or marked with the name and address of the sampling agent for the organized group. The packages shall be shipped or delivered direct to the cotton classing office designated by the Service.

§ 28.909 *Costs.* Costs incident to sampling, tagging, and identification of samples and transporting samples to points of shipment shall be without expense to the Government, but tags and containers for the shipment of samples may be furnished and shipping charges by common carriers paid by the Service. After classification the samples shall become the property of the Government.

CLASSIFICATION

§ 28.910 *Classification of samples.* The samples submitted as provided in this subpart shall be classified by employees of the Service and a classification memorandum showing the grade and staple length of each sample according to the official cotton standards of the United States will be mailed or made available to the producer whose name appears on the tag accompanying the sample, or to a representative designated by the producer or the organized group to receive the classification memorandum.

Any interested person who wishes to submit written data, views, or arguments concerning the proposed amendment may do so by filing them with the Director, Cotton Division, Agricultural Marketing Service, United States Department of Agriculture, Washington 25, D. C., not later than 15 days after publication of this notice in the FEDERAL REGISTER.

Done at Washington, D. C., this 8th day of November 1955.

[SEAL] FRANK E. BLOOD,
Acting Deputy Administrator,
Agricultural Marketing Service.

NOTICES

DEPARTMENT OF THE TREASURY

Foreign Assets Control

HAIR OF CERTAIN ANIMALS, AND COTTON AND SILK WASTE; IMPORTATION FROM COUNTRIES NOT IN AUTHORIZED TRADE TERRITORY

APPLICATIONS FOR LICENSES

Notice is hereby given that the Treasury Department is now prepared to consider applications for licenses under the Foreign Assets Control Regulations (31 CFR 500.101 to 500.808) for the importation during 1956 of limited quantities of the following commodities from countries (other than Communist China and North Korea) not in the authorized trade territory:

Badger hair.
Camel hair.
Cotton waste.
Coat hair.
Horse mane hair, horse tail hair and other horse hair.
Silk waste.
Yak hair.

Applications must be filed on or before December 2, 1955.

Any person interested in importing any of the above-named commodities from a country (other than Communist China and North Korea) not in the authorized trade territory may obtain additional information and license application forms from the Foreign Assets Control, Treasury Department, Washington 25, D. C.

Attention is directed to the fact that the term "authorized trade territory" is defined in § 500.322 of the Foreign Assets Control regulations and that the term "countries (other than Communist China and North Korea) not in the authorized trade territory" as used herein includes Albania, Bulgaria, Czechoslovakia, the Eastern Zone of Germany, the Eastern Sector of Berlin, Estonia, Hungary, Laos (only those areas under Communist control), Latvia, Lithuania, Outer Mongolia, Poland and Danzig, Roumania, the Union of Soviet

Socialist Republics, and Viet-Nam (only those areas under Communist control).

[SEAL] ELTING ARNOLD,
Acting Director,
Foreign Assets Control.

AMARILLO STOCKYARDS, INC.

DEPOSTING OF STOCKYARD

It has been ascertained that the Amarillo Stockyards, Inc., Armarillo, Texas, originally posted on December 7, 1949, as being subject to the Packers and Stockyards Act, 1921, as amended (7 U. S. C. 181 et seq.), no longer comes within the definition of a stockyard under said act for the reason that it is no longer being conducted or operated as a public livestock market. Therefore, notice is given to the owners of the stockyard and to the public that such livestock market is no longer subject to the provisions of the act.

Notice of public rule making has not preceded promulgation of the foregoing rule since it is found that the giving of such notice would prevent the due and timely administration of the Packers and Stockyards Act and would, therefore, be impractical. There is no legal warrant or justification for not depositing promptly a stockyard which no longer is within the definition of that term contained in said act.

The foregoing is in the nature of a rule granting an exemption or relieving a restriction, and, therefore, may be made effective in less than 30 days after publication thereof in the FEDERAL REGISTER.

(42 Stat. 159, as amended and supplemented; 7 U. S. C. 181 et seq.)

Done at Washington, D. C., this 7th day of November 1955.

[SEAL] H. E. REED,
Director, Livestock Division,
Agricultural Marketing Service.

DEPARTMENT OF COMMERCE

Federal Maritime Board

MATSON NAVIGATION CO. AND REDERIAKTIEBOLAGET NORDSTJERNAN (JOHNSON LINE)

NOTICE OF AGREEMENT FILED WITH THE BOARD FOR APPROVAL

Notice is hereby given that the following described agreement has been filed with the Board for approval pursuant to section 15 of the Shipping Act, 1916, as amended; 39 Stat. 733, 46 U. S. C. 814.

Agreement No. 8052, between Matson Navigation Company and Rederiaktiebolaget Nordstjernan (Johnson Line), covers the transportation of canned pineapple on through bills of lading from Hawaii to Europe, with transhipment at ports on the Pacific Coast of the United States.

Interested parties may inspect this agreement and obtain copies thereof at the Regulation Office, Federal Maritime Board, Washington, D. C., and may submit, within 20 days after publication of this notice in the FEDERAL REGISTER, written statements with reference to the agreement and their position as to approval, disapproval, or modification, together with request for hearing should such hearing be desired.

By order of the Federal Maritime Board.

Dated: November 8, 1955.

[SEAL] A. J. WILLIAMS,
Secretary.

CIVIL AERONAUTICS BOARD

[Docket No. 7422; Order No. E-9721]

TAN AIRLINES ET AL.

ORDER INSTITUTING INVESTIGATION [1]

Adopted by the Civil Aeronautics Board at its office in Washington, D. C., on the 8th day of November 1955.

In the matter of a complaint and petition of TAN Airlines regarding an agreement filed pursuant to section 412 (a) of the Civil Aeronautics Act of 1938, as amended, between National Airlines, Inc. and certain other air carriers, foreign air carriers and other carriers relating to the regulation and conduct of the Regional Traffic Conference of the International Air Transport Association (IATA).

The Board by Order No. E-9305 dated June 15, 1955, extended its approval of Agreement C. A. B. No. 1175 relating to the establishment, regulation and conduct of Regional Traffic Conferences of IATA subject to certain conditions prescribed therein, and has approved various resolutions establishing minimum fares adopted by such Regional Traffic Conferences of IATA.

By complaint and petition filed September 27, 1955, in Docket No. 7422, Transportes Aereos Nacionales, S. A. (TAN Airlines) complained against the cancellation by National Airlines, Inc. (National), of an interline agreement (CAB No. 5590 approved by Order No. E–5851) between TAN Airlines and National, whereby each carrier agreed to accept tickets issued by the other in through transportation of passengers over the routes of the two carriers. The complaint stated that National withdrew from such interline agreement for the reason that National's participation in through transportation with TAN would undercut IATA minimum fares between points on National's system and points on TAN's system in violation of IATA minimum fare resolution. TAN's complaint alleged, inter alia, that the Board's approval of the pertinent IATA resolutions establishing minimum fares cannot properly be interpreted as covering the combination of a fare for a domestic segment with a non-IATA foreign carrier's fares, the total of which may be less than IATA minimum fares, and that such an interpretation would be contrary to the Civil Aeronautics Act and would result in unjust discrimination in violation of section 404 (b) of the act.

TAN requested that the Board's Order No. E–9305 be amended to show that the Board's approval of IATA agreements and resolutions was inapplicable to through fares where the fare over a domestic segment of an IATA member forms a part of the through fare or, in the alternative, that an investigation be instituted of the IATA conference rate making procedure, and for such other relief as the Board may find just and proper.

National by answer requested dismissal of TAN's complaint, alleging that the interline agreement specifically provided that it may be cancelled on thirty days' notice without arbitration and that there is no statutory duty upon National to provide through service in foreign air transportation. National's answer did not deny TAN's allegation that it terminated the interline agreement with TAN for the reason that operations under such agreement were in violation of IATA resolutions.

The Board has previously received informal complaints urging that if it is determined that IATA rate resolutions extend to fares for domestic segments of foreign air transportation, that such resolutions be disapproved as adverse to the public interest.[2]

[1] Of proper applicability of IATA resolutions to interline agreements involving domestic segments of IATA members.

[2] Informal complaint filed May 27, 1955, on behalf of Aerovias Panama, S. A. (APA). In declining to institute an investigation on its own motion, the Board advised APA that this conclusion was not a determination of what the Board action would be upon a formal complaint stating the bases for investigation supplementing those set forth in the letter complaint.

IATA resolutions in substance provide that the fares of member carriers shall be not less than prescribed minimum fares established between named points. The standard IATA interline agreement, as entered into by National and TAN, provides that each carrier is authorized to issue tickets for the transportation of passengers over the routes of others, and that each carrier will honor tickets issued by the other and contemplates the offering by the carriers of through transportation over connecting routes of the two carriers. Pursuant to this agreement, the carriers held out to the public, and provided such through transportation. While the fare over the connecting routes was the sum of the fares applicable over the respective segments, such total fare is deemed a through [3] fare in which each carrier participates.

It therefore appears that the IATA fare resolutions, as approved by the Board, would prohibit a member carrier from entering into an agreement with another carrier to provide through transportation at fares less than IATA minimum fares, even if only an overseas or domestic segment of the IATA member is involved.

Since the bulk of the domestic transportation from the United States gateways is supplied by carriers who are IATA members by virtue of international operations carried on by other divisions of the same carrier, the IATA resolutions may effectively restrict the opportunity of non-IATA carriers to serve non-gateway points in the United States by combination over United States domestic segments.

Such extension of the effect of IATA agreements to domestic operation raises serious public interest questions which require investigation.[4]

[3] Through route has been defined by the Supreme Court in Thompson v. U. S., 343 U. S. 549, 556 (1952): "A 'through route' is an arrangement, express or implied, between connecting railroads for the continuous carriage of goods from the originating point on the line of one carrier to destination on the line of another. Through carriage implies a 'through rate'. This 'through rate' is not necessarily a 'joint rate'. It may be merely an aggregation of separate rates fixed independently by the several carriers forming the 'through route'; as where the 'through rate' is 'the sum of the locals' on the several connecting lines or is the sum of lower rates otherwise separately established by them for through transportation. Through Routes and Through Rates, 12 I. C. C. 163, 166."

[4] TAN's complaint presents the specific question as to whether it is adverse to the public interest for an IATA agreement to prohibit a member carrier from using its published fares on domestic segments in foreign air transportation for through transportation where the resulting through fare is below the IATA minimum. We will consider in this proceeding, however, to what extent, if any, it is adverse to the public interest for IATA minimum fare resolutions to restrict member carriers from entering into through route arrangements involving only their domestic or oversea segments together with the foreign segments of non-IATA carriers where the through fares applicable thereto are less than IATA minimum fares.

Accordingly, pursuant to the provisions of the act, particularly sections 405 (a), 412, and 1002:

It is ordered, That:

1. An investigation be and hereby is instituted to determine whether and to what extent IATA resolutions adopted pursuant to Agreement CAB No. 1175, insofar as they restrict the right of an IATA member to enter into an interline agreement with a non-IATA member to provide through transportation over a route involving only a domestic or overseas segment of the IATA member, may be adverse to the public interest, and to formulate such conditions on Board approval of such IATA resolutions as shall be found appropriate.

2. The proceeding ordered herein be assigned for hearing before an Examiner of the Board at a time and place hereafter to be designated.

3. Copies of this order be served upon all air carrier parties to the resolutions and agreements, and upon Transportes Aereos Nacionales, S. A., and upon Aerovias Panama, S. A.

4. This order be published in the FEDERAL REGISTER.

By the Civil Aeronautics Board.

[SEAL] M. C. MULLIGAN,
Secretary.

SECURITIES AND EXCHANGE COMMISSION

[File No. 54-132 etc.]

ENGINEERS PUBLIC SERVICE CO. ET AL.

NOTICE OF AND ORDER FOR HEARING WITH RESPECT TO CLAIM FOR ADDITIONAL FEES AND DISBURSEMENTS

NOVEMBER 4, 1955.

In the matter of Engineers Public Service Company, File No. 54–132; El Paso Electric Company, File No. 70–1149; Gulf States Utilities Company, File No. 70–1150; Virginia Electric and Power Company, File No. 70–1419.

The Commission having on January 8, 1947, approved a plan of reorganization for Engineers Public Service Company ("Engineers"), a registered holding company, pursuant to section 11 (e) of the Public Utility Holding Company Act of 1935, but having reserved jurisdiction over all fees and expenses incurred or to be incurred in connection with said Plan (Engineers Public Service Company et al., 25 S. E. C. 37); and

Applications for the approval of fees and expenses in connection with said plan having been filed with the Commission during the year 1949, including an application by Louis Boehm and Raymond L. Wise, wherein the persons last named requested fees in the amount of $35,892 and reimbursement of expenses in the amount of $1,220.67; and

The Commission having on March 26, 1952 issued its order providing, among other things, that said Louis Boehm and Raymond L. Wise should be paid the sum of $2,500 together with certain specified cash disbursements (Holding Company Act Release No. 11096); and

The Commission having filed with the United States District Court for the District of Delaware its Supplemental Application No. 2 for an order enforcing the Commission's said order of March 26, 1952; objections to said Supplemental Application No. 2 having been filed by various parties including Louis Boehm and Raymond L. Wise; and said Court having on February 16, 1954, after hearings, entered an order, which among other things, directed Engineers to pay to Louis Boehm and Raymond L. Wise the sum of $35,892 for fees and $1,220.67 for expenses; and

On April 5, 1955, upon appeal by the Commission, said order of the United States District Court of February 16, 1954, having been affirmed by the United States Court of Appeals for the Third Circuit; and

The Commission having on June 14, 1955, issued its supplemental order (Holding Company Act Release No. 12921) amending its order of March 26, 1952, so as, among other things, to direct the payment by Engineers to Louis Boehm and Raymond L. Wise of $35,892 for fees and $1,220.67 for expenses, which amounts have now been paid by Engineers to Louis Boehm and Raymond L. Wise; and

The Commission's order of June 14, 1955, provided that it should be "without prejudice, however, to whatever rights the applicants would otherwise have to make application hereafter for supplemental allowances of compensation and reimbursement of expenses incurred by said applicants subsequent to the filing in 1949 of their original applications;" and

Engineers having now filed a petition setting forth that Louis Boehm and Raymond L. Wise contend that they are legally entitled to an allowance as a charge to Engineers of the full value of their legal services since the filing of their fee application in 1949, in connection with establishing their rights to allowances as finally fixed by the Courts and the Commission together with their disbursements in connection therewith, and that Engineers is of the opinion that said applicants are not entitled to any further allowances for services and disbursements by reason of, or in connection with, services rendered since the filing of their application in 1949, and requesting that the Commission set down for hearing the claim of Louis Boehm and Raymond L. Wise against Engineers, and that the Commission, after such hearing, fix the amount of the additional fees and expenses, if any, to be paid by Engineers to Louis Boehm and Raymond L. Wise; and

It appearing to the Commission that it is appropriate in the public interest and in the interest of investors that a hearing be held with respect to the claim asserted by Louis Boehm and Raymond L. Wise against Engineers:

It is ordered, That a hearing be held on the claim of Louis Boehm and Ray-

mond L. Wise as aforesaid, which hearing shall commence on December 6, 1955, at 10:00 a. m. at the office of the Commission, Washington, D. C. On such date the hearing room clerk in room 193 will advise as to the room in which the hearing will be held. Any person who is not already a party, or who has not been granted leave to participate in the above-entitled proceedings, and who desires to be heard or otherwise to participate in such hearing shall file with the Secretary of this Commission on or before December 5, 1955, a request relative thereto as provided in Rule XVII of the Commission's rules of practice.

It is further ordered, That William W. Swift or any other officer or officers of the Commission designated by it for that purpose shall preside at such hearing. The officer or officers so designated is and are hereby authorized to exercise all powers granted to the Commission under section 18 (c) of the act and to a hearing officer under the Commission's rules of practice.

The Division of Corporate Regulation of the Commission having advised the Commission that it has made a preliminary examination of the aforesaid petition filed by Engineers with respect to said claim for fees and disbursements, and that on the basis thereof the following matters and questions are presented, without prejudice, however, to the presentation of additional matters and questions upon further examination:

1. Whether the activities of Louis Boehm and Raymond L. Wise subsequent to the filing of their original application for fees and expenses in 1949, together with their disbursements in connection therewith, are compensable and whether it is lawful and appropriate to grant any allowances from the estate of Engineers on account thereof;

2. Whether the fees and disbursements requested by Louis Boehm and Raymond L. Wise were incurred in rendering services which were necessary in connection with the reorganization plan of Engineers;

3. If Louis Boehm and Raymond L. Wise are entitled to additional compensation or reimbursement for additional expenses, what amounts, if any, should be allowed.

It is further ordered, That particular attention be directed at the hearing to the foregoing matters and questions.

It is further ordered, That the Secretary of the Commission shall serve a copy of this notice and order by registered mail on Engineers and on Louis Boehm and Raymond L. Wise; and that notice of the entry of this notice and order shall be given to all other persons by general release of the Commission which shall be distributed to the press and mailed to the mailing list for releases issued under the Public Utility Holding Company Act of 1935, and by publication in the FEDERAL REGISTER.

By the Commission.

[SEAL] ORVAL L. DUBOIS, *Secretary.*

LOS ANGELES STOCK EXCHANGE

NOTICE OF APPLICATION FOR UNLISTED TRADING PRIVILEGES, AND OF OPPORTUNITY FOR HEARING

NOVEMBER 7, 1955.

The Los Angeles Stock Exchange, pursuant to section 12 (f) (2) of the Securities Exchange Act of 1934 and Rule X-12F-1 thereunder, has made application for unlisted trading privileges in the 31 stocks itemized below. All of these stocks are listed and registered on the New York Stock Exchange and multiple listings include 3 on Boston, 1 on Detroit, 5 on Midwest, and 10 on San Francisco Stock Exchanges. Altogether, 19 of the stocks are admitted to listed or unlisted trading on the San Francisco Stock Exchange, a purpose of this application being to enhance the usefulness of the direct wire recently installed between the San Francisco and Los Angeles Stock Exchanges. The distribution and volume figures in the first two columns are according to issuers and in the remaining columns according to members.

Upon receipt of a request prior to November 30, 1955, from any interested person, the Commission will determine whether to set the matter down for hearing. Such request should state briefly the nature of the interest of the person requesting the hearing and the position he proposes to take thereat. If no one requests a hearing, the application will be determined by order of the Commission on the basis of the facts stated in the application and other information contained in the official file of the Commission pertaining to the matter.

By the Commission.

TITLE 14—CIVIL AVIATION

Chapter I—Civil Aeronautics Board

[Reg. SR–400A]

PART 40—SCHEDULED INTERSTATE AIR CARRIER CERTIFICATION AND OPERATION RULES

PART 61—SCHEDULED AIR CARRIER RULES

SPECIAL CIVIL AIR REGULATION; ISSUANCE OF AIR CARRIER OPERATING CERTIFICATES FOR HELICOPTER OPERATIONS

Adopted by the Civil Aeronautics Board at its office in Washington, D. C., on the 8th day of November 1955.

Special Civil Air Regulation No. SR–400, adopted January 25, 1954, effective January 25, 1954, and due to terminate on January 25, 1956, continued and enlarged in scope the authority contained in SR–369 which established an interim regulatory basis for helicopter operations until such time as the Board could complete its preparation of rules governing air carrier helicopter operations. SR–400 gave authority to the Administrator to issue air carrier operating certificates permitting deviations from Parts 40 and 61, as in effect on December 31, 1953, for scheduled air carrier helicopter operations.

The Board in formulating rules governing helicopter operations circulated to the public, for comment, proposed Part 46 entitled "Scheduled Air Carrier Helicopter Certification and Operation Rules." In consideration of the many replies received from interested persons on the proposed part, the Board has revised its proposal to include certain of the suggestions and recommendations received and proposes to recirculate proposed Part 46, for additional comment, by interested persons, in the immediate future. Since the Board contemplates a 60-day period for return comment on proposed Part 46, it is not possible to complete rule making in this matter before the termination date of SR–400. Therefore, it is necessary to extend the authority of the Administrator as provided in SR–400 until air carrier helicopter regulations are adopted by the Board.

While section 4 (a) of the Administrative Procedure Act ordinarily requires general notice of proposed rule-making, the Board believes that in this case good cause exists making it unnecessary to give public notice of the adoption of this Special Civil Air Regulation since interested persons have already had opportunity to comment on both SR–369 and SR–400 before being adopted by the Board and because the public has recently had opportunity to comment on proposed Part 46, and soon will have opportunity to comment on it again.

Therefore, the Board finds that good cause exists to adopt Special Civil Air Regulation No. SR–400A without notice of proposed rule making and that the interests of the public will not be adversely affected thereby, and that economy of time and expense will be achieved, all in the interest of the public.

In consideration of the foregoing, the Civil Aeronautics Board hereby makes and promulgates the following Special Civil Air Regulation, effective January 25, 1956:

An air carrier operating certificate, or amendments thereto, may be issued by the Administrator to an air carrier for the purpose of engaging in helicopter operations in accordance with the certification requirements of Part 40 of the Civil Air Regulations. Such helicopter operations shall be conducted in accordance with the operation requirements of Part 61 of the Civil Air Regulations. If the Administrator finds that

[Amdt. 141]

PART 608—RESTRICTED AREAS

ALTERATIONS

The restricted area alterations appearing hereinafter have been coordinated with the civil operators involved, the Army, the Navy, and the Air Force, through the Air Coordinating Committee, Airspace Panel, and are adopted to become effective when indicated in order to promote safety of the flying public. Since a military function of the United States is involved, compliance with the notice, procedure, and effective date, provisions of section 4 of the Administrative Procedure Act is not required.

Part 608 is amended as follows:

1. In § 608.19, the Camp Gordon, Georgia, area (R–124 formerly D–124), amended on October 31, 1951, in 16 F. R. 11066, is further amended by changing the "Designated Altitudes" column to read: "Surface to 5500 feet MSL."

2. In § 608.62, a Waikane, Oahu, Territory of Hawaii, area (R–496), is added to read:

Name and location (chart)	Description by geographical coordinates	Designated altitudes	Time of designation	Controlling agency
WAIKANE (R–496) (Honolulu Local).	Latitude 21°29'49" N, longitude 157°51'49" W; latitude 21°30'30" N, longitude 157°52'09" W; latitude 21°30'58" N, longitude 157°52'41" W; latitude 21°31'00" N, longitude 157°53'23" W; latitude 21°30'39" N, longitude 157°53'27" W; latitude 21°29'43" N, longitude 157°53'09" W; latitude 21°29'38" N, longitude 157°52'41" W; to point of beginning.	5,000 feet mean sea level.	Continuous, daylight hours.	Commanding General, Fleet Marine Force Pacific N. S., Pearl Harbor, T. H.

In § 608.14, the Camp Beale, California, area (R–65 formerly D–265), amended on October 9, 1954 in 19 F. R. 6513, is redesignated as follows: Beginning at latitude 39°15'00", longitude 121°09'00"; thence to latitude 39°00'00", longitude 121°09'00"; thence to latitude 39°00'00", longitude 121°15'00"; thence to latitude 39°01'20", longitude 121°20'00"; thence to latitude 39°09'00", longitude 121°20'00"; thence to latitude 39°09'00", longitude 121°29'10"; thence to latitude 39°15'00", longitude 121°30'00"; thence to point of beginning.

(Sec. 205, 52 Stat. 984, as amended; 49 U. S. C. 425. Interprets or applies sec. 601, 52 Stat. 1007, as amended; 49 U. S. C. 551)

This amendment shall become effective December 1, 1955.

[SEAL] F. B. LEE,
Administrator of Civil Aeronautics.

PROPOSED RULE MAKING

DEPARTMENT OF THE TREASURY

Internal Revenue Service

[26 CFR (1954) Part 1]

INCOME TAX; TAXABLE YEARS BEGINNING AFTER DECEMBER 31, 1953

CAPITAL GAINS AND LOSSES

Notice is hereby given, pursuant to the Administrative Procedure Act, approved June 11, 1946, that the regulations set forth in tentative form below are proposed to be prescribed by the Commissioner of Internal Revenue, with the approval of the Secretary of the Treasury. Prior to the final adoption of such regulations, consideration will be given to any data, views, or arguments pertaining thereto which are submitted in writing in duplicate to the Commissioner of Internal Revenue, Attention: T:P, Washington 25, D. C., within the period of 30 days from the date of publication of this notice in the FEDERAL REGISTER. The proposed regulations are to be issued under the authority contained in section 7805 of the Internal Revenue Code of 1954 (68A Stat. 917; 26 U. S. C. 7805).

[SEAL] O. GORDON DELK,
Acting Commissioner of Internal Revenue.

The following regulations relating to capital gains and losses are hereby prescribed under parts I, II, and III of subchapter P of chapter 1 of the Internal Revenue Code of 1954, and are effective for the taxable years beginning after December 31, 1953, and ending after August 16, 1954:

CAPITAL GAINS AND LOSSES

TREATMENT OF CAPITAL GAINS

§ 1.1201 *Statutory provisions; alternative tax.*

SEC. 1201. *Alternative tax*—(a) *Corporations.* If for any taxable year the net long-term capital gain of any corporation exceeds the net short-term capital loss, then, in lieu of the tax imposed by sections 11, 511, 821 (a) (1) or (b), and 831 (a), there is hereby imposed a tax (if such tax is less than the

tax imposed by such sections) which shall consist of the sum of—

(1) A partial tax computed on the taxable income reduced by the amount of such excess, at the rates and in the manner as if this subsection had not been enacted, and

(2) An amount equal to 25 percent of such excess, or, in the case of a taxable year beginning before April 1, 1954, an amount equal to 26 percent of such excess.

In the case of a taxable year beginning before April 1, 1954, the amount under paragraph (2) shall be determined without regard to section 21 (relating to effect of change of tax rates).

(b) *Other taxpayers.* If for any taxable year the net long-term capital gain of any taxpayer (other than a corporation) exceeds the net short-term capital loss, then, in lieu of the tax imposed by sections 1 and 511, there is hereby imposed a tax (if such tax is less than the tax imposed by such sections) which shall consist of the sum of—

(1) A partial tax computed on the taxable income reduced by an amount equal to 50 percent of such excess, at the rate and in the manner as if this subsection had not been enacted, and

(2) An amount equal to 25 percent of the excess of the net long-term capital gain over the net short-term capital loss.

§ 1.1201–1 *Alternative tax.*—(a) *Corporations.* In case the net long-term capital gain of any corporation exceeds the net short-term capital loss, section 1201 (a) imposes an alternative tax in lieu of the tax imposed by sections 11, 511, 821 (a) (1) or (b), and 831 (a), if and only if such alternative tax is less than the tax imposed by such sections. The alternative tax is not in lieu of the personal holding company tax imposed by section 541, or of any other tax not specifically set forth in section 1201 (a). The alternative tax is the sum of (1) a partial tax computed at the rates provided by sections 11, 511, 821 (a) (1) or (b), and 831 (a) on the taxable income of the taxpayer decreased by the amount of the excess of the net long-term capital gain over the net short-term capital loss, and (2) an amount equal to 25 percent of such excess or, in the case of a taxable year beginning before April 1, 1954, an amount equal to 26 percent of such excess. In the computation of the partial tax the special deductions provided for in sections 243, 244, 245, 247, 922, and 941 shall be determined with reference to the taxable income, which for the purpose of computing the tax due without regard to section 1201, is determined under sections 246, 247, 922, and 941, reduced by the excess of net long-term capital gain over net short-term capital loss.

(b) *Other taxpayers.* In case the net long-term capital gain of a taxpayer (other than a corporation) exceeds the net short-term capital loss, section 1201 (b) imposes an alternative tax in lieu of the tax imposed by sections 1 and 511, if and only if such alternative tax is less than the tax imposed by sections 1 and 511. The alternative tax is not in lieu of any other tax not specifically set forth in section 1201 (b). The alternative tax is the sum of—

(1) A partial tax, computed at the rates provided by sections 1 and 511 on the taxable income reduced by an amount equal to 50 percent of the excess of the net long-term capital gain over the net short-term capital loss, plus

(2) 25 percent of the excess of the net long-term capital gain over the net short-term capital loss.

See § 1.1–3 for rule relating to the computation of the limitation on tax under section 1 (c) in cases where the alternative tax is imposed. See § 1.34–2 (a) for rule relating to the computation of the dividend received credit under section 34 and § 1.35–1 (a) for rule relating to the computation of credit for partially tax-exempt interest under section 35 in cases where the alternative tax is imposed.

(c) *Tax-exempt trusts and organizations.* In applying section 1201 in the case of tax-exempt trusts or organizations subject to the tax imposed by section 511, the only amount which is taken into account as capital gain or loss is that which is taken into account in computing unrelated business taxable income under section 512. Under section 512, the only amount taken into account as capital gain or loss is that resulting from the application of section 631 (a), relating to the election to treat the cutting of timber as a sale or exchange.

(d) *Joint returns.* In the case of a joint return, the excess of any net long-term capital gain over any net short-term capital loss is to be determined by combining the long-term capital gains and losses and the short-term capital gains and losses of the spouses.

(e) *Application of section.* The following example illustrates the application of the provisions of section 1201 and of this section in the case of an individual taxpayer:

Example. A, a single individual, has for the calendar year 1954 taxable income (exclusive of net capital gain) of $99,400. He realizes in 1954 a gain of $50,000 on the sale of a capital asset held for 19 months and sustains a loss of $20,000 on the sale of a capital asset held for five months. Since the alternative tax is less than the tax otherwise computed under section 1, the tax payable is the alternative tax, that is $74,298. The tax is computed as follows:

Tax Under Section 1

Taxable income exclusive of net capital gain	$99,400
Net long-term capital gain (100 percent of $50,000)	$50,000
Net short-term capital loss (100 percent or $20,000)	20,000
Excess of net long-term capital gain over the net short-term capital loss	30,000
	129,400
Deduction of 50 percent of excess of net long-term capital gain over the net short-term capital loss (section 1202)	15,000
	114,400

Taxable Income

Tax under section 1	$80,136

Alternative Tax Under Section 1201 (b)

Taxable income	$114,400
Less 50 percent of excess of net long-term capital gain over net short-term capital loss (section 1201 (b) (1))	15,000
Taxable income less net capital gain	$99,400
Partial tax (tax on $99,400)	66,798
Plus 25 percent of $30,000	7,500
Alternative tax under section 1201 (b)	74,298

§ 1.1202 *Statutory provisions; deduction for capital gains.*

SEC. 1202. *Deduction for capital gains.* In the case of a taxpayer other than a corporation, if for any taxable year the net long-term capital gain exceeds the net short-term capital loss, 50 percent of the amount of such excess shall be a deduction from gross income. In the case of an estate or trust, the deduction shall be computed by excluding the portion (if any), of the gains from the taxable year from sales or exchanges of capital assets, which, under sections 652 and 662 (relating to inclusions of amounts in gross income of beneficiaries of trusts), is includible by the income beneficiaries as gain derived from the sale or exchange of capital assets.

§ 1.1202–1 *Deduction for capital gains.* (a) In computing gross income, adjusted gross income, taxable income, net capital gain, and net capital loss, 100 percent of any gain or loss (computed under section 1001, recognized under section 1002, and taken into account without regard to sections 1201–1241, inclusive,) upon the sale or exchange of a capital asset shall be taken into account regardless of the period for which the capital asset has been held. Nevertheless, the net short-term capital gain or loss and the net long-term capital gain or loss must be separately computed. In computing the adjusted gross income or the taxable income of a taxpayer other than a corporation, if for any taxable year the net long-term capital gain exceeds the net short-term capital loss, 50 percent of the amount of the excess is allowable as a deduction from gross income under section 1202.

(b) For the purpose of computing the deduction allowable under section 1202 in the case of an estate or trust, any long-term or short-term capital gains which, under sections 652 and 662, are includible in the gross income of its income beneficiaries as gains derived from the sale or exchange of capital assets must be excluded in determining whether, for the taxable year of the estate or trust, its net long-term capital gain exceeds its net short-term capital loss. To determine the extent to which such gains are includible in the gross income of a beneficiary, see the regulations under sections 652 and 662. For example, during 1954 a trust realized a gain of $1,000 upon the sale of stock held for 10 months. Under the terms of the trust instrument all of such gain must be distributed during the taxable year to A, the sole income beneficiary. Assuming that under section 652 or 662 A must include all of such gain in his gross income, the trust is not entitled to any deduction with respect to such gain under section 1202. Assuming A had no other capital gains or losses for 1954, he would be entitled to a deduction of $500 under section 1202. For purposes of this section, an income beneficiary shall be any beneficiary to whom an amount is required

to be distributed, or is paid or credited, which is includible in his gross income.

(c) The provisions of this section may be illustrated by the following example:

Example. A, an individual, had the following transactions in 1954:

Long-term capital gain	$6,000	
Long-term capital loss	4,000	
Net long-term capital gain		$2,000
Short-term capital loss	1,800	
Short-term capital gain	300	
Net short-term capital loss		1,500
Excess of net long-term capital gain over net short-term capital loss		500

Since the net long-term capital gain exceeds the net short-term capital loss by $500, 50 percent of the excess, or $250, is allowable as a deduction under section 1202.

TREATMENT OF CAPITAL LOSSES

§ 1.1211 *Statutory provisions; limitation on capital losses.*

SEC. 1211. *Limitation on capital losses.*—(a) *Corporations.* In the case of a corporation, losses from sales or exchanges of capital assets shall be allowed only to the extent of gains from such sales or exchanges.

(b) *Other taxpayers.* In the case of a taxpayer other than a corporation, losses from sales or exchanges of capital assets shall be allowed only to the extent of the gains from such sales or exchanges, plus the taxable income of the taxpayer or $1,000, whichever is smaller. For purposes of this subsection, taxable income shall be computed without regard to gains or losses from sales or exchanges of capital assets and without regard to the deductions provided in section 151 (relating to personal exemptions) or any deduction in lieu thereof. If the taxpayer elects to pay the optional tax imposed by section 3, "taxable income" as used in this subsection shall be read as "adjusted gross income".

§ 1.1211–1 *Limitation on capital losses.* (a) Section 1211 (a) provides that, in the case of a corporation, losses from sales or exchanges of capital assets shall be allowed as deductions only to the extent of the gains from such sales or exchanges, and section 1211 (b) provides that, in the case of a taxpayer other than a corporation, losses from sales or exchanges of capital assets shall be allowed as a deduction only to the extent of the gains from such sales or exchanges, plus the taxable income of the taxpayer or $1,000, whichever is smaller. For purposes of section 1211 (b), taxable income is to be computed without regard to gains or losses from sales or exchanges of capital assets and without regard to the deductions provided in section 151 (relating to personal exemptions) or any deduction in lieu thereof. For example, the deductions available to estates and trusts under section 642 (b) are in lieu of the deductions allowed under section 151, and, in the case of estates and trusts, are to be added back to taxable income for the purposes of section 1211 (b).

(b) The provisions of section 1211 (b) may be illustrated by the following examples:

Example (1). A, an individual with one exemption allowable as a deduction under section 151, has the following transactions in 1954:

Taxable income exclusive of capital gains and losses		$4,400
Deductions provided in section 151		600
Taxable income for purposes of section 1211 (b)		5,000
Long-term capital gain	$1,000	
Long-term capital loss	5,300	
Net long-term capital loss	4,300	
Amount deductible under section 1211 (b)		1,000

Example (2). B, an individual with one exemption allowable as a deduction under section 151, has the following transactions in 1954:

Taxable income exclusive of capital gains and losses	$90
Deductions provided in section 151	600
Taxable income for purposes of section 1211 (b)	690
Long-term capital gain	$1,000
Long-term capital loss	5,200
Net long-term capital loss	4,200
Amount deductible under section 1211 (b)	690

In example (1), the net long-term capital loss of $4,300 is allowable in 1954 only to the extent of $1,000 since the latter amount is smaller than the taxable income of $5,000. The remaining $3,300 of the net long-term capital loss becomes a net capital loss to be carried over to succeeding years. In example (2), since taxable income for purposes of section 1211 (b) is $690 and since that amount is smaller than the $4,200 net long-term capital loss and is less than $1,000, only $690 of the net long-term capital loss of $4,200 is allowable in 1954, leaving a net capital loss of $3,510 to be carried over. For carryover of a net capital loss, see § 1.1212–1.

(c) See section 582 (c) for modification of the limitation under section 1211 (a) in the case of a bank, as defined in section 581.

(d) In the case of a joint return, the limitation under section 1211 (b), relating to the allowance of losses from sales or exchanges of capital assets, is to be computed and the net capital loss determined with respect to the combined taxable income and the combined gains and losses of the spouses.

(e) In case the tax is computed under section 3 (relating to optional tax if adjusted gross income is less than $5,000) the term "taxable income" as used in section 1211 (b) shall be read as "adjusted gross income".

§ 1.1212 *Statutory provisions; capital loss carryover.*

SEC. 1212. *Capital loss carryover.* If for any taxable year the taxpayer has a net capital loss, the amount thereof shall be a short-term capital loss in each of the 5 succeeding taxable years to the extent that such amount exceeds the total of any net capital gains of any taxable years intervening between the taxable year in which the net capital loss arose and such succeeding taxable year. For purposes of this section, a net capital gain shall be computed without regard to such net capital loss or to any net capital losses arising in any such intervening taxable years, and a net capital loss for a taxable year beginning before October 20, 1951, shall be determined under the applicable law relating to the computation of capital gains and losses in effect before such date.

§ 1.1212–1 *Net capital loss carryover.* (a) Any taxpayer sustaining a net capital loss may, under section 1212, carry over such loss to each of the five succeeding taxable years and treat it in each of such five succeeding taxable years as a short-term capital loss to the extent not allowed as a deduction against any net capital gains of any taxable years intervening between the taxable year in which the net capital loss was sustained and the taxable year to which carried. The carryover is thus applied in each succeeding taxable year to offset any net capital gain in such succeeding taxable year. The amount of the net capital loss carryover may not be included in computing a new net capital loss of a taxable year which can be carried forward to the next five succeeding taxable years. Under section 1212, a net capital loss for a taxable year beginning before October 20, 1951, is to be determined under the applicable law relating to the computation of capital gains and losses in effect before such date. Thus, where the applicable law for a taxable year beginning before October 20, 1951, provided that only certain percentages of the gain or loss recognized upon the sale or exchange of a capital asset should be taken into account in computing net capital loss, such percentages are to be taken into account in computing net capital loss for any such taxable year under section 1212. In the case of nonresident alien individuals not engaged in trade or business within the United States, see section 871 and the regulations thereunder for special rules on capital loss carryovers.

(b) The practical operation of the provisions of section 1212 may be illustrated by the following example:

Example. (1) For the taxable years 1952 to 1956, inclusive, an individual with one exemption allowable under section 151 (or corresponding provision of prior law) is assumed to have a net short-term capital loss, net short-term capital gain, net long-term capital loss, net long-term capital gain, and taxable income (net income for 1952 and 1953) as follows:

	1952	1953	1954	1955	1956
Carryover from prior years:					
From 1952		($50,000)	($29,500)	($29,500)	
From 1954				(19,500)	($13,000)
Net short-term loss (computed without regard to the carryovers)	($30,000)	(5,000)	(10,000)		
Net short-term gain (computed without regard to the carryovers)				40,000	
Net long-term loss	(20,500)		(10,000)	(5,000)	
Net long-term gain		25,000			15,000
Net income or taxable income, computed without regard to capital gains and losses, and, after 1953, without regard to the deduction provided by section 151	500	500	500	1,000	500
Net capital gain (computed without regard to the carryovers)		20,500		36,000	
Net capital loss	(50,000)		(19,500)		
Deduction allowable under section 1202			None	None	1,000
Taxable income (after deductions allowable under sections 151 and 1202)			None	None	900

(2) *Net capital loss of 1952.* The net capital loss is $50,000. This figure is the excess of the losses from sales or exchanges of capital assets over the sum of (i) gains (in this case, none) from such sales or such exchanges, and (ii) net income (computed without regard to capital gains and losses) of $500. This amount may be carried forward in full as a short-term loss to 1953. However, in 1953 there was a net capital gain of $20,500, as defined by section 117 (a) (10) (B) of the Internal Revenue Code of 1939, and limited by section 117 (e) (1) of the 1939 Code, against which this net capital loss of $50,000 is allowed in part. The remaining portion—$29,500—may be carried forward to 1954 and 1955 since there was no net capital gain in 1954. In 1955 this $29,500 is allowed in full against net capital gain of $36,000, as defined by section 1222 (9) (B) and limited by section 1212.

(3) *Net capital loss of 1954.* The net capital loss is $19,500. This figure is the excess of the losses from sales or exchanges of capital assets over the sum of (i) gains (in this case, none) from such sales or exchanges and (ii) taxable income (computed without regard to capital gains and losses and the deductions provided in section 151) of $500. This amount may be carried forward in full as a short-term loss to 1955. The net capital gain in 1955, before deduction of any carryovers, is $36,000. The $29,500 balance of the 1953 loss is first applied against the $36,000, leaving a balance of $6,500. Against this amount the $19,500 loss arising in 1954 is applied, leaving a loss of $13,000, which may be carried forward to 1956. Since this amount is treated as a short-term capital loss in 1956 under section 1212, the excess of the net long-term capital gain over the net short-term capital loss is $2,000 ($15,000 minus $13,000). Half of this excess is allowable as a deduction under section 1202. Thus, after also deducting the exemption allowed as a deduction under section 151 ($600) the taxpayer has a taxable income of $900 for 1956.

(c) The following rules shall be applied in computing net capital loss carryovers by husband and wife: If a husband and wife making a joint return for any taxable year made separate returns for the preceding year, any net capital loss carryover of each spouse from such preceding taxable year may be carried forward to the taxable year as a short-term capital loss to the extent provided by section 1212. If a joint return was made for the preceding taxable year, any net capital loss carryover from such preceding taxable year may be carried forward to the taxable year as a short-term capital loss to the extent provided by section 1212. If a husband and wife making separate returns for any taxable year made a joint return for the preceding taxable year, any net capital loss carryover from such preceding taxable year shall be allocated to the spouses on the basis of their individual net capital losses which gave rise to such net capital loss carryover, and the net capital loss carryover so allocated to each spouse may be carried forward by such spouse to the taxable year as a short-term capital loss to the extent provided in section 1212. If, however, separate returns were also made for the preceding taxable year, any net capital loss carryover of each spouse from such preceding taxable year may be carried forward by such spouse to the taxable year as a short-term capital loss to the extent provided in section 1212. Thus, if H and W, husband and wife, make a joint return for 1955, having made separate returns for 1954 in which H had a net capital loss of $3,000 and W had a net capital loss of $2,000, in their joint return for 1955 they would have a short-term capital loss of $5,000 (the sum of their separate net capital loss carryovers from 1954), allowable to the extent provided by section 1212. If, on the other hand, they make separate returns in 1955 following a joint return in 1954 in which their net capital loss was $5,000 allocable $3,000 to H and $2,000 to W, the carryover of H as a short-term capital loss for the purpose of his 1955 separate return would be $3,000 and that of W for her separate return would be $2,000, each allowable to the extent provided by section 1212.

GENERAL RULES FOR DETERMINING CAPITAL GAINS AND LOSSES

§ 1.1221 *Statutory provisions; capital asset defined.*

SEC. 1221. *Capital asset defined.* For purposes of this subtitle, the term "capital asset" means property held by the taxpayer (whether or not connected with his trade or business), but does not include—

(1) Stock in trade of the taxpayer or other property of a kind which would properly be included in the inventory of the taxpayer if on hand at the close of the taxable year, or property held by the taxpayer primarily for sale to customers in the ordinary course of his trade or business;

(2) Property, used in his trade or business, of a character which is subject to the allowance for depreciation provided in section 167, or real property used in his trade or business;

(3) A copyright, a literary, musical, or artistic composition, or similar property, held by—

(A) A taxpayer whose personal efforts created such property, or

(B) A taxpayer in whose hands the basis of such property is determined, for the purpose of determining gain from a sale or exchange, in whole or in part by reference to the basis of such property in the hands of the person whose personal efforts created such property;

(4) Accounts or notes receivable acquired in the ordinary course of trade or business for services rendered or from the sale of property described in paragraph (1); or

(5) An obligation of the United States or any of its possessions, or of a State or Territory, or any political subdivision thereof, or of the District of Columbia, issued on or after March 1, 1941, on a discount basis and payable without interest at a fixed maturity date not exceeding one year from the date of issue.

§ 1.1221–1 *Meaning of terms.* (a) The term "capital assets" includes all classes of property not specifically excluded by section 1221. In determining whether property is a "capital asset", the period for which held is immaterial.

(b) The exclusion from the term "capital assets" of property used in the trade or business of a taxpayer of a character which is subject to the allowance for depreciation provided in section 167 and of real property used in the trade or business of a taxpayer is limited to such property used by the taxpayer in the trade or business at the time of the sale, exchange, or involuntary conversion. Gains and losses from the sale or exchange of such property are not treated as gains and losses from the sale or exchange of capital assets, except to the extent provided in section 1231. See § 1.1231–1. Property held for the production of income, but not used in a trade or business of the taxpayer, is not excluded from the term "capital assets" even though depreciation may have been allowed with respect to such property under section 23 (l) of the Internal Revenue Code of 1939 before its amendment by section 121 (c) of the Revenue Act of 1942. However, gain or loss upon the sale or exchange of land held by a taxpayer primarily for sale to customers in the ordinary course of his business, as in the case of a dealer in real estate, is not subject to the provisions of sections 1201–1241, inclusive.

(c) A copyright, a literary, musical, or artistic composition, and similar property are excluded from the term "capital assets" if held by a taxpayer whose personal efforts created such property, or if held by a taxpayer in whose hands the basis of such property is determined, for the purpose of determining gain from a sale or exchange, in whole or in part by reference to the basis of such property in the hands of the person whose personal efforts created such property. As to the application of section 1231 to the sale or exchange of such property held by such a taxpayer, see § 1.1231–1. For purposes of section 1221 (3), the phrase "similar property" includes, for example, such property as a theatrical production, a radio program, a newspaper cartoon strip, or any other property eligible for copyright protection (whether under statute or common law), but does not include a patent or an invention, or a design which may be protected only under the patent law and not under the copyright law.

(d) Section 1221 (4) excludes from the definition of "capital asset" accounts or notes receivable acquired in the ordinary course of trade or business for services rendered or from the sale of stock in trade or inventory or property held for sale to customers in the ordinary course of trade or business. Thus, if a taxpayer acquires a note receivable for services rendered, reports the fair market value of the note as income, and later sells the note for less than the amount previously reported, the loss is an ordinary loss. On the other hand, if the taxpayer later sells the note for more than the amount originally reported, the excess is treated as ordinary income.

(e) Obligations of the United States or any of its possessions, or of a State or Territory, or any political subdivision thereof, or of the District of Columbia, issued on or after March 1, 1941, on a discount basis and payable without interest at a fixed maturity date not exceeding one year from the date of issue, are excluded from the term "capital assets." An obligation may be issued on a discount basis even though the price paid exceeds the face amount. Thus, although the Second Liberty Bond Act (31 U. S. C. 754) provides that United States Treasury bills shall be issued on a discount basis, the issuing price paid for a particular bill may, by reason of competitive bidding, actually exceed the face amount of the bill. Since the obligations of the type described in this paragraph

are excluded from the term "capital assets", gains or losses from the sale or exchange of such obligations are not subject to the limitations provided in sections 1201–1241, inclusive. It is, therefore, not necessary for a taxpayer, other than a life insurance company subject to taxation only on interest, dividends, and rents, to segregate the original discount accrued (see section 454 (b)) and the gain or loss realized upon the sale or other disposition of any such obligation.

Example (1). A (not a life insurance company) buys a $100,000, 90-day Treasury bill upon issuance for $99,998. As of the close of the forty-fifth day of the life of such bill, he sells it to B (not a life insurance company) for $99,999.50. The entire net gain to A of $1.50 may be taken into account as a single item of income, without allocating $1 to interest and $0.50 to gain. If B holds the bill until maturity his net gain of $0.50 may similarly be taken into account as a single item of income, without allocating $1 to interest and $0.50 to loss.

Example (2). The facts in this example are the same as in example (1) except that the selling price to B is $99,998.50. The net gain to A of $0.50 may be taken into account without allocating $1 to interest and $0.50 to loss, and, similarly, if B holds the bill until maturity his entire net gain of $1.50 may be taken into account as a single item of income without allocating $1 to interest and $0.50 to gain.

§ 1.1222 *Statutory provisions; other terms relating to capital gains and losses.*

SEC. 1222. *Other terms relating to capital gains and losses.* For purposes of this subtitle—

(1) *Short-term capital gain.* The term "short-term capital gain" means gain from the sale or exchange of a capital asset held for not more than 6 months, if and to the extent such gain is taken into account in computing gross income.

(2) *Short-term capital loss.* The term "short-term capital loss" means loss from the sale or exchange of a capital asset held for not more than 6 months, if and to the extent that such loss is taken into account in computing taxable income.

(3) *Long-term capital gain.* The term "long-term capital gain" means gain from the sale or exchange of a capital asset held for more than 6 months, if and to the extent such gain is taken into account in computing gross income.

(4) *Long-term capital loss.* The term "long-term capital loss" means loss from the sale or exchange of a capital asset held for more than 6 months, if and to the extent that such loss is taken into account in computing taxable income.

(5) *Net short-term capital gain.* The term "net short-term capital gain" means the excess of short-term capital gains for the taxable year over the short-term capital losses for such year.

(6) *Net short-term capital loss.* The term "net short-term capital loss" means the excess of short-term capital losses for the taxable year over the short-term capital gains for such year.

(7) *Net long-term capital gain.* The term "net long-term capital gain" means the excess of long-term capital gains for the taxable year over the long-term capital losses for such year.

(8) *Net long-term capital loss.* The term "net long-term capital loss" means the excess of long-term capital losses for the taxable year over the long-term capital gains for such year.

(9) *Net capital gain*—(A) *Corporations.* In the case of a corporation, the term "net capital gain" means the excess of the gains from sales or exchanges of capital assets over the losses from such sales or exchanges.

(B) *Other taxpayers.* In the case of a taxpayer other than a corporation, the term "net capital gain" means the excess of—

(i) The sum of the gains from sales or exchanges of capital assets, plus taxable income (computed without regard to the deductions provided by section 151, relating to personal exemptions or any deduction in lieu thereof) of the taxpayer or $1,000, whichever is smaller over

(ii) The losses from such sales or exchanges.

For purposes of this subparagraph, taxable income shall be computed without regard to gains or losses from sales or exchanges of capital assets. If the taxpayer elects to pay the optional tax under section 3, the term "taxable income" as used in this subparagraph shall be read as "adjusted gross income."

(10) *Net capital loss.* The term "net capital loss" means the excess of the losses from sales or exchanges of capital assets over the sum allowed under section 1211. For the purpose of determining losses under this paragraph, amounts which are short-term capital losses under section 1212 shall be excluded.

§ 1.1222–1 *Other terms relating to capital gains and losses.* (a) The phrase "short-term" applies to the category of gains and losses arising from the sale or exchange of capital assets held for six months or less; the phrase "long-term" to the category of gains and losses arising from the sale or exchange of capital assets held for more than six months. The fact that some part of a loss from the sale or exchange of a capital asset may be finally disallowed because of the operation of section 1211 does not mean that such loss is not "taken into account in computing taxable income" within the meaning of that phrase as used in sections 1222 (2) and 1222 (4).

(b) In the definition of "net short-term capital gain", as provided in section 1222 (5), the amounts brought forward to the taxable year under section 1212 are short-term capital losses for such taxable year.

(c) Gains and losses from the sale or exchange of capital assets held for not more than six months (described as short-term capital gains and short-term capital losses) shall be segregated from gains and losses arising from the sale or exchange of such assets held for more than six months (described as long-term capital gains and long-term capital losses).

(d) In the case of a corporation, the term "net capital gain" means the excess of the gains from sales or exchanges of capital assets over the losses from such sales or exchanges, which losses include any amounts brought forward pursuant to section 1212. In the case of a taxpayer other than a corporation, the term "net capital gain" means the excess of (1) the sum of the gains from sales or exchanges of capital assets, plus taxable income (computed without regard to gains and losses from sales or exchanges of capital assets and without regard to the deductions provided by section 151, relating to personal exemptions, or any deductions in lieu thereof) of the taxpayer or $1,000, whichever is smaller, over (2) the losses from such sales or exchanges, which losses include amounts brought forward under section 1212. Thus, in the case of estates and trusts, taxable income for the purposes of section 1222 (9) (B) (i) shall be computed without regard to gains and losses from sales or exchanges of capital assets and without regard to the deductions allowed by section 642 (b) to estates and trusts in lieu of personal exemptions. In the case of a taxpayer whose tax liability is computed under section 3, the term "taxable income", for purposes of this paragraph, shall be read as "adjusted gross income." For application of the term "net capital gain," in computing the capital loss carryover under section 1212, see § 1.1212–1 (b).

(e) The term "net capital loss" means the excess of the losses from sales or exchanges of capital assets over the sum allowed under section 1211. However, amounts which are short-term capital losses under section 1212 are excluded in determining such "net capital loss".

(f) See section 165 (g) and section 166 (e), under which losses from worthless stocks, bonds, and other securities (if they constitute capital assets) are required to be treated as losses under sections 1201–1241 from the sale or exchange of capital assets, even though such securities are not actually sold or exchanged. See also section 1231 and § 1.1231–1 for the determination of whether or not gains and losses from the involuntary conversion of capital assets and from the sale, exchange, or involuntary conversion of certain property used in the trade or business shall be treated as gains and losses from the sale or exchange of capital assets. See also section 1236 and § 1.1236–1 for the determination of whether or not gains from the sale or exchange of securities by a dealer in securities shall be treated as capital gains, or whether losses from such sales or exchanges shall be treated as ordinary losses.

(g) In the case of nonresident alien individuals not engaged in trade or business within the United States, see section 871 and the regulations thereunder for the determination of the net amount of capital gains subject to tax.

§ 1.1223 *Statutory provisions; holding period of property.*

SEC. 1223. *Holding period of property.* For purposes of this subtitle—

(1) In determining the period for which the taxpayer has held property received in an exchange, there shall be included the period for which he held the property exchanged if, under this chapter, the property has, for the purpose of determining gain or loss from a sale or exchange, the same basis in whole or in part in his hands as the property exchanged, and, in the case of such exchanges after March 1, 1954, the property exchanged at the time of such exchange was a capital asset as defined in section 1221 or property described in section 1231. For purposes of this paragraph—

(A) An involuntary conversion described in section 1033 shall be considered an exchange of the property converted for the property acquired, and

(B) A distribution to which section 355 (or so much of section 356 as relates to section 355) applies shall be treated as an exchange.

(2) In determining the period for which the taxpayer has held property however ac-

quired there shall be included the period for which such property was held by any other person, if under this chapter such property has, for the purpose of determining gain or loss from a sale or exchange, the same basis in whole or in part in his hands as it would have in the hands of such other person.

(3) In determining the period for which the taxpayer has held stock or securities received upon a distribution where no gain was recognized to the distributee under section 1081 (c) (or under section 112 (g) of the Revenue Act of 1928, 45 Stat. 818, or the Revenue Act of 1932, 48 Stat. 705), there shall be included the period for which he held the stock or securities in the distributing corporation before the receipt of the stock or securities on such distribution.

(4) In determining the period for which the taxpayer has held stock or securities the acquisition of which (or the contract or option to acquire which) resulted in the nondeductibility (under section 1091 relating to wash sales) of the loss from the sale or other disposition of substantially identical stock or securities, there shall be included the period for which he held the stock or securities the loss from the sale or other disposition of which was not deductible.

(5) In determining the period for which the taxpayer has held stock or rights to acquire stock received on a distribution, if the basis of such stock or rights is determined under section 307 (or under so much of section 1052 (c) as refers to section 113 (a) (23) of the Internal Revenue Code of 1939), there shall (under regulations prescribed by the Secretary or his delegate) be included the period for which he held the stock in the distributing corporation before the receipt of such stock or rights upon such distribution.

(6) In determining the period for which the taxpayer has held stock or securities acquired from a corporation by the exercise of rights to acquire such stock or securities, there shall be included only the period beginning with the date on which the right to acquire was exercised.

(7) In determining the period for which the taxpayer has held a residence, the acquisition of which resulted under section 1034 in the nonrecognition of any part of the gain realized on the sale or exchange of another residence, there shall be included the period for which such other residence had been held as of the date of such sale or exchange. For purposes of this paragraph, the term "sale or exchange" includes an involuntary conversion occurring after December 31, 1950, and before January 1, 1954.

(8) In determining the period for which the taxpayer has held a commodity acquired in satisfaction of a commodity futures contract there shall be included the period for which he held the commodity futures contract if such commodity futures contract was a capital asset in his hands.

(9) Any reference in this section to a provision of this title shall, where applicable, be deemed a reference to the corresponding provision of the Internal Revenue Code of 1939, or prior internal revenue laws.

(10) *Cross reference.* For special holding period provision relating to certain partnership distributions, see section 735 (b).

§ 1.1223–1 *Determination of period for which capital assets are held.* (a) The holding period of property received in an exchange by a taxpayer includes the period for which the property which he exchanged was held by him, if the property received has the same basis in whole or in part for determining gain or loss in the hands of the taxpayer as the property exchanged. However, this rule shall apply, in the case of exchanges after March 1, 1954, only if the property exchanged was at the time of the exchange a capital asset in the hands of the taxpayer or property used in his trade or business as defined in section 1231 (b). For the purposes of this paragraph the term "exchange" includes the following transactions: (1) An involuntary conversion described in section 1033, and (2) a distribution to which section 355 (or so much of section 356 as relates to section 355) applies. Thus, if property acquired as the result of a compulsory or involuntary conversion of other property of the taxpayer has under section 1033 (c) the same basis in whole or in part in the hands of the taxpayer as the property so converted, its acquisition is treated as an exchange and the holding period of the newly acquired property shall include the period during which the converted property was held by the taxpayer. Thus, also, where stock of a controlled corporation is received by a taxpayer pursuant to a distribution to which section 355 (or so much of section 356 as relates to section 355) applies, the distribution is treated as an exchange and the period for which the taxpayer has held the stock of the controlled corporation shall include the period for which he held the stock of the distributing corporation with respect to which such distribution was made.

(b) The holding period of property in the hands of a taxpayer shall include the period during which the property was held by any other person, if such property has the same basis in whole or in part in the hands of the taxpayer for determining gain or loss from a sale or exchange as it would have in the hands of such other person. For example, the period for which property acquired by gift after December 31, 1920, was held by the donor must be included in determining the period for which the property was held by the taxpayer if, under the provisions of section 1015, such property has, for the purpose of determining gain or loss from the sale or exchange, the same basis in the hands of the taxpayer as it would have in the hands of the donor.

(c) In determining the period for which the taxpayer has held stock or securities received upon a distribution where no gain was recognized to the distributee under section 1081 (c) (or under section 112 (g) of the Revenue Act of 1928, 45 Stat. 818, or the Revenue Act of 1932, 48 Stat. 705), there shall be included the period for which he held the stock or securities in the distributing corporation before the receipt of the stock or securities on such distribution.

(d) If the acquisition of stock or securities resulted in the nondeductibility (under section 1091, relating to wash sales) of the loss from the sale or other disposition of substantially identical stock or securities, the holding period of the newly acquired securities shall include the period for which the taxpayer held the securities with respect to which the loss was not allowable.

(e) The period for which the taxpayer has held stock, or stock subscription rights, received on a distribution shall be determined as though the stock dividend, or stock right, as the case may be, were the stock in respect of which the dividend was issued if the basis for determining gain or loss upon the sale or other disposition of such stock dividend or stock right is determined under section 307. If the basis of stock received by a taxpayer pursuant to a spin-off is determined under so much of section 1052 (c) as refers to section 113 (a) (23) of the Internal Revenue Code of 1939, and such stock is sold or otherwise disposed of in a taxable year which is subject to the Internal Revenue Code of 1954, the period for which the taxpayer has held the stock received in such spin-off shall include the period for which he held the stock of the distributing corporation with respect to which such distribution was made.

(f) The period for which the taxpayer has held stock or securities issued to him by a corporation pursuant to the exercise by him of rights to acquire such stock or securities from the corporation will, in every case and whether or not the receipt of taxable gain was recognized in connection with the distribution of the rights, begin with and include the day upon which the rights to acquire such stock or securities were exercised. A taxpayer will be deemed to have exercised rights received from a corporation to acquire stock or securities therein where there is an expression of assent to the terms of such rights made by the taxpayer in the manner requested or authorized by the corporation.

(g) The period for which the taxpayer has held a residence, the acquisition of which resulted under the provisions of section 1034 in the nonrecognition of any part of the gain realized on the sale or exchange of another residence, shall include the period for which such other residence had been held as of the date of such sale or exchange. See § 1.1034–1. For purposes of this paragraph, the term "sale or exchange" includes an involuntary conversion occurring after December 31, 1950, and before January 1, 1954.

(h) If a taxpayer accepts delivery of a commodity in satisfaction of a commodity futures contract, the holding period of the commodity shall include the period for which the taxpayer held the commodity futures contract, if such futures contract was a capital asset in his hands.

(i) If shares of stock in a corporation are sold from lots purchased at different dates or at different prices and the identity of the lots cannot be determined, the stock sold shall be charged against the earliest purchases of such stock for the purpose of determining the holding period of the stock.

(j) Any reference in section 1223 or this section to another provision of the Internal Revenue Code of 1954 is, where applicable, to be deemed a reference to the corresponding provision of the Internal Revenue Code of 1939, or prior internal revenue laws. The provisions of prior internal revenue laws here intended are the sections referred to in the sections of the 1939 Code which correspond to the sections of the 1954 Code referred to in section 1223. Thus, the sections corresponding to section 1081 (c) are section 371 (c) of the Revenue Act of 1938 and section 371 (c) of the 1939 Code. The sections corresponding to section 1091 are section 118 of each of the following: The Revenue Acts of 1928, 1932, 1934, 1936, and 1938, and the 1939 Code.

DEPARTMENT OF AGRICULTURE

Agricultural Marketing Service

[7 CFR Part 53]

OFFICIAL UNITED STATES STANDARDS FOR GRADES OF CARCASS BEEF (STEER, HEIFER AND COW)

NOTICE OF PROPOSED RULE MAKING

Notice is hereby given in accordance with Section 4 of the Administrative Procedure Act (5 U. S. C. 1003) that the Department of Agriculture, under the provisions of Sections 203 and 205 of the Agricultural Marketing Act of 1946 (7 U. S. C. 1622 and 1624) and the general language in the item for the Agricultural Marketing Service contained in the Department of Agriculture and Farm Credit Administration Appropriation Act, 1956 (69 Stat. 56–57), is considering amending the official United States standards for grades of carcass beef (steer, heifer and cow) (7 CFR 53.103, 53.104 (d)) by dividing the Commercial grade into two new grades designated as Standard and Commercial grades.

1. Section 53.103 would be amended to read as follows:

§ 53.103 *Standard grades for carcass beef.* There are eight grades for beef from steers and heifers, seven grades for beef from cows, and six grades of beef from bulls and stags. These are listed in the following schedule of grades.

SCHEDULE—STANDARD MARKET CLASSES AND GRADES FOR DRESSED BEEF

Class	Grade	Class	Grade
Steer, heifer, and cow.[1]	Prime. Choice. Good. Standard. Commercial. Utility. Cutter. Canner.	Bull and stag.	Choice. Good. Commercial. Utility. Cutter. Canner.

[1] Cow beef is not eligible for Prime grade.

2. In § 53.104, paragraphs (d), (e), (f), and (g) would be redesignated (e), (f), (g), and (h), respectively.

3. A new paragraph (d) would be inserted in § 53.104 and redesignated paragraph (e) of § 53.104 would be amended, as follows:

(d) *Standard.* (1) Standard grade beef carcasses and wholesale cuts are rangy, angular and slightly thin fleshed throughout. Loins and ribs tend to be flat and are slightly thin fleshed. The rounds are moderately flat and tapering. Chucks are slightly flat and thinly fleshed. The fat covering of beef within this grade will vary slightly depending on the evidences of maturity of the cattle from which it was produced. Carcasses whose chine bones are soft and red and which terminate in soft pearly white cartilages have only a thin covering of external fat over the loins and ribs, practically no protrusion of fat between the chine bones, and very scanty quantities of overflow fat and feathering. Carcasses whose chine bones are tinged with white and which terminate in cartilages in which some ossification is evident will have a slightly thin covering of fat over the loins and ribs which partially covers the outsides of the rounds and chucks. In such beef there is a very slight protrusion of fat between the chine bones and a small amount of overflow fat and feathering. The fat is moderately soft. Characteristics of the cut surface of the rib eye muscle will also vary depending on the evidences of maturity attained by the animal from which it was produced. In carcasses whose chine bones are soft and red and which terminate in soft, pearly white cartilages, the rib eye muscle is somewhat soft and watery but fine in texture and will be practically devoid of marbling. In carcasses whose chine bones are tinged with white and which terminate in cartilages in which some ossification is evident, the rib eye muscle is moderately soft and moderately fine in texture and has a slight amount of marbling. The lean will usually vary from a light red to a slightly dark red in color but may be slightly two-toned or shady.

(2) Carcasses showing evidence of maximum maturity permitted in the Standard grade may have chine bones tinged with white and the cartilages on the end of the chine bones may be moderately ossified. Carcasses must also be at least moderately symmetrical and uniform in contour and the rib eye muscle must be at least moderately fine in texture.

(3) Young, red-boned, light weight, carcasses with conformation equivalent to at least the midpoint of the grade as defined above may be devoid of marbling and qualify for the Standard grade. However, carcasses which show similar evidences of maturity but which have conformation equivalent to the upper third of the Utility grade are practically devoid of marbling. Carcasses near the maximum limit for maturity with conformation equivalent to at least the midpoint of the grade as defined above may qualify for the Standard grade with traces of marbling; however, carcasses with similar evidences of maturity but which have conformation equivalent to the upper third of the Utility grade are required to have a slight amount of marbling.

(e) *Commercial.* (1) Commercial grade beef carcasses and wholesale cuts are restricted to those with evidences of more advanced maturity than permitted in the Good and Standard grades. Such carcasses are slightly thick fleshed but rather rough and irregular in contour. Rounds are slightly flat and tapering. Loins are moderately wide but slightly sunken and the hips are rather prominent. Ribs tend to be slightly thick and full. Chucks are slightly thin and plates and briskets are wide and "spready." The necks and shanks are slightly long and thin. The fatness of beef within this grade will be variable depending on the evidences of maturity attained by the animal from which it was produced. Carcasses which only slightly exceed the minimum maturity permitted will have a slightly thick covering of external fat, a small amount of fat protrusion between the chine bones and a moderate amount of overflow fat and feathering. Carcasses that have hard, white chine bones which terminate in nearly completely ossified cartilages will have a moderately thick exterior fat covering, a moderate protrusion of fat between the chine bones and moderately abundant overflow fat and feathering. In beef of this grade, particularly those more advanced in maturity, the external fat covering will be considerably thicker over the loins and ribs than over the rounds and chucks and may frequently be patchy or wasty. The fat is firm. In carcasses which only slightly exceed the minimum maturity permitted the cut surface of the rib eye muscle will be moderately firm and slightly coarse in texture and will have a moderate amount of marbling. In carcasses that have hard, white chine bones that terminate in nearly completely ossified cartilages the rib eye muscle will be firm but coarse in texture and the marbling will be moderately abundant but also rather coarse and prominent. The lean will usually vary from slightly dark red to dark red in color but may be two-toned or shady.

(2) Regardless of the extent to which other grade factors may exceed the minimum requirements for the grade, carcasses which only slightly exceed the minimum maturity permitted are required to have a small amount of marbling and carcasses whose chine bones are hard and white and which terminate in nearly completely ossified cartilages are required to have at least a moderate amount of marbling. Carcasses which only slightly exceed the minimum maturity permitted and which are slightly thin fleshed and rather rangy and angular may meet the minimum requirements for the grade provided they have a modest amount of marbling and carcasses with similar conformation which have hard, white chine bones that terminate in nearly completely ossified cartilages may meet the minimum requirements for the grade provided they have slightly abundant marbling.

(3) Carcasses whose conformation and evidences of quality only slightly exceed the minimum requirements for the grade are not eligible for the Commercial grade if they are excessively patchy or uneven in distribution of external fat.

Any person who wishes to submit written data, views, or arguments concerning the proposed amendment may do so by filing them with the Director of the Livestock Division, Agricultural Marketing Service, U. S. Department of Agriculture, Washington 25, D. C., within 60 days after publication of this notice in the FEDERAL REGISTER.

Done at Washington, D. C., this 8th day of November 1955.

[SEAL] FRANK E. BLOOD,
Acting Deputy Administrator,
Agricultural Marketing Service.

NOTICES

POST OFFICE DEPARTMENT

Bureau of Transportation

DISTRICT TRANSPORTATION MANAGERS

DELEGATION OF AUTHORITY

The following is the text of Order No. 00609 of the Assistant Postmaster General, Bureau of Transportation, dated October 26, 1955:

Pursuant to authority of section 1 (b) of Reorganization Plan No. 3 of 1949 (63 Stat. 1066), and Order of the Postmaster General No. 55778 dated November 24, 1954 (19 F. R. 8226), the authority vested in the Assistant Postmaster General, Bureau of Transportation, by Order No. 55064 dated March 5, 1953 (18 F. R. 8458), is redelegated to District Transportation Managers, to authorize the performance of such additional trips as may be necessary on star routes in the United States during the period from December 1 to 31, each year, contractors to be paid pro rata accordingly, in order to expedite the handling of Christmas mails.

(R. S. 161, 396; secs. 304, 309, 42 Stat. 24, 25, sec. 1 (b), 63 Stat. 1066; 5 U. S. C. 22, 133z–15, 369)

[SEAL] LEO G. KNOLL,
Acting Solicitor.

DEPARTMENT OF JUSTICE

Office of Alien Property

ASSUNTA DABOVE CARVO AND PAULO CARVO

NOTICE OF INTENTION TO RETURN VESTED PROPERTY

Pursuant to section 32 (f) of the Trading With the Enemy Act, as amended, notice is hereby given of intention to return, on or after 30 days from the date of publication hereof, the following property, subject to any increase or decrease resulting from the administration thereof prior to return, and after adequate provision for taxes and conservatory expenses:

Claimant, Claim No., Property, and Location

Assunta Dabove Carvo, aka Assunta Caterina Dabove Corvo, Savona, Italy, Claim No. 42296; and Paulo Carvo, aka Paulo Corvo, Savona, Italy, Claim No. 42297; Vesting Order No. 2207.

The following property to the claimants: $3,224.32 in the Treasury of the United States.

Two and thirty-five one-hundredths (2–35/100) shares Pacific Coast Aggregates, Inc., common stock, par value $5.00, evidenced by Certificates No. 2592 for 10/100 share; 2593, for 25/100 share; and 644 for 2 shares, presently in the custody of the Safekeeping Department of the Federal Reserve Bank of New York, New York, N. Y.

Passbook No. 725, Mercantile Building-Loan Association, 7 percent cumulative 7 percent certificate showing balance of $25.23, presently in the possession of the Office of Alien Property, Department of Justice, 101 Indiana Avenue NW., Washington 25, D. C.

Twelve (12) shares of Durant Motors, Inc., capital stock, no par value, evidenced by Certificates No. 0223153 for 4 shares and 0219895 for 8 shares, presently in the possession of the Office of Alien Property, Department of Justice, 101 Indiana Avenue NW., Washington 25, D. C.

Five (5) units Pickwick Airways, Inc., evidenced by Certificate No. 912, presently in the possession of the Office of Alien Property, Department of Justice, 101 Indiana Avenue NW., Washington 25, D. C.

1 man's yellow metal watch.
1 man's white metal watch with yellow metal chain attached.
1 man's white metal ring with white stone.
1 man's white metal watch.
1 broken white metal ring with small white stone.
1 yellow metal ring with initial.
1 man's white metal ring.
1 man's yellow metal ring.
Miscellaneous jewelry.

All of the above-mentioned pieces of jewelry are presently in the possession of the Office of Alien Property, Department of Justice, 101 Indiana Avenue NW., Washington 25, D. C.

Executed at Washington, D. C., on November 8, 1955.

For the Attorney General.

[SEAL] PAUL V. MYRON,
Deputy Director,
Office of Alien Property.

DEPARTMENT OF THE INTERIOR

Bureau of Land Management

MONTANA

NOTICE OF PROPOSED WITHDRAWAL AND RESERVATION OF LANDS

NOVEMBER 4, 1955.

The United States Forest Service, Department of Agriculture, has filed an application, Serial No. Montana 012788, for the withdrawal of the lands described below, from location under the general mining laws.

The applicant desires the land for administrative sites, public service sites, recreation areas, or for other public purposes as set forth specifically with regard to each area or description.

For a period of thirty days from the date of publication of this notice, persons having cause may present their objections in writing to the undersigned official of the Bureau of Land Management, Department of the Interior, 1245 North 29th Street, Billings, Montana.

If circumstances warrant it, a public hearing will be held at a convenient time and place, which will be announced.

The determination of the Secretary on the application will be published in the FEDERAL REGISTER. A separate notice will be sent to each interested party of record.

The lands involved in the application are:

MONTANA PRINCIPAL MERIDIAN

BEAVERHEAD NATIONAL FOREST

Vigilante Experimental Range:
T. 9 S., R. 2 W.,
Unsurveyed Sec. 31: E½;
Unsurveyed Sec. 32: All;
Unsurveyed Sec. 33: S½NW¼, SW¼, W½SE¼.
The area described contains 1,280 acres.
T. 9 S., R. 3 W.,
Sec. 34: E½SW¼, W½SE¼, SE¼SE¼;
Sec. 35: E½SW¼, SW¼SW¼, SE¼;
Sec. 36: W½SW¼, SE¼SW¼.
The area described contains 600 acres.
T. 10 S., R. 2 W.,
Unsurveyed Sec. 4: SW¼NE¼, W½;
Unsurveyed Sec. 5: All;
Unsurveyed Sec. 6: All;
Unsurveyed Sec. 7: All;
Unsurveyed Sec. 8: N½, SW¼, N½SE¼;
Unsurveyed Sec. 9: NW¼, NW¼SW¼.
The area described contains 3,040 acres.
T. 10 S., R. 3 W.,
Sec. 1: All;
Sec. 2: All;
Sec. 3: All;
Sec. 9: E½E½;
Sec. 10, 11, 12: All.
The area described contains 2,080 acres.
Cliff Lake Natural Area:
T. 12 S., R. 1 E.,
Sec. 26: All;
Sec. 27: E½, E½W½;
Sec. 23: All;
Sec. 24: All that portion lying west of Cliff Lake;
Sec. 25: All that portion lying west of Cliff Lake;
Sec. 34: N½NE¼, NE¼NW¼;
Sec. 35: N½NE¼NE¼, N½NW¼NE¼, SW¼NW¼NE¼, N½NW¼;
Sec. 36: All that portion which lies northwest of Cliff Lake.
The area described contains 2,230.59 acres.

BITTERROOT NATIONAL FOREST

Piquett Creek Experimental Forest:
T. 1 N., R. 21 W.,
Sec. 1: NW¼, W½SW¼;
Sec. 2: All;
Sec. 3: E½;
Sec. 9: E½;
Sec. 10: All;
Sec. 11: All;
Sec. 12: NW¼;

Sec. 16: NE¼, SE¼SE¼;
Sec. 22: NW¼NW¼;
Sec. 23: NE¼NW¼, NE¼;
Sec. 24: NW¼, NW¼NE¼.
The area described contains 5,080 acres.

CUSTER NATIONAL FOREST

Meyers Creek Administrative Site:
T. 4 S., R. 15 E.,
Sec. 7: SE¼SW¼, S½SE¼;
Sec. 18: NW¼NE¼, E½NE¼, NE¼NW¼.
The area described contains 280 acres.
Breakneck Administrative Site:
T. 5 S., R. 13 E.,
Unsurveyed Sec. 34: W½NW¼NE¼, E½NE¼NW¼.
The area described contains 40 acres.
Woodbine Administrative Site:
T. 5 S., R. 15 E.,
Sec. 32: SW¼NE¼, N½NW¼SE¼.
The area described contains 60 acres.
Wounded Man Administrative Site:
T. 6 S., R. 13 E.,
Unsurveyed Sec. 35: NW¼SE¼.
The area described contains 40 acres.
Rock Creek Administrative Site:
T. 8 S., R. 20 E.,
Sec. 6: E½.
The area described contains 320 acres.
Red Lodge Creek Administrative Site:
T. 7 S., R. 18 E.,
Unsurveyed Sec. 1: NE¼, E½NW¼.
The area described contains 240 acres.
Whitetail Administrative Site:
T. 2 S., R. 47 E.,
Sec. 19: SE¼SW¼, SE¼NE¼SW¼, SW¼NW¼SE¼, W½SW¼SE¼.
The area described contains 80 acres.

Liscom Creek Administrative Site:
T. 1 S., R. 46 E.,
Sec. 3: NW¼SE¼.
The area described contains 40 acres.
Three Mile Administrative Site:
T. 4 S., R. 47 E.,
Sec. 8: SW¼NE¼.
The area described contains 40 acres.
Fort Howes Administrative Site:
T. 6 S., R. 46 E.,
Sec. 19: Lots 1, 2, 3, 4.
T. 6 S., R. 45 E.,
Sec. 24: Lots 1, 4, 5, 6, 7, 8.
The area described contains 269.42 acres.
Tooley Creek Administrative Site:
T. 7 S., R. 45 E.,
Sec. 20: N½S½.
The area described contains 160 acres.
Cub Creek Administrative Site:
T. 7 S., R. 45 E.,
Sec. 14: NW¼SE¼SW¼, SE¼SE¼SW¼.
The area described contains 20 acres.
Needmore Administrative Site:
T. 1 N., R. 58 E.,
Sec. 23: SE¼NE¼, NE¼SE¼;
Sec. 24: E½SW¼, NW¼SW¼, SW¼NW¼.
The area described contains 240 acres.

PUBLIC USE AREAS (CAMP AND PICNIC)

Woodbine Camp:
T. 5 S., R. 15 E.,
Sec. 32: E½SW¼, SW¼NW¼SE¼, NW¼SW¼SE¼.
The area described contains 100 acres.
Sioux Charley Camp:
T. 6 S., R. 14 E.,

CIVIL AERONAUTICS BOARD

[Docket No. 6998]

COLONIAL AIRLINES, INC. AND EASTERN AIR LINES, INC.; ACQUISITION CASE

NOTICE OF ORAL ARGUMENT

In the matter of the application of Colonial Airlines, Inc., and Eastern Air Lines, Inc., under sections 408 and 412 of the Civil Aeronautics Act of 1938, as amended, for approval of an agreement of the acquisition of the assets of Colonial Airlines, Inc., by Eastern Air Lines, Inc.

Notice is hereby given, pursuant to the provisions of the Civil Aeronautics Act of 1938, as amended, that oral argument in the above-entitled proceeding is assigned to be held on November 28, 1955, 10:00 a. m., e. s. t., in Room 5042, Commerce Building, Constitution Avenue, between Fourteenth and Fifteenth Streets NW., Washington, D. C., before the Board.

Dated at Washington, D. C., November 8, 1955.

[SEAL] FRANCIS W. BROWN,
Chief Examiner.

[F. R. Doc. 55-9160; Filed, Nov. 14, 1955; 8:50 a. m.]

FEDERAL POWER COMMISSION

[Docket No. G-2460]

NORTHERN NATURAL GAS CO.

NOTICE OF SUPPLEMENTAL APPLICATION AND DATE OF FURTHER HEARING

NOVEMBER 4, 1955.

On September 12, 1955, Northern Natural Gas Company (Applicant) filed a supplement in Docket No. G-2460 to its application for an amended order filed on May 2, 1955, of which notice has heretofore been given and such notice was published in the FEDERAL REGISTER on May 21, 1955 (20 F. R. 3572), and on which a hearing was convened on July 13, 1955, and then recessed.

Applicant now requests a certificate of public convenience and necessity to construct certain facilities for the operation of the gas storage reservoir near Redfield, Iowa, at a cost of $2,438,500. The operation contemplates a storage project capable of delivering a maximum of 50,000 Mcf of gas per day with a maximum of 6,000,000 Mcf available for withdrawal, for meeting the needs of its existing customers and for service to new markets, all as more fully represented in the application which is on file with the Commission and open for public inspection.

Take further notice that, pursuant to the authority contained in and subject to the jurisdiction conferred upon the Federal Power Commission by sections 7 and 15 of the Natural Gas Act, and the Commission's rules of practice and procedure, a hearing will be held on November 28, 1955, at 10:00 a. m., e. s. t., in a hearing room of the Federal Power Commission, 441 G Street NW., Washington, D. C., concerning the matters involved in and the issues presented by the aforesaid application filed September 12, 1955.

Further protests or petitions to intervene may be filed with the Federal Power Commission, Washington 25, D. C., in accordance with the rules of practice and procedure (18 CFR 1.8 or 1.10) on or before the 25th day of November 1955.

[SEAL] J. H. GUTRIDE,
Acting Secretary.

[F. R. Doc. 55-9143; Filed, Nov. 14, 1955; 8:46 a. m.]

[Docket No. G-4417, etc.]

FRANK W. MICHAUX ET AL.

NOTICE OF SEVERANCE OF PROCEEDINGS AND DATE OF HEARING

NOVEMBER 4, 1955.

In the matters of Frank W. Michaux, Morris Cannan and Creslenn Oil Company, Docket No. G-4417; Sam Sklar, Docket No. G-4422; Sam Sklar, Trustee, S. H. Killingsworth and N. E. Loomis, Docket No. G-4599; Sam Sklar, Douglas Whitaker and Durbin Bond, Docket No. G-4644; Sam Sklar, Trustee, Docket No. G-4645; Amerada Petroleum Corporation, Docket Nos. G-4780 to G-4785, inclusive; The North Central Texas Oil Company, Inc., Docket No. G-5148; Continental Oil Company, Docket Nos. G-6348 to G-6352, inclusive, G-6354 and G-6356; Pioneer Petroleum Company, Docket No. G-8297; Anderson-Prichard Oil Corporation, Docket Nos. G-8298 and G-8328; National Oil and Gas Company, Docket No. G-8301; Murphy Farm Gas Company, Docket No. G-8302; Southray Oil Company, Docket No. G-8318; Goal Drilling Company, Docket No. G-8322; Texola Drilling Co., Inc., Docket No. G-8325; Fred Scandola, Docket Nos. G-8335 and G-8336; Basin Natural Gas Corporation, Docket No. G-8337; M. Ascher, Individually and as Trustee, Docket No. G-8344; M. Ascher, Individually and as Trustee, Gertrude Skelly, George F. Bauerdorf, Leach Bros. Inc., and F. A. Clark, Trustee, Docket No. G-8369; Liberty Oil & Gas Company, et al., Docket No. G-8372; M. P. O'Meara, et al., Docket No. G-8374; Fred Kyle, Docket No. G-8388.

Continental Oil Company (Continental), on October 31, 1955, filed a motion to deconsolidate the proceedings upon its applications for certificates of public convenience and necessity in Docket Nos. G-6349, G-6350, G-6351, and G-6352 from the above-captioned consolidated proceedings.

By notice issued October 19, 1955, the above-captioned proceedings were consolidated and set down for hearing in Washington, D. C., on November 15, 1955.

In its motion, Continental shows that in Docket Nos. G-6349, G-6350, G-6351, and G-6352 it filed petitions for declaratory orders that the transactions which are the subject matters of such dockets are not subject to the jurisdiction of the Commission. Continental avers that it wants an opportunity to submit evidence on the question of jurisdiction.

It appears appropriate to sever Docket Nos. G-6349, G-6350, G-6351, and G-6352 from the above-captioned proceedings and to set the proceedings in the four dockets for hearing at a later date, and to that end:

Take notice that the proceedings in Docket Nos. G-6349, G-6350, G-6351, and G-6352 are severed from the proceedings consolidated by notice issued October 19, 1955, in the above-captioned proceedings.

Take further notice that, pursuant to the authority contained in and subject to the jurisdiction conferred upon the Federal Power Commission by sections 7 and 15 of the Natural Gas Act, and the Commission's rules of practice and procedure, a hearing will be held on December 6, 1955, at 10:00 a. m., e. s. t., in a hearing room of the Federal Power Commission, 441 G Street NW., Washington 25, D. C., concerning the matters involved in and issues presented by the applications for certificates of public convenience and necessity filed by Continental Oil Company in Docket Nos. G-6349, G-6350, G-6351, and G-6352, and the petitions for declaratory orders filed simultaneously therein.

Protests or petitions to intervene may be filed with the Federal Power Commission, Washington 25, D. C., in accordance with the Rules of Practice and Procedure (18 CFR 1.8 or 1.10) on or before November 21, 1955.

[SEAL] J. H. GUTRIDE,
Acting Secretary.

[F. R. Doc. 55-9144; Filed, Nov. 14, 1955; 8:46 a. m.]

[Project No. 2150]

PUGET SOUND POWER & LIGHT CO.

NOTICE OF APPLICATION FOR LICENSE

NOVEMBER 4, 1955.

Public notice is hereby given that Puget Sound Power & Light Company, of Seattle, Washington, has filed application under the Federal Power Act (16 U. S. C. 791a–825r) for license for proposed water-power Project No. 2150, to be known as the Upper Baker River Project and located on the Baker River in Whatcom County, Washington, with transmission line also in Skagit County, Washington, and to consist of a concrete gravity dam located a short distance above the head of Lake Shannon reservoir, having a gated spillway section and a 12-foot roadway atop the dam, creating a reservoir about 9 miles long with highwater surface at about elevation 724 feet above sea level; an earth and rock-fill dike; powerhouse at the downstream toe of the dam containing two turbines each rated at about 60,000 horsepower at a net head of 275 feet and driving a 42,500-kilowatt generator; two penstocks; a transformer; a 110-kilovolt transmission line connecting the transformer with the applicant's existing Sedro Woolley Switching Station; and appurtenant facilities. Protests or petitions to intervene may be filed with the Federal Power Commission, Washington 25, D. C., in accordance with the Rules of Practice and Procedure of the Commission (18 CFR 1.8 or 1.10). The last date upon which protests or petitions may be filed is December 13, 1955. The application is on file with the Commission for public inspection.

[SEAL] J. H. GUTRIDE,
Acting Secretary.

[F. R. Doc. 55-9145; Filed, Nov. 14, 1955; 8:46 a. m.]

[Docket No. E-6640]

NIAGARA MOHAWK POWER CORP.

NOTICE OF APPLICATION FOR AUTHORIZATION TO EXPORT ELECTRIC ENERGY

NOVEMBER 4, 1955.

Notice is hereby given that the Niagara Mohawk Power Corporation (Applicant), with its principal place of business in Syracuse, New York, filed an application on October 12, 1955, requesting authorization pursuant to the provisions of section 202 (e) of the Federal Power Act to export electric energy from the United States to Canada in the maximum annual amount of 400,000 kwh at a maximum transmission rate of 50 kw.

The application indicates that the energy to be exported will be sold to the Shawinigan Water and Power Company of Montreal, Canada, for resale in Canada. Applicant will export the energy by means of facilities to be constructed by it on the international border between the United States and Canada near the hamlet of Chapman, Town of Ft. Covington, Franklin County, New York. By the subject application the applicant currently seeks authorization to construct, operate, maintain, and connect those facilities; all as more fully appears in the application on file with the Commission.

Any person desiring to be heard or to make any protest with reference to the application should on or before November 21, 1955, file with the Federal Power Commission, Washington 25, D. C., a petition or protest in accordance with the Commission's general rules and regulations. The application is on file with the Commission for public inspection.

[SEAL] J. H. GUTRIDE,
Acting Secretary.

HOUSING AND HOME FINANCE AGENCY

Public Housing Administration

SURETY COMPANIES

SEALED PROPOSALS FOR POSITION SCHEDULE SURETY BOND

The Public Housing Administration will receive sealed proposals for a position schedule surety bond covering certain federal employee positions in various locations throughout the Continental United States. Bidding will be limited to corporate surety companies holding certificates of authority from the Secretary of the Treasury under the act of July 30, 1947 (6 U. S. C. 1–15), as acceptable sureties on Federal bonds. Approximately two hundred (200) positions are to be bonded in penalty amounts ranging from $3,700 to $10,000, about half of which fall into the latter category. The bond will be conditioned upon the faithful performance of the duties of the individuals occupying the positions bonded and will run solely in favor of the United States. The effective date of the bond will be January 1, 1956, and the term will be one year.

Requests for Invitation to Bid and Specifications should be directed to the Insurance Section, Public Housing Administration, Longfellow Building, Washington 25, D. C. Bids will be opened at 2 o'clock p. m., e. s. t., on December 15, 1955, in Room 1012, Longfellow Building, Washington, D. C.

Date approved: November 10, 1955.

[SEAL] CHARLES E. SLUSSER,
Commissioner.

SECURITIES AND EXCHANGE COMMISSION

[File No. 70-3424]

AMERICAN GAS AND ELECTRIC CO.

NOTICE OF FILING IN RESPECT OF PROPOSED COMMON STOCK DIVIDEND

NOVEMBER 8, 1955.

Notice is hereby given that American Gas and Electric Company ("American Gas"), a registered holding company, has made a filing with this Commission designating sections 6 and 7 of the Public Utility Holding Company Act of 1935 ("act") as applicable to the proposed transactions, which are summarized as follows:

On October 26, 1955, the Board of Directors of American Gas, in addition to declaring a regular quarterly cash dividend of 50 cents per share to the holders of its $5 par value common stock, also declared a stock dividend at the rate of one share for each fifty shares of $5 par value common stock outstanding. This stock dividend is to be payable on January 10, 1956, to holders of record on December 9, 1955 (except upon shares held by nominees of American Gas for the exchange of Scrip Certificates representing fractional shares).

No fractional shares of common stock of American Gas are to be issued in connection with the stock dividend. American Gas proposes in lieu thereof to mail,

on January 10, 1956, to each stockholder of record on December 9, 1955, who would otherwise be entitled to a fractional share, a letter advising such holder that arrangements have been made with Guaranty Trust Company of New York, Agent, pursuant to which such holder will be entitled during a period of 24 days, to instruct the Agent to take either of the following courses of action with respect to the fractional interest to which such holder would otherwise be entitled: (1) To consolidate such fractional interest into one full share of common stock upon payment by such holder to the Agent of the cost of the additional fractional interest required to effect such consolidation, or (2) to sell such fractional interest on behalf of such holder. The communication so mailed will further advise that if the Agent shall not have received instructions from such holder prior to the expiration of such period the fractional interest to which such holder would otherwise be entitled will be sold for the account of such holder. The Agent will be authorized to execute consolidation and sale requests received from time to time by matching the same upon the basis of the currently prevailing market price of shares of common stock of American Gas, as determined by the Agent in its discretion.

In the event that, at the expiration of the period, the Agent shall have received requests for consolidation calling for an aggregate number of shares of common stock of American Gas which is greater than the aggregate number of shares of common stock represented by all fractional interests, the Agent will acquire the necessary additional shares of common stock by purchases on the New York Stock Exchange or otherwise. In the event that, at the expiration of the period, after giving effect to all requests for consolidation and sale of fractional interests, there shall remain any of the aggregate number of shares of common stock represented by all fractional interests, the Agent will sell the balance upon the New York Stock Exchange or otherwise. Cash proceeds received by the Agent in respect of fractional interests which are sold will be remitted to the holders of shares of common stock of American Gas entitled thereto.

Interest in a fractional share will not entitle a stockholder to dividends or any other rights of a stockholder of American Gas with respect to such fractional interest.

The services of the Agent will be rendered without charge to stockholders effecting consolidations and dispositions of fractional interests.

The proposed common stock dividend will result in the issuance of an estimated 257,050 shares of $5 par value common stock. American Gas proposes to record the issuance by debiting its earned surplus with an assigned value of $45 per share, or an aggregate of $11,567,250, and by crediting its common stock capital account with the par value of $5 per share, or a total of $1,285,250, and its Capital Surplus-Premium on Common Stock account with $40 per share, or a total of $10,282,000. At September 30, 1955, the earned surplus of American Gas amounted to $84,459,899.

It is represented in the filing that no regulatory authority other than this Commission has jurisdiction over the proposed transaction.

Notice is further given that any interested person may, not later than November 25, 1955, at 5:30 p. m., request the Commission in writing that a hearing be held on this matter, stating the nature of his interest, the reason for such request, and the issues of fact or law, if any, raised by such filing which he proposes to controvert, or he may request that he be notified if the Commission should order a hearing thereon. Any such request should be addressed: Secretary, Securities and Exchange Commission, Washington 25, D. C. At any time after said date the declaration, as filed or as it may hereafter be amended, may be permitted to become effective as provided in Rule U-23 of the rules and regulations promulgated under the act, or the Commission may grant exemption from its rules as provided in Rules U-20 (a) and U-100 or take such other action as it may deem appropriate.

By the Commission.

[SEAL] ORVAL L. DUBOIS, *Secretary.*

GENERAL PUBLIC UTILITIES CORP. ET AL.

NOTICE OF FILING REGARDING AGREEMENT PROVIDING FOR ALLOCATION OF CONSOLIDATED FEDERAL INCOME TAX LIABILITY

NOVEMBER 8, 1955.

In the matter of General Public Utilities Corporation, Jersey Central Power & Light Company, Metropolitan Edison Company, New Jersey Power & Light Company, Northern Pennsylvania Power Company, The Waverly Electric Light and Power Company, Pennsylvania Electric Company, Blair Fuel Company, Nineveh Water Company, Brockway Light, Heat and Power Company, Employees Welfare Association, Incorporated, Employees Welfare Association, Inc., Associated Electric Company.

Notice is hereby given that General Public Utilities Corporation, a registered holding company, and its subsidiary companies, Jersey Central Power & Light Company, Metropolitan Edison Company, New Jersey Power & Light Company, Northern Pennsylvania Power Company, The Waverly Electric Light and Power Company, Pennsylvania Electric Company, Blair Fuel Company, Nineveh Water Company, Brockway Light, Heat and Power Company, Employees Welfare Association, Incorporated, Employees Welfare Association, Inc., and Associated Electric Company, have filed a declaration with the Commission pursuant to the Public Utility Holding Company Act of 1935 ("act"), and have designated section 12 (b) of said act and Rule U-45 (a) promulgated thereunder as applicable to the proposed transaction, which is summarized as follows:

Declarants propose to enter into an agreement governing the allocation among said companies of the consolidated Federal income tax liability of such group of companies. It is stated that the proposed agreement does not comply with the exemptive provisions of Rule U-45 (b) (6) in that it provides that (i) commencing with the tax return for 1954 and thereafter, a company which elects to claim a deduction for accelerated amortization of emergency facilities, as distinct from normal depreciation deductions, shall have allocated to it the entire tax benefits, and bear the entire tax burdens, attributable to such deduction, and (ii) commencing with the year 1955 and thereafter, a company which elects to claim a foreign tax credit shall have allocated to it the entire tax benefits attributable to such credit.

The declaration states that no State or Federal regulatory body, other than this Commission, has jurisdiction with respect to the proposed transaction.

Notice is further given that any interested person may, not later than November 29, 1955 at 5:30 p. m., request the Commission in writing that a hearing be held on such matter, stating the nature of his interest, the reasons for such request, and the issues, if any, of fact or law proposed to be controverted; or he may request that he be notified if the Commission should order a hearing thereon. Any such request should be addressed: Secretary, Securities and Exchange Commission, Washington 25, D. C. At any time after said date said declaration, as filed or as amended, may be permitted to become effective as provided in Rule U-23 of the rules and regulations promulgated under the act, or the Commission may grant exemption from its rules as provided in Rules U-20 (a) and U-100 or take such other action as it may deem appropriate.

By the Commission.

[SEAL] ORVAL L. DUBOIS, *Secretary.*

[F. R. Doc. 55-9150; Filed, Nov. 14, 1955; 8:47 a. m.]

[File No. 70-3423]

NORTH SHORE GAS CO. AND NEW ENGLAND ELECTRIC SYSTEM

NOTICE OF PROPOSED ISSUANCE AND SALE BY SUBSIDIARY OF ADDITIONAL COMMON SHARES PURSUANT TO RIGHTS OFFERING, AND PROPOSED EXERCISE BY PARENT COMPANY OF ITS SUBSCRIPTION RIGHTS AND PURCHASE OF ALL UNSUBSCRIBED SHARES; PROPOSED ISSUANCE AND SALE BY SUBSIDIARY OF PRINCIPAL AMOUNT OF BONDS PURSUANT TO COMPETITIVE BIDDING

NOVEMBER 8, 1955.

Notice is hereby given that North Shore Gas Company ("North Shore"), a public-utility subsidiary of New England Electric System ("NEES"), a registered holding company, and NEES have filed a joint application pursuant to the

Public Utility Holding Company Act of 1935 ("act"), designating sections 6 (b), 9 (a), and 10 of the act and Rule U-50 thereunder as applicable to the proposed transactions, which are summarized as follows:

Proposed common stock issuance. North Shore, which presently has outstanding 198,975 shares of common capital stock (par value $10 per share), proposes to issue and sell for cash 39,795 additional shares, which will be offered to its stockholders at the price of $14 a share on the basis of one new share for each five shares held. Rights to subscribe will be evidenced by full and fractional share warrants, exercisable during a subscription period of 21 days.

NEES, which now owns 192,446 shares (96.719 percent) of North Shore's capital stock, proposes to exercise all its subscription rights (for 38,489 full shares of the additional stock) and also to purchase from North Shore all unsubscribed shares at the subscription price of $14 a share. NEES also states that it will offer during the subscription period to purchase from minority stockholders (numbering 125 and owning 6,529 shares) their present holdings together with their rights to subscribe for additional shares, on the basis of $16.50 a share.

The application states that the price of $14 per share for the additional stock to be issued by North Shore and the price of $16.50 per share to be offered by NEES for present minority holdings were determined after consideration of the earnings and book value of the North Shore stock and other comparable utility company stocks.

Proposed bond issuance. North Shore also proposes to issue and sell, pursuant to the competitive bidding requirements of Rule U-50, $2,500,000 principal amount of Series B bonds, to be dated as of December 1, 1955, and to mature December 1, 1975. The interest rate (to be a multiple of ⅛ of 1 percent, not in excess of 4¼ percent) and the price (to be not less than 100 percent nor more than 102¾ percent of the principal amount, excluding accrued interest) will be determined by competitive bidding.

The Series B bonds will be issued under a First Mortgage Indenture and Deed of Trust dated as of October 1, 1950, of Salem Gas Light Company, a predecessor of North Shore, as heretofore supplemented and as to be further supplemented by a Second Supplemental Indenture from North Shore to The Merchants National Bank of Boston, Trustee, dated as of December 1, 1955.

The proceeds from the sale of the additional common stock and bonds, together with treasury funds, will be applied by North Shore to the payment of all short-term debt to banks (which amounted to $2,200,000 at August 31, 1955), and the balance, estimated at $860,000, to short-term indebtedness payable to NEES (which amounted to $1,225,000 at the same date).

North Shore and NEES desire to consummate the proposed transactions in order to finance permanently capitalizable additions to North Shore's properties. NEES also desires to invest funds not otherwise required in its business in acquiring the minority interest in its subsidiary North Shore.

Total expenses in connection with the proposed issue of common stock are estimated at $3,200 for North Shore and $500 for NEES. North Shore estimates its expenses in connection with the proposed issue of bonds at $38,000, including services of New England Power Service Company (mutual service company), $13,000; printing and engraving, $9,500; accounting fees, $2,500; engineering fees, $2,500; trustee's fees, $3,500; registration and recording fees, stamp tax, "blue sky" fees, and miscellaneous expenses, $7,000. The legal fee and expenses of independent counsel to the underwriters of the bonds, to be paid by the successful bidder, are estimated at $3,500 and $300, respectively.

North Shore has made application to the Massachusetts Department of Public Utilities for approval of its issue and sale of the additional common stock and bonds as proposed. It is stated that no other commission except this Commission has jurisdiction over the proposed transactions.

It is requested that the order of this Commission be made effective upon issuance.

Notice is further given that any interested person may, not later than November 22, 1955 at 5:30 p. m., request the Commission in writing that a hearing be held on such matter, stating the nature of his interest, the reasons for such request, and the issues of fact or law, if any, raised by said application which he desires to controvert, or he may request that he be notified if the Commission should order a hearing thereon. Any such request should be addressed: Secretary, Securities and Exchange Commission, Washington 25, D. C. At any time after said date said application, as filed or as amended, may be granted as provided in Rule U-23 of the rules and regulations promulgated under the act, or the Commission may grant exemption from its rules as provided in Rules U-20 (a) and U-100, or take such other action as it may deem appropriate.

By the Commission.

[File No. 70-3422]

STANDARD POWER AND LIGHT CORP.

NOTICE OF FILING DECLARATION REGARDING PROPOSED SALE OF COMMON STOCK OF PUBLIC-UTILITY SUBSIDIARY AND PROPOSED CASH DISTRIBUTION OUT OF CAPITAL SURPLUS

NOVEMBER 8, 1955.

Notice is hereby given that a declaration has been filed with this Commission by Standard Power and Light Corporation ("Standard Power"), a registered holding company, pursuant to section 12 of the Public Utility Holding Company Act of 1935 ("act") and Rules U-44 and U-46 promulgated thereunder regarding a proposal by Standard Power (a) to sell not more than 10,000 shares of common stock of Duquesne Light Company, a public-utility subsidiary of Standard Power, either (i) on the New York Stock Exchange by means of ordinary brokers' transactions at prevailing market prices on the date or dates of sale or (ii) by negotiated sale, after inquiry among a limited number of prospective buyers, with a buyer or buyers who will agree to purchase for investment and not for resale to the public and at prevailing market prices on the New York Stock Exchange on the date or dates of sale, less a discount of not more than $0.50 per share; and (b) to make a cash distribution of $0.40 per share, in part out of earned surplus to the full extent thereof, which at September 30, 1955, amounted to $311,715.43, and the balance out of capital surplus which as of the same date amounted to $110,982,551.45, to each holder of record on December 5, 1955, of its outstanding 1,320,000 shares of common stock and 110,000 shares of common stock, Series B.

Standard Power presently has pending before the Commission an application for the modification of an outstanding order of this Commission under section 11 (b) (2) of the act which directs Standard Power to liquidate and dissolve and an application for the approval of a plan under section 11 (e) of the act proposing the transformation of Standard Power into an investment company. Standard Power has outstanding a bank loan in the amount of $1,500,000 which matures on July 29, 1956, which is its only obligation senior to its common stock. It is stated in the declaration that this loan will not be adversely affected by the proposed cash distribution since Standard Power has sufficient marketable securities to enable it to raise any balance of cash required to pay the loan when it becomes due.

The declaration further states that no State commission or Federal commission, other than this Commission, has jurisdiction over the proposed cash distribution. It is further stated that in connection with the proposed transactions Standard Power will incur only the normal and usual brokerage commissions in the event that the securities are sold through a broker or brokers, and the normal distribution charges by the bank making the distribution. Counsel fees are estimated by Standard Power not to exceed $500.

Notice is further given that any interested person may, not later than November 24, 1955, at 5:30 p. m., request the Commission in writing that a hearing be held on such matters, stating the nature of his interest, the reasons for such request, and the issues of fact or law raised by said declaration which he desires to controvert, or may request that he be notified if the Commission orders a hearing thereon. Any such request should be addressed: Secretary, Securities and Exchange Commission, Washington 25, D. C. At any time after said date, said declaration, as filed or as amended, may be permitted to become effective as provided in Rule U-23 of the rules and regulations promulgated under the act or the Commission may grant exemption from

its rules as provided in Rules U-20 (a) and U-100 or take such other action as it may deem appropriate.

By the Commission.

TITLE 6—AGRICULTURAL CREDIT

Chapter III—Farmers Home Administration, Department of Agriculture

[FHA Instruction 402.1]

PART 303—SUPERVISED BANK ACCOUNTS

MISCELLANEOUS AMENDMENTS

1. Section 303.2 (b) (1) Title 6, Code of Federal Regulations (20 F. R. 821) is revised to require the signatures of the husband and wife on the deposit agreement when a joint survivorship bank account is established and to read as follows:

§ 303.2 *Use of supervised bank accounts.* • • •

(b) *Farm Ownership borrowers.* (1) All insured and direct loan funds will be deposited in the supervised bank account on the date of loan closing except when all of the proceeds of the check are distributed at the time of loan closing for the purchase price and service fees. Funds representing down payments or cash contributions made by Farm Ownership borrowers to accomplish planned development or improvement work also will be deposited in supervised bank accounts prior to or at the time of loan closing in accordance with the provisions set forth in the basic regulations of the Farm Ownership program. When the title is held jointly with the right of survivorship, a joint survivorship supervised bank account should be established from which either the husband or wife could withdraw funds; in such case, both the husband and the wife will sign Form FHA-192.

2. Section 303.3, Title 6, Code of Federal Regulations (20 F. R. 5227) is revised to prescribe the conditions under which a borrower may establish two supervised bank accounts and to read as follows:

§ 303.3 *Establishing accounts.* While each borrower will be given an opportunity to choose the bank in which his supervised bank account will be established, unless otherwise authorized in writing by the Administrator, supervised bank accounts will be established only in banks in which deposits are insured by the Federal Deposit Insurance Corporation. Ordinarily, a borrower who obtains an insured loan will be expected to establish such account with the lender who furnished the loan funds, if the lender is a local banking institution. In making arrangements with banks, ordinarily only one supervised bank account will be maintained for any one borrower regardless of the amount or source of funds. However, in those instances in which a borrower with a supervised bank account receives an insured loan from another bank and the bank furnishing the funds requests the borrower to deposit the loan funds in that bank, the borrower may maintain two accounts provided only one supervised account will be maintained after the insured loan funds are expended. For each account, an original and two copies of Form FHA-192 will be executed by the borrower, the bank, and the County Supervisor. Authority to execute Form FHA-192 on behalf of the Government may be redelegated by County Supervisors to per-

SUBPART B—LOAN LIMITATIONS

AVERAGE VALUES OF FARMS; OREGON

For the purposes of title I of the Bankhead-Jones Farm Tenant Act, as amended, average values of efficient family-type farm-management units for the counties identifies below are determined to be as herein set forth. The average values heretofore established for said counties, which appear in the tabulations of average values under § 311.29, Chapter III, Title 6 of the Code of Federal Regulations, are hereby superseded by the average values set forth below for said counties.

OREGON	
County:	*Average value*
Baker	$35,000
Benton	35,000
Clackamas	35,000
Clatsop	35,000
Columbia	35,000
Coos	35,000
Crook	35,000
Curry	35,000
Deschutes	35,000
Douglas	35,000
Gilliam	35,000
Grant	35,000
Harney	35,000
Hood River	35,000
Jackson	35,000
Jefferson	35,000
Josephine	35,000
Klamath	35,000
Lake	35,000
Lane	35,000
Lincoln	35,000
Linn	35,000

OREGON—Continued

County:	*Average value*
Malheur	$35,000
Marion	35,000
Morrow	35,000
Multnomah	35,000
Polk	35,000
Sherman	35,000
Tillamook	35,000
Umatilla	35,000
Union	35,000
Wallowa	35,000
Wasco	35,000
Washington	35,000
Wheeler	35,000
Yamhill	35,000

(Sec. 41 (1), 60 Stat. 1066; 7 U. S. C. 1015 (1). Interprets or applies sec. 3 (a), 60 Stat. 1074; 7 U. S. C. 1003 (a))

Dated: November 9, 1955.

TITLE 7—AGRICULTURE

Chapter XI—Agricultural Conservation Program Service, Department of Agriculture

[ACP-1955, Supp. 12]

PART 1101—NATIONAL AGRICULTURAL CONSERVATION

SUBPART—1955

PRIOR REQUEST FOR COST-SHARING; ESTABLISHMENT OF ADDITIONAL ACREAGES OF VEGETATIVE COVER FOR WINTER PROTECTION FROM EROSION; ESTABLISHMENT OF VEGETATIVE COVER IN THE FALL OF 1955 FOR WINTER PROTECTION FROM EROSION

Pursuant to the authority vested in the Secretary of Agriculture under sections 7–17 of the Soil Conservation and Domestic Allotment Act, as amended, and the Department of Agriculture Appropriation Act, 1955, the 1955 National Agricultural Conservation Program, approved July 1, 1954 (19 F. R. 4138), as amended August 3, 1954 (19 F. R. 4953), September 15, 1954 (19 F. R. 6059), October 25, 1954 (19 F. R. 6910), March 1, 1955 (20 F. R. 1336), April 7, 1955 (20 F. R. 2414), April 26, 1955 (20 F. R. 2881), May 16, 1955 (20 F. R. 3494), June 10, 1955 (20 F. R. 4209), June 14, 1955 (20 F. R. 4281), July 22, 1955 (20 F. R. 5340), and August 30, 1955 (20 F. R. 6511), is further amended as follows:

1. Section 1101.615 is amended by changing the period at the end of the first sentence to a comma and adding the following: "except that for the practice contained in § 1101.696, the Administrator, ACPS, may authorize the acceptance of requests for cost-sharing filed within a reasonable period after performance thereof is started, such period to be stated in the practice wording."

2. Section 1101.685 is amended by changing the period at the end of the second sentence to a comma and adding the following: "except that the State committee may authorize the harvesting of the growth for hay or silage in areas where it determines that a serious shortage of hay or silage exists due to adverse weather conditions and the growth harvested is needed for use on farms in the area."

3. Section 1101.689 is amended by changing the period at the end of the second sentence to a comma and adding the following: "except that the State committee may authorize the harvesting of the growth for hay or silage in areas where it determines that a serious shortage of hay or silage exists due to adverse weather conditions and the growth harvested is needed for use on farms in the area."

(Sec. 4, 49 Stat. 164; 16 U. S. C. 590d. Interpret or apply secs. 7–17, 49 Stat. 1148, as amended, 68 Stat. 311; 16 U. S. C. 590g–590q)

Done at Washington, D. C., this 10th day of November 1955.

TRUE D. MORSE,
Acting Secretary of Agriculture.

[ACP-1956, Supp. 3]

PART 1101—NATIONAL AGRICULTURAL CONSERVATION

SUBPART—1956

PRIOR REQUEST FOR COST-SHARING; PRACTICES CARRIED OUT WITH STATE OR FEDERAL AID; ESTABLISHMENT OF VEGETATIVE COVER FOR WINTER PROTECTION FROM EROSION

Pursuant to the authority vested in the Secretary of Agriculture under sections 7–17 of the Soil Conservation and Domestic Allotment Act, as amended, and the Department of Agriculture and Farm Credit Administration Appropriation Act, 1956, the 1956 National Agricultural Conservation Program, approved June 14, 1955 (20 F. R. 4281), as amended July 22, 1955 (20 F. R. 5341), and August 30, 1955 (20 F. R. 6511), is further amended as follows:

1. Section 1101.715 is amended by revising the first sentence to read as follows: "Costs will be shared only for those practices, or components of practices, for which cost-sharing is requested by the farm or ranch operator before performance thereof is started, except that for the practices contained in §§ 1101.792 and 1101.796, the Administrator, ACPS, may authorize the acceptance of requests for cost-sharing filed within a reasonable period after performance thereof is started, such period to be stated in the practice wording."

2. Section 1101.728 is amended to read as follows:

§ 1101.728 *Practices carried out with State or Federal aid.* The total extent of any practice performed shall be reduced for the purpose of computing cost-shares by the percentage of the total cost of the items of performance on which costs are shared which the county committee determines was furnished by a State or Federal agency. Materials or services furnished through the program, materials or services furnished by any agency of a State to another agency of

the same State, or materials or services furnished or used by a State or Federal agency for the performance of practices on its land shall not be regarded as State or Federal aid for the purposes of this section.

3. Section 1101.785 is amended by changing the period at the end of the second sentence to a comma and adding the following: "except that the State committee may authorize the harvesting of the growth for hay or silage in areas where it determines that a serious shortage of hay or silage exists due to adverse weather conditions and the growth harvested is needed for use on farms in the area."

(Sec. 4, 49 Stat. 164; 16 U. S. C. 590d. Interpret or apply secs. 7–17, 49 Stat. 1148, as amended, 69 Stat. 55; 16 U. S. C. 590g–590q)

Done at Washington, D. C., this 10th day of November 1955.

E. L. PETERSON,
Assistant Secretary of Agriculture.

[F. R. Doc. 55-9218; Filed, Nov. 15, 1955; 8:52 a. m.]

TITLE 9—ANIMALS AND ANIMAL PRODUCTS

Chapter I—Agricultural Research Service, Department of Agriculture

Subchapter B—Cooperative Control and Eradication of Animal Diseases

PART 53—FOOT-AND-MOUTH DISEASE, PLEUROPNEUMONIA, RINDERPEST, AND OTHER CONTAGIOUS OR INFECTIOUS ANIMAL DISEASES WHICH CONSTITUTE AN EMERGENCY AND THREATEN THE LIVESTOCK INDUSTRY OF THE COUNTRY

DETERMINATION OF EXISTENCE OF DISEASE; AGREEMENTS WITH STATES

Pursuant to the provisions of sections 3 and 11 of the Act of May 29, 1884, as amended (23 Stat. 32, 58 Stat. 734) and section 2 of the Act of February 2, 1903 (32 Stat. 792; 21 U. S. C. 114, 111, 114a), paragraph (b) of § 53.2 of the regulations pertaining to payment of indemnities for animals destroyed because of foot-and-mouth disease, pleuropneumonia, rinderpest, and other contagious and infectious animal diseases (9 CFR, 1954 Supp., Part 53), is hereby amended to read as follows:

§ 53.2 *Determination of existence of disease; agreements with States.* • • •

(b) Upon agreement of the authorities of the State to enforce quarantine restrictions and orders and directives properly issued in the control and eradication of such a disease, the Chief of Branch is hereby authorized to agree, on the part of the Department, to cooperate with the State in the control and eradication of the disease, and to pay not more than 50 percent of the expenses of purchase, destruction and disposition of animals and materials required to be destroyed because of being contaminated by or exposed to such disease: *Provided*, That the Secretary may authorize other arrangements for the payment of such expenses upon finding that an extraordinary emergency exists.

Effective date. The foregoing amendment shall become effective upon issuance.

The purpose of the revisions contained in this amendment are to provide for the more rapid removal of diseased animals in those instances where State indemnity funds have not been made available.

The amendment relieves the presently imposed limitation on the payment of Federal indemnity and must be made effective immediately to be of maximum benefit to persons subject to this limitation. Accordingly, under section 4 of the Administrative Procedure Act (5 U. S. C. 1003), it is found upon good cause that notice and other public procedure with respect to the amendment are impracticable and contrary to the public interest, and the amendment may be made effective less than 30 days after publication in the FEDERAL REGISTER.

(Sec. 11, 58 Stat. 734, as amended, 67 Stat. 493; 21 U. S. C. 114, 111, 114a)

Done at Washington, D. C., this 10th day of November 1955.

[SEAL] M. R. CLARKSON,
Acting Administrator, Agricultural Research Service.

[F. R. Doc. 55-9220; Filed, Nov. 15, 1955; 8:52 a. m.]

TITLE 20—EMPLOYEES' BENEFITS

Chapter V—Bureau of Employment Security, Department of Labor

PART 609—REGULATIONS TO IMPLEMENT TITLE XV OF THE SOCIAL SECURITY ACT, AS AMENDED, RESPONSIBILITIES OF FEDERAL AGENCIES

INFORMATION TO FEDERAL EMPLOYEES

Pursuant to the authority vested in me by section 1509, Title XV of the Social Security Act, as amended (68 Stat. 1130; 42 U. S. C. A. 1361, et seq.), the following regulation contained in this part is amended. This amendment is designed to conform the regulation to the revised designation and use of U. S. Government Standard Form 8.

Paragraph (b) of § 609.2 is amended to read as follows:

(b) Complete Standard Form 8, "Notice to Federal Employee About Unemployment Compensation" in accordance with instructions thereon, and furnish a completed copy of such form to each of its employees at the time of separation from Federal service, when transferred from one payroll office to another or when the office responsible for distribution of the form is advised that the individual is on leave without pay for seven consecutive days or more.

(Sec. 1509, 68 Stat. 1135)

Effective date. This amendment shall take effect upon publication in the FEDERAL REGISTER.

Signed at Washington, D. C., this 8th day of November 1955.

ARTHUR LARSON,
Acting Secretary of Labor.

[F. R. Doc. 55-9189; Filed, Nov. 15, 1955; 8:45 a. m.]

PART 610—REGULATIONS TO IMPLEMENT TITLE XV OF THE SOCIAL SECURITY ACT, AS AMENDED, RESPONSIBILITIES OF STATE EMPLOYMENT SECURITY AGENCIES

DETERMINATION OF ENTITLEMENT

Pursuant to the authority vested in me by section 1509, Title XV of the Social Security Act, as amended (68 Stat. 1130; 42 U. S. C. A. 1361, et seq.), the following regulation contained in this part is amended. The amendment is designed to clarify the fact that Title XV compensation shall not be paid for periods to which a payment for terminal annual leave is allocated without regard to whether an individual is considered unemployed during such periods.

Paragraph (a) of § 610.5 is amended to read as follows:

§ 610.5 *Determination of entitlement*—(a) *Entitlement.* The agency of the State to which a Federal employee's Federal service and Federal wages have been assigned (or of the State to which they have been transferred in accordance with the Interstate Wage Combining Plan) shall determine the claimant's entitlement to compensation and shall pay such compensation in the same amounts, on the same terms, and subject to the same conditions as the benefits which would be payable to such claimant under the unemployment compensation law of the State if the Federal service and Federal wages of such claimant had been included as employment and wages under such law, except that, no payment of compensation shall be made for periods to which a payment for terminal annual leave is allocated. The notice of determination given to the claimant pursuant to the unemployment compensation law of the State shall include the findings made by the Federal agency and shall inform the claimant of his right to additional information or reconsideration and correction of such findings. The State agency shall set forth the findings of the Federal agency in sufficient detail to enable the claimant to determine whether he wishes to request reconsideration or correction of any such findings, to the extent that such information has been furnished by the Federal agency.

• • • • • •

(Sec. 1509, 68 Stat. 1135)

Effective date. This amendment shall take effect upon publication in the FEDERAL REGISTER.

Signed at Washington, D. C., this 8th day of November 1955.

ARTHUR LARSON,
Acting Secretary of Labor.

[F. R. Doc. 55-9190; Filed, Nov. 15, 1955; 8:46 a. m.]

TITLE 21—FOOD AND DRUGS

Chapter I—Food and Drug Administration, Department of Health, Education, and Welfare

PART 135—COLOR CERTIFICATION

MISCELLANEOUS AMENDMENTS

In the matter of amending §§ 135.3, 135.5, and 135.11 of the color certification regulations:

By virtue of the authority vested in the Secretary of Health, Education, and Welfare by the Federal Food, Drug, and Cosmetic Act (secs. 406 (b), 504, 604, 701; 52 Stat. 1049, 1052, 1055; 21 U. S. C. 346 (b), 354, 364, 371; 67 Stat. 18), upon the basis of substantial evidence received at the public hearing held pursuant to the notice published in the FEDERAL REGISTER on December 19, 1953 (18 F. R. 8600), and upon consideration of the exceptions filed to the proposed order published in the FEDERAL REGISTER on December 30, 1954 (19 F. R. 9352), which exceptions were allowed or not allowed as appears from notations on the exceptions on file with the Hearing Clerk, Department of Health, Education, and Welfare, Room 5440, Health, Education, and Welfare Building, 330 Independence Avenue SW., Washington 25, D. C., the following order is hereby promulgated.

Findings of fact.[1] 1. After a hearing in 1939 concerning regulations for the certification of coal-tar colors, the coal-tar color now listed as FD&C Orange No. 1 (monosodium salt of 4-*p*-sulfophenylazo-1-naphthol) and the coal-tar color now listed as FD&C Orange No. 2 (1-o-tolylazo-2-naphthol) were found to be harmless and suitable for use in food, drugs, and cosmetics. After another hearing in 1939, concerning amendment of the coal-tar color regulations, the coal-tar color now listed as FD&C Red No. 32 (1-xylylazo-2-naphthol) was found to be harmless and suitable for use in food, drugs, and cosmetics. Accordingly, these three colors, among others, were listed with appropriate specifications of identity and quality in the coal-tar color regulations (21 CFR 135.3) as certifiable for unrestricted use in foods, drugs, and cosmetics. (4 F. R. 1922, 1926, 1937, 3931, 3936, 3937; R. 46.)

2. Since that time the Food and Drug Administration has completed additional tests to explore more fully the toxicity of the certifiable coal-tar colors. A number of additional tests have been conducted by the Division of Pharmacology of the Food and Drug Administration, using FD&C Orange No. 1, FD&C Orange No. 2, and FD&C Red No. 32.

Tests that have been terminated are:

a. FD&C Orange No. 1:

i. Chronic feeding tests with rats on diets containing 0.1, 0.5, 1, and 2 percent.

ii. Chronic oral administration to dogs at doses of 5 milligrams per kilogram of body weight and 100 milligrams per kilogram of body weight.

iii. Cathartic tests in dogs, using single oral dose.

b. FD&C Orange No. 2:

i. Chronic or subacute feeding tests with rats on diets containing 0.01, 0.05, 0.1, 0.2, and 0.25 percent.

ii. Tests designed to determine carcinogenicity in rats, using weekly subcutaneous injections of approximately 5 milligrams. The test was inconclusive as to carcinogenicity and was discontinued after 8 injections. Three of the 18 test rats died on the dosage administered as compared to no deaths among the control rats.

iii. Carcinogenicity tests in mice, using subcutaneous implantation of 12.1 milligrams at intervals for 30 to 55 weeks. These tests produced no positive results.

iv. Chronic oral administration to 2 dogs at doses beginning at 100 milligrams per kilogram of body weight per day. The dosage was reduced successively to 20 milligrams and 5 milligrams in 1 dog, and to 20 milligrams in the other dog.

v. Chronic feeding tests in dogs at dietary levels of 0.2 percent and 0.04 percent.

vi. Cathartic tests in dogs, using single oral dose.

c. FD&C Red No. 32:

i. Chronic feeding tests with rats, on diets containing 0.1 percent.

ii. Subacute feeding tests with rats, on diets containing 0.25, 0.5, 1, and 2 percent.

iii. Chronic feeding tests with rats, on diets containing 0.1 percent and 0.25 percent.

iv. Carcinogenicity tests in rats, using weekly subcutaneous injections of approximately 5 milligrams to 10 milligrams. These tests were inconclusive as to carcinogenicity and were discontinued after 8 injections because 7 of the 18 test rats died or were sacrificed in extremis prior to the ninth injection. Similar toxic reactions were not encountered in the control rats. A second experiment, using weekly subcutaneous injections of approximately 1 milligram was also discontinued after 8 injections, because of deaths among the 18 test rats receiving FD&C Orange No. 2 in another part of this experiment.

v. Carcinogenicity tests in mice, using subcutaneous implantation of 10.8 milligrams at intervals for 35 weeks to 47 weeks showed no evidence of tumors.

vi. Chronic oral administration to dogs at doses of 5, 20, and 100 milligrams per kilogram of body weight per day.

vii. Chronic feeding tests in dogs at dietary levels of 0.04 percent and 0.2 percent.

viii. Cathartic tests in dogs, using single oral dose.

Tests of the three colors by external application to determine whether they are toxic when applied externally were being set up at the time of the hearing. (R. 8–78; Ex. 2, 3, 4.)

3. The tests with FD&C Orange No. 1 show that when taken internally at various levels of administration this color causes definite damage to various vital organs of the test animals, significant changes in body weight, and premature death.

This color caused the premature death of all rats on diets containing 2.0 percent of the test substance. Rats on a diet containing 1.0 percent of this substance showed marked retardation of growth, increased mortality, and chronic congestion and enlargement of the spleen. These same manifestations, to a lesser extent, were encountered in rats consuming a diet containing 0.5 percent of FD&C Orange No. 1. Dogs consuming 100 milligrams per kilogram of body weight per day of FD&C Orange No. 1 died in 26 months and 33 months. They had occasional diarrhea while alive and manifested terminal weight loss. Autopsy revealed congestion and atrophy of the liver attributable to the color. On a diet containing 1.0 percent of FD&C Orange No. 1, dogs exhibited chronic diarrhea. Rapid deterioration, and weight loss also occurred in 2 dogs. Autopsy revealed muscular dystrophic changes and testicular, prostatic, and uterine atrophy. These same manifestations occurred to a lesser extent in dogs on a diet containing 0.2 percent of FD&C Orange No. 1. A single dose of 100 milligrams to 200 milligrams of FD&C Orange No. 1 produced diarrhea in most dogs. Human volunteers who ate candy containing 0.07 percent of FD&C Orange No. 1 exhibited diarrhea upon the ingestion of from one to eight pieces of the candy. Human volunteers taking 80 milligrams to 100 milligrams of the color in a single dose also experienced marked griping and diarrhea. (R. 14–22, 43–44; Ex. 2.)

4. Tests on rats at a level of 0.1 percent of the diet and on dogs at doses of 5 milligrams per kilogram of body weight per day did not produce any toxic effects attributable to FD&C Orange No. 1. However, these results must be contrasted with the diarrhea that resulted when human volunteers ate from one to eight pieces of candy containing 0.07 percent of FD&C Orange No. 1. This is particularly significant because man is shown to be more susceptible to the toxic effects of the color than are the test animals, and because the dogs having diarrhea (the symptom observed also in man) showed damage to various vital organs after the chronic feeding tests. (R. 14, 16–18, 20–21, 43–44; Ex. 2.)

5. The tests with FD&C Orange No. 2 show that when taken internally at various levels of administration this color causes definite damage to various vital organs of the test animals, significant changes in body weight, and premature death.

FD&C Orange No. 2 caused severe growth retardation and increased mortality to rats on a diet containing 0.25 percent of the test substance. At 0.2 percent of the rats' diet, increased mortality and degeneration of the liver occurred. At a level of 0.1 percent of this substance in the diet, the rats exhibited marked growth retardation. At a level of 0.05 percent, autopsy revealed enlargement of the right side of the heart and, on microscopic examination, slight hypertrophy or hyperplasia of the cells in the liver. Approximately 5 milligrams per week given to rats by subcutaneous injection caused increased mortality and moderate growth retardation. Dogs consuming 100 milligrams per kilogram of body weight per day of FD&C Orange No. 2 lost weight or gained poorly. Twenty milligrams per kilogram of body weight per day caused one dog in the experiment to gain weight poorly. Five milligrams per kilogram of body weight per day apparently was tolerated by one dog without resultant injury. Dogs on a diet containing 0.2 percent of the test substance had diarrhea at the beginning of the experiment and exhibited rapid deterioration and weight

[1] The citations following each finding of fact refer to the pages of the transcript of the testimony and the exhibits received in evidence at the hearing, except for citations to the FEDERAL REGISTER, where applicable.

loss. Autopsy revealed atrophy of various vital organs caused by the color. At 0.04 percent of the diet, dogs gradually deteriorated and lost weight, and autopsy revealed atrophy of various vital organs. A single dose of 200 milligrams produced diarrhea in dogs. (R. 22–30; Ex. 3.)

6. FD&C Orange No. 2 caused damage to test animals at levels even lower than those at which damage was observed from FD&C Orange No. 1. The lowest level at which demonstrable harm to test animals was observed from FD&C Orange No. 2 was 0.04 percent of the diet of dogs. The lowest level at which FD&C Orange No. 1 caused demonstrable damage was 0.2 percent in the diet of dogs and 0.07 percent when ingested by man in a single dose. (R. 18–19, 20–21, 28, 43–44, 67–68; Ex. 2, 3.)

7. The tests with FD&C Red No. 32 show that when taken internally at various levels of administration this color caused definite damage to various vital organs of the test animals, significant changes in body weight, and premature death.

When this color was fed to rats at a level of 2.0 percent of the diet, all the rats died within a week. At a 1.0 percent level, death occurred within 12 days. At 0.5 percent most of the rats died within 26 days. At 0.25 percent approximately half of the rats died within 3 months. All of the rats at this level showed marked growth retardation and anemia. Autopsy revealed moderate to marked liver damage. Similar but less severe results were obtained with rats on a diet containing 0.1 percent of FD&C Red No. 32. In addition to liver damage, however, autopsy also revealed enlargement of the right side of the heart in this latter group. Subcutaneous injection of approximately 10 milligrams per week caused death within 8 weeks to nearly half of the rats on the experiment. These rats exhibited anemia, hemorrhage, and reduction in the size of the liver. Dogs taking 100 milligrams per kilogram of body weight per day showed moderate weight loss. A level of 0.2 percent of FD&C Red No. 32 in the diet of dogs caused rapid deterioration and weight loss and sporadic diarrhea; 0.04 percent caused gradual deterioration and weight loss, sporadic diarrhea, moderate atrophy of vital organs, and muscular dystrophic changes; 0.01 percent in the diet caused weight loss and the death of one out of 4 dogs. A single oral dose of 100 milligrams or 200 milligrams caused diarrhea in the majority of the dogs tested. (R. 30–38; Ex. 4.)

8. The lowest level at which FD&C Red No. 32 showed damage to test animals was at 0.01 percent of the diet of dogs. This was the lowest level at which the color was administered in the diet and, based upon the conversion figures appearing in the record, it is a lower dosage than the level of 5 milligrams per kilogram which produced no apparent effect on other dogs. Thus, no safe level of administration to dogs was definitely established. (R. 35–37, 40–42; Ex. 4.)

9. The only known episode of illness in man was caused by FD&C Orange No. 1. It is the least toxic of the three colors. The fact that no human ailment has been attributed to the other colors means little, because few people know what colors they are eating and the delayed toxic effects of the colors, as evidenced by the test animals, involve damage to vital organs and processes that would not have been attributed to the colors even if caused by them.

10. There was no evidence on which findings could be made concerning how much of the three colors is likely to be ingested by man from his food, drugs, and cosmetics. Some interested persons, taking their own products, attempted to show that the amounts ingested would be small to the point of insignificance. But those contentions leave aside the occurrence of the colors in the products of others, as well as the fact that upon certification of a color the Department has no means of controlling the amounts of colors used in a variety of food, drugs, and cosmetics. Nor is there authority to limit a color, once certified, to a single food—for example, FD&C Red No. 32 for use in color-added oranges. (R. 20–21, 67–68, 98–108; Ex. 8.)

11. The coal-tar colors listed in the regulations as FD&C Orange No. 1, FD&C Orange No. 2, and FD&C Red No. 32 may be used at present in externally applied drugs and cosmetics as well as in products for internal consumption. Tests designed to examine the toxicity of these colors, when used externally, are not complete. (R. 46–48, 63–65.)

12. Modification of the coal-tar color certification regulations (21 CFR 135.11 (d) (2)) to eliminate the requirement for 3 months' written notice of change in composition of a coal-tar color mixture will facilitate the marketing of substitute mixtures and reduce confusion that may result from the deletion of a straight color from the listings at 21 CFR 135.3, 135.4, and 135.5. (R. 88, 89.)

Conclusions. 1. Based upon the above findings, the coal-tar colors FD&C Orange No. 1 (monosodium salt of 4-*p*-sulfophenylazo - 1 - naphthol), FD&C Orange No. 2 (1-o-tolylazo-2-naphthol) and FD&C Red No. 32 (1-xylylazo-2-naphthol), described in the coal-tar regulations (21 CFR 135.3) are not harmless and suitable for use in coloring food or for use in coloring drugs or cosmetics intended for other than external application.

2. Sections 406 (b), 504, and 604 of the Federal Food, Drug, and Cosmetic Act (21 U. S. C. 346 (b), 354, and 364) provide for the listing of coal-tar colors that are harmless and suitable for use in food, drugs, and cosmetics. The act does not provide any method for listing toxic colors for specific food, drug, or cosmetic uses so as to limit their total use to small enough amounts that the toxicity might be disregarded. Under the statute a toxic color cannot be classified as a harmless color.

3. While a safe level of administration to test animals is disclosed by the record in the case of FD&C Orange No. 1, the record also discloses that that color has adverse effects upon man at a level well below the safe level of administration to test animals. The safe level of administration of FD&C Orange No. 2 to test animals is well below the level at which FD&C Orange No. 1 was found safe to test animals. It is, therefore, even more toxic than FD&C Orange No. 1. No safe level of administration was found even in test animals for FD&C Red No. 32.

4. The coal-tar colors FD&C Orange No. 1, FD&C Orange No. 2, and FD&C Red No. 32 are not harmless and suitable for use within the meaning of sections 406 (b), 504, and 604 of the Federal Food, Drug, and Cosmetic Act in coloring food or in coloring drugs or cosmetics intended for other than external application.

5. The coal-tar colors FD&C Orange No. 1, FD&C Orange No. 2, and FD&C Red No. 32 should be deleted from the listing at 21 CFR 135.3, since the Secretary cannot continue to list these colors as colors that the Food and Drug Administration will certify as harmless and suitable for unrestricted use in coloring food or in coloring drugs and cosmetics intended for other than external application.

6. Colors conforming to the present regulations and specifications for FD&C Orange No. 1, FD&C Orange No. 2, and FD&C Red No. 32 should be added to the listing at 21 CFR 135.5, for use in coloring externally applied drugs and cosmetics only.

7. The provisions of 21 CFR 135.11 (d) (2) requiring 3 months' written notice of a change in the composition of a coal-tar color mixture should be waived when such change is made necessary by deletion of one or more straight colors from the listings at 21 CFR 135.3, 135.4, or 135.5.

Therefore, it is ordered, That Part 135—Color Certification, be amended in the following respects:

1. In § 135.3 (a), delete the colors FD&C Orange No. 1, FD&C Orange No. 2, and FD&C Red No. 32.

2. Add the following to § 135.5 (a):

EXT D&C ORANGE NO. 3

SPECIFICATIONS

Monosodium salt of 4-*p*-sulfophenylazo-1-naphthol.
Volatile matter (at 135° C.), not more than 10.0 percent.
Water-insoluble matter, not more than 0.3 percent.
Ether extracts, not more than 0.2 percent.
α-Naphthol, not more than 0.1 percent.
Chlorides and sulfates of sodium, not more than 4.0 percent.
Mixed oxides, not more than 1.0 percent.
Orange II, not more than 5.0 percent.
Pure dye (as determined by titration with titanium trichloride), not less than 85.0 percent.

EXT D&C ORANGE NO. 4

SPECIFICATIONS

1-o-Tolylazo-2-naphthol.
Volatile matter (at 100° C.), not more than 0.5 percent.
Sulfated ash, not more than 0.3 percent.
Water-soluble matter, not more than 0.3 percent.
Matter insoluble in carbon tetrachloride, not more than 0.5 percent.
o-Toluidine, not more than 0.05 percent.
β-Naphthol, not more than 0.05 percent.
Pure dye (as determined by titration with titanium trichloride), not less than 98.0 percent.
Melting point, not less than 128.0° C.

EXT D&C RED NO. 14

SPECIFICATIONS

1-Xylylazo-2-naphthol.
Volatile matter (at 100° C.), not more than 0.5 percent.
Sulfated ash, not more than 0.3 percent.
Water-soluble matter, not more than 0.3 percent.
Matter insoluble in carbon tetrachloride, not more than 0.5 percent.
Xylidene, not more than 0.1 percent.
β-Naphthol, not more than 0.05 percent.
m-Xylidine in xylidine obtained by reduction of the dye, not more than 30.0 percent.
Pure dye (as determined by titration with titanium trichloride), not less than 97.0 percent.
Boiling range of xylidine, obtained by reduction of the dye, 95 percent between 212°–232° C.

3. Amend § 135.11 (d) (2) so that, as amended, it will read as follows:

§ 135.11 *Labeling.* • • •
(d) • • •
(2) The name of such mixture is the same as or simulates the name of a previously certified batch of a mixture containing a different substance, or a different percentage of a pure dye; but this provision shall not apply if:
(i) The person who requests certification of such batch is the owner of such name and has given 3 months' written notice to the Food and Drug Administration specifying the change to be made in the composition of such mixture; or
(ii) Such change results from removal of a color from the listings in §§ 135.3, 135.4, and 135.5.

Effective date. This order shall be effective 90 days after publication in the FEDERAL REGISTER.

(Sec. 701, 52 Stat. 1055; 21 U. S. C. 371)

Dated: November 10, 1955.

[SEAL] M. B. FOLSOM, *Secretary.*

[F. R. Doc. 55–9209; Filed, Nov. 15, 1955; 8:49 a. m.]

TITLE 47—TELECOMMUNICATION

Chapter I—Federal Communications Commission

[Docket Nos. 11238, etc.; FCC 55–1125]

[Rules Amdt. 3–61]

PART 3—RADIO BROADCAST SERVICES

TABLE OF ASSIGNMENTS

In the matter of amendment of § 3.606 *Table of assignments,* rules governing television broadcast stations.

1. The Commission has before it for consideration five proceedings concerning requests for the deintermixture of VHF and UHF television channel assignments in specific communities and a request for the addition of a VHF channel assignment in one community. The Commission issued a notice of proposed rule making concerning the proposal to assign Channel 10 to Vail Mills, New York, on December 17, 1954. On March 31, 1955, the Commission issued notices of proposed rule making in the Peoria, Evansville, Madison and Hartford deintermixture proceedings. On April 21, 1955, the Commission issued a notice of further rule making in the Vail Mills case to consider the deintermixture proposal for the Albany-Schenectady-Troy area. Oral argument in the five cases was heard before the Commission on June 27 and 28, 1955. Following is a brief summary of the proposals:

(a) *Peoria, Illinois (Docket No. 11333).* This proceeding involves the joint request of two UHF broadcasters in Peoria, Illinois-West Central Broadcasting Company (WEEK–TV) and Hilltop Broadcasting Company (WTVH)—for deintermixture of commercial VHF and UHF assignments in the Peoria area by reserving VHF Channel 8 in Peoria for noncommercial educational use in place of UHF Channel 37; or, in the alternative, by deleting Channel 8 from Peoria, substituting UHF Channels 31, 78, or 82 therefor, and shifting Channel 8 to some other community. Plains Television Corporation (WICS), Springfield, Illinois, requests that Channel 8 in Peoria be shifted to Illipolis, Illinois, to provide additional VHF service to the Springfield area in the event Springfield is not also deintermixed by the removal of Channel 2. Other parties participating in the proceeding include WIRL Television Company and WMBD, Inc., applicants for Channel 8 in Peoria; Bradley University, and the American Farm Bureau Federation. In addition to the pleadings and material in the record of the proceeding when Oral Argument was heard on June 27–28, 1955, the Commission now has before it the following pleadings: "Petition to Adopt Policy of Deintermixture or for Alternative Relief", filed by Plains Television Corporation on October 18, 1955; "Opposition to and Motion to Dismiss" the foregoing petition, filed by WMBD, Inc., on October 21, 1955, an Opposition to the foregoing petition filed by WIRL Television Company on October 25, 1955; and petitions for further oral argument filed on November 4, 1955, by West Central Broadcasting Company, Hilltop Broadcasting Company, and Plains Television Corp.

(b) *Evansville - Hatfield, Indiana (Docket No. 11334).* This proceeding involves the request of two UHF broadcasters in the Evansville area—Premier Television, Inc. (WFIE), Evansville, and Ohio Valley Television Company (WEHT), Henderson, Kentucky—for deintermixture of the commercial VHF and UHF assignments in the Evansville-Hatfield area by deleting Channel 9 from Hatfield and by either reserving Channel 7 in Evansville for education or deleting it. Petitioners suggest that Channel 56 can be added to Evansville and Channel 78 to Hatfield. If Channel 7 in Evansville is deleted rather than reserved, Channel 39 is suggested as an educational frequency. Mid-America Broadcasting Corporation (WKLO–TV) Louisville, Kentucky, requests that the Evansville-Hatfield area be deintermixed by reassigning Channels 7 and 9 to Louisville, Kentucky. To accomplish these channel shifts, Mid-America requests that the rules be amended to permit television stations to operate at reduced separations with directional antennas. Other parties participating in the proceeding include Evansville Television, Inc., Consolidated Television & Radio Broadcasters, Inc., and On The Air, Inc., applicants for Channel 7 in Evansville; Owensboro Publishing Company and Owensboro On The Air, Inc., applicants for Channel 9 in Hatfield; Congressman Winfield K. Denton (8th District of Indiana); the Evansville Chamber of Commerce and Evansville College. In addition to the pleadings and material in the record of the proceeding when Oral Argument was heard on June 27–28, 1955, the Commission now has before it two petitions filed on October 17, 1955, by Mid-America Broadcasting Corporation and by Premier Television, Inc., and Ohio Valley Television Co. jointly, requesting "Time to File Additional Comments", Opposition to the petition of Mid-America Broadcasting Corporation, filed by Evansville Television, Inc., on October 7, 1955, an Opposition to both petitions filed by Owensboro On The Air, Inc. on October 27, 1955, and by On The Air, Inc., on October 28, 1955, and an Opposition to the joint petition of Premier Television, Inc. and Ohio Valley Television Co., filed by Evansville Television, Inc., on October 28, 1955. Also, on November 7, 1955, Mid-America Broadcasting Corp., Premier Television, Inc. and Ohio Valley Television Co., filed Supplements to their October 17 Petitions, making further requests discussed in Paragraph 11, below.

(c) *Madison, Wisconsin, and Rockford, Illinois (Docket No. 11335).* This proceeding involves the requests of two UHF broadcasters in Madison—Monona Broadcasting Company (WKOW–TV) and Bartell Television Corporation (WMTV)—for deintermixture of commercial VHF and UHF assignments in the Madison area by shifting the educational reservation in Madison from Channel 21 to Channel 3. Another UHF broadcaster in Rockford—Winnebago Television Corporation (WTVO) requests that commercial deintermixture be achieved in Madison by deleting Channel 3 from Madison, substituting Channel 39 therefor, and by assigning Channel 3 to Orangeville, Illinois, so as to make Madison an all-UHF city and Rockford an all-VHF area. Alternatively, Winnebago Television suggests that Rockford be made an all-UHF area by deleting Channel 13 from Rockford, substituting Channel 51 therefor, and assigning Channel 13 to Aurora or Elgin, Illinois. Other parties participating in the proceeding include Radio Wisconsin, Inc., and Badger Television Company, Inc., applicants for Channel 3, Madison; the State Radio Council of The State of Wisconsin (WHA–TV), Madison, and the Greater Rockford Television, Inc. (WREX–TV). In addition to the pleadings and material in the record of the proceeding when Oral Argument was heard on June 27–28, 1955, the Commission now has before it the following pleadings:

"Petition for Taking of Official Notice or for Limited Reopening of Record" filed on August 29, 1955, by Monona Broadcasting Company, and Bartell Television Corporation; a Response to the aforementioned petition filed on September 7, 1955, by Radio Wisconsin, Incorporated; "Petition to Adopt Policy of

Deintermixture or for Alternative Relief" filed on October 18, 1955, by Winnebago Television Corporation, a Motion to Strike the Winnebago petition filed by Radio Wisconsin, Incorporated, on October 27, 1955; and Petitions for Further Oral Argument filed on November 4, 1955, by Monona Broadcasting Company, Bartell Television Corp., and Winnebago Television Corp.

(d) *Hartford, Connecticut (Docket No. 11336).* This proceeding involves the joint request of four UHF broadcasters in the Connecticut River Valley—General Times Television Corporation (WGTH–TV), Hartford, New Britain Broadcasting Co. (WKNB–TV), New Britain; Hampden-Hampshire Corporation (WHYN), Springfield and Springfield Television Broadcasting Corp., Springfield (WWLP)—for deintermixture of commercial VHF and UHF channels in Hartford by shifting the educational reservation in Hartford from UHF Channel 24 to VHF Channel 3. Three other UHF broadcasters request that Channel 3 be deleted from Hartford and assigned elsewhere. Channel 16 of Rhode Island (WNET) in Providence, Rhode Island, requests that Channel 3 in Hartford be assigned to Westerly, Rhode Island; Eastern Connecticut Broadcasting Company (WICH, AM), Norwich, Connecticut; requests that Channel 3 in Hartford be assigned to Norwich, and Thames Broadcasting Corp. (WNLC–TV), New London, Connecticut, requests that Channel .3 in Hartford be shifted to New London. Other parties participating in the proceeding include Hartford Telecasting Company, Inc., and Travelers Broadcasting Service Corporation, applicants for Channel 3 in Hartford; Western Massachusetts Educational Television Council, Springfield; the Connecticut Radio Foundation (WEDH), Hartford, and the WGBH Educational Foundation (WGBH–TV), Boston, Massachusetts. In addition to the pleadings and material in the record of the proceeding when Oral Argument was heard on June 27–28, 1955, the Commission now has before it the following pleadings: "Petition for Leave to File Additional Comments" and "Additional Comments" filed on October 17, 1955, by General Times Television Corporation, New Britain Broadcasting Company, Hampden-Hampshire Corporation and Springfield Television Broadcasting Corporation; a "Petition to Adopt Policy of Deintermixture or for Alternative Relief" filed on October 18, 1955, by the same four parties; "Opposition to Petition for Leave to File Additional Comments" filed on October 20, 1955, by Travelers Broadcasting Service Corporation, "Statement with Respect to Matters Not of Record" filed on October 28, 1955, by the same four parties; and Petitions for Further Oral Argument filed on November 4, 1955, by General Times Television Corp., New Britain Broadcasting Co., Hampden-Hampshire Corp., Springfield Television Broadcasting Corp., and Channel 16 of Rhode Island, Inc.; and by Eastern Connecticut Broadcasting Company on November 9, 1955.

(e) *Albany-Schenectady-Troy, New York (Docket No. 11238).* This proceeding involves the request of Hudson Valley Broadcasting Company, Inc. (WROW-TV), Albany, New York, for the assignment of Channel 10 to Vail Mills, New York, as a "drop-in" to bring a second VHF service to the Albany-Schenectady-Troy area, and the alternative request of Van Curler Broadcasting Company (WTRI), Albany for the elimination of the intermixture of commercial VHF and UHF assignments in the Tri-Cities area by shifting the educational reservation at Albany from Channel 17 to Channel 6 and by modifying General Electric Company's authorization to operate Station WRGB on Channel 6 at Schenectady, New York, to specify operation on Channel 17. Other parties participating in the proceeding include Greylock Broadcasting Company (WMGT), North Adams, Massachusetts; the General Electric Company (WRGB), Schenectady; Walter C. Neals, Albany, and the State Education Department of the University of the State of New York (WTVZ), Albany. In addition to the pleadings and material in the record of the proceeding when Oral Argument was heard on June 27–28, 1955, the Commission now has before it a "Petition to Adopt Policy of Deintermixture or for Alternative Relief" filed by Greylock Broadcasting Company on October 18, 1955; a "Petition to Reopen Proceedings" filed by Van Curler Broadcasting Corporation on October 25, 1955, an Opposition to the Van Curler petition filed on October 28, 1955, by Hudson Valley Broadcasting Company and a Petition for Further Oral Argument filed November 4, 1955, by Greylock Broadcasting Company.

2. The petitioners in these proceedings are UHF broadcasters. With the exception of Hudson Valley, which requests the assignment of Channel 10 to Vail Mills, the petitioners seek to deintermix the VHF and UHF assignments in their communities by eliminating VHF commercial channel assignments by reserving them for educational use, shifting them to another community, or by deleting them. The VHF channels which would be affected by the petitioners' basic proposals, with the exception of Channel 6 in Schenectady on which Station WRGB is operating, have not yet been granted by the Commission. However, applications are pending for the VHF channels in the other four cases—Peoria, Evansville, and Hatfield, Madison, and Hartford—and lengthy comparative hearings have been conducted to select the best qualified applicant. Initial Decisions have been rendered by the Hearing Examiner in the Evansville, Peoria, and Madison cases and Oral Argument has been heard by the Commission. In the Hartford case, an Initial Decision has been issued and Oral Argument is being awaited. In Hatfield, the hearing has been concluded and proposed findings have been filed, but an Initial Decision has not yet been issued.

3. A grant of the deintermixture petitions in these proceedings would enable the UHF broadcasters to avoid competition from VHF stations in their own communities or immediate areas. In support of their proposals the petitioners cite the familiar difficulties which have been encountered by UHF broadcasters in competing with VHF. They urge that the opportunities for a full utilization of the locally assigned UHF channels will be substantially reduced by the advent of a local VHF station or, as in the case of the Albany-Schenectady-Troy area, the continued operation of a VHF station already on the air. Referring to the experience of UHF broadcasters generally where UHF and VHF assignments are intermixed, the UHF broadcasters submit that deintermixture as proposed for their respective communities would insure a larger number of local television services and a healthy, competitive television operation in their communities.

4. It is necessary, however, not to lose sight of the fact that the communities involved in the instant proceedings represent only limited segments of the overall problem, which is nationwide in scope. The five rule making proceedings now under consideration were initiated in the hope that a detailed examination of the problem in the light of circumstances prevailing in these communities would provide the basis on which the Commission could formulate policies applicable generally in the effort to alleviate a nationwide problem.[1] In addition to the instant five cases, petitions had been submitted seeking similar action in approximately 15 other communities. But the scope of the problem does not end there.

5. Careful review of the comments and data submitted in the instant proceedings has convinced us that it would not be useful to attempt to find solutions of lasting value within the relatively limited scope of the instant proceedings.[2] Although they have shed helpful light on the problems associated with deintermixture, including the disposition of the channels sought to be removed, the question of "white areas" and others, it has become clear that these proceedings provide an inadequate basis for the formulation of policies which must take due account of the extensive and intricate

[1] In our Notice of Further Rule Making (FCC 55–492) in Docket No. 11238, issued April 21, 1955, we explained that we were "attempting to arrive at a decision of future policy to be uniformly followed, wherever possible, in the effectuation of our Allocation Table for a nationwide television system."

[2] On August 29, 1955, Monona Broadcasting Company and Bartell Television Corporation filed a petition requesting the Commission to take official notice, or to permit limited reopening of the record in the Madison proceeding to admit certain figures released in August 1955 by the United States Census Bureau. Radio Wisconsin, Inc. filed a response to this request. This data has been considered by the Commission.

In the Evansville case, On The Air, Inc. moved to strike the comments of Mid-America Broadcasting Corporation, contending that it would be illegal for the Commission to adopt Mid-America's proposal without further rule making. Owensboro On The Air, Inc. and Owensboro Publishing Company also moved to dismiss Mid-America's comments. Mid-America filed a reply to these motions. Mid-America's comments have been considered in the proceeding.

interrelationships of all parts of the Table of Assignments.

6. Petitioners seek alleviation of a nationwide problem by action directed toward their individual, local communities. Whatever the merits of their contentions that local deintermixture would benefit the particular UHF operators and their local communities, the Commission has serious doubts that the requested relief would be meaningful with respect to the general problem. It is noted that most of these petitions are directed toward those communities where both VHF channels and UHF are now allocated but where no VHF stations (or, in some instances not more than one) have commenced operation, apparently on the theory that deintermixture should be accomplished wherever VHF stations have not yet become so established that, in the view of petitioners, deintermixture is no longer feasible. In our opinion, if deintermixture, even on a partial basis, should finally be determined to be a useful method of resolving the overall problems, the particular communities for its application should not be selected merely because of the fortuitous circumstance of whether a VHF station has commenced operation in any particular community. Certainly there is nothing in the records before us which would lead us to conclude that the limited deintermixture here sought would provide any significant help in resolving the difficulties now confronting UHF broadcasters in other communities, or for that matter, whether the relief that might result in the areas directly involved, would materially strengthen UHF in general. There is little, if any, reason to believe, for instance, that the reassignment of channels as requested in the instant petitions, and in the other pending petitions seeking similar relief, would significantly stimulate the conversion of VHF receivers, the increased sale of combination UHF–VHF sets, the improvement of UHF transmitting and receiving equipment or the elimination of UHF and VHF equipment cost differentials. Moreover, apart from the question of whether deintermixture would provide lasting benefit to the specific communities in question here, it is not possible to ascertain on the basis of the instant rule making proceedings whether deintermixture on the basis proposed by petitioners would be consistent with measures which the Commission must consider in a separate rule making proceeding of much broader scope to cope with the nationwide problem.

7. The present system of intermixed channel assignments is basic to the structure of television allocations established by the Sixth Report and Order. We believe that any modification of the Table of Assignments which would involve significant departures from this system of assignments requires a thorough reexamination of the entire television structure. The interrelationships between the particular circumstances in specific cases and the nationwide television system as a whole cannot be disregarded. In the Commission's opinion, considerations of both fairness and practicability preclude an ad hoc approach such as that suggested by the petitioners in these proceedings.

8. The Commission is convinced that if lasting solutions to the allocation problems now confronting the development of a nationwide competitive television service are to be found, the approach must be nationwide in scope. Accordingly, in order to facilitate the orderly examination of a number of possible solutions, the Commission is instituting a general rule making proceeding. Only through such a general proceeding do we believe the Commission may thoroughly and effectively treat this matter. Accordingly, the Commission believes that the public interest would be best served by denying the instant requests for deintermixture. Petitioners will have the opportunity of participating in the general rule making proceedings and our denial of their petitions is without prejudice to any action the Commission may take as a result of that proceeding.

9. The Hudson Valley proposal presents a different problem. Hudson Valley requests the assignment of a new channel, Channel 10, to Vail Mills, a small community located in the Albany-Schenectady-Troy area, about 20 miles northwest of Schenectady. The Hudson Valley proposal comports with the Commission's present television allocation plan and rules. Unlike the proposals for deintermixture, the petition to assign Channel 10 to Vail Mills is consistent with the rules and principles of our present television allocations established in the Sixth Report and Order. Channel 10 would meet the present minimum spacing requirements and all other standards.[3] Until a decision has been reached on possible amendments to our present allocation, the Commission believes that it would not be justified in withholding action, pursuant to our present allocation plan and rules, that would bring additional television service to a significant number of people. Refusing to make use of this valuable VHF frequency as contemplated by the present rules would, we believe, be a waste of valuable spectrum space for which active demand is indicated. Channel 10 in Vail Mills will represent a second television service to an appreciable percentage of families residing in the area, as well as a first service to a significant number of families. We do not believe that we would be justified in withholding this service, which can be afforded under our present rules even though we are presently considering possible amendments to our allocations. Accordingly, we are amending our rules to add the assignment of Channel 10 to Vail Mills.

10. A number of parties have filed requests for additional time for the filing of supplementary comments, or for the reopening of the record for the submission of additional material or for other relief. The submitted basis of these pleadings is that matters have been presented to the Commission outside of the formal framework of comments and arguments provided for in the procedures governing consideration of the petitions and notices of proposed rule making. In short, an opportunity to reply to this matter is requested. The material referred to related to possible national reallocation schemes. It does not pertain to the merits of granting or denying the particular petitions before us, except as part of such a nationwide approach. We have determined that the records now before us are inadequate to support a grant of the requested deintermixture because of their limited scope. We of course have knowledge, and should, of other and more general suggestions informally submitted to us or before Congressional committees. Having decided upon these records that some approach other than piecemeal deintermixture must be followed, we will afford an opportunity for the formal submission of nationwide solutions in the general rule making proceeding we are concurrently instituting. Whatever plans or solutions which may there be advanced by those persons who were not parties to the present proceedings will be considered in that proceeding, and an opportunity afforded for the submission of supporting or adverse comment. In view of our decision in the instant proceedings, and the fact that a new proceeding of wider scope will now be held, there is no point in reopening the present proceedings to insert comments, and replies thereto, whose function is to discuss nationwide plans and whose proper forum is the general rule making proceeding in which all interested parties may participate.

11. There are also pending in the Evansville case (Docket No. 11334) petitions filed on November 7, 1955, by Mid-America Broadcasting Corp. and Premier Television, Inc., and Ohio Valley Television Company, jointly, which request, inter alia, consolidation of the rule making proceeding concerning deintermixture in Evansville and Hatfield with the two adjudicatory proceedings instituted for the purpose of choosing among mutually exclusive applications for VHF Channels 7 and 9 assigned to those cities. The same petitions also request an amendment of the rules which would preclude action on applications for construction permits for new television stations until after disposition of all pending petitions for rule making and rule making proceedings looking toward removal of the particular channel assignments applied for. The Commission does not believe that it would be desirable to confuse the rule making proceeding with questions of the comparative merits of mutually exclusive applications, which are at issue in the adjudicatory proceedings. Moreover, it would serve no useful purpose to burden the rule making process by consolidating the two matters since, as we point out in paragraph 6 above, final decision on deintermixture of VHF and UHF channels in any community should not be governed by the existence or absence of a VHF station in the community. Nor does the Commission believe that it would serve the public interest to adopt the proposed amendment to the rules, which

[3] It is noted that Vail Mills does not have a post office. A post office, however, is not a prerequisite to the assignment of a television channel. The post office is merely a convenient reference point; and the lack of a post office in a community does not bar an assignment.

would be tantamount to a freeze on authorizations for new television stations. The Commission believes that it must retain the discretion to determine on a case-by-case basis when the public interest requires that it freeze its adjudicatory processes during the pendency of rule making. (See FCC v. WJR, The Goodwill Station, Inc., 337 U. S. 265. The Commission is of the opinion that the procedural inflexibilities petitioners seek to introduce are neither necessary nor desirable. The petitions referred to at the beginning of this paragraph are, accordingly, denied. The petitions for intervention in the adjudicatory proceedings, which were incorporated in the same documents with the foregoing requests, are not disposed of here. Various requests for stays in adjudicatory proceedings are also not disposed of here.

12. Several additional petitions advert to the fact that Commissioner Mack was not yet a member of the Commission at the time the oral arguments were held in the instant proceedings and request further oral argument for the purpose of enabling Commissioner Mack to participate in these proceedings, and to afford an opportunity to present views on courses of action which petitioners state were not contemplated at the time of the initial oral arguments. It should be recognized at the outset that there is no requirement of law that an oral argument be afforded in a rule making proceeding. FCC v. WJR, The Goodwill Station, Inc., et al., 337 U. S. 265. Daily News Television Company, 7 Pike & Fischer, R. R. 839. The Commission, within its discretion, heard oral arguments in these proceedings. However, we see no necessity for further argument. Petitioners' reference to participation by Commissioner Mack erroneously presupposes that because he took office after the oral arguments were held, he is not qualified to participate in decisions adopted in these proceedings. In the Commission's view, no such limitation affects the qualifications of a Commissioner to participate in these proceedings. The full record in the proceedings, including the transcript of the oral arguments, has been available to Commissioner Mack; and he has read the transcript. There is no bar to participation by a Commissioner who takes office after an oral argument if the Commissioner has read the transcript of the argument. See Eastland Co. v. FCC, 92 F. 2d 467, cert. den. 302 U. S. 735. The petitions requesting further oral argument in these proceedings are accordingly denied.

13. Authority for the adoption of the amendment herein is contained in Sections 4 (i), 301, 303 (c), (d), (f) and (r), and 307 (b) of the Communications Act of 1934, as amended.

14. In view of the foregoing: *It is ordered*, That the foregoing petitions for deintermixture listed in paragraph 1 above, are denied.

15. *It is further ordered*, That, effective December 16, 1955, the Table of Assignments contained in § 3.606 of the Commission's rules and regulations is amended insofar as the city named is concerned as follows:

City:	Channel
Vail Mills, N. Y.	10—

(Sec. 4, 48 Stat. 1066, as amended; 47 U. S. C. 154. Interprets or applies secs. 301, 303, 307, 48 Stat. 1081, 1082, 1084; 47 U. S. C. 301, 303, 307)

Adopted: November 10, 1955.

Released: November 10, 1955.

FEDERAL COMMUNICATIONS COMMISSION,[1]
[SEAL] MARY JANE MORRIS,
Secretary.

[F. R. Doc. 55-9210; Filed, Nov. 15, 1955; 8:50 a. m.]

TITLE 50—WILDLIFE

Chapter I—Fish and Wildlife Service, Department of the Interior

Subchapter E—Alaska Wildlife Protection

PART 46—TAKING ANIMALS, BIRDS, AND GAME FISHES

SEASONS, LIMITS AND OTHER PROVISIONS

Basis and purpose. On May 24, 1955, amendments to Part 46, Title 50, Code of Federal Regulations, were adopted to prescribe hunting, trapping and fishing seasons and limits on game and fur animals, birds, and game fishes in Alaska for the season beginning July 1, 1955. These amendments were adopted pursuant to authority contained in section 9 of the Alaska Game Law of January 13, 1925, as amended (43 Stat. 743; 48 U. S. C. 198), and were published in the FEDERAL REGISTER on June 4, 1955 (20 F. R. 3895).

The schedule constituting a part of § 46.102 of these regulations prescribed open seasons on moose (bulls with forked antlers or larger) extending from August 20 through September 20 and from November 10 through November 30 in the Susitna and Matanuska River drainages west of 148° W. longitude. The reference to the drainages of the two rivers mentioned had the effect of excluding from the area opened to moose hunting important moose range in the Wasilla-Knik Arm and Little Susitna drainages where moose concentrations have increased to such an extent as to become a menace to the populated districts located in this general area. With a view to reducing the concentration of moose in such populated districts, the Alaska Game Commission early in 1955 had recommended that a 20-day moose season in November be prescribed which would include not only the drainages of the Susitna and Matanuska Rivers but would also include the lands lying between the drainages of these two streams and the area southeast of Knik Arm. In order to provide an area description which will carry the recommendations of the Alaska Game Commission into effect and thus contribute toward the reduction of moose concentrations in the areas where they principally occur, the regulations under the Alaska Game Law are amended as follows:

1. The schedule constituting a part of § 46.102 *Seasons, limits and other provisions*, as the same appears in 20 F. R. 3896 and 3897, is amended in that part of the text which appears under the subheading "Moose (bulls with forked antlers or larger)", column heading "Areas open to hunting", by deleting the area description "Susitna and Matanuska River drainages west of 148° W. longitude" and by substituting therefor the area description "The drainage to Cook Inlet north of 61°5′ N. latitude and west of 148° W. longitude". As so amended, the said schedule, in pertinent part, will read as follows:

Areas open to hunting	Seasons	Limits
• • •	• •	•
Moose (bulls with forked antlers or larger)		
• • •	• •	•
The drainage to Cook Inlet north of 61°5′ N. latitude and west of 148° W. longitude.	Aug. 20–Sept. 20, Nov. 10–30.	1 bull a year.
• • •	• •	•

(Sec. 9, 43 Stat. 743, as amended; 48 U. S. C. 198)

Since this amendment relieves existing restrictions on the taking of moose in the Territory of Alaska, notice and public procedure are unnecessary and it shall become effective immediately. (5 U. S. C. 1003 (c))

Issued at Washington, D. C., and dated November 7, 1955.

DOUGLAS MCKAY,
Secretary of the Interior.

[F. R. Doc. 55-9186; Filed, Nov. 15, 1955; 8:45 a. m.]

TITLE 24—HOUSING AND HOUSING CREDIT

Chapter II—Federal Housing Administration, Housing and Home Finance Agency

Subchapter F—Rehabilitation and Neighborhood Conservation Housing Insurance

PART 261—HOME REHABILITATION INSURANCE; ELIGIBILITY REQUIREMENTS OF MORTGAGE COVERING ONE- TO ELEVEN-FAMILY DWELLINGS

PART 266—HOME RELOCATION INSURANCE; ELIGIBILITY REQUIREMENTS OF MORTGAGE COVERING SINGLE FAMILY DWELLINGS

MISCELLANEOUS AMENDMENTS

1. Section 261.1 (a) is amended by adding to the listed provisions the following:

§ 261.1 *Incorporation by reference.*
(a) • • •

§ 221.18 Payments and maturity dates.

• • • • • •

2. Part 261 is amended by adding a new § 261.7a as follows:

§ 261.7a *Payments and maturity dates.* The mortgage should come due on the first of a month and must have a maturity satisfactory to the Commissioner not to be less than 4 nor more than 30 years from the date of the insurance; or three-quarters of the Commissioner's estimate of the remaining economic life of the building improvements, whichever is the lesser. The amortization period should be either 10, 15, 20, 25, or 30 years by providing for either 120, 180, 240, 300, or 360 monthly amortization payments.

3. Section 266.1 (a) is amended by adding to the listed provisions the following:

§ 266.1 *Incorporation by reference.*
(a) • • •

§ 221.18 Payments and maturity dates.

• • • • • •

4. Part 266 is amended by adding a new § 266.6a as follows:

§ 266.6a *Payments and maturity dates.* The mortgage should come due on the first of a month and must have a maturity satisfactory to the Commissioner not to be less than 4 nor more than 30 years from the date of the insurance; or three-quarters of the Commissioner's estimate of the remaining economic life of the building improvements, whichever is the lesser. The amortization period should be either 10, 15, 20, 25, or 30 years by providing for either 120, 180, 240, 300, or 360 monthly amortization payments.

(Sec. 211, 52 Stat. 23; 12 U. S. C. 1715b)

Issued at Washington, D. C., November 10, 1955.

NORMAN P. MASON,
Federal Housing Commissioner.

TITLE 15—COMMERCE AND FOREIGN TRADE

Chapter II—National Bureau of Standards, Department of Commerce

Subchapter A—Test Fee Schedules

PART 205—CHEMISTRY

Subchapter B—Standard Samples

PART 230—STANDARD SAMPLES AND REFERENCE STANDARDS ISSUED BY THE NATIONAL BUREAU OF STANDARDS

TEST FEE SCHEDULES AND STANDARD SAMPLES

In accordance with the provisions of section 4 (a) and (c) of the Administrative Procedure Act, it has been found that notice and hearing on these schedules of fees are unnecessary for the reason that such procedure, because of nature of these rules, serve no useful purpose. These schedules are effective from November 7, 1955.

1. Section 205.701 is added to read as follows:

§ 205.701 *High-purity methane gas.*

Item	Description	Fee
205.701a	Certification of Heating Value of sample of high-purity methane gas submitted by the American Gas Association for use in calibration of recording gas calorimeters	$20.00

2. Section 230.11 *Descriptive list* is amended as set forth below:

a. Paragraph (b) *Irons* is amended to add standard 3 to read as follows:

Sample No.	Name	Approximate weight of sample in grams	Price per sample
3	White iron	125	$4.25

b. Paragraph (f) *Ceramic materials* is amended to add standard 177 to read as follows:

Sample No.	Name	Approximate weight of sample in grams	Price per sample
177	Portland cement	(1)	$4.25

[1] Three 5-gram portions sealed in glass vials.

c. Paragraph (p) *Standards for rubber compounding* is amended to add standards 377, 378, 379, 380 and 381 to read as follows:

Sample No.	Name	Approximate weight of sample in grams	Price per sample
377	Phenyl-beta-naphthylamine	600	$4.00
378	Oil furnace black	7,000	3.50
379	Conducting black	5,500	3.50
380	Calcium carbonate	6,000	2.50
381	Calcium silicate	4,000	2.50

d. Paragraph (r) *Radioactive standards* is amended to add standards 4925 through 4932, revise standards 4900 through 4903, 4910 through 4924, 4950 through 4952, 4955 through 4964, and to delete standards 4987 through 4999 to read as follows:

(r) *Radioactive standards.*[1]

ALPHA-BETA-GAMMA STANDARDS

Sample No.	Radiation	Nuclide	Nominal activity •	Volume	Price per sample
4900	α	Polonium-210 [b]	200 dps	(c)	$20.00
4901	α	Polonium-210 [b]	500 dps	(c)	20.00
4902	α	Polonium-210 [b]	1000 dps	(c)	20.00
4903	α	U_3O_8 [d]	15 dps	(c)	20.00
4910	$\beta(\alpha)$	RaD+E [e]	200 dps	(c)	20.00
4911	$\beta(\alpha)$	RaD+E [e]	500 dps	(c)	20.00
4912	$\beta(\alpha)$	RaD+E [e]	1000 dps	(c)	20.00
4913	$\beta(\gamma)$	Cobalt-60	10^4 dps/ml [g]	(h)	20.00
4914	$\gamma(\beta)$	Cobalt-60	10^5 dps	5.0 ml	20.00
4915	$\gamma(\beta)$	Cobalt-60	10^6 dps	5.0 ml	20.00
4916	β	Phosphorous-32 [i]	10^3 dps/ml [g]	(h)	20.00
4917	$\beta(\gamma)$	Iodine-131 [i]	10^3 dps/ml [g]	(h)	20.00
4918	$\beta(\gamma)$	Gold-198 [i]	10^3 dps/ml [g]	(h)	20.00
4919	β	(Strontium-90 / Yttrium-90)	10^4 dps/ml [g]	(h)	20.00
4920	β	Thallium-204	10^4 dps/ml [g]	(h)	20.00
4921	$\beta(\gamma)$	Sodium-22	10^4 dps [f]/ml [g]	(h)	20.00
4922	$\gamma(\beta)$	Sodium-22	10^6 dps	5.0 ml	20.00
4923	$\beta(\gamma)$	Sodium-24 [i]	10^3 dps/ml [g]	(h)	20.00
4924	β	Carbon-14	10^3 dps/ml [g]	25.0 ml	20.00
4925	β	Carbon-14 [j]	10^4 dps/g	(k)	20.00
4926	β	Hydrogen-3	10^4 dps/ml	25.0 ml	20.00
4927	β	Hydrogen-3	10^6 dps/ml	(h)	20.00
4928	β	Sulphur-35	10^4 dps/ml [g]	(h)	20.00
4929	$K(\gamma)$	Iron-55	10^4 dps/ml	(h)	20.00
4930	$K(\gamma)$	Zinc-65	10^5 dps/ml	(h)	20.00
4931	$\gamma(\beta)$	Cesium-137	10^6 dps/ml	5.0 ml	20.00
4932	$\gamma(\beta)$	Mercury-203	10^6 dps/ml	5.0 ml	20.00

• The disintegration rate as of the reference date is given on a certificate accompanying the standard.

[b] Samples consist of polonium-210, deposited on a silver disk 1 inch in diameter, 1/16 inch thick and faced with 0.002 inch of palladium.

[c] Deposited source.

[d] Samples consist of U_3O_8 deposited on a 0.1 millimeter platinum foil and mounted on an aluminum disk, 1¼ inch in diameter and 1/32 inch thick. The alpha-ray disintegration rate as of the date of calibration is indicated on the certificate accompanying the standard.

[e] Evaporated source.

[f] Standards consist of Ra_D–$_{210}$—Bi–$_{210}$ in equilibrium, deposited on the 0.002 inch thick palladium face of a silver palladium disk.

[g] Total activity has been adjusted so that AEC authorization is not required.

[h] Approximately 2 milliliters of low-solids carrier solution containing the active nuclide in a flame-sealed ampoule.

[i] Distributed periodically at announced intervals.

[j] For use in liquid scintillation counters.

[k] Crystallized benzoic acid.

RADIUM STANDARDS (FOR RADON ANALYSIS)

Sample No.	Radium content	Volume (ml) •	Price per sample
4950	10^{-3} gram	100	$20.00
4951	10^{-11} gram	100	20.00
4952	Blank solution	100	2.00

• Samples are sealed in glass containers.

RADIUM GAMMA-RAY STANDARDS

Sample No.	Description	Radium content	Volume (ml) •	Price per sample
4955	Radium	0.1×10^{-4} gram	5	$20.00
4956	Radium	0.2	5	20.00
4957	Radium	0.5	5	20.00
4958	Radium	1.0	5	20.00
4959	Radium	2.0	5	20.00
4960	Radium	5.0	5	20.00
4961	Radium	10	5	20.00
4962	Radium	20	5	20.00
4963	Radium	50	5	20.00
4964	Radium	100	5	20.00

• Samples are contained in flame-sealed glass ampoules.

[1] Radioactive standards are shipped express collect.

[1] Dissenting statements of Commissioners Hyde and Bartley and statement of Commissioner Webster concurring in part and dissenting in part are filed as part of original document.

ROCK AND ORE STANDARDS—RADIUM ROCK SAMPLES *

Sample No.	Rock	Average radium content (gram of radium per gram of rock)	Price per sample
4975	Dunite	$(0.009\pm0.004)\times10^{-12}$	$3.00
4976	Carthage limestone	0.14 ± 0.03	3.00
4977	Berea sandstone	0.24 ± 0.02	3.00
4978	Columbia River basalt	0.33 ± 0.03	3.00
4979	Chelmsford granite	2.96 ± 0.08	3.00
4980	Quartzite	0.06 ± 0.01	3.00
4981	Graniteville granite	3.3 ± 0.2	3.00
4982	Gabbro-diorite	0.18 ± 0.02	3.00
4983	Milford granite	0.23 ± 0.02	3.00
4984	Triassic diabase	0.18 ± 0.03	3.00
4985	Deccan trap	0.21 ± 0.04	3.00
4986	Kimberlite	0.59 ± 0.04	3.00

* Each sample consists of 100 g of pulverized rock taken from bulk material analyzed for radium content. Petrographic data and approximate chemical analysis of a representative sample of each rock is also given in a certificate accompanying each sample.

(Sec. 9, 31 Stat. 1450, as amended; 15 U. S. C. 277. Interprets or applies sec. 8, 31 Stat. 1450, as amended; 15 U. S. C 276)

TITLE 43—PUBLIC LANDS: INTERIOR

Chapter I—Bureau of Land Management, Department of the Interior

[Circular 1942]

PART 192—OIL AND GAS LEASES

EXTENSION FOR TERMS OF COOPERATIVE OR UNIT PLAN

Paragraph (c) of § 192.122 is amended to read as follows:

§ 192.122 *Extension for terms of cooperative or unit plan.* * * *

(c) Any lease committed after July 29, 1954 to such a plan, which covers lands within and lands outside the area covered by the plan, shall be segregated, as of the effective date of unitization, into separate leases; one covering the lands committed to the plan and the other the lands not so committed. The segregated lease covering the nonunitized portion of the lands, shall continue in force and effect for the term thereof but for not less than two years from the date of segregation, and so long thereafter as oil or gas is produced in paying quantities.

(Sec. 32, 41 Stat. 450; 30 U. S. C. 189)

PROPOSED RULE MAKING

DEPARTMENT OF AGRICULTURE

Agricultural Marketing Service

[7 CFR Part 983]

TYPE 62 SHADE-GROWN CIGAR-LEAF TOBACCO GROWN IN DESIGNATED PRODUCTION AREA OF FLORIDA AND GEORGIA

PROPOSED TERMINATION OF SUSPENSION OF MARKETING AGREEMENT NO. 112 AND ORDER NO. 83

Effective February 1, 1955, an order (19 F. R. 585) was issued suspending Marketing Agreement No. 112 and Order No. 83 (7 CFR Part 983) regulating the handling of Type 62 shade-grown cigar-leaf tobacco grown in the designated production area of Florida and Georgia. Notice is hereby given that the Secretary of Agriculture is considering whether or not to terminate such suspension on January 31, 1956. If the suspension is terminated, the provisions of the Marketing Agreement and Order, including the provisions which prohibit the handling of any of the seven top stalk leaves immediately below the seed head of any tobacco plant that was not topped, or any of the four top stalk leaves of a tobacco plant that was topped, will automatically become operative.

All persons who desire to submit written data, views, or arguments in connection with the aforesaid proposal may file the same with the Director of the Tobacco Division, Agricultural Marketing Service, Room 3521 South Building, United States Department of Agriculture, Washington 25, D. C., not later than the close of business on the 30th day after the publication of this notice in the FEDERAL REGISTER. All documents should be filed in quadruplicate.

All terms used herein have the same meaning as when used in the marketing agreement and order.

(Sec. 5, 49 Stat. 753, as amended; 7 U. S. C. 608c)

Issued at Washington, D. C., this 10th day of November 1955.

[SEAL] STEPHEN E. WRATHER,
Director, Tobacco Division, Agricultural Marketing Service.

[F. R. Doc. 55-9219; Filed, Nov. 15, 1955; 8:52 a. m.]

DEPARTMENT OF LABOR

Division of Public Contracts

[41 CFR Part 201]

GENERAL REGULATIONS

NOTICE OF EXTENSION OF TIME TO SUBMIT VIEWS AND ARGUMENTS

On October 26, 1955, there was published in the FEDERAL REGISTER (20 F. R. 8051) a notice that I proposed to amend Part 201 of the General Regulations (41 CFR Part 201) by the revocation of § 201.101 (b) (2) and by the amendment of § 201.603 to exempt certain persons from the requirement of section 1 (a) of the Walsh-Healey Public Contracts Act that they represent they are manufacturers or regular dealers in coal. The notice provided that within thirty days from the date of its publication, interested persons could submit in writing to the Office of the Administrator of the Wage and Hour and Public Contracts Divisions, United States Department of Labor, Washington, D. C., their views, arguments or data relative to the proposed amendments.

Notice is hereby given that, upon good cause shown, the time for filing with the Office of the Administrator, such written views, arguments or data relative to the proposed amendments of Part 201 is extended to December 27, 1955.

Signed at Washington, D. C., this 10th day of November 1955.

ARTHUR LARSON,
Acting Secretary of Labor.

[F. R. Doc. 55-9216; Filed, Nov. 15, 1955; 8:51 a. m.]

CIVIL AERONAUTICS BOARD

[14 CFR Parts 4b, 40, 41, 42]

[Draft Release No. 55-26]

FLIGHT RECORDERS

NOTICE OF PROPOSED RULE MAKING

Notice is hereby given that the Civil Aeronautics Board has under consideration the adoption of proposed amendments to Parts 4b, 40, 41, and 42 of the Civil Air Regulations as hereinafter set forth.

Interested persons may participate in the making of the proposed rules by submitting such written data, views, or arguments as they may desire. Communications should be submitted in duplicate to the Civil Aeronautics Board, attention Bureau of Safety Regulation, Washington 25, D. C. In order to insure their consideration by the Board before taking further action on the proposed rules, communications must be received by January 16, 1956. Copies of such communications will be available after

January 18, 1956, for examination by interested persons at the Docket Section of the Board, Room 5412, Department of Commerce Building, Washington, D. C.

On two occasions within the past several years the Board has amended the Civil Air Regulations to require the use of a recording device on scheduled air carrier aircraft. In both instances the Board found it necessary to rescind the amendments since the instruments then available were found to be unreliable and inadequate for the purpose intended. The Board gave notice, however, that a requirement for a recording device would be reconsidered at such time as a suitable instrument was available.

We are now informed that a suitable flight recorder is available. This recorder gives evidence of being a rugged, self-contained instrument which records time, airspeed, pressure altitude, vertical acceleration, and heading directly on aluminum foil. It operates for 300 hours flight time between changes of record and requires no attention of the flight crew in operation. The record can be quickly removed and read at any time without processing. The instrument is enclosed in a 13-inch diameter spherical shell designed for reduction of impact damage and for protection of the record during crash impacts and fire following crashes. Weight of the installed instrument is approximately 25 pounds. The instrument will float in water and the record foil is resistant to attack by sea water. Although this instrument does not record communications, the lack of this feature is of minor importance due to the steadily increasing number of communication centers which automatically record all outgoing and incoming radio transmissions. This instrument has undergone 5,300 hours of satisfactory service testing.

In view of the foregoing, notice is hereby given that it is proposed to amend the appropriate parts of the Civil Air Regulations to require the installation of flight recorders on certain aircraft.

It has been recommended that the regulations be amended to provide that all four-engine and all two-engine airplanes originally type certificated under Parts 4a and 4b of the Civil Air Regulations having a maximum certificated take-off weight of more than 12,500 pounds shall not be operated in air transportation unless they are equipped with instrumentation to record continuously during flight the following information: Time, vertical acceleration, airspeed, pressure altitude, and direction. The recorder would have to comply with design specifications prescribed by the Administrator of Civil Aeronautics. It was further recommended that the air carriers be required to preserve flight recorder records for a period of 30 days.

In support of this recommendation, it was maintained that the recorder would provide useful information with respect to accident prevention and accident investigation which would be of value not only to government agencies, but also to the airlines. For example, a study of the flight record would disclose information with respect to the need for structural inspection of the aircraft after hard landings or severe turbulence and whether flights have been conducted in accordance with clearances and approved operating procedures.

As an alternative to the foregoing, it has also been recommended that the regulations be amended to require the installation of this instrument only on transport category airplanes designed to operate above 25,000 feet altitude. Such a proposal is based upon the assumption that justification for requiring flight recorders exists only for airplanes which are intended for operations at high altitudes where little operational experience exists. Thus, the installation of recorders on such airplanes would contribute to overall safety of operation.

In addition to the two alternatives described, the Board would welcome any other proposals as to types of aircraft and operations for which flight recorders should be required.

These amendments are proposed under the authority of Title VI of the Civil Aeronautics Act of 1938, as amended. The proposals may be changed in the light of comments received in response to this notice of proposed rule making.

(Sec. 205, 52 Stat. 984; 49 U. S. C. 425. Interpret or apply secs. 601-610, 52 Stat. 1007-1012, as amended; 49 U. S. C. 551-560)

Dated at Washington, D. C., November 10, 1955.

By the Civil Aeronautics Board.

[SEAL] M. C. MULLIGAN,
Secretary.

[F. R. Doc. 55-9222; Filed, Nov. 15, 1955; 8:53 a. m.]

FEDERAL COMMUNICATIONS COMMISSION

[47 CFR Part 3]

[Docket No. 11532; FCC 55-1124]

TELEVISION BROADCAST STATIONS

NOTICE OF PROPOSED RULE MAKING

In the matter of amendment of Part 3 of the Commission's rules and regulations governing Television Broadcast Stations.

1. The Commission's present television assignment plan, promulgated in its Sixth Report and Order in 1952, was designed to lay the foundation for the development of a nationwide competitive television system which would meet a series of stated objectives. These objectives may be briefly summarized as follows:

(a) At least one service to all areas.

(b) At least one station in the largest possible number of communities.

(c) Multiple services in as many communities as possible to provide program choice and to facilitate competition.

2. To some extent these objectives have been realized. Over 90 percent of the population can receive a degree of service from at least one television station. Approximately 75 percent can receive a degree of service from two or more stations. Almost 275 communities have at least one, and 112 of these have two or more, local television facilities in operation. Over 430 stations are now on the air, and the number of television sets in the hands of the public has increased to 35 million.

3. But despite this tremendous growth, it is evident from recent experience that a nationwide competitive television service has not been realized to the extent contemplated at the time the Commission issued its Sixth Report and Order. Many of the smaller communities are without a first local outlet and the expansion of multiple, competing services in the larger economic and population centers of the country is lagging. Difficulties encountered in achieving successful operation of stations in the UHF band have been a significant factor leading to this situation.

4. The familiar difficulties presently facing television broadcasters raise questions with respect to basic elements of the standards and principles established by the Commission in the Sixth Report and Order. And while these difficulties have varying impact on individual broadcasters and communities, they are manifestly nationwide in scope and may have far-reaching implications for the future of the television system as a whole. The Commission is therefore convinced that any approach to their solution must take cognizance of the overall, national scope of the problem.

5. The Commission recognizes that some of the present hindrances to the further expansion of television service in many communities are due to causes which lie beyond its control. To an appreciable extent these problems are basically economic and arise out of the limits beyond which it is not possible, at the present stage of the development of the television art, to obtain sufficient economic support to meet the high costs of construction, programming and operation of television stations. On other aspects of the problem, relating for example to the improvement of transmitting and receiving equipment, the industry itself can make valuable contributions. At the same time, the Commission wishes to insure that to the extent that any of the present difficulties may be alleviated by possible revision of the present allocation system, such possibilities will be fully explored.

6. The Commission has received a number of proposals from interested segments of the industry, which although they envisage fundamental departures from the present system adopted in the Sixth Report and Order and approach the problem on a nationwide basis, do not challenge the Commission's basic objectives. Some of the techniques suggested for alleviating the difficulties involve the use of additional VHF frequencies; the reduction of minimum separations to make additional VHF channel assignments possible, using either the present 12 VHF channels or new VHF channels, or both; deintermixture on a basis consistent with a nationwide solution; and other techniques. A number of the proposals include suggestions for modifications of the present standards which would permit the use of directional antennas, cross polarization, new limits on antenna heights and maximum powers for new channel as-

signments, and others; and some proposals contemplate combinations of the foregoing techniques. Some of the proposals envisage a revised nationwide table of fixed assignments; others look toward the adoption of new standards which would govern the addition of specific channel assignments on the basis of individual applications. In addition to these plans which have already been advanced, the Commission understands that a number of studies have been initiated by other groups in the industry.

7. In these circumstances, the Commission believes that the public interest would be served by the institution of a general rule making proceeding to consider possible overall solutions to the problem on a broad, nationwide basis. All interested parties, including those who have informally tendered proposals to the Commission, will have the opportunity of submitting their suggestions in this proceeding. This proceeding will, we believe, facilitate an orderly review of the proposals and will afford the Commission a sound basis on which it may compare the advantages and disadvantages of the proposals, both among themselves and with respect to the present plan, and evaluate them in terms of the opportunities they may provide for fuller realization of a nationwide competitive television system.

8. As noted, there is considerable diversity among the various approaches that have been suggested. The multiplicity of the possible alternative plans suggests the desirability of establishing a basis on which it will be possible for the Commission to make a full and fair evaluation of the different proposals. This would be facilitated if those parties submitting proposals included data and comments relating to:

(a) The nature and the extent of departures, if any, from the present standards as adopted in the Sixth Report and Order with respect to:

(1) Minimum separations.

(2) Minimum and maximum limitations on powers and antenna heights.

(3) Use of directional antennas.

(4) Cross polarization.

(5) Any other deviations from present standards.

(b) The effect of the proposed revision on the assignments occupied by existing stations.

(c) The extent to which the plan submitted provides for the future expansion of television service.

(d) The impact of the plan on the problem of receiver incompatibility.

(e) The effect of the plan on the educational reservations.

It would also be helpful to the Commission if parties submitting proposals which envisage a revised table of fixed channel assignments, would include an assignment plan for Zone I indicating the specific assignments in each city. The Commission will also consider proposals which envisage revised standards for the addition of channel assignments on the basis of individual applications, rather than by incorporating new assignments in a revised fixed Table of Assignments.

9. In this initial stage, the Commission believes it would not be desirable to consider proposals whose scope is limited to action affecting only individual communities or a limited area. Premature involvement with questions relating exclusively to individual city assignments or to limited areas, without reference to a nationwide system, would unduly impede our progress in determining the basic course which it would be desirable to follow in considering possible revisions to the nationwide television allocation plan. At a later date, when the Commission has determined the general nature of any revisions to the present allocation scheme which it would be desirable to adopt, it will then be in a better position to consider comments relating to specific channel assignments proposed for individual communities.

10. All interested parties are invited to file written comments in accordance with this Notice. In light of the many considerations which favor minimizing delay, the Commission has decided to require the filing of comments no later than December 15, 1955, and the filing of reply comments by January 6, 1956. An original and 14 copies of comments should be filed.

11. Authority for the institution of this proceeding is contained in sections 1, 4 (i) and (j), 301, 303, (a), (b), (c), (d), (e), (f), (g), (h), and (r), and 307 (b) of the Communications Act of 1934, as amended, and section 4 of the administrative procedure act.

Adopted: November 10, 1955.

Released: November 10, 1955.

FEDERAL COMMUNICATIONS COMMISSION,
[SEAL] MARY JANE MORRIS,
Secretary.

[F. R. Doc. 55-9211; Filed, Nov. 15, 1955; 8:50 a. m.]

[47 CFR Part 14]

[Docket No. 11535; FCC 55-1107]

RADIO STATIONS IN ALASKA (OTHER THAN AMATEUR AND BROADCAST)

INTERSHIP USE OF CERTAIN FREQUENCIES

In the matter of amendment of Part 14 of the Commission's rules with respect to intership use of the frequencies 1622 kc and 2382 kc in the Alaska area.

1. Notice is hereby given of proposed rule making in the above-entitled matter.

2. Part 14 of the Commission's rules (§ 14.259 (a) (2)) provides for use of the frequency 1622 kc for intership communication in Alaskan waters between ship stations on board vessels of less than 500 gross tons and for use of the frequency 2382 kc for such communication between ship stations on board vessels of 500 gross tons or more. In contrast to the frequencies 2638 kc and 2738 kc which are used for intership telephony not only in Alaskan waters but throughout the general area of the Pacific seaboard of North America, the frequencies 1622 kc and 2382 kc are available for intership communication in the Alaska area only. Hence their use for this purpose in the latter area would appear to be preferred over the use of 2638 kc or 2738 kc in that less interference may be anticipated and more expeditious communication should be possible.

3. Further, it appears that an exception to the plan of assignment of the frequencies 1622 kc and 2382 kc for intership communication, as set forth in existing rule § 14.259 (a) (2), should be recognized in behalf of ocean-going tugboats which, regardless of their gross tonnage, may have need in connection with towing or salvage operations to communicate on either 1622 kc or 2382 kc with other vessels authorized to use either but not both of these frequencies for intership communication.

4. It is proposed to amend the applicable rule so as to authorize ship stations on board ocean-going tugboats of any gross tonnage to communicate with other vessels in the Alaska area either on 1622 kc or 2382 kc as circumstances may require.

5. The proposed amendment would facilitate and improve communication in Alaskan waters between ocean-going tugboats and other ships, particularly in respect to communication relative to towing and salvage operations at sea.

6. The proposed amendment is set forth below and is issued under the authority contained in sections 303 (c) (f) and (r) of the Communications Act of 1934, as amended.

7. Any interested person who is of the opinion that the proposed amendment should not be adopted or should not be adopted in the form set forth herein, and any person desiring to support this proposal may file with the Commission on or before December 23, 1955, a written statement or brief setting forth his comments. Replies to such comments may be filed within ten days from the last date for filing original comments. The Commission will consider all comments and briefs presented before taking final action in this matter.

8. In accordance with the provisions of § 1.764 of the Commission's rules and regulations, an original and 14 copies of all statements, briefs or comments filed shall be furnished the Commission.

Adopted: November 9, 1955.

Released: November 10, 1955.

FEDERAL COMMUNICATIONS COMMISSION,
[SEAL] MARY JANE MORRIS,
Secretary.

A. Part 14 is amended to read as follows:

1. Section 14.259 (a) (2) is amended to read:

(2) For ship-to-ship communication (for business, operational and safety purposes) by telegraphy and/or telephony—1622 and 2382. The use of these frequencies shall be as follows:

(i) Between ship stations on board vessels of less than 500 gross tons, and between such ship stations and ship stations on board ocean-going tugboats of any gross tonnage—1622 only, except as provided in subdivision (iii) of this subparagraph; and

(ii) Between ship stations on board vessels of 500 gross tons or more, and between such ship stations and ship stations on board ocean-going tugboats of any gross tonnage—2382 only, except as provided in subdivision (iii) of this subparagraph.

(iii) Between ship stations on board ocean-going tugboats of any gross tonnage—1622 or 2382.

NOTE: The term "ocean-going tugboat" for this purpose means only a tugboat which normally is capable of engaging in towing or salvage operations in the open sea.

INTERSTATE COMMERCE COMMISSION

[49 CFR Part 10]

[No. 30920]

AMORTIZATION ACCOUNTING FOR EMERGENCY CARRIER FACILITIES

NOTICE OF PROPOSED RULE MAKING

NOVEMBER 8, 1955.

Representations have been received from Arthur Andersen & Co., a public accounting firm not presently a party of record to the above-entitled proceeding, that the Commission should reconsider its finding herein which rejected income tax equalization, a special accounting rule briefly described in the report (284 I. C. C. 9) previously adopted on December 21, 1951.

So that the Commission may be fully advised in the premises, any party to this proceeding and any other persons interested in the matter of income tax equalization, as that term is used in the report previously adopted herein, may participate by submission of their views and arguments in writing, together with data or other evidence. Such data, views, arguments, and evidence should be filed with the Commission on or before December 15, 1955.

Notice to the general public will be given by depositing a copy of this notice in the Office of the Secretary of the Commission for inspection, and by filing a copy with the Director of the Federal Register.

By the Commission.

[SEAL] HAROLD D. MCCOY,
Secretary.

NOTICES

DEPARTMENT OF THE INTERIOR

Bureau of Land Management

[Document No. 71]

ARIZONA

SMALL TRACT CLASSIFICATION NO. 46

NOVEMBER 7, 1955.

1. Pursuant to authority delegated by Document No. 43, Arizona, effective May 19, 1955 (20 F. R. 3514–15), the following described lands totaling 2,880 acres located in Maricopa County are hereby classified for lease and sale for residence and/or business purposes under the Small Tract Act of June 1, 1938, (52 Stat. 609; 43 U. S. C. 682a), as amended:

GILA AND SALT RIVER MERIDIAN

T. 5 N., R. 4 E.,
Sec. 15: W½, SE¼;
Sec. 20: SE¼;
Sec. 21: E½, SW¼;
Sec. 22: All;
Sec. 26: S½;
Sec. 27: S½S½;
Sec. 28: N½;
Sec. 35: E½.

2. Classification of the above described lands by this order segregates them from all appropriations, including locations under the mining laws, except as to applications under the mineral leasing laws.

3. The lands classified by this order shall not become subject to application under the Small Tract Act of June 1, 1938 (52 Stat. 609; 43 U. S. C. (682a) as amended, until it is so provided by an order to be issued by an authorized officer, opening the lands to application, lease, and sale, with a preference right to veterans of World War II and of the Korean Conflict and other qualified persons entitled to preference under the Act of September 27, 1944 (58 Stat. 497; 43 U. S. C. 279–284), as amended.

4. All valid applications filed prior to November 7, 1955, will be granted, as soon as possible, the preference right provided for by 43 CFR 257.5 (a).

WYOMING

NOTICE OF PROPOSED WITHDRAWAL AND RESERVATION OF LANDS

The Bureau of Reclamation, Department of the Interior has filed an application, Serial No. Wyoming 035129, for the withdrawal of the lands described below, from all forms of appropriation under the public land laws including the United States mining laws but not including the mineral leasing laws.

The applicant desires the land for use in connection with the Riverton Project, Wyoming.

For a period of 30 days from the date of publication of this notice, persons having cause may present their objections in writing to the undersigned official of the Bureau of Land Management, Department of the Interior, Post Office Box 929, Cheyenne, Wyoming.

If circumstances warrant it, a public hearing will be held at a convenient time and place, which will be announced.

The determination of the Secretary on the application will be published in the FEDERAL REGISTER. A separate notice will be sent to each interested party of record.

The lands involved in the application are:

DEPARTMENT OF HEALTH, EDUCATION, AND WELFARE

Office of the Secretary

INVITATION TO BID ON SURETY BOND

This invitation is for bids on position schedule and/or blanket position bond in favor of the United States, covering certain officers and employees of the Department of Health, Education, and Welfare, for the premium period beginning January 1, 1956, through December 31, 1957.

Purchase of such bonds is authorized by Public Law 323, 84th Congress, and Treasury Department Circular No. 969. (Title 31, Chapter II, Subchapter A, Part 226.)

The following classes of employees are to be bonded:

	Penal sum	Number
Certifying officers	$5,000	214
Agent cashiers	$4,000 to $5,000	85
Disbursing officers	$5,000 to $25,000	17
Miscellaneous [1]	$5,000	177

[1] Includes custodians of money and property, collection clerks, cashiers, postal clerks, and bonded messengers.

Bids. Bids are invited for the execution of bonds in the following forms:

1. Position Schedule Bond Form HEW–74 (Exhibit A).[1]

2. Blanket Position Bond Form HEW–75 (Exhibit B).[1]

Positions to be covered. Schedules (Exhibit C)[1] are attached showing positions to be covered, class of bond, penal sum and location of position. The number of incumbents shown in the schedule is as of November 8, 1955, and represents the best estimated number of incumbents who will be filling the positions as of January 1, 1956.

[1] Filed as part of original document. Copies are available upon request to Department of Health, Education, and Welfare.

Bids may be obtained upon request from: Purchase Section, Division of General Services, Department of Health, Education, and Welfare, Room 5639 HEW Building, Washington 25, D. C.

Invitation No. SA–18–56 to be opened December 6, 1955, 11:00 a. m., e. s. t.

Any questions concerning the bid or bond requirements should be directed to the above address, attention M. M. Smith, Telephone EXecutive 3–6300, extension 3343.

Dated: November 10, 1955.

[SEAL] MARIE M. SMITH,
Chief, Supply Branch.

Approved: November 10, 1955.

D. F. SIMPSON,
Director, General Services.

CIVIL AERONAUTICS BOARD

[Docket No. 1705, et al.; Order No. E–9733]

AMERICAN AIRLINES, INC., AND FLYING TIGER LINE, INC.

ORDER ASSIGNING FOR HEARING PETITIONS TO MODIFY MINIMUM RATES

Adopted by the Civil Aeronautics Board at its office in Washington, D. C. on the 10th day of November 1955.

Air freight rate investigation, the petition of American Airlines, Inc., to modify minimum rates; the petition of Flying Tiger Line Inc., to modify minimum rates.

The Board on June 2, 1948, entered an order[1] in this proceeding prescribing lawful minimum rates for the transportation of property by air (except for property carried in the air express service), and providing that the record be held open for any party in interest to petition for modification of the minimum rates prescribed by such order.

American, by petition filed October 6, 1955, has requested that Order No. E–1639 be amended so as to exclude from the minimum rates and charges provided therein the rates and charges for a deferred air freight service proposed by American.

American, by paper designated Reply, filed November 2, 1955, has requested permission to institute such deferred rates for the period of one year without hearing.

Railway Express Agency, (REA), Slick Airways, Inc., (SLICK), Trans World Airlines, Inc. (TWA), United Air Lines, Inc. (United), and The Flying Tiger Line Inc. (Tiger) have opposed American's proposed deferred service, and urged in substance that no modification of the minimum rate order be permitted without hearing on American's petition.

Tiger, by petition filed October 7, 1955, has requested that the Tenth Supplemental Order Modifying Prescribed Minimum Rates[2] be amended to reduce the minimum rates prescribed for large volume shipments.

Slick, American and REA have by answer opposed the proposals contained in Tiger's Petition, and requested that no modification be made of the minimum orders prescribed in Docket No. 1705 without hearing on such petition. American has requested that consideration of Tiger's petition be deferred until the Board has acted upon its petition herein dated October 6, 1955, and upon the issue of joint loading by forwarders in Docket No. 5947.

The Board, upon consideration of the foregoing petitions and answers and of the record and orders previously entered in this proceeding, believes that there may be sufficient grounds to modify minimum rates prescribed herein and that a hearing or hearings should be held upon the petitions of American and Tiger to modify the minimum rate orders heretofore entered in this proceeding, and that every effort should be made to expedite decision herein.

We have considered American's request to modify the minimum rate order so that it may institute deferred rates below the established minimums for the period of one year without hearing, and find no basis upon which such request could be properly granted.

The Board finds no sufficient reason to defer hearing upon Tiger's petition as requested by American. It appears that the issues raised by the petitions of American and Tiger, and the answers thereto, and the positions of the parties with respect to consolidation of these petitions can best be determined after prehearing conference. We will, therefore, defer action upon the question of consolidation of hearing on American's and Tiger's petitions until after the prehearing conference has been held upon the proceedings on both petitions.

The Board finds that its action herein is necessary and appropriate in order to carry out the provisions and objectives of the Civil Aeronautics Act of 1938, as amended, particularly sections 205 (a), 403, 404 and 1002 thereof:

It is ordered, That:

1. The petition of American Airlines, Inc., to amend the minimum rate orders previously entered in this proceeding be assigned for hearing before an examiner of the Board at a time and place hereinafter to be designated.

2. American's request to institute below minimum rates on deferred air freight prior to hearing be and it is hereby denied.

3. The petition of Flying Tiger Line, Inc., to amend the minimum rate orders previously entered in this proceeding be assigned for hearing before an examiner of the Board at a time and place hereinafter to be designated.

4. At the conclusion of the hearings herein prescribed, the examiner shall immediately certify the records to the Board for decision.

5. A copy of this order be served upon all parties to this proceeding.

6. This order be published in the FEDERAL REGISTER.

By the Civil Aeronautics Board.

[SEAL] M. C. MULLIGAN,
Secretary.

[F. R. Doc. 55–9221; Filed, Nov. 15, 1955; 8:52 a. m.]

[1] Order No. E–1639, 9 CAB 340.
[2] Order No. E–7837 dated October 21, 1953, Docket No. 1705.

FEDERAL COMMUNICATIONS COMMISSION

[Docket No. 11424, etc.; FCC 55M–932]

MANCHESTER BROADCASTING CO. ET AL.

ORDER SCHEDULING HEARING

In re applications of John Deme, d/b as Manchester Broadcasting Company, Manchester, Connecticut, Docket No. 11424, File No. BP–9176; Regional Broadcasting Company, East Hartford, Connecticut, Docket No. 11425, File No. BP–9399; Brothers Broadcasting Corporation, Hartford, Connecticut, Docket No. 11426, File No. BP–9631; for construction permits.

The Hearing Examiner has under consideration (1) a petition filed October 28, 1955, by John Deme, d/b as Manchester Broadcasting Company, wherein he requests that the date previously designated by the Hearing Examiner for the exchange of engineering information, November 7, 1955, be changed and extended to November 16, 1955; and (2) a pleading filed November 1, 1955, by counsel for Regional Broadcasting Company opposing such request for an extension of time. Oral argument was held on the pleading this date, November 3, 1955.

It appearing from the pleadings and argument that a misunderstanding and the recent New England floods have resulted in a delay in the taking of measurements by John Deme, the petitioner. The opposition to the petition for extension of time is predicated on the assumption that by the exercise of due diligence, the measurements could have been taken by John Deme prior to the floods referred to;

It appearing from the argument that the granting of the extension of time as requested will not result in a delay in the opening of the evidentiary hearing on November 21, 1955, and that good cause has been shown why the petition for extension of time should be granted;

It is ordered, This the 3d day of November 1955, that the petition for extension of time be and the same is hereby granted and the engineering information to be offered in evidence in response to all issues involving engineering will be exchanged with the parties on or before the close of business November 16, 1955;

It is further ordered, That the date for the start of the evidentiary hearing remains unchanged, namely, November 21, 1955.

FEDERAL COMMUNICATIONS COMMISSION,
[SEAL] MARY JANE MORRIS,
Secretary.

[F. R. Doc. 55–9213; Filed, Nov. 15, 1955; 8:51 a. m.]

[Docket No. 11545; FCC 55–1119]

CLASS B FM BROADCAST STATIONS

NOTICE OF PROPOSED ALLOCATION

1. Notice is hereby given of further proposed rule making in the above-entitled matter.

2. It is proposed to amend the Revised Tentative Allocation Plan for Class B FM Broadcast Stations in the following manner:

General area	Channels	
	Delete	Add
Greenville, Tenn.		235
Greenville, S. C.	235	246
Clemson, S. C.	246	271

3. The purpose of the proposed amendment is to provide a Class B channel in Greeneville, Tennessee, to facilitate consideration of a pending application submitted by Radio Greeneville, Inc., for a new Class B FM broadcast station in that city.

4. Authority for the adoption of the proposed amendment is contained in sections 4 (i), 301, 303 (c), (d), (f), and (r), and 307 (b) of the Communications Act of 1934, as amended.

5. Any interested party who is of the opinion that the proposed amendment should not be adopted or should not be adopted in the form set forth herein, may file with the Commission on or before December 9, 1955, a written statement or brief setting forth his comments. Comments in support of the proposed amendment also may be filed on or before the same date. Comments or briefs in reply to the original comments may be filed within 10 days from the last day for filing said original comments or briefs. The Commission will consider all such comments that are submitted before taking action in this matter, and if any comments appear to warrant the holding of a hearing or oral argument, notice of the time and place of such hearing or oral argument will be given.

6. In accordance with the provisions of section 1.764 of the Commission's rules and regulations, an original and 14 copies of all statements, briefs, or comments shall be furnished the Commission.

Adopted: November 9, 1955.

Released: November 10, 1955.

FEDERAL COMMUNICATIONS COMMISSION,
[SEAL] MARY JANE MORRIS,
Secretary.

SECURITIES AND EXCHANGE COMMISSION

[File No. 70–3420]

MICHIGAN CONSOLIDATED GAS CO. AND AMERICAN NATURAL GAS CO.

ORDER GRANTING APPLICATION AND PERMITTING EFFECTIVENESS TO DECLARATION REGARDING PROPOSED ISSUANCE AND SALE BY SUBSIDIARY COMPANY OF REGISTERED HOLDING COMPANY OF FIRST MORTGAGE BONDS AT COMPETITIVE BIDDING; AND ISSUANCE AND SALE BY SUBSIDIARY COMPANY AND ACQUISITION BY ITS PARENT COMPANY OF COMMON STOCK

NOVEMBER 9, 1955.

American Natural Gas Company ("American Natural"), a registered holding company, and its subsidiary, Michigan Consolidated Gas Company ("Michigan Consolidated"), an operating gas utility company, having filed with this Commission a joint application-declaration and amendments thereto under the Public Utility Holding Company Act of 1935 ("Act") pursuant to Sections 6 (b), 9, 10, and 12 (f) and Rules U-43 and U-50 promulgated thereunder regarding certain proposed transactions which are summarized as follows:

Michigan Consolidated proposes to issue and sell, pursuant to the competitive bidding requirements of Rule U-50, $30,000,000 principal amount of First Mortgage Bonds, ____ Percent Series, due 1980. These bonds will be dated November 15, 1955, will mature November 15, 1980, and will be issued under Michigan Consolidated's Indenture of Mortgage and Deed of Trust dated as of March 1, 1944, as heretofore supplemented by six supplemental indentures and as to be further supplemented by a Seventh Supplemental Indenture to be dated as of November 15, 1955. The interest rate on the new bonds (which is to be a multiple of ⅛ of 1 percent) and the price to be received by Michigan Consolidated (which price, exclusive of accrued interest, is to be not less than 100 percent and not more than 102¾ percent of the principal amount) are to be determined at competitive bidding pursuant to the provisions of Rule U-50.

Prior to or simultaneously with the issuance of the bonds, Michigan Consolidated proposes to sell to American Natural and American Natural proposes, with funds on hand, to purchase 72,000 shares of Michigan Consolidated's common stock, par value $14 a share, for a cash consideration of $1,008,000, which is equal to the aggregate par value thereof.

Michigan Consolidated has heretofore borrowed, pursuant to a Credit Agreement, $31,000,000 on its 3 percent notes maturing August 15, 1956 (File No. 70–3395). On October 7, 1955, Michigan Consolidated issued and sold 930,000 shares of its common stock to American Natural for a total cash consideration of $13,020,000, the aggregate par value of such shares (File No. 70–3412). It is anticipated that concurrently with the issuance and sale of the new bonds the borrowing under the Credit Agreement will be repaid and the Credit Agreement terminated.

Of the proceeds from the sale of the new bonds, it is estimated that approximately $5,000,000, representing the principal amount of new bonds not issued in the first instance against net property additions, will be deposited with the Trustee under Michigan Consolidated's Indenture of Mortgage and Deed of Trust and will be held as part of the trust estate pending withdrawal from time to time through the certification of net property additions.

The filing contains a copy of an order of the Public Service Commission of the State of Michigan dated November 4, 1955 expressly authorizing the issuance and sale of the proposed securities by Michigan Consolidated. Michigan Consolidated is organized under the laws of the State of Michigan and conducts its business in that State.

Michigan Consolidated proposes to pay the following fees and expenses in connection with the proposed security issuances:

	Applicable to new bonds	Applicable to new common stock
Federal original issue tax	$33,000	$1,109
Securities and Exchange Commission registration fee	3,150	----------
Michigan Public Service Commission fee	30,000	1,008
Counsel fees:		
Sidley, Austin, Burgess & Smith	17,000	----------
Dyer, Meek, Ruegsegger & Bullard	11,000	----------
Clare J. Hall	1,500	----------
Accounting fee of Arthur Andersen & Co.	4,988	----------
Trustee's fees and expenses	12,500	----------
Fees of oil and gas consultants	7,500	----------
American Natural Gas Service Co.—services at cost	750	----------
Printing (including preparation of bonds)	25,000	----------
Mortgage recording and title expense	2,500	----------
Miscellaneous	8,100	83
Total	156,988	2,200

The fee of independent counsel acting for the purchasers of the new bonds, Brown, Wood, Fuller, Caldwell & Ivey, is $12,500. This fee is to be paid by the purchasers.

Notice of the filing of the application-declaration having been duly given in the manner prescribed by Rule U-23 and no hearing having been ordered by or requested of the Commission; and the Commission finding that the applicable provisions of the Act and the rules thereunder are satisfied; that the fees and expenses set forth above are not unreasonable; and that the application-declaration as amended should be granted and permitted to become effective forthwith;

It is ordered, Pursuant to Rule U-23 and the applicable provisions of the Act, that said application-declaration as amended be, and the same hereby is, granted and permitted to become effective forthwith, subject to the terms and conditions contained in Rules U-50 and U-24.

By the Commission.

[SEAL] ORVAL L. DUBOIS,
Secretary.

FEDERAL POWER COMMISSION

[Docket No. E–6651]

OTTER TAIL POWER CO.

NOTICE OF APPLICATION SEEKING ORDER AUTHORIZING ISSUANCE OF UNSECURED PROMISSORY NOTES

NOVEMBER 3, 1955.

Take notice that on November 3, 1955, an application was filed with the Federal Power Commission pursuant to Section 204 of the Federal Power Act by Otter Tail Power Company (Applicant), a cor-

poration organized under the laws of the State of Minnesota and doing business in the States of North Dakota, South Dakota, and Minnesota, with its principal business office at Fergus Falls, Minnesota, seeking an order authorizing the issuance of unsecured promissory notes not to exceed $5,000,000, principal amount, at any one time outstanding. Said notes will be issued from time to time prior to December 31, 1957, will mature within one year or less from the issuance dates and will bear interest at a rate not to exceed 4% per annum. Said notes are proposed to be issued to evidence loans to be secured from First National Bank of Minneapolis, First National Bank of Fergus Falls, and Fergus Falls National Bank and Trust Company or other commercial banks. The proceeds to be obtained from the proposed issuance will be used, pending permanent financing, to provide a portion of the funds needed to carry on Applicant's projected construction program in 1956, 1957, and 1958; all as more fully appears in the application on file with the Commission.

Any person desiring to be heard or to make any protest with reference to said application should on or before the 29th day of November, 1955, file with the Federal Power Commission, Washington 25, D. C., a petition or protest in accordance with the Commission's rules of practice and procedure. The application is on file and available for public inspection.

[Docket No. G-2505, etc.]

NORTHERN NATURAL GAS CO. ET AL.

ORDER POSTPONING DATE OF HEARING

In the matters of Northern Natural Gas Company, Docket No. G-2505; Northern Natural Gas Producing Company, Docket No. G-9409; Permian Basin Pipeline Company, Docket No. G-9410.

By order issued September 29, 1955, the Commission consolidated these proceedings for the purpose of hearing, and directed that hearing in these matters be commenced on November 14, 1955.

On October 18, 1955, a joint motion was filed on behalf of the three respondent companies requesting that the date fixed for commencement of hearing in these matters be continued to January 16, 1956.

The Commission orders: The hearing in these matters, now fixed to commence on November 14, 1955, be and it is hereby postponed to January 16, 1956: *Provided, however,* that the Respondents in these proceedings shall reduce to writing the direct testimony of witnesses proposed to be offered by them at such hearing in the manner contemplated by section 1.20 (h) of the Commission's rules of practice and procedure, and such proposed testimony, together with related exhibits proposed to be offered by these Respondents, shall be served by Respondents upon all parties to these proceedings, including Staff Counsel, at such time as will accomplish the delivery thereof to such parties by January 3, 1956.

Adopted: November 4, 1955.

Issued: November 8, 1955.

By the Commission.

ORDER DENYING MOTIONS TO DISMISS AND RECONVENING HEARING

Sun Oil Company, intervener in Docket Nos. G-4820 and 4821, by motion made orally before the Presiding Examiner in the above-entitled proceeding, and Hassie Hunt Trust, intervener in Docket No. G-4821, by motion filed with the Commission, have moved to dismiss certain parts of the applications in Docket Nos. G-4820 and G-4821 involving transactions in which they have an interest. The circumstances in each instance are similar. The intervener is the operator of certain properties in each situation and, either as processor or unit operator, has the contract right and duty to dispose of the natural gas owned by The Texas Company in the absence of an election by The Texas Company to sell or otherwise take its gas in kind. The Texas Company has not so elected with reference to the transactions involved, which are denominated Contract Numbers S-16, S-17, S-18, and S-19 in Docket No. G-4820, and L-4 and L-6 in Docket No. G-4821.

Sun Oil Company and Hassie Hunt Trust request that the said controverted portions of The Texas Company's applications in Docket Nos. G-4820 and G-4821 be dismissed on the ground of lack of Commission jurisdiction over the transactions involved. Commission Staff Counsel took the position on the record at the hearing that, while the Applications insofar as the transactions at issue are concerned should be dismissed, they should be dismissed upon the authority of the order in Humble Oil & Refining Company, Docket Nos. G-6753, et al., issued March 10, 1955. We agree with the position taken by the Staff. Therefore we will deny the motions of Sun Oil Company and Hassie Hunt Trust and reconvene the hearing, recessed subject to our order, to permit disposition of the proceedings.

The Commission orders:

(A) The motions by Sun Oil Company and Hassie Hunt Trust to dismiss, with respect to the transactions involved in The Texas Company's Contract Numbers S-16, S-17, S-18, and S-19 in Docket No. G-4820, and L-4 and L-6 in Docket No. G-4821, be and hereby are denied.

(B) The above-entitled proceeding shall reconvene on November 23, 1955, at 9:30 a. m., e. s. t.

Adopted: October 19, 1955.

Issued: November 8, 1955.

By the Commission.

[SEAL] J. H. GUTRIDE,
Acting Secretary.

[Docket No. G-9628]

BALTIC OPERATING CO.

ORDER SUSPENDING PROPOSED REVISED TARIFF SHEETS AND PROVIDING FOR INVESTIGATION AND HEARING

On October 10, 1955, Baltic Operating Company (Baltic) tendered for filing First Revised Sheets Nos. 4, 6, 8 and 9 to its FPC Gas Tariff, First Revised Volume No. 1, proposed to become effective October 23, 1955, and proposing an annual rate increase to its wholesale customers of $2,400 or 6.5 percent, based on operations for the twelve-month period ending June 1955.

The purpose of Baltic's proposed increase in rates is to pass on to its customers a rate increase from its supplier, Cities Service Gas Company. The increase in rates applicable to Baltic, among others, was suspended until March 23, 1956, by order of the Commission issued on October 13, 1955, in Docket No. G-9468. Baltic's presently existing rates are in effect subject to refund if so ordered in Docket No. G-2424. The present rates reflect the increased rates of Cities Service Gas Company now under investigation in proceedings in Docket No. G-2410, which proceedings have not been concluded nor has a decision therein been made.

The State Corporation Commission of Kansas has advised that it opposes the increased rates proposed.

The increased rates and charges provided in the revised tariff sheets tendered for filing on October 10, 1955, have not been shown to be justified and may be unjust, unreasonable, unduly discriminatory, or preferential, or otherwise unlawful.

The Commission finds: It is necessary and proper in the public interest and to aid in the enforcement of the provisions of the Natural Gas Act that the Commission enter upon a hearing pursuant to the authority contained in Sections 4 and 5 of such Act, concerning the lawfulness of Baltic's FPC Gas Tariff, First Revised Volume No. 1, and the changes proposed by the revised sheets tendered October 10, 1955; and that the aforesaid proposed revised sheets be suspended as hereinafter provided and the use be deferred pending hearing and decision thereon.

The Commission orders:

(A) Pursuant to the authority contained in Sections 4, 5 and 15 of the Natural Gas Act, a public hearing be held upon a date to be fixed by further order of the Commission concerning the lawfulness of the proposed rates and charges contained in Baltic's FPC Gas Tariff, First Revised Volume No. 1, and the changes proposed by the revised sheets tendered October 10, 1955.

(B) Pending such hearing and decision thereon, Baltic's First Revised Sheets Nos. 4, 6, 8 and 9 to its FPC Gas Tariff, First Revised Volume No. 1, be and the same are each hereby suspended and the use thereof deferred until April 10, 1956, and until such further time thereafter as they may be made effective in the manner prescribed by the Natural Gas Act, unless otherwise ordered by the Commission.

(C) Interested State commissions may participate as provided by Sections 1.8 and 1.37 (f) (18 CFR 1.8 and 1.37 (f)) of the Commission's rules of practice and procedure.

Adopted: November 2, 1955.

Issued: November 9, 1955.

By the Commission.

[SEAL] J. H. GUTRIDE,
Acting Secretary.

[Docket No. G-8929]

SUN OIL CO.

NOTICE OF APPLICATION AND DATE OF HEARING FOR CERTIFICATE OF PUBLIC CONVENIENCE AND NECESSITY

NOVEMBER 8, 1955.

Take notice that Sun Oil Company (Southwest Division), Applicant, a New Jersey corporation whose address is P. O. Box 2880, Dallas, Texas, filed on May 20, 1955, an application for a certificate of public convenience and necessity pursuant to Section 7 of the Natural Gas Act, authorizing Applicant to render service as hereinafter described, subject to the jurisdiction of the Commission, all as more fully represented in the application which is on file with the Commission and open for public inspection.

Applicant proposes to sell natural gas in interstate commerce from production of leases in Block 12 Field, Andrews County, Texas, to Phillips Petroleum Company for resale.

This matter is one that should be disposed of as promptly as possible under the applicable rules and regulations and to that end:

Take further notice that, pursuant to the authority contained in and subject to the jurisdiction conferred upon the Federal Power Commission by Sections 7 and 15 of the Natural Gas Act, and the Commission's rules of practice and procedure, a hearing will be held on Monday, December 19, 1955, at 9:50 a. m., e. s. t., in a Hearing Room of the Federal Power Commission, 441 G Street NW., Washington, D. C., concerning the matters involved in and the issues presented by such application: *Provided, however,* That the Commission may, after a non-contested hearing, dispose of the proceedings pursuant to the provisions of section 1.30 (c) (1) or (c) (2) of the Commission's rules of practice and procedure. Under the procedure herein provided for, unless otherwise advised, it will be unnecessary for Applicant to appear or be represented at the hearing.

Protests or petitions to intervene may be filed with the Federal Power Commission, Washington 25, D. C., in accordance with the rules of practice and procedure (18 CFR 1.8 or 1.10) on or before November 28, 1955. Failure of any party to appear at and participate in the hearing shall be construed as waiver of and concurrence in omission herein of the intermediate decision procedure in cases where a request therefor is made.

[SEAL] J. H. GUTRIDE,
Acting Secretary.

PHILLIPS PETROLEUM CO.

NOTICE OF APPLICATION AND DATE OF HEARING FOR CERTIFICATE OF PUBLIC CONVENIENCE AND NECESSITY

NOVEMBER 8, 1955.

Take notice that Phillips Petroleum Company (Applicant), a Delaware corporation whose address is Bartlesville, Oklahoma, filed on June 23, 1955, an application for a certificate of public convenience and necessity pursuant to Section 7 of the Natural Gas Act, authorizing Applicant to render service as hereinafter described, subject to the jurisdiction of the Commission, all as more fully represented in the application which is on file with the Commission and open for public inspection.

Applicant proposes to sell natural gas in interstate commerce from production from the Bartlesville Field, San Patricio County, Texas, to Gas Gathering Company for resale.

This matter is one that should be disposed of as promptly as possible under the applicable rules and regulations and to that end:

Take further notice that, pursuant to the authority contained in and subject to the jurisdiction conferred upon the Federal Power Commission by Sections 7 and 15 of the Natural Gas Act, and the Commission's Rules of Practice and Procedure, a hearing will be held on Monday, December 19, 1955, at 9:40 a. m., e. s. t., in a Hearing Room of the Federal Power Commission, 441 G Street NW., Washington, D. C., concerning the matters involved in and the issues presented by such application: *Provided, however,* That the Commission may, after a non-contested hearing, dispose of the proceedings pursuant to the provisions of section 1.30 (c) (1) or (c) (2) of the Commission's rules of practice and procedure. Under the procedure herein provided for, unless otherwise advised, it will be unnecessary for Applicant to appear or be represented at the hearing.

Protests or petitions to intervene may be filed with the Federal Power Commission, Washington 25, D. C., in accordance with the rules of practice and procedure (18 CFR 1.8 or 1.10) on or before November 28, 1955. INTERSTATE COMMERCE COMMISSION

[Notice 86]

MOTOR CARRIER APPLICATIONS

NOVEMBER 10, 1955.

Protests, consisting of an original and two copies to the granting of an application must be filed with the Commission within 30 days from the date of publication of this notice in the FEDERAL REGISTER and a copy of such protest served on the applicant. Each protest must clearly state the name and street number, city and state address of each protestant on behalf of whom the protest is filed (49 CFR 1.240 and 1.241). Failure to seasonably file a protest will be construed as a waiver of opposition and participation in the proceeding unless an oral hearing is held. In addition to other requirements of Rule 40 of the General Rules of Practice of the Commission (39 CFR 1.40), protests shall include a request for a public hearing, if one is desired, and shall specify with particularity the facts, matters, and things, relied upon, but shall not include issues or allegations phrased generally. Protests containing general allegations may be rejected. Requests for an oral hearing must be supported by an explanation as to why the evidence cannot be submitted in forms of affidavits. Any interested person, not a protestant, desiring to receive notice of the time and place of any hearing, pre-hearing conference, taking of depositions, or other proceedings shall notify the Commission by letter or telegram within 30 days from the date of publication of this notice in the FEDERAL REGISTER.

Except when the circumstances require immediate action, an application for approval, under Section 210a (b) of the Act, of the temporary operations of motor carrier properties sought to be acquired in an application under Section 5 (2) will not be disposed of sooner than 10 days from the date of publication of this notice in the FEDERAL REGISTER. If a protest is received prior to action being taken, it will be considered.

APPLICATIONS OF MOTOR CARRIERS OF PROPERTY

No. MC 2484 Sub 30, filed November 2, 1955, E. & L. TRANSPORT COMPANY, 14201 Schaden Ave., Dearborn, Mich. Applicant's attorney: George S. Dixon, Guardian Bldg., Detroit 26, Mich. For authority to operate as a *common carrier*, over irregular routes, transporting: *New automobiles* and *new automobile chassis*, in initial movements, in truckaway service, from points in that portion of Oakland County, Mich. south of Michigan Highway 59 and west of a line extending from Michigan Highway 59 southward along Union Lake Road to junction with Haggerty Highway and thence along Haggerty Highway to the southern boundary of Oakland County, to points in Maine, New Hampshire, Vermont, Massachusetts, Rhode Island, Connecticut, New York, Pennsylvania, New Jersey, Delaware, Maryland, Virginia, West Virginia, North Carolina, South Carolina, Georgia, Florida, Michigan, Ohio, Indiana, Illinois, Wisconsin, Kentucky, Tennessee, Alabama, Mississippi, Louisiana, Arkansas, Missouri, Kansas, Oklahoma, Texas, and the District of Columbia: *new automobile bodies*, from the above-indicated origin territory to the above-indicated destination territory. Applicant is authorized to conduct operations in Michigan, Ohio, West Virginia, Pennsylvania, Virginia, New York, Kentucky, Illinois, Indiana, Wisconsin, Missouri, North Carolina, Tennessee, Iowa, and Maryland.

No. MC 23939 Sub 82, filed November 3, 1955, ASBURY TRANSPORTATION CO., a corporation, 2222 East 38th Street, Vernon, Calif. Applicant's attorney: Bart F. Wade, 729 Citizens National Bank Bldg., 453 South Spring Street, Los Angeles 13, Calif. For authority to operate as a *common carrier*, over irregular routes, transporting: *Machinery, equipment materials and supplies* used in or in connection with the discovery, development, production, refining, manufacture, processing, storage, transmission, and distribution of natural gas and petroleum and their products and by-products, and *machinery, equipment, materials, and supplies* used in or in connection with the construction, operation, repair, servicing, maintenance, and dismantling of pipelines, including the stringing and picking up thereof, between points in California, on the one hand, and, on the other, points in Oregon and Washington. Applicant is authorized to conduct operations in California, Colorado, Montana, Nevada, Utah and Wyoming.

No. MC 27817 Sub 33, filed November 2, 1955, HAROLD C. GABLER, R. D. #3, Chambersburg, Pa. Applicant's attorney: Christian V. Graf, 11 North Front St., Harrisburg, Pa. For authority to operate as a *common carrier*, over irregular routes, transporting: *Bulk cement*, in tank vehicles, from points in Lehigh, Northampton, Butler, Lawrence, Franklin, Allegheny, and York Counties, Pa., Carroll, Washington and Frederick Counties, Md., and Berkeley County, W. Va., to points in Maryland, Virginia, West Virginia, Pennsylvania, New York, New Jersey, and Delaware. Applicant does not presently hold any authority from this Commission to transport the commodity specified in this application.

No. MC 28733 Sub 2, filed October 24, 1955, LESTER AUTO FREIGHT, INC., Route 4, Box 31, Hood River, Oreg. For authority to operate as a *common carrier*, over regular routes, transporting: *General commodities*, except those of unusual value, Class A and B explosives, household goods as defined by the Commission, commodities in bulk, and those requiring special equipment, between Hood River, Oreg., and Parkdale, Oreg., from Hood River over Oregon Highway 281 to Parkdale and return over the same route, serving all intermediate points. Applicant is authorized to conduct operations in Oregon.

No. MC 40946 Sub 12, filed November 2, 1955, DELAWARE EXPRESS CO., 401 W. Main St., Elkton, Md. For authority

to operate as a *contract carrier*, over irregular routes, transporting: *Poultry and dairy feeds, roofing material, miscellaneous farm supplies*, and *fertilizer*, from Baltimore, Md. to points in Maryland, Pennsylvania, and Delaware within 20 miles of Newark, Del.

NOTE: Applicant requests dismissal of the instant application if it is found that it already holds the above-applied for authority.

No. MC 47142 Sub 56, filed September 15, 1955, C. I. WHITTEN TRANSFER COMPANY, a corporation, 200 Nineteenth Street, Huntington, W. Va. Applicant's attorney: Chas. T. Dodrill, West Virginia Building, Huntington, W. Va. For authority to operate as a *common carrier*, over irregular routes, transporting: *Class A, B, and C explosives, blasting supplies*, and *used empty containers* for explosives, blasting supplies, and powder, between points in Pennsylvania, Ohio, Virginia, West Virginia, Kentucky, North Carolina, Illinois, New Jersey, Maryland, and Indiana, on the one hand, and, on the other, Gambrills, Md., and points within five miles of Gambrills, with service at the described Maryland points restricted to interchange of traffic with other motor carriers only. Applicant is authorized to conduct operations in Illinois, Kentucky, Maryland, New Jersey, North Carolina, Ohio, Pennsylvania, Virginia, and West Virginia.

No. MC 52473 Sub 6, filed November 3, 1955, CARL H. BEHNKE, doing business as LAFLER MOVING COMPANY, 77 South Monroe St., Battle Creek, Mich. Applicant's attorney: L. F. Richardson, Michigan National Tower, Lansing 6, Mich. For authority to operate as a *contract carrier*, over irregular routes, transporting: *Waste paper*, from points in the Chicago, Ill., Commercial Zone, as defined by the Commission, to Constantine, Sturgis, Three Rivers, and Kalamazoo, Mich. Applicant is authorized to conduct operations in Illinois and Michigan.

No. MC 52473 Sub 7, filed November 3, 1955, CARL H. BEHNKE, doing business as LAFLER MOVING COMPANY, 77 South Monroe Street, Battle Creek, Mich. Applicant's attorney: L. F. Richardson, Michigan National Tower, Lansing 8, Mich. For authority to operate as a *contract carrier*, over irregular routes, transporting: *Paper and paper products*, between Battle Creek, Mich., and points in Wisconsin. Applicant is authorized to conduct operations in Michigan and Illinois.

No. MC 52713 Sub 7, filed November 2, 1955, MAXINE HUTCHENS AND B. F. BABB, doing business as CASSVILLE TRUCK LINE, Cassville, Mo. Applicant's attorney: Joseph R. Nacy, 117 West High Street, Jefferson City, Mo. For authority to operate as a *common carrier*, over regular routes, transporting: *General commodities*, except those of unusual value, Class A and B explosives, household goods, as defined by the Commission, commodities in bulk, and commodities requiring special equipment, from Springfield, Mo., to Powell, Mo., from Springfield over U. S. Highway 60 to junction Missouri Highway 37, thence over Missouri Highway 37 to junction Missouri Highway 44, thence over Missouri Highway 44 to junction McDonald County Road "E" thence over McDonald County Road "E" to Powell, Mo., and return over the same route, serving the off-route point of Simcoe, Mo. Applicant is authorized to conduct operations in Missouri.

No. MC 65429 Sub 2, BENJAMIN S. RIZZO, doing business as BAUER MOTOR FREIGHT EXPRESS, R. D. No. 2, Bridgeton, N. J. Applicant's attorney: William Gallner, 55 E. Commerce Street, Bridgeton, N. J. For authority to operate as a *common carrier*, over irregular routes, transporting: *Coal tar resins* and *molding compounds*, and *commodities essential to and manufactured therefrom*, from Woodbury, N. J., to Stratford and Middletown, Conn., New Castle, Ind., Akron and Dayton, Ohio, Monroe, Mich., Winchester, Va., and Manheim, Pa., and *commodities* incidental to the transportation and manufacture of the commodities specified in this application on return.

No. MC 74721 Sub 55, filed October 31, 1955, MOTOR CARGO, INC., 700 Carroll Street, Akron, Ohio. Applicant's attorney: L. C. Major, Jr., 2001 Massachusetts Ave., NW., Washington 6, D. C. For authority to operate as a *common carrier*, over a regular route, transporting: *General commodities*, except those of unusual value, Class A and B explosives, livestock, household goods, as defined by the Commission, commodities in bulk, and those requiring special equipment, between junction U. S. Highway 224 and Ohio Highway 4 at Attica, Ohio, and junction U. S. Highway 20 and Ohio Highway 4, at a point approximately three (3) miles east of Bellevue, Ohio, over Highway 4, serving no intermediate points, and serving the termini for joinder purposes only, as a connecting route for operating convenience only, in connection with regular route operations (1) between Youngstown, Ohio and Minneapolis, Minn., (2) between Akron, Ohio, and Anoka, Minn., (3) between Cleveland, Ohio and Indianapolis, Ind., and (4) between Medina, Ohio and Lorain, Ohio. Applicant is authorized to conduct operations in Delaware, Illinois, Indiana, Iowa, Maryland, Minnesota, Missouri, New Jersey, New York, Ohio, Pennsylvania, Wisconsin, and the District of Columbia.

No. MC 87928 Sub 34, filed November 2, 1955, AUTOMOBILE TRANSPORT, INC. OF DELAWARE, 36555 Michigan Avenue, Box 29, Wayne, Mich. Applicant's attorney: Walter N. Bieneman, Guardian Building, Detroit 26, Mich. For authority to operate as a *common carrier*, over irregular routes, transporting: *New automobiles* and *new automobile chassis*, in initial movements, in truckaway service, (1) from points in Oakland County, Mich., south of Michigan Highway 59 and west of a line extending from Michigan Highway 59 southward along Union Lake Road to junction Haggerty Highway, and thence along Haggerty Highway to the southern boundary of Oakland County, to all points in Maine, New Hampshire, Vermont, Massachusetts, Rhode Island, Connecticut, New York, Pennsylvania, New Jersey, the District of Columbia, Delaware, Maryland, Virginia, West Virginia, North Carolina, South Carolina, Georgia, Florida, Michigan, Ohio, Indiana, Illinois, Wisconsin, Kentucky, Tennessee, Alabama, Mississippi, Louisiana, Arkansas, Missouri, Kansas, Oklahoma, and Texas, and (2) *new automobile bodies*, from points in Oakland County, Mich., south of Michigan Highway 59 and west of a line extending from Michigan Highway 59 southward along Union Lake Road to junction Haggerty Highway, and thence along Haggerty Highway to the southern boundary of Oakland County, to all points in the above-specified destination territory. Applicant is authorized to conduct operations throughout the United States.

No. MC 101126 Sub 38, filed November 4, 1955, STILLPASS TRANSIT COMPANY, INC., 4967 Spring Grove Ave., Cincinnati, Ohio. For authority to operate as a *contract carrier*, over irregular routes, transporting: *Denatured Rum*, in bulk, in stainless steel tank vehicles, from Covington, Ky., to Reidsville and Durham, N. C., Richmond, Va., and Louisville, Ky., and *empty containers* or other such incidental facilities used in transporting the commodities specified on return.

No. MC 101317 Sub 24, filed October 31, 1955, MILLS KING, doing business as KING TRANSPORT, P. O. Box 2186, 323 Dawson Street, San Antonio, Tex. Applicant's attorney: Ewell H. Muse, Jr., Suite 415, Perry Brooks Building, Austin, Tex. For authority to operate as a *common carrier*, over irregular routes, transporting: *New automobiles, new trucks, new assembled automobile chassis*, and *partially assembled automobile chassis*, in secondary movements, by the driveaway and truckaway methods from Memphis, Tenn., and Houston, Tex., and points within five (5) miles of each to points in Kendall County, Tex. Applicant is authorized to conduct operations in Tennessee and Texas.

NOTE: Applicant states that the purpose of this application is simply to add points in Kendall County, Tex., to the list of counties authorized as a destination territory in MC 101317 Sub 8 and not to secure any separate or independent authority.

No. MC 103378 Sub 49, filed November 5, 1955, PETROLEUM CARRIER CORPORATION, 369 Margaret Street, Jacksonville, Fla. Applicant's attorney: Martin Sack, Atlantic National Bank Building, Jacksonville 2, Fla. For authority to operate as a *common carrier*, over irregular routes, transporting: *Liquid glue* and *synthetic resins*, in bulk, in tank trucks, from Jacksonville, Fla. to points in Georgia and South Carolina. Applicant is authorized to conduct operations in Florida, Georgia, South Carolina, Alabama and Virginia.

No. MC 103880 Sub 146, filed June 28, 1955, (Further Amended), published July 27, 1955 on page 5370 and September 8, 1955 on page 6595, PRODUCERS TRANSPORT, INC., 530 Paw Paw Avenue, Benton Harbor, Mich. Applicant's attorney: Jack Goodman, 39 South La Salle Street, Chicago 3, Ill. For authority to operate as a *common carrier*, over irregular routes, transporting: (1) *Pe-*

troleum products, petroleum lubricants, chemicals, and *industrial soaps* and *industrial cleaners,* in bulk, in tank vehicles, from Indianapolis, Ind., to points in Kentucky, Ohio, Illinois, Michigan, Georgia, and North Carolina; (2) *Petroleum oil bases,* in bulk, in tank vehicles, from Reading, Ohio to Indianapolis, Ind.; (3) *Cutting oil* and *parting compounds,* (used in the manufacture of soap), in bulk, in tank vehicles, from Milwaukee, Wis., to points in Indiana; and (4) *Petroleum products, sea animal oil products, animal road-building and sprinkling compounds,* in bulk, in tank vehicles, from Reading, Ohio to points in Indiana, Michigan, Illinois, Kentucky, Pennsylvania, New York, and New Jersey. Applicant is authorized to conduct operations in Illinois, Indiana, Kentucky, Michigan, Missouri, Ohio, Pennsylvania, and Wisconsin.

No. MC 103993 Sub 54, filed July 1, 1955, (amended) published on page 5214, issue of July 20, 1955, MORGAN DRIVE-AWAY, INC., 509 Equity Building, Elkhart, Ind. Applicant's attorney: John E. Lesow, 632 Illinois Building, 17 W. Market Street, Indianapolis 4, Ind. For authority to operate as a *common carrier,* over irregular routes, transporting: *Trailers,* designed to be drawn by passenger automobiles, in initial movements, by truckaway method, from the site of the Holiday Trailers Mfg., Inc., located approximately 8 miles south of El Reno, Okla., to all points in the United States, and *damaged shipments* of the commodity specified in this application on return. Applicant is authorized to conduct operations throughout the United States.

No. MC 108298 Sub 20, filed November 4, 1955, ELLIS TRUCKING CO., INC., 430 Kentucky Avenue, Indianapolis, Ind. Applicant's attorney: Harry E. Yockey, Morris Plan Bldg., Suite 806, 108 East Washington Street, Indianapolis 4, Ind. For authority to operate as a *common carrier,* transporting: *General commodities,* except those of unusual value, livestock, Class A and B explosives, household goods as defined by the Commission, commodities in bulk and those requiring special equipment, between Vincennes, Ind., and Versailles, Ind., over U. S. FOURTH SECTION APPLICATIONS FOR RELIEF

NOVEMBER 10, 1955.

Protests to the granting of an application must be prepared in accordance with Rule 40 of the General Rules of Practice (49 CFR 1.40) and filed within 15 days from the date of publication of this notice in the FEDERAL REGISTER.

LONG-AND-SHORT-HAUL

FSA No. 31291: *Cotton Linters—Birmingham, Ala., to St. Louis, Mo., and East St. Louis, Ill.* Filed by F. C. Kratzmeir, Agent, for interested rail carriers. Rates on cotton linters, in carloads from Birmingham, Ala., to St. Louis, Mo., and East St. Louis, Ill.

Grounds for relief: Circuitous routes operating in part west of Mississippi River.

FSA No. 31292: *Crushed Stone—Ripplemead, Va., to Montgomery, W. Va.* Filed by C. W. Boin, Agent, for interested rail carriers. Rates on crushed stone, in carloads from Ripplemead, Va., to Montgomery, W. Va.

Grounds for relief: Rates constructed on the basis of a short-line distance formula and circuity.

Tariff: Supplement 160 to Agent R. B. LeGrande's I. C. C. No. 253.

FSA No. 31293: *Pumice from Bernalillo, Domingo and Santa Fe, N. Mex.* Filed by F. C. Kratzmeir, Agent, for interested rail carriers. Rates on pumice stone, crude or ground, in carloads from Bernalillo, Domingo and Santa Fe, N. Mex.

Grounds for relief: Rates constructed on the basis of a short-line distance formula and circuity.

Tariff: Supplement 168 to Agent Kratzmeir's I. C. C. 3987.

FSA No. 31294: *Commodity Rates—Official Territory to the Southwest.* Filed by F. C. Kratzmeir, Agent, for interested rail carriers. Rates on various commodities, in carloads from points in official territory to points in the Southwest.

Grounds for relief: Carrier competition and circuity.

FSA No. 31295: *Chlorine Gas to Louisville, Ky., and Cincinnati, Ohio.* Filed by H. R. Hinsch, Agent, for interested rail carriers. Rates on liquid chlorine gas, in tank-car loads from points in Maryland, Michigan, New York, Ohio, Virginia, and West Virginia to Louisville, Ky., and Cincinnati, Ohio.

Grounds for relief: Market competition, competition with rail carriers and circuity.

Tariff: Supplement 3 to A. C. & Y. tariff I. C. C. No. 466 and others named in appendix A to the application.

FSA No. 31296: *Paper Boxes—Three Rivers, Mich., to Memphis, Tenn.* Filed by H. R. Hinsch, Agent, for interested rail carriers. Rates on paper boxes, in carloads from Three Rivers, Mich., to Memphis, Tenn.

Grounds for relief: Carrier competition and circuity.

FSA No. 31297: *Merchandise, Less-Than-Carloads Between Points in Texas.* Filed by J. F. Brown, Agent, for interested rail carriers. Rates on merchan-

dise, in less-than-carloads between points in Texas, T–N. M. Ry. points in New Mexico and points in Shreveport, La., group.

Grounds for relief: Motor truck competition and circuity.

Tariffs: Supplement 5 to Agent Brown's tariff I. C. C. 835; Supplement 4 to Agent Hughett's tariff MF-I. C. C. 245.

FSA No. 31298: *Steel or Wrought Iron Pipe from Galveston, Houston, and Orange, Texas.* Filed by F. C. Kratzmeir, Agent, for interested rail carriers. Rates on steel or wrought iron pipe, in carloads from Galveston, Houston and Orange, Texas to points in Michigan and Wisconsin.

Grounds for relief: Rates constructed on the basis of a short-line distance formula, grouping, and circuity.

Tariff: Supplement 108 to Agent Kratzmeir's I. C. C. 4139.

FSA No. 31299: *Blackstrap Molasses from Louisiana to Texas and New Mexico.* Filed by F. C. Kratzmeir, Agent, for interested rail carriers. Rates on blackstrap molasses and hydrol, in carloads from points in Louisiana to points in Texas and T–N. M. Ry. points in New Mexico.

Grounds for relief: Rates constructed on basis of a short-line distance formula, grouping and circuity.

By the Commission.

TITLE 7—AGRICULTURE

Chapter III—Agricultural Research Service, Department of Agriculture

[P. P. C. 612, Revised, Supp. 6]

PART 301—DOMESTIC QUARANTINE NOTICES

SUBPART—KHAPRA BEETLE

ADMINISTRATIVE INSTRUCTIONS DESIGNATING PREMISES AS REGULATED AREAS UNDER REGULATIONS SUPPLEMENTAL TO KHAPRA BEETLE QUARANTINE

Pursuant to § 301.76–2 of the regulations supplemental to the Khapra Beetle Quarantine (7 CFR Supp. 301.76–2, 20 F. R. 1012) under sections 8 and 9 of the Plant Quarantine Act of 1912, as amended (7 U. S. C. 161), revised administrative instructions issued as 7 CFR Supp. 301.76–2a (20 F. R. 4361), effective June 22, 1955, as amended effective July 13, 1955, July 30, 1955, August 17, 1955, September 17, 1955, and October 11, 1955 (20 F. R. 4979, 5447, 5961, 6992, 7565), are hereby further amended in the following respects:

a. The designation as regulated areas of the following premises, included in the list contained in such instructions, is hereby revoked, and the reference to such premises in the list is hereby deleted, it having been determined by the Chief of the Plant Pest Control Branch that adequate sanitation measures have been practiced for a sufficient length of time to eradicate the khapra beetle in and upon such premises:

ARIZONA

Arizona Sales Co., 116 West Fourth Avenue, Mesa.
H. P. Fites Ranch, Route 3, Box 302, Yuma.
Arthur McCoy Property, Route 1, Box 754, Yuma.
F. P. Nielson & Sons, 116 West Fourth Avenue, Mesa.
Pablo Ortiz Property, 220 Water Street, Yuma.
Western Grain Elevator, 116 West Fourth Avenue, Mesa.

CALIFORNIA

B & J Farm Service, 101 Walnut Street, Porterville.
Joe Clement, Jr., Ranch, 9102 Hanford-Armona Road, Hanford.
Colusa Feed & Seed Company, 851 Seventh Street, Colusa.
J. Garafalo Ranch, on Airport Road, 1½ miles south of Colusa.
Will Gill and Sons Feed Yard, South Pine Street, Madera.
J. D. Heiskell & Co., Inc., 116 West Cedar Street, Tulare.
Steiner Feed & Seed, 515 19th Street, Bakersfield.
Triangle Grain Co., 10118 Artesia Place, Bellflower.
Herman Vossler (large farm storage), Route 1, Box 192, Porterville.
Woodard Ranch (David Nowell, lessee), located one mile west and seven-tenths mile south of Blythe Checking Station. Mail address Box 561, Blythe.

b. The following premises are added to the list, contained in such instructions, of warehouses, mills, and other premises in which infestations of the khapra beetle have been determined to exist. Such premises are thereby designated as regulated areas within the meaning of said quarantine and regulations:

ARIZONA

C. A. Batty Farm, Box 27, Glenbar.
Casey Seed Company, 2902 Grand Avenue, Phoenix.
Phoenix Hay & Feed Company, 4111 North Seventh Street, Phoenix.
Pratt's Feed & Farm Supply, 4455 North Seventh Street, Phoenix.

CALIFORNIA

Thomas Blackman Property (Bag fumigation), southwest corner of intersection of Sixth Street and Emerson, Calexico.
Hershel Brady Ranch, 1531 East A Street, Brawley.
Madeline Britton Property, 219 First Street, Calexico.
Olaf Dahlquist Ranch, intersection of Road 28 and West N, Route 2, Box K, Imperial.
Harry Finney Ranch, Somerset Road, SW¼ of sec. 24, T. 10 N., R. 3 W., near Hinkley.
H. Johnson Ranch, Route 1, Box 206, Terra Bella.
R. Langley Ranch, Route 2, Box 39A, Holtville.
Gene Malone Ranch, Route 1, Box 1440M, Indio.
F. B. Marlow Ranch, intersection of West A and Road 54, Star Route, Box 27, Westmoreland.
Peter L. Marston Ranch, Route 2, Box 261, El Cajon.

FEDERAL REGISTER

Published daily, except Sundays, Mondays, and days following official Federal holidays, by the Federal Register Division, National Archives and Records Service, General Services Administration, pursuant to the authority contained in the Federal Register Act, approved July 26, 1935 (49 Stat. 500, as amended; 44 U. S. C., ch. 8B), under regulations prescribed by the Administrative Committee of the Federal Register, approved by the President. Distribution is made only by the Superintendent of Documents, Government Printing Office, Washington 25, D. C.

The FEDERAL REGISTER will be furnished by mail to subscribers, free of postage, for $1.50 per month or $15.00 per year, payable in advance. The charge for individual copies (minimum 15 cents) varies in proportion to the size of the issue. Remit check or money order, made payable to the Superintendent of Documents, directly to the Government Printing Office, Washington 25, D. C.

The regulatory material appearing herein is keyed to the CODE OF FEDERAL REGULATIONS, which is published, under 50 titles, pursuant to section 11 of the Federal Register Act, as amended August 5, 1953. The CODE OF FEDERAL REGULATIONS is sold by the Superintendent of Documents. Prices of books and pocket supplements vary.

There are no restrictions on the republication of material appearing in the FEDERAL REGISTER, or the CODE OF FEDERAL REGULATIONS.

Kelly McCollum Ranch, intersection of Road 28 and West E, Route 1, Box G, Imperial.

St. Anthony Ranch (St. Anthony Oil Corp.), located 2 miles south of Mecca at northeast corner of Avenue 68 and Lincoln Street, P. O. Box 564, Mecca.

Walter E. Scott Ranch, southwest corner of 14th Avenue and Defrain Boulevard, P. O. Box 283, Blythe.

Mrs. L. E. Sinclair (residence), Road East A, one-half mile south of intersection with Road 65, P. O. Box 234, Calipatria.

Albert Whitlock Ranch, southeast corner of intersection of Highway 111 and Road 77, P. O. Box 19, Calipatria.

W. E. Young Ranch, intersection of East N and Road 66, P. O. Box 267, Calipatria.

William Youtsler Ranch, intersection of West J and Road 58, Route 1, Brawley.

c. The item appearing in the list, contained in such instructions under the subhead California, as "Joe Grassotti Ranch, located south side of Fairview Road, one-half mile west of Highway 99. Mail address Box 899, Bakersfield" is changed to read: Joe Grassotti Ranch, 899 West Fairview Road, Bakersfield.

d. The item appearing in the list, contained in such instructions under the subhead California, as "J. A. Ivey Ranch, Route 1, Box 167, Blythe" is changed to read: J. A. Ivey Ranch, Route 2, Box 167, Blythe.

e. The item appearing in the list, contained in such instructions under the subhead California, as "Kern County Land Co., Feed Yard, Gosford" is changed to read: Kern County Land Company, Gosford Feed Yard, 2920 M Street, Bakersfield.

f. The item appearing in the list, contained in such instructions under the subhead California, as "Mee Ranches (lessee), 1901 Brundage Lane, Bakersfield" is changed to read: Mee Ranches (lessee), 1901 East Brundage Lane, Bakersfield.

g. The item appearing in the list, contained in such instructions under the subhead California, as "Emil Rebik Ranch, near East P on north side of Road 58, Box 184, Imperial" is changed to read: Emil Rebik Ranch, near East P on north side of Road 58, Box 184, Brawley.

This amendment shall be effective November 17, 1955.

Subsequent to the fifth amendment of these instructions, effective October 11, 1955, infestations of the khapra beetle were discovered on the Henry Frauenfelder Farm, Route 1, Box 95, Somerton, Arizona, and the Desert Feed Store, 1139 West Hatcher Road, Phoenix, Arizona. Movement of regulated articles from these properties was immediately stopped. Within a few days these infested premises had been fumigated and declared free of khapra beetle infestation. Accordingly, these properties are not being included in this amendment.

This amendment revokes the designation as regulated areas of certain premises, it having been determined by the Chief of the Plant Pest Control Branch that adequate sanitation measures have been practiced for a sufficient length of time to eradicate the khapra beetle in and upon such premises. It also adds additional premises to the list of premises in which khapra beetle infestations have been determined to exist, and designates such premises as regulated areas under the khapra beetle quarantine and regulations. It further corrects certain designations of presently regulated areas.

This amendment in part imposes restrictions supplementing khapra beetle quarantine regulations already effective. It also relieves restrictions insofar as it revokes the designation of presently regulated areas. It must be made effective promptly in order to carry out the purposes of the regulations and to permit unrestricted movement of regulated products from the premises being removed from designation as regulated areas. Accordingly, under section 4 of the Administrative Procedure Act (5 U. S. C. 1003), it is found upon good cause that notice and other public procedure with respect to the foregoing amendment are impracticable and contrary to the public interest, and good cause is found for making the effective date thereof less than 30 days after publication in the FEDERAL REGISTER.

(Sec. 9, 37 Stat. 318; 7 U. S. C. 162. Interprets or applies sec. 8, 37 Stat. 318, as amended; 7 U. S. C. 161)

Done at Washington, D. C., this 10th day of November 1955.

[SEAL] W. L. POPHAM,
Chief, Plant Pest Control Branch.

[F. R. Doc. 55-9247; Filed, Nov. 16, 1955; 8:50 a. m.]

Chapter VI—Soil Conservation Service, Department of Agriculture

PART 600—FUNCTIONS AND PROCEDURES

Part 600 is revised to read as follows:

Sec.
600.1 Soil and water conservation.
600.2 Flood prevention.
600.3 Watershed protection and flood prevention.
600.4 Watershed protection (pilot).
600.5 Land conservation and utilization.
600.6 Water conservation and utilization.
600.7 Appeal from administrative action.

AUTHORITY: §§ 600.1 to 600:7 issued under sec. 4, 49 Stat. 164, sec. 32, 50 Stat. 525, 56 Stat. 725; 7 U. S. C. 1011, 16 U. S. C 590d. Statutory provisions interpreted or applied are cited to text in parentheses.

§ 600.1 *Soil and water conservation*—(a) *Cooperation with soil conservation districts.* (1) The Soil Conservation Service furnishes assistance to soil conservation districts in accordance with a basic memorandum of understanding between the Department of Agriculture and the governing body of each soil conservation district. Copies of that memorandum and forms and information relating to cooperation with districts may be obtained from the respective State Conservationists.

(2) The Soil Conservation Service, in accordance with the basic memorandum of understanding makes assistance available to a district pursuant to a supplemental memorandum of understanding between the district and the Service, after (i) the district has formulated a district program and work plan outlining how it will carry on its activities, and (ii) the State Conservationist determines that the district program and work plan constitute a satisfactory basis for making asssitance available, and that such assistance is available. The Soil Conservation Service may also give the district certain preliminary assistance in connection with the formulation of the district's conservation program and work plan.

(3) Requests by district governing bodies for Soil Conservation Service assistance may be submitted to the State Conservationist, with an explanation of the district's needs on the basis of its work plan. If he determines that assistance is available, copies of the form of supplemental memorandum of understanding will be furnished to the district governing body for execution. Upon return of the executed supplemental memorandum of understanding to the State Conservationist, he is responsible for executing it on behalf of the Soil Conservation Service. A Soil Conservation Service representative prepares and furnishes to the district a schedule of the specific assistance that the Service can make available for the remainder of the current fiscal year. Thereafter, schedules are made annually covering the period ending June 30 of the following year.

(4) Assistance to districts includes technical services, together with clerical assistance, transportation and other facilities required by staff technicians and limited amounts of new plant materials.

(b) *Soil surveys.* (1) All soil survey activities of the Department of Agriculture were combined under the administration of the Soil Conservation Service during the 1953 fiscal year to insure that the needs of all survey users could be met in one standard soil survey. Soil surveys are conducted by the Soil Conservation Service in cooperation with the land grant colleges and other cooperating agencies.

(2) The Soil Survey provides (i) an orderly scientific inventory of the soil resources of the country according to their potentialities and problems of use, (ii) standard soil surveys that meet all reasonable needs of farmers, agricultural technicians, engineers and scientists in planning research and in effectively transferring findings of research and experience to specific fields and other local land areas and (iii) the best possible technical basis and service for planning soil and water conservation on farms and ranches within soil conservation districts.

§ 600.2 *Flood prevention.* The Soil Conservation Service and the Forest Service are carrying out works of improvement for flood prevention on the following eleven watersheds:

Buffalo Creek, New York.
Potomac River, Maryland, Pennsylvania, Virginia, West Virginia.
Coosa River, Georgia.
Little Tallahatchie River, Mississippi.
Yazoo River, Mississippi.
Trinity River, Texas.
Colorado River (Middle), Texas.
Washita River, Oklahoma.
Little Sioux River, Iowa.
Los Angeles River, California.
Santa Ynez River, California.

This work was initiated in 1946 under authority of the Flood Control Acts. Works of improvement will not be installed in additional watersheds under this authority since the Watershed Protection and Flood Prevention Act (68 Stat. 666) repealed the authority of the Department of Agriculture under the Flood Control Acts to make preliminary examination and surveys and to prosecute works of improvement for runoff and waterflow retardation and soil erosion prevention on rivers and other waterways with the exception of the eleven watersheds authorized by the Flood Control Act of December 22, 1944. Works of improvement are installed on the eleven watersheds in cooperation with State and local agencies and organizations. Flood prevention work plans are prepared to provide water management patterns on a subwatershed basis; they also provide facts and characteristics on watershed problems and plans for abatement of floodwater, sediment, and erosion damages by a combination of land treatment and structural measures. Procedures for cooperating with soil conservation districts in carrying out flood prevention operations are generally similar to those described in § 600.1. Information regarding this program may be obtained from the Administrator or from the respective State Conservationists.

(58 Stat. 887; 33 U. S. C. 701–1)

§ 600.3 *Watershed protection and flood prevention.* (a) The Administrator of the Soil Conservation Service is responsible for administering the Watershed Protection and Flood Prevention Act which authorizes the Secretary of Agriculture to assist local organizations in preparing and carrying out plans for works of improvement in watershed or subwatershed areas not exceeding 250,000 acres in size, for flood prevention or the agricultural phases of the conservation, development, utilization and disposal of water (irrigation, drainage and other agricultural water management measures). A local organization must have authority under State law to carry out, maintain and operate the necessary works of improvement. In order to receive this assistance, the local organization must first submit its application to the State agency having supervisory responsibility over such programs, or to the governor if no State agency exists. If the State agency or the governor approves the application, or fails to disapprove it within 45 days, planning assistance in preparing a watershed work plan may be provided by the State Conservationist of the Soil Conservation Service upon authorization by the Administrator. Such authorization is generally based upon priority recommendations of the State agency or the governor.

(b) After planning assistance is authorized, a watershed work plan is prepared setting forth the works of improvement to be installed during a specified period, and their cost and benefits, together with pertinent information concerning the watershed and the obligations of the local organization and the Secretary of Agriculture in carrying out the proposed plan.

(c) When the local organization and the Secretary of Agriculture have agreed on the watershed work plan, the plan, after a 60 day review period by the governor and concerned Federal agencies, is submitted to the Congress through the President. After such plan has remained before the Congress for a period of 45 legislative days occurring during regular or special sessions, the Secretary of Agriculture is authorized to provide technical and financial assistance for carrying out works of improvement in accordance with the provisions of the watershed work plan. After July 1, 1956, local organizations must enter into and administer all contracts for the construction of structures. The Soil Conservation Service may provide technical assistance for land treatment measures; installation services for structural measures including surveys, site investigations, layout, design, preparation of specifications, supervision of construction and related forms of assistance; and share in the construction cost of the structures. Information regarding the availability of this assistance may be obtained from the Administrator or from the respective State Conservationists.

(68 Stat. 666)

§ 600.4 *Watershed protection (pilot).* (a) The Soil Conservation Service, with the assistance of the Forest Service, is carrying out a program of watershed protection in 58 watersheds in 34 States. This program was initiated by the Department of Agriculture Appropriation Act, 1954, and is being carried out under the authority of the Soil Conservation Act of 1935.

(b) It is anticipated that the program will be completed on the 58 watersheds by the end of the fiscal year 1958 at a total cost of $28,706,000 to the Federal Government and at least an equal amount to local interests. No additional watersheds will be treated under this program. The purpose of the program is to (1) provide experience in developing sound procedures for local-State-Federal cooperation in achieving the watershed objectives of local people, and (2) demonstrates the actual physical results of a planned watershed program by determining increased productivity, decreased erosion, decreased floodwater and sediment damages, and other benefits resulting from watershed improvements. Works of improvement are installed on the 58 watersheds in accordance with watershed work plans developed in cooperation with the soil conservation districts sponsoring the the projects. These plans provide for the installation of the needed land treatment and structural measures for reducing floodwater, sediment, and erosion damages. Provisions are also made for measuring the effectiveness of the planned measures. Procedures for cooperating with soil conservation districts in carrying out the project are generally similar to those described in § 600.1 Information regarding this program may be obtained from the Administrator or from the respective State Conservationists.

§ 600.5 *Land conservation and utilization.* (a) Activities of the Soil Conservation Service administering lands acquired under Title III involves the operation of nurseries.

(b) Information concerning the availability of nursery lands for use by States, their political sub-divisions, colleges, universities, and others is available from the Administrator or the State Conservationists.

(c) Easements, leases, licenses, permits, and other instruments granting privileges to use land administered under Title III of the Bankhead-Jones Farm Tenant Act, in connection with the construction and maintenance of telephone lines, transmission lines, pipe lines, roads, irrigation and drainage ditches, dams, fire towers, radio towers, television towers, and other purposes related to transportation, communication, and fire protective measures (but not those power lines or dams, licenses for which are required by law to be granted by the Federal Power Commission) may be obtained from the Administrator.

§ 600.6 *Water conservation and utilization.* (a) The Soil Conservation Service, within the limits of project authorizations issued pursuant to the Water Conservation and Utilization Acts, is carrying out functions in connection with the construction and development of water conservation and utilization projects in the 17 Western States. The Department of Agriculture participation is concerned with the acquisition, development, and settlement on a sound agricultural basis, of project lands, and includes technical guidance and advice to settlers thereon in agricultural matters.

(b) The State Conservationist, when he determines that the acquisition of land is necessary, will have the land in question appraised on the basis of its normal earning capacity. Land will be acquired only at prices and with title satisfactory to the Secretary of Agriculture.

(c) Project Supervisors will determine the extent of land development to be carried out on acquired land, which work may be done either by contract after competitive bids have been received or by force account, with the Soil Conservation Service hiring the labor and purchasing the materials. Project lands and irrigation distribution systems in private ownership likewise may be developed or improved under the contract with the owner upon his request to the Project Supervisor, who will furnish information regarding the conditions under which the work will be prosecuted.

(d) Acquired project lands will be sold, insofar as practicable, in family-size farm units, as determined by State Conservationists. Prior to the time project lands have been developed for irrigation and irrigation water is available, land acquired by the Government may be leased to qualified operators upon application to the project supervisor. After acquired lands have been developed for irrigation and irrigation water is available, State Conservationists will advertise the number of family-size units on projects which will be available for sale and the number which will be available for lease, with option to purchase, at any specified time, except that no advertisement will be made as to units to be sold to persons to whom commitments to purchase were made prior to September 11, 1946, and who have been approved by the Family Selection committee. Developed tracts of land less than family-size farms will be sold without advertising to local farmers who now own less than economic family-size farms when their applications are approved by the Family Selection committee. Application forms, for showing the applicant's qualifications, and information concerning the purchase of project farms may be obtained from the respective project supervisors or State Conservationists. Prospective tenants and purchasers must, insofar as practicable, be in need of a family-type farm; be citizens of the United States; have had previous experience in farming where the major portion of the family income was from the farm; have a satisfactory credit reputation; and own or be in a position to secure necessary equipment and livestock to operate the land for which application is being made. In addition, prospective purchasers must be free from permanent infectious diseases or disabilities that are likely to obstruct the fulfillment of their obligations incident to the purchase of the farm. Applicants will be considered and passed upon by a Family Selection committee composed of seven persons residing in the community or county in which the project is located. The applicants will be notified of the action taken by the Family Selection committee.

(53 Stat. 1418, as amended; 16 U. S. C. 590y)

§ 600.7 *Appeals from administrative action.* In the case of any administrative action taken or decision made pursuant to authority delegated by the Administrator, any member of the public may make an appeal by filing with the officer who made the decision a written request for reconsideration thereof or a notice of appeal. A decision of such officer shall be final unless an appeal is taken therefrom within a reasonable length of time by the person aggrieved. The decision appealed from shall be reviewed by the immediate superior of the officer by whom the decision was made; that is, in the following order: By State Conservationists and the Administrator. Unless a written notice of appeal contains an acceptable reason for allowing a longer time for the preparation of the case, the appellant shall file immediately a statement setting forth in detail the respect in which the action or decision from which the appeal is being taken is contrary to or in conflict with the law, Departmental or Federal regulation, or the determined facts. Upon receipt of such statement the officer from whose decision or action the appeal is taken shall prepare a statement presenting the facts and considerations upon which the decision or action was taken. The appellant's statement, together with the officer's statement and all papers comprising the records of the case, shall be then transmitted to the officer to whom the appeal is taken, who will thereupon review the case and notify both the appellant and the officer of the decision.

Dated: November 7, 1955.

[SEAL] D. A. WILLIAMS,
Administrator.

[F. R. Doc. 55-9250; Filed, Nov. 16, 1955; 8:50 a. m.]

TITLE 14—CIVIL AVIATION

Chapter II—Civil Aeronautics Administration, Department of Commerce

[Amdt. 142]

PART 608—RESTRICTED AREAS

CERTAIN ALTERATIONS IN ARIZONA AND CALIFORNIA

The restricted area alterations appearing hereinafter have been coordinated with the civil operators involved, the Army, the Navy and the Air Force, through the Air Coordinating Committee, Airspace Panel, and are adopted to become effective when indicated in order to promote safety of the flying public. Since a military function of the United States is involved, compliance with the notice, procedure, and effective date, provisions of Section 4 of the Administrative Procedure Act is not required.

Part 608 is amended as follows:

1. In § 608.12, the Fort Hauchuca, Arizona, area (R-181 formerly D-181), amended on October 20, 1955 in 20 F. R. 7902, is further amended by changing the "Time of Designation" column to read: "Unlimited".

2. In § 608.14, the San Diego, California, areas (R-298 and R-299 formerly D-298 and D-299, respectively), designated on July 16, 1949 in 14 F. R. 4288, are rescinded.

(Sec. 205, 52 Stat. 984, as amended; 49 U. S. C. 425. Interpret or apply sec. 601, 52 Stat. 1007, as amended; 49 U. S. C. 551)

This amendment shall become effective December 12, 1955.

[SEAL] F. B. LEE,
Administrator of Civil Aeronautics.

[F. R. Doc. 55-9224; Filed, Nov. 16, 1955; 8:45 a. m.]

TITLE 19—CUSTOMS DUTIES

Chapter I—Bureau of Customs, Department of the Treasury

[T. D. 53945]

PART 6—AIR COMMERCE REGULATIONS

REVOCATION OF DESIGNATION OF ISLA GRANDE AIRPORT, SAN JUAN, PUERTO RICO, AS AN INTERNATIONAL AIRPORT

NOVEMBER 10, 1955.

The designation of Isla Grande Airport, San Juan, Puerto Rico, as an international airport (airport of entry) for civil aircraft and for merchandise carried thereon arriving from places outside the United States, as defined in section 9 (b) of the Air Commerce Act of 1926 (49 U. S. C. 179 (b)), is hereby revoked, effective on the date of publication of this Treasury decision in the FEDERAL REGISTER.

The list of international airports in § 6.13, Customs Regulations, is hereby amended by deleting therefrom the location and name of said airport.

(R. S. 161, sec. 7, 44 Stat. 572, as amended; 5 U. S. C. 22, 49 U. S. C. 177)

Notice of the proposed revocation of the designation of Isla Grande Airport as an international airport (airport of entry) was published in the FEDERAL REGISTER of September 30, 1955 (20 F. R. 7313), pursuant to the provisions of section 4 of the Administrative Procedure Act (5 U. S. C. 1003). No objections to such action were received. The revocation is made for the reason that this airport will be used exclusively for military operations, in view of which the delayed effective date requirement of section 4 (c) of the Administrative Procedure Act (5 U. S. C. 1003 (c)) is being dispensed with.

[SEAL] DAVID W. KENDALL,
Acting Secretary of the Treasury.

TITLE 25—INDIANS

Chapter I—Bureau of Indian Affairs, Department of the Interior

Appendix—Extension of the Trust or Restricted Status of Certain Indian Lands

TRUST PERIODS EXPIRING DURING CALENDAR YEAR 1956

By virtue of and pursuant to the authority delegated by Executive Order No. 10250 of June 5, 1951, and pursuant to section 5 of the act of February 8, 1887, 24 Stat. 388, 389, the act of June 21, 1906, 34 Stat. 325, 326, and the act of March 2, 1917, 39 Stat. 969, 976, and other applicable provisions of law, it is hereby ordered that the periods of trust or other restrictions against alienation contained in any patent applying to Indian lands, whether of a tribal or individual status, which, unless extended, will expire during the calendar year 1956, be, and the same are hereby, extended for a further period of one year from the date on which any such trust would otherwise expire.

This order is not intended to apply to any case in which Congress has specifically reserved to itself authority to extend the period of trust on tribal or individual Indian lands.

WESLEY A. D'EWART,
Assistant Secretary of the Interior.

NOVEMBER 9, 1955.

TITLE 32A—NATIONAL DEFENSE, APPENDIX

Chapter I—Office of Defense Mobilization

[Defense Mobilization Order V-5]

DMO V-5—PROGRAMS FOR EXPANSION OF SUPPLIES OF MATERIALS NEEDED FOR DEFENSE PURPOSES IN THE EVENT OF A MAJOR DISASTER

By virtue of the authority vested in me pursuant to the Defense Production Act of 1950, as amended, the Strategic and Critical Materials Stock Piling Act, the National Security Act, section 168 of the Internal Revenue Code of 1954, Reorganization Plan No. 3, effective June 12, 1953, and Executive Order 10480 of August 14, 1953, it is hereby ordered that:

1. Where a major disaster, as defined and determined under the provisions of the act entitled "An Act to Authorize Federal Assistance to States or Local Governments in Major Disasters, and for other purposes" (64 Stat. 1109), has either reduced the supplies of materials needed for defense purposes or has increased defense requirements for such materials, all agencies having defense mobilization assignments shall promptly recommend appropriate programs to the Office of Defense Mobilization for expansion of supply under authority of the Defense Production Act of 1950, as amended.

2. This order shall take effect immediately.

OFFICE OF DEFENSE MOBILIZATION,
ARTHUR S. FLEMMING,
Director.

[F. R. Doc. 55-9285; Filed, Nov. 15, 1955; 4:09 p. m.]

[Defense Mobilization Order V-6]

DMO V-6—Provision of Materials Under Government Control as Needed to Supplement Supplies Commercially Available in the Event of a Major Disaster for Use in Reconstruction or to Meet Defense Orders

By virtue of the authority vested in me pursuant to the Defense Production Act of 1950, as amended, the Strategic and Critical Materials Stock Piling Act, the National Security Act, section 168 of the Internal Revenue Code of 1954, Reorganization Plan No. 3, effective June 12, 1953, and Executive Order 10480 of August 14, 1953, it is hereby ordered that:

1. Where a major disaster, as defined and determined under the provisions of the act entitled "an Act to Authorize Federal Assistance to States or Local Governments in Major Disasters, and for other purposes" (64 Stat. 1109), has impeded production or movement of materials essential to defense purposes (including meeting of defense orders and the reconstruction of facilities essential to the mobilization base) all agencies having defense mobilization assignments shall promptly advise the Office of Defense Mobilization of the quantities and qualities of materials needed for specific defense projects. In the event that other measures cannot make adequate provision for supplying the needed materials, then the ODM will arrange with the General Services Administration for diversions of material under contract to the government or release of materials from the Defense Production Act inventory. Where appropriate, the ODM will arrange with the Department of Agriculture for sale of such materials from the Commodity Credit Corporation inventories.

2. This order shall take effect immediately.

Office of Defense Mobilization,
Arthur S. Flemming,
Director.

Chapter VI—Business and Defense Services Administration, Department of Commerce

[BDSA Order M-11A (Formerly NPA Order M-11A), Amdt. 9 of November 15, 1955]

M-11A—Copper and Copper-Base Alloys

AMOUNT OF PRODUCTION CAPACITY TO BE RESERVED

This amendment is found necessary and appropriate to promote the national defense and is issued pursuant to the Defense Production Act of 1950, as amended. In the formulation of this amendment, consultation with industry representatives has been rendered impracticable due to the need for immediate action.

This amendment affects BDSA Order M-11A (formerly NPA Order M-11A), as amended, by changing the amount of production capacity which producers of copper controlled materials must reserve for the acceptance of authorized controlled material orders.

Paragraph (b) of section 9 of BDSA Order M-11A, as amended by Amendment 8 of May 17, 1955, is hereby further amended to read as follows:

(b) The production capacity to be reserved by a copper controlled materials producer for the production of each copper controlled material product to be delivered pursuant to authorized controlled material orders for any such product for a particular month, shall be that capacity required to produce a quantity by weight of such product, computed by multiplying the average shipment of such product by the applicable percentage set opposite such product in the following list:

	Percentage for orders calling for delivery—	
	Prior to Jan. 1, 1956	After Dec. 31, 1955
Brass mill products:		
Unalloyed:		
Plate, sheet, strip, and rolls	8	8
Rod, bar, shapes, and wire	11	9
Seamless tube and pipe	6	5
Alloyed:		
Plate, sheet, strip, and rolls	6	8
Rod, bar, shapes, and wire	5	7
Seamless tube and pipe	20	20
Military ammunition cups and discs	30	30
Copper wire mill products:		
Copper wire and cable:		
Bare and tinned	8	9
Weatherproof	8	9
Magnet wire	8	9
Insulated building wire	8	9
Paper and lead power cable	8	9
Paper and lead telephone cable	8	9
Asbestos cable	8	9
Portable and flexible cord and cable	8	9
Communications wire and cable	8	9
Shipboard cable	8	9
Automotive and aircraft wire and cable	8	9
Insulated power cable	8	9
Signal and control cable	8	9
Coaxial cable	8	9
Copper-clad steel wire containing over 20 percent copper by weight regardless of end use	8	9
Copper foundry products	9	8
Unalloyed copper powder mill products	(1)	(1)
Copper-base alloy powder mill products	(1)	(1)

[1] No reserve space provided. Producers of these products are nevertheless required to accept authorized controlled material orders for such products in accordance with the provisions of the DMS regulations and this order. However, section 7 (f) of this order does not apply to such authorized controlled material orders.

(Sec. 704, 64 Stat. 816, as amended, Pub. Law 295, 84th Cong.; 50 U. S. C. App. 2154)

This amendment shall take effect November 15, 1955.

Business and Defense Services Administration,
By George W. Auxier,
Executive Secretary.

[F. R. Doc. 55-9284; Filed, Nov. 15, 1955; 3:55 p. m.]

TITLE 43—PUBLIC LANDS: INTERIOR

Chapter I—Bureau of Land Management, Department of the Interior

Appendix C—Public Land Orders

[Public Land Order 1250]

[Fairbanks 010777]

ALASKA

REVOKING PUBLIC LAND ORDER NO. 1206 OF AUGUST 10, 1955

By virtue of the authority vested in the President and pursuant to Executive Order No. 10355 of May 26, 1952, it is ordered as follows:

Public Land Order No. 1206 of August 10, 1955, withdrawing the following public lands for use of the Department of the Air Force for military purposes is hereby revoked:

Fairbanks Meridian

T. 3 S., R. 3 E.,
Sec. 7, lots 5 and 6;
Sec. 8, S½;
Sec. 17, lots 1, 2, 3, and 4, E½NW¼, E½;
Sec. 18, lot 1;
Sec. 20, lots 1, 2, 3 and 4, E½;
Sec. 29, lots 1, 2, 3 and 4, SE¼NE¼, N½ NE¼;
Sec. 32, lot 1.

and

Those certain islands or portions thereof, lying in the Tanana River south of the north line of T. 3 S., R. 2 E., F. M., extended west to the west bank of the Tanana River and lying west of the north-south center line of Section 34, T. 3 S., R. 3 E., F. M., extended south to the west bank of the Tanana River.

The areas described aggregate 5,283.10 acres.

The lands are located adjacent to the west boundary of Eielson Air Force Base, and virtually all of them are subject to periodic flooding.

Subject to any existing valid rights and the requirements of applicable law, the lands described are hereby opened to filing of applications, selections, and locations in accordance with the following:

a. Applications and selections under the nonmineral public land laws and applications and offers under the mineral leasing laws may be presented to the Manager mentioned below, beginning on the date of this order. Such applications, selections, and offers will be considered as filed on the hour and respective dates shown for the various classes enumerated in the following paragraphs:

(1) Applications by persons having prior existing valid settlement rights, preference rights conferred by existing laws, or equitable claims subject to allowance and confirmation will be adjudicated on the facts presented in support of each claim or right. All applications presented by persons other than those referred to in this paragraph will be subject to the applications and claims mentioned in this paragraph.

(2) All valid applications under the Homestead, Alaska Home Site and Small Tract Laws by qualified veterans of World War II or of the Korean Conflict, and by others entitled to preference

rights under the act of September 27, 1944 (58 Stat. 747; 43 U. S. C. 279–284 as amended), presented prior to 10:00 a. m. on December 15, 1955, will be considered as simultaneously filed at that hour. Rights under such preference right applications filed after that hour and before 10:00 a. m. on March 16, 1956, will be governed by the time of filing.

(2) All valid applications and selections under the nonmineral public land laws, other than those coming under paragraphs (1) and (2) above, and applications and offers under the mineral leasing laws, presented prior to 10:00 a. m. on March 16, 1956, will be considered as simultaneously filed at that hour. Rights under such applications and selections filed after that hour will be governed by the time of filing.

b. The lands will be open to location under the United States mining laws, beginning 10:00 a. m., on March 16, 1956.

Persons claiming veterans preference rights under Paragraph a (2) above must enclose with their applications proper evidence of military or naval service, preferably a complete photostatic copy of the certificate of honorable discharge. Persons claiming preference rights based upon valid settlement, statutory preference, or equitable claims must enclose properly corroborated statements in support of their applications, setting forth all facts relevant to their claims. Detailed rules and regulations governing applications which may be filed pursuant to this notice can be found in Title 43 of the Code of Federal Regulations.

Inquiries concerning the lands shall be addressed to the Manager, Land Office, Bureau of Land Management, Fairbanks, Alaska.

Wesley A. D'Ewart,
Assistant Secretary of the Interior.

November 9, 1955.

[F. R. Doc. 55-9227; Filed, Nov. 16, 1955; 8:46 a. m.]

TITLE 33—NAVIGATION AND NAVIGABLE WATERS

Chapter I—Coast Guard, Department of the Treasury

Subchapter G—Navigation Requirements for Certain Inland Waters

[CGFR 55-48]

PART 82—BOUNDARY LINES OF INLAND WATERS

EDITORIAL CHANGE REGARDING PASS CAVALLO LIGHTED WHISTLE BUOY 1 ON THE GULF COAST

The Pass Cavallo Lighted Whistle Buoy 1 is used as a reference point in the description of the line dividing the inland waters from the high seas between the Brazos River and the Rio Grande, Texas (33 CFR 82.116). During 1955 this buoy was moved because the channel shifted. Therefore, this editorial amendment to 33 CFR 82.116 substitutes for this buoy a reference point designating the place where the Pass Cavallo Lighted Whistle Buoy 1 was formerly located so that the line established by regulations published in the Federal Register December 8, 1953 (18 F. R. 7894), will not be affected.

Because the amendment in this document is editorial in nature it is hereby found that compliance with the Administrative Procedure Act respecting notice of proposed rule making, public rule making procedures thereon, and effective date requirements thereof is unnecessary.

By virtue of the authority vested in me as Commandant, United States Coast Guard, by Treasury Department Order No. 120, dated July 31, 1950 (15 F. R. 6521), to promulgate rules and regulations in accordance with section 2, 28 Stat. 672, as amended (33 U. S. C. 151), the following amendment to § 82.116 is prescribed and shall become effective on the date of publication in the Federal Register:

§ 82.116 *Brazos River, Tex., to the Rio Grande, Tex.* A line drawn from Freeport Entrance Lighted Bell Buoy 1 to a point 4,350 yards, 118° true, from Matagorda Lighthouse; thence to Aransas Pass Lighted Whistle Buoy 1A; thence to a position 10½ miles, 90° true, from the north end of Lopeno Island (Lat. 27°00.1′ N., Long. 97°15.5′ W.); thence to Brazos Santiago Entrance Lighted Whistle Buoy 1.

(Sec. 8, 18 Stat. 127, as amended; 14 U. S. C. 92)

Dated: November 9, 1955.

[SEAL] J. A. Hirshfield,
Rear Admiral, U. S. Coast Guard,
Acting Commandant.

[F. R. Doc. 55-9234; Filed, Nov. 16, 1955; 8:51 a. m.]

PROPOSED RULE MAKING

DEPARTMENT OF THE INTERIOR

Bureau of Indian Affairs

[25 CFR Part 130]

CROW INDIAN IRRIGATION PROJECT, MONTANA

OPERATION AND MAINTENANCE CHARGES

Pursuant to section 4 (a) of the Administrative Procedure Act approved June 11, 1946, Public Law 404, 79th Congress; the acts of Congress approved August 1, 1914; June 4, 1920; May 26, 1926; and March 7, 1928 (38 Stat. 583, 25 U. S. C. 385; 41 Stat. 751; 44 Stat. 658; 45 Stat. 210; 25 U. S. C. 387), and by virtue of authority delegated by the Secretary of the Interior to the Commissioner of Indian Affairs September 11, 1946 (11 F. R. 10279), and by virtue of authority delegated by the Commissioner of Indian Affairs to the Regional Director September 13, 1949, by Order No. 2535, notice is hereby given of intention to modify § 130.12 of Title 25, Code of Federal Regulations, dealing with irrigable lands of the Crow Indian Irrigation Project to read as follows:

§ 130.12 *Charges.* In compliance with the provisions of the act of August 1, 1914 (38 Stat. 583; 25 U. S. C. 385), the operation and maintenance charges for irrigable lands under the Crow Indian Irrigation Project and under certain private ditches for the calendar year 1956 and subsequent years until further notice are hereby fixed as follows:

For the assessable non-district area under constructed works on all Government-operated units excepting Coburn Ditch, per acre	$2.50
For the assessable area under constructed works on certain tracts of irrigable trust patent Indian land within and benefited by the Two Leggins Unit, per acre	1.74
For the assessable area on certain tracts of irrigable trust patent Indian land within and benefited by the Bozeman Trail Unit, per acre	1.25
For all lands in Indian ownership under the Bozeman Trail Unit on June 28, 1946, and under constructed works on all Government-operated units in the Little Big Horn watershed; for non-Indian, non-irrigation district lands, under private ditches, contracting for the benefits and repayment for the costs of the Willow Creek Storage Works; for operation and maintenance of said Works, per acre	.10
For certain tracts of irrigable trust patent Indian lands within and benefited by the Two Leggins Drainage District (contract dated June 29, 1932), per acre	.75

Interested persons are hereby given an opportunity to participate in preparing the proposed amendment by submitting their views and data or arguments in writing to the Area Director, U. S. Indian Service, Billings, Montana, within 30 days from the date of the publication of this notice of intention in the daily issue of the Federal Register.

J. M. Cooper,
Area Director.

[F. R. Doc. 55-9226; Filed, Nov. 16, 1955; 8:45 a. m.]

NOTICES

POST OFFICE DEPARTMENT

DECENTRALIZATION OF POST OFFICE OPERATIONS, EMBRACING ILLINOIS, MICHIGAN, AND WISCONSIN, AND ESTABLISHMENT OF REGIONAL HEADQUARTERS AT CHICAGO, ILL.

The following is the text of Order No. 55600 of the Postmaster General, dated April 26, 1954:

Pursuant to the authority of section 1 (b) of Reorganization Plan No. 3 of 1949, the following changes will become effective on April 30, 1954:

1. On the effective date there will be established a regional headquarters at Chicago, Ill., under a Regional Operations Manager. Geographically this region will embrace the States of Illinois (excluding Henry, Rock Island, and Whiteside Counties), Michigan, and Wisconsin, and Lake County, Ind. The Regional Operations Manager will be responsible to the Assistant Postmaster General, Bureau of Post Office Operations, for the direction of post office operations in this region. The Regional Operations Manager will also be subject to all policies affecting regional operations prescribed by the Department in Washington. There will also be a Regional Controller in the regional office who, for the time being, will be responsible to the Controller. The Regional Personnel Manager will be administratively responsible to the Regional Operations Manager insofar as Bureau of Operations activities are concerned, and functionally to the Assistant Postmaster General—Personnel. Functions, such as those listed below, which were formerly discharged by various headquarters bureaus and offices in Washington, will now be discharged by the regional staff.

A. Personnel functions, including such items as recruitment, selection and placement of personnel; training activities; labor relations; safety and health programs; classification of positions; awards and efficiency rating systems; review and disposition of disciplinary actions; and liaison with the Civil Service Commission in the region.

B. Service functions, including recommendations to the Department for the establishment or discontinuance of post offices, classified stations and branches; approval of requests for allowances of funds; maintenance of high standards of service in all post offices; and effective control of costs.

C. Industrial engineering functions, including administration of cost reduction programs; improvement in work methods; endorsement of requests for capital expenditures; maintenance of work standards; layout of facilities; provision of work simplification methods and training; and development of systems and procedures, other than accounting and fiscal procedures.

D. Controller functions including the direction of accounting, budget and cost analysis activities.

E. Public information functions, including encouragement of public cooperation and participation in improving postal methods; and maintaining good relations with federal, state, and municipal officials.

2. Bureaus and offices other than the following are unaffected by this order:

A. Bureau of Operations.
B. Bureau of Personnel.
C. Bureau of Controller.

All other bureaus and offices, however, are expected to coordinate and cooperate with this new regional organization. Decentralization of other departmental functions and the placing of activities already decentralized into the regional organization will be carried forward as soon as possible. Orders effectuating these changes will be issued from time to time.

3. The region will be divided into eight districts. All postmasters in each district, except the Chicago postmaster, will report directly to their district manager. The Chicago postmaster will report directly to the regional operations manager.

4. Previous orders or instructions concerning the routing of communications from postmasters to the above-mentioned bureaus in Washington are hereby superseded. All communications, except from the Chicago post office, with respect to the functions set forth in this order will be directed to the appropriate district manager, with the exceptions of monthly and quarterly accounts, which will continue to be routed as at present.

5. District headquarters cities, and the counties included in each district, are as follows:

DISTRICT NO. 1—CHICAGO, ILL.

Illinois counties: Boone, Carroll, Cook, De Kalb, Du Page, Grundy, Jo Daviess, Kane, Kankakee, Kendall, Lake, La Salle, Lee, McHenry, Ogle, Stephenson, Will, Winnebago.

Indiana County: Lake.

DISTRICT NO. 2—OSHKOSH, WIS.

Wisconsin counties: Barron, Buffalo, Burnett, Calumet, Chippewa, Clark, Douglas, Dunn, Eau Claire, Fond du Lac, Jackson, Manitowoc, Outagamie, Pepin, Pierce, Polk, Portage, Rusk, Saint Croix, Sawyer, Sheboygan, Taylor, Trempealeau, Washburn, Waupaca, Waushara, Winnebago, Wood.

DISTRICT NO. 3—GREEN BAY, WIS.

Michigan counties: Alger, Baraga, Chippewa, Delta, Dickinson, Gogebic, Houghton, Iron, Keweenaw, Luce, Mackinac, Marquette, Menominee, Ontonagon, Schoolcraft.

Wisconsin counties: Ashland, Bayfield, Brown, Door, Florence, Forest, Iron, Kewaunee, Langlade, Lincoln, Marathon, Marinette, Oconto, Oneida, Price, Shawano, Vilas.

DISTRICT NO. 4—MILWAUKEE, WIS.

Wisconsin counties: Adams, Columbia, Crawford, Dane, Dodge, Grant, Green, Green Lake, Iowa, Jefferson, Juneau, Kenosha, La Crosse, Lafayette, Marquette, Milwaukee, Monroe, Ozaukee, Racine, Richland, Rock, Sauk, Vernon, Walworth, Washington, Waukesha.

DISTRICT NO. 5—GRAND RAPIDS, MICH.

Michigan counties: Allegan, Antrim, Barry, Benzie, Berrien, Branch, Calhoun, Cass, Charlevoix, Clinton, Eaton, Emmet, Grand Traverse, Hillsdale, Ingham, Ionia, Jackson, Kalamazoo, Kalkaska, Kent, Lake, Leelanau, Manistee, Mason, Mecosta, Missaukee, Montcalm, Muskegon, Newaygo, Oceana, Osceola, Ottawa, Saint Joseph, Van Buren, Wexford.

DISTRICT NO. 6—DETROIT, MICH.

Michigan counties: Alcona, Alpena, Arenac, Bay, Cheboygan, Clare, Crawford, Genesee, Gladwin, Gratiot, Huron, Iosco, Isabella, Lapeer, Lenawee, Livingston, Macomb, Midland, Monroe, Montmorency, Oakland, Ogemaw, Oscoda, Otsego, Presque Isle, Roscommon, Saginaw, Saint Clair, Sanilac, Shiawasee, Tuscola, Washtenaw, Wayne.

DISTRICT NO. 7—PEORIA, ILL.

Illinois counties: Adams, Brown, Bureau, Cass, Champaign, Christian, De Witt, Ford, Fulton, Hancock, Henderson, Iroquois, Knox, Livingston, Logan, McDonough, McLean, Macon, Marshall, Mason, Menard, Mercer, Morgan, Peoria, Piatt, Pike, Putnam, Sangamon, Schuyler, Scott, Stark, Tazewell, Vermilion, Warren, Woodford.

DISTRICT NO. 8—SAINT LOUIS, MO.

Illinois counties: Alexander, Bond, Calhoun, Clark, Clay, Clinton, Coles, Crawford, Cumberland, Douglas, Edgar, Edwards, Effingham, Fayette, Franklin, Gallatin, Greene, Hamilton, Hardin, Jackson, Jasper, Jefferson, Jersey, Johnson, Lawrence, Macoupin, Madison, Marion, Massac, Monroe, Montgomery, Moultrie, Perry, Pope, Pulaski, Randolph, Richland, Saint Clair, Saline, Shelby, Union, Wabash, Washington, Wayne, White, Williamson.

6. District Managers will be designated in a separate announcement. They will act for and be responsible to the Regional Operations Manager on post office matters within their Districts. Each District Manager will be responsible for functions delegated to him by the Regional Operations Manager, including such things as: Making major operating decisions within his District; recommending action on all supervisory appointments; recommending action on requests for funds; advising Regional Operations Manager on District matters and conditions; carrying out regional policies in the District; interpreting departmental and regional policies and recommending changes; coordinating with other bureaus and government agencies in the District; taking necessary actions on complaints; directing the control of expenditures in the District; and maintaining essential records.

(R. S. 161, 396; secs. 304, 309, 42 Stat. 24, 25, sec. 1 (b), 63 Stat. 1066; 5 U. S. C. 22, 133z-15, 369)

[SEAL] ABE MCGREGOR GOFF,
The Solicitor.

DEPARTMENT OF THE INTERIOR

Bureau of Land Management

OREGON

NOTICE OF PROPOSED WITHDRAWAL AND RESERVATION OF LANDS

The City of Waldport, Oregon, has filed an application, Serial No. Oregon 02948, for the withdrawal of the lands described below, from all forms of appropriation including general mining laws and mineral leasing laws.

The applicant desires the land for watershed purposes for protection of City's water supply and recreation, with the stipulation the management of the timber growing on the land remain under administration of the United States, Bureau of Land Management.

For a period of 30 days from the date of publication of this notice, persons having cause may present their objection in writing to the undersigned official of the Bureau of Land Management, Department of the Interior, 1001 Northeast Lloyd Boulevard, P. O. Box 3861, Portland 8, Oregon.

If circumstances warrant it, a public hearing will be held at a convenient time and place, which will be announced.

The determination of the Secretary on the application will be published in the FEDERAL REGISTER. A separate notice will be sent to each interested party of record.

The lands involved in the application are:

WILLAMETTE MERIDIAN, LINCOLN COUNTY, OREGON

T. 14 S., R. 11 W.,
Sec. 5, Lot 10. Total area 40.62 acres.

VIRGIL T. HEATH,
State Supervisor.

NOVEMBER 7, 1955.

UTAH (A-2)

SMALL AREA CLASSIFICATION ORDER NO. 1

NOVEMBER 10, 1955.

1. Pursuant to authority delegated to me by Bureau Order No. 541, dated April 21, 1954, (19 F. R. 2473), I hereby classify the following described public lands totaling 383.4 acres in San Juan County, Utah, as suitable for construction of uranium ore mill, townsite, and other facilities connected therewith, as provided in Section 7 of the Act of June 28, 1934 (48 Stat. 1272) as amended by the Act of June 26, 1936 (49 Stat. 1976; 43 U. S. C. 315f).

SALT LAKE MERIDIAN

Beginning at a point which bears N. 53° 3' E. 550 feet of the quarter corner common to sections 15 and 16, T. 34 S., R. 14 E., thence N. 6° 5' E. 4,142 feet; thence N. 56° 32' W. 2,760 feet; thence S. 35° 33' W. 2,640 feet; thence S. 58° 34' E. 2,068 feet; thence S. 5° 34' E. 501 feet; thence S. 28° 24' W. 230 feet; thence S. 61° 4' W. 2,530 feet; thence S. 64° 53' W. 445 feet; thence S. 88° 59' W. 1,540 feet; thence S. 9° 55' E. 840 feet; thence N. 83° 35' E. 5,759 feet to point of beginning, containing 383.4 acres.

2. Classification of the above described lands by this order segregates them from all appropriations, including locations under the mining laws, except provisions for millsites and the mineral leasing laws. This land is located approximately two miles east of the junction of White Canyon and the Colorado River in San Juan County, Utah. This order is to remain in effect until revoked.

WM. N. ANDERSEN,
State Supervisor.

SOUTH DAKOTA

NOTICE OF PROPOSED WITHDRAWAL AND RESERVATION OF LANDS

NOVEMBER 10, 1955.

The U. S. Forest Service, Department of Agriculture has filed an application, Serial No. Montana 020559 (SD), for the withdrawal of the lands described below, from location and entry under the general mining laws.

The applicant desires the land for picnic grounds and camp grounds.

For a period of thirty days from the date of publication of this notice, persons having cause may present their objections in writing to the undersigned official of the Bureau of Land Management, Department of the Interior, 1245 North 29th Street, Billings, Montana.

If circumstances warrant it, a public hearing will be held at a convenient time and place, which will be announced.

The determination of the Secretary on the application will be published in the FEDERAL REGISTER. A separate notice will be sent to each interested party of record.

The lands involved in the application are:

BLACK HILLS PRINCIPAL MERIDIAN

BLACK HILLS NATIONAL FOREST

Battle Creek Picnic Ground:
T. 2 S., R. 6 E.,
Sec. 10, SE¼SW¼NE¼.
Total area 10 acres.

Beaver Creek Picnic Ground:
T. 5 S., R. 5 E.,
Sec. 21, E½NE¼SE¼;
Sec. 22, W½NW¼SW¼.
Total area 40 acres.

Boulder Park Picnic Ground:

COLORADO

SMALL TRACT CLASSIFICATION NO. 15

NOVEMBER 8, 1955.

1. Pursuant to authority delegated to me by the Director, Bureau of Land Management, by order No. 541, dated April 21, 1954 (19 F. R. 2473), the following described lands totaling approximately 200 acres in Grand County, Colorado, are hereby classified as suitable for lease and sale for residence purposes under the Small Tract Act, of June 1, 1938 (52 Stat. 609, 43 U. S. C., Sec. 682 (a)), as amended:

SIXTH PRINCIPAL MERIDIAN, COLORADO

T. 3 N., R. 76 W.,
Sec. 22: NE¼, NW¼SE¼.

2. Classification of the above-described lands by this order segregates them from all appropriations, including locations under the mining laws, except as to applications under the mineral leasing laws.

3. The lands classified by this order shall not become subject to application under the Small Tract Act of June 1, 1938 (52 Stat. 609; 43 U. S. C. 682 (a)), as amended, until it is so provided by an order to be issued by an authorized officer, opening the lands to application with a preference right to veterans of World War II and of the Korean conflict and other qualified persons entitled to preference under the act of September 27, 1944 (58 Stat. 497; 43 U. S. C. 279–284), as amended.

4. All valid applications filed prior to 9:00 a. m. July 21, 1954, will be granted a preference right as provided for by 43 CFR 257.5 (a).

MAX CAPLAN,
State Supervisor.

DEPARTMENT OF AGRICULTURE

Agricultural Marketing Service

SWEETPOTATOES

NOTICE OF PURCHASE PROGRAM WMP 45a

In order to encourage domestic consumption of sweetpotatoes by diverting them from the normal channels of trade and commerce in accordance with Section 32, Public Law 320, 74th Congress, approved August 24, 1935, as amended, a sweetpotato purchase program was made effective on November 1, 1955, and will continue as needed to and including December 31, 1955. Purchases under this program will be made in producing areas where surpluses are causing serious marketing problems. Sweetpotatoes so purchased will be distributed to nonprofit school lunch programs and other eligible outlets. The quantity to be purchased will depend upon marketing conditions at the time of purchase, the availability of outlets for the use of sweetpotatoes without waste, and upon the amount of funds available for such purchases. Information relative to this purchase program may be obtained from: Fruit and Vegetable Division, Agricultural Marketing Service, Department of Agriculture, Washington 25, D. C.

(Sec. 32, 49 Stat. 774, as amended, 7 U. S. C. and Sup. 612c)

Done at Washington, D. C., this 14th day of November 1955.

[SEAL] S. R. SMITH,
Director, Fruit and Vegetable Division, Agricultural Marketing Service.

PEANUTS

REDELEGATION OF FINAL AUTHORITY BY NORTH CAROLINA STATE AGRICULTURAL STABILIZATION AND CONSERVATION COMMITTEE

Section 729.731 of the Marketing Quota Regulations for the 1956 Crop of Peanuts (20 F. R. 6033), issued pursuant to the marketing quota provisions of the Agricultural Adjustment Act of 1938, as amended (7 U. S. C. 1301–1393), provides that any authority delegated to the State Agricultural Stabilization and Conservation Committee by the regulations may be redelegated by the State Committee. In accordance with section 3 (a) (1) of the Administrative Procedure Act (5 U. S. C. 1002 (a)), which requires delegations of final authority to be published in the FEDERAL REGISTER, there are set out herein the redelegations of final authority which have been made by the North Carolina State Agricultural Stabilization and Conservation Committee of authority vested in such committee by the Secretary of Agriculture in the regulations referred to above. Shown below are the sections of the regulations in which such authority appears and the persons to whom the authority has been redelegated:

NORTH CAROLINA

Sections 729.720 and 729.728—A. P. Hassell, Jr., Chief, Administrative Division of the Office of the State ASC Committee.

Section 729.722—J. L. Nicholson, Program Specialist (PA) of the Office of the State ASC Committee.

Section 729.724 (b)—H. D. Godfrey, Administrative Officer of the Office of the State ASC Committee.

(Sec. 375, 52 Stat. 66, as amended; 7 U. S. C. 1375. Interpret or apply secs. 301, 358, 359, 361–368, 372, 373, 374, 376, 388, 52 Stat. 38, 62, 63, 64, 65, 66, 68, as amended; 55 Stat. 88, as amended, 66 Stat. 27; 7 U. S. C. 1301, 1358, 1359, 1361–1368, 1372, 1373, 1374, 1376, 1388)

Issued at Washington, D. C., this 10th day of November 1955.

[SEAL] EARL M. HUGHES,
Administrator, Commodity Stabilization Service.

Office of the Secretary

MICHIGAN

DESIGNATION OF AREAS FOR PRODUCTION EMERGENCY LOANS

For the purpose of making production emergency loans pursuant to section 2 (a) of Public Law 38, 81st Congress (12 U. S. C. 1148a–2 (a)), as amended, it has been determined that in the following named counties in the State of Michigan a production disaster has caused a need for agricultural credit not readily available from commercial banks, cooperative lending agencies, or other responsible sources.

MICHIGAN

Alcona.	Montmorency.
Alpena.	Ogemaw.
Antrim.	Oscoda.
Charlevoix.	Otsego.
Cheboygan.	Presque Isle.
Emmet.	Roscommon.
Kalkaska.	

After June 30, 1956, production emergency loans will not be made in any of the above-named counties except to borrowers who are indebted for such loans.

Done at Washington, D. C., this 10th day of November, 1955.

[SEAL] TRUE D. MORSE,
Acting Secretary.

[F. R. Doc. 55-9251; Filed, Nov. 16, 1955; 8:50 a. m.]

NORTH CAROLINA

DESIGNATION OF AREAS FOR PRODUCTION EMERGENCY LOANS AND ECONOMIC EMERGENCY LOANS

For the purpose of making production emergency loans pursuant to section 2 (a) of Public Law 38, 81st Congress (12 U. S. C. 1148a–2 (a)), as amended, it has been determined that in the following named counties in the State of North Carolina a production disaster has caused a need for agricultural credit not readily available from commercial banks, cooperative lending agencies, or other responsible sources:

NORTH CAROLINA

Beaufort.	Jones.
Bertie.	Lenoir.
Bladen.	Martin.
Brunswick.	Nash.
Camden.	New Hanover.
Carteret.	Onslow.
Chowan.	Pamlico.
Columbus.	Pasquotank.
Craven.	Pender.
Cumberland.	Perquimans.
Currituck.	Pitt.
Dare.	Sampson.
Duplin.	Scotland.
Edgecombe.	Tyrrell.
Gates.	Vance.
Granville.	Warren.
Greene.	Washington.
Hertford.	Wayne.
Hyde.	Wilson.

Pursuant to delegations of authority from the Administrator, Federal Civil Defense Administration (18 F. R. 4609; 19 F. R. 2148, 19 F. R. 5364, and 20 F. R. 4664), and for the purpose of making economic emergency loans pursuant to section 2 (b) of Public Law 38, 81st Congress, as enacted by Public Law 115, 83d Congress (12 U. S. C. 1148a–2 (b)), as amended, it has been determined that the above named counties in North Carolina are within the area affected by the major disaster occasioned by hurricanes determined by the President on August 13, 1955, as amended on August 19, 1955 and September 20, 1955, pursuant to Public Law 875, 81st Congress (42 U. S. C. 1855 et seq.), and that an economic disaster exists in the above named counties that has caused a need for agricultural credit that cannot be met for a temporary period from commercial banks, cooperating lending agencies, the Farmers Home Administration under its regular loan programs, or other responsible sources.

Pursuant to authority set forth in this document, production emergency loans and economic emergency loans may be made to new applicants in the above named counties through December 31, 1956. Thereafter, production emergency loans may be made in such counties only to borrowers indebted for production emergency loans, and economic emergency loans may be made in such counties only to borrowers indebted for economic emergency loans.

Done at Washington, D. C., this 10th day of November 1955.

[SEAL] TRUE D. MORSE,
Acting Secretary of Agriculture.

CENTRAL NEW YORK BROADCASTING CORP. AND TRIANGLE PUBLICATIONS, INC.

ORDER DESIGNATING APPLICATIONS FOR CONSOLIDATED HEARING ON STATED ISSUES

In re applications of Central New York Broadcasting Corporation, Elmira, New York Docket No. 11533, File No. BPCT-2000; Triangle Publications, Inc., (Radio and Television Division), Elmira, New York, Docket No. 11534, File No. BPCT-2008; for construction permits for new television broadcast stations.

At a session of the Federal Communications Commission held at its offices in Washington, D. C., on the 9th day of November 1955;

The Commission having under consideration the above-entitled applications, each requesting a construction permit for a new television broadcast station to operate on Channel 18 at Elmira, New York; and

It appearing that the above-entitled applications are mutually exclusive in that operation by more than one applicant would result in mutually destructive interference; and

It further appearing that pursuant to section 309 (b) of the Communications Act of 1934, as amended, the above-named applicants were advised by letters of the fact that their applications were mutually exclusive, of the necessity for a hearing thereon, of all objections to their applications, and were given an opportunity to reply; and

It further appearing that upon due consideration of the above applications, the amendments filed thereto, and the replies to the above letters, the Commission finds that under section 309 (b) a hearing is mandatory; that Central New York Broadcasting Corporation is legally, technically, and financially qualified to construct, own and operate the proposed television broadcast station and is otherwise qualified except as to issue "1" below; and that Triangle Publications, Inc. (Radio and Television Division), is legally, technically, and financially qualified to construct, own and operate the proposed television broadcast station, and is otherwise qualified except as to issues "(1)" and "(2)" below;

It is ordered, That pursuant to section 309 (b) of the Communications Act of 1934, as amended, the above-entitled applications are designated for hearing in a consolidated proceeding to commence at 10:00 a. m., on the 2d day of January 1956, in Washington, D. C., upon the following issues:

(1) To determine whether the type and character of the program service proposed by Central New York Broadcasting Corporation and Triangle Publications, Inc. (Radio and Television Division), would meet the needs of the principal community to be served.

(2) To determine, in the light of the Grade A overlap which would exist between the proposed operation of Triangle Publications, Inc. (Radio and Television Division), and the operation of its television Station WNBF-TV, Binghamton, New York, whether a grant of its application would be consistent with the provisions of section 3.636 of the Commission's rules and its policies promulgated thereunder.

(3) To determine on a comparative basis which of the operations proposed in the above-entitled applications would better serve the public interest, convenience and necessity in the light of the record made with respect to the significant differences among the applications as to:

(a) The background and experience of each of the above-named applicants having a bearing on its ability to own and operate the proposed television station.

(b) The proposals of each of the above-named applicants with respect to the management and operation of the proposed station.

(c) The programming service proposed in each of the above-entitled applications.

It is further ordered, That the issues in the above-entitled proceeding may be enlarged by the Examiner, on his own motion or on petition properly filed by a party to the proceeding and upon sufficient allegations of fact in support thereof, by the addition of the following issue:

To determine whether the funds available to the applicant will give reasonable assurance that the proposals set forth in the application will be effectuated.

Adopted: November 9, 1955.

Released: November 14, 1955.

FEDERAL COMMUNICATIONS COMMISSION,
[SEAL] MARY JANE MORRIS,
Secretary.

[Docket No. 11536 etc.; FCC 55-1112]

RADIO HERKIMER ET AL.

ORDER DESIGNATING APPLICATIONS FOR CONSOLIDATED HEARING ON STATED ISSUES

In re applications of Louis Adelman, Norman E. Jorgensen and Seymour Krieger, d/b as Radio Herkimer, Herkimer, New York, Docket No. 11536, File No. BP-9619; Bay State Broadcasting Company (WBSM), New Bedford, Massachusetts, Docket No. 11537, File No. BP-9649; Western Massachusetts Broadcasting Company (WBEC), Pittsfield, Massachusetts, Docket No. 11538, File No. BP-9653; for construction permits.

At a session of the Federal Communications Commission held at its offices in Washington, D. C., on the 9th day of November 1955;

The Commission having under consideration the above-entitled applications of Louis Adelman, Norman E. Jorgensen and Seymour Krieger, d/b as Radio Herkimer, for a construction permit for a new standard broadcast station at Herkimer, New York, to operate on 1420 kilocycles with a power of 1 kilowatt, daytime only; of Bay State Broadcasting Company to change the facilities of Station WBSM, New Bedford, Massachusetts, from operation on 1230 kilocycles with a power of 100 watts, unlimited time, to operation on 1420 kilocycles with a power of 1 kilowatt, directional antenna, unlimited time; and of the Western Massachusetts Broadcasting Company for a construction permit to change the facilities of Station WBEC, Pittsfield, Massachusetts, from operation on 1490 kilocycles with a power of 250 watts, unlimited time, to operation on 1420 kilocycles with a power of 1 kilowatt, directional antenna, unlimited time; and

It appearing that each of the applicants is legally, technically, financially and otherwise qualified, except as may appear from the issues specified below, to construct and operate its proposed facilities; but that mutual interference nighttime is involved in the proposed operations of Stations WBSM and WBEC to the extent that the percentage of population within the normally protected primary service area affected would be approximately 8.8 per cent in the WBSM proposal and 12 percent in the WBEC proposal so that the WBEC proposal would not comply with section 3.28 (c) of the Commission's rules; and that the Radio Herkimer proposal would cause interference daytime to the WBEC proposal; and

It further appearing that pursuant to section 309 (b) of the Communications Act of 1934, as amended, the subject applicants were advised by letter dated April 21, 1955, of the aforementioned deficiencies and that the Commission was unable to conclude that a grant of any of the applications would be in the public interest; and

It further appearing that a timely reply was filed by each of the applicants; and

It further appearing that in a letter dated August 2, 1955, WBEC contended that its proposal should come within the exception to section 3.28 (c) by providing the first nighttime facility to the city since the other existing facility in Pittsfield (WBRK) provides service to only part of the city; and that, if its proposal is not considered to be within the exception, a waiver of section 3.28 (c) is requested on the grounds of substantial compliance, of providing additional service to approximately 40,000 persons, and of making possible a simultaneous grant of the other two proposals which would also provide additional service to a substantial number of persons; and

It further appearing that the exception to section 3.28 (c) referred to by WBEC provides that "an assignment may be made if the proposed station would provide a standard broadcast nighttime facility to a community not having such a facility • • •", that the differentiation between facility and service by a presently assigned facility is patent; and that this proposal does not come within the said exception; and

It further appearing that the Commission, on the basis of the information before it, is unable to make a determination as to whether the grounds advanced by WEBC are sufficient to constitute a valid basis for a waiver of section 3.28 (c) of the rules; and

It further appearing that the Commission, after consideration of the above, is of the opinion that a hearing is necessary;

It is ordered, That, pursuant to section 309 (b) of the Communications Act of 1934, as amended, the said applications are designated for hearing in a consolidated proceeding, at a time and place to be specified in a subsequent order, upon the following issues:

1. To determine the areas and populations which may be expected to gain or lose primary service from the proposed operations of Stations WBSM and WBEC and the areas and populations which would receive primary service from the operation proposed by Radio Herkimer, and the availability of other primary service to such areas and populations of the three proposals.

2. To determine whether the proposed operations of Stations WBSM and WBEC would involve mutual nighttime interference, and if so, the nature and extent thereof, the areas and populations affected thereby, and the availability of other primary service to such areas and populations.

3. To determine whether, as a result of the interference received by the proposed operation of WBEC, the proposal would comply with the provisions of section 3.28 (c) of the Commission's rules and whether circumstances exist which would warrant waiver of that rule.

4. To determine whether the operation proposed by Radio Herkimer would cause interference to the proposed operation of Station WBEC, and if so, the nature and extent thereof, the areas and populations affected thereby, and the availability of other primary service to such areas and populations.

5. To determine in light of section 307 (b) of the Communications Act of 1934, as amended, which of the operations proposed in the above-entitled applications would best provide a fair, efficient and equitable distribution of radio service.

6. To determine, in light of the evidence adduced pursuant to the foregoing issues, which, if any, of the applications should be granted.

It is further ordered, That the issues in the above-entitled proceeding may be enlarged by the Examiner on his own motion or on petition properly filed by a party to the proceeding and upon sufficient allegation of fact in support thereof, by the addition of the following issue:

To determine whether funds available to the applicant will give reasonable assurance that the proposal set forth in the application will be effectuated

Released: November 14, 1955.

In re applications of Sam Ferguson Musser and Gloria G. Musser d/b as Musser Broadcasting Company, Elizabethtown, Pennsylvania, Docket No. 11539, File No. BP-9698; Will Groff tr/as Colonial Broadcasting Company, Elizabethtown, Pennsylvania, Docket No. 11540, File No. BP-9759; H. Raymond Stadiem, Lester P. Etter and M. Leonard Savage d/b as Radio Columbia, Columbia, Pennsylvania, Docket No. 11541, File No. BP-9940; for construction permits.

At a session of the Federal Communications Commission held at its offices in Washington, D. C., on the 9th day of November 1955;

The Commission having under consideration the above-entitled applications for construction permits for new standard broadcast stations by Sam Ferguson Musser and Gloria G. Musser, a partnership, d/b as Musser Broadcasting Company, to operate on 1580 kilocycles with a power of 1 kilowatt, daytime only, at Elizabethtown, Pennsylvania; by Will Groff, tr/as Colonial Broadcasting Company, to operate on 1600 kilocycles with a power of 500 watts, daytime only, at Elizabethtown, Pennsylvania; and by H. Raymond Stadiem, Lester P. Etter and M. Leonard Savage, a limited partnership, d/b as Radio Columbia to operate on 1580 kilocycles with a power of 500 watts, daytime only, at Columbia, Pennsylvania; and

It appearing that each applicant is legally, technically, financially and otherwise qualified, except as may appear from the issues specified below, to operate its proposed station, but that the proposed operations of the Musser Broadcasting Company and Colonial Broadcasting Company are mutually exclusive; that the proposed operations of Musser Broadcasting Company and Radio Columbia are mutually exclusive; that measurements would be required to prove that 2 and 25 mv/m contour overlap would not occur between the proposed operations of Colonial Broadcasting Company and Radio Columbia; that the proposed operation of Radio Columbia would cause interference to Station WPGC, Morningside, Maryland (1580 kc, 10 kw, DA-Day); and

It further appearing that pursuant to section 309 (b) of the Communications Act of 1934, as amended, the subject applicants were advised by letters dated May 18, 1955, and August 10, 1955, of the aforementioned deficiencies and that the Commission was unable to conclude that a grant of any of the applications would be in the public interest; and

It further appearing that a timely reply was filed by each of the applicants; and

It further appearing that an amendment was filed on September 2, 1955, by the Colonial Broadcasting Company and on October 12 and 19, 1955, by Radio Columbia purporting to reduce the radiation efficiency of the proposed antenna systems, but that measurements would still be required to prove that no overlap of the 2 and 25 mv/m contours would obtain in the proposed operations of Colonial Broadcasting Company and Radio Columbia; and

It further appearing that in a letter dated September 8, 1955, Station WPGC opposed a grant of the application of Radio Columbia and requested that it be designated for hearing and stated that it would appear and participate in the proceeding; and

It further appearing that the Commission, after consideration of the above, is of the opinion that a hearing is necessary;

It is ordered, That pursuant to section 309 (b) of the Communications Act of 1934, as amended, the said applications are designated for hearing in a consolidated proceeding, at a time and place to be specified in a subsequent order, upon the following issues:

1. To determine the areas and populations which would receive primary service from the operation of the proposed stations, and the availability of other primary service to such areas and populations.

2. To determine whether the proposed operation of Radio Columbia would involve objectionable interference with Station WPGC, Morningside, Maryland, or any other existing standard broadcast station, and, if so, the nature and extent thereof, the areas and populations affected thereby, and the availability of other primary service to such areas and populations.

3. To determine whether the respective 2 mv/m and 25 mv/m contours of the proposed operations of Colonial Broadcasting Company and Radio Columbia would overlap.

4. To determine, on a comparative basis, which of the operations proposed in the above-entitled applications would best serve the public interest, convenience or necessity in the light of the evidence adduced under the foregoing issues and the record made with respect to the significant differences as to:

(a) The background and experience of each of the above-named applicants to own and operate the proposed stations.

(b) The proposals of each of the above-named applicants with respect to the management and operation of the proposed stations.

(c) The programming service proposed in each of the above-mentioned applications.

5. To determine in the light of section 307 (b) of the Communications Act of 1934, as amended, which, if any, of the above-entitled applications would provide the most fair, efficient and equitable distribution of radio service.

It is further ordered, That WPGC, Inc., licensee of Station WPGC, Morningside, Maryland, is made a party to the proceeding.

It is further ordered, That the issues in the above-entitled proceeding may be enlarged by the Examiner on his own motion or on petition properly filed by a party to the proceeding and upon sufficient allegations of fact in support thereof, by the addition of the following issue:

To determine whether funds available to the applicant will give reasonable assurance that the proposal set forth in the application will be effectuated.

Released: November 14, 1955.

FEDERAL COMMUNICATIONS COMMISSION,
[SEAL] MARY JANE MORRIS,
Secretary.

[F. R. Doc. 55-9260; Filed, Nov. 16, 1955; 8:52 a. m.]

[Docket Nos. 11642, 11543; FCC 55-1115]

COURIER-TIMES, INC., AND DON H. MARTIN (WSIM)

ORDER DESIGNATING APPLICATIONS FOR CONSOLIDATED HEARING ON STATED ISSUES

In re applications of Courier-Times, Inc., New Castle, Indiana, Docket No. 11542, File No. BP-8886; Don H. Martin (WSIM), Salem, Indiana, Docket No. 11543, File No. BP-9392; for construction permits.

At a session of the Federal Communications Commission held at its offices in Washington, D. C., on the 9th day of November 1955;

The Commission having under consideration the above-entitled applications of Courier-Times, Inc., for a construction permit for a new standard broadcast station to operate on 1220 kilocycles with a power of 250 watts, daytime only with directional antenna at New Castle, Indiana; and Don H. Martin to increase the power of Station WSIM, Salem, Indiana from 250 watts to one kilowatt to operate on 1220 kilocycles, daytime only; and

It appearing that each of the applicants is legally, technically, financially and otherwise qualified, except as may appear from the issues below, to operate its proposed station, but that both stations as proposed would result in mutually destructive interference; that the application of Courier-Times, Inc., may cause interference to Station WHBU, Anderson, Indiana (1240 kc, 250 w, unl.); and that it has not been determined what adverse effects, if any, to the operation of the proposed New Castle directional antenna system may be expected because of the proximity of high power transmission lines and the corrective action contemplated if adverse effects result; and

It further appearing that the Courier-Times application, as amended, involves an increase in radiation towards WHBU, Anderson, Indiana, to the extent that the respective 2 mv/m and 25 mv/m contours of the Courier-Times proposal and Station WHBU may overlap, and field intensity measurements, made and analyzed in accordance with the Commission Engineering Standards, would be required to prove that such overlap would not occur; and

It further appearing that pursuant to section 309 (b) of the Communications Act of 1934, as amended, the subject applicants were advised by letter dated August 9, 1955, of the aforementioned deficiencies and that the Commission was unable to conclude that a grant of either application would serve the public interest; and

It further appearing that a timely reply was filed by each of the applicants; and

It further appearing that the Commission, after consideration of the replies, is of the opinion that a hearing is necessary;

It is ordered, That, pursuant to section 309 (b) of the Communications Act of 1934, as amended, the said applications are designated for hearing in a consolidated proceeding, at a time and place to be specified in a subsequent order, upon the following issues:

1. To determine the areas and populations which would receive primary service from the proposed operation of Courier-Times, Inc. and the availability of other service to such areas and populations.

2. To determine the areas and populations which would gain or lose primary service from Station WSIM operating as proposed and the availability of other primary service to such areas and populations.

3. To determine whether the operation proposed by Courier-Times, Inc., would involve objectionable interference with Station WHBU, Anderson, Indiana, and, if so, the nature and extent thereof, the areas and populations affected thereby, and the availability of other primary service to such areas and populations.

4. To determine, in view of the proximity of high power transmission lines, whether the proposed directional antenna system of Courier-Times, Inc., could operate as proposed.

5. To determine, whether the respective 2 mv/m and 25 mv/m contours of the proposed operation of Courier-Times, Inc., and Station WHBU, Anderson, Indiana, would overlap.

6. To determine in the light of section 307 (b) of the Communications Act of 1934, as amended, which of the operations proposed in the above-entitled applications would better provide a fair, efficient and equitable distribution of radio service.

7. To determine, in light of the evidence adduced pursuant to the foregoing issues, which, if either, of the applications should be granted.

It is further ordered, That Anderson Broadcasting Corporation, licensee of Station WHBU, Anderson, Indiana, is made a party to the proceeding.

It is further ordered, That the issues in the above-entitled proceeding may be enlarged by the Examiner on his own motion or on petition properly filed by a party to the proceeding and upon sufficient allegations of fact in support thereof, by the addition of the following issue:

To determine whether funds available to the applicant will give reasonable assurance that the proposal set forth in the application will be effectuated.

Released: November 14, 1955.

FEDERAL COMMUNICATIONS COMMISSION,
[SEAL] MARY JANE MORRIS,
Secretary.

[F. R. Doc. 55-9261; Filed, Nov. 16, 1955; 8:52 a. m.]

[Docket No. 11544; FCC 55-1118]

CLASS B FM BROADCAST STATIONS

REVISED TENTATIVE ALLOCATION PLAN

1. Notice is hereby given of further proposed rule making in the above-entitled matter.

2. It is proposed to amend the Revised Tentative Allocation Plan for Class B

FM Broadcast Stations in the following manner:

General area	Channels	
	Delete	Add
Leaksville, N. C.	247	233

3. The purpose of the proposed amendment is to provide a Class B channel in Leaksville, North Carolina, for station WLOE-FM which will eliminate the present interference caused in the area to reception of television station WSLS-TV, Roanoke, Virginia, from its operations on Channel No. 247.

4. Authority for the adoption of the proposed amendment is contained in sections 4 (i), 301, 303 (c), (d), (f), and (r), and 307 (b) of the Communications Act of 1934, as amended.

5. Any interested party who is of the opinion that the proposed amendment should not be adopted or should not be adopted in the form set forth herein, may file with the Commission on or before December 9, 1955, a written statement or brief setting forth his comments. Comments in support of the proposed amendment also may be filed before or on the same date. Comments or briefs in reply to the original comments may be filed within 10 days from the last day for filing said original comments or briefs. The Commission will consider all such comments that are submitted before taking action in this matter, and if any comments appear to warrant the holding of a hearing or oral argument, notice of the time and place of such hearing or oral argument will be given.

6. In accordance with the provisions of section 1.764 of the Commission's rules and regulations, an original and 14 copies of all statements, briefs, or comments shall be furnished the Commission.

Adopted: November 9, 1955.

Released: November 10, 1955.

FEDERAL COMMUNICATIONS COMMISSION,
[SEAL] MARY JANE MORRIS,
Secretary.

Applicants produce and sell natural gas for transportation in interstate commerce for resale, as indicated above.

These related matters should be heard on a consolidated record and disposed of as promptly as possible under the applicable rules and regulations and to that end:

Take further notice that, pursuant to the authority contained in and subject to the jurisdiction conferred upon the Federal Power Commission by sections 7 and 15 of the Natural Gas Act, and the Commission's rules of practice and procedure, a hearing will be held on December 14, 1955, at 9:30 a. m., e. s. t., in a hearing room of the Federal Power Commission, 441 G Street NW., Washington, D. C., concerning the matters involved in and the issues presented by such applications: *Provided, however*, That the Commission may, after a non-contested hearing, dispose of the proceedings pursuant to the provisions of section 1.30 (c) (1) or (c) (2) of the Commission's rules of practice and procedure. Under the procedure herein provided for, unless otherwise advised, it will be unnecessary for Applicants to appear or be represented at the hearing.

Protests or petitions to intervene may be filed with the Federal Power Commission, Washington 25, D. C., in accordance with the rules of practice and procedure (18 CFR 1.8 or 1.10) on or before November 29, 1955. Failure of any party to appear at and participate in the hearing shall be construed as waiver of and concurrence in omission herein of the intermediate decision procedure in cases where a request therefor is made.

[SEAL] J. H. GUTRIDE,
Acting Secretary.

[Docket Nos. G-4650, 4651]

TEXAS CO.

NOTICE OF APPLICATIONS AND DATE OF HEARING

NOVEMBER 10, 1955.

Take notice that The Texas Company (Applicant), a Delaware corporation, with a principal office in Houston, Texas, filed on November 1, 1954, applications for a certificate of public convenience and necessity pursuant to section 7 of the Natural Gas Act, authorizing Applicant to render service as hereinafter described, subject to the jurisdiction of the Commission, all as more fully represented in the applications which are on file with the Commission and open for public inspection.

Applicant produces natural gas from (1) the Hiawatha Field, Moffat County, Colorado, which is sold in interstate commerce to Mountain Fuel Supply Company (G-4560) and for resale; and (2) from the Padroni and Mt. Hope Fields, Logan County, Colorado, which is sold in interstate commerce to Kansas-Nebraska Natural Gas Company, Inc., for resale (G-4651).

These related matters should be heard on a consolidated record and disposed of as promptly as possible under the appli-

cable rules and regulations and to that end:

Take further notice that, pursuant to the authority contained in and subject to the jurisdiction conferred upon the Federal Power Commission by sections 7 and 15 of the Natural Gas Act, and the Commission's rules of practice and procedure, a hearing will be held on December 16, 1955, at 9:30 a. m., e. s. t., in a hearing room of the Federal Power Commission, 441 G Street NW., Washington, D. C., concerning the matters involved in and the issues presented by such applications: *Provided, however,* That the Commission may, after a non-contested hearing, dispose of the proceedings pursuant to the provisions of section 1.30 (c) (1) or (c) (2) of the Commission's rules of practice and procedure. Under the procedure herein provided for, unless otherwise advised, it will be unnecessary for Applicant to appear or be represented at the hearing.

Protests or petitions to intervene may be filed with the Federal Power Commission, Washington 25, D. C., in accordance with the rules of practice and procedure (18 CFR 1.8 or 1.10) on or before November 30, 1955. Failure of any party to appear at and participate in the hearing shall be construed as waiver of and concurrence in omission herein of the intermediate decision procedure in cases where a request therefor is made.

[Docket Nos. G-6216, G-6878]

RALPH E. FAIR, INC., ET AL.

NOTICE OF APPLICATIONS AND DATE OF HEARING

NOVEMBER 10, 1955.

In the matters of Ralph E. Fair, Inc., F. William Carr and Jack F. Chrysler; Docket No. G-6216, Docket No. G-6878.

Take notice that Ralph E. Fair, Inc., a Delaware corporation, with its principal place of business at Milam Building, San Antonio, Texas, and F. William Carr and Jack F. Chrysler, individuals, Applicants, whose addresses are Corpus Christi, Texas filed on November 29 and 30, 1954, respectively, their applications for certificates of public convenience and necessity pursuant to section 7 of the Natural Gas Act, authorizing Applicants to render service as hereinafter described, subject to the jurisdiction of the Commission, all as more fully represented in the applications are on file with the Commission and open for public inspection.

Applicant Ralph E. Fair, Inc., produces natural gas from the Magnolia City, North Magnolia City, Fremont and Government Wells Area Gas Fields of Jim Wells and Duval Counties, Texas, and sells it in interstate commerce to the Tennessee Gas Transmission Company for resale. Applicant F. William Carr and Jack F. Chrysler produce natural gas from the Duffy Gas Field, Wharton County, Texas and sell it also to the Tennessee Gas Transmission Company for resale.

These related matters should be heard on a consolidated record and disposed of as promptly as possible under the applicable rules and regulations and to that end:

Take further notice that, pursuant to the authority contained in and subject to the jurisdiction conferred upon the Federal Power Commission by sections 7 and 15 of the Natural Gas Act, and the Commission's rules of practice and procedure, a hearing will be held on December 12, 1955, at 9:40 a. m., e. s. t., in a hearing room of the Federal Power Commission, 441 G Street NW., Washington, D. C., concerning the matters involved in and issues presented by such applications: *Provided, however,* That the Commission may, after a non-contested hearing, dispose of the proceedings pursuant to the provisions of section 1.30 (c) (1) or (c) (2) of the Commission's rules of practice and procedure. Under the procedure herein provided for, unless otherwise advised, it will be unnecessary for Applicant to appear or be represented at the hearing.

Protests or petitions to intervene may be filed with the Federal Power Commission, Washington 25, D. C., in accordance with the rules of practice and procedure (18 CFR 1.8 or 1.10) on or before November 25, 1955. Failure of any party to appear at and participate in the hearing shall be construed as waiver of and concurrence in omission herein of the intermediate decision procedure in cases where a request therefor is made.

[SEAL] J. H. GUTRIDE,
Acting Secretary.

[Docket No. G-6219 etc.]

NANCY LEWIS WELSH ET AL.

NOTICE OF APPLICATIONS AND DATE OF HEARING

NOVEMBER 10, 1955.

In the matters of Nancy Lewis Welsh, et al., Docket No. G-6219; Van Lewis, Docket No. G-6220; Bracken Oil Company, Docket No. G-6883.

Take notice that Nancy Lewis Welsh and Van Lewis, of San Antonio, Texas, and Bracken Oil Company, a co-partnership composed of Glenn H. Bracken, Jeff M. Bracken, Sam T. Bracken, J. Paul Price, A. Y. Lewis, John A. Bracken and Rhoda S. Bracken, Trustees for Addie Bracken Price Trust, Ida Bracken Lewis Trust, Glen H. Bracken Trust, Sam T. Bracken Trust, E. Fred Herschbach (Applicants), filed on November 29, 1954, in Docket Nos. G-6219 and G-6220 and on November 30, 1954, in Docket No. G-6883, applications for certificates of public convenience and necessity, pursuant to section 7 of the Natural Gas Act, authorizing Applicants to render service as hereinafter described, subject to the jurisdiction of the Commission, all as more fully represented in the applications which are on file with the Commission and open for public inspection.

Applicant proposes to sell natural gas in interstate commerce from production from the following fields in Texas, as indicated below, and sell it in interstate commerce to the Texas Eastern Transmission Corporation for resale.

Docket No. and Source of Gas

G-6219 Englehart Field, in Colorado County, Tex.
G-6220 Englehart Field, in Colorado County, Tex.
G-6883 Willow Springs Field, Gregg County, Tex.

These related matters should be heard on a consolidated record and disposed of as promptly as possible under the applicable rules and regulations and to that end:

Take further notice that, pursuant to the authority contained in and subject to the jurisdiction conferred upon the Federal Power Commission by sections 7 and 15 of the Natural Gas Act, and the Commission's rules of practice and procedure, a hearing will be held on December 12, 1955, at 9:30 a. m., e. s. t., in a hearing room of the Federal Power Commission, 441 G Street NW., Washington, D. C., concerning the matters involved in and the issues presented by such applications: *Provided, however,* That the Commission may, after a non-contested hearing, dispose of the proceedings pursuant to the provisions of section 1.30 (c) (1) or (c) (2) of the Commission's rules of practice and procedure. Under the procedure herein provided for, unless otherwise advised, it will be unnecessary for Applicant to appear or be represented at the hearing.

Protests or petitions to intervene may be filed with the Federal Power Commission, Washington 25, D. C., in accordance with the rules of practice and procedure (18 CFR 1.8 or 1.10) on or before November 30, 1955. Failure of any party to appear at and participate in the hearing shall be construed as waiver of and concurrence in omission herein of the intermediate decision procedure in cases where a request therefor is made.

[SEAL] J. H. GUTRIDE,
Acting Secretary.

[Docket No. G-9166]

TEXAS CO.

NOTICE OF APPLICATION AND DATE OF HEARING

NOVEMBER 8, 1955.

Take notice that the Texas Company (Applicant), a Delaware corporation whose address is P. O. Box 2332, Houston 1, Texas, filed on July 21, 1955, an application for a certificate of public convenience and necessity pursuant to section 7 of the Natural Gas Act, authorizing Applicant to render service as hereinafter described, subject to the jurisdiction of the Commission, all as more fully represented in the application which is on file with the Commission and open for public inspection.

Applicant proposes to sell natural gas in interstate commerce from production

of leases in Graylin, Luft, and Northwest Graylin Fields, Logan County, Colorado, to Kansas-Nebraska Natural Gas Company, Inc., for resale.

This matter is one that should be disposed of as promptly as possible under the applicable rules and regulations and to that end:

Take further notice that, pursuant to the authority contained in and subject to the jurisdiction conferred upon the Federal Power Commission by sections 7 and 15 of the Natural Gas Act, and the Commission's rules of practice and procedure, a hearing will be held on Tuesday, December 20, 1955, at 9:50 a. m., e. s. t., in a hearing room of the Federal Power Commission, 441 G Street NW., Washington, D. C., concerning the matters involved in and the issues presented by such application: *Provided, however,* That the Commission may, after a non-contested hearing, dispose of the proceedings pursuant to the provisions of section 1.30 (c) (1) or (c) (2) of the Commission's rules of practice and procedure. Under the procedure herein provided for, unless otherwise advised, it will be unnecessary for Applicant to appear or be represented at the hearing.

Protests or petitions to intervene may be filed with the Federal Power Commission, Washington 25, D. C., in accordance with the rules of practice and procedure (18 CFR 1.8 or 1.10) on or before November 28, 1955. Failure of any party to appear at and participate in the hearing shall be construed as waiver of and concurrence in omission herein of the intermediate decision procedure in cases where a request therefor is made.

[SEAL] J. H. GUTRIDE,
Acting Secretary.

[Docket No. G-9209]

W. C. MCBRIDE, INC.

NOTICE OF APPLICATION AND DATE OF HEARING

NOVEMBER 8, 1955.

Take notice that W. C. McBride, Inc. (Applicant), a Delaware corporation whose address is 2101 Missouri Pacific Building, St. Louis, Missouri, operator of certain leases, "D" Sand Formation, Padroni Area, Logan County, Colorado, filed, on August 8, 1955, as supplemented on October 25, 1955, an application for a certificate of public convenience and necessity pursuant to section 7 of the Natural Gas Act. Coronado Petroleum Company, Inc. is the owner of an undivided ½ non-operating working interest in these leases. Applicant, all as more fully represented in the application which is on file with the Commission and open for public inspection, seeks authority to sell natural gas in interstate commerce to Kansas-Nebraska Natural Gas Company, Inc. for resale.

This matter is one that should be disposed of as promptly as possible under the applicable rules and regulations and to that end:

Take further notice that, pursuant to the authority contained in and subject to the jurisdiction conferred upon the Federal Power Commission by sections 7 and 15 of the Natural Gas Act, and the Commission's rules of practice and procedure, a hearing will be held on Wednesday, December 21, 1955, at 9:50 a. m., e. s. t., in a hearing room of the Federal Power Commission, 441 G Street NW., Washington, D. C., concerning the matters involved in and the issues presented by such application: *Provided, however,* That the Commission may, after a non-contested hearing, dispose of the proceedings pursuant to the provisions of section 1.30 (c) (1) or (c) (2) of the Commission's rules of practice and procedure. Under the procedure herein provided for, unless otherwise advised, it will be unnecessay for Applicant to appear or be represented at the hearing.

Protests or petitions to intervene may be filed with the Federal Power Commission, Washington 25, D. C., in accordance with the rules of practice and procedure (18 CFR 1.8 or 1.10) on or before November 28, 1955. Failure of any party to appear at and participate in the hearing shall be construed as waiver of and concurrence in omission herein of the intermediate decision procedure in cases where a request therefor is made.

[Docket No. G-9232]

GRIMM AND DUFFIELD

NOTICE OF APPLICATION AND DATE OF HEARING

NOVEMBER 8, 1955.

Take notice that Grimm and Duffield (Applicant), a West Virginia corporation whose address is Washington District, Calhoun County, West Virginia, filed on August 16, 1955, an application for a certificate of public convenience and necessity pursuant to section 7 of the Natural Gas Act, authorizing Applicant to render service as hereinafter described, subject to the jurisdiction of the Commission, all as more fully represented in the application which is on file with the Commission and open for public inspection.

Applicant proposes to sell natural gas in interstate commerce from production of 80 acres in Washington District, Calhoun County, West Virginia, to Hope Natural Gas Company for resale.

This matter is one that should be disposed of as promptly as possible under the applicable rules and regulations and to that end:

Take further notice that, pursuant to the authority contained in and subject to the jurisdiction conferred upon the Federal Power Commission by sections 7 and 15 of the Natural Gas Act, and the Commission's rules of practice and procedure, a hearing will be held on Wednesday, December 21, 1955, at 9:40 a. m., e. s. t., in a hearing room of the Federal Power Commission, 441 G Street NW., Washington, D. C., concerning the matters involved in and the issues presented by such application: *Provided, however,* That the Commission may, after a non-contested hearing, dispose of the proceedings pursuant to the provisions of section 1.30 (c) (1) or (c) (2) of the Commission's rules of practice and procedure. Under the procedure herein provided for, unless otherwise advised, it will be unnecessary for Applicant to appear or be represented at the hearing.

Protests or petitions to intervene may be filed with the Federal Power Commission, Washington 25, D. C., in accordance with the rules of practice and procedure (18 CFR 1.8 or 1.10) on or before November 28, 1955. Failure of any party to appear at and participate in the hearing shall be construed as waiver of and concurrence in omission herein of the intermediate decision procedure in cases where a request therefor is made.

[Docket No. G-8807]

HOLLY OIL CO.

NOTICE OF APPLICATION AND DATE OF HEARING

NOVEMBER 8, 1955.

Take notice that Holly Oil Company (Applicant), a Colorado corporation whose address is Carlton Building, Colorado Springs, Colorado, filed on April 27, 1955 an application for a certificate of public convenience and necessity pursuant to section 7 of the Natural Gas Act, authorizing Applicant to render service as hereinafter described, subject to the jurisdiction which is on file with the Commission and open for public inspection.

Applicant proposes to sell natural gas in interstate commerce from production of its ½ interest in 640 acres in Greenwood Field, Morton County, Kansas, to Colorado Interstate Gas Company for resale.

This matter is one that should be disposed of as promptly as possible under the applicable rules and regulations and to that end:

Take further notice that, pursuant to the authority contained in and subject to the jurisdiction conferred upon the Federal Power Commission by sections 7 and 15 of the Natural Gas Act, and the Commission's rules of practice and procedure, a hearing will be held on Monday, December 19, 1955, at 9:30 a. m., e. s. t., in a Hearing Room of the Federal Power Commission, 441 G Street NW., Washington, D. C., concerning the matters involved in and the issues presented by such application: *Provided, however,* That the Commission may, after a non-contested hearing, dispose of the proceedings pursuant to the provisions of section 1.30 (c) (1) or (c) (2) of the Commission's rules of practice and procedure. Under the procedure herein provided for, unless otherwise advised, it will be unnecessary for Applicant to appear or be represented at the hearing.

Protests or petitions to intervene may be filed with the Federal Power Commission, Washington 25, D. C., in accordance with the rules of practice and procedure (18 CFR 1.8 or 1.10) on or before November 28, 1955. Failure of any party to appear at and participate in the hearing shall be construed as waiver of and concurrence in omission herein of the intermediate decision procedure in cases where a request therefor is made.

TITLE 16—COMMERCIAL PRACTICES

Chapter I—Federal Trade Commission

[Docket 6378]

PART 13—DIGEST OF CEASE AND DESIST ORDERS

L. & I. FISHKIN, INC., ET AL.

Subpart—*Misbranding or mislabeling:* § 13.1190 *Composition: Wool Products Labeling Act.* Subpart—*Neglecting, unfairly or deceptively, to make material disclosure:* § 13.1845 *Composition:* Wool Products Labeling Act. Subpart—*Offering unfair, improper and deceptive inducements to purchase or deal:* § 13.1982 *Guarantee—statutory:* Wool Products Labeling Act.

(Sec. 6, 38 Stat. 721; 15 U. S. C. 46. Interpret or apply sec. 5, 38 Stat. 719, as amended, secs. 2-5, 54 Stat. 1128-1130; 15 U. S. C. 45, 68-68c) [Cease and desist order, L. & I. Fishkin, Inc., et al., New York, N. Y., Docket 6378, November 5, 1955]

In the Matter of L. & I. Fishkin, Inc., a Corporation, and Louis Fishkin, Individually and as an Officer of Said Corporation, and Irving Fishkin, Individually

This proceeding was heard by Everett F. Haycraft, hearing examiner, upon the complaint of the Commission—which charged respondents with violating the Wool Products Labeling Act and the Federal Trade Commission Act through falsely labeling as "100 percent Wool" interlinings of children's coats and jackets, failing to label certain of such coats and jackets, and falsely guaranteeing that such wool products were not misbranded—and an agreement between the parties providing for the entry of a consent order in accordance with § 3.25 of the Commission's rules of practice.

Upon this basis, the hearing examiner made his initial decision and order to cease and desist, which by the Commission's order of November 4, 1955, became, on November 5, 1955, pursuant to § 3.21 of the rules of practice, the "Decision of the Commission".

The order to cease and desist is as follows:

It is ordered, That the respondent L. & I. Fishkin, Inc., a corporation, and respondent Louis Fishkin, individually and as an officer of said corporation, and respondents' representatives, agents and employees, directly or through any corporate or other device, in connection with the introduction or manufacture for introduction into commerce, or offering for sale, sale, transportation or distribution in commerce, as "commerce" is defined in the Federal Trade Commission Act and the Wool Products Labeling Act of 1939, of children's coats and jackets or other "wool products" as such products are defined in and subject to the Wool Products Labeling Act of 1939, which products contain, purport to contain, or in any way are represented as containing "wool," "reprocessed wool" or "reused wool," as those terms are defined in said act, do forthwith cease and desist from misbranding such products by:

1. Falsely or deceptively stamping, tagging, labeling or otherwise identifying such products as to the character or

amount of the constituent fibers included therein;

2. Failing to securely affix to or place on each such product a stamp, tag, label or other means of identification showing in a clear and conspicuous manner:

(a) The percentage of the total fiber weight of such wool products, exclusive of ornamentation not exceeding five percentum of said total fiber weight, of (1) wool, (2) reprocessed wool, (3) reused wool, (4) each fiber other than wool where said percentage by weight of such fiber is five percentum or more, and (5) the aggregate of all other fibers;

(b) The maximum percentage of the total weight of such wool products, of any non-fibrous loading, filling or adulterating matter;

(c) The name or the registered identification number of the manufacturer of such wool products or of one or more persons engaged in introducing such wool products into commerce, or in the offering for sale, sale, transportation, distribution or delivery for shipment thereof in commerce, as "commerce" is defined in the Wool Products Labeling Act of 1939; and

3. Furnishing false guaranties when there is reason to believe the wool products so guaranteed may be introduced, sold, transported or distributed in commerce:

Provided, That the foregoing provisions concerning misbranding shall not be construed to prohibit acts permitted by paragraphs (a) and (b) of Section 3 of the Wool Products Labeling Act of 1939, and

Provided further, That nothing contained in this order shall be construed as limiting any applicable provisions of said Act or the Rules and Regulations promulgated thereunder:

It is further ordered, That the complaint be, and the same hereby is, dismissed without prejudice as to the respondent Irving Fishkin, individually.

By said "Decision of the Commission," report of compliance was required as follows:

It is ordered, That the respondents L. & I. Fishkin, Inc., a corporation, and Louis Fishkin, individually and as an officer of said corporation, shall, within sixty (60) days after service upon them of this order, file with the Commission a report in writing setting forth in detail the manner and form in which they have complied with the order to cease and desist.

Issued: November 4, 1955.

By the Commission.

[SEAL] ROBERT M. PARRISH, *Secretary.*

Chapter IV—Commodity Stabilization Service and Commodity Credit Corporation, Department of Agriculture

Subchapter A—General Regulations and Policies

PART 400—RULES OF CONTRACT DISPUTES BOARD FOR COMMODITY CREDIT CORPORATION

JURISDICTION AND LEGAL ADVICE

Pursuant to the authority contained in Sections 4, 9, and 10 of the Commodity Credit Corporation Charter Act (P. L. 806, 80th Congress, 62 Stat. 1070, as amended), the rules of the Contract Disputes Board for Commodity Credit Corporation, as amended (Code of Federal Regulations, Title 6, Subchapter A of Chapter IV, Part 400, 1954 Supp., January 1, 1955) are further amended as follows:

1. In § 400.1, paragraph (c) *Jurisdiction* is amended by deleting the following: "(including but not limited to Article 22 of PMA Form 100, Standard Contract Conditions, and raw material cost adjustment provisions)", and inserting in lieu thereof the following: "(including but not limited to Article 36, Form CSS-10, Uniform Contractual Provisions [Procurement], and Article 39, Form CSS-50, Uniform Contractual Provisions [Servicing]."

2. Section 400.1 (e) is amended to read as follows:

(e) *Legal advice from the Office of the General Counsel.* If any matter involves any doubtful questions of law, the Contract Disputes Board will obtain the advice of the Office of the General Counsel, Department of Agriculture, with respect thereto.

Adopted by the Contract Disputes Board for Commodity Credit Corporation at meeting held on November 3, 1955, at Washington, D. C.

(Sec. 4, 62 Stat. 1070; 15 U. S. C. 714b)

[SEAL] HARRY B. WIRIN, *Chairman, Contract Disputes Board for Commodity Credit Corporation.*

[SEAL] WALTER C. BERGER, *Acting Executive Vice President, Commodity Credit Corporation.*

Attest:

EMIL F. DIETSCH, *Secretary, Contract Disputes Board for Commodity Credit Corporation.*

NOVEMBER 14, 1955.

[1] The Cooperative Associations through which price support is made available for Virginia fire-cured, type 21, and Virginia sun-cured, type 37, are authorized to deduct from the amount paid to growers 12 cents per hundred pounds to apply against overhead costs. Only the original producer is eligible to receive advances. Tobacco graded "U" (unsound), DAM (damaged), N2L, N2R, N2G, N-K, botched, nested, off-type, or decayed will not be accepted. Tobacco graded "W" (doubtful keeping order) will be accepted at advance rates 10 percent below the regular grade advance rates for types 22, 23, 35, and 36, and 20 percent below the regular grade advance rates for types 21 and 37. Types 22 and 23, grades marked with the special factor "OS" and dark air-cured, type 35, grades marked with special factor "BL" in addition to the regular grade symbols shall have an advance rate 20 percent below the advance rate for the regular grades without such special factor.

PART 474—FARM STORAGE FACILITIES

STORAGE PAYMENTS EARNED BY BORROWERS UNDER PRICE SUPPORT OR RESEAL PROGRAMS

Notwithstanding the provisions of CCC Grain Price Support Bulletins (1950–1955) 15 F. R. 3147, 16 F. R. 1987, 17 F. R. 3521, 18 F. R. 1960, 19 F. R. 967, and 20 F. R. 3017, and the provisions of Farm Storage Facility Loan Program Bulletins, 15 F. R. 4867, 16 F. R. 6492, and 20 F. R. 5113 (which provide for the application of farm storage payments by CCC to the accelerated reduction of loans made under the Farm Storage Facility Loan Program and the Mobile Drying Equipment Loan Program), any payments for storage of commodities in farm storage structures under a price support or reseal program due from Commodity Credit Corporation to a borrower shall be applied (1) to any delinquent amount(s), and, (2) to the borrower's storage facility loan installment or mobile drying equipment loan installment which is due and payable when the storage payment is due, and (3) to any extended installment(s), each including interest. This Notice shall be effective with regard to any storage payments disbursed subsequent to the date of publication hereof. The provisions of any CCC Grain Price Support Bulletin or Farm Storage Facility Loan Bulletin which are inconsistent with the provisions of this Notice are hereby modified accordingly.

(Sec. 4, 62 Stat. 1070, as amended; 15 U. S. C. 714b)

NOTE: This notice affects §§ 474.431 (c) and 474.506 (c).

Issued this 14th day of November 1955.

[SEAL] WALTER C. BERGER,
Acting Executive Vice President,
Commodity Credit Corporation.

TITLE 32—NATIONAL DEFENSE

Chapter V—Department of the Army

Subchapter B—Claims and Accounts

PART 536—CLAIMS AGAINST THE UNITED STATES

MUSTERING-OUT PAYMENTS

In § 536.75, paragraphs (a) (2) (viii) and (1) are amended to read as follows:

§ 536.75 *Mustering-out payments—*(a) *Members engaged in active service in World War II.* • • •

(2) *To whom not payable.* • • •

(viii) Any commissioned officer unless he was discharged or relieved from active duty before April 29, 1955.

• • • • •

(1) *Claims—Veterans' Readjustment Assistance Act of 1952—*(1) *By whom paid.* All claims for mustering-out payments of members who have performed active duty on or after June 27, 1950 and who were discharged prior to July 16, 1952, will be paid by the Settlements Division, Finance Center, U. S. Army, Indianapolis 49, Indiana, provided the application is submitted not later than July 16, 1956. The postmark date on the envelope will be considered the effective date of the application. 1200 midnight, July 16, 1956 being the last hour acceptable.

(2) *Information required to be furnished with application.* Former members who are entitled to mustering-out payments as specified in subparagraph (1) of this paragraph will submit a signed application containing the following information:

(i) Statement that member was not discharged or released from active duty on his own request to accept employment; or if discharged or released to accept employment, statement that the member served outside the United States after June 26, 1950.

(ii) Statement that member is not now serving on active duty in the Armed Forces of the United States, if applicable.

(iii) Statement that member has not and will not make any other application for mustering-out payment for service after June 26, 1950.

(iv) Statement that member served outside the continental limits of the United States or in Alaska after June 26, 1950, if applicable.

(v) If member has served outside the continental limits of the United States or in Alaska, date of arrival in the United States.

(vi) Statement that member has or has not received any mustering-out payment for service after June 26, 1950.

(vii) Address to which check should be mailed, substantially as set forth below:

Print or type (first name)	(Middle name)	(Surname)
(Service number)	(Street number)	
(City and zone)	(State)	

(viii) Statement reading as follows:

I certify that the above information is true and correct.

(Signature)

(3) *Claims on file in the Settlements Division, Finance Center, U. S. Army.* Claims on file in the Settlements Division, Finance Center, U. S. Army, which have been denied because they were received after the date such claims were required to have been filed under the Veterans' Readjustment Assistance Act of 1952, will be processed for payment, if entitlement otherwise exists. The payee will not be required to file a new claim.

[C1, AR 35-1340, September 13, 1955] (Sec. 5, 58 Stat. 10, as amended; sec. 505, 66 Stat. 690; 38 U. S. C. 691, 1015)

[SEAL] JOHN A. KLEIN,
Major General, U. S. Army,
The Adjutant General.

TITLE 43—PUBLIC LANDS: INTERIOR

Chapter I—Bureau of Land Management, Department of the Interior

Appendix—Public Land Orders

[Public Land Order 1251]

[Anchorage 019316, Misc. 1928465, Misc. 59678]

ALASKA

REVOKING PUBLIC LAND ORDER NO. 36 OF SEPTEMBER 7, 1942; PARTIALLY REVOKING AIR NAVIGATION SITE WITHDRAWAL NO. 132 OF JANUARY 15, 1940; WITHDRAWING PORTIONS OF THE RELEASED LANDS FOR VARIOUS PUBLIC PURPOSES

By virtue of the authority vested in the President by Section 1 of the act of March 12, 1914 (38 Stat. 305; 48 U. S. C. 304) and otherwise, and pursuant to Executive Order No. 10355 of May 26, 1952, and Section 4 of the act of May 24, 1928 (45 Stat. 729; 49 U. S. C. 214), it is ordered as follows:

1. Public Land Order No. 36 of September 7, 1942, withdrawing lands in Alaska for use of the War Department for military purposes, which was partially revoked by Public Land Order No. 447 of February 17, 1948, is hereby revoked in its entirety. The following lands are released from withdrawal by this order:

SEWARD MERIDIAN

T. 19 N., R. 4 W.,
Sec. 5, SW¼;
Sec. 6, SE¼;
Sec. 7, lots 3, 4, 7, NE¼;
Sec. 8, lots 1, 2, NW¼, E½SW¼, SW¼ SE¼;
Sec. 17, lots 1, 2, NE¼, E½NW¼;
Sec. 18, lots 1, 4.

The areas described aggregate 1,294.31 acres, of which the SW¼, sec. 5; NW¼, SW¼SW¼, sec. 8; N½NE¼, sec. 17, are nonpublic lands.

2. The Departmental order of January 15, 1940 (Air Navigation Site No. 132), as amended and modified by the Bureau of Land Management order of June 14, 1955 (20 F. R. 4329), withdrawing lands for use of the Department of Aviation, Territory of Alaska for air navigation facilities, is hereby revoked so far as it affects the following-described lands:

SEWARD MERIDIAN

T. 19 N., R. 4 W.,
Sec. 17, lots 1, 2.

The tracts described contain 66.70 acres.

3. Subject to valid existing rights, the following-described public lands, which

are a portion of the lands released from withdrawal by paragraph 1 of this order, are hereby withdrawn from all forms of appropriation under the public-land laws, including the mining and the mineral-leasing laws, and reserved as follows:

(a) Under the jurisdiction of the Department of the Interior for use of the Department of Aviation of the Alaska Aeronautics and Communications Commission:

SEWARD MERIDIAN

T. 19 N., R. 4 W.,
Sec. 6, SE¼;
Sec. 7, E½NE¼;
Sec. 8, lots 1, 2, and that portion of the NE¼SW¼ lying west of the right-of-way of the Alaska Railroad;
Sec. 17, SW¼NE¼, that part lying westerly of a line 200 feet from and parallel to the center line of the main track of the Alaska Railroad.

The areas described aggregate 355.65 acres.

(b) Under the jurisdiction of the Department of the Interior for use of the Alaska Railroad for railroad purposes:

SEWARD MERIDIAN

T. 19 N., R. 4 W.,
Sec. 17, E½SW¼NE¼, W½SE¼NE¼, those parts lying between lines 100 feet and 200 feet respectively, southwesterly from and parallel to the center line of the main track of the Alaska Railroad. The tract of land is 100 feet by 1,440 feet approximately and extends along the Alaska Railroad from Mileage 185.04 to 185.31.

The tract described contains 3.31 acres.

4. Subject to valid existing rights, the following-described public lands, which are a portion of the lands released from withdrawal by paragraph 1 of this order, are hereby withdrawn from all forms of appropriation under the public-land laws, including the mining but not the mineral-leasing laws nor the Materials Act of July 31, 1947 (61 Stat. 681; 43 U. S. C. Sup. 1185–1187), and reserved under the jurisdiction of the Bureau of Land Management, Department of the Interior, for recreation purposes:

SEWARD MERIDIAN

T. 19 N., R. 4 W.,
Sec. 8, that portion of the NE¼SW¼ lying east of the Alaska Railroad right-of-way.

The tract described contains 12.33 acres.

5. Subject to any existing valid rights and the requirements of applicable law, the W½NE¼, lots 3, 4, 7, sec. 7; lots 1, 2, and that portion of the S½NE¼ lying east of the Alaska Railroad right-of-way, sec. 17; and lots 1 and 4, sec. 18, T. 19 N., R. 4 W., containing 349.80 acres, are hereby opened to filing of applications, selections, and locations in accordance with the following:

a. Applications and selections under the nonmineral public-land laws and applications and offers under the mineral-leasing laws may be presented to the Manager mentioned below, beginning on the date of this order. Such applications, selections, and offers will be considered as filed on the hour and respective dates shown for the various classes enumerated in the following paragraphs:

(1) Applications by persons having prior existing valid settlement rights, preference rights conferred by existing laws, or equitable claims subject to allowance and confirmation will be adjudicated on the facts presented in support of each claim or right. All applications presented by persons other than those referred to in this paragraph will be subject to the applications and claims mentioned in this paragraph.

(2) All valid applications under the Homestead, Alaska Home Site, and Small Tract Laws by qualified veterans of World War II or of the Korean Conflict, and by others entitled to preference rights under the act of September 27, 1944 (58 Stat. 747; 43 U. S. C. 279–284 as amended), presented prior to 10:00 a. m. on December 16, 1955, will be considered as simultaneously filed at that hour. Rights under such preference right applications filed after that hour and before 10:00 a. m. on March 16, 1956, will be governed by the time of filing.

(3) All valid applications and selections under the nonmineral public-land laws, other than those coming under paragraphs (1) and (2) above, and applications and offers under the mineral-leasing laws, presented prior to 10:00 a. m. on March 16, 1956, will be considered as simultaneously filed at that hour. Rights under such applications and selections filed after that hour will be governed by the time of filing.

b. The lands will be open to location under the United States mining laws, beginning 10:00 a. m. on March 16, 1956.

6. Persons claiming veteran's preference rights under Paragraph a (2) above must enclose with their applications proper evidence of military or naval service, preferably a complete photostatic copy of the certificate of honorable discharge. Persons claiming preference rights based upon valid settlement, statutory preference, or equitable claims must enclose properly corroborated statements in support of their applications, setting forth all facts relevant to their claims. Detailed rules and regulations governing applications which may be filed pursuant to this notice can be found in Title 43 of the Code of Federal Regulations.

Inquiries regarding the lands shall be addressed to the Manager, Land Office, Bureau of Land Management, Anchorage, Alaska.

WESLEY A. D'EWART,
Assistant Secretary of the Interior.

NOVEMBER 10, 1955.

[F. R. Doc. 55-9267; Filed, Nov. 17, 1955; 8:45 a. m.]

PROPOSED RULE MAKING

DEPARTMENT OF THE TREASURY

Internal Revenue Service

[26 CFR (1954) Part 1]

INCOME TAX; TAXABLE YEARS BEGINNING AFTER DECEMBER 31, 1953

EMPLOYEE STOCK OPTIONS

Notice is hereby given, pursuant to the Administrative Procedure Act, approved June 11, 1946, that the regulations set forth in tentative form below are proposed to be prescribed by the Commissioner of Internal Revenue, with the approval of the Secretary of the Treasury. Prior to the final adoption of such regulations, consideration will be given to any data, views, or arguments pertaining thereto which are submitted in writing in duplicate to the Commissioner of Internal Revenue, Attention: T:P, Washington 25, D. C., within the period of 30 days from the date of publication of this notice in the FEDERAL REGISTER. The proposed regulations are to be issued under the authority contained in section 7805 of the Internal Revenue Code of 1954 (68A Stat. 917; 26 U. S. C. 7805).

[SEAL] O. GORDON DELK,
Acting Commissioner of Internal Revenue.

The following regulations are hereby prescribed under section 421 of the Internal Revenue Code of 1954, relating to employee stock options:

Sec.
1.421 Statutory provisions; employee stock options.
1.421-1 Meaning and use of certain terms.
1.421-2 Restricted stock option.
1.421-3 Exercise of restricted stock option.
1.421-4 Modification, extension, or renewal.
1.421-5 Operation of section 421.
1.421-6 Effective date.

§ 1.421 *Statutory provisions; employee stock options.*

SEC. 421. *Employee stock options*—(a) *Treatment of restricted stock options.* If a share of stock is transferred to an individual pursuant to his exercise after 1949 of a restricted stock option, and no disposition of such share is made by him within 2 years from the date of the granting of the option nor within 6 months after the transfer of such share to him—

(1) No income shall result at the time of the transfer of such share to the individual upon his exercise of the option with respect to such share;

(2) No deduction under section 162 (relating to trade or business expenses) shall be allowable at any time to the employer corporation, a parent or subsidiary corporation, of such corporation, or a corporation issuing or assuming a stock option in a transaction to which subsection (g) is applicable, with respect to the share so transferred; and

(3) No amount other than the price paid under the option shall be considered as received by any of such corporations for the share so transferred.

This subsection and subsection (b) shall not apply unless (A) the individual, at the time he exercises the restricted stock option, is an employee of either the corporation granting such option, a parent or subsidiary corporation of such corporation, or a corporation or a parent or subsidiary of such corporation issuing or assuming a stock option in a transaction to which subsection (g) is applicable, or (B) the option is exercised by him within 3 months after the date he ceases to be an employee of such corporations.

(b) *Special rule where option price is between 85 percent and 95 percent of value of stock.* If no disposition of a share of stock acquired by an individual on his exercise after 1949 of a restricted stock option is made by him within 2 years from the date of the granting of the option nor within 6 months after the transfer of such share to him, but, at the time the restricted stock option was granted, the option price (computed under subparagraph (d) (1) (A)) was less than 95 percent of the fair market value at such time of such share, then, in the event of any disposition of such share by him, or in the event of his death (whenever occurring) while owning such share, there shall be included as compensation (and not as gain upon the sale or exchange of a capital asset) in his gross income, for the taxable year in which falls the date of such disposition or for the taxable year closing with his death, whichever applies—

(1) In the case of a share of stock acquired under an option qualifying under clause (i) of subparagrah (d) (1) (A), an amount equal to the amount (if any) by which the option price is exceeded by the lesser of—

(A) The fair market value of the share at the time of such disposition or death, or

(B) The fair market value of the share at the time the option was granted; or

(2) In the case of stock acquired under an option qualifying under clause (ii) of subparagraph (d) (1) (A), an amount equal to the lesser of—

(A) The excess of the fair market value of the share at the time of such disposition or death over the price paid under the option, or

(B) The excess of the fair market value of the share at the time the option was granted over the option price (computed as if the option had been exercised at such time).

In the case of the disposition of such share by the individual, the basis of the share in his hands at the time of such disposition shall be increased by an amount equal to the amount so includible in his gross income.

(c) *Acquisition of new stock.* If stock is received by an individual in a distribution to which section 305, 354, 355, 356, or 1036, or so much of section 1031 as relates to section 1036, applies and such distribution was made with respect to stock transferred to him upon his exercise of the option, such stock shall be considered as having been transferred to him on his exercise of such option. A similar rule shall be applied in the case of a series of such distributions.

(d) *Definitions.* For purposes of this section—

(1) *Restricted stock option.* The term "restricted stock option" means an option granted after February 26, 1945, to an individual, for any reason connected with his employment by a corporation, if granted by the employer corporation or its parent or subsidiary corporation, to purchase stock of any of such corporations, but only if—

(A) At the time such option is granted—

(i) The option price is at least 85 percent of the fair market value at such time of the stock subject to the option, or

(ii) In case the purchase price of the stock under the option is fixed or determinable under a formula in which the only variable is the value of the stock at any time during a period of 6 months which includes the time the option is exercised, the option price (computed as if the option had been exercised when granted) is at least 85 percent of the value of the stock at the time such option is granted; and

(B) Such option by its terms is not transferable by such individual otherwise than by will or the laws of descent and distribution, and is exercisable, during his lifetime, only by him; and

(C) Such individual, at the time the option is granted, does not own stock possessing more than 10 percent of the total combined voting power of all classes of stock of the employer corporation or of its parent or subsidiary corporation. This subparagraph shall not apply if at the time such option is granted the option price is at least 110 percent of the fair market value of the stock subject to the option and such option either by its terms is not exercisable after the expiration of 5 years from the date such option is granted or is exercised within one year after the date of enactment of this title. For purposes of this subparagraph—

(1) Such individual shall be considered as owning the stock owned, directly or indirectly, by or for his brothers and sisters (whether by the whole or half blood), spouse, ancestors, and lineal descendants; and

(ii) Stock owned, directly or indirectly, by or for a corporation, partnership, estate, or trust, shall be considered as being owned proportionately by or for its shareholders, partners, or beneficiaries; and

(D) Such option by its terms is not exercisable after the expiration of 10 years from the date such option is granted, if such option has been granted on or after June 22, 1954.

(2) *Parent corporation.* The term "parent corporation" means any corporation (other than the employer corporation) in an unbroken chain of corporations ending with the employer corporation if, at the time of the granting of the option, each of the corporations other than the employer corporation owns stock possessing 50 percent or more of the total combined voting power of all classes of stock in one of the other corporations in such chain.

(3) *Subsidiary corporation.* The term "subsidiary corporation" means any corporation (other than the employer corporation) in an unbroken chain of corporations beginning with the employer corporation if, at the time of the granting of the option, each of the corporations other than the last corporation in the unbroken chain owns stock possessing 50 percent or more of the total combined voting power of all classes of stock in one of the other corporations in such chain.

(4) *Disposition*—(A) *General rule.* Except as provided in subparagraph (B), the term "disposition" includes a sale, exchange, gift, or a transfer of legal title, but does not include—

(i) A transfer from a decedent to an estate or a transfer by bequest or inheritance;

(ii) An exchange to which section 354, 355, 356, or 1036 (or so much of section 1031 as relates to section 1036) applies; or

(iii) A mere pledge or hypothecation.

(B) *Joint tenancy.* The acquisition of a share of stock in the name of the employee and another jointly with the right of survivorship or a subsequent transfer of a share of stock into such joint ownership shall not be deemed a disposition, but a termination of such joint tenancy (except to the extent such employee acquires ownership of such stock) shall be treated as a disposition by him occurring at the time such joint tenancy is terminated.

(5) *Stockholder approval.* If the grant of an option is subject to approval by stockholders, the date of grant of the option shall be determined as if the option had not been subject to such approval.

(6) *Exercise by estate*—(A) *In general.* If a restricted stock option is exercised subsequent to the death of the employee by the estate of the decedent, or by a person who acquired the right to exercise such option by bequest or inheritance or by reason of the death of the decedent, the provisions of this section shall apply to the same extent as if the option had been exercised by the decedent, except that—

(i) The holding period and employment requirements of subsection (a) shall not apply, and

(ii) Any transfer by the estate of stock acquired shall be considered a disposition of such stock for purposes of subsection (b).

(B) *Deduction for estate tax.* If an amount is required to be included under subsection (b) in gross income of the estate of the deceased employee or of a person described in subparagraph (A), there shall be allowed to the estate or such person a deduction with respect to the estate tax attributable to the inclusion in the taxable estate of the deceased employee of the net value for estate tax purposes of the restricted stock option. For this purpose, the deduction shall be determined under section 691 (c) as if the option acquired from the deceased employee were an item of gross income in respect of the decedent under section 691 and as if the amount includible in gross income under subsection (b) of this section were an amount included in gross income under section 691 in respect of such item of gross income.

(e) *Modification, extension, or renewal of option*—(1) *Rules of application.* For purposes of subsection (d), if the terms of any option to purchase stock are modified, extended, or renewed, the following rules shall be applied with respect to transfers of stock made on the exercise of the option after the making of such modification, extension, or renewal—

(A) Such modification, extension, or renewal shall be considered as the granting of a new option,

(B) The fair market value of such stock at the time of the granting of such option shall be considered as—

(i) The fair market value of such stock on the date of the original granting of the option,

(ii) The fair market value of such stock on the date of the making of such modification, extension, or renewal, or

(iii) The fair market value of such stock at the time of the making of any intervening modification, extension, or renewal,

whichever is the highest.

Subparagraph (B) shall not apply if the aggregate of the monthly average fair market values of the stock subject to the option for the 12 consecutive calendar months before the date of the modification, extension, or renewal, divided by 12, is an amount less than 80 percent of the fair market value of such stock on the date of the original granting of the option or the date of the making of any intervening modification, extension, or renewal, whichever is the highest.

(2) *Definition of modification.* The term "modification" means any change in the terms of the option which gives the employee additional benefits under the option, but such term shall not include a change in the terms of the option—

(A) Attributable to the issuance or assumption of an option under subsection (g); or

(B) To permit the option to qualify under subsection (d) (1) (B).

If an option is exercisable after the expiration of 10 years from the date such option is granted, subparagrah (B) shall not apply unless the terms of the option are also changed to make it not exercisable after the expiration of such period.

(f) *Effect of disqualifying disposition.*. If a share of stock, acquired by an individual pursuant to his exercise of a restricted stock option, is disposed of by him within 2 years from the date of the granting of the option or within 6 months after the transfer of such share to him, then any increase in the income of such individual or deduction from the income of his employer corporation for the taxable year in which such exercise occurred attributable to such disposition, shall be treated as an increase in income or a deduction from income in the taxable year of such individual or of such employer corporation in which such disposition occurred.

(g) *Corporate reorganization, liquidations, etc.* For purposes of this section, the term "issuing or assuming a stock option in a transaction to which subsection (g) is applicable" means a substitution of a new option for the old option, or an assumption of the old option, by an employer corporation, or a parent or subsidiary of such corporation, by reason of a corporate merger, consolidation, acquisition of property or stock, separation, reorganization, or liquidation, if—

(1) The excess of the aggregate fair market value of the shares subject to the option immediately after the substitution or assumption over the aggregate option price of such shares is not more than the excess of the aggregate fair market value of all shares subject to the option immediately before such substitution or assumption over the aggregate option price of such shares, and

(2) The new option or the assumption of the old option does not give the employee additional benefits which he did not have under the old option.

For purposes of this subsection, the parent-subsidiary relationship shall be determined at the time of any such transaction under this subsection.

§ 1.421–1 *Meaning and use of certain terms*—(a) *Option.* (1) For the purpose of section 421, the term "option" includes the right or privilege of an individual to purchase stock from a corporation by virtue of an offer of the corporation continuing for a stated period of time, whether or not irrevocable, to sell such stock at a price determined under paragraph (d) of this section, such individual being under no obligation to purchase. Such right or privilege, when granted, must be evidenced in writing. The individual who has such right or privilege is referred to as the optionee and the corporation offering to sell stock under such an arrangement is referred to as the optionor. While no particular form of words is necessary, the written option should express, among other things, an offer to sell at the option price and the period of time during which the offer shall remain open.

(2) An option may be granted as part of or in conjunction with an employee stock purchase plan or subscription contract.

(3) An arrangement between a corporation and an employee may involve more than one option. For example, if a corporation on June 1, 1954, grants to an employee the right to purchase 1,000 shares of its stock on or after June 1, 1955, another 1,000 shares on or after June 1, 1956, and a further 1,000 shares on or after June 1, 1957, all shares to be purchased before June 1, 1958, provided the employee at the time of exercise of any of the purchase rights is employed by the corporation, such an arrangement will be construed as the grant to the employee on June 1, 1954, of three options, each for the purchase of 1,000 shares. Similarly, if a corporation grants to an employee on January 1, 1955, the right to purchase 1,000 shares of its stock at $85 per share during 1955, or at $75 per share during 1956, or at $65 per share during 1957, such an arrangement will be construed as the grant to the employee on January 1, 1955, of three alternative options, one option for the purchase of 1,000 shares at $85 per share during 1955, an alternative option for the purchase of 1,000 shares at $75 per share during 1956, and a third alternative option for the purchase of 1,000 shares at $65 per share during 1957.

(b) *Time and date of granting of option.* (1) For the purpose of section 421, the words "the date of the granting of the option" and "the time such option is granted", and similar phrases refer to the date or time when the corporation completes the corporate action constituting an offer of stock for sale to an individual under the terms and conditions of a restricted stock option. Ordinarily, if the corporate action contemplates an immediate offer of stock for sale to an individual or to a class including such individual, or contemplates a particular date on which such offer is to be made, the time or date of the granting of the option is the time or date of such corporate action if the offer is to be made immediately, or the date contemplated as the date of the offer, as the case may be. However, an unreasonable delay in the giving of notice of such offer to the individual or to the class will be taken into account as indicating that the corporation contemplated that the offer was to be made at the subsequent date on which such notice is given.

(2) If the corporation imposes conditions on the granting of an option (as distinguished from conditions governing the exercise of the option), such conditions shall be given effect in accordance with the intent of the corporation. A special rule is provided by section 421 (d) (5) for options subject to stockholder approval. If the grant of an option is subject to approval by stockholders, the date of grant of the option shall be determined as if the option had not been subject to such approval. A condition which does not require corporate action, such as the approval of some regulatory or governmental agency, for example, a stock exchange or the Securities and Exchange Commission, is ordinarily considered a condition upon the exercise of the option unless the corporate action clearly indicates that the option is not to be granted until such condition is satisfied. If an option is granted to an individual upon the condition that such individual will become an employee of the corporation granting the option or of its parent or subsidiary corporation, such option is not granted prior to the date the individual becomes such an employee.

(3) In general, conditions imposed upon the exercise of an option will not operate to make ineffective the granting of the option. For example, on June 1, 1954, the A Corporation grants to X, an employee, an option to purchase 5,000 shares of the corporation stock, exercisable by X on or after June 1, 1955, provided he is employed by the corporation on June 1, 1955. Such an option is granted to X on June 1, 1954.

(c) *Stock.* For the purpose of section 421, the term "stock" means capital stock of any class, including voting or nonvoting common or preferred stock. The term includes both treasury stock and stock of original issue. Special classes of stock authorized to be issued to and held by employees are within the scope of the term "stock" as used in section 421, provided such stock otherwise possesses the rights and characteristics of capital stock.

(d) *Option price.* (1) For the purpose of section 421, the term "option price" or "price paid under the option" means the consideration in money or property which, pursuant to the terms of the option, is the price at which the stock subject to the option is purchased.

(2) With respect to its option price, a restricted stock option must, when granted, meet either of the following requirements:

(i) The option must specify the price which shall be paid for any stock acquired pursuant to such option; or

(ii) In the case of an option exercised during any taxable year of the optionee which begins after December 31, 1953, and ends after August 16, 1954, the option must provide that such price shall be determined by a formula in which the only variable is the value of the stock at any time during a period of six consecutive months which includes the day on which such option is exercised. Such formula may provide for determining such price by reference to such value on any particular day in such six-month period, or by reference to an average value of the stock over either the whole of such six-month period or over any shorter period included in such six-month period. Such six-month period may begin with, end with, or in any other manner span the day on which such option is exercised. Such formula may also depend upon factors other than such value of the stock, but such other factors must not be variable and must be fixed in the option when granted. For example, such formula may provide that the option price shall be 85 percent of the value of the stock on the day the option is exercised, but such price shall not be less than $85, nor more than $110. However, this requirement is not met by a formula which provides that if the profits of the employer for the year do not exceed $100,000, the option price shall be $15 under the fair market value of the stock at the time the option is exercised, but if such profits exceed $100,000, the option price shall be $20 under such value of the stock.

An option which does not meet the requirements of either subdivision (i) or (ii) of this subparagraph when granted, will not be treated as a restricted stock option unless it is subsequently changed to meet such requirements. In case of such a change, see § 1.421–4 (c) (2).

(e) *Exercise.* For the purpose of section 421, the term "exercise", when used in reference to an option, means the act of acceptance by the optionee of the offer to sell contained in the option. In general, the time of exercise is the time when there is a sale or a contract to sell between the corporation and the individual. An agreement or undertaking by the employee to make payments under a stock purchase plan does not constitute the exercise of an option so long as the payments made remain subject to withdrawal by the employee.

(f) *Transfer.* For the purpose of section 421, the term "transfer", when used in reference to the transfer to an individual of a share of stock pursuant to his exercise of a restricted stock option, means the transfer of ownership of such share, or the transfer of substantially all the rights of ownership. Such transfer must, within a reasonable time, be evidenced on the books of the corporation.

§ 1.421–2 *Restricted stock option*—(a) *In general.* (1) A "restricted stock option" is an option granted after February 26, 1945, to an individual, for any reason connected with his employment by a corporation, if granted by the employer corporation or its parent or subsidiary corporation, to purchase stock of any of such corporations, but, except in the case of options described in subparagraph (2) of this paragraph, only if—

(i) At the time such option is granted the option price is at least 85 percent of the fair market value at such time of the stock subject to the option; and

(ii) Such option by its terms is not transferable by such individual otherwise than by will or by the laws of descent and distribution, and is exercisable, during his lifetime, only by him; and

(iii) Such individual, at the time the option is granted, does not own stock possessing more than 10 percent of the total combined voting power of all classes of stock either of the employer corporation or of its parent or subsidiary corporation; and

(iv) In the case of options granted after June 21, 1954, such option by its terms is not exercisable after the expiration of ten years from the date on which such option was granted.

For the purpose of applying the rule of subdivision (i) of this subparagraph if the option price is determined by a formula described in § 1.421–1 (d) (2) (ii), the option price shall, notwithstanding any provision of the option, be computed as if such option is exercised on the day when it is granted. For example, if on June 15, 1954, an option is granted providing that the option price shall be $10 under the average value of the stock during the month preceding the month in which the option is exercised, and if on June 15, 1954, the value of the stock subject to the option is $100 a share, to determine if the option meets the requirement of subdivision (i) of this subparagraph, it is necessary to determine the average value of the stock during the month of May 1954. If such average value is $95 or more, the option meets the requirement of subdivision (i) of this subparagraph.

(2) Regardless of the extent to which the individual to whom the option is granted owns stock of either the employer corporation, or of its parent or subsidiary corporation, an option is a restricted stock option if—

(i) Such option is granted after February 26, 1945, to such individual, for any reason connected with his employment by a corporation, if granted by the employer corporation or its parent or subsidiary corporation, to purchase stock of any of such corporations; and

(ii) At the time such option is granted the option price is at least 110 percent of the fair market value at such time of the stock subject to the option; and

(iii) Such option by its terms is not transferable by such individual otherwise than by will or by the laws of descent and distribution, and is exercisable, during his lifetime, only by him; and

(iv) Such option by its terms is not exercisable after the expiration of five years from the date on which such option was granted, or such option is exercised before August 17, 1955.

(3) At the time the option is granted, the relationship between the individual to whom an option is granted and the corporation granting the option (or a corporation which is a parent or subsidiary thereof) must be the legal and bona fide relationship of employer and employee. For rules applicable to the determination whether the employer-employee relationship exists, see 26 CFR (1939) 406.203, relating to collection of income tax at source on wages. An option granted before employment or after termination of employment is not a restricted stock option. As to the granting of an option conditioned upon employment, see § 1.421–1 (b) (2). The option must be granted for a reason connected with the individual's employment by the corporation or by its parent or subsidiary corporation.

(4) An option may qualify as a restricted stock option only if, under the terms of the option, it is not transferable (other than by will or by the laws of descent and distribution) by the individual to whom it is granted, and is exercisable, during the lifetime of such individual, only by him. Accordingly, an option which is transferable by the individual to whom it is granted during his lifetime, or is exercisable during such individual's lifetime by another person, is not a restricted stock option. However, in case the option contains a provision permitting the individual to whom the option was granted to designate the person who may exercise the option after his death, neither such provision, nor a designation pursuant to such provision, disqualifies the option as a restricted stock option.

(b) *Ownership of 10 percent of stock.* In determining the amount of stock owned by an individual, for the purpose of applying the 10 percent test of section 421 (d) (1) (C), stock of the employer corporation or of its parent or subsidiary owned (directly or indirectly) by or for such individual's brothers and sisters (whether by the whole or half blood), spouse, ancestors, and lineal descendants, shall be considered as owned by such individual. Also, for such purpose, if a domestic or foreign corporation, partnership, estate, or trust owns (directly or indirectly) stock of the employer corporation or of its parent or subsidiary, such stock shall be considered as being owned proportionately by or for the shareholders, partners, or beneficiaries of the corporation, partnership, estate, or trust.

§ 1.421–3 *Exercise of restricted stock option.* (a) The special rules of income tax treatment provided in section 421 (a) and (b) are applicable only if the following conditions exist with respect to the transfer of a share of stock to an individual:

(1) The share of stock is transferred to the individual pursuant to his exercise after 1949 of a restricted stock option; and

(2) At the time the option is exercised by him, the individual is an employee of the corporation granting such option (or parent or subsidiary thereof), or of a corporation (or parent or subsidiary thereof) which issued or assumed the option under section 421 (g) (see § 1.421–4 (d)), or was an employee of any such corporations within three months before the date the option is exercised.

(b) (1) Section 421 is applicable to the exercise of a restricted stock option only if at the time the individual exercises the option he is a bona fide employee of the corporation granting the option, or of a corporation which is at the time the option is exercised a parent or subsidiary of such corporation, unless the old option has been assumed or a new option has been issued in its place under section 421 (g). See § 1.421–4 (d). In case of such an assumption of the old option or such issuance of a new option, the individual exercising the option must, at the time he exercises the option, be a bona fide employee of the corporation so assuming or issuing the option, or a parent or subsidiary of such corporation. Section 421 is also applicable if the individual exercising the option was a bona fide employee of any of such corporations within three months before the exercise of the option.

(2) The application of subparagraph (1) of this paragraph may be illustrated by the following examples:

Example (1). On June 1, 1954, X Corporation granted a restricted stock option to A, an employee of X Corporation, to purchase a share of X stock. On February 1, 1955, X sold the plant where A was employed to M Corporation, an unrelated corporation, and A was employed by M. If A exercises this restricted stock option on June 1, 1955, section 421 is not applicable to such exercise, because on June 1, 1955, A is not employed by the corporation which granted the option or by a parent or subsidiary of such corporation. Nor was he employed by any of such corporations within three months before June 1, 1955.

Example (2). Assume the facts to be the same as in example (1), except that when A was employed by M Corporation, the option to purchase X stock was terminated, and was

replaced by an option to buy M stock in such circumstances that M Corporation is treated as a corporation issuing an option under section 421 (g). If A exercises the option to purchase the share of M stock on June 1, 1955, section 421 is applicable for A is then employed by a corporation which issued an option under section 421 (g).

(c) (1) The determination whether an option ultimately exercised is a restricted stock option is made as of the date such option is granted. An option which is a restricted stock option when granted does not lose its character as such an option by reason of subsequent events, and an option which is not a restricted stock option when granted does not become such an option by reason of subsequent events. See, however, § 1.421–4, relating to modification, extension, or renewal of an option.

(2) The application of subparagraph (1) of this paragraph may be illustrated by the following examples:

Example (1). S–1 Corporation is a subsidiary of S Corporation which, in turn, is a subsidiary of P Corporation. On June 1, 1954, P grants to an employee of P a restricted stock option to purchase a share of stock of S–1. On January 1, 1955, S sells a portion of the S–1 stock which it owns to an unrelated corporation and, as of that date, S–1 ceases to be a subsidiary of S. On May 1, 1955, while still employed by P, the employee exercises his option to purchase a share of S–1 stock. The employee has exercised a restricted stock option.

Example (2). Assume P grants an option to an employee under the same facts as in example (1) above, except that on June 1, 1954, S–1 is not a subsidiary of either S or P. Such option is not a restricted stock option on June 1, 1954. On January 1, 1955, S purchases from an unrelated corporation a sufficient number of shares of S–1 stock to make S–1, as of that date, a subsidiary of S. On May 1, 1955, while still employed by P, the employee exercises his option to purchase a share of S–1 stock. The employee has not exercised a restricted stock option.

(d) For the rules applicable to an exercise of a restricted stock option by the estate of the individual to whom the option was granted, or by a person who acquired the option by bequest or inheritance or by reason of the death of such individual, see § 1.421–5 (d).

§ 1.421–4 *Modification, extension, or renewal*—(a) *In general.* Section 421 (e) provides the rules for determining whether a share of stock transferred to an individual upon his exercise of an option, after the terms thereof have been modified, extended, or renewed, is transferred pursuant to the exercise of a restricted stock option. Such rules and the rules of this section are applicable to modifications, extensions, or renewals (or to changes which are not treated as modifications) in the case of an exercise of an option in any taxable year of the optionee which begins after December 31, 1953, and ends after August 16, 1954.

(b) *Effect of a modification, extension, or renewal.* (1) Any modification, extension, or renewal of the terms of an option to purchase stock shall be considered as the granting of a new option.

(2) Except as otherwise provided in subparagraph (3) of this paragraph, in case of a modification, extension, or renewal of an option, the highest of the following values shall be considered to be the fair market value of the stock at the time of the granting of such option for the purpose of applying the rule of section 421 (d) (1) (A)—

(i) The fair market value on the date of the original granting of the option,

(ii) The fair market value on the date of the making of such modification, extension, or renewal, or

(iii) The fair market value at the time of the making of any intervening modification, extension, or renewal.

(3) (i) The rules of subparagraph (2) of this paragraph do not apply if the aggregate of the monthly average fair market values of the stock subject to the option for the 12 consecutive calendar months preceding the month in which the modification, extension, or renewal occurs, divided by 12, is an amount less than 80 percent of the fair market value of such stock on the date of the original granting of the option or the date of the making of any intervening modification, extension, or renewal, whichever is the highest. In such case, any modification, extension, or renewal of the option is treated as the granting of a new option but only the fair market value of the stock subject to the option at the time of the modification, extension, or renewal is considered in determining whether the option is a restricted stock option. In the case of stocks listed on a stock exchange, the average fair market value of the stock for any month may be determined by adding the highest and lowest quoted selling prices during such month and dividing the sum by two. The method used for determining the average fair market value of the stock for any month must be used for all 12 months.

(ii) The application of subdivision (i) of this subparagraph may be illustrated by the following example:

Example. On June 1, 1954, a restricted stock option was granted to purchase before July 1, 1955, a share of stock for $85. The fair market value of such stock on June 1, 1954, was $100. On June 15, 1955, when the fair market value of the stock is $60, such option is extended so that it is exercisable at any time before July 1, 1956, at $55 a share. The average fair market value of the stock subject to the option for each of the 12 calendar months preceding June 1955, is as follows:

1954		1955	
June	$100	January	$90
July	90	February	80
August	80	March	70
September	70	April	60
October	80	May	60
November	80		
December	90		

The aggregate of such values is $950. When this sum is divided by 12, the result is $79.17, which is an amount less than 80 percent of the fair market value of the stock ($100) when the option was granted. Accordingly, when the option is extended on June 15, 1955, the option price could have been reduced as low as $51 (85 percent of the fair market value of the stock on such day) without disqualifying the option as a restricted stock option. If the aggregate fair market values of the stock so ascertained had amounted to $960 or more, the rules of subparagraph (2) of this paragraph would have been applicable with the result that any reduction in the option price would have disqualified the option as a restricted stock option.

(c) *Definition of modification, extension, or renewal.* (1) The time or date when an option is modified, extended, or renewed shall be determined, insofar as applicable, in accordance with the rules governing determination of the time or date of granting an option provided in § 1.421–1 (b). For the purpose of section 421, the term "modification" means any change in the terms of the option which gives the optionee additional benefits under the option. For example, a change in the terms of the option, which shortens the period during which the option is exercisable, is not a modification. However, a change, which accelerates the time when the option is first exercisable, or which provides more favorable terms for the payment for the stock purchased under the option, is a modification. A mere change in the terms of the option, with respect to the number, kind, or price of the shares subject to the option, solely to reflect a stock dividend or reorganization, such as a recapitalization, is not a modification of the option. See § 1.421–4 (d) for rules relating to the issuance or assumption of an option under section 421 (g). Where an option is amended solely to increase the number of shares subject to the option, such increase shall not be considered as a modification of the option, but shall be treated as the grant of a new option for the additional shares.

(2) Any change in the terms of an option for the purpose of qualifying the option as a restricted stock option is a modification. For example, if an option was granted to purchase for $80 a share of stock, the fair market value of which was $100 at such time, and if later the option price is increased to $85 in order to meet the requirement of section 421 (d) (1) (A), such change is a modification of the option, although the price is increased. Accordingly, the option, despite the change, is not a restricted stock option if the fair market value of the share is more than $100 when the price is increased. However, if the terms of an option are changed to provide that the optionee cannot transfer the option except by will or by the laws of descent and distribution, such change is not a modification, provided the option is at the same time changed so that it is not exercisable after the expiration of ten years from the date the option was granted.

(3) An extension of an option refers to the granting by the corporation to the optionee of an additional period of time within which to exercise the option beyond the time originally prescribed. A renewal of an option is the granting by the corporation of the same rights or privileges contained in the original option on the same terms and conditions. The rules of this paragraph apply as well to successive modifications, extensions, and renewals.

(d) *Assumption or substitution of restricted stock options in connection with certain corporate transactions.* (1) Where, by reason of a corporate transaction, as defined in this paragraph, the employer corporation, or its parent or subsidiary corporation, assumes an existing option, or issues a new option in place of the old option, such assumption or issuance is not a modification, if—

(i) The excess of the aggregate fair market value of the stock subject to the option immediately after such assumption or issuance over the aggregate option price is not more than the excess of the aggregate fair market value of the stock subject to the option immediately before such assumption or issuance over the aggregate option price, and

(ii) Such assumption of the old option, or issuance of the new option, does not give the optionee additional benefits under the option.

For the purpose of this paragraph, the term "corporate transaction" means a corporate merger, consolidation, purchase or acquisition of property or stock, separation, reorganization, or liquidation. Thus, for this purpose, a "corporate transaction" includes a taxable transaction (such as, a purchase of stock or property for cash) and any corporate reorganization (whether or not it comes within the definition of such term in section 368) and any corporate liquidation (whether or not section 332 is applicable).

(2) This paragraph provides rules under which, in connection with a corporate transaction, the new employer corporation, or a parent or subsidiary corporation thereof, may assume an existing restricted stock option or may issue a new option in place of an existing restricted stock option without having such assumption or substitution considered to be a modification of the option. This paragraph is applicable, for example, where the former employer is merged into another corporation and the new employer assumes the option granted by the former employer, provided the requirements of this paragraph are met. However, this paragraph is applicable if, and only if, by reason of the corporate transaction the optionee is not thereafter an employee of the corporation which granted the existing restricted stock option or a parent or subsidiary of such corporation. The assumption or substitution may take place in accordance with this paragraph at the time of the corporate transaction, notwithstanding that the option could still be exercised in accordance with § 1.421–3 for a period of three months thereafter. The determination of the parent-subsidiary relationship shall be made after the assumption of the old option or after the issuance of the new option.

(e) *Effect on qualification.* A restricted stock option may, as a result of a modification, extension, or renewal, thereafter cease to be a restricted stock option, or any option may, by modification, extension, or renewal, thereafter become a restricted stock option.

(f) *Examples.* The rule states in section 421 (e) may be illustrated by the following examples:

Example (1). On June 1, 1954, the X Corporation grants to an employee an option to purchase 100 shares of the stock of X Corporation at $90 per share, such option to be exercised on or before June 1, 1956. At the time the option is granted, the fair market value of the X Corporation stock is $100 per share. On February 1, 1955, before the employee exercises the option, X Corporation modifies the option to provide that the price at which the employee may purchase the stock shall be $80 per share. On February 1, 1955, the fair market value of the X Corporation stock is $90 per share. Under section 421 (e), the X Corporation is deemed to have granted an option to the employee on February 1, 1955. Unless the value of the stock has substantially declined making paragraph (b) (3) of this section applicable, such option shall be treated as an option to purchase at $80 per share 100 shares of stock having a fair market value of $100 per share, that is, the higher of the fair market value of the stock on June 1, 1954, and on February 1, 1955. The exercise of such option by the employee after February 1, 1955, is not the exercise of a restricted stock option.

Example (2). On June 1, 1954, the X Corporation grants to an employee a restricted stock option to purchase 100 shares of X Corporation stock at $90 per share, exercisable after December 31, 1955, and on or before June 1, 1956. On June 1, 1954, the fair market value of X Corporation's stock is $100 per share. On February 1, 1955, X Corporation modifies the option to provide that the option shall be exercisable on or after February 1, 1955, and on or before June 1, 1956. On February 1, 1955, the fair market value of X Corporation stock is $110 per share. Under section 421 (e), X Corporation is deemed to have granted an option to the employee on February 1, 1955, to purchase at $90 per share 100 shares of stock having a fair market value of $110 per share, that is, the higher of the fair market value of the stock on June 1, 1954, and on February 1, 1955. The exercise of such option by the employee is not the exercise of a restricted stock option.

Example (3). The facts are the same as in example (1), except that the employee exercised the option to the extent of 50 shares on January 15, 1955, before the date of the modification of the option. Any exercise of the option after February 1, 1955, the date of the modification, is not the exercise of a restricted stock option. See example (1) in this paragraph. The exercise of the option on January 15, 1955, pursuant to which 50 shares were acquired, is the exercise of a restricted stock option.

Example (4). On June 1, 1954, the X Corporation grants to an employee an option to purchase 100 shares of the stock of X Corporation at $80 per share, such option to be exercised on or before June 1, 1956. At the time the option is granted, the fair market value of the X Corporation stock is $100 per share. On February 1, 1955, before the employee exercises the option, the X Corporation modifies the option to provide that the number of shares of stock which the employee may purchase at $80 per share will be 250. On February 1, 1955, the fair market value of the X Corporation stock is $90 per share. Under these facts, the X Corporation has granted two options, one option (not a restricted stock option) with respect to 100 shares having been granted on June 1, 1954, and the other option (a restricted stock option) with respect to the additional 150 shares having been granted on February 1, 1955. In the absence of facts identifying which option is exercised first, the employee will be deemed to have exercised the options in the order in which they were granted.

§ 1.421–5 *Operation of section 421*—(a) *Rules applicable to all restricted stock options*—(1) *In general.* If a share of stock is transferred to an individual pursuant to his timely exercise of a restricted stock option and is not disposed of by him within two years from the date of the granting of the option nor within six months after the transfer of such share to him, then, under section 421 (a)—

(i) No income shall result at the time of the transfer of such share to the individual upon his exercise of the option with respect to such share;

(ii) No deduction under section 162 shall be allowable at any time to the employer corporation of such individual or its parent or subsidiary corporation, or to a corporation which assumed or issued the option under section 421 (g), with respect to the share so transferred; and

(iii) No amount other than the option price shall be considered as received by any of such corporations for the share so transferred.

For the purpose of subdivisions (i), (ii), and (iii) of this subparagraph, each share of stock transferred pursuant to a restricted stock option is treated separately. For example, if an individual, while employed by a corporation granting him a restricted stock option, exercises the option with respect to part of the stock covered by the option, and if such individual exercises the balance of the option more than three months after leaving such employment, the application of section 421 to the stock obtained upon the earlier exercise of the option is not affected by the fact that the income taxes of the employer and the individual with respect to the stock obtained upon the later exercise of the option are not determined under section 421.

(2) *Holding period.* The special rules provided in section 421 (a) are not applicable if the individual disposes of the share of stock within two years from the date the option is granted or within six months after the transfer of such share to him. Section 421 is not made inapplicable by a transfer within the 2-year or 6-month period if such transfer is not a disposition of the stock as defined in subparagraph (3) of this paragraph, for example, a transfer from the decedent to his estate or a transfer by bequest or inheritance. Similarly, a disposition by the executor, administrator, heir, or legatee is not a disposition by the decedent. In case a restricted stock option is exercised by the estate of the individual to whom the option was granted, or by a person who acquired the option by bequest or inheritance or by reason of the death of such individual, see paragraph (d) of this section.

(3) *Disposition of stock.* (i) For the purpose of section 421, the term "disposition" includes a sale, exchange, gift, or any transfer of legal title, but does not include—

(*a*) A transfer from a decedent to his estate or a transfer by bequest or inheritance; or

(*b*) An exchange which occurs in a taxable year of the optionee beginning after December 31, 1953, and ending after August 16, 1954, and to which is applicable section 354, 355, 356, or 1036 (or so much of section 1031 as relates to sec-

tion 1036) or a corresponding provision of the Internal Revenue Code of 1939; or

(c) A mere pledge or hypothecation.

However, a disposition of the stock pursuant to a pledge or hypothecation is a disposition by the individual, even though the making of the pledge or hypothecation is not such a disposition.

(ii) If an individual exercises a restricted stock option, a share of stock acquired pursuant to such exercise is not considered disposed of by the individual if such share is taken in the name of the individual and another person jointly with right of survivorship, or is subsequently transferred into such joint ownership, or is retransferred from such joint ownership to the sole ownership of the individual. However, any termination of such joint ownership is a disposition of such share, except to the extent that the individual reacquires ownership of the share. For example, if such individual and his joint owner transfer such share to another person, the individual has made a disposition of such share. Likewise, if a share of stock held in the joint names of such individual and another person is transferred to the name of such other person, there is a disposition of such share by the individual. If an individual exercises a restricted stock option and a share of stock is transferred to another or is transferred to such individual in his name as trustee for another, the individual has made a disposition of such share.

(4) *Examples.* The rules of section 421 (a) may be illustrated by the following examples:

Example (1). On June 1, 1954, the X Corporation grants to E, an employee, a restricted stock option to purchase 100 shares of X Corporation stock at $95 per share. On that date, the fair market value of X Corporation stock is $100 per share. On June 1, 1955, while employed by X Corporation, E exercises the option in full and pays X Corporation $9,500, and on that day X Corporation transfers to E 100 shares of its stock having a fair market value of $12,000. Before June 1, 1956, E makes no disposition of the 100 shares so purchased. E realizes no income on June 1, 1955, with respect to the transfer to him of the 100 shares of X Corporation stock. X Corporation is not entitled to any deduction at any time with respect to its transfer to E of the stock. E's basis for such 100 shares is $9,500.

Example (2). Assume, in example (1), that on August 1, 1956, two years and one month after the granting of the option and one year and one month after the transfer of the shares to him, E sells the 100 shares of X Corporation stock for $13,000, which is the fair market value of the stock on that date. For the taxable year in which the sale occurs, E realizes a gain of $3,500 ($13,000 minus E's basis of $9,500), which is treated as long-term capital gain.

Example (3). Assume, in example (2), that on August 1, 1956, E makes a gift of the 100 shares of X Corporation stock to his son. Such disposition results in no realization of gain to E either for the taxable year in which the option is exercised or the taxable year in which the gift is made. E's basis of $9,500 becomes the donee's basis for determining gain or loss.

Example (4). Assume, in example (1), that on May 1, 1956, one year and 11 months after the granting of the option and 11 months after the transfer of the shares to him, E sells the 100 shares of X Corporation stock for $13,000. The special rules of section 421 (a) are not applicable to the transfer of the stock by X Corporation to E, because disposition of the stock was made by E within two years from the date the option was granted. See paragraph (e) of this section for the effect of a disqualifying disposition.

Example (5). Assume, in example (1), that E dies on September 1, 1955, owning the 100 shares of X Corporation stock acquired by him pursuant to his exercise on June 1, 1955, of the restricted stock option. On the date of death, the fair market value of the stock is $12,500. No income is realized by E by reason of the transfer of the 100 shares to his estate. If the stock is valued as of the date of E's death for estate tax purposes, the basis of the 100 shares in the hands of the executor is $12,500.

(b) *Additional rules applicable where the option price is between 85 percent and 95 percent of the value of the stock—* (1) *In general.* (i) If all the conditions necessary for the application of section 421 (a) exist, section 421 (b) provides additional rules which are applicable in cases where, at the time the restricted stock option is granted, the option price per share is less than 95 percent (but not less than 85 percent) of the fair market value of such share. In such case, upon the disposition of such share by the individual after the expiration of the 2-year and the 6-month periods, or upon his death while owning such share (whether occurring before or after the expiration of such periods), there shall be included in the individual's gross income as compensation (and not as gain upon the sale or exchange of a capital asset) an amount determined in the following manner. If the option qualified under section 421 (d) (1) (A) (i) (see § 1.421–1 (d) (2) (i)) such amount shall be the amount, if any, by which the option price is exceeded by the lesser of the fair market value of the share at the time the option was granted or the fair market value of the share at the time of such disposition or death. However, if the option qualified under section 421 (d) (1) (A) (ii) (see § 1.421–1 (d) (2) (ii)), such amount shall be whichever of the following amounts is lesser:

(*a*) The excess of the fair market value of the share at the time of such disposition or death over the price paid under the option, or

(*b*) The excess of the fair market value of the share at the time the option was granted over the option price, computed as if the option had been exercised at such time.

The amount of such compensation shall be included in the individual's gross income for the taxable year in which the disposition occurs or for the taxable year closing with his death, whichever event results in the application of section 421 (b).

(ii) The application of the special rules provided in section 421 (b) shall not affect the rules provided in section 421 (a) with respect to the individual exercising the option, the employer corporation, or its parent or subsidiary corporation. Thus, notwithstanding the inclusion of an amount as compensation in the gross income of an individual, as provided in section 421 (b), no income results to the individual at the time the stock is transferred to him, and no deduction under section 162 is allowable at any time to the employer corporation or its parent or subsidiary with respect to such amount.

(iii) If the individual exercises a restricted stock option during his lifetime and dies before the stock is transferred to him pursuant to his exercise of the option, the transfer of such stock to the individual's executor, administrator, heir, or legatee is deemed, for the purpose of section 421, to be a transfer of the stock to the individual exercising the option and a further transfer by reason of death from such individual to his executor, administrator, heir, or legatee.

(2) *Basis.* If the special rules provided in section 421 (b) are applicable to the disposition of a share of stock by an individual, the basis of such share in the individual's hands at the time of such disposition, determined under section 1011, shall be increased by an amount equal to the amount includible as compensation in his gross income under section 421 (b). If the special rules provided in section 421 (b) are applicable to a share of stock upon the death of an individual, the basis of such share in the hands of the estate or the person receiving the stock by bequest or inheritance shall be determined under section 1014, and shall not be increased by reason of the inclusion upon the decedent's death of any amount in his gross income under section 421 (b). See example (9) of this paragraph with respect to the determination of basis of the share in the hands of a surviving joint owner.

(3) *Examples.* The operation of section 421 (b) may be illustrated by the following examples:

Example (1). On June 1, 1954, the X Corporation grants to E, an employee, a restricted stock option to purchase a share of X Corporation's stock for $85. The fair market value of the X Corporation stock on such date is $100 per share. On June 1, 1955, E exercises the restricted stock option and on that date the X Corporation transfers the share of stock to E. On January 1, 1957, E sells the share for $150, its fair market value on that date. E makes his income tax return on the basis of the calendar year. The income tax consequences to E and X Corporation are as follows: (i) Compensation in the amount of $15 is includible in E's gross income for 1957, the year of the disposition of the share. The $15 represents the difference between the option price ($85) and the fair market value of the share on the date the option was granted ($100), since such value is less than the fair market value of the share on the date of disposition ($150). For the purpose of computing E's gain or loss on the sale of the share, E's cost basis of $85 is increased by $15, the amount includible in E's gross income as compensation. Thus, E's basis for the share is $100. Since the share was sold for $150, E realizes a gain of $50, which is treated as long-term capital gain; (ii) The X Corporation is entitled to no deduction under section 162 at any time with respect to the share transferred to E.

Example (2). Assume, in example (1), that E sells the share of X Corporation stock on January 1, 1958, for $75, its fair market value on that date. Since $75 is less than the option price ($85), no amount in respect of the sale is includible as compensation in E's gross income for 1958. E's basis for determining gain or loss on the sale is $85. Since E sold the share for $75, E realized a loss of $10 on the sale, which loss is treated as a long-term capital loss.

Example (3). Assume, in example (1), that the option provides that the option price shall be 90 percent of the fair market value of a share of the stock on the day the option is exercised. On June 1, 1955, when the option is exercised, the fair market value of the stock is $120 per share so that E pays $108 for the share of stock. Compensation in the amount of $10 is includible in E's gross income for 1957, the year of the disposition of the share. This is determined in the following manner. The excess of the fair market value of the stock at the time of the disposition ($150) over the price paid for the share ($108) is $42; and the excess of the fair market value of the stock at the time the option was granted ($100) over the option price, computed as if the option had been exercised at such time ($90), is $10. Accordingly, $10, the lesser, is includible in gross income. In this situation, E's cost basis of $108 is increased by $10, the amount includible in E's gross income as compensation. Thus, E's basis for the share is $118. Since the share was sold for $150, E realizes a gain of $32, which is treated as long-term capital gain.

Example (4). Assume, in example (1), that instead of selling the share on January 1, 1957, E makes a gift of the share on that day. In such case, $15 is includible as compensation in E's gross income for 1957. E's cost basis of $85 is increased by $15, the amount includible in E's gross income as compensation. Thus, E's basis for the share is $100, which becomes the donee's basis, as of the time of the gift, for determining gain or loss.

Example (5). Assume, in example (2), that instead of selling the share on January 1, 1958, E makes a gift of the share on that date. Since the fair market value of the share on that day ($75) is less than the option price ($85), no amount in respect of the disposition by way of gift is includible as compensation in E's gross income for 1958. E's basis for the share is $85, which becomes the donee's basis, as of the time of the gift, for the purpose of determining gain. The donee's basis for the purpose of determining loss, determined under section 1015 (a), is $75 (fair market value of the share at the date of gift).

Example (6). Assume, in example (1), that after acquiring the share of stock on June 1, 1955, E dies on August 1, 1956, at which time the share has a fair market value of $150. Compensation in the amount of $15 is includible in E's gross income for the taxable year closing with his death, such $15 being the difference between the option price ($85) and the fair market value of the share when the option was granted ($100), since such value is less than the fair market value at date of death ($150). The basis of the share in the hands of E's estate is determined under section 1014 without regard to the $15 includible in the decedent's gross income.

Example (7). Assume, in example (6), that E dies on August 1, 1955, at which time the share has a fair market value of $150. Although E's death occurred within two years from the date of the granting of the option and within six months after the transfer of the share to him, the income tax consequences are the same as in example (6).

Example (8). Assume the same facts as in example (1) except that the share of stock was issued in the names of E and his wife jointly with right of survivorship, and except that E and his wife sold the share on June 15, 1956, for $150, its fair market value on that date. Compensation in the amount of $15 is includible in E's gross income for 1956, the year of the disposition of the share. The basis of the share in the hands of E and his wife for the purpose of determining gain or loss on the sale is $100, that is, the cost of $85 increased by the amount of $15 includible as compensation in E's gross income. The gain of $50 on the sale is treated as long-term capital gain, and is divided equally between E and his wife.

Example (9). Assume the same facts as in example (1), except that the share of stock was issued in the names of E and his wife jointly with right of survivorship, and except that E predeceased his wife on August 1, 1956, at which time the share had a fair market value of $150. Compensation in the amount of $15 is includible in E's gross income for the taxable year closing with his death. See example (6). The basis of the share in the hands of E's wife as survivor is determined under section 1014 without regard to the $15 includible in the decedent's gross income.

Example (10). Assume, in example (9), that E's wife predeceased him on July 1, 1956. Section 421 (b) does not apply in respect of her death. Upon the subsequent death of E on August 1, 1956, the income tax consequences in respect of E's taxable year closing with the date of his death, and in respect of the basis of the share in the hands of his estate, are the same as in example (6). If E had sold the share on July 15, 1956 (after the death of his wife), for $150, its fair market value at that time, the income tax consequences would be the same as in example (1).

(c) *Acquisition of other stock.* (1) Section 421 (c) provides that the special rules stated in section 421 (a) and (b), if applicable with respect to stock transferred to an individual upon his exercise of an option, shall likewise be applicable with respect to stock acquired by a distribution to which is applicable section 305, 354, 355, 356, or 1036 (or so much of section 1031 as relates to section 1036) or a corresponding provision of the Internal Revenue Code of 1939. Stock so acquired shall, for the purpose of section 421, be considered as having been transferred to the individual upon his exercise of the option. A similar rule shall be applied in the case of a series of such acquisitions. With respect to such acquisitions, section 421 (c) does not make inapplicable any of the provisions of section 305, 354, 355, 356, or 1036 (or so much of section 1031 as relates to section 1036). Section 421 (c) is applicable only with respect to such acquisitions which occur in any taxable year of the shareholder which begins after December 31, 1953, and ends after August 16, 1954. As to acquisitions occurring in earlier taxable years, see section 130A (c) of the Internal Revenue Code of 1939.

(2) The application of subparagraph (1) of this paragraph may be illustrated by the following example:

Example. If, with respect to stock transferred pursuant to the timely exercise of a restricted stock option, there is a distribution of new stock to which section 305 (a) is applicable, and if there is a disposition of such new stock within two years after the option was granted, such disposition makes section 421 inapplicable to the transfer of the original stock pursuant to the exercise of the option to the extent that the disposition effects a reduction of the individual's total interest in the old and new stock. However, if the new stock, as well as the old stock, is not disposed of within two years after the option was granted, nor within six months after the transfer of the old stock pursuant to the exercise of the option, section 421 is applicable.

(d) *Exercise after death.* (1) If a restricted stock option is exercised by the estate of the individual to whom the option was granted, or by any person who acquired such option by bequest or inheritance or by reason of the death of such individual, and if such exercise occurs in a taxable year of the estate or of such person beginning after December 31, 1953, and ending after August 16, 1954, section 421 applies to such exercise in the same manner as if such option had been exercised by such deceased individual. Consequently, neither the estate nor such person is required to include any amount in gross income as a result of a transfer of stock pursuant to such exercise of the option. Nor does section 421 become inapplicable if such executor, administrator, or person disposes of the stock so acquired within two years after the granting of such option or within six months after the transfer of the stock pursuant to the exercise of such option. This exception as to the applicability of section 421 does not affect the applicability of section 1222, relating to what constitutes a short-term and long-term capital gain or loss. Section 421 is applicable even though such executor, administrator, or person is not employed by the corporation granting the option, or a parent or subsidiary thereof, either when the option is exercised or at any time. However, section 421 is not applicable to an exercise of the option by the estate or by such person, unless the individual to whom the option was granted met the requirements of § 1.421–3 (b), relating to the employment of such individual, either at the time of his death or within three months before such time. If the option is exercised by a person other than the executor or administrator, or other than a person who acquired the option by bequest or inheritance or by reason of the death of such deceased individual, section 421 is not applicable to the exercise. For example, if the option is sold by the estate, section 421 does not apply to an exercise of the option by such buyer; but if the option is distributed by the administrator to an heir as part of the estate, section 421 is applicable to an exercise of the option by such heir.

(2) Any transfer by the estate, whether a sale, a distribution of assets, or otherwise, of the stock acquired by its exercise of the option under this paragraph is a disposition of the stock. Therefore, if section 421 (b) is applicable, the estate must include an amount as compensation in its gross income. Similarly, if section 421 (b) is applicable in case of an exercise of the option under this paragraph by a person who acquired the option by bequest or inheritance or by reason of the death of the individual to whom the option was granted, there must be included in the gross income of such person an amount as compensation, either when such person disposes of the stock, or when he dies owning the stock.

(3) (i) If under section 421 (b) an amount is required to be included in the gross income of the estate or of such person, the estate or such person shall be allowed a deduction as a result of the in-

clusion of the value of the restricted stock option in the estate of the individual to whom the option was granted. Such deduction shall be computed under section 691 (c) by treating the restricted stock option as an item of gross income in respect of a decedent under section 691 and by treating the amount required to be included in gross income under section 421 (b) as an amount included in gross income under section 691 in respect of such item of gross income. No such deduction shall be allowable with respect to any amount other than an amount includible under section 421 (b). For the rules relating to the computation of a deduction under section 691 (c), see § 1.691 (c)–1.

(ii) The application of subdivision (i) may be illustrated by the following example:

Example. On June 1, 1953, E was granted a restricted stock option to purchase for $85 one share of the stock of his employer. On such day, the fair market value of such stock was $100 a share. E died on February 1, 1954, without having exercised such option. The option was, however, exercisable by his estate, and for purposes of the estate tax was valued at $30. On March 1, 1955, the estate exercised the option, and on March 15, 1955, sold for $150 the share of stock so acquired. For its taxable year including March 15, 1955, the estate is required by section 421 (b) to include in its gross income as compensation the amount of $15. During such taxable year, no amounts of income were properly paid, credited, or distributable to the beneficiaries of the estate. However, under section 421 (d) (6) (B) the estate is entitled to a deduction determined in the following manner. E's estate includes no other items of income in respect of a decedent referred to in section 691 (a), and no deductions referred to in section 691 (b), so that the value for estate tax purposes of the restricted stock option, $30, is also the net value of all items of income in respect of the decedent. The estate tax attributable to the inclusion of the restricted stock option in the estate of E is $10. Since $15, the amount includible in gross income by reason of section 421 (b), is less than the value for estate tax purposes of the option, only $^{15}/_{30}$ of the estate tax attributable to the inclusion of the option in the estate is deductible; that is, $^{15}/_{30}$ of $10, or $5. The estate realizes a capital gain of $50 since the $15 which is included in the gross income of the estate is added to the $85 paid for the stock in determining the basis of the stock, but the basis of the stock is not increased by reason of the inclusion of the restricted stock option in the estate (see section 1014 (d)). No deduction under section 421 (d) (6) (B) is allowable with respect to the $50 capital gain.

(e) *Disqualifying disposition.* The disposition of a share of stock, acquired by the exercise of a restricted stock option, within two years after the granting of the option or within six months after the transfer of the share pursuant to such exercise makes section 421 inapplicable to such transfer of the share. If such disqualifying disposition occurs in a taxable year of the individual which begins after December 31, 1953, and ends after August 16, 1954, the income attributable to such transfer shall be treated by the individual as income received in the taxable year in which such disposition occurs. Similarly, if such disposition occurs in a taxable year of the employer which begins after December 31, 1953, and ends after August 16, 1954, the deduction attributable to the transfer of the share of stock pursuant to the exercise of the option shall be allowable for the taxable year in which such disposition occurs. In such cases, no amount shall be treated as income, and no amount shall be allowed as a deduction, for the taxable year in which the stock was transferred pursuant to the exercise of the option. The extent to which such deduction is allowable, though, shall be determined as if such deduction was claimed for the taxable year of the transfer.

§ 1.421–6 *Effective date.* Sections 1.421–1 to 1.421–5, inclusive, shall be applicable to taxable years beginning after December 31, 1953, and ending after August 16, 1954, except as is otherwise provided in such sections.

DEPARTMENT OF THE INTERIOR

Bureau of Land Management

[43 CFR Part 115]

REVESTED OREGON AND CALIFORNIA RAILROAD AND RECONVEYED COOS BAY WAGON ROAD GRANT LANDS IN OREGON

PERMITS FOR RIGHTS-OF-WAY FOR LOGGING ROADS

Notice is hereby given that pursuant to the authority vested in the Secretary of the Interior by the act of August 28, 1937 (50 Stat. 874) and Revised Statutes 2478 (43 U. S. C. 1201), it is proposed to issue regulations implementing the said act of August 28, 1937, supra, so far as is necessary.

The proposed regulations are set forth below.

Interested persons may submit in triplicate written comments, suggestions, or objections with respect to the proposed regulations or forms to the Bureau of Land Management, Washington 25, D. C., within 30 days from the date of publication of this notice in the FEDERAL REGISTER.

DOUGLAS MCKAY,
Secretary of the Interior.

NOVEMBER 10, 1955.

1. Section 115.166 (a) is amended to read as follows:

§ 115.166 *Agreements and arbitration between permittee and licensee respecting compensation payable by licensee to permittee for use of road.* (a) In the event the United States exercises the rights received from a permittee hereunder to license a person to remove forest products over any road, right-of-way, or lands of the permittee or of his successor in interest, to the extent that such matters are not covered by an agreement under § 115.165, such licensee will be required to pay the permittee or his successor in interest such compensation and to furnish him such security, and to carry such liability insurance as the permittee or his successor in interest and the licensee may agree upon. If the parties do not agree, then upon the written request of either party delivered to the other party, the matter shall be referred to and finally determined by arbitration in accordance with the procedures established by § 115.169. During the pendency of such arbitration proceedings, the licensee shall be entitled to use the road, right-of-way, or lands involved upon payment, or tender thereof validly maintained, to the permittee of an amount to be determined by the authorized officer and upon the furnishing to the permittee of a corporate surety bond in an amount equal to the difference between the amount fixed by the authorized officer and the amount sought by the permittee. The licensee shall also, as a condition of use in such circumstances, maintain such liability insurance in such amounts covering any additional hazard and risk which might accrue by reason of the licensee's use of the road, as the authorized officer may prescribe.

2. Section 115.171 (b) is amended to read as follows:

§ 115.171 *Payment to the United States for road use.* • • •

(b) In addition, where the permittee receives a right to use a road constructed or acquired by the United States, which is under the administrative jurisdiction of the Bureau of Land Management, he will be required to pay to the United States for the use thereof, except where he transports forest products purchased from the United States through the Bureau, a fee to be determined by the authorized officer who shall base his determination upon the amortization of the replacement costs for a road of the type involved, together with a reasonable interest allowance on such costs, plus costs of maintenance if furnished by the United States and any extraordinary costs peculiar to the construction or acquisition of the particular road. In arriving at the amortization item, the authorized officer shall take into account the probable period of time, past and present, during which such road may be in existence and the volume of timber which has been moved and the volume of timber, currently merchantable, which probably will be moved from all sources over such road. The authorized officer may fix the rate at which payments shall be made by the permittee during his use of the road: *Provided, however,* That this paragraph shall not apply where payment for such road use to another permittee is required under §§ 115.154 to 115.179: *Provided further,* That where the United States is entitled to charge a fee for the use of a road, the authorized officer may waive such fee if the permittee grants to the United States and its licenses the right to use, without charge, permittee's roads of approximately equal value, taking into account, in determining such values, the proposed use of the roads.

3. Section 115.174 (a) is amended by adding at the end thereof two new subparagraphs as follows:

§ 115.174 *Terms and conditions of permit.* (a) As to all permits: Every permittee shall agree: • • •

(10) Upon request of an authorized officer, to submit to the Bureau within 15 days with permission to publish the detailed terms and conditions, including the fee which the permittee will ask as a condition of such licensee's use for the removal of forest products over any road or right-of-way which the United States and its licensees have acquired a right to use under § 115.162.

(11) To grant to the United States, upon request of an authorized officer, in lieu of the rights-of-way across legal subdivisions granted pursuant to § 115.162, such permanent easements on specifically described locations as may be necessary to permit the Bureau to construct roads on such legal subdivisions with appropriated funds: *Provided,* That at the time of the grant of such permanent easements the Bureau shall release, except for necessary connecting spur roads, the rights-of-way across such legal subdivisions previously granted: *Provided further,* That if the United States builds a road on such permanent easements it shall pay for any timber of the permittee which is cut, removed, or destroyed in accordance with § 115.167. The authorized officer shall waive the requirement under this paragraph, however, if the permittee makes a satisfactory showing to the authorized officer that he does not own a sufficient interest in the land to grant a permanent easement, and that he has negotiated therefor in good faith without success.

(28 Stat. 635, as amended, sec. 11, 39 Stat. 223, sec. 6, 40 Stat. 1181, sec. 5, 50 Stat. 875; 43 U. S. C. 956)

DEPARTMENT OF AGRICULTURE

Agricultural Marketing Service

[7 CFR Part 908]

[Docket No. AO–243–A1]

HANDLING OF MILK IN CENTRAL ARKANSAS MARKETING AREA

NOTICE OF HEARING ON PROPOSED AMENDMENT TO TENTATIVE MARKETING AGREEMENT AND TO ORDER

Pursuant to the Agricultural Marketing Agreement Act of 1937, as amended (7 U. S. C. 601 et seq.), and in accordance with the applicable rules of practice and procedure, as amended (7 CFR Part 900), notice is hereby given of a public hearing to be held in the Hearing Room, Fish & Game Building, State Capitol, Little Rock, Arkansas, beginning at 10:00 a. m., November 22, 1955.

The public hearing is for the purpose of receiving evidence with respect to emergency marketing conditions and the proposed amendment hereinafter set forth, or appropriate modifications thereof, to the tentative marketing agreement heretofore approved by the Secretary of Agriculture and to the order regulating the handling of milk in the Central Arkansas marketing area. The proposed amendment has not received the approval of the Secretary of Agriculture.

By The Central Arkansas Producers Association:

1. Amend § 908.51 (a) to provide for an automatic adjustment of the Class I price based upon the supply-demand adjustment now provided in § 918.51 (a) of the order regulating the handling of milk in the Memphis, Tennessee marketing area.

2. Consider the need for emergency action with respect to the proposal stated above.

Copies of this notice of hearing and the order now in effect may be procured from the Hearing Clerk, Room 112, Administration Building, United States Department of Agriculture, Washington 25, D. C., or may be there inspected.

Dated: November 15, 1955.

[SEAL] ROY W. LENNARTSON,
Deputy Administrator.

[F. R. Doc. 55–9302; Filed, Nov. 17, 1955; 8:52 a. m.]

[7 CFR Part 966]

[Docket No. AO–257–A1]

HANDLING OF MILK IN SHREVEPORT, LOUISIANA, MARKETING AREA

NOTICE OF POSTPONEMENT AND SUPPLEMENTAL NOTICE OF HEARING ON PROPOSED AMENDMENTS TO TENTATIVE MARKETING AGREEMENT AND TO ORDER

Pursuant to the Agricultural Marketing Agreement Act of 1937, as amended, (7 U. S. C. 601 et seq.), and in accordance with the applicable rules of practice and procedure, as amended, (CFR Part 900), notice is hereby given of the postponement of a public hearing previously scheduled to be held in Shreveport, Louisiana, on November 21, 1955 (20 F. R. 8336). The hearing will be held in the State Exhibit Museum, 3015 Greenwood Road, Shreveport, Louisiana, beginning at 10:00 a. m., December 12, 1955.

In addition to the proposals contained in the original notice of hearing which was published in the FEDERAL REGISTER November 5, 1955, the following proposals are to be considered:

By Parker's Dairy, Haynesville, Louisiana:

8. Amend § 966.7 to read as follows:

§ 966.7 *Distributing plant.* "Distributing plant" means any plant from which Class I milk is disposed during the month through routes (including routes operated by vendors) or through plant stores to retail or wholesale outlets (except fluid milk plants) located in the marketing area.

By Sanitary Dairy Products, Inc., Minden, Louisiana:

9. Review § 966.41 (b) relative to "shrinkage".

The proposed amendments have not received approval of the Secretary of Agriculture. Copies of this notice of hearing and the order now in effect may be procured from the market administrator, 3822 Linwood Avenue, Shreveport, Louisiana, or the Hearing Clerk, Room 112, Administration Building, United States Department of Agriculture, Washington 25, D. C., or may be inspected there.

Dated: November 15, 1955.

[SEAL] ROY W. LENNARTSON,
Deputy Administrator.

INTERSTATE COMMERCE COMMISSION

[49 CFR Part 193]

[Ex Parte No. MC–40]

CARRIERS BY MOTOR VEHICLE; PARTS AND ACCESSORIES NECESSARY FOR SAFE OPERATION

QUALIFICATIONS AND MAXIMUM HOURS OF SERVICE OF EMPLOYEES OF MOTOR CARRIERS AND SAFETY OF OPERATION AND EQUIPMENT

At a General Session of the Interstate Commerce Commission, held at its office in Washington, D. C., on the 10th day of November A. D. 1955.

It appearing that our continuing study of the Motor Carrier Safety Regulations and the effectiveness thereof indicates the desirability in the public interest, of imposing at the earliest practicable date, additional regulations with respect to safeguards against parts failures in motor vehicle braking systems;

It further appearing that the mechanical means for accomplishing the results sought have been sufficiently perfected to permit the imposition of reasonable regulations with respect thereto;

And it further appearing that by petition, dated September 3, 1954, filed by the Brotherhood of Locomotive Firemen and Enginemen to which American Trucking Associations, Inc., Private Truck Council of America, Inc., National Association of Motor Bus Operators, Public Service Coordinated Transport, Automobile Manufacturers Association, Inc., and National Automobile Transporters Association, concurred in by Ford Motor Company, filed replies, petitioner seeks the institution of an investigation for the purpose of determining whether motor carriers (including common carriers, contract carriers, private carriers and so-called "exempt" carriers under section 203 (b) of the Interstate Commerce Act) in the interest of public safety should be required to install and maintain on every motor vehicle equipment which would cause the brakes on such vehicles to apply automatically when a condition of loss of braking power is created from any cause; and good cause appearing therefor:

It is ordered, That pursuant to section 4 (a) of the Administrative Procedure Act (60 Stat. 237, 5 U. S. C. 1003) notice is hereby given of the Commission's proposal to adopt and prescribe the following regulation as an addition to the Motor Carrier Safety Regulations, adopted April 14, 1952, as amended (49 CFR Parts 190–197) (49 Stat. 546, as

amended; 49 U. S. C. 304). The proposed regulation is as follows:

§ 193.53 *Safeguards against parts failure.* Every motor vehicle, the date of manufacture of which is subsequent to September 30, 1956, and every motor vehicle in use after March 31, 1957, if used in a combination of motor vehicles shall, except as otherwise provided in this rule, have its service braking system so designed, constructed, and maintained as to provide that failure of any part thereof shall not prevent the effective application of brakes on more than one axle of the combination except that the front axle brakes of the towing vehicle need not be included in the protected group. The braking system shall be subject to the driver's control at all times by means of the controls which are used in the application of the service brakes, except as provided in these regulations with respect to automatic brake applications. Application of towed-vehicle brakes shall be, and application of towing-vehicle brakes may be, automatic in the event of failure of the source of braking power on the towing vehicle or of the means of applying the brakes, but the system shall not be arranged to permit automatic brake application on the towing vehicle without brake application on the towed vehicle or vehicles, nor to permit automatic brake application on the foremost axle of the towing vehicle in any event. Neither the design, construction, nor installation of the protective features necessary for compliance with this rule shall be such as to interfere with the normal operation of the service brakes under any circumstances. This rule shall not be so construed as to require all wheels of all vehicles to be provided with brakes, where provision to the contrary is made in § 193.42 or § 193.48, nor to constitute an exception to the requirement for automatic braking of towed vehicles in the event of breakaway contained in § 193.43, nor to constitute an exception to the requirements of § 193.48 regarding operative condition of vehicle brakes.

It is further ordered, That interested persons may, on or before January 3, 1956, submit written statements containing data, views, or arguments, verified under oath by a person having knowledge of such data, views, or arguments, and that thereafter consideration will be given to the proposed rule or some revision thereof in the light of the statements which may be submitted.

It is further ordered, That one signed copy and 14 additional copies of such statements be furnished for the use of the Commission by mailing to the Secretary of the Interstate Commerce Commission, Washington, D. C. No oral hearing is contemplated, but any request for such hearing shall be supported by an explanation as to why the evidence to be presented cannot reasonably be submitted in the form heretofore provided. The Commission, thereafter, will determine whether or not assignment of the matter for oral hearing is necessary or desirable.

It is further ordered, That the said petition, except to the extent that the relief sought therein is provided by the rule proposed herein, be, and it is hereby, denied.

And it is further ordered, That notice of this proposed rule shall be given to motor carriers, other persons of interest, and to the general public by depositing a copy thereof in the Office of the Secretary of the Interstate Commerce Commission, Washington, D. C., and by filing a copy with the Director, Division of the Federal Register.

By the Commission.

[SEAL] HAROLD D. McCOY, *Secretary.*

NOTICES

DEPARTMENT OF COMMERCE

Civil Aeronautics Administration

[Amdt. 8]

ORGANIZATION AND FUNCTIONS

MISCELLANEOUS AMENDMENTS

In accordance with the public information requirements of the Administrative Procedure Act, the description of the Organization and Functions of the Civil Aeronautics Administration is hereby amended by (1) adding the Deputy Administrator as a principal officer of the Office of the Administrator, (2) defining the functions and responsibilities of the Deputy Administrator, (3) deleting the Executive Staff Division and Technical Staff Division of the Office of Aviation Safety, and (4) deleting the Executive Staff Division of the Office of Federal Airways.

1. Section 11 (b) (1), published in 20 F. R. 2202 of April 7, 1955, is amended to read:

(1) Office of the Administrator, which includes the—

(i) Immediate Office of the Administrator.

(ii) Office of the Deputy Administrator.

(iii) Office of the Assistant Administrator for Administration.

(iv) Office of the Assistant Administrator for Operations.

(v) Office of the Assistant Administrator for Planning, Research, and Development.

(vi) Office of the Executive Assistant.

2. Section 14, published in 20 F. R. 2202 of April 7, 1955, is amended by renumbering subsections (b) (2) through (b) (5) as (b) (3) through (b) (6), respectively, and inserting a new subsection (b) (2) to read as follows:

(2) The Deputy Administrator assists the Administrator in performing the functions and exercising the powers, authorities, and discretions vested in the Administrator; exercises general supervision on behalf of the Administrator over all Washington Offices and field organizations of the Civil Aeronautics Administration; and performs such other duties and assignments as the Administrator may prescribe.

3. Section 15 (h), published in 19 F. R. 2099 of April 10, 1954, and renumbered as 15 (g) in 20 F. R. 2202 of April 7, 1955, is amended by deleting "Executive Staff Division, Technical Staff Division".

4. Section 15 (i), published in 19 F. R. 2099 of April 10, 1954, and renumbered as 15 (h) in 20 F. R. 2202 of April 7, 1955, is amended by deleting "Executive Staff Division".

This amendment shall become effective November 1, 1955.

[SEAL] F. B. LEE, *Administrator of Civil Aeronautics.*

[Administrative Order 450]

SPECIAL INDUSTRY COMMITTEES; PUERTO RICO

NOTICE OF RESIGNATION AND APPOINTMENT OF REPRESENTATIVES

Mr. Emiliano Pol of Pueblo Viejo, Puerto Rico, having resigned as a representative of the employers on Special Industry Committees Nos. 18-A, 18-B, and 18-D for Puerto Rico, the Secretary of Labor, pursuant to authority under the Fair Labor Standards Act of 1938, as amended (52 Stat. 1060, as amended; 29 U. S. C. 201 et seq.), hereby appoints Mr. Frank Besosa of San Juan, Puerto Rico, to serve in his stead as a representative of the employers on such Committees. The prior appointments of both Mr. Pol and Mr. Besosa to serve as employer representatives on Special Industry Committee No. 18-C are not affected by this order.

Signed at Washington, D. C., this 14th day of November 1955.

AIRCALL, INC., AND TELEPHONE ANSWERING SERVICE

ORDER CONTINUING HEARING

In re applications of Aircall, Inc., Detroit, Michigan, Docket No. 11055, File No. 744-C2-P-54; John W. Bennett, d/b as Telephone Answering Service, Flint, Michigan, Docket No. 11056, File No. 276-C2-P-54; for construction permits for one-way signaling stations in the Domestic Public Land Mobile Radio Service.

The Hearing Examiner having under consideration the above-entitled proceeding;

It appearing that a short continuance of the hearing herein is necessary to accommodate the Hearing Examiner's calendar;

It is ordered, This 10th day of November 1955, on the Hearing Examiner's own motion, that the hearing now scheduled for November 16, 1955, is continued until November 30, 1955, at 10:00 a. m.

ALLEGHENY-KISKI BROADCASTING CO. (WKPA)

STATEMENT CONCERNING HEARING CONFERENCE AND ORDER SCHEDULING HEARING

In re application of Allegheny-Kiski Broadcasting Co. (WKPA), New Kensington, Pennsylvania, Docket No. 11300, File No. BP-9546; for construction permit.

1. A hearing conference was held herein, before the Hearing Examiner, on October 26, 1955, to consider matters connected with new issues added by the Commission's order of October 12, 1955.

2. Agreements were reached among the parties and were stated on the record, as reflected in the transcript which is incorporated herein by reference. Such agreements are found to be acceptable and approved by the Hearing Examiner. They include the following subjects:

(a) Exchange of direct case, in writing, covering all matters which any party desires to introduce on its original affirmative showing concerning the new issues, on or before November 16, 1955 (Tr. 29).

(b) Notification, on or before November 28, 1955, as to which witnesses parties desire to be presented for cross-examination (Tr. 29).

(c) Omission of further conference before hearing (Tr. 29, 46).

(d) Hearing schedule for December 5, 1955, at 10:00 a. m. (Tr. 29).

(e) Limitation of evidence to be adduced under issues 3 and 4: program service rendered by Station WWVA limited primarily to composite weeks and descriptive material of not too great magnitude relating to special programs within last two years (Tr. 30-31).

3. The timeliness of a request for information under Section 1.841 (e) was discussed, and parties indicated they did not desire a time limit to be specified at that time (Tr. 43-45).

4. The scope of issue number 3 was discussed, and it was agreed by the parties that the Hearing Examiner should rule on the evidence as it was offered and should not attempt to rule on the scope of that issue at the hearing conference (Tr. 32-46).

It is ordered, This 10th day of November 1955, that the foregoing agreements and requirements shall govern the course of the proceeding to the extent indicated, unless modified by the Hearing Examiner for cause or by the Commission upon review of the Hearing Examiner's ruling; and hearing herein is scheduled to be held on December 5, 1955, at 10:00 a. m.

[Docket No. 11469 etc.; FCC 55M-921]

ROLLINS BROADCASTING, INC., ET AL.

STATEMENT AND ORDER SCHEDULING HEARING

In re applications of Rollins Broadcasting, Inc., Indianapolis, Indiana, Docket No. 11469, File No. BP-9414; Jules J. Paglin & Stanley W. Ray, Jr., d/b as OK Broadcasting Company, Indianapolis, Indiana, Docket No. 11470, File No. BP-9473; Charles N. Cutler and Earl T. Herzog, d/b as Wireless Broadcasters, Franklin, Indiana, Docket No. 11471, File No. BP-9494; Wabash-Peru Broadcasting Company, Inc. (WARU), Peru, Indiana, Docket No. 11472, File No. BP-9731; Twin Valley Broadcasters, Inc. (WTVB), Coldwater, Michigan, Docket No. 11473, File No. BP-9732; for construction permits.

Appearances. Leonard H. Marks and Paul Dobin, on behalf of Rollins Broadcasting, Inc.; Leo Resnick, on behalf of Wireless Broadcasters; John H. Midlen, on behalf of Wabash-Peru Broadcasting Company, Inc. (WARU), and Twin Valley Broadcasters, Inc. (WTVB); and Thomas B. Fitzpatrick, on behalf of the Chief, Broadcast Bureau, Federal Communications Commission.

1. Pursuant to sections 1.813 and 1.841 (c) of the Commission's rules, as amended, the first session of the initial pre-hearing conference in the above-entitled proceeding was held on September 21, 1955, and the second session was held on October 21, 1955, in the offices of this Commission, Washington, D. C. The names of the parties attending and participating in the September 21, 1955, session, as well as certain dates which were tentatively set therein for the taking of several procedural steps involved in this proceeding, were set forth in a Statement and Order subsequently issued by the undersigned Hearing Examiner on September 28, 1955. The October 21, 1955, session of this pre-hearing conference was attended by counsel for all of the parties listed above under the heading "Appearances".

2. At the opening of the second session of this pre-hearing conference on October 21, 1955, the Hearing Examiner stated that on October 19, 1955, he had been advised by telephone by Mr. D. F. Prince, attorney for OK Broadcasting Company (Docket No. 11470), that he was about to file a petition on behalf of his client to dismiss the application of that party from the instant proceeding and had therefore decided not to appear at this conference. (The Commission's records disclose that a petition to dismiss the application of OK Broadcasting Company was subsequently filed on October 24, 1955, and that as yet no action has been taken thereon.) Radio St. Clair, Inc. (WDOG), Respondent, was not represented by counsel at this second session.

3. As indicated in the Hearing Examiner's Statement and Order of September 28, 1955, Mr. John H. Midlen, Counsel for Wabash-Peru Broadcasting Company, Inc. (WARU), and Twin Valley Broadcasters, Inc. (WTVB), did not participate in the September 21, 1955, session of this pre-hearing conference due to the fact that he was confined to his home by illness. At this session a few agreements were reached and procedures established governing the hearing, subject to subsequent consent thereto by Mr. Midlen on behalf of his clients. At the October 21, 1955, session of the pre-hearing conference Mr. Midlen stated on the record that he agreed to these stipulations and procedures. He further stated, however, that he had previously filed with the Commission a petition requesting reconsideration and grant of the application of Twin Valley Broadcasters, Inc. (WTVB), Coldwater, Michigan (Docket No. 11473) and was considering filing a similar petition requesting reconsideration and grant of the application of Wabash-Peru Broadcasting Company, Inc. (WARU) (Docket No. 11472). (The Commission's records disclose that

a petition was filed for reconsideration and grant of the application of Twin Valley Broadcasters, Inc. (WTVB) on October 14, 1955, and that a supplement thereto was filed on November 2, 1955. To date no action has been taken on this petition). The following procedures were established at the two sesisons of the initial pre-hearing conference: (1) No letters will be received in evidence, offered for the purpose of proving the facts contained therein, if objections are raised to their admission on the ground that it would be in violation of the hearsay rule; (2) no evidence will be admitted which is hearsay in character concerning the past operation of existing broadcast stations owned or operated by applicants in this proceeding and the facts concerning such operation must be proved either by the presentation of witnesses at the hearing, the taking of their depositions, the production of properly authenticated program logs and other competent evidence; (3) all of the parties stipulated that formal proof will not be required for the purpose of authenticating contracts offered in evidence but do not waive any of their rights to object to the admission of such contracts on the ground that they may be lacking in rejevance or materiality; (4) each applicant will be required to appropriately identify its exhibits by name and to number such exhibits, beginning with the number "1"; (5) the hearing will begin on the application with the lowest docket number, namely that of Rollins Broadcasting, Inc. (Docket No. 11469), to be followed by the remaining applications in consecutive order of their docket numbers; and (6) with respect to each application, the affirmative case will be presented in its entirety and the cross-examination of witnesses will be completed before proceeding to take evidence on the next application; however, following the presentation of evidence on these applications all parties to the proceeding will be allowed a reasonable period, if desired, for the preparation and presentation of rebuttal evidence, including the taking of depositions for this purpose.

4. Pursuant to discussions between the parties, with the approval of the Hearing Examiner, it was agreed, that the date now set for the presentation and exchange of the affirmative written cases by the parties to the proceeding, namely, November 10, 1955, will be retained; except with respect to the applications of Wabash-Peru Broadcasting Company, Inc. (WARU), and Twin Valley Broadcasters, Inc. (WTVB); that written requests by parties to the proceeding for information from opposing parties concerning the cost of construction and operation of the proposed station or other information relevant to their proposals, as authorized under section 1.841 (e) of the Commission's rules, as amended, must be served on such opposing parties on or before November 21, 1955; that the final pre-hearing conference, required under section 1.841 (c), supra, shall be held on November 29, 1955; and that the date for the commencement of the hearing and the taking of testimony shall be December 12, 1955.

5. Counsel for Wabash-Peru Broadcasting Company, Inc. (WARU), stated on the record that he would submit the affirmative written case of that applicant on November 10, 1955, unless prior to that date he files a petition for reconsideration and grant of that application, showing the acceptance of mutual interference by both the said applicant and Rollins Broadcasting, Inc., which would be expected to result from the grant of their proposals and supported by a complete engineering study in exhibit form on this subject. Thereupon, the Hearing Examiner ruled, with the consent of all parties to the proceeding, that with respect to Wabash-Peru Broadcasting Company, Inc. (WARU), and Twin Valley Broadcasters, Inc. (WTVB), if either or both of those parties have pending before the Commission petitions to reconsider and grant their respective applications upon which no action has been taken, they will not be required to submit their affirmative cases in writing on November 10, 1955, and that such cases may be presented for the first time on the date now set for the commencement of the taking of testimony, namely, December 12, 1955.

In accordance with the foregoing: *It is ordered*, This 4th day of November 1955, that unless subsequently modified upon an appropriate showing of good cause, the procedures set forth herein shall govern the hearing; that, with the exceptions noted above, the affirmative written cases of the applicants shall be presented and exchanged on or before November 10, 1955; that written requests by parties for information from opposing parties, as authorized under section 1.841 (e), supra, shall be served upon such opposing parties on or before November 21, 1955; that the final pre-hearing conference required under section 1.841 (c), supra, shall be held on November 29, 1955; and that the hearing shall begin on December 12, 1955.

NORTHERN INDIANA BROADCASTERS, INC., AND ST. JOSEPH VALLEY BROADCASTING CORP.

ORDER SCHEDULING HEARING

In re applications of Northern Indiana Broadcasters, Inc., South Bend, Indiana, Docket No. 11474, File No. BP-9602; St. Joseph Valley Broadcasting Corporation, Mishawaka, Indiana, Docket No. 11475, File No. BP-9778; for construction permits.

The Hearing Examiner having under consideration a petition filed November 4, 1955, by Northern Indiana Broadcasters, Inc., applicant in Docket 11474, requesting that a specified date be announced for the start of the hearing in the above-entitled proceeding; and

It appearing that the hearing was originally scheduled to commence on October 12, 1955, but that it was continued at the request of St. Joseph Valley Broadcasting Corporation with the concurrence of counsel for all parties; and

It further appearing that there are no objections to specifying a date certain for the commencement of the hearing and that such a date should be specified;

It is ordered, This the 10th day of November 1955, that the hearing in the above-entitled proceeding is scheduled to begin on December 19, 1955.

It is further ordered, That a pre-hearing conference pursuant to the provisions of Section 1.813 of the Commission's Rules will be held Friday, November 18, 1955.

ASSISTANT SECRETARY OF DEFENSE (SUPPLY AND LOGISTICS)

DELEGATION OF AUTHORITY WITH RESPECT TO CERTIFICATION OF CONSTRUCTION, REPLACEMENT OR REACTIVATION OF BAKERIES, LAUNDRIES OR DRY-CLEANING FACILITIES

By virtue of the authority vested in the Secretary of Defense by section 202 (f) of the National Security Act of 1947, as amended, and section 5 of the Reorganization Plan No. 6 of 1953, there is hereby delegated to the Assistant Secretary of Defense (Supply and Logistics) the authority to determine and certify in writing, with reasons therefor, that service furnished by bakery, laundry or dry-cleaning facilities are not obtainable from commercial sources at reasonable rates. The purpose of such certification is to meet the restrictions upon the use of appropriated funds for the construction, replacement, or reactivation of any bakery, laundry or dry-cleaning facility which are imposed by (a) section 604, Second Supplemental Appropriation Act, 1952 (65 Stat. 765), (b) section 804, Supplemental Appropriation Act, 1953 (66 Stat. 647), (c) section 804, Supplemental Appropriation Act, 1954 (67 Stat. 429), (d) section 736, Department of Defense Appropriation Act, 1955 (68 Stat. 357), (e) section 905, Supplemental Appropriation Act, 1955 (68 Stat. 821), (f) section 632, Department of Defense Appropriation Act, 1956 (69 Stat. 320), and (g) section 305, Supplemental Appropriation Act, 1956 (69 Stat. 454) or which may be similarly imposed by future statutes. Requests for such authorizations as may be required for the construction or replacement of such facilities, or for the apportionment of funds therefor or for the reactivation of such facilities, will continue to be submitted in accordance with established procedures.

The Assistant Secretary of Defense (Supply and Logistics) may not redelegate the authority contained herein.

Delegation of authority published at 19 F. R. 6834 is hereby superseded and cancelled.

C. E. WILSON,
Secretary of Defense.

NOVEMBER 14, 1955.

[F. R. Doc. 55-9283; Filed, Nov. 17, 1955; 8:48 a. m.]

FEDERAL POWER COMMISSION

[Docket No. G-4964 etc.]

GRAGG OIL AND GAS CO. ET AL.

NOTICE OF APPLICATIONS AND DATE OF HEARING

NOVEMBER 14, 1955.

In the matters of Gragg Oil and Gas Company, Docket No. G-4964; Cox Oil and Gas Company, Docket No. G-4965; Dougherty Oil and Gas Company, Docket No. G-4966; Newlon Oil and Gas Company, Docket No. G-4968; Simons Oil and Gas Company, Docket No. G-4969; Byrd Oil and Gas Company, Docket No. G-4974.

Take notice that there have been filed with the Federal Power Commission applications for certificates of public convenience and necessity, pursuant to section 7 of the Natural Gas Act, authorizing the sale of natural gas in interstate commerce for resale, subject to the jurisdiction of the Commission, all as more fully represented in the respective applications on file with the Commission, and open to public inspection.

The above-named Applicants produce and sell natural gas in interstate commerce to Carnegie Natural Gas Company for resale, as indicated in the following tabulation:

Docket No., Name of Applicant, and Location

G-4964; Gragg Oil and Gas Company; Gilmer County, W. Va.

G-4965; Cox Oil and Gas Company; Ritchie County, W. Va.

G-4966; Dougherty Oil and Gas Company; Ritchie County, W. Va.

G-4968; Newlon Oil and Gas Company; Ritchie County, W. Va.

G-4969; Simons Oil and Gas Company, Ritchie County, W. Va.

G-4974; Byrd Oil and Gas Company; Ritchie County, W. Va.

These related matters should be heard on a consolidated record and disposed of as promptly as possible under the applicable rules and regulations and to that end.

Take further notice that, pursuant to the authority contained in and subject to the jurisdiction conferred upon the Federal Power Commission by sections 7 and 15 of the Natural Gas Act, and the Commission's rules of practice and procedure, a hearing will be held on December 20, 1955, at 9:45 a. m., e. s. t., in a hearing room of the Federal Power Commission, 441 G Street NW., Washington, D. C., concerning the matters involved in and the issues presented by such applications: *Provided, however*, That the Commission may, after a noncontested hearing, dispose of the proceedings pursuant to the provisions of section 1.30 (c) (1) or (c) (2) of the Commission's rules of practice and procedure. Under the procedure herein provided for, unless otherwise advised, it will be unnecessary for Applicants to appear or be represented at the hearing.

Protests or petitions to intervene may be filed with the Federal Power Commission, Washington 25, D. C., in accordance with the rules of practice and procedure (18 CFR 1.8 or 1.10) on or before December 1, 1955. Failure of any party to appear at and participate in the hearing shall be construed as waiver of and concurrence in omission herein of the intermediate decision procedure in cases where a request therefor is made.

[SEAL] LEON M. FUQUAY,
Secretary.

[Docket No. G-7912, etc.]

VAN CAMP OIL AND GAS CO. ET AL.

NOTICE OF APPLICATION AND DATE OF HEARING

NOVEMBER 14, 1955.

In the matters of Van Camp Oil & Gas Company, Docket No. G-7912; Lewis Oil & Gas Company, Docket No. G-7915; John Metro and Joseph Pulaski, Docket No. G-7917; McCall Drilling Company, Inc., Docket Nos. G-7944 through G-7957, inclusive, G-7960 through G-7967, inclusive.

Take notice that there have been filed with the Federal Power Commission applications for certificates of public convenience and necessity pursuant to section 7 of the Natural Gas Act, authorizing the respective Applicants to sell natural gas in interstate commerce for resale and render service as hereinafter described subject to the jurisdiction of the Commission, all as more fully represented in their respective applications on file with the Commission, and open for public inspection.

The above-named Applicants produce and sell natural gas in interstate commerce for resale as indicated below:

Applicant and Docket; Purchaser and Sale Date; Field; County and State

Van Camp Oil & Gas Company, (G-7912); Godfrey L. Cabot, Inc. (6-5-52); Sherman District; Calhoun, W. Va.

Lewis Oil & Gas Company (G-7915); Penova Interests (2-26-52); Murphy District; Ritchie, W. Va.

John Metro & Joseph Pulaski (G-7917); New York State Natural Gas Corp. (2-27-54); Driftwood Field; Cameron, W. Va.

McCall Drilling Company, Inc. (G-7944); Godfrey L. Cabot, Inc. (4-14-31); Sherman District; Calhoun, W. Va.

McCall Drilling Company, Inc. (G-7945); Godfrey L. Cabot, Inc. (5-5-32); Dekalb District; Gilmer, W. Va.

McCall Drilling Company, Inc. (G-7946); Godfrey L. Cabot, Inc. (10-7-32); Center District; Gilmer, W. Va.

McCall Drilling Company, Inc. (G-7947); Godfrey L. Cabot, Inc. (10-7-32); Center District; Gilmer, W. Va.

McCall Drilling Company, Inc. (G–7948); Godfrey L. Cabot, Inc. (11–25–32); Sherman District; Calhoun, W. Va.

McCall Drilling Company, Inc. (G–7949); Godfrey L. Cabot, Inc. (10–7–33); Sherman District; Calhoun, W. Va.

McCall Drilling Company, Inc. (G–7950); Godfrey L. Cabot, Inc. (5–1–34); Center District; Gilmer, W. Va.

McCall Drilling Company, Inc. (G–7951); Godfrey L. Cabot, Inc. (1–3–35); Sherman District; Calhoun, W. Va.

McCall Drilling Company, Inc. (G–7952); Godfrey L. Cabot, Inc. (12–23–37); Sherman District; Calhoun, W. Va.

McCall Drilling Company, Inc. (G–7953); Godfrey L. Cabot, Inc. (3–27–46); Reedy District; Wirt, W. Va.

McCall Drilling Company, Inc. (G–7954); Carnegie Natural Gas Company (7–3–36); Clay District; Ritchie, W. Va.

McCall Drilling Company, Inc. (G–7955); Carnegie Natural Gas Company (7–6–37); Glenville Ind. District; Gilmer, W. Va.

McCall Drilling Company, Inc. (G–7956); Carnegie Natural Gas Company (10–25–37); DeKalb, Murphy Districts; Gilmer, W. Va.

McCall Drilling Company, Inc. (G–7957); Carnegie Natural Gas Company (5–5–41); Center District; Gilmer, W. Va.

McCall Drilling Company, Inc. (G–7960); Equitable Gas Company (10–6–21); Troy District; Gilmer, W. Va.

McCall Drilling Company, Inc. (G–7961); Equitable Gas Company (4–20–23); Glenville District; Gilmer, W. Va.

McCall Drilling Company, Inc. (G–7962); Equitable Gas Company (10–10–35); Union District; Ritchie, W. Va.

McCall Drilling Company, Inc. (G–7963); Equitable Gas Company (2–20–42); Freeman's Creek District; Lewis, W. Va.

McCall Drilling Company, Inc. (G–7964); Equitable Gas Company (2–20–42); Freeman's Creek District; Lewis, W. Va.

McCall Drilling Company, Inc. (G–7965); Equitable Gas Company (2–20–42); Troy District; Gilmer, W. Va.

McCall Drilling Company, Inc. (G–7966); Equitable Gas Company (9–13–29); Freeman's Creek District; Lewis, W. Va.

McCall Drilling Company, Inc. (G–7967); Equitable Gas Company (6–18–51); Collins Settlement District; Lewis, W. Va.

These related matters should be heard on a consolidated record and disposed of as promptly as possible under the applicable rules and regulations and to that end:

Take further notice that, pursuant to the authority contained in and subject to the jurisdiction conferred upon the Federal Power Commission by sections 7 and 15 of the Natural Gas Act, and the Commission's rules of practice and procedure, a hearing will be held on December 20, 1955, at 9:30 a. m., e. s. t., in a hearing room of the Federal Power Commission, 441 G Street, NW., Washington, D. C., concerning the matters involved in and the issues presented by such applications: *Provided, however,* That the Commission may, after a noncontested hearing, dispose of the proceedings pursuant to the provisions of section 1.30 (c) (1) or (c) (2) of the Commission's rules of practice and procedure. Under the procedure herein provided for, unless otherwise advised, it will be unnecessary for Applicants to appear or be represented at the hearing.

Protests or petitions to intervene may be filed with the Federal Power Commission, Washington 25, D. C., in accordance with the rules of practice and procedure (18 CFR 1.8 or 1.10) on or before December 1, 1955. Failure of any party to appear at and participate in the hearing shall be construed as waiver of and concurrence in omission herein of the intermediate decision procedure in cases where a request therefor is made.

Public Housing Administration

DELEGATIONS OF FINAL AUTHORITY

MISCELLANEOUS AMENDMENTS

Section II, Delegations of Final Authority, is amended as follows:

1. Paragraph A is amended to read as follows:

A. Powers delegated in this section may not be redelegated. However, they may be exercised by an officer or employee designated to serve in an "Acting" capacity during the absence from duty of the official to whom the powers are delegated. Any officer or employee to whom powers are delegated in this section is authorized to designate any officer or employee under his supervision to serve in an "Acting" capacity, for periods not exceeding 30 days, during his absence; except that a Field Office Director is authorized to make such a designation only for periods of absence during which both designees set forth in Section I are also absent.

2. Paragraph G 3 is amended to read as follows:

3. To execute or approve contracts and amendments thereto for the purchase and rental of equipment and supplies, for the rental of space, for the purchase of services other than personal services, and for the sale or transportation of personal property.

Assistant Commissioner for Administration.

Director, Property and Services Branch.

3. Paragraph E 10 is hereby revoked.

Date approved: November 10, 1955.

[SEAL] CHARLES E. SLUSSER,
Commissioner.

SECURITIES AND EXCHANGE COMMISSION

[File No. 812–970]

GAS INDUSTRIES FUND, INC.

NOTICE OF FILING OF APPLICATION FOR EXEMPTION FROM PROVISIONS CONCERNING PURCHASE OF SECURITIES DURING EXISTENCE OF UNDERWRITING SYNDICATE

NOVEMBER 14, 1955.

Notice is hereby given that Gas Industries Fund, Inc. ("Gas Industries"), a registered open-end diversified investment company, has filed an application pursuant to section 10 (f) of the Investment Company Act of 1940 ("act") for an order of the Commission exempting from the provisions of section 10 (f) of the act the proposed purchase by Gas Industries of not more than 10,000 shares of the common stock of Colorado Interstate Gas Company ("Colorado") during the existence of the underwriting syndicate mentioned below.

The application states that The First Boston Corporation ("First Boston") expects to be among a group of principal underwriters which plans to sell by public offering 256,503 shares of outstanding common stock of Colorado now owned by Public Service Company of Colorado; that James H. Orr, one of the four directors of Gas Industries, is also a director of, and therefore an affiliated person of, First Boston; and that Gas Industries considers it desirable to be in a position to purchase not more than 10,000 shares of Colorado common stock during the public offering in order to have reasonable assurance of being able to obtain a substantial block of shares and to avoid the possibility of a higher price after the underwriting syndicate has dissolved.

Section 10 (f) of the act provides, among other things, that no registered investment company shall knowingly purchase or otherwise acquire, during the existence of any underwriting or selling syndicate any security (except a security of which such company is the issuer) a principal underwriter of which is a person of which a director of such registered investment company is an affiliated person, unless the Commission by order upon application grants an exemption therefrom. The application states that since a director of Gas Industries is an affiliated person of an investment banking organization which is part of the principal underwriting group, the proposed purchase is subject to the provisions of section 10 (f).

It is represented that the directors of Gas Industries have authorized the purchase by Gas Industries of not exceeding 10,000 shares of common stock of Colorado from underwriters or members of the selling group, if any, other than First Boston, except to the extent that First Boston might be included if a purchase were to be made from Union Securities Corporation (the representative of the principal underwriters) for the account of the several underwriters.

Colorado, a Delaware corporation, owns and operates a natural gas pipeline system for the production, purchase, gathering, transportation and sale of natural gas. Its general area of supply includes fields in Texas, Kansas, Oklahoma and Colorado, and its pipeline system extends from such supply areas to Denver, Colorado.

The application states that if Gas Industries were to purchase 10,000 shares of common stock of Colorado, it would acquire approximately 3.9 percent of the total contemplated offering, and assuming a purchase price of $60 a share (the proposed maximum offering price set forth in the preliminary prospectus of Colorado), the aggregate purchase price would represent an investment of $600,000 or approximately 1.6 percent of the total assets of Gas Industries as of November 4, 1955.

It is represented that the proposed purchase by Gas Industries is consistent with its stated investment policies.

Notice is further given that any interested person may, not later than November 28, 1955, at 5:30 p. m., submit to the Commission in writing any facts bearing upon the desirability of a hearing on the matter and may request that a hearing be held, such request stating the nature of his interest, the reasons for such request and the issues, if any, of fact or law proposed to be controverted, or he may request that he be notified if the Commission should order a hearing thereon. Any such communication or request should be addressed: Secretary, Securities and Exchange Commission, Washington 25, D. C. At any time after said date, the application may be granted as provided in Rule N-5 of the Rules and Regulations promulgated under the Act.

By the Commission.

[SEAL] ORVAL L. DUBOIS,
Secretary.

FEDERAL REGISTER

OF THE UNITED STATES

VOLUME 20 — 1934 — NUMBER 226

Washington, Saturday, November 19, 1955

TITLE 7—AGRICULTURE

Chapter IX—Agricultural Marketing Service (Marketing Agreements and Orders), Department of Agriculture

[Navel Orange Reg. 61]

PART 914—NAVEL ORANGES GROWN IN ARIZONA AND DESIGNATED PART OF CALIFORNIA

LIMITATION OF HANDLING

§ 914.361 *Navel Orange Regulation 61*—(a) *Findings.* (1) Pursuant to the marketing agreement, as amended, and Order No. 14, as amended (7 CFR Part 914; 19 F. R. 2941), regulating the handling of navel oranges grown in Arizona and designated part of California, effective September 22, 1953, under the applicable provisions of the Agricultural Marketing Agreement Act of 1937, as amended (7 U. S. C. 601 et seq.), and upon the basis of the recommendation and information submitted by the Navel Orange Administrative Committee, established under the said amended marketing agreement and order, and upon other available information, it is hereby found that the limitation of handling of such navel oranges, as hereinafter provided, will tend to effectuate the declared policy of the act.

(2) It is hereby further found that it is impracticable and contrary to the public interest to give preliminary notice, engage in public rule-making procedure, and postpone the effective date of this section until 30 days after publication thereof in the FEDERAL REGISTER (60 Stat. 237; 5 U. S. C. 1001 et seq.) because the time intervening between the date when information upon which this section is based became available and the time when this section must become effective in order to effectuate the declared policy of the act is insufficient, and a reasonable time is permitted, under the circumstances, for preparation for such effective time; and good cause exists for making the provisions hereof effective as hereinafter set forth. The Navel Orange Administrative Committee held an open meeting on November 17, 1955, after giving due notice thereof, to consider supply and market conditions for navel oranges and the need for regulation; interested persons were afforded an opportunity to submit information and views at this meeting; the recommendation and supporting information for regulation during the period specified herein was promptly submitted to the Department after such meeting was held; the provisions of this section, including its effective time, are identical with the aforesaid recommendation of the committee, and information concerning such provisions and effective time has been disseminated among handlers of such navel oranges; it is necessary, in order to effectuate the declared policy of the act, to make this section effective during the period herein specified; and compliance with this section will not require any special preparation on the part of persons subject thereto which cannot be completed on or before the effective date hereof.

(b) *Order.* (1) The quantity of navel oranges grown in Arizona and designated part of California which may be handled during the period beginning at 12:01 a. m., P. s. t., November 20, 1955, and ending at 12:01 a. m., P. s. t., November 27, 1955, is hereby fixed as follows:

(i) District 1: 244,088 cartons;

(ii) District 2: Unlimited movement;

(iii) District 3: Unlimited movement;

(iv) District 4: Unlimited movement.

(2) Navel oranges handled pursuant to the provisions of this section shall be subject to any size restrictions applicable thereto which have heretofore been issued on the handling of such oranges and which are effective during the period specified herein.

(3) As used in this section, "handled," "District 1," "District 2," "District 3," and "District 4" have the same meaning as when used in said amended marketing agreement and order; and "carton" means the standard one-half orange, grapefruit, or lemon box set forth as standard container number 58 in section 828.83, as amended, of the Agricultural Code of California.

(Sec. 5, 49 Stat. 753, as amended; 7 U. S. C. 608c)

Dated: November 18, 1955.

[SEAL] S. R. SMITH,
Director, Fruit and Vegetable Division, Agricultural Marketing Service.

[Grapefruit Reg. 231]

PART 933—ORANGES, GRAPEFRUIT, AND TANGERINES GROWN IN FLORIDA

LIMITATION OF SHIPMENTS

§ 933.753 *Grapefruit Regulation 231*—(a) *Findings.* (1) Pursuant to the marketing agreement, as amended, and Order No. 33, as amended (7 CFR Part 933), regulating the handling of oranges, grapefruit, and tangerines grown in the State of Florida, effective under the applicable provisions of the Agricultural Marketing Agreement Act of 1937, as amended (7 U. S. C. 601 et seq.), and upon the basis of the recommendations of the committees established under the aforesaid amended marketing agreement and order, and upon other available information, it is hereby found that the limitation of shipments of grapefruit, as hereinafter provided, will tend to effectuate the declared policy of the act.

(2) It is hereby further found that it is impracticable and contrary to the public interest to give preliminary notice, engage in public rule-making procedure, and postpone the effective date of this section until 30 days after publication thereof in the FEDERAL REGISTER (60 Stat. 237; 5 U. S. C. 1001 et seq.) because the time intervening between the date when information upon which this section is based became available and the time when this section must become effective in order to effectuate the declared policy of the act is insufficient; a reasonable time is permitted, under the circumstances, for preparation for such effective time; and good cause exists for making the provisions hereof effective not later than November 21, 1955. Shipments of grapefruit, grown in the State of Florida, are presently subject to regulation by grades and sizes, pursuant to the amended marketing agreement and order, and will so continue until November 21, 1955; the recommendation and supporting information for continued regulation subsequent to November 20, 1955, was promptly submitted to the Department after an open meeting of the Growers Administrative Committee on November 15; such meeting was held to consider recommendations for regulation, after giving due notice of such meeting, and interested persons were afforded an opportunity to submit their views at this meeting; the provisions of this section, including the effective time hereof, are identical with the aforesaid recommendation of the committee, and information concerning such provisions and effective time has been disseminated among handlers of such grapefruit; it is necessary, in order to effectuate the declared policy of the act, to make this section effective during the period hereinafter set forth so as to provide for the continued regulation of the handling of grapefruit; and compliance with this section will not require any special preparation on the part of persons subject thereto which cannot be completed by the effective time hereof.

(b) *Order.* (1) During the period beginning at 12:01 a. m., e. s. t., November 21, 1955, and ending at 12:01 a. m., e. s. t., December 5, 1955, no handler shall ship:

(i) Any seeded grapefruit, grown in the State of Florida, which are not mature and do not grade at least U. S. No. 1 Russet;

(ii) Any seedless grapefruit, grown in Regulation Area I, which are not mature and do not grade at least U. S. No. 1 Russet;

(iii) Any seedless grapefruit, grown in Regulation Area II, which are not mature and do not grade at least U. S. No. 2;

(iv) Any seedless grapefruit, grown in Regulation Area II, which are mature and which grade U. S. No. 2 or U. S. No. 2 Bright unless such seedless grapefruit (*a*) are in the same container with seedless grapefruit which grade at least U. S. No. 1 Russet and (*b*) are not in excess of 50 percent, by count, of the number of all seedless grapefruit in such container;

(v) Any seeded grapefruit, grown in the State of Florida, which are of a size smaller than a size that will pack 70 grapefruit, packed in accordance with the requirements of a standard pack, in a standard nailed box; or

(vi) Any seedless grapefruit, grown in the State of Florida, which are of a size smaller than a size that will pack 96 grapefruit, packed in accordance with the requirements of a standard pack, in a standard nailed box.

(2) As used in this section, "handler," "ship," "Growers Administrative Committee," "Regulation Area I," and "Regulation Area II," shall have the same meaning as when used in said amended marketing agreement and order; the terms "U. S. No. 1 Russet," "U. S. No. 2," "U. S. No. 2 Bright," "standard pack," and "standard nailed box" shall have the same meaning as when used in the revised United States Standards for Florida Grapefruit (§§ 51.750 to 51.790 of this title); and the term "mature" shall have the same meaning as set forth in section 601.16 Florida Statutes, Chapters 26492 and 28090, known as the Florida Citrus Code of 1949, as supplemented by section 601.17 (Chapters 25149 and 28090) and also by section 601.18, as amended on June 2, 1955 (Chapter 29760).

(Sec. 5, 49 Stat. 753, as amended; 7 U. S. C. 608c)

Dated: November 16, 1955.

[SEAL] S. R. SMITH,
Director, Fruit and Vegetable Division, Agricultural Marketing Service.

[F. R. Doc. 55-9336; Filed, Nov. 18, 1955; 8:53 a. m.]

[Orange Reg. 285]

PART 933—ORANGES, GRAPEFRUIT, AND TANGERINES GROWN IN FLORIDA

LIMITATION OF SHIPMENTS

§ 933.754 *Orange Regulation 285*—(a) *Findings.* (1) Pursuant to the marketing agreement, as amended, and Order No. 33, as amended (7 CFR Part 933), regulating the handling of oranges, grapefruit, and tangerines grown in the State of Florida, effective under the applicable provisions of the Agricultural Marketing Agreement Act of 1937, as amended (7 U. S. C. 601 et seq.), and upon the basis of the recommendations of the committees established under the aforesaid amended marketing agreement and order, and upon other available information, it is hereby found that the limitation of shipments of all Florida oranges, as hereinafter provided, will tend to effectuate the declared policy of the act.

(2) It is hereby further found that it is impracticable and contrary to the public interest to give preliminary notice, engage in public rule-making procedure, and postpone the effective date of this section until 30 days after publication thereof in the FEDERAL REGISTER (60 Stat. 237; 5 U. S. C. 1001 et seq.) because the time intervening between the date when information upon which this section is based became available and the time when this section must become effective in order to effectuate the declared policy of the act is insufficient; a reasonable time is permitted, under the circumstances, for preparation for such effective time; and good cause exists for making the provisions hereof effective not later than November 21, 1955. Shipments of all oranges, except Temple oranges, grown in the State of Florida, are presently subject to regulation by grades and sizes, pursuant to the amended marketing agreement and order, and will so continue until November 21, 1955; the recommendation and supporting information for continued regulation subsequent to November 20, 1955, was promptly submitted to the Department after an open meeting of the Growers Administrative Committee on November 15; such meeting was held to consider recommendations for regulation, after giving due notice of such meeting, and interested persons were afforded an opportunity to submit their views at this meeting; the provisions of this section, including the effective time hereof, are identical with the aforesaid recommendation of the committee, and information concerning such provisions and effective time has been disseminated among handlers of such oranges; it is necessary, in order to effectuate the declared policy of the act, to make this section effective during the period hereinafter set forth so as to provide for the continued regulation of the handling of all oranges, and compliance with this section will not require any special preparation on the part of the persons subect thereto which cannot be completed by the effective time hereof.

(b) *Order.* (1) During the period beginning at 12:01 a. m., e. s. t., November 21, 1955, and ending at 12:01 a. m., e. s. t., December 5, 1955, no handler shall ship:

(i) Any oranges, including Temple oranges, grown in the State of Florida, which do not grade at least U. S. No. 1 Russet; or

(ii) Any oranges, except Temple oranges, grown in the State of Florida, which are of a size smaller than $2\frac{19}{16}$ inches in diameter, which shall be the largest measurement at a right angle to a straight line running from the stem to the blossom end of the fruit, except that a tolerance of 10 percent, by count, of oranges smaller than such minimum

diameter shall be permitted, which tolerance shall be applied in accordance with the provisions for the application of tolerances, specified in the United States Standards for Florida Oranges and Tangelos (§§ 51.1140 to 51.1186 of this title, 20 F. R. 7205): *Provided*, That in determining the percentage of oranges in any lot which are smaller than $2^{10}/_{16}$ inches in diameter, such percentage shall be based only on those oranges in such lot which are of a size $2^{11}/_{16}$ inches in diameter and smaller.

(2) As used in this section, the terms "handler," "ship," and "Growers Administrative Committee" shall each have the same meaning as when used in said amended marketing agreement and order; and the terms "U. S. No. 1 Russet" shall have the same meaning as when used in the United States Standards for Florida Oranges and Tangelos (§§ 51.1140 to 51.1186 of this title, 20 F. R. 7205).

(Sec. 5, 49 Stat. 753, as amended; 7 U. S. C. 608c)

Dated: November 16, 1955.

[SEAL] S. R. SMITH,
Director, Fruit and Vegetable Division, Agricultural Marketing Service.

[F. R. Doc. 55-9335; Filed, Nov. 18, 1955; 8:53 a. m.]

[Tangerine Reg. 162]

PART 933—ORANGES, GRAPEFRUIT, AND TANGERINES GROWN IN FLORIDA

LIMITATION OF SHIPMENTS

§ 933.755 *Tangerine Regulation 162*—(a) *Findings.* (1) Pursuant to the marketing agreement, as amended, and Order No. 33, as amended (7 CFR Part 933), regulating the handling of oranges, grapefruit, and tangerines grown in the State of Florida, effective under the applicable provisions of the Agricultural Marketing Agreement Act of 1937, as amended (7 U. S. C. 601 et seq.), and upon the basis of the recommendations of the committees established under the aforesaid amended marketing agreement and order, and upon other available information, it is hereby found that the limitation of shipments of tangerines, as hereinafter provided, will tend to effectuate the declared policy of the act.

(2) It is hereby further found that it is impracticable and contrary to the public interest to give preliminary notice, engage in public rule-making procedure, and postpone the effective date of this section until 30 days after publication thereof in the FEDERAL REGISTER (60 Stat. 237; 5 U. S. C. 1001 et seq.) because the time intervening between the date when information upon which this section is based became available and the time when this section must become effective in order to effectuate the declared policy of the act is insufficient; a reasonable time is permitted, under the circumstances, for preparation for such effective time; and good cause exists for making the provisions hereof effective not later than November 21, 1955. Shipments of tangerines, grown in the State of Florida, are presently subject to regulation by grades and sizes, pursuant to the amended marketing agreement and order, and will so continue until November 21, 1955; the recommendation and supporting information for continued regulation subsequent to November 20, 1955, was promptly submitted to the Department after an open meeting of the Growers Administrative Committee on November 15; such meeting was held to consider recommendations for regulation, after giving due notice of such meeting, and interested persons were afforded an opportunity to submit their views at this meeting; the provisions of this section, including the effective time hereof, are identical with the aforesaid recommendation of the committee, and information concerning such provisions and effective time has been disseminated among handlers of such tangerines; it is necessary, in order to effectuate the declared policy of the act, to make this section effective during the period hereinafter set forth so as to provide for the continued regulation of the handling of tangerines; and compliance with this section will not require any special preparation on the part of persons subject thereto which cannot be completed on or before the effective time hereof.

(b) *Order.* (1) During the period beginning at 12:01 a. m., e. s. t., November 21, 1955, and ending at 12:01 a. m., e. s. t., November 28, 1955, no handler shall ship:

(i) Any tangerines, grown in the State of Florida, that do not grade at least U. S. No. 1 Russet; or

(ii) Any tangerines, grown in the State of Florida, that are of a size smaller than the size that will pack 176 tangerines, packed in accordance with the requirements of a standard pack, in a half-standard box (inside dimensions $9\frac{1}{2}$ x $9\frac{1}{2}$ x $19\frac{1}{8}$ inches; capacity 1,726 cubic inches).

(2) During the period beginning at 12:01 a. m., e. s. t., November 28, 1955, and ending at 12:01 a. m., e. s. t., December 5, 1955, no handler shall ship:

(i) Any tangerines, grown in the State of Florida, that do not grade at least U. S. No. 1 Russet; or

(ii) Any tangerines, grown in the State of Florida, that are of a size smaller than $2^{5}/_{16}$ inches in diameter, measured midway at a right angle to a straight line running from the stem to the blossom end of the fruit, except that a tolerance of 10 percent, by count, of tangerines smaller than such minimum size shall be permitted, which tolerance shall be applied in accordance with the provisions for the application of tolerances, specified in the revised United States Standards for Florida Tangerines (§§ 51.1810 to 51.1836 of this title).

(3) As used in this section, "handler," "ship," and "Growers Administrative Committee" shall have the same meaning as when used in said amended marketing agreement and order; and the terms "U. S. No. 1 Russet" and "standard pack" shall have the same meaning as when used in the revised United States Standards for Florida Tangerines (§§ 51.1810 to 51.1836 of this title).

(Sec. 5, 49 Stat. 753, as amended; 7 U. S. C. 608c)

Dated: November 16, 1955.

[SEAL] S. R. SMITH,
Director, Fruit and Vegetable Division, Agricultural Marketing Service.

[F. R. Doc. 55-9334; Filed, Nov. 18, 1955; 8:52 a. m.]

[Lemon Reg. 616]

PART 953—LEMONS GROWN IN CALIFORNIA AND ARIZONA

LIMITATIONS OF SHIPMENTS

§ 953.723 *Lemon Regulation 616*—(a) *Findings.* (1) Pursuant to the marketing agreement, as amended, and Order No. 53, as amended (7 CFR Part 953; 20 F. R. 2913), regulating the handling of lemons grown in the State of California or in the State of Arizona, effective under the applicable provisions of the Agricultural Marketing Agreement Act of 1937, as amended (7 U. S. C. 601 et seq.), and upon the basis of the recommendation and information submitted by the Lemon Administrative Committee, established under the said amended marketing agreement and order, and upon other available information, it is hereby found that the limitation of the quantity of such lemons which may be handled, as hereinafter provided, will tend to effectuate the declared policy of the act.

(2) It is hereby further found that it is impracticable and contrary to the public interest to give preliminary notice, engage in public rule-making procedure, and postpone the effective date of this section until 30 days after publication thereof in the FEDERAL REGISTER (60 Stat. 237; 5 U. S. C. 1001 et seq.) because the time intervening between the date when information upon which this section is based became available and the time when this section must become effective in order to effectuate the declared policy of the act is insufficient, and a reasonable time is permitted, under the circumstances, for preparation for such effective time; and good cause exists for making the provisions hereof effective as hereinafter set forth. Shipments of lemons, grown in the State of California or in the State of Arizona, are currently subject to regulation pursuant to said amended marketing agreement and order; the recommendation and supporting information for regulation during the period specified herein was promptly submitted to the Department after an open meeting of the Lemon Administrative Committee on November 16, 1955, such meeting was held, after giving due notice thereof to consider recommendations for regulation, and interested persons were afforded an opportunity to submit their views at this meeting; the provisions of this section, including its effective time, are identical with the aforesaid recommendation of the committee, and information concerning such provisions and effective time has been disseminated among handlers of such lemons; it is necessary, in order to effectuate the declared policy of the act, to make this section effective during the period hereinafter specified; and compliance with this section will not require any special preparation on the part of persons subject thereto which cannot be completed by the effective time thereof.

(b) *Order.* (1) The quantity of lemons grown in the State of California or in the State of Arizona which may be handled during the period beginning at 12:01 a. m., P. s. t., November 20, 1955, and ending at 12:01 a. m., P. s. t., November 27, 1955, is hereby fixed as follows:

(i) District 1: Unlimited movement;

(ii) District 2: 162,750 cartons;

(iii) District 3: 13,950 cartons.

(2) As used in this section, "handled," "District 1," "District 2," and "District 3" shall have the same meaning as when used in the said amended marketing agreement and order; and "carton" means the standard one-half orange, grapefruit or lemon box set forth as standard container number 58 in section 828.83, as amended, of the Agricultural Code of California.

(Sec. 5, 49 Stat. 753, as amended; 7 U. S. C. 608c)

Dated: November 17, 1955.

[SEAL] S. R. SMITH,
Director, Fruit and Vegetable Division, Agricultural Marketing Service.

[F. R. Doc. 55-9360; Filed, Nov. 18, 1955; 8:54 a. m.]

TITLE 14—CIVIL AVIATION

Chapter II—Civil Aeronautics Administration, Department of Commerce

[Amdt. 65]

PART 600—DESIGNATION OF CIVIL AIRWAYS

ALTERATION; HERNDON, VA., TO HARRISBURG, PA.

The civil airway alteration appearing hereinafter has been coordinated with the civil operators involved, the Army, the Navy and the Air Force, through the Air Coordinating Committee, Airspace Panel, and is adopted to become effective when indicated in order to promote safety. Compliance with the notice procedures, and effective date provisions of section 4 of the Administrative Procedure Act would be impracticable and contrary to public interest and therefore is not required.

Part 600 is amended as follows:

Section 600.6223 is added to read:

§ 600.6223 *VOR Civil airway No. 223 (Herndon, Va., to Harrisburg, Pa.).* From the Herndon, Va., omnirange station to the Harrisburg, Pa., omnirange station.

(Sec. 205, 52 Stat. 984, amended; 49 U. S. C. 425. Interprets or applies sec. 302, 52 Stat. 985, as amended; 49 U. S. C. 452)

This amendment shall become effective 0001 e. s. t. November 25, 1955.

[SEAL] S. A. KEMP,
Acting Administrator of Civil Aeronautics.

[F. R. Doc. 55-9326; Filed, Nov. 18, 1955; 8:51 a. m.]

[Amdt. 65]

PART 601—DESIGNATION OF CONTROL AREAS, CONTROL ZONES, AND REPORTING POINTS

ALTERATIONS

The control area and control zone alterations appearing hereinafter have been coordinated with the civil operators involved, the Army, the Navy and the Air Force, through the Air Coordinating Committee, Airspace Panel, and are adopted to become effective when indicated in order to promote safety. Compliance with the notice, procedures, and effective date provisions of section 4 of the Administrative Procedure Act would be impracticable and contrary to public interest and therefore is not required.

Part 601 is amended as follows:

1. Section 601.1391 is added to read:

§ 601.1391 *Control area extension (Gettysburg, Pa.).* That airspace within a 5-mile radius of the Gettysburg Airport and within 5 miles either side of the 180° True radial of the Gettysburg terminal omnirange extending from the terminal omnirange station to VOR civil airway No. 223.

2. Section 601.6223 is added to read:

§ 601.6223 *VOR Civil Airway No. 223 control areas (Herndon, Va., to Harrisburg, Pa.).* All of VOR Civil Airway No. 223.

Name and location (Chart)	Description by geographical coordinates	Designated altitudes	Time of designation	Controlling agency
MOLOKAI (R-325) (Hawaiian Islands).	5-mile radius centered at latitude 21°09'00" N., longitude 157°16'45" W. excluding that portion overlapping Civil Airway Red 87.	Unlimited....	Continuous daylight hours only.	Hawaiian Sea Frontier.

(Sec. 205, 52 Stat. 984, as amended; 49 U. S. C. 425. Interprets or applies sec. 601, 52 Stat. 1107, as amended; 49 U. S. C. 551)

This amendment shall become effective on December 15, 1955.

[SEAL] F. B. LEE,
Administrator of Civil Aeronautics.

[F. R. Doc. 55-9304; Filed, Nov. 18, 1955; 8:45 a. m.]

[Amdt. 93]

PART 610—MINIMUM EN ROUTE IFR ALTITUDES

MISCELLANEOUS AMENDMENTS

The minimum en route IFR altitudes appearing hereinafter have been coordinated with interested members of the industry in the regions concerned insofar as practicable. The altitudes are adopted without delay in order to provide for safety in air commerce. Compliance with the notice, procedures, and effective date provisions of section 4 of the Administrative Procedure Act would be impracticable and contrary to the public interest, and therefore is not required.

Part 610 is amended as follows: (Listed items to be placed in appropriate sequence in the sections indicated).

(Sec. 205, 52 Stat. 984, as amended; 49 U. S. C. 425. Interprets or applies sec. 601, 52 Stat. 1107, as amended; 49 U. S. C. 551)

This amendment shall become effective 0001 e. s. t., November 25, 1955.

[SEAL] S. A. KEMP,
Acting Administrator of Civil Aeronautics.

[F. R. Doc. 55-9327; Filed, Nov. 18, 1955; 8:51 a. m.]

[Amdt. 143]

PART 608—RESTRICTED AREAS

ALTERATION; MOLOKAI, HAWAII

The restricted area alteration appearing hereinafter has been coordinated with the civil operators involved, the Army, the Navy and the Air Force, through the Air Coordinating Committee, Airspace Panel, and is adopted to become effective when indicated in order to promote safety of the flying public. Since a military function of the United States is involved, compliance with the notice, procedure and effective date provisions of section 4 of the Administrative Procedure Act is not required.

Part 608 is amended as follows:

In § 608.62, the West Molokai, Island of Molokai, Territory of Hawaii area (R-325 formerly D-325) amended on February 11, 1953, in 18 F. R. 844 is redesignated as follows:

1. Section 610.13 *Green civil airway 3* is amended to read in part:

From—	To—	Minimum altitude
Ogden, Utah,[1] LFR....	Ft. Bridger, Wyo., LFR.	12,000

[1] 11,000'—Minimum crossing altitude at Ogden LFR, eastbound.

2. Section 610.15 *Green civil airway 5* is amended to read in part:

From—	To—	Minimum altitude
Jackson, Tenn., LFR..	Fairview INT, Tenn..	2,500
Fairview INT, Tenn...	Nashville, Tenn., LFR.	3,000
Nashville, Tenn., LFR.	Lebanon INT, Tenn..	3,000
Lebanon INT, Tenn...	Smithville, Tenn., LFR.	3,500

3. Section 610.106 *Amber civil airway 6* is amended to read in part:

From—	To—	Minimum altitude
Jacksonville, Fla., LFR.	Alma, Ga., LFR.....	1,600

4. Section 610.108 *Amber civil airway 8* is amended to read in part:

From—	To—	Minimum altitude
Santa Barbara, Calif., LFR.	Bradley INT, Calif...	7,000

5. Section 610.216 *Red civil airway 16* is amended to read in part:

From—	To—	Minimum altitude
Tallahassee, Fla. LFR.	Albany, Ga., LFR...	1,600

6. Section 610.219 *Red civil airway 19* is amended by adding:

From—	To—	Minimum altitude
Traverse City, Mich., LF/RBN.	Gladwin, Mich., LF/RBN.	2,500
Gladwin, Mich., LF/RBN.	Saginaw, Mich., LF/RBN.	2,000
Saginaw, Mich., LF/RBN.	Flint, Mich., ILS/LOM.	2,200
Flint, Mich., ILS/LOM.	White Lake INT, Mich.	2,200
White Lake INT, Mich.	Detroit, Mich., LFR.	2,500

7. Section 610.230 *Red civil airway 30* is amended to read in part:

From—	To—	Minimum altitude
Bay Minette, Ala., LF/RBN.	Crestview, Fla., LFR.	1,400
Crestview, Fla., LFR..	Marianna INT, Fla...	1,400
Marianna INT, Fla....	Tallahassee, Fla., LFR.	1,500

8. Section 610.603 *Blue civil airway 3* is amended to read in part:

From—	To—	Minimum altitude
Miami, Fla., LFR.....	Tamiami INT, Fla...	1,100
Tamiami INT, Fla.....	Ft. Myers, Fla., LF/RBN.	1,200
Ft. Myers, Fla., LF/RBN.	Tampa, Fla., LFR....	1,200

9. Section 610.613 *Blue civil airway 13* is amended to read in part:

From—	To—	Minimum altitude
Texarkana, Ark., LFR.	Hartford INT, Ark.[1]...	3,800
Hartford INT, Ark.[1]...	Van Buren, Ark., LF/RBN.	3,800

[1] 6,000'—Minimum reception altitude.

10. Section 610.662 *Blue civil airway 62* is amended to delete:

From—	To—	Minimum altitude
Detroit, Mich., LFR...	White Lake INT, Mich.	2,500
White Lake INT, Mich.	Flint, Mich., ILS/LOM.	2,200
Flint, Mich., ILS/LOM.	Saginaw, Mich., LF/RBN.	2,200
Saginaw, Mich., LF/RBN.	Gladwin, Mich., LF/RBN.	2,000
Gladwin, Mich., LF/RBN.	Traverse City, Mich., LFR.	2,500

11. Section 610.1001 *Direct routes—U. S.* amended by adding:

From—	To—	Minimum altitude
Int. Seattle, Wash., VOR 247° T rad. and Olympia, Wash., VOR 013° T rad.	Int. Olympia, Wash., VOR 013° T rad. and NW crs. Seattle, Wash., LFR.	5,000

12. Section 610.6001 *VOR civil airway 1* is amended by adding:

From—	To—	Minimum altitude
Myrtle Beach, S. C., VOR.	Wilmington, N. C., VOR.	1,400
Wilmington, N. C., VOR.	New Bern, N. C., VOR.	1,400
New Bern, N. C., VOR.	Williamston, N. C., VAR.	1,200
Williamston, N. C., VAR.	Harrelsville INT, Va.	[1] 1,200
Harrelsville INT, Va..	Norfolk, Va. ILS localizer.	1,500
Norfolk, Va., ILS localizer.	Whitehurst INT, Va.	1,500

[1] 1,100'—Minimum terrain clearance altitude.

13. Section 610.6002 *VOR civil airway 2* is amended by adding:

From—	To—	Minimum altitude
Seattle, Wash.,[1] VOR via S alter.	Cumberland INT, Wash., via S alter.: SE-bound	10,000
	NW-bound	4,000
Cumberland INT, Wash., via S alter.	Ranger Creek INT, Wash., via S alter.	10,000
Ranger Creek INT, Wash.: via S alter.	Thorp INT, Wash., via S alter.	10,000
Thorp INT, Wash., via S alter.	Ellensburg, Wash.[2] VOR via S alter.: Eastbound	7,000
	Westbound	10,000

[1] 6,000'—Minimum crossing altitude at Seattle VOR, southeast-bound.
[2] 6,700'—Minimum crossing altitude at Ellensburg VOR, westbound.

14. Section 610.6004 *VOR civil airway 4* is amended to delete:

From—	To—	Minimum altitude
Kansas City, Mo., VOR, via S alter.	Columbia, Mo., VOR, via S alter.	[1] 4,000

[1] 2,400'—Minimum terrain clearance altitude.

15. Section 610.6004 *VOR civil airway 4* is amended by adding:

From—	To—	Minimum altitude
Topeka, Kans., VOR, via S alter.	Bonner Springs INT, Kans., via S alter.	2,400
Bonner Springs INT, Kans., via S alter.	Blue Springs, Mo., VOR, via S alter.	[1] 4,000
Blue Springs, Mo., VOR, via S alter.	Columbia, Mo., VOR, via S alter.	[2] 4,000

[1] 3,000'—Minimum terrain clearance altitude.
[2] 2,400'—Minimum terrain clearance altitude.

16. Section 610.6004 *VOR civil airway 4* is amended to read in part:

From—	To—	Minimum altitude
Seattle, Wash.,[1] VOR...	Cumberland INT, Wash.: Southeast-bound	10,000
	Northwest-bound	4,000
Cumberland INT, Wash.	Ranger Creek INT, Wash.	10,000
Ranger Creek INT, Wash.	Tieton INT, Wash....	10,000
Tieton INT, Wash....	Selah INT, Wash.:[2] Southeast-bound	5,000
	Northwest-bound	7,000
Selah INT, Wash.....	Yakima, Wash. VOR.	4,500
Seattle, Wash.,[3] VOR, via S alter.	Carbonado INT, Wash.,[4] via S alter.	6,000
Carbonado INT, Wash., via S alter.	Mud Lake INT, Wash., via S alter.: Eastbound	10,000

Ranger Creek INT, Wash., via S alter.	Tieton INT, Wash., via S alter.	10,000
Tieton INT, Wash., via S alter.	Selah INT, Wash.,[5] via S alter: Southeast-bound	5,000
	Northwest-bound	7,000
Selah INT, Wash., via S alter.	Yakima, Wash. VOR, via S alter.	4,500
Excelsior INT, Mo., via N alter.	Tina INT, Mo., via N alter.	[6] 3,000

[1] 6,000'—Minimum crossing altitude at Seattle VOR, southeast-bound.
[2] 7,000'—Minimum crossing altitude at Selah INT, northwest-bound.
[3] 3,000'—Minimum crossing altitude at Seattle VOR, southbound.
[4] 8,500'—Minimum crossing altitude at Carbonado INT, eastbound.
[5] 2,400'—Minimum terrain clearance altitude.

17. Section 610.6005 *VOR civil airway 5* is amended by adding:

From—	To—	Minimum altitude
Columbus, Ohio, VOR, via E alter.	Mansfield, Ohio, VOR, via E alter.	2,500

18. Section 610.6005 *VOR civil airway 5* is amended to read in part:

From—	To—	Minimum altitude
Jacksonville, Fla., VOR, via W alter.	Alma, Ga., VOR, via W alter.	1,600

19. Section 610.6006 *VOR civil airway 6* is amended by adding:

From—	To—	Minimum altitude
Ogden, Utah, [1] VOR, via N alter.	Fort Bridger, Wyo., VOR, via N alter.	13,000

[1] 11,000'—Minimum crossing altitude at Ogden VOR, eastbound.

20. Section 610.6006 *VOR civil airway 6* is amended to read in part:

From—	To—	Minimum altitude
Sacramento, Calif., VOR.	Coloma INT, Calif.[1]..	9,500
Folsom INT, Calif....	Reno, Nev.,[2] VOR....	13,000
Coloma INT, Calif....	Mt. Lola INT, Calif., via N alter.	11,000
Sacramento, Calif.,[3] VOR, via N alter.	Reno, Nev., VOR, via N alter.	11,000
Mt. Lola INT, Calif., via N alter.	Fort Bridger, Wyo., VOR.	12,000
Ogden, Utah,[4] VOR...	Ogallala INT, Nebr..	6,100
Ogallala INT, Nebr...	North Platte, Nebr., VOR.	[5] 5,600
Sidney, Nebr., VOR, via N alter.	North Platte, Nebr., VOR, via N alter.	6,100

[1] 9,500'—Minimum crossing altitude at Coloma INT, northeast-bound.
[2] 12,000'—Minimum crossing altitude at Reno VOR, southwest-bound.
[3] 3,000'—Minimum crossing altitude at Sacramento VOR, northeast-bound.
[4] 11,000'—Minimum crossing altitude at Ogden VOR, eastbound.
[5] 5,400'—Minimum terrain clearance altitude.

21. Section 610.6007 *VOR civil airway 7* is amended to read in part:

From—	To—	Minimum altitude
Cross City, Fla., VOR, via W alter.	Lobster INT, Fla., via W alter.	[1] 2,000
Lobster INT, Fla., via W alter.	St. Marks INT, Fla.,[2] via W alter.	[2] 2,000
St. Marks INT, Fla., via W alter.	Tallahassee, Fla., VOR, via W alter.	1,500
Marianna, Fla., VOR..	Shady Grove INT, Fla.[4]	[3] 2,500
Shady Grove INT, Fla.	Montgomery, Ala., VOR.	[3] 2,000

[1] 1,500'—Minimum terrain clearance altitude.
[2] 2,000'—Minimum reception altitude.
[3] 1,000'—Minimum terrain clearance altitude.
[4] 3,500'—Minimum reception altitude.
[5] 1,800'—Minimum terrain clearance altitude.

22. Section 610.6010 *VOR civil airway 10* is amended to read in part:

From—	To—	Minimum altitude
Pueblo, Colo., VOR, via N alter.	Lamar, Colo., VOR, via N alter.	6,000
Excelsior INT, Mo., via S alter.	Kirksville, Mo., VOR, via S alter.	6,400 [1] 3,000

[1] 2,400'—Minimum terrain clearance altitude.

23. Section 610.6011 *VOR civil airway 11* is amended to read in part:

From—	To—	Minimum altitude
Houston, Tex., VOR...	Humble INT, Tex.[1]...	1,600
Humble INT, Tex.....	Cleveland INT, Tex.[2].	1,600
Cleveland INT, Tex...	Lufkin, Tex., VOR...	1,600

[1] 2,300'—Minimum reception altitude.
[2] 3,000'—Minimum reception altitude.

24. Section 610.6012 *VOR civil airway 12* is amended by adding:

From—	To—	Minimum altitude
Columbus, Ohio, VOR, via N alter.	Wheeling, W. Va., VOR, via N alter.	[1] 3,500

[1] 2,500'—Minimum terrain clearance altitude.

25. Section 610.6012 *VOR civil airway 12* is amended to read in part:

From—	To—	Minimum altitude
Santa Barbara, Calif., VOR.	Fillmore, Calif., VOR.	8,000
Gage, Okla., VOR, via N alter.	Aetena INT, Okla., via N alter.	3,500
Aetena INT, Okla., via N alter.	Rago INT, Kans., via N alter.	[1] 4,500
Rago INT, Kans., via N alter.	Wichita, Kans., VOR, via N alter.	3,400
Excelsior INT, Mo., via N alter.	Tina INT, Mo., via N alter.	[2] 3,000

[1] 3,500'—Minimum terrain clearance altitude.
[2] 2,400'—Minimum terrain clearance altitude.

26. Section 610.6013 *VOR civil airway 13* is amended by adding:

From—	To—	Minimum altitude
Houston, Tex., VOR, via E alter.	Dalsetta INT, Tex.,[1] via E alter.	1,600
Dalsetta INT, Tex., via E alter.	Lufkin, Tex., VOR, via E alter.	[2] 4,000

[1] 4,000'—Minimum reception altitude.
[2] 1,500'—Minimum terrain clearance altitude.

27. Section 610.6013 *VOR civil airway 13* is amended to read in part:

From—	To—	Minimum altitude
Houston, Tex., VOR...	Humble INT, Tex.[1]...	1,600
Humble INT, Tex.....	Cleveland INT, Tex.[2].	1,600
Cleveland INT, Tex...	Lufkin, Tex., VOR...	1,600

[1] 2,300'—Minimum reception altitude.
[2] 3,000'—Minimum reception altitude.

28. Section 610.6014 *VOR civil airway 14* is amended to read in part:

From—	To—	Minimum altitude
Roswell, N. Mex., VOR.	Caprock INT, N. Mex.[1]	[2] 7,000
Caprock INT, N. Mex.	Whiteface INT, Tex.[3]	[2] 7,000
Whiteface INT, Tex...	Lubbock, Tex., VOR.	[2] 7,000
Roswell, N. Mex., VOR, via N alter.	Kenna INT, N. Mex.,[4] via N alter.	[2] 8,000
Kenna INT, N. Mex., via N alter.	Pep INT, Tex.,[5] via N alter.	[2] 8,000
Pep INT, Tex., via N alter.	Lubbock, Tex., VOR via N alter.	[2] 8,000
Tulsa, Okla., VOR, via S alter.	Neosho, Mo., VOR, via S alter.	2,000

[1] 7,500'—Minimum reception altitude.
[2] 5,500'—Minimum terrain clearance altitude.
[3] 9,500'—Minimum reception altitude.
[4] 9,000'—Minimum reception altitude.
[5] 11,300'—Minimum reception altitude.

29. Section 610.6016 *VOR civil airway 16* is amended to read in part:

From—	To—	Minimum altitude
Graham, Tenn., VOR..	Nashville, Tenn., VOR.	3,000

30. Section 610.6019 *VOR civil airway 19* is amended to read in part:

From—	To—	Minimum altitude
Raton, N. Mex., VOR..	Pueblo, Colo., VOR...	11,000

31. Section 610.6020 *VOR civil airway 20* is amended by adding:

From—	To—	Minimum altitude
Houston, Tex., VOR... via N alter.	Crosby INT, Tex.,[1] via N alter.	1,600
Crosby INT, Tex., via N alter.	Beaumont, Tex., VOR, via N alter.	[2] 1,900
Houston, Tex., VOR, via S alter.	High Island INT, Tex.,[3] via S alter.	1,500

Homer INT, Ga., via N alter.	Clemson INT, S. C., via N alter.	[5] 4,500
Clemson INT, S. C., via S alter.	Spartanburg, S. C., VOR, via S alter.	[5] 4,500

[1] 1,900'—Minimum reception altitude.
[2] 1,600'—Minimum terrain clearance altitude.
[3] 3,000'—Minimum reception altitude.
[4] 1,400'—Minimum terrain clearance altitude.
[5] 3,200'—Minimum terrain clearance altitude.

32. Section 610.6020 *VOR civil airway 20* is amended to read in part:

From—	To—	Minimum altitude
Beaumont, Tex., VOR	Lake Charles, La., VOR	1,400
Lake Charles, La., VOR	Lafayette, La., VOR	1,300

33. Section 610.6022 *VOR civil airway 22* is amended to read in part:

From—	To—	Minimum altitude
Marianna, Fla., VOR	Tallahassee, Fla., VOR	1,500
Via N alter	Via N alter	1,500
Mobile, Ala., VOR	McDavid INT, Fla	[1] 3,000
McDavid, INT, Fla	Crestview, Fla., VOR	[1] 1,500

[1] 1,500′—Minimum terrain clearance altitude.
[2] 1,400′—Minimum terrain clearance altitude.

34. Section 610.6023 *VOR civil airway 23* is amended to read in part:

From—	To—	Minimum altitude
Portland, Oreg., VOR	Seattle, Wash., VOR	5,000
Ranier INT, Wash	Seattle, Wash., VOR, northbound only.	3,000

35. Section 610.6027 *VOR civil airway 27* is amended to read in part:

From—	To—	Minimum altitude
Santa Barbara, Calif.,[1] VOR	Paso Robles, Calif., VOR	8,000
Via W alter	Via W alter	7,000

[1] 8,000′—Minimum crossing altitude at Santa Barbara VOR, northwest-bound.

36. Section 610.6048 *VOR civil airway 48* is amended to read:

From—	To—	Minimum altitude
Burlington, Iowa, VOR	Peoria, Ill., VOR	1,900
Peoria, Ill., VOR	Pontiac, Ill., VOR	2,200

37. Section 610.6059 *VOR civil airway 59* is amended to read in part:

From—	To—	Minimum altitude
Springfield, Ill., VOR	Peoria, Ill., VOR	2,000
Peoria, Ill., VOR	Bradford, Ill., VOR	2,000

38. Section 610.6068 *VOR civil airway 68* is amended to read in part:

From—	To—	Minimum altitude
Corona, N. Mex., VOR	Roswell, N. Mex., VOR	9,000
Via N alter	Via N alter	9,000
Roswell, N. Mex., VOR	Hagerman INT, N. Mex.[1]	6,000
Hagerman INT, N. Mex.[1]	Hobbs, N. Mex., VOR	6,000
Junction, Tex., VOR	Boerne INT, Tex	[1] 3,600
Boerne INT, Tex	San Antonio, Tex., VOR	2,800

[1] 6,500′—Minimum reception altitude.
[2] 3,400′—Minimum terrain clearance altitude.

39. Section 610.6070 *VOR civil airway 70* is amended to read in part:

From—	To—	Minimum altitude
Galveston, Tex., VOR	Lake Charles, La. VOR	[1] 3,000

[1] 1,400′—Minimum terrain clearance altitude.

40. Section 610.6074 *VOR civil airway 74* is amended to read in part:

From—	To—	Minimum altitude
Tulsa, Okla., VOR, via N alter.	Salina INT, Okla., via N alter.	2,000
Salina INT, Okla., via N alter.	Fort Smith, Ark., VOR., via N alter.	[1] 4,000

[1] 2,600′—Minimum terrain clearance altitude.

41. Section 610.6076 *VOR civil airway 76* is amended to read in part:

From—	To—	Minimum altitude
Kingsland INT, Tex.[1]	Lake Travis INT, Tex.[2]	[3] 3,000
Austin, Tex., VOR	McDade INT, Tex.[4]	2,000
McDade INT, Tex.[4]	Sealy INT, Tex	[5] 3,700

[1] 5,000′—Minimum reception altitude.
[2] 2,400′—Minimum terrain clearance altitude.
[3] 4,000′—Minimum reception altitude.

63. Section 610.6207 *VOR civil airway 207* is added to read:

From—	To—	Minimum altitude
Denver, Colo., VOR	Int. Denver, Colo., VOR 002° mag. rad. and Cheyenne, Wyo., VOR 084° mag. rad.	7,500

64. Section 610.6208 *VOR civil airway 208* is added to read:

From—	To—	Minimum altitude
Thermal, Calif., VOR	Needles, Calif., VOR	[1] 10,000

[1] 6,500′—Minimum terrain clearance altitude.

65. Section 610.6211 *VOR civil airway 211* is added to read:

From—	To—	Minimum altitude
Cotulla, Tex., VOR	Junction, Tex., VOR	[1] 4,000

[1] 3,500'—Minimum terrain clearance altitude.

66. Section 610.6213 *VOR civil airway 213* is added to read:

From—	To—	Minimum altitude
Rocky Mount, N. C., VOR	Boykins, INT, Va	1,500

(Sec. 205, 52 Stat. 984, as amended; 49 U. S. C. 425. Interpret or apply sec. 601, 52 Stat. 1007, as amended; 49 U. S. C. 551)

These rules shall become effective December 1, 1955.

[SEAL] F. B. LEE,
Administrator of Civil Aeronautics.

[F. R. Doc. 55-9137; Filed, Nov. 18, 1955; 8:45 a. m.]

TITLE 15—COMMERCE AND FOREIGN TRADE

Chapter III—Bureau of Foreign Commerce, Department of Commerce

Subchapter B—Export Regulations

[7th Gen. Rev. of Export Regs., Amdt. 45 [1]]

PART 373—LICENSING POLICIES AND RELATED SPECIAL PROVISIONS

PART 379—EXPORT CLEARANCE AND DESTINATION CONTROL

PART 380—AMENDMENTS, EXTENSIONS, TRANSFERS

PART 382—DENIAL OR SUSPENSION OF EXPORT PRIVILEGES

MISCELLANEOUS AMENDMENTS

1. Section 373.2 *Confirmation of country of ultimate destination and verification of actual delivery* is amended in the following particulars:

a. Paragraph (a) *Scope* is amended by adding to the list of countries in subdivision (ii) of subparagraph (1), the country name: "Belgian Congo."

This part of the amendment shall become effective as of January 2, 1956.

b. The Explanatory Statements and Interpretations at the end of this section is amended by revising the last unnumbered paragraph of the answer to Question 5 to read as follows:

In some cases, an importer in Hong Kong may obtain an Import License from his government when the commodities to be exported from the United States to Hong Kong are destined to be reexported to another country. The Import License covering such a transaction will be endorsed:

For re-export to _____
_____
(Approved destination)

[1] This amendment was published in Current Export Bulletin No. 758, dated November 17, 1955.

diversion en route prohibited. To be delivered by shipping or airline company concerned to govt-designated godown. Overside delivery not permitted. Release from godown subject to approval of export license.

2. Part 373, Licensing Policies and Related Special Provisions, is amended by adding a new section to read as follows:

§ 373.6 *Return of unused quota.* As soon as a licensee decides that he does not intend to export the entire licensed amount of a commodity subject to a quantitative quota he shall promptly request reduction of the quantity covered by the license to the amount he actually intends to export. The request for reduction shall be made by submitting to the Bureau of Foreign Commerce a Form IT– or FC–763, in accordance with the procedure set forth in § 380.2 of this subchapter. If none of the commodities covered by the license is to be exported, the license shall be returned to the BFC for cancellation in accordance with § 372.14 of this subchapter.

3. Section 373.68 *Cambodia, Laos, and Viet-Nam (the area formerly known as Indo-China)* is amended to read as follows:

§ 373.68 *Cambodia, Laos, and Viet-Nam (the area formerly known as Indo-China).* All license applications (Form IT– or FC–419), Ultimate Consignee and Purchaser Statements (Form IT– or FC–842 or 843, see § 373.65), and destination control statements (see § 379.10 (c) of this subchapter) which make reference to Indo-China shall also specify which of the following areas are referred to:

(a) Communist controlled areas of Viet-Nam and Laos.

(b) Cambodia and the non-Communist controlled areas of Viet-Nam and Laos.

4. Section 373.69 *Confirmation of country of ultimate destination and verification of actual delivery for Hong Kong* is amended in the following particulars:

a. Paragraph (b) *Documents* is amended to read as follows:

(b) *Documents.* For export control purposes, an endorsed Import License (Form 3) issued by the Hong Kong Government to importers in Hong Kong is the equivalent document to the Import Certificate (Form IT– or FC–826) issued to U. S. importers. C & I Form 229, Delivery Verification, and C & I Form 42, Landing Certificate, as issued by the Government of Hong Kong to importers in Hong Kong, are the equivalent documents of the Delivery Verification (Form IT– or FC–908) issued to U. S. importers (see § 368.1 of this subchapter).

b. Paragraph (c) *Submission of import license* is amended to read as follows:

(c) *Submission of import license—*(1) *Single transaction import license.* (i) The applicant shall attach to his license application, covering a proposed exportation described in paragraph (a) of this section, the duplicate copy of the Import License, bearing the official authentication of the governmental authorities in Hong Kong, issued to the named importer or his agent and covering the commodity or commodities described in the export license application. The copy of the Hong Kong Import License attached to the application for a validated license shall include thereon one of the following stamped endorsements which shall bear the signature of an official of the Hong Kong Government:

(*a*) For consumption in Hong Kong. Diversion en route prohibited. Re-export not permitted except under special license and subject in addition to general or specific concurrence of government of supplying country concerned.

(b) For re-export to _____
_____
(Approved destination)
Diversion en route prohibited. To be delivered by shipping or airline company concerned to Govt. designated godown. Overside delivery not permitted. Release from godown subject to approval of export license.

(c) For local consumption in Hong Kong.

(ii) Where the Hong Kong Import License covers commodities for which more than one export license application is submitted, the Import License shall be attached to the first such application. Each subsequent application shall include the following certification:

I (we) certify that I (we) have not submitted applications, including the present application, against the Hong Kong Import License No. _____ in excess of the total quantity authorized thereon. This Import License was submitted in support of Application No. _____
_____
_____
(BFC Case No. or if Case No. is unknown, the Applicant's Reference No., date of submission of the application to which the Import License was attached, and Schedule B Nos. shown on that application)

NOTE: BFC Case No. Inclusion. Whenever possible, the BFC Case Number should be indicated on the certification set forth above since failure to supply the BFC Case Number may result in delay in processing the application.

(2) *Multiple transaction import license.* Exporters may submit to the Bureau of Foreign Commerce the duplicate copy of the Hong Kong Import License issued by the Government of Hong Kong, appropriately endorsed as provided in subparagraph (1) (i) of this paragraph, covering all proposed exportations of a commodity or commodities, regardless of value, including commodities based on export orders amounting to less than $500. However, to be acceptable, the multiple transaction Import License must indicate either a specific validity period or a specific quantity or value. The exporter shall submit the Import License bearing the official authentication of the Hong Kong governmental authorities, together with one additional copy for each Bureau of Foreign Commerce processing code to which the Import License applies and a listing of such processing codes. Each subsequent application for export license submitted against a multiple transaction Import License shall bear on the face of the application one of the following certifications (depending on whether a quantity is shown on the Import License) signed by the applicant:

I (we) certify that I (we) have not submitted applications including the present application against the Hong Kong Import License No. _____ in excess of the total quantity authorized thereon.

or (if no quantity is shown on the Import License):

This application is supported by the Hong Kong multiple transaction Import License No. _____.

c. Paragraph (d) *Submission of Hong Kong landing certificate* is retitled and amended to read as follows:

(d) *Submission of verification of delivery.* (1) The Bureau of Foreign Commerce may require verification of delivery in the form of a Hong Kong Delivery Verification or Landing Certificate, for any exportation to Hong Kong for which a validated license is granted, including commodities not listed on the Positive List. Where a verification of delivery is required, the face of the export license will bear the stamped words "Delivery Verification Required, see attached Form IT– or FC–863." Where a Form IT– or FC–863 is attached to a license forwarded by the Bureau of Foreign Commerce to an agent or freight forwarder of the licensee, it shall be the responsibility of the agent to notify the licensee that a verification of delivery is required.

(2) Where verification of delivery is required on a shipment, the U. S. exporter shall submit the Hong Kong Delivery Verification (C & I Form 229) to the Bureau of Foreign Commerce. In instances where the Bureau of Foreign Commerce requires verification of delivery and the Hong Kong Government does not issue their Delivery Verification form, the U. S. exporter shall obtain a Landing Certificate (C & I Form 42) from the Hong Kong importer and submit this certificate to the Bureau of Foreign Commerce in lieu of the Delivery Verification form.

(3) The requirement that a verification of delivery be submitted for a particular commodity is canceled automatically if, subsequent to the issuance of a license, the commodity is authorized by the Bureau of Foreign Commerce to be shipped to Hong Kong under General License GHK.

d. Paragraph (e) *Applicability of IC/DV provisions in* § 373.2 is amended to read as follows:

(e) *Applicability of IC/DV provisions in* § 373.2. The provisions of § 373.2 (a) (2), the note following § 373.2 (c), (d), (e), (f), (g), and (h), and the note and explanatory statements and interpretations following § 373.2 (h), shall be equally applicable to license applications and validated export licenses to Hong Kong.

5. Section 373.71 *Supplement 1; Time schedules for submission of applications for licenses to export certain Positive List commodities* is amended by deleting the footnote reference in the heading and the footnote, and adding a note at the end of the schedule to read as follows:

NOTE: *Return of unused quotas.* As soon as a licensee determines that he will not export the entire licensed amount of a commodity subject to a quantitative quota he shall promptly submit to the Bureau of Foreign Commerce a request for an amendment reducing the quantity covered by the license to the amount he actually intends to export (see § 373.6). If none of the commodities covered by the license is to be exported, the license shall be returned to the Bureau of Foreign Commerce.

Where no filing dates are announced. Applications for licenses to export commodities for which no specified filing dates are announced may be submitted at any time (see § 372.5 (c)).

Intransit shipment. Export applications for commodities requiring a validated license when moving in transit through the United States may be submitted at any time and are not subject to specified filing dates (see Note following § 372.6 (d)).

This part of the amendment shall become effective December 19, 1955.

6. Section 379.10 *Destination control,* paragraph (c) *Statement regarding ultimate destination on declaration, bill of lading, and commercial invoice,* subparagraph (1) is amended by adding a footnote reference 1 at the end of each destination statement and the following footnote:

[1] For shipments to Cambodia, Laos or Viet-Nam, the country area designations shown in § 373.68 of this subchapter shall be used.

7. Section 380.2 *Amendments or alterations of licenses* is amended in the following particulars:

a. Paragraph (d) *Changes by amendment* is amended by adding a new subparagraph (9) to read as follows:

(9) Decrease in quantity of commodity included in § 373.71.

b. Paragraph (f) *Where to file* is amended in the following particulars:

Subparagraph (1) *General* is amended to read as follows:

(1) *General.* All requests for amendments to licenses may be filed with the Bureau of Foreign Commerce, Department of Commerce, Washington 25, D. C. However, certain types of amendments described in subparagraph (2) of this paragraph may be requested from those field offices of the Department of Commerce listed below:

Boston.	Miami.
Chicago.	New Orleans.
Cleveland.	New York.
Detroit.	Philadelphia.
El Paso.	Portland, Oreg.
Houston.	San Francisco.
Jacksonville.	Savannah.
Los Angeles.	Seattle.

Subparagraph (3) *Amendment requests on which field offices may not take action* is amended by amending subdivision (ii) and adding a new subdivision (vii) to read as follows:

(ii) Requests for amendment of licenses where the intended port of exit is not known to the licensee.

* * * * * * *

(vii) Decrease in quantity of commodity included in § 373.71.

c. Paragraph (g) *Procedure for submitting requests for amendments,* subparagraph (3) *Signature* is amended by revising the first sentence thereof to read as follows: "The signature of the licensee, or an officer or duly authorized agent of the licensee, shall be placed on the original 1 of Form IT– or FC–763, in the space provided."

[1] Notwithstanding instruction No. 5 on the reverse side of Form IT– or FC–763, the duplicate copy need not be signed.

8. Section 382.51 *Table of compliance orders currently in effect denying export privileges,* paragraph (b) *Table of compliance orders* is amended by adding the following entries:

Name and address	Effective date of order	Expiration date of order	Export privileges affected	FEDERAL REGISTER citation
Bierma, Sipke N., Keizersgracht 702, Amsterdam, Netherlands.	10–28–55	10–28–56 (Duration.)*	General and validated licenses, all commodities, any destination, also exports to Canada.	20 F. R. 8224, 11–2–55.

TITLE 17—COMMODITY AND SECURITIES EXCHANGES

Chapter II—Securities and Exchange Commission

PART 230—GENERAL RULES AND REGULATIONS, SECURITIES ACT OF 1933

SUMMARY PROSPECTUS PREPARED BY INDEPENDENT ORGANIZATIONS

The Securities and Exchange Commission announced today the adoption of § 230.434 (Rule 434) which specifies the conditions under which a bulletin or card prepared by certain independent statistical services, primarily engaged in publishing statements and financial information for distribution to subscribers and summarizing information contained in a preliminary prospectus might be deemed a summary prospectus meeting the requirements of section 10 of the act for the purpose of section 5 (b) (1) prior to the effective date of the registration statement. This rule implements section 10 (b) of the act under the amendment made by Public Law 577, 83d Congress, which authorizes the Commission to adopt rules and regulations deemed necessary or appropriate in the public interest or for the protection of investors to permit the use of a summary prospectus for the purposes of subsection (b) (1) of section 5 which omits in part or summarizes information in the preliminary prospectus filed as part of the registration statement. The rule is adopted pursuant to sections 10 (b), 10 (d), and 19 (a) of the Securities Act of 1933.

It is understood to be the policy of such statistical services preparing bulletins or cards for sale in bulk to underwriters and dealers for distribution, promptly to prepare a revised bulletin or card if a material amendment to the preliminary prospectus is filed with the Commission and the previously published bulletin or card is no longer a fair summary of information contained in the amended preliminary prospectus, and to transmit such revised bulletin or card to all persons to whom the original document was furnished by the statistical service together with a notice that the original bulletin or card should no longer be used. In adopting this rule it is assumed that this practice will be continued.

The text of § 230.434 is as follows:

§ 230.434 *Summary prospectus prepared by independent organizations.* (a) A bulletin, card or other document which summarizes information contained in a form of prospectus (hereinafter called a "preliminary prospectus") filed as a part of the registration statement and containing the information specified in paragraph (a) of § 230.433 (Rule 433), shall be deemed to be a summary prospectus which meets the requirements of section 10 of the act for the purpose of section 5 (b) (1) thereof prior to the effective date of the registration statement, provided the following conditions are met:

(1) Such summary prospectus is prepared by an independent organization primarily engaged in publishing statistical and financial manuals with respect to securities generally, as distinct from particular classes, issuers or localities, and in circulating to subscribers statistical and financial information and summaries.

(2) The issuer of the securities to which the prospectus relates is required to file reports pursuant to sections 13 or 15 (d) of the Securities Exchange Act of 1934.

(3) No consideration is paid directly or indirectly by such issuer, any underwriter or dealer participating or proposing to participate in the distribution, or any affiliate of any of the foregoing, for the preparation of the summary: *Provided, however,* That nothing herein shall prevent the payment of the usual subscription price, or the regular purchase price of reprints or copies.

(4) The summary prospectus shall be dated, shall contain a fair summary of information contained in the latest form of preliminary prospectus which has been filed as part of the registration statement at the time when the summary prospectus is issued by the organization preparing it, shall not stress the favorable as against the unfavorable aspects of the issuer or the security, and shall not include or be accompanied by any rating, recommendation, or other expression of opinion as to the merits of the issuer or the security. The summary may contain the name and address of the organization issuing it, and the name and address of the person distributing it.

(5) The summary prospectus shall include on the front thereof substantially the following statement:

Information contained herein is based upon a registration statement filed under the Federal Securities Act of 1933 which is subject to correction and amendment. These securities may not be sold nor may offers to buy them be accepted prior to the time when the registration statement becomes effective. Further and more complete information is contained in the prospectus which must be furnished to purchasers.

The summary prospectus may also contain any statement or legend required by state law or administrative authority.

(b) A summary prospectus used pursuant to this section shall be subject to the suspension power of the Commission under section 10 (b) of the act, but need not be filed with the Commission as part of any registration statement or otherwise.

On September 20, 1955, the Commission published notice that it had under consideration the adoption of a proposed § 230.434 (Rule 434) and all interested persons were invited to submit their views and comments on the proposed rule on or before October 15, 1955. The foregoing action adopting Rule 434 shall become effective immediately.

(Sec. 19, 48 Stat. 85; 15 U. S. C. 77s)

By the Commission.

[SEAL] ORVAL L. DUBOIS,
Secretary.

NOVEMBER 8, 1955.

[F. R. Doc. 55-9322; Filed, Nov. 18, 1955; 8:50 a. m.]

TITLE 19—CUSTOMS DUTIES

Chapter I—Bureau of Customs, Department of the Treasury

[T. D. 53946]

PART 12—SPECIAL CLASSES OF MERCHANDISE

MEAT AND MEAT-FOOD PRODUCTS; INSPECTION; BOND; RELEASE

Section 12.8, Customs Regulations, amended to delegate authority to collectors of customs to settle certain claims for liquidated damages under bonds.

In order to expedite the disposition of claims for liquidated damages under bonds for failure to comply with the requirements of the Meat Inspection Branch, Agricultural Research Service, Department of Agriculture, and also to correctly state the name of that Branch, section 12.8 of the Customs Regulations is hereby amended by designating the matter in the present section following the headnote as paragraph (a), by substituting "Meat Inspection Branch" for "Animal Inspection and Quarantine Branch" each place where it appears, and by adding a new paragraph (b) reading as follows:

(b) Liquidated damages assessed for breach of bonds taken under this section, if not in excess of $20,000, and if a written application for relief is filed, may be canceled by the collector of customs upon the payment of less than the full amount as he shall deem appropriate, or without the payment of any amount, as may be deemed appropriate, but the collector shall not act under this paragraph unless the officer in charge of the local office of the Meat Inspection Branch, Agricultural Research Service, Department of Agriculture, is in full agreement with the proposed action. If there is no local inspector of the Meat Inspection Branch, the collector shall not act unless he has obtained the full agreement of the Meat Inspection Branch in Washington.

(R. S. 161, 251, sec. 624, 46 Stat. 759; 5 U. S. C. 22, 19 U. S. C. 66, 1624. Interprets or applies sec. 623, 46 Stat. 759, as amended; 19 U. S. C. 1623)

Approved: November 14, 1955.

[SEAL] RALPH KELLY,
Commissioner of Customs.

DAVID W. KENDALL,
Acting Secretary of the Treasury.

[F. R. Doc. 55-9323; Filed, Nov. 18, 1955; 8:50 a. m.]

TITLE 21—FOOD AND DRUGS

Chapter I—Food and Drug Administration, Department of Health, Education, and Welfare

PART 120—TOLERANCES AND EXEMPTIONS FROM TOLERANCES FOR PESTICIDE CHEMICALS IN OR ON RAW AGRICULTURAL COMMODITIES

EXEMPTION FROM REQUIREMENT OF A TOLERANCE FOR RESIDUES OF ALLETHRIN

A petition was filed with the Food and Drug Administration requesting an exemption from the requirement of a tolerance for residues of allethrin used in the production of growing crops.

The Secretary of Agriculture has not certified that this pesticide chemical is useful in the production of all growing crops. He has certified that it is useful in the production of vegetables for which exemption from the requirement of a tolerance is granted by this order.

After consideration of the data submitted in the petition and other relevant material which show that a tolerance is not necessary to protect the public health, and by virtue of the authority vested in the Secretary of Health, Education, and Welfare by the Federal Food, Drug, and Cosmetic Act (sec. 408 (d) (2), 68 Stat. 512; 21 U. S. C. 346a (d) (2)) and delegated to the Commissioner of Food and Drugs by the Secretary (21 CFR 120.7 (g); 20 F. R. 759), the regulations for tolerances and exemptions from tolerances for pesticide chemicals in or on raw agricultural commodities (21 CFR Part 120; 20 F. R. 1473) are amended by adding the following new section:

§ 120.113 *Exemption from the requirement of a tolerance for residues of allethrin.* (a) Allethrin (allyl homolog of cinerin I) is exempted from the requirement of a tolerance for residues when used before harvest in the production of beans, broccoli, brussels sprouts, cabbage, cauliflower, collards, horseradish, kale, kohlrabi, lettuce, mushrooms, mustard greens, radish, rutabagas, turnips.

(b) Allethrin is not exempted from the requirement of a tolerance when used at time of or after harvest.

Any person who will be adversely affected by the foregoing order may, at any time prior to the thirtieth day from the effective date thereof, file with the Hearing Clerk, Department of Health, Education, and Welfare, Room 5440, 330 Independence Avenue SW., Washington 25, D. C., written objections thereto. Objections shall show wherein the person filing will be adversely affected by this order, specify with particularity the provisions of the order deemed objectionable and reasonable grounds for the objections, and request a public hearing upon the objections. Objections may be accompanied by a memorandum or brief in support thereof. All documents shall be filed in quintuplicate.

Effective date. This order shall be effective upon publication in the FEDERAL REGISTER.

(Sec. 701, 52 Stat. 1055; 21 U. S. C. 371. Interprets or applies sec. 408, 68 Stat. 412; 21 U. S. C. 346a)

Dated: November 14, 1955.

[SEAL] JOHN L. HARVEY,
Acting Commissioner of Food and Drugs.

[F. R. Doc. 55-9317; Filed, Nov. 18, 1955; 8:48 a. m.]

PART 120—TOLERANCES AND EXEMPTIONS FROM TOLERANCES FOR PESTICIDE CHEMICALS IN OR ON RAW AGRICULTURAL COMMODITIES

TOLERANCES FOR RESIDUES OF FERBAM, ZINEB, AND ZIRAM

Petitions were filed with the Food and Drug Administration requesting the establishment of tolerances for residues of ferbam, zineb, and ziram in or on certain raw agricultural commodities.

The Secretary of Agriculture has certified that these pesticide chemicals are useful for the purposes for which tolerances are being established.

After consideration of the data submitted in the petitions and other relevant material which show that the tolerances established in this order will protect the public health, and by virtue of the authority vested in the Secretary of Health, Education, and Welfare by the Federal Food, Drug, and Cosmetic Act (sec. 408 (d) (2), 68 Stat. 512; 21 U. S. C. 346a (d) (2)) and delegated to the Commissioner of Food and Drugs by the Secretary (21 CFR 120.7 (g); 20 F. R. 759), the regulations for tolerances and exemptions from tolerances for pesticide chemicals in or on raw agricultural commodities (21 CFR Part 120; 20 F. R. 1473) are amended by adding the following new sections:

§ 120.114 *Tolerance for residues of ferbam.* A tolerance of 0.1 part per million is established for residues of ferbam (ferric dimethyldithiocarbamate), calculated as zinc ethylenebisdithiocarbamate, in or on almonds.

§ 120.115 *Tolerance for residues of zineb.* A tolerance of 7 parts per million is established for residues of zineb (zinc ethylenebisdithiocarbamate) in or on mushrooms.

§ 120.116 *Tolerances for residues of ziram.* (a) A tolerance of 7 parts per million is established for residues of ziram (zinc dimethyldithiocarbamate), calculated as zinc ethylenebisdithiocarbamate, in or on strawberries.

(b) A tolerance of 0.1 part per million is established for residues of ziram (zinc dimethyldithiocarbamate), calculated as zinc ethylenebisdithiocarbamate, in or on almonds and pecans.

Any person who will be adversely affected by the foregoing order may, at any time prior to the thirtieth day from the effective date thereof, file with the Hearing Clerk, Department of Health, Education, and Welfare, Room 5440, 330 Independence Avenue SW., Washington 25, D. C., written objections thereto. Objections shall show wherein the person filing will be adversely affected by this order, specify with particularity the provisions of the order deemed objectionable and reasonable grounds for the objections, and request a public hearing upon the objections. Objections may be accompanied by a memorandum or brief in support thereof. All documents shall be filed in quintuplicate.

(Sec. 701, 52 Stat. 1055; 21 U. S. C. 371. Interpret or apply sec. 408, 68 Stat. 512; 21 U. S. C. 346a)

Dated: November 14, 1955.

[SEAL] JOHN L. HARVEY,
Acting Commissioner of Food and Drugs.

TITLE 32—NATIONAL DEFENSE

Chapter VII—Department of the Air Force

Subchapter G—Personnel

PART 874—AVIATION CADET TRAINING

AVIATION CADETS—AIR FORCE

In Part 874, §§ 874.1 to 874.13 are rescinded and the following substituted therefor:

Sec.
874.1 General.
874.2 Requirements.
874.3 Waivers of minor offenses.
874.4 Application.
874.5 Processing.
874.6 Information to be furnished applicants.
874.7 Selection and assignment.
874.8 Termination and reassignment.
874.9 Graduates.

AUTHORITY: §§ 874.1 to 874.9 issued under R. S. 161, sec. 202, 61 Stat. 500, as amended; 5 U. S. C. 22, 171a. Interpret or apply secs. 1, 3, 4, 55 Stat. 239, 240, as amended; sec. 6, 62 Stat. 609; 10 U. S. C. 297a, 299, 304, 304b, 50 U. S. C. App. 456.

DERIVATION: AFR 51-3, August 25, 1955.

§ 874.1 *General*—(a) *Purpose.* Sections 874.1 to 874.9 tell how to apply for flying training in either aviation cadet or noncommissioned officer grade.

(b) *Definitions*—(1) *Aviation cadet training program.* Includes all aircrew training courses whose graduates are awarded the aeronautical rating of pilot or aircraft observer and are tendered appointments as commissioned officers of the Air Force.

(2) *Airmen applicants.* Male enlisted personnel of the Air Force who are in the active military service of the United States and airmen of the Air Force Reserve who are assigned to Air Force Reserve Programs in Training Categories A, B–1, B–2, C, or D as outlined in §§ 861.1 to 861.14 of this chapter. All other airmen of the Air Force Reserve not serving on extended active duty may apply as civilian applicants.

(3) *Air National Guard applicant.* Enlisted personnel of the Air National Guard who apply for aviation cadet training under the separate Air National Guard quota.

(4) *Civilian applicants.* United States male citizens who are not in the active military service. The term "civilian" includes members of reserve components of armed forces, other than those Air Force Reserve Airmen defined in subparagraph (2) of this paragraph and airmen of the Air National Guard, who are neither in nor alerted for active military service.

(5) *"Tentatively qualified" applicant.* An applicant who has successfully completed the aviation cadet preliminary examinations.

(6) *"Fully qualified" applicant.* An applicant who has successfully completed all qualifying examinations and who has been furnished written notification of his eligibility to compete for selection by the Commander, Flying Training Air Force.

(7) *"Selected applicant".* A fully qualified applicant who has received written notice of his selection and class assignment.

(8) *Aviation cadet preliminary examination (medical).* A Class I or Class IA Medical Examination.

(9) *Aviation cadet preliminary test (written).* A written examination for the purpose of determining the tentative qualification of applicants who are otherwise eligible for aviation cadet training in accordance with paragraph (c) of this section.

(10) *Final qualifying examination.* A series of tests used for final qualification of aviation cadet applicants. Results of these tests determine aptitude for pilot and/or aircraft observer training as well as officer quality.

(11) *Aviation students.* Noncommissioned officers of the Air Force who attend the aviation cadet training program in their enlisted grades (E–5 through E–7). The eligibility requirements for training as an aviation student are the same as for aviation cadet training, except that applicants must be serving in a noncommissioned officer grade at the time of application. Aviation students undergoing aviation cadet training receive all pay and allowances of their respective grades; however, they receive identical training, quarters messing facilities, and treatment accorded aviation cadets. Aviation students successfully completing the flying training course will be commissioned Second Lieutenants, Reserve of the Air Force, in the same manner as are aviation cadets.

(12) *Student.* Unless otherwise specified herein, the term "student" used alone applies to both aviation cadets and aviation students.

(13) *Air Force Academy and Aircrew Examining Center.* An Air Force base, centrally located with respect to source of applicants and having facilities adequate for final examination of such applicants. The following bases have been designated as Air Force Academy and Aircrew Examining Centers:

(i) Barksdale AFB, Shreveport, Louisiana.
(ii) Bolling AFB, Washington, D. C.
(iii) Chanute AFB, Rantoul, Illinois.
(iv) Davis-Monthan AFB, Tucson, Arizona.
(v) Ellington AFB, Houston, Texas.
(vi) Ellsworth AFB, Rapid City, South Dakota.
(vii) Great Falls AFB, Great Falls, Montana.
(viii) Hill AFB, Ogden, Utah.
(ix) Keesler AFB, Biloxi, Mississippi.
(x) Langley AFB, Hampton, Virginia.
(xi) Lowry AFB, Denver, Colorado.
(xii) MacDill AFB, Tampa, Florida.
(xiii) McChord AFB, Tacoma, Washington.
(xiv) March AFB, Riverside, California.
(xv) Maxwell AFB, Montgomery, Alabama.
(xvi) Mitchel AFB, Hempstead, Long Island, New York.
(xvii) Moody AFB, Valdosta, Georgia.
(xviii) Offutt AFB, Omaha, Nebraska.
(xix) Olmsted AFB, Middletown, Pennsylvania.
(xx) Parks AFB, Pleasanton, California.
(xxi) Randolph AFB, San Antonio, Texas.
(xxii) Sampson AFB, Geneva, New York.
(xxiii) Scott AFB, Belleville, Illinois.
(xxiv) Selfridge AFB, Mt. Clemens, Michigan.
(xxv) Sewart AFB, Smyrna, Tennessee.
(xxvi) Shaw AFB, Sumter, South Carolina.
(xxvii) Sheppard AFB, Wichita Falls, Texas.
(xxviii) Tinker AFB, Oklahoma City, Oklahoma.
(xxix) Travis AFB, Fairfield, California.
(xxx) Walker AFB, Roswell, New Mexico.
(xxxi) Westover AFB, Chicopee Falls, Massachusetts.
(xxxii) Wright-Patterson AFB, Dayton, Ohio.
(xxxiii) Ramey AFB, Aquadilla, Puerto Rico.
(xxxiv) FEAMCOM Air Base, Tachikawa, Honshu, Japan.
(xxxv) Albrook AFB, Balboa, Canal Zone.
(xxxvi) Clark AFB, Luzon, Philippine Islands.
(xxxvii) Elmendorf AFB, Anchorage, Alaska.
(xxxviii) Ernest Harmon AFB, Stephenville, Newfoundland.
(xxxix) Hickam AFB, Honolulu, Oahu Island, T. H.
(xl) Third Air Force Hq, Victoria Park Estate, South Ruislip, Middlesex, England.
(xli) Weisbaden Air Base, Weisbaden, Germany.

§ 874.2 *Requirements*—(a) *Eligibility*—(1) *Age and citizenship.* Applicants must be United States male citizens between 19 and 26½ years of age at the time of application. Selected applicants must be enrolled in a specific flying training class prior to their 27th birthday. Applicants below age 21 must secure the written consent of parents or guardian in accordance with § 874.4.

(2) *Marital status.* Applicants must be unmarried at the time of application and must agree in writing to remain unmarried for the duration of the training program. Unmarried civilian applicants may have no more than one dependent unless eligible to enlist in grade E–4 or higher.

(3) *Base or residence.* (i) Civilian applicants must be residing at time of application, in the continental United States, Alaska, Hawaii, Puerto Rico, or the Panama Canal Zone.

(ii) Airmen may apply and undergo processing at any time unless prohibited under paragraph (d) of this section.

(4) *Educational qualifications.* The minimum educational requirement is high school graduate level. Civilian applicants must have completed high school as evidenced by a diploma or certificate of graduation. Airmen and prior service applicants not graduated from high school may apply if they have completed the entire battery of USAFI high school level GED tests with a minimum standard score of 35 on any one or with an average standard score of not less than 45 on all five tests as evidenced by a USAFI certificate. Documentary evidence of highest education level achieved will be required with application.

(5) *Eligibility for enlistment.* All applicants must be eligible to enlist or reenlist in the Air Force under the provisions of §§ 871.1 to 871.7 of this subchapter.

(6) *Moral character.* Applicants must be of good moral character and must possess other personal qualities desired in a commisisoned officer.

(7) *Medical standards.* All applicants must meet the medical standards for flying training as outlined in pertinent regulations. Waiver of sub-standard medical findings will not be granted.

(b) *Ineligibility.* The following persons are ineligible to apply for this training:

(1) An airman based within the continental United States who has been alerted for overseas assignment.

(2) An airman based in an overseas area who has been reported on rotation forecast for return to the zone of interior.

(3) A person not eligible for enlistment or reenlistment in the Air Force in accordance with §§ 871.1 to 871.7 of this subchapter.

(4) For pilot training, a person who holds or has held the aeronautical rating of pilot or comparable rating in any of the Armed Forces of the United States. (Army aviator is not comparable.) Such a person, if otherwise qualified, may apply for aircraft observer training.

(5) For aircraft observer training, a person who holds or has held the aeronautical rating of aircraft observer or comparable rating in any of the Armed Forces of the United States. Such a person, if otherwise qualified, may apply for pilot training.

(6) A person eliminated or disenrolled from a course of training leading to commissoned status conducted by any of the Armed Forces or servce academies of the United States unless recommended by the eliminating authority for further training leading to a commission.

(7) A person eliminated from a flying training course conducted by any of the Armed Forces of the United States unless recommended by the eliminating authority for further aircrew training.

(8) A person in the active military service of the United States other than the Air Force.

(9) A member of a Reserve Force of the United States who has been alerted for active military service with any of the Armed Forces other than the Air Force.

(10) A person currently enrolled in a training program conducted by any of the Armed Forces of the United States leading to commissioned status, unless his application is approved and further training is recommended by an authorized official of the parent service conducting the training.

(11) An airman who is enrolled in or selected for enrollment in a foreign language training course or a formal technical training course leading to the award of an Air Force Specialty Code or upgrading of skill level in Air Force Specialty Code. This restriction does not apply to airmen who will become over age for this training while enrolled in such a course.

(12) An airman who is undergoing court-martial proceedings.

(13) A person who is undergoing board action directed toward the resolution of information indicating that the applicant possess undesirable personal qualities, or a person concerning whom a personnel security clearance has been denied or revoked.

(14) A person who has a record of conviction by any type of court-martial or civilian court, other than for a minor traffic violation, except that, if appropriate, a request for waiver of a minor offense not considered prejudicial to the performance of duty as an officer may be sent to the Commander, Flying Training Air Force, Waco, Texas, for consideration in accordance with § 874.3. A waiver will not be granted for an offense that involves moral turpitude. Requests for waiver will not be submitted if moral turpitude is clearly evident.

(15) An airman who has pending an application for hardship discharge or who is under investigation for any type of offense.

(16) A person who is or ever has been:

(i) A conscientious objector.

(ii) Affiliated or sympathetic with an organization, movement, or group advocating a subversive policy or seeking to alter the Government of the United States by unconstitutional means or seeking to deny the constitutional rights of others unless or until the applicant has had a final determination favorable to him by Headquarters USAF in accordance with §§ 886.1 to 886.21 of this subchapter.

(17) A Selective Service Registrant who has been ordered to report for active military service with any of the Armed Forces other than the Air Force.

(18) Minor applicants (below age 21), without the written consent of parents or guardian.

(19) Applicants who have previously applied for aviation cadet training and who were disqualified or not selected, within a period of 1 year from the date of last written examination either preliminary or final.

§ 874.3 *Waivers of minor offenses.* (a) A civilian applicant may submit a request for waiver of a minor offense to any USAF recruiting detachment or station. An airman applicant may submit a request for waiver to his commander. Each request for waiver will contain complete information in regard to the offense and circumstances involved and will be considered on its own merits as substantiated by the following:

(1) Copy of court record if applicant has a record of conviction by any military or civilian court.

(2) Detailed statement by the applicant concerning the offense and circumstances involved.

(3) Any additional documentary evidence substantiating the applicant's statement or justifying the request, such as statements from other persons, records of outstanding achievements, awards, and so forth.

(b) Request for waiver will not be submitted until the applicant has been released from all restraint, probation, or parole for a minimum period of 6 months, or until 6 months has expired from date of conviction.

§ 874.4 *Application*—(a) *AF Form 56.* Application will be accomplished by completing AF Form 56 in duplicate. The applicant's attention will be directed to item V (B) of AF Form 56 whereby he agrees that, on completion of the training course, he will accept an appointment as a Reserve Officer of the Air Force for an indefinite term and will serve in the active military service as a commissioned officer for a period of 3 years after graduation unless sooner relieved by competent authority. In the case of a minor (below age 21 years) such agreement shall be signed with the consent of his parents or guardian. The signature of parents or guardian will be notarized by a notary public or other person authorized to perform notarial acts.

(b) *Content.* Each application will contain:

(1) Evidence of date of birth which may be in the form of a birth certificate, an authenticated copy thereof, or any other documentary evidence which is considered sufficient in establishing the applicant's date of birth.

(2) Evidence of citizenship, if the applicant is not a citizen by birth, in the form of a certificate, signed by an officer, notary public, or other person authorized by law to administer oaths, giving the following information:

I certify that I have this date seen the original certificate of naturalization number _____ (or certified copy of court order establishlishing citizenship) stating that _____ was
(Full name)
admitted to United States Citizenship by the _____ Court of _____
(District or County)
_____ on _____
(State) (Date)

The following person was named in the certificate as a minor child: _____; age _____

(3) Evidence of college work completed, where applicable, in the form of an official transcript of scholastic credits earned, a diploma, or statement signed by an official of the school in which the applicant matriculated.

(4) Evidence of having completed high school, where applicable, as evidenced by a diploma or certificate of graduation, or, if applicable, a certificate from the United States Armed Forces Institute indicating standard scores of not less than 35 on any one or an average standard score of not less than 45 on all five tests of the United States Armed Forces Institute high school level General Educational Development tests.

(5) A loyalty certificate: Each applicant will be required to complete DD Form 98, "Loyalty Certificate for Personnel of the Armed Forces." If, after proper instruction, the applicant fails to complete the certificate in its entirety or completes it with qualifications or makes entries thereon which provide reason to believe that his appointment would not be clearly consistent with interests of national security, the applicant will be requested to complete five copies of DD Form 398, "Statement of Personal History," and an FBI Applicant Fingerprint Card.

(6) Members of Reserve Forces of the United States will attach a statement indicating service number, military status at time of application, and Reserve assignment.

(7) Data Processing Control sheet, AF Form 338.

(c) *Applications from students enrolled in their senior year of college.* Applications from students enrolled in their senior year of college submitted within 135 days of scheduled graduation date will be processed as college graduate applicants. Applications from these persons will include a statement from the student attesting to the fact that he is enrolled in his senior year of college and giving the date he is scheduled to graduate.

§ 874.5 *Processing*—(a) *Preliminary*—(1) *All applicants.* All applicants, in order to qualify for aviation cadet training, must attain passing scores on all tests administered for the type training desired in addition to meeting the required medical standards. Applicants may apply for either pilot or aircraft observer training or for both programs indicating their preference. If an applicant who applies for both programs is found disqualified for the training of his first choice he will be automatically considered for his second choice. If an applicant declines to indicate a second choice but is found qualified for the alternate training, he may be considered for the alternate training, providing upon notification, he indicates his acceptance in writing or his application is changed accordingly and initialed by the applicant.

(2) *Civilians.* A civilian applicant will normally apply at a USAF Recruiting Station or Detachment. In remote areas

applicants may apply at the nearest Air Force base.

(3) *Airmen.* (i) Airmen will submit applications to their immediate commanders.

(ii) Airmen who have applications pending for aviation cadet or aviation student training will not be assigned to oversea shipments nor assigned to technical training schools.

(b) *Final*—(1) *General.* Each tentatively qualified applicant referred to an Air Force Academy and Aircrew Examining Center for final processing will be administered the Air Force Officer Qualifying Test, a complete medical examination for flying training as prescribed in pertinent regulations, and such other examinations as may be directed by Headquarters USAF. If, at any time during the processing, an applicant is determined to have a medical defect which is unquestionably disqualifying for both pilot and aircraft observer training, processing of that applicant will cease and disposition as a disqualified applicant will be made.

§ 874.6 *Information to be furnished applicants*—(a) *General.* Each applicant who successfully completes the final processing will, prior to his departure from the examining center, be advised that he is fully qualified, subject to administrative and medical review by the Commander, Flying Training Air Force. Selections will be based on the results of the examinations completed together with the overall qualifications of each applicant. Each applicant will be advised in writing of his status by the Commander, Flying Training Air Force, as soon as possible but not later than 4 weeks from receipt of application. Applicants who are not selected within a period of 1 year will be notified and their personal documents will be returned. If eligible, a nonselected applicant may reapply after 1 year has elapsed from the date of his last preliminary testing.

(b) *Qualified applicants*—(1) *Draft deferment for "selected" civilian applicants.* A draft-eligible civilian applicant who is subsequently notified of his acceptance for aviation cadet training will be furnished a 4-month draft deferment by the Commander, Flying Training Air Force. If an applicant is ordered to report to active military service by the Selective Service System before his deferment is issued or after his deferment expires his application for aviation cadet training will be canceled since such persons are not assigned for service with the Air Force. There are no provisions of law which authorize the transfer of military personnel between the separate military departments of the Department of Defense.

(2) *Medical status.* A report of medical examination (SF 88) must be accomplished within 90 days of the date of application for aviation cadet training. At time of entry into training, the report of medical examination must not be more than 1 year old. If the date of the report of medical examination has expired, the selected applicant will be required to undergo a second medical examination. Fully qualified civilian applicants will be instructed that the two copies of the completed SF 88 furnished them must be submitted to the enlisting agency.

(3) *Enlistment.* After notification of selection and class assignment, selected civilian applicants will be required to enlist in the Regular Air Force for a period of 2 years in the grade of basic airman (E–1) unless authorized under current enlistment directives to enlist in a higher grade. They will be appointed as aviation cadets upon arrival at the Air Force Pre-Flight Training School.

(4) *Changes affecting status of accepted applicants.* Applicants notified of their acceptance by the Commander, Flying Training Air Force, need not take any further action regarding their applications unless requested to do so. However, Flying Training Air Force must be informed of any changes which affect an applicant, such as:

(i) Enlistment in the Regular Air Force.

(ii) For airmen, advancement to noncommissioned officer grade which would permit assignment to training as an aviation student.

(iii) Change of address.

(iv) Modification of physical status which would be disqualifying for flying training.

(v) Change in marital status.

(vi) Change of desire for training.

(vii) Receipt of notification from the Selective Service System ordering the applicant into the active military service of the United States or alerting him for such service.

(viii) Receipt of orders to enter the active military service by a fully qualified applicant who is a member of a Reserve Force of the United States other than the Air Force.

(5) *College seniors applying as college graduates.* Applications of students enrolled in their senior year of college who apply for aviation cadet training within 135 days of their scheduled graduation date will be processed as other applicants and those found fully qualified will be advised to furnish, upon graduation, a copy of their college transcript to the Commander, Flying Training Air Force, in order that they may receive selection priority as college graduates. Immediately upon receipt of college transcript the Commander, Flying Training Air Force, will furnish the applicant with a tentative class assignment.

(c) *Disqualified applicants.* Disqualified applicants will be advised as soon as possible of the reason for disqualification. An applicant who fails to attain the minimum qualifying score on the Air Force Officer Qualifying Test will not be furnished information as to scores made on the tests but only that he failed to attain the minimum qualifying score. If disqualified because of failure to pass the Air Force Officer Qualifying Test, he may reapply for aviation cadet training 1 year from the date of disqualification provided he is otherwise qualified.

(d) *Reserve personnel*—(1) *Air Force.* Eligible Air Force Reserve personnel may apply and will be processed as outlined in § 874.5 (a) (3).

(2) *Other services.* Members of Reserve Forces, other than airmen of the Air Force Reserve as defined in paragraph (b) (2) of § 874.1, who are neither in nor alerted for active military service may apply for aviation cadet training and will be processed as civilian applicants. Those persons selected for training may be enlisted in the Regular Air Force in accordance with §§ 871.1 to 871.7 of this subchapter after notification of their selection. The policy in §§ 871.1 to 871.7 of this subchapter pertaining to enlistment of personnel of Reserve Forces other than the Air Force will apply.

§ 874.7 *Selection and assignment*—(a) *Selection of applicants.* Fully qualified and accepted applicants will be selected for training by the Commander, Flying Training Air Force, in the following order of priority:

(1) College graduates with baccalaureate degrees or higher.

(2) Persons having completed two or more years of college (60 semester hours or 90 quarter hours) but less than a baccalaureate degree.

(3) All others, based on results of examinations taken and by date of qualification.

(b) *Airmen in the active military service*—(1) *Reassignment.* Reassignment of airmen will be in grade held, on a permanent change of station basis. Selected applicants who applied for aviation cadet training while assigned to military units based in oversea areas will be returned to the zone of interior for aviation cadet training only after completing one-half of their oversea tour.

(2) *Extension of enlistment.* An airman of the Regular Air Force selected for aviation cadet training who does not have 16 months of service remaining in his current enlistment contract as of the class starting date will be required to extend his enlistment contract to include such period prior to departure from his unit of assignment. An airman of the Regular Air Force who has been notified in writing that he is "fully qualified" for aviation cadet training but who has not been selected for a specific training Class may, immediately following discharge upon normal expiration of term of service, be reenlisted for a period of 2 years pending assignment to a training class. In the event airman fails to complete the course of training, he may, upon request, be separated from the service in accordance with § 874.8 (a) (3).

(3) *Reserve airmen.* Reserve airmen selected for aviation cadet training will be discharged from their Reserve status upon enlisting in the Regular Air Force. Enlistment in the Regular Air Force will be for a period of 2 years.

(4) *Appointment.* On arrival at the Air Force Pre-Flight School the airman will be appointed an aviation cadet unless eligible to undergo flying training as an aviation student as defined in paragraph (b) (11) of § 874.1.

(c) *Civilian applicants.* The Commander, Flying Training Air Force, will furnish draft deferments (DD Form 44), letters of acceptance, and class assignments to fully qualified and selected applicants. Letters of acceptance will authorize selected applicants to enlist in the Regular Air Force for a period of 2 years. After enlisting, the selected applicant who has received class assignment instructions will be assigned to the Air Force Pre-Flight Training School. On arrival at the Pre-Flight Training School, he will be appointed an aviation cadet by the Commandant. An applicant who declines to accept appointment as an aviation cadet after enlisting for a 2-year period will be disposed of in the same manner as an eliminated cadet. However, such a person will be advised that he will not be considered at a future date for a direct commission in the Air Force or for training leading to a commission in the Air Force without prior approval of the Chief of Staff, USAF. In addition, he will be informed that since his enlistment was subsequent to June 19, 1951, he is obligated for an additional 6 years of Reserve service with the Air Force following the completion of his 2-year enlistment contract in the Regular Air Force. Upon completing the 2 years of service in the Regular Air Force, he will be processed under pertinent regulations for separation from active military service.

(d) *National agency check*—(1) *For selected airmen applicants.* Immediately upon determination that an airman applicant will be selected, the Commander, Flying Training Air Force, will request the airman's commander to initiate a National Agency Check for the applicant, if the applicant's records do not show a record of one having been accomplished or initiated.

(2) *For civilian applicants.* The Commandant, USAF Pre-Flight Training School will, when the applicant is appointed to the grade of aviation cadet, initiate a National Agency Check.

§ 874.8 *Termination and reassignment*—(a) *Termination of training*—(1) *Suspension.* When the faculty board of an Air Force school determines that an aviation cadet or aviation student is no longer qualified to continue in his course of training, the commandant or Air Force supervisor, as applicable, will suspend the student from training. Upon final approval of the faculty board proceedings, the commandant will terminate the student's appointment as an aviation cadet or status as an aviation student.

(2) *Grade.* In the case of aviation cadets eliminated from training, the commandant will appoint the eliminated student to the airman grade held immediately prior to appointment as an aviation cadet.

(3) *Discharge from the Air Force.* The commandant will afford an eliminated aviation cadet, whose current enlistment was specifically for aviation cadet training, and who, at the time of enlistment, had completed a tour of active service (6 months or more in duration) required by the Universal Military Training and Service Act, as amended, the opportunity to request discharge from the Air Force. The eliminated student must indicate in writing, at the time of elimination his desire either to complete his enlistment contract or to be immediately separated from the service. Should he elect to complete his enlistment contract, he will not be permitted to request separation from the Air Force at a later date because of his elimination. Eliminated students who request separation and who have remaining obligated service as outlined in §§ 864.31 to 864.43 of this chapter, will be transferred to the Air Force Reserve.

(b) *Student relieved from training*—(1) *Reassignment.* Eliminated or disqualified students, other than those separated from the service in accordance with paragraph (a) (3) of this section, will be reassigned as follows:

(i) Eliminees who reported to aviation cadet training from civilian status or from overseas commands, other than from units of Strategic Air Command or Military Air Transport Service, will be reassigned within Air Training Command.

(ii) Those who were previously assigned to overseas units of Strategic Air Command or Military Air Transport Service will be reported to the appropriate headquarters for reassignment to the airman's former command.

(iii) Those who were previously assigned to major air commands with station assignment within the zone of interior will be reported to the headquarters of that command for assignment.

(2) *Service credited.* Periods of service as an aviation cadet or aviation student will be credited as time spent in the airman grade held at time of appointment as an aviation cadet or designation as an aviation student and will be credited in computing the service remaining under the original enlistment contract.

(3) *Extended enlistments.* If applicable, the extension required by paragraph (b) (2) of § 874.7 will be canceled in accordance with §§ 871.1 to 871.7 of this subchapter.

(4) *Discharge.* If an airman is eliminated during the extension period, he will be separated from the service. Such an airman will be given time to reenlist as specified in current enlistment directives.

(c) *Reinstatement of former students*—(1) *Flying deficiency.* A student eliminated from training because of flying deficiency will not be considered for reinstatement into the same course of training. An application may be submitted for other flying training if the eliminated student is recommended by the eliminating authority and is otherwise qualified.

(2) *Academic deficiency.* Students eliminated from training because of academic deficiency will not be reinstated at a later date unless recommended for further officer training by the faculty board. They must also have substantially improved their educational qualifications and at least 1 year must elapse from the date of termination of student status before reapplication.

(3) *Military deficiency.* Students eliminated from training because of military deficiency will not be reinstated.

(4) *Medical.* Students eliminated from training because of substantiated medical disqualification may reapply, if a subsequent medical examination indicates that the previous disqualification has been corrected or no longer exists. However, the former student must meet all other requirements for appointment and must have been recommended for reinstatement by the eliminating authority.

(5) *Resignation.* A student who resigns from the training program will not be reinstated.

(6) *Emergency leave.* Under such regulations as may be issued by the Commander, Air Training Command, a student may be granted emergency leave in instances of a severe personal hardship. In such an instance, he will be held over for succeeding classes, if necessary. The length of time involved or the number of "hold overs" granted any one student will be determined by the Commander, Air Training Command.

(7) *Reinstated students.* The phase of training to which eligible students may be reinstated will be determined by the Commander, Flying Training Air Force.

§ 874.9 *Graduates*—(a) *Appointment as Reserve Officer of the Air Force*—(1) *Tendering appointment.* Students who successfully complete the prescribed basic flying training course and who are mentally, morally, and physically qualified will be tendered appointments as second lieutenant Reserve of the Air Force for an indefinite term. Each graduate, so appointed, will be ordered into active military service and will serve for a continuous period of 3 years from the date of graduation from basic flying training unless sooner relieved by orders of competent authority. Each graduate will be awarded the aeronautical rating appropriate to his training and concurrently will be ordered to participate in regular and frequent aerial flights.

(2) *Graduates who decline to accept appointment.* A graduate who declines to accept an appointment as a Reserve officer of the Air Force will be disposed of as an eliminted student. His appointment as an aviation cadet, or status as an aviation student, will be terminated as outlined in § 874.8 (a), and he will be reassigned within the Air Force in accordance with § 874.8 (b).

(b) *Discharge.* When commissioned in accordance with paragraph (a) of this section, the student will be discharged from his airman status. The commandant will prepare a discharge certificate and report of separation as of the day preceding the date of appointment as a commisioned officer. The discharge certificate and report of separation will not be delivered to the graduate until after the oath (AF Form 133) as commissioned officer has been administered.

[SEAL] E. E. TORO,
Colonel, U. S. Air Force,
Air Adjutant General.

PART 1220—CONTRACT DISPUTES AND APPEALS

Sec.
1220.1 Introduction.
1220.2 NACA Board of Contract Appeals.
1220.3 Action by contracting officer.
1220.4 Appeal by contractor.
1220.5 Preparation of appeal file.
1220.6 Proceedings of NACA Board of Contract Appeals.
1220.7 Final decision.
1220.8 Effective date.

AUTHORITY: §§ 1220.1 to 1220.8 issued under R. S. 161; 5 U. S. C. 22, interpret or apply 62 Stat. 21, as amended; 41 U. S. C. 151.

§ 1220.1 *Introduction*—(a) *Purpose.* The regulations in this part establish an NACA Board of Contract Appeals and prescribe administrative procedures for hearing, considering, and deciding disputes and appeals arising under NACA contracts.

(b) *Authority.* The Armed Services Procurement Act of 1947, 62 Stat. 21, as amended (41 U. S. C. 151), and NACA General Administrative Directive No. 1–49, May 19, 1949, vest in the NACA Executive Secretary authority to make final decisions on all appeals arising under the disputes clause of NACA contracts.

§ 1220.2 *NACA Board of Contract Appeals*—(a) *Establishment.* There is hereby established an NACA Board of Contract Appeals. The functions of this Board shall be to:

(1) Review appeals arising under NACA contracts.

(2) Conduct hearings, where necessary.

(3) Submit reports of findings and recommendations to the NACA Executive Secretary for his final decision.

(b) *Membership.* (1) The NACA Board of Contract Appeals shall consist of the NACA Legal Adviser, who shall be designated the permanent Board member, and at least two ad hoc members to be appointed by the NACA Executive Secretary.

(2) No person directly involved in the awarding or administration of the contract in dispute shall be appointed to the Board of Contract Appeals.

§ 1220.3 *Action by contracting officer.* NACA contracting officers shall follow the procedure outline in this section in resolving disputes on questions of fact arising under NACA contracts containing the standard disputes clause or similar provisions:

(a) *Statement of facts from contractor.* Whenever a dispute arises which is not disposed of by mutual agreement, the contracting officer shall request the contractor to furnish a full statement of the pertinent facts and the reasons in support of the contractor's contention, with a reference to the contract provisions relied upon in support of such contention.

(b) *Decision by contracting officer.* The contracting officer executing the contract shall in each instance decide the dispute and furnish directly to the contractor a statement in writing of his decision, together with his findings of fact. It is the responsibility of the contracting officer to exercise his own judgment in making his findings of fact and in reaching his decision.

§ 1220.4 *Appeal by contractor*—(a) *Notice of appeal.* An appeal from a finding of fact or decision of a contracting officer shall be made by notice of appeal in writing, addressed to the NACA Executive Secretary, and shall be mailed or filed with the contracting officer within the time allowed by the contract. The notice of appeal shall specify the portion of the findings of fact or decision from which the appeal is taken, the reasons why the findings or decision are deemed erroneous, and the relief sought by the appeal. A suggested form of notice of appeal is attached as Appendix A.[1]

(b) *Appeal brief.* A brief in support of the appeal may be submitted with the notice of appeal or within 30 days after the mailing or filing of such notice.

§ 1220.5 *Preparation of appeal file*—(a) *Documents to be filed by contracting officer.* Within 15 days after receipt of a notice of appeal, the contracting officer shall transmit the appeal file to the NACA Board of Contract Appeals. The appeal file shall consist of the notice of appeal and any supporting briefs, and copies of all pertinent documents, including the following:

(1) The findings of fact and the decision from which the appeal is taken,

(2) The invitation for bids, the contract, pertinent plans, specifications, and amendments, and

(3) Correspondence and other data material to the appeal.

§ 1220.6 *Proceedings of NACA Board of Contract Appeals*—(a) *Review and consideration of record.* The Board shall review and consider the record presented to it and shall take whatever action is necessary to insure a full and fair consideration of the case. A hearing will be held if requested by the contractor or determined by the Board to be necessary. Requests for a hearing shall be submitted with the notice of appeal or within 30 days thereafter.

(b) *Hearings.* (1) Hearings will be held at NACA Headquarters, Washington, D. C., unless the Board determines that the holding of the hearing elsewhere will best serve the interests of the parties concerned.

(2) Hearings shall be conducted in an orderly manner and in a serious, business-like atmosphere of dignity and decorum and shall be expedited as much as possible. Attendance shall be limited to persons officially concerned with the hearing, including representatives of the contractor and contracting officer and any witness while actually testifying. Testimony shall be given under oath or affirmation. Rules of evidence shall not be binding on the Board, but reasonable restrictions shall be imposed as to the relevancy, competency, and materiality of matters considered.

[1] Filed as part of the original document. Copies available upon request to NACA Board of Contract Appeals, National Advisory Committee for Aeronautics, 1512 H Street NW., Washington 25, D. C.

(3) The contractor and the contracting officer, or their representatives, may offer at a hearing such evidence or argument as they deem appropriate, subject to the exercise of reasonable discretion by the presiding officer as to the extent and manner of presenting such argument.

(4) Provision shall be made for an adequate record of the hearings. It shall be discretionary with the Board as to whether a summary record or verbatim transcript or recording will be made. A copy of the summary or transcript shall be furnished to the contractor.

(c) *Deliberations and findings of Board.* Deliberations of the Board shall be made in executive session. No record shall be made of such deliberations nor of the vote of a particular member unless such member desires to submit a minority opinion. The Board shall base its findings on the complete record. The finding of the Board shall be in writing, shall indicate whether reached by unanimous decision, and shall be signed by all members of the Board. The findings of the Board, together with the complete record of the case, shall be sent to the NACA Executive Secretary.

§ 1220.7 *Final decision.* The NACA Executive Secretary shall review the complete record of the case and shall render a final decision in writing, a copy of which shall be furnished to the contractor and the contracting officer.

§ 1220.8 *Effective date.* The regulations in this part shall be effective November 14, 1955.

Issued at Washington, D. C., November 14, 1955.

J. F. VICTORY,
Executive Secretary.

TITLE 43—PUBLIC LANDS: INTERIOR

Chapter I—Bureau of Land Management, Department of the Interior

Appendix—Public Land Orders

[Public Land Order 1252]

[Sacramento 048400]

CALIFORNIA

RESERVING PUBLIC LANDS IN CONNECTION WITH TOPAZ LAKE PUBLIC FISHING AREA.

By virtue of the authority vested in the President and pursuant to Executive Order No. 10355 of May 26, 1952, and the act of March 10, 1934, as amended by the act of August 14, 1946 (48 Stat. 401; 60 Stat. 1080; 16 U. S. C. 661–666c), it is ordered as follows:

Subject to valid existing rights, the following-described public lands in California are hereby withdrawn from all forms of appropriation under the public-land laws, including the mining but not the mineral-leasing laws, and reserved under the jurisdiction of the Department of the Interior for use of the Department of Fish and Game of the State of California in connection with the Topaz Lake Public Fishing Area, under such conditions as may be prescribed by the Secretary of the Interior: *Provided*, That the Bureau of Land Management, its permittees and licensees, shall have the use of the lands when trailing livestock and as may be needed to secure access to water for such livestock:

MOUNT DIABLO MERIDIAN

T. 9 N., R. 22 E.,
Sec. 2, W½NW¼, NW¼SW¼.
T. 10 N., R. 22 E.,
Sec. 34, SW¼NE¼, NW¼SE¼.

The areas described aggregate 200.40 acres.

This order shall be subject to existing withdrawals for reclamation purposes so far as they affect any of the above-described lands.

WESLEY A. D'EWART,
Assistant Secretary of the Interior.

NOVEMBER 15, 1955.

[F. R. Doc. 55–9305; Filed, Nov. 18, 1955; 8:45 a. m.]

[Public Land Order 1253]

[Fairbanks 012594]

[Misc. 1966031]

[Misc. 2119370]

ALASKA

PARTIALLY REVOKING PUBLIC LAND ORDER NO. 225 OF APRIL 21, 1944; WITHDRAWING PORTIONS OF RELEASED LANDS FOR VARIOUS PUBLIC PURPOSES

By virtue of the authority vested in the President by section 1 of the act of June 25, 1910 (36 Stat. 847; 43 U. S. C. 141) and sections 2380 and 2381 of the Revised Statutes (43 U. S. C. 711, 712) and otherwise, and pursuant to Executive Order No. 10355 of May 26, 1952, it is ordered as follows:

1. Public Land Order No. 225 of April 21, 1944, temporarily withdrawing lands in Alaska from settlement, location, sale, or entry, for classification, which was partially revoked by Public Land Order No. 537 of December 15, 1948, is hereby revoked so far as it affects the following-described lands:

BIRCH LAKE

Latitude 64°19′ N., longitude 146°40′ W.
All lands within one-half mile of Birch Lake, including all islands, embracing among other lands the following surveyed subdivisions:

FAIRBANKS MERIDIAN

T. 7 S., R. 5 E.,
Sec. 13;
Sec. 14, lots 2, 3, and NE¼;
Sec. 24; NW¼NE¼ and NE¼NW¼.

The areas described aggregate approximately 2,300 acres, including 1,888 acres of public land and 300 acres of non-public land.

Excepting, however, the following-described tract, which shall remain within the withdrawal created by Public Land Order No. 225:

FAIRBANKS MERIDIAN

T. 7 S., R. 5 E.,
Sec. 12, lots 7, 8, 10, and 11.

The tracts described contain 8.36 acres.

2. The following-described lands released from withdrawal are patented lands:

FAIRBANKS MERIDIAN

T. 7 S., R. 5 E.,
Sec. 12, lots 1, 2, and 9;
Sec. 13, lots 1, 2, 5, 6, and 7;
Sec. 14, lots 2, 3, S½NE¼.

The areas described aggregate 300.13 acres.

3. Subject to valid existing rights, the following-described public lands, which are a portion of the lands released from withdrawal by paragraph 1 of this order, are hereby withdrawn from all forms of appropriation under the public-land laws, including the mining and the mineral-leasing laws, and reserved as follows:

(a) For townsite purposes to be hereafter disposed of under applicable townsite laws:

FAIRBANKS MERIDIAN

T. 7 S., R. 5 E.,
Sec. 13, lots 3, 4, NE¼SE¼.

The tracts described contain 73.24 acres.

(b) Under the jurisdiction of the Department of the Interior for recreation and other public purposes:

FAIRBANKS MERIDIAN

T. 7 S., R. 6 E.,
Sec. 18, lots 1, 2, and 10.

The tracts described contain 36.37 acres.

4. The following-described lands released from withdrawal by this order, shall not become subject to the initiation of any rights or to any disposition under the public-land laws until it is so provided by an order of classification to be issued by an authorized officer, opening such lands to application under the Small Tract Act of June 1, 1938 (52 Stat. 609; 43 U. S. C. 682a) as amended, with a 91-day preference-right period for filing such applications by veterans of World War II, the Korean Conflict, and other qualified persons entitled to preference under the act of September 27, 1944 (58 Stat. 747; 43 U. S. C. 279–284) as amended:

FAIRBANKS MERIDIAN

T. 7 S., R. 6 E.,
Sec. 12, lots 3, 4, and 5.
T. 7 S., R. 6 E.,
Sec. 7, lots 1, 2, 3, 4, 5, NE¼NW¼.

The areas described aggregate 273.99 acres.

5. The SW¼NE¼SW¼SW¼ and the SE¼NW¼SW¼SW¼ (part of lot 5) sec. 12, T. 7 S., R. 5 E., containing 5 acres, are included in an application for withdrawal filed by the Territorial Department of Lands, Alaska (Fairbanks 012594), with respect to which lands, applications under the public-land laws will be suspended in accordance with 43 CFR 295.10 until action on the application for withdrawal has been taken.

6. The following public lands are restored to disposition under the public-land laws by this order:

FAIRBANKS MERIDIAN

T. 7 S., R. 5 E.,
Sec. 1, SE¼, E½SW¼, SW¼SW¼;
Sec. 11, E½NE¼, SE¼;
Sec. 12, W½NW¼, NE¼NW¼;
Sec. 13, S½SE¼, SE¼SW¼;
Sec. 14, N½NE¼;
Sec. 24, NW¼NE¼, NE¼NW¼.
T. 7 S., R. 6 E.,
Sec. 6, SW¼, SW¼SE¼, unsurveyed;
Sec. 7, NE¼, SE¼SW¼, W½SE¼, NE¼SE¼;
Sec. 18, lots 3, 4, 11, 12, 16, 17, S½SW¼SW¼NE¼, NW¼NE¼, NE¼NW¼, E½SW¼, NW¼SE¼.

The areas described aggregate 1,760.89 acres.

7. Subject to any valid existing rights and the requirements of applicable law, the surveyed public lands described in paragraphs 5 and 6 hereof are hereby opened to filing of applications, selections, and locations in accordance with the following:

a. Applications and selections under the nonmineral public-land laws may be presented to the Manager mentioned below, beginning on the date of this order. Such applications and selections will be considered as filed on the hour and respective dates shown for the various classes enumerated in the following paragraphs:

(1) Applications by persons having prior existing valid settlement rights, preference rights conferred by existing laws, or equitable claims subject to allowance and confirmation will be adjudicated on the facts presented in support of each claim or right. All applications presented by persons other than those referred to in this paragraph will be subject to the applications and claims mentioned in this paragraph.

(2) All valid applications under the Homestead, Alaska Home Site, and Small Tract Laws by qualified veterans of World War II or of the Korean Conflict, and by others entitled to preference rights under the act of September 27, 1944 (58 Stat. 747; 43 U. S. C. 279–284 as amended), presented prior to 10:00 a. m. on December 21, 1955, will be considered as simultaneously filed at that hour. Rights under such preference right applications filed after that hour and before 10:00 a. m. on March 21, 1956, will be governed by the time of filing.

8. Subject to any valid existing rights and the requirements of applicable law, the unsurveyed public lands released from withdrawal by paragraph 6 of this order, are hereby opened to filing of applications, selections, and locations as are allowable on unsurveyed lands in accordance with the following:

a. Subject to the applications and claims described in paragraph b (1) below, the lands beginning 10:00 a. m. on December 21, 1955, will be subject to settlement under the Homestead and Alaska Home Site Laws by qualified veterans of World War II or of the Korean Conflict, and by others entitled to preference rights under the act of September 27, 1944 (58 Stat. 747; 43 U. S. C. 279–284 as amended). Beginning 10:00 a. m. on March 21, 1956, any remaining lands will be subject to settlement under those laws by other qualified persons.

b. Applications and selections under the nonmineral public-land laws may be presented to the Manager mentioned below, beginning on the date of this order. Such applications and selections will be considered as filed on the hour and respective dates shown for the various classes enumerated in the following paragraphs:

(1) Applications by persons having preference rights conferred by existing laws or equitable claims subject to allowance and confirmation will be adjudicated on the facts presented in support of each claim or right. All applications presented by persons other than those referred to in this paragraph will be subject to the applications and claims mentioned in this paragraph.

(2) All valid applications under the Small Tract Laws by qualified veterans of World War II or of the Korean Conflict, and by others entitled to preference rights under the act of September 27, 1944 (58 Stat. 747; 43 U. S. C. 279–284 as amended), presented prior to 10:00 a. m. on December 21, 1955, will be considered as simultaneously filed at that hour. Rights under such preference right applications after that hour and before 10:00 a. m. on March 21, 1956, will be governed by the time of filing.

9. All valid applications and selections under the non-mineral public-land laws, other than those coming under paragraphs 7 (a) (1) and (2) and 8 (b) (1) and (2) above, presented prior to 10:00 a. m. on March 21, 1956, will be considered as simultaneously filed at that hour. Rights under such applications and selections filed after that hour will be governed by the time of filing.

10. The lands have been open to applications and offers under the mineral-leasing laws and to location for metalliferous minerals. They will be open to location for non-metalliferous minerals under the United States mining laws beginning at 10:00 a. m. on March 21, 1956.

11. Persons claiming veterans preference rights under paragraphs 7 (a) (2) and 8 (b) (2) above must enclose with their applications proper evidence of military or naval service, preferably a complete photostatic copy of the certificate of honorable discharge. Persons claiming preference rights based upon valid settlement, statutory preference, or equitable claims must enclose properly corroborated statements in support of their applications, setting forth all facts relevant to their claims. Detailed rules and regulations governing applications which may be filed pursuant to this notice can be found in Title 43 of the Code of Federal Regulations.

Inquiries concerning the lands shall be addressed to the Manager, Land Office, Bureau of Land Management, Fairbanks, Alaska.

WESLEY A. D'EWART,
Assistant Secretary of the Interior.

PROPOSED RULE MAKING

DEPARTMENT OF THE TREASURY

Internal Revenue Service

[27 CFR Part 5]

ALCOHOL AND TOBACCO TAX DIVISION; LABELING AND ADVERTISING OF DISTILLED SPIRITS

NOTICE OF HEARING

Notice is hereby given, pursuant to the provisions of section 5 of the Federal Alcohol Administration Act (49 Stat. 981 as amended; 27 U. S. C. 205), of a public hearing to be held on December 1, 1955, at 10 a. m., at Room 3303, Internal Revenue Building, Washington, D. C., at which time and place all interested parties will be afforded opportunity to be heard, in person or by authorized representative, with reference to the proposal, the substance of which is stated below, to amend Regulations No. 5 (27 CFR Part 5), relating to labeling and advertising of distilled spirits.

Written data, views or arguments relevant and material to this proposal may be submitted in duplicate for incorporation into the record of hearing (1) by mailing the same to the Director, Alcohol and Tobacco Tax Division, Internal Revenue Service, Washington 25, D. C., provided that they are received prior to the termination of the hearing, or (2) by presenting the same at the said hearing. At the conclusion of the hearing a reasonable opportunity will be afforded interested parties for examination of the record and for the submission of briefs.

Substance of proposal: To amend section 21, class 4 (27 CFR 5.21 (d)) and other pertinent sections of the regulations to require a grape distillate, produced in the United States or imported and not aged for at least 2 years, to be designated as "wine spirits", "grape distillate", "immature brandy", "young brandy", "substandard brandy", "brandy ____ years and/or months old", or some similar designation, with or without such further statement of composition as may be required; or, in the alternative, to amend section 21, class 4 (27 CFR 5.21 (d)) and other pertinent sections of the regulations to authorize the use of the designation "aged brandy" and/or "mature brandy", or some other designation or device to indicate that the product has been matured, on labels and in advertising in the case of grape brandy aged for not less 2 years, and to prohibit the use of these designations on labels and in advertising in the case of brandy aged for less than 2 years.

[SEAL] DWIGHT E. AVIS,
Director, Alcohol and Tobacco Tax Division, Internal Revenue Service.

DEPARTMENT OF AGRICULTURE

Agricultural Marketing Service

[7 CFR Part 903]

[Docket No. AO 10-A19]

HANDLING OF MILK IN ST. LOUIS, MO., MARKETING AREA

NOTICE OF RECOMMENDED DECISION AND OPPORTUNITY TO FILE WRITTEN EXCEPTIONS WITH RESPECT TO PROPOSED AMENDMENTS TO TENTATIVE MARKETING AGREEMENT AND TO ORDER, AS AMENDED

Pursuant to the provisions of the Agricultural Marketing Agreement Act of 1937, as amended (7 U. S. C. 601 et seq.), and the applicable rules of practice and procedure, as amended, governing the formulation of marketing agreements and marketing orders (7 CFR Part 900), notice is hereby given of the filing with the Hearing Clerk of the recommended decision of the Deputy Administrator, Agricultural Marketing Service, United States Department of Agriculture, with respect to proposals to amend the tentative marketing agreement and the order, as amended, regulating the handling of milk in the St. Louis, Missouri, marketing area. Interested parties may file written exceptions to this decision with the Hearing Clerk, United States Department of Agriculture, Washington 25, D. C., not later than the close of business the 3rd day after publication of this decision in the FEDERAL REGISTER. Exceptions should be filed in quadruplicate.

Preliminary statement. The hearing, on the record of which the proposed amendment to the tentative marketing agreement and to the order, as amended, was formulated, was held at St. Louis, Missouri, on October 25, 1955, pursuant to notice thereof which was issued October 19, 1955 (20 F. R. 7967).

The sole material issue of the hearing related to the pricing of Class I milk.

Findings and conclusions. Based upon the evidence presented at the hearing and the record thereof it is found and concluded that:

1. No change should be made in the Class I price differential on the basis of this record; adjustment of the Class I price on the basis of the ratio of receipts from producers to Class I sales should be modified to reflect a combination of changes in recent months with the 12-month average utilization, and through August 1956 an increased rate of adjustment for such changes should be provided.

The Class I price of the St. Louis order is determined by adding to a basic formula price 70 cents for April through June, $1.45 for September through November, and $1.15 for other months, adjusted on the basis of the extent to which the ratio of producers' receipts to Class I sales in a recent 12-month period varies from 125 percent. The rate of adjustment per percentage point of such variation is 1 cent for April through June, 3 cents for September through November and 2 cents for all other months.

Producers proposed that the differentials added to the basic formula price be increased. One cooperative association proposed that the present $0.70, $1.15 and $1.45 be increased to $0.90, $1.40, and $1.70, respectively. Two other associations proposed that these differentials be $0.90, $1.60, and $1.90.

During the past year Class I sales in the St. Louis market have increased more rapidly than have receipts of milk from producers. For September 1955 Class I sales exceeded those of September 1954 by 5.1 percent while producer receipts had increased only 2.35 percent over those of a year earlier. September 1955 production represented 100.3 percent of Class I sales for that month. For each of the first nine months of 1955 except July comparison with the same month a year earlier shows that sales have increased substantially more than has production. As a result, for the 12 months ending with September 1955 producer receipts are 121.3 percent of Class I sales, whereas for the 12 months ending with September 1954 this ratio was 125.4 percent. Since this 12-month ratio is the factor used in adjusting the Class I price, a 12-cent increase is in effect for November 1955, based on the 121.3 ratio for the period through September. Upward adjustments ranging from 2 cents to 9 cents have occurred each month from February through October.

Effective in January 1956, the city of St. Louis will require that milk be delivered to plants at a temperature of 50 degrees Fahrenheit. The present temperature requirement at time of delivery is 70 degrees. Numerous producers testified to the effect that meeting the temperature requirements soon to become effective would require substantial additional investment in refrigeration equipment. It is claimed that a substantial proportion of producers on the St. Louis market do not have sufficient cooler capacity to refrigerate all of their milk at the same time, so that the current practice is to remove the nights' milk from the cooler in order to cool the mornings' milk. Present temperature requirements can be met by this system but continuous refrigeration will be required to meet the lower 50 degree delivery requirement.

Truck refrigeration may be required to maintain temperatures while milk is enroute from farms to plants. Much of the St. Louis milk supply is collected on stub routes from which cans are transferred to larger trucks for movement to the city. Increased hauling costs to producers were predicted as a result of the investments that will be required of milk haulers.

Proponents of increased differential contend that the necessity for additional capital investment by a large percentage of producers supplying the market at a time when sales are increasing faster than production creates a situation requiring a substantial price increase. They claim that many producers without adequate cooling capacity will not add the necessary equipment under present pricing provisions but will either (1) seek other markets with less stringent requirements, (2) reduce production to the cooling capacity of their present equipment or (3) discontinue production. A number of secondary markets in the Illinois portion of the milkshed which have not heretofore required Grade A milk will require such milk in the near future under the terms of a recently enacted State law; temperature requirements for such markets will not, however, be as low as 50 degrees. Some St. Louis producers could sell Grade A milk to Illinois plants without the additional investment necessary for them to continue delivery to St. Louis.

The extent to which the St. Louis milk supply will be affected by this situation cannot be determined, however, from this record; neither can the amount or duration of price change necessary to maintain the supply at an adequate level. The extent and duration of price change should be determined by the changes that occur in the relationship of supply to sales. It is evident, however, that price changes brought about by the present supply-demand adjuster of the order occur much more slowly than changes in supply-sales relationships. With respect to the increased temperature requirements of the St. Louis ordinance, it is to be expected that the maximum impact on the volume of milk supply will be within a short period of the effective date of enforcement. This impact will not, however, be reflected to any substantial extent in the 12-month relationship until considerable time after it has occurred. An adjustment more responsive to current conditions should be employed.

Supply-demand adjustments most responsive to current conditions base price adjustments on the supply-sales ratio in recent months, usually the two most recent months for which data are available when the price is to be announced. However, no proposal to use such a basis of adjustment was made at the hearing. Such adjustment devices require determination of a normal relationship for each month of the year. While the record shows the actual relationships that have occurred each month for several years, it fails to show the factors which might have caused them to vary from the normal pattern from time to time.

Some additional responsiveness to current conditions can be provided by adjusting the 12-month mover now provided in the order so as to give more significant effect to changes in recent months. A proposal was made at the hearing to use the amount of change in the 12-month supply-demand ratio in recent months as an additional basis for price adjustment. Under this proposal the 12-month ratio would be adjusted by the amount that it had changed within the most recent three-month period. The adjusted ratio so computed would be compared with the 125 percent standard of the order to determine the amount of price change.

Such a provision would, in effect, give recognition to the amount by which utilization in the three most recent months included in the 12-month average has changed from that in the same three months a year previous. By giving added weight to supply relationships in this recent period the responsiveness of the adjuster to current conditions will be substantially enhanced. As indicated in previous decisions and testimony in this record, alignment of the St. Louis Class I price with that of the Chicago market is necessary because of the considerable volumes of milk that move from Chicago to St. Louis. The supply-demand adjustment of the Chicago order now contains a provision similar to that proposed at the hearing. Adoption of such a provision in the St. Louis order will tend to restore and preserve the alignment of prices between the two markets.

For the period through August 1956 an increase in the rate of adjustment should be made so that more substantial price adjustments will result during the initial period of effectiveness of the increased temperature requirements. While normal seasonal increases in production may be expected to prevent any shortage of supply for Class I needs in the coming spring and early summer months, it is important that production be maintained at a level that will not result in a serious shortage of supply in the fall months of 1956. An increase in the rate of adjustment of from 1 cent to 4 cents per percentage point of variation for months of April through June 1956, and from 2 cents to 5 cents for other months through August 1956 will provide wider price changes in response to changes in supply-sales relationships. Such price changes appear appropriate for this period in view of the likelihood that at this time need for long term capital investments may influence producers' decisions to a greater than normal extent.

Rulings on proposed findings and conclusions. Written arguments and proposed findings and conclusions submitted

on behalf of interested persons concerning issues on which decision is herein recommended were considered, along with the evidence in the record, in making the findings and reaching the conclusions herein set forth. To the extent that the proposed findings and conclusions differ from the findings and conclusions contained herein, the specific or implied requests to make such findings are denied because of the reasons stated in support of the findings and conclusions in this decision.

General findings. (a) The proposed marketing agreement and the order, as amended, and as hereby proposed to be further amended, and all of the terms and conditions thereof, will tend to effectuate the declared policy of the act;

(b) The parity prices of milk as determined pursuant to section 2 of the act are not reasonable in view of the price of feeds, available supplies of feeds and other economic conditions which affect market supply of and demand for milk in the marketing area, and the minimum prices specified in the proposed marketing agreement and the order, as amended, and as hereby proposed to be further amended, are such prices as will reflect the aforesaid factors, insure a sufficient quantity of pure and wholesome milk and be in the public interest; and

(c) The proposed order, as amended, and as hereby proposed to be further amended, will regulate the handling of milk in the same manner as, and will be applicable only to persons in the respective classes of industrial and commercial activity specified in a marketing agreement upon which a hearing has been held.

Recommended marketing agreement and order, amending the order, as amended. The following amended order is recommended as the detailed and appropriate means by which the foregoing conclusions may be carried out. The recommended marketing agreement is not included in this decision because the regulatory provisions thereof would be identical with those contained in the amended order.

1. Add to § 903.51 (a) (2) the following proviso: "*Provided,* That for the months of April 1956 through June 1956, such rate shall be 4 cents, and for all other months from the effective date hereof through August 1956 such rate shall be 5 cents."

2. Amend § 903.51 (a) (3) to read as follows:

(3) For each month calculate a utilization percentage by (i) dividing the net pounds of Class I milk disposed of from all pool plants (except non-Grade A milk disposed of outside the marketing area and allocated to other source milk) plus the Class I milk disposed of in the marketing area from nonpool plants, all for the 12-month period ending with the beginning of the preceding month, into the total pounds of producer milk during such 12-month period, (ii) multiplying by 100, (iii) adding or subtracting, respectively, any amount by which such result is greater or less than the comparable result as computed for the third month preceding, and (iv) rounding the resultant figure to the nearest whole percent.

Filed at Washington, D. C., this 18th day of November 1955.

[7 CFR Part 913]

[Docket No. AO-23-A15]

HANDLING OF MILK IN GREATER KANSAS CITY MARKETING AREA

NOTICE OF RECOMMENDED DECISION AND OPPORTUNITY TO FILE WRITTEN EXCEPTIONS THERETO WITH RESPECT TO PROPOSED MARKETING AGREEMENT AND PROPOSED AMENDMENTS TO ORDER, AS AMENDED

Pursuant to the provisions of the Agricultural Marketing Agreement Act of 1937, as amended (7 U. S. C. 601 et seq.), hereinafter referred to as the act, and the applicable rules of practice and procedure, as amended, governing proceedings to formulate marketing agreements and marketing orders (7 CFR Part 900), notice is hereby given of the filing with the Hearing Clerk of the recommended decision of the Deputy Administrator, Agricultural Marketing Service, United States Department of Agriculture, with respect to a proposed marketing agreement and proposed amendments to the order, as amended, regulating the handling of milk in the Greater Kansas City marketing area.

Interested parties may file written exceptions to the decision with the Hearing Clerk, United States Department of Agriculture, Washington 25, D. C., not later than the close of business on the 10th day after publication of this decision in the FEDERAL REGISTER. Exceptions should be filed in quadruplicate.

Preliminary statement. The hearing on the record of which the proposed marketing agreement and order were formulated was conducted at Kansas City, Missouri, on September 7–8, 1955, pursuant to notice thereof which was issued on August 16, 1955 (20 F. R. 6052).

The material issues of the hearing related to:

(1) Extension of the marketing area;

(2) Pool plant qualifiactions;

(3) Obligations of handlers operating nonpool plants;

(4) Extension of the surplus disposal area; and

(5) Location adjustments to producers and handlers.

Findings and conclusions. The following findings and conclusions are based on the evidence received at the hearing and the record thereof:

1. *Marketing area.* The marketing area should be expanded by the addition of a portion of Carroll Township, Platte County, Missouri. This addition should not, however, include the town of Platte City.

The Greater Kansas City marketing area presently includes four townships in Platte County, Missouri, that are located close to the corporate limits of Kansas City, Missouri, and directly north (across the Missouri River) from Kansas City, Kansas. It was proposed that the northern boundary of the marketing area in Platte County be State Highway 92, which presently constitutes most of the northern boundary of the marketing area as it extends eastward in Clay County, Missouri. It was also proposed that all of Platte City, through which State Highway 92 passes, be included. The proposed boundary lies 2 to 5 miles north of the present boundary.

The city of Kansas City, Missouri, has purchased a tract of 4,590 acres of land in Platte County and is constructing on it the Mid-Continent International Airport. This tract of land lies partly within and partly beyond the present marketing area. Contracts totaling 26.5 million dollars have been awarded for construction to be completed by mid-1956. Additional expenditures of approximately 20 million dollars are proposed. One facility now under construction is expected to employ 4,000 persons at the start of operations and 10,000 persons ultimately. Certain of these operations are presently performed at the Kansas City Municipal Airport in the marketing area.

Kansas City producers and handlers consider this development to be a part of the economic life of Kansas City and that the potential milk sales outlets to be created in this area by municipal action should be subject to the same rules as prevail in the territory now included in the marketing area. They predict that employment opportunities at this point, approximately 15 miles from the center of Kansas City, will stimulate residential development in a continuous area extending from Kansas City to points beyond the airport.

Present milk sales in the additional area proposed for consideration at the hearing are almost entirely in Platte City, for which present population is estimated to be approximately 900 people. Three Kansas City handlers and two handlers from St. Joseph, Missouri, now sell milk in Platte City. The volume of sales claimed by Kansas City handlers appeared to be about equal to that claimed by St. Joseph handlers. In no case does the present volume of sales represent any significant proportion of any handler's total business. The plants of St. Joseph handlers would not qualify as pool plants on the basis of present distribution in the area proposed and these handlers would therefore be regulated under the provisions applicable to operators of nonpool plants discussed elsewhere in this decision if the hearing notice proposal on marketing area should be adopted and present sales volumes continued.

It is concluded that the major part of the area proposed should be included in the marketing area because of the close association of Kansas City interests with the airport and the development in progress there. Increased importance of Platte City as a market for milk appears to depend largely upon speculation as to the trend and direction of housing development that may be stimulated by the airport. It is therefore concluded that expansion of the marketing area to include Platte City should not be made on the basis of this record. The record fails to show that competition between Kansas City and St. Joseph for the present volume of sales in Platte City has created any marketing problems.

2. *Pool plant qualifications.* The standards which determine the plants that participate in the marketwide pool should be revised.

The Kansas City order presently provides three standards by which plants approved by health authorities may qualify their receipts for inclusion in the marketwide pool of the order:

(1) Route operating plants, which qualify by disposing of 15 percent or more of their receipts as Class I milk in the marketing area;

(2) Supply plants, which qualify for current status in September through February by shipping 30 percent or more of their receipts to route operating pool plants and may retain pool plant status in March through August following by being a pool plant in each of such earlier months;

(3) Cooperative plants, for which no plant performance standards apply, but the association operating the plant must supply three-fourths or more of its member milk direct to the pool plants of other handlers.

Where the same handler operates more than one plant, aggregate performance determines the pool plant status of all plants of the multiple plant operation.

It was proposed that route operating plants should be required to dispose of 20 to 25 percent (seasonally varied) of their receipts on routes in the marketing area and that as a further requirement total Class I sales, both within and without the marketing area, should be not less than 30–45 percent (also varied seasonally) of such receipts. It was further proposed to delete the present provision for supply plants.

Additional specification should be included in the route operating plant definition. A route operating plant which confines its distribution to the marketing area need have Class I disposition for only 15 percent of its receipts. A plant with such a small proportion of its business as Class I milk is not primarily engaged in the distribution of fluid milk and accordingly should not be considered to be a route operating plant. It is concluded that a requirement with respect to total Class I use should be added to the present requirement with respect to Class I sales in the marketing area, and that the latter requirement should be increased from 15 to 20 percent of receipts.

Typically, a route operating plant has a substantial proportion of its receipts used as Class I milk each month. In many markets, all route operating plants maintain Class I utilizations of greater than 50 percent of their receipts from producers, and a provision is included in many orders specifying that such a plant shall be one which, among other things, maintains a Class I utilization each month of 50 percent or more of its receipts of producer milk. In this market, Class I utilization in some plants is normally somewhat lower than 50 percent. Certain producers proposed at the hearing that route operating plants be defined as those which, among other things, have Class I utilizations of 30 percent for four spring months, 40 percent for December, January, and February, and 45 percent for all other months. Such a definition would appear to meet the particular operations of the Kansas City market. However, a specification of Class I usage of 30 percent in the four spring months and 40 percent in all other months will accomplish the same objective but with less complication and such a provision should be adopted.

In addition to these requirements with respect to total Class I disposition, the order should continue to require substantial Class I disposition in the marketing area as identification with the trade of the area. Seasonal variation of this requirement does not appear necessary if such variation is provided in the total Class I percentage required. Disposition of 20 percent of a plant's receipts on routes in the marketing area will provide adequate identification with the trade of the area. A route operating plant having more than 80 percent of its business outside the marketing area or in other outlets should not be considered as being an essential part of the marketing area supply.

A plant which has met such pool plant requirements in any month should continue to be a pool plant in the following month. Such a provision will promote stability by limiting frequent changes from pool to nonpool status with consequent uncertainty concerning the extent of regulation from one month to the next.

In connection with pool plant determination when milk is transferred between approved plants in packaged form credit, as route sales in the marketing area, should be attributed to the plant at which the milk is packaged. In the Kansas City market the packaging plant normally arranges for the milk supply and must carry the reserve milk supply required for such sales.

The proposal to delete any provision whereby an independently operated supply plant may qualify as a pool plant should not be adopted. There are presently four receiving plants in the Kansas City market. Two handlers each operate two such plants as the principal sources of supply for their route operating plants, and these plants are, consequently, pooled as parts of multiple plant operations which qualify under the percentages applicable to route operating plants. Since no independently operated supply plants have operated in the Kansas City market it was contended that no provision for such plants need be retained in the order. Nevertheless, some provision should be in the order in the event such a plant should enter the market.

In view of the increased requirements herein adopted for route operating plants, it is appropriate that the shipping requirement for supply plants be increased from 30 to 50 percent of receipts in the short season and that six-month short season compliance be retained as a qualification for retention in the pool in the six spring and summer months. The specific months have been changed slightly to conform to changes in the seasonal pattern of use recognized in other features of the order. While there was testimony in the record to the effect that credit for shipments should be restricted to those needed for Class I use, the matter was not sufficiently developed to provide a basis for action. Bulk receipts from other plants are included in the base on which route operating plants percentages are computed. This will deter to some extent movements made without regard to need.

3. *Obligations of nonpool handlers.* The Kansas City order presently requires that a handler who disposes of Class I milk on routes in the marketing area from a plant which is approved, but nonpool, shall pay into the pool the difference between the Class I and Class II values of all milk so disposed of. No handler has operated in such a manner as to be subject to this provision since its inclusion in the order in 1951. As indicated elsewhere in the decision, under the expansion of the marketing area originally proposed two handlers from St. Joseph, Missouri, would have been subject to this provision if they maintained their present distribution. The proposal to increase requirements for pool plant participation makes it more likely that the provision will become effective. While this decision with respect to each of these issues would not cause any handler who maintains present distribution and relative receipts and sales volumes to be affected by the provision, the record clearly indicates increased probability of such a situation.

In opposing extension of the marketing area St. Joseph handlers contended that the present provisions would place them at a prohibitive competitive disadvantage with respect to sales in the marketing area. These handlers and the manager of the cooperative association with which they have arrangements for their milk supply claim that they buy milk from the association on a classified price plan which uses the Kansas City order classification and prices, except for a Class I price adjustment of 15 cents as compared to the 16-cent location adjustment which would apply under the present order. The record indicates some exceptions to this pricing scheme and indicates that the lack of systematic audits may result in the classified price plan not being fully effective at all times. Nevertheless, it is clear that it cannot be assumed that in the Kansas City area a continuing supply of milk of quality suitable for the day-to-day distribution associated with route operations will be available under all circumstances to a nonpool handler at the Class II price.

The nonpool handler must presently report to the market administrator his receipts and utilization of milk in order that his status and pool obligations may be determined. The payments he makes to dairy farmers for milk approved for fluid use are also ascertainable. The amount, if any, by which the sum of these payments is less than the pool obligation that would be computed under

full regulation, represents the maximum payment necessary to prevent any competitive advantage to the nonpool handler. It is concluded that the payment required of nonpool handlers should be the lesser of the amount so computed or that presently required. Retention of the present payment provision as a ceiling to that determined by comparison of payments for milk with its use value at order prices will provide adequate protection to the pool. In addition the nonpool handler should pay administrative costs of the order on the same basis as pool handlers. Determination of payments in relation to use value will entail complete audits by the market administrator.

The provisions herein adopted will afford necessary protection to the regulatory plan and will recognize the payments that nonpool handlers make through choice or for competitive reasons to dairy farmers supplying milk qualified for fluid use.

4. *Surplus disposal area.* The area within which milk and skim milk may be moved to nonpool plants for Class II use should be enlarged. This area is presently 150 highway miles from the approved plant at which the milk is received (or from which it is diverted). Handlers proposed that this distance be 200 miles in order that certain additional manufacturing plants might be within the defined area. The record shows the desirability of measurement of distance from a common central point so that a common surplus area is available to all handlers. For this purpose a distance of 250 miles from the City Hall in Kansas City, Missouri, is appropriate.

5. *Location adjustments.* No changes should be made on the basis of this record with respect to location adjustments to producers or to handlers.

The Kansas City order presently provides that 16 cents per hundredweight may be deducted from the uniform prices to be paid producers delivering their milk to plants located from 50 to 70 miles from the City Hall in Kansas City, Missouri. A credit of 16 cents is given handlers on milk received at such plants and used as Class I milk; other rates are provided for plants more than 70 miles from the City Hall but the only plants presently affected are in the 16-cent zone.

A producer organization proposed that the producer location adjustment apply only on Class I milk, thus being restricted in total amount to the credit received by the handler at the same plant. Nearly all the members of this organization deliver their milk to a plant in the 55–70 mile zone. The location adjustment to producers is intended to measure the advantage the producer receives in being able to deliver his milk at a point nearer his farm than is the marketing area. Under the marketwide pooling of the Greater Kansas City order all producers wherever situated share equally in the Class I sale of the market. The proposal would seek to adjust the prices reflecting this equal sharing by an amount that would vary with the Class I utilization of a single plant. Furthermore, the proposal would result in producers who deliver to country plants receiving the least money in relation to other producers at the time at which there was the greatest need for their milk, and vice versa. For these reasons the proposal should be denied.

A handler proposal would substitute air miles for highway miles as the basis of measurement and provide adjustments only beyond 55 air miles. The purpose of these proposals was to remove one plant from the area to which adjustments apply without affecting the status of another plant in another part of the milkshed. At the first plant the handler currently is paying producers without deducting the location adjustment. It was testified that competition of the Topeka market (for which the Class I price is the same as Kansas City) required payment of this 16-cent premium at this location. By deleting provision for adjustments, the handler hoped to transfer to the pool the cost of this premium with respect to his Class II milk at this plant. While location adjustments to handlers apply equally in all directions in order to equalize the minimum costs that handlers operating distant plants are required to incur in comparison with those who receive milk at plants in the marketing area, it is not expected that competitive conditions are identical in all areas of a milk shed. When competition from other markets is of a nature to affect the adequacy of the market supply, examination of the Class I price structure may be warranted. Otherwise, it is to be expected that the milk supply of the market will develop in these areas in which the price proves most attractive to producers in comparison with alternative outlets. Location adjustments need not and cannot be adjusted to equalize competition which may arise from other markets. The proposal should be denied.

General findings. (a) The proposed marketing agreement and the order, as amended, and as hereby proposed to be further amended, and all of the terms and conditions thereof will tend to effectuate the declared policy of the act;

(b) The parity prices of milk as determined pursuant to section 2 of the act are not reasonable in view of the price of feeds, available supplies of feeds and other economic conditions which affect market supply and demand for milk in the marketing area, and the minimum prices specified in the proposed marketing agreement and the order, as amended, and as hereby proposed to be further amended, are such prices as will reflect the aforesaid factors, insure a sufficient quantity of pure and wholesome milk, and be in the public interest; and

(c) The proposed order, as amended, and as hereby proposed to be further amended, will regulate the handling of milk in the same manner as and will be applicable only to persons in the respective classes of industrial and commercial activity specified in a marketing agreement upon which a hearing has been held.

Rulings on proposed findings and conclusions. Briefs were filed on behalf of producer organizations and handlers subject to the proposed marketing agreement and order, as hereby proposed to be further amended. The briefs contained proposed findings, conclusions, and arguments with respect to the provisions of the proposed amendments. Every point covered in the briefs was carefully considered along with the evidence in the record in making the findings and reaching the conclusions hereinbefore set forth. To the extent that the findings and conclusions proposed in the briefs are inconsistent with the findings and conclusions contained herein, the request to make such findings or to reach such conclusions is denied on the basis of the facts found and stated in connection with the conclusions in this recommended decision.

Recommended marketing agreement and amendment to the order. The following order, amending the order, as amended, is recommended as the detailed and appropriate means by which the foregoing conclusions may be carried out. The proposed marketing agreement is not included in this decision because the regulatory provisions thereof would be identical with those contained in the order, as amended, and as hereby proposed to be further amended.

1. Amend § 913.6 to read as follows:

§ 913.6 *Greater Kansas City marketing area.* "Greater Kansas City marketing area", hereinafter called "marketing area", means all of the territory in Jackson County, Missouri; that part of Clay County, Missouri, south of Highway 92, beginning at the Platte County and Clay County line, east to the west section line of section 26 in Washington Township, north to the north section line of said section 26, east to the Clay County and Ray County Line; Lee, Waldron, May and Pettis Townships, and that portion of Carroll Township lying south of a line extending from the northeast corner of Lee Township east to the intersection of State Highway 92 and U. S. Highway 71, thence along State Highway 92 to Platte County and Clay County line, all in Platte County, Missouri; Wyandotte County, Kansas; Shawnee and Mission Townships in Johnson County, Kansas; and Delaware, Leavenworth, and that part of Kickapoo and High Prairie Townships east of the 95th principal meridian in Leavenworth County, Kansas.

2. Amend § 913.10 to read as follows:

§ 913.10 *Pool plant.* "Pool plant" means any approved plant other than that of a producer-handler:

(a) Which during the current or immediately preceding delivery period:

(1) Disposes of as Class I milk on routes in the marketing area, an amount equal to 20 percent or more of such plant's total receipts of milk from dairy farmers qualified to become producers (as defined in § 913.7) and in bulk from other approved plants; and also

(2) During the same delivery period disposes of, as Class I milk in total an amount equal to not less than the applicable percentage of such receipts, as follows:

(i) March through June, 30 percent;

(ii) July through February, 40 percent;

(3) For the purposes of calculating the percentages specified in subparagraphs (1) and (2) of this paragraph:

(i) Milk in packaged form transferred from one approved plant to another approved plant shall be credited as Class I disposition on routes by the transferor plant and an equal volume shall be excluded from the Class I disposition of the transferee plant; and

(ii) The combined receipts and disposition of the multiple plant operation shall be used in the case of each handler who disposes of any milk on a route in the marketing area and also operates more than one approved plant;

(b) Which during any delivery period of August through January transfers in bulk to a plant described in paragraph (a) of this section an amount of milk equal to 50 percent or more of such plant's receipts of milk from dairy farmers qualified to become producers (as defined in § 913.7). Any such plant which is a pool plant in each of the delivery periods of August through January shall be a pool plant for each of the following delivery periods of February through July regardless of the quantity of milk then disposed of to other pool plants, if a written request for pool plant status for such six-month period is received from the operator of such plant by the market administrator before February 1; or

(c) Which is operated by a cooperative association and 75 percent or more of the milk delivered during the delivery period by producers who are members of such association is received at the pool plants of other handlers.

3. Amend § 913.44 (c) and (d) to read as follows:

(c) As Class I milk if transferred or diverted in the form of milk, skim milk or cream to a nonpool plant located more than 250 miles from the City Hall in Kansas City, Missouri, by the shortest highway distance as determined by the market administrator, except that (1) cream so transferred may be classified as Class II milk if its utilization as Class II milk is established through the operation of another Federal order for another milk marketing area; or (2) cream so transferred with prior notice to the market administrator, and with each container labeled or tagged with a certificate of the transferor that such cream is sold as "Grade C cream for manufacturing only", may be classified as Class II milk, subject to such verification of alternate utilization as the market administrator may make.

(d) As Class I milk, if transferred or diverted in the form of milk, swim milk or cream to a nonpool plant located not more than 250 miles from the City Hall in Kansas City, Missouri, by shortest highway distance as determined by the market administrator, unless the market administrator is permitted to audit the records of receipts and utilization at such nonpool plant, in which case the classification of all skim milk and butterfat received at such nonpool plant shall be determined and the skim milk and butterfat transferred from the pool plant shall be allocated to the highest use remaining after subtracting in series beginning with Class I milk, receipts of skim milk and butterfat at such nonpool plant direct from dairy farmers who the market administrator determines constitute the regular source of supply for fluid usage of such nonpool plant in markets supplied by such plant.

4. Amend § 913.61 to read as follows:

§ 913.61 *Handler operating an approved plant which is not a pool plant.* Each handler who operates an approved plant which is not a pool plant but from which Class I milk is disposed of on routes in the marketing area shall, in lieu of the payments required by § 913.80 through § 913.89, pay to the market administrator on or before the 25th day after the end of the delivery period as follows:

(a) For the producer-settlement fund, the lesser of the amounts resulting from the following computations:

(1) From the value of all skim milk and butterfat disposed of as Class I milk on routes in the marketing area at the Class I price applicable at the location of such handler's plant, deduct the value of such skim milk and butterfat at the Class II price; or

(2) Any plus amount remaining after deducting from the value that would have been computed pursuant to § 913.70 if such handler had operated a pool plant the gross payments made by such handler for milk received during the delivery period from dairy farmers whose milk was approved for fluid use; and

(b) As his pro rata share of the expense of administration hereof, an amount equal to that which would have been computed pursuant to § 913.89 had such handler operated a pool plant.

Filed at Washington, D. C., this 16th day of November 1955.

CIVIL AERONAUTICS BOARD

[14 CFR Part 40]

WEATHER REPORTING FACILITIES AND REQUIREMENTS COVERING LANDING LIMITATIONS OUTSIDE CONTINENTAL UNITED STATES

NOTICE OF PROPOSED RULE MAKING

Pursuant to authority delegated by the Civil Aeronautics Board to the Bureau of Safety Regulation, notice is hereby given that the Bureau will propose to the Board amendments to Part 40 of the Civil Air Regulations as hereinafter set forth.

Interested persons may participate in the making of the proposed rules by submitting such written data, views, or arguments as they may desire. Communications should be submitted in duplicate to the Civil Aeronautics Board, attention Bureau of Safety Regulation, Washington 25, D. C. In order to insure their consideration by the Board before taking further action on the proposed rules, communications must be received by January 20, 1956. Copies of such communications will be available after January 24, 1956, for examination by interested persons at the Docket Section of the Board, Room 5412, Department of Commerce Building, Washington, D. C.

Part 40 of the Civil Air Regulations contains the certification and operation rules for scheduled air carriers conducting interstate operations. Part 41, on the other hand, contains the regulations applicable to scheduled air carriers operating outside the continental limits of the United States. However, § 40.1 of Part 40 permits the Administrator to authorize air carriers whose operations are essentially domestic in character to operate on routes extending beyond the continental limits of the United States in accordance with the provisions of Part 40 in lieu of the provisions of Part 41 in order to permit continuity of operating procedures throughout the air carriers' systems.

Currently effective § 40.35 of Part 40 requires air carriers to show that sufficient weather reporting services are available en route to insure necessary weather reports and forecasts prepared and releasd by the United States Weather Bureau or by a source approved by the Weather Bureau. However, reports prepared by the United States Weather Bureau or a source approved by the Weather Bureau are not normally available for areas under the jurisdiction of other nations.

Currently effective § 40.406 of Part 40 prescribes the take-off and landing weather minimum requirements for IFR flight. These requirements include provisions allowing pilots to "take-a-look" to determine whether conditions at the airport are at or above prescribed weather minimums and, if so, to continue to approach and land. Authority to "take-a-look" is limited to airports served by ILS and GCA in operative condition or to airports at which certain instrument approach procedures are commenced when wheather conditions above prescribed minimums exist but which a later report indicates are below minimum requirements. Part 41, on the other hand, prohibits air carriers from "taking-a-look" only at airports at which United States Weather Bureau reports indicate below minimum conditions exist. At airports outside the United States which do not possess a United States Weather Bureau reporting service, a pilot may in his discretion "take-a-look." If he finds that weather conditions at the airport are at or above prescribed weather minimums, he may complete the approach and land.

The inapplicability of § 40.35 to air carrier operations outside the United States and the inconsistency between Parts 40 and 41 with respect to "take-a-look" restrictions apear to have been an oversight. The Bureau proposes, therefore, to recommend to the Board the amendment of § 40.35 to provide for the use of weather reports prepared by sources other than those approved by the United States Weather Bureau on routes extending beyond the continental limits of the United States on which operations are conducted pursuant to § 40.1. The

Bureau proposes that these "other" sources shall be approved by the Administrator.

The Bureau also proposes to amend § 40.406 by prohibiting pilots from "take-a-look" only when the latest United States Weather Bureau report or a report from a source authorized by the Weather Bureau indicates the ceiling or visibility to be less than the prescribed minimum.

In view of the foregoing, notice is hereby given that it is proposed to amend Part 40 of the Civil Air Regulations:

1. By amending § 40.35 to read as follows:

§ 40.35 *Weather reporting facilities.* The air carrier shall show that sufficient weather reporting services are available along the route to insure weather reports and forecasts necessary for the operation. Forecasts used to control flight movements shall be prepared from weather reports made in accordance with paragraphs (a) and (b) of this section as appropriate.

(a) Except as provided in paragraph (b) of this section, weather reports used to control flight movements shall be those prepared by the United States Weather Bureau, or by a source authorized by the Weather Bureau.

(b) For operations authorized in accordance with § 40.1 to be conducted outside the continental limits of the United States, weather reports used to control flight movements may be those prepared by any source approved by the Administrator.

2. By amending § 40.406 (a) to read as follows:
